## HOW TO USE THIS BULLETIN

This 1999-2000 *Marquette University Undergraduate Bulletin* governs curricular requirements of all students entering Marquette University undergraduate programs as freshmen or as advanced standing students during the 1999-2000 academic year. These requirements, and other provisions within this bulletin, may be changed from time to time without notice. Each entering student should preserve his/her copy of the bulletin for reference during his/her entire undergraduate career at Marquette. Each student should refer to subsequent editions of the bulletin for any changes. Additional copies of the bulletin, to be published annually, may be purchased at the Golden Eagle store in the Alumni Memorial Union. Reference copies of the *Undergraduate Bulletin* are available in the Memorial Library as well as in the offices of colleges, schools and departments, and on the university's Web site.

---

## FROM THE PRESIDENT

*"We have proclaimed on a number of occasions, both public and private, that historically as a Christian and Catholic institution we are dedicated to the proposition that all human beings possess an inherent dignity in the eyes of their Creator and equality as children of God. The university entirely and consistently disowns, as a matter of principle, any unlawful or wrongful discrimination against the rights of others. It tolerates no such discrimination in its internal affairs and deplores such discrimination wherever it may exist. The university is committed to the principle of equal opportunity in admissions, financial aids, employment and housing regardless of race, color, sex, religion, age, national origin, disability, or veteran's status. The university also is committed to the principle of affirmative action. The university reserves the right to maintain its heritage and destiny as a Christian and Catholic witness in higher education."*

Rev. Robert A. Wild, S.J.  
President  
Marquette University

# THE UNIVERSITY

## HISTORY

Marquette University was founded in 1881 by members of the Society of Jesus, a Catholic religious order established in 1540 by St. Ignatius Loyola. The university is named after Father Jacques Marquette (1637-1675), a French, Jesuit missionary and explorer in North America.

The origins of Marquette University date from 1848 when the Most Rev. John Martin Henni, first bishop of Milwaukee, obtained \$16,000 from Guillaume DeBoey, a Belgian, Catholic businessman, to establish a Jesuit college. Bishop Henni petitioned the Jesuits to open a school, Marquette College, in Milwaukee. Because the Jesuits lacked personnel to undertake the project for decades, Marquette College did not open until 1881.

Marquette remained a small liberal arts college for men at North 10th and West State Streets until 1907. That year its leaders obtained a university charter from the state of Wisconsin and moved operations to a building just east of Gesu Church, at North 12th Street and West Wisconsin Avenue. That building, Johnston Hall, is the oldest building on the Marquette campus today.

Between 1907 and 1913, Marquette expanded to include divisions of medicine, dentistry, nursing, pharmacy, law, business, engineering, music and journalism. In 1909, Marquette became the first Jesuit university in the world to officially admit women students. Influenced by the need for certified parochial school teachers, women were admitted to the university's first summer school session that year.

Following World War II, enrollment at Marquette increased dramatically, as at other American colleges and universities. Demand for graduate and professional education grew.

In the 1960s and '70s, Marquette introduced doctoral programs in various fields, including religious studies, biology, history and chemistry.

Since 1990, Marquette has added degree programs for working adults, which offer courses on campus as well as at satellite locations in southeastern Wisconsin; a part-time law program; an executive master in business administration program; and programs in physician assistant studies and exercise science.

Today Marquette University has a campus of approximately 80 acres and 51 buildings located in downtown Milwaukee. It consists of 11 colleges and schools:

Arts and Sciences	Education	Law
Business Administration	Engineering	Nursing
Communication	Graduate	Professional Studies
Dentistry	Health Sciences	

## MISSION STATEMENT

Marquette University is a Catholic, Jesuit university dedicated to serving God by serving our students and contributing to the advancement of knowledge. Our mission, therefore, is the search for truth, the discovery and sharing of knowledge, the fostering of personal and professional excellence, the promotion of a life of faith, and the development of leadership expressed in service to others.

### **Excellence**

Our students, whether traditional or non-traditional, undergraduate, graduate or professional, come to Marquette University to share our commitment to the pursuit of excellence in all things as a lifelong endeavor. They come to join a community whose members — faculty, staff, students, trustees, alumni and friends alike — believe that education must encompass the whole person: spiritual and moral as well as intellectual, the heart as well as the mind. And they come seeking the educational, professional and cultural advantages of a university located in the heart of the city. We, in turn, take seriously our responsibility to foster and support excellence in teaching and research, to keep a Marquette education accessible to a diverse population of students, and to offer personal attention and care to each member of the Marquette community.

### **Faith**

As a Catholic university, we are committed to the unfettered pursuit of truth under the mutually illuminating powers of human intelligence and Christian faith. Our Catholic identity is expressed in our choices of curricula, our sponsorship of programs and activities devoted to the cultivation of our religious character, our ecumenical outlook, and our support of Catholic beliefs and values. Precisely because Catholicism at its best seeks to be inclusive, we are open to

all who share our mission and seek the truth about God and the world, and we are firmly committed to academic freedom as the necessary precondition for that search. We welcome and benefit enormously from the diversity of seekers within our ranks, even as we freely choose and celebrate our own Catholic identity.

### **Leadership**

As a Jesuit university, Marquette embodies the intellectual and religious traditions of the Society of Jesus. Through an academically rigorous, values-centered curriculum, our students receive a firm grounding in the liberal arts, preparation for work in a world of increasing complexity and diversity, and formation for life as ethical and informed leaders in their religious, cultural, professional and civic communities. They work with and learn from faculty who are true teacher-scholars, whose research not only advances the sum of human knowledge, but also informs their teaching, and whose commitment to students is fundamental to their intellectual and professional lives.

### **Service**

Through both our academic and co-curricular programs, Marquette strives to develop men and women who will dedicate their lives to the service of others, actively entering into the struggle for a more just society. We expect all members of the Marquette community, whatever their faith traditions, to give concrete expression to their beliefs by giving of themselves in service to those in need.

All this we pursue for the greater glory of God and the common benefit of the human community.

## **STATEMENT ON HUMAN DIGNITY AND DIVERSITY**

As a Catholic, Jesuit university, Marquette recognizes and cherishes the dignity of each individual regardless of age, culture, faith, ethnicity, race, gender, sexual orientation, language, disability of social class. Precisely because Catholicism at its best seeks to be inclusive, we are open to all who share our mission and seek the truth about God and the world. Through our admissions and employment policies and practices, our curricular and co-curricula offerings, and our welcoming and caring campus environment, Marquette seeks to become a more diverse and inclusive academic community dedicated to the promotion of justice.

Our commitment to a diverse university community helps us to achieve excellence by promoting a culture of learning, appreciation and understanding. Each member of the Marquette community is charged to treat everyone with care and respect, and to value and treasure our differences. This call to action is integral to the tradition which we share.

## **ACCREDITATION**

An educational institution is only as strong as the level of excellence which it demands of itself as well as of its faculty and students. As an institution, Marquette University is accredited by the North Central Association of Colleges and Schools Commission on Institutes of Higher Education. Marquette University has set consistently high standards for itself which have resulted in accreditation and approval of its academic programs from these additional organizations and associations:

Accreditation Board for Engineering and Technology, Accrediting Council on Education in Journalism and Mass Communication, American Assembly of Collegiate Schools of Business, American Chemical Society, American Physical Therapy Association, Association of American Law Schools, Commission on Dental Accreditation of the American Dental Association, Council on Legal Education and Admissions to the Bar of the American Bar Association, Council on Social Work Education, Department of Public Instruction of State of Wisconsin, Educational Standards Board of The American Speech-Language-Hearing Association, National Accrediting Agency for Clinical Laboratory Sciences, National Council for Accreditation of Teacher Education, National League for Nursing Accrediting Commission, Wisconsin State Board of Nursing and Council for National Register of Health Service Providers in Psychology.

These accreditations assure a student that Marquette is recognized and approved by select national and regional educational associations, societies and councils. In addition, a student has the security of knowing that credits earned at Marquette have transfer value to comparable institutions of learning, just as an incoming transfer student learns by checking this list that Marquette can be expected to honor most credits earned at a similarly accredited college or university.

# ACADEMIC CALENDAR

## FALL TERM 1999–2000

Key: Module 1 — 16 weeks 8/30/99 - 12/18/99 (semester)

Module 2 — 8 weeks 8/30/99 - 10/23/99

Module 3 — 8 weeks 9/13/99 - 11/6/99

Module 4 — 8 weeks 10/25/99 - 12/18/99

Module 5 — 8 weeks 11/8/99 - 1/15/2000

### August

16-20	Monday-Friday	First-year Law Orientation
23	Monday	Law School classes begin
25-29	Wednesday-Sunday	New undergraduate student orientation
26-27	Thursday-Friday	New dental student orientation
28	Saturday	Undergraduate Part-time Studies orientation
30	Monday	Classes begin for Modules 1 and 2 (except in Law)
30	Monday	Fall Modules 1 and 2 TVR Late Registration begins

### September

6	Monday	Labor Day holiday; classes excused
7	Tuesday	Fall Modules 1 and 2 TVR Registration ends at noon
11	Saturday	College of Professional Studies orientation
13	Monday	Fall Module 3 begins
13	Monday	Fall Module 3 TVR late registration begins
21	Tuesday	Fall Module 3 TVR registration ends at noon

### October

8-9	Friday-Saturday	Make-up examinations; removal of incompletes from Spring Term 1998-99
8	Friday	Fall Module 2 final day for withdrawal with grade of W
22	Friday	Mid-term holiday; classes excused for Fall Module 1 (except in Dentistry and Law)
23	Saturday	Fall Module 3 final day for withdrawal with grade of W
23	Saturday	Fall Module 2 ends
25	Monday	Mid-term undergraduate grades due to college offices for Fall Module 1
25	Monday	Fall Module 4 begins
25	Monday	Fall Module 4 TVR late registration begins

### November

1	Monday	All Saints Day; classes excused (except in Law and Professional Studies); dental clinic closed
1-5	Monday-Friday	Advising for Spring Term 1999-2000 registration
2	Tuesday	Fall Module 4 TVR registration ends
6	Saturday	Fall Module 3 ends
6	Saturday	College of Professional Studies orientation
8	Monday	TVR Early Registration for Spring Term 1999-2000 begins
8	Monday	Fall Module 5 begins
8	Monday	Fall Module 5 TVR late registration begins
16	Tuesday	Fall Module 5 TVR registration ends
19	Friday	Final day for withdrawal with grade of W for Module 1
22-28	Monday-Sunday	Thanksgiving holiday; classes excused for Module 5
24-28	Wednesday-Sunday	Thanksgiving holiday; classes excused for Modules 1 and 4
29	Monday	Fall Modules 1, 4 and 5 classes resume

### December

2	Thursday	TVR interim registration for Spring Term 1999-2000 begins
3	Friday	Fall Module 4 final day for withdrawal with grade of W
3	Friday	Law School study day; classes excused
6-7	Monday-Tuesday	Dental School National Board Part I and II
6-18	Monday-Saturday	Law School final examinations
8	Wednesday	Feast of the Immaculate Conception; classes excused for Fall Module 1; dental clinic closed
11	Saturday	Classes end for Fall Module 1
13-17	Monday-Friday	Dental School final examinations

13-18	Monday-Saturday	Final examinations for Fall Module 1 — undergraduate and graduate
18	Saturday	Fall Modules 1 and 4 end
18-Jan. 2	Saturday-Sunday	Christmas holiday; Dental classes excused
19	Sunday	Activities for mid-year graduates
19-Jan. 16	Sunday-Sunday	Christmas holiday; classes excused for Fall Modules 1 and 4
19-26	Sunday-Sunday	Christmas holiday; classes excused for Fall Module 5
31	Friday	Fall Module 5 final day for withdrawal with grade of W

## SPRING TERM 1999-2000

Key: Module 1 — 16 weeks 1/18/2000 - 5/13/2000 (semester)

Module 2 — 8 weeks 1/18/2000 - 3/11/2000

Module 3 — 8 weeks 3/13/2000 - 5/13/2000

### January

3	Monday	Dental School classes begin
10	Monday	Law School classes begin
15	Saturday	Fall Module 5 ends
15	Saturday	College of Professional Studies/Part-time Studies orientation
17	Monday	TVR late registration for Spring Term 1999-2000 begins for Spring Modules 1 and 2
17	Monday	Martin Luther King Day; classes excused
18	Tuesday	Classes begin for Spring Modules 1 and 2 (except in Dentistry and Law)
25	Tuesday	Spring Modules 1 and 2 TVR registration ends at noon

### February

18-19	Friday-Saturday	Make-up examinations; removal of incompletes for undergraduates
23	Wednesday	Dental School Table Clinics
26	Saturday	Spring Module 2 final day for withdrawal with grade of W

### March

5-12	Sunday-Sunday	Spring holiday; classes excused for Spring Modules 1 and 2 (except Professional Studies)
6	Monday	Mid-term undergraduate grades due to college office for Spring Module 1
6	Monday	TVR registration for summer term begins
11	Saturday	Spring Module 2 ends
11	Saturday	College of Professional Studies orientation
13	Monday	Classes resume for Spring Module 1
13-17	Monday-Friday	Advising for Fall Term 2000-2001
13	Monday	Spring Module 3 begins
13	Monday	Spring Module 3 TVR late registration begins
20	Monday	TVR early registration for Fall Term 2000-2001 begins
21	Tuesday	Spring Module 3 TVR registration ends at noon

### April

10	Monday	TVR interim registration for Fall Term 2000-2001 begins
14	Friday	Final day for withdrawal with grade of W for Spring Module 1
16-23	Sunday-Sunday	Easter holiday; classes excused for courses offered by College of Professional Studies
20-24	Thursday-Monday	Easter holiday; classes excused for Dental School and Spring Modules 1 and 3
21-24	Friday-Monday	Easter holiday; classes excused for Law School
23	Sunday	Easter Sunday
25	Tuesday	Classes resume for Spring Modules 1 and 3
27	Thursday	Law School classes end
28	Friday	Law School study day
28	Friday	Spring Module 3 final day for withdrawal with grade of W

### May

1-5	Monday-Friday	Dental School sophomore and junior final examinations
1-13	Monday-Saturday	Law School final examinations
6	Saturday	Classes end for Spring Module 1

6-14	Saturday-Sunday	Dental School Sophomore and Junior Break
8-12	Monday-Friday	Dental School Freshman final examinations
8-13	Monday-Saturday	Final examinations for Module 1 — undergraduate and graduate
13	Saturday	Spring Modules 1 and 3 end
13	Saturday	College of Professional Studies orientation
14-19	Sunday-Friday	Undergraduate Senior Week
15	Monday	Summer Modules 4 and 6 begin
15	Monday	Summer Modules 4 and 6 TVR late registration begins
17	Wednesday	Dental School seniors must clear by 5 p.m.
20-21	Saturday-Sunday	Baccalaureate and Commencement

\* Calendar dates for a number of programs and classes may differ from the semester (Module 1) calendar dates listed above. Please check the *Timetable of Classes* or check with your particular program to verify dates.

## SUMMER 2000

**Key:** Summer Module 1 — 5/22/2000 - 7/1/2000 (Traditional first session six-week courses)  
 Summer Module 2 — 7/3/2000 - 8/12/2000 (Traditional second session six-week courses)  
 Summer Module 3 — 5/30/2000 - 7/29/2000 (Eight-week courses primarily offered by Professional Studies)  
 Summer Module 4 — 5/15/2000 - 7/1/2000 (First group of seven-week courses primarily offered by MBA and Physician Assistant Studies programs)  
 Summer Module 5 — 7/3/2000 - 8/26/2000 (Second group of seven- to eight-week courses primarily offered by MBA and Physician Assistant Studies programs)  
 Summer Module 6 — 5/15/2000 - 8/12/2000 (Courses normally longer than eight weeks in length, includes MBA long courses and dentistry courses)

<i>May</i>		
22	Monday	Summer Module 1 begins
22	Monday	Summer Module 1 TVR late registration begins
23	Tuesday	Summer Modules 4 and 6 TVR late registration ends at noon
24	Wednesday	Summer Module 1 TVR late registration ends at noon
29	Monday	Memorial Day observed; classes excused
29	Monday	Summer Module 3 TVR late registration begins
30	Tuesday	Summer Module 3 begins
<i>June</i>		
6	Tuesday	Summer Module 3 TVR late registration ends at noon
16	Friday	Summer Modules 1 and 4 final day for withdrawal with grade of W
<i>July</i>		
1	Saturday	Summer Modules 1 and 4 end
2-9	Sunday-Sunday	Independence Day holiday; classes excused for courses offered by College of Professional Studies
3	Monday	Summer Modules 2 and 5 begin
3	Monday	Summer Modules 2 and 5 TVR late registration begins
4	Tuesday	Independence Day holiday; classes excused
6	Thursday	Summer Module 2 TVR late registration ends at noon
11	Tuesday	Summer Module 5 TVR late registration ends at noon
14	Friday	Summer Module 3 final day for withdrawal with grade of W
21	Friday	Summer Module 6 final day for withdrawal with grade of W
28	Friday	Summer Module 2 final day for withdrawal with grade of W
29	Saturday	Summer Module 3 ends
<i>August</i>		
11	Friday	Summer Module 5 final day for withdrawal with grade of W
12	Saturday	Summer Module 2 ends
12	Saturday	Summer Module 6 ends
26	Saturday	Summer Module 5 ends

*Note:* Final examinations for Summer Modules classes are administered during the last regularly scheduled class.

30	Saturday	Summer Modules 1 and 4 end
<i>July</i>		
1-8	Sunday-Sunday	Independence Day holiday; classes excused for courses offered by College of Professional Studies
2	Monday	Summer Modules 2 and 5 begin
2	Monday	Summer Modules 2 and 5 TVR late registration begins
4	Wednesday	Independence Day holiday; classes excused
5	Thursday	Summer Module 2 TVR late registration ends at noon
10	Tuesday	Summer Module 5 TVR late registration ends at noon
13	Friday	Summer Module 3 final day for withdrawal with grade of W
20	Friday	Summer Module 6 final day for withdrawal with grade of W
27	Friday	Summer Module 2 final day for withdrawal with grade of W
28	Saturday	Summer Module 3 ends
<i>August</i>		
10	Friday	Summer Module 5 final day for withdrawal with grade of W
11	Saturday	Summer Module 2 ends
11	Saturday	Summer Module 6 ends
25	Saturday	Summer Module 5 ends

*Note:* Final examinations for Summer Modules classes are administered during the last regularly scheduled class.

---

# ACADEMIC PROGRAMS

## UNDERGRADUATE PROGRAMS

**College of Arts and Sciences:** Curricula leading to the degrees bachelor of arts, bachelor of science and associate in arts (criminology and law studies only).

**College of Business Administration:** Curricula leading to the degree bachelor of science.

**College of Communication:** Curricula leading to the degree bachelor of arts.

**School of Education:** Curricula leading to certification in elementary, elementary/middle, middle/secondary and secondary school teaching.

**College of Engineering:** Curricula in biomedical, civil, computer, electrical, industrial and mechanical engineering leading to the degrees bachelor of science in biomedical, civil, computer, electrical, industrial and mechanical engineering.

**College of Health Sciences:** Curricula in biomedical sciences, clinical laboratory science, dental hygiene, exercise science, and speech pathology and audiology leading to the degree bachelor of science. Also, curriculum in physician assistant studies leading to the professional degree master of physician assistant studies and curriculum in physical therapy leading to the professional degree master of physical therapy.

**College of Nursing:** Curriculum leading to the degree bachelor of science in nursing.

**College of Professional Studies:** Curricula leading to the degrees bachelor of science and bachelor of arts.

Marquette University assumes no responsibility for the success of its students in obtaining professional certification or other types of professional licensure.

## GRADUATE SCHOOL

The Graduate School, in partnership with several undergraduate colleges, offers joint bachelor's and master's degrees. As of this printing, the College of Engineering and College of Business Administration (including programs in accounting and applied economics) are participating. For information contact the undergraduate college.

Marquette University's Graduate School offers more than 50 different master's and doctoral degrees and several certificate and post-master's programs. For a complete listing of program offerings or for additional information, including admission criteria, see the *Graduate School Bulletin* which is available upon request from the Graduate School and on the Graduate School's web page at ([www.grad.mu.edu](http://www.grad.mu.edu)).

## PROFESSIONAL PROGRAMS

### SCHOOL OF DENTISTRY

The Marquette School of Dentistry was opened in 1894 as a department of the Milwaukee Medical College. In 1907, Marquette University was chartered and the Milwaukee Medical College, and its curriculum in dentistry, affiliated with Marquette. The School of Dentistry is the only school of dentistry in the state of Wisconsin and, as such, is the largest single provider of dental care in the state. The clinics of the School of Dentistry, containing the latest dental equipment, are divided into several areas where specific treatment needs of patients can be met. Besides the adult clinics, there are also special clinics for children and patients requiring orthodontic treatment and one where dentistry for the elderly and the handicapped can be provided. A complete basic health sciences department with research laboratories has been constructed, and the School of Dentistry also has a modern Learning Center which contains an independent learning laboratory and the capabilities for the production of audiovisual instructional material.

The School of Dentistry offers a doctor of dental surgery degree. The School of Dentistry, in addition, also offers graduate programs in the specialties of endodontics, orthodontics and dental materials, as well as a combined program in the specialties of fixed and removable prosthodontics. Graduate courses are also offered in pediatric dentistry, oral surgery and periodontics for dental residents from Children's Hospital of Wisconsin, and the Veterans Administration Center at Wood, Wisconsin.

### LAW SCHOOL

For more than a century, the Marquette University Law School has been dedicated to training moral and ethical lawyers to meet the changing needs of society. The Law School prides itself on producing lawyers capable of representing clients in the "real world," as well as understanding the theoretical and philosophical bases for the law. The strong Law School core curriculum

prepares students for practice anywhere in the United States. In recent years particular emphasis has been placed on business law, intellectual property, children and family and the law, sports law, criminal justice, and international law. As a Catholic and Jesuit Law School, Marquette emphasizes the lawyer's obligation to serve the community, to act as an agent of change in society, to provide *pro bono* legal services, and to act as a responsible and reasonable member of the community.

The Law School is home to the National Sports Law Institute and the *Sports Law Journal*. The *Marquette Law Review* is recognized as an outstanding scholarly journal. The intellectual property law curriculum is one of the most developed curricula in the country, which includes the *Intellectual Property Law Review*. The Law School's clinical program includes placements throughout southeast Wisconsin in a variety of public and public interest law firms and with judges.

The school offers the juris doctor degree. Upon graduation, Marquette graduates who are residents of the state are admitted to the Wisconsin Bar without the necessity of a bar examination. The Law School began a part-time evening program in the fall of 1997.

#### **MASTER OF PHYSICIAN ASSISTANT STUDIES DEGREE**

The five-year master of physician assistant studies degree program, which is included in the College of Health Sciences, consists of two phases: the pre-professional phase and the professional phase. This program is an entry-level professional course of study which allows individuals who are working toward a baccalaureate degree or who hold a baccalaureate degree to apply for admission to the professional phase of the program.

Marquette freshmen who enroll in the College of Health Sciences and who begin the pre-PA track are able to apply during their sophomore year. If accepted, they begin the professional component of the program in the junior year.

#### **MASTER OF PHYSICAL THERAPY DEGREE**

The six-year master of physical therapy degree program, which is included in the College of Health Sciences, consists of two phases: the pre-professional phase and the professional phase. During the pre-professional phase, students will work toward completion of a bachelor's degree and will complete all undergraduate prerequisites for entry to the professional phase. Course selection will vary depending on each student's prior academic preparation and choice of undergraduate major. Entrance requirements and possible majors are outlined in the document detailing the MPT Program available from the Office of Undergraduate Admissions. In the three-year professional phase of the program, students will be enrolled in curricula culminating in a master of physical therapy.

Marquette University assumes no responsibility for the success of its students in obtaining professional certification or other types of professional licensure.

### **PROGRAMS FOR WORKING ADULTS**

The College of Professional Studies provides undergraduate degrees and non-credit courses, certificates and programs for adult students. Non-credit programs are administered by Corporate Outreach and Professional Development (formerly Continuing Education) and credit programs are administered by the Undergraduate Degree Program in the college.

#### **CORPORATE OUTREACH AND PROFESSIONAL DEVELOPMENT (FORMERLY CONTINUING EDUCATION)**

Corporate Outreach and Professional Development offers professional development workshops, seminars and certificate programs in business, management, computers, engineering and other areas for adults with varying educational backgrounds. Short-term, non-credit programs are available days and evenings throughout the year. Most programs are held in the Corporate Outreach and Professional Development Center on the Marquette campus; however, some programs are held at off-campus learning sites, including Kenosha and Waukesha. The conference facilities on the Marquette campus and in Kenosha are available for rent. For information on courses or rental opportunities, call (414) 288-7345; fax (414) 288-3730 e-mail, (info@www.conted.mu.edu) or write to Corporate Educational Outreach and Professional Development, Marquette University, Mashuda Hall, 250, P.O. Box 1881, Milwaukee, WI 53201-1881.

#### **UNDERGRADUATE DEGREE PROGRAMS**

The College of Professional Studies offers a variety of undergraduate degrees designed for working adults. Set within convenient eight and sixteen week modules, classes are on Saturdays from 8 a.m. to noon and from 1 p.m. to 5 p.m. and evenings during the week. See the program section of the College of Professional Studies in this bulletin for specific admission criteria, degree requirements and curriculum information.

Qualified students may enroll with no prior college experience or with transfer credits from other colleges. Working in concert with Part-time Studies, the College of Professional Studies coordinates a range of academic, administrative and student services for working adults.

### **PART-TIME STUDIES**

The Part-time Studies Program offers a variety of undergraduate degrees for working adults. Students enrolled in the Part-time Studies Program, may take classes during weekdays, evenings, and weekends depending on the course of study.

Students eligible for the Part-time Studies Program are individuals who must pursue or continue their education on a part-time basis until graduation. (Part-time is defined as 11 or less credit hours per term.)

Taking a reduced course load on a temporary basis does not constitute eligibility for the Part-time Studies Program. Students temporarily taking 11 or fewer credit hours in a term will be charged the non Part-time Studies tuition rate, as quoted in the Tuition, Fees and Housing section of this bulletin.

For information for both the College of Professional Studies and the Part-time Studies Program, call (414) 288-3153; fax (414) 288-3298, e-mail [MCPS@marquette.edu](mailto:MCPS@marquette.edu) or write to: The College of Professional Studies, Marquette University, 1212 Building , 103, P.O. Box 1881, Milwaukee, WI 53201-1881.

### **SUMMER STUDIES**

Marquette University offers two consecutive six-week modules with undergraduate and graduate courses which are applicable to degrees in all colleges and schools of the university. Several additional modules which are shorter or longer than the traditional six-week modules are included within Summer Studies. Domestic and foreign travel programs are offered each summer and provide students with an exciting off-campus study experience. Summer Studies provides an opportunity for students to take needed course work, accelerate their programs of study and enroll in courses of personal interest. For information concerning course offerings and travel study programs, contact the Office of Summer Studies, Marquette University, P.O. Box 1881, Milwaukee, WI 53201-1881; or call (414) 288-7506; or e-mail ([hegertym@marquette.edu](mailto:hegertym@marquette.edu)).

### **PRE-DENTAL SCHOLARS PROGRAM**

The Pre-dental Scholars Program is an accelerated program which allows students to receive the benefits of a liberal arts education while enjoying conditional acceptance to Marquette's School of Dentistry, the only dental school in the state of Wisconsin. Pre-dental scholars complete a bachelor's degree and a dental degree in seven years, rather than the eight years normally required.

Pre-dental scholars enroll in the College of Arts and Sciences, major in biology and complete the undergraduate portion of their studies in three years. They are awarded a bachelor's degree upon successful completion of the first year in Marquette's School of Dentistry. For information, call the Office of Undergraduate Admissions at (414) 288-7302.

### **WASHINGTON, D.C., INTERNSHIP PROGRAM**

The Marquette University Les Aspin Center for Government offers students the opportunity to study in Washington, D.C., as part of their degree program. Students live and work on Capitol Hill, participate in House and Senate internships, and receive hands-on training in legislative processes. Students attend lectures and symposia by leading figures in Congress, government agencies and business, gaining insight to the inner workings of the democratic process and the relationships that exist between government and business.

The center also conducts opportunities for foreign studies and international exchanges. For information, contact the center at (800) 544-1789.

### **STUDY ABROAD PROGRAMS**

Students may study abroad with a Marquette foreign program, a Marquette exchange program, a Marquette summer or intersession program, or a non-Marquette program. The College of Arts and Sciences maintains the Study Abroad Resource Center in Marquette Hall, 208, with a collection of foreign study materials available to all students interested in exploring study abroad possibilities. Study abroad information also is available in the reference collection and at the reserve desk in the Memorial Library.

## **MARQUETTE FOREIGN PROGRAMS**

Marquette sponsors foreign programs in France (Strasbourg) and Spain (Madrid). Most forms of financial aid may apply. Details are available from the Office of Student Financial Aid, 1212 Building, at (414) 288-0200.

### **STRASBOURG, FRANCE**

Co-sponsored by St. Joseph's University, this program offers courses in liberal arts subjects, conducted exclusively in French, during the spring term. All students enroll in an intensive review and practice of French during the first four weeks of the program. For information, contact the program director in the Department of Foreign Languages and Literatures, Lalumiere Language Hall, (414) 288-7063.

### **MADRID, SPAIN**

Since 1965 Marquette has offered students with the required Spanish language skills the opportunity to study for one or two terms in Spain. Courses are taught in Spanish by the faculty of the Universidad Complutense de Madrid. Fields of study include art, economics, history, philosophy, political science and Spanish language and literature. Special features include excursions and an intensive language orientation before fall term begins. The resident director is a member of Marquette's Spanish faculty. For information, contact the administrative director, Study Center in Madrid, College of Arts and Sciences, Marquette Hall, (414) 288-7059.

## **EXCHANGE PROGRAMS**

Marquette has completed a number of exchange agreements with foreign universities. Under these agreements students pay tuition to Marquette but study at the university abroad. Most forms of financial aid apply. Details are available from the Office of Student Financial Aid.

1. For information about study at the following institutions, contact the director of International Business Studies in the College of Business Administration, David A. Straz Jr. Hall, (414) 288-7142.

Monash University, Melbourne, Australia  
University of Innsbruck, Austria  
University of Antwerp, Belgium  
Laval University, Quebec, Canada  
Beijing Center of Language and Culture, Beijing, China  
Southern Denmark Business School, Sonderborg, Denmark  
University of Kent, Canterbury, England  
Brookes College, Oxford, England  
St. Clare's College, Oxford, England  
University of Bordeaux, France  
Catholic University of Eichstätt, Germany  
Phillipps Universitat, Marburg, Germany  
University of Galway, Ireland  
Loyola University Rome Center of Liberal Arts, Rome, Italy  
Sophia University, Tokyo, Japan  
Universidad Iberoamericana, Mexico City, Mexico  
Kuban Institute, Krasnodar, Russia  
Universidad Pontificia Comillas, Madrid, Spain  
University de Deusto, San Sebastian, Spain

2. For information about study at the Universidad del Sagrado Corazon (San Juan, Puerto Rico), contact the study abroad coordinator in the College of Arts and Sciences, Marquette Hall.

In order to keep their Marquette records current, students who participate in an exchange program must register via TVR for the appropriate section of the zero-credit "International Exchange" course (ARSC 190, BUEX 190, COMM 190, NURS 190).

## **AFFILIATED PROGRAMS**

### **BEIJING, CHINA**

In cooperation with Loyola Marymount University, this program offers students the opportunity to combine study in language classes, cultural seminars and business courses with personal experience gained through excursions. For information, contact the study abroad coordinator, College of Arts and Sciences, Marquette Hall, at (414) 288-7059.

### **OXFORD, ENGLAND**

In cooperation with St. Clare's College, this program offers courses in liberal arts, economics, and foreign languages during the fall and the spring terms. Most students take a combination of

lecture courses and tutorials. Independent studies and internships are also available. For information, contact the director of International Business Studies in the College of Business Administration, David A. Straz Jr. Hall, at (414) 288-7142.

#### ROME, ITALY

Marquette University, in cooperation with Loyola University, Chicago, offers a study abroad program at the Loyola University Rome Center of Liberal Arts with courses regularly offered in the following areas: art history and studio art, classical civilization and literature, economics, English literature, history, international studies, Italian language and literature, philosophy, political science and theology. Courses in other disciplines may be offered when faculty become available. For information, contact the study abroad coordinator, College of Arts and Sciences, Marquette Hall, at (414) 288-7059.

In order to keep their Marquette records current, students who participate in an affiliated program must register via TVR for the appropriate zero-credit foreign study course (BUEX 191 or ARSAC 192). Federal financial aid, but not Marquette aid, applies to affiliated programs. Details are available from the Office of Student Financial Aid, at (414) 288-0200.

#### SUMMER AND INTERSESSION PROGRAMS

Students may earn Marquette credit in summer and intersession programs. Presently, Marquette conducts summer programs in Belgium (Antwerp), Mexico (Xalapa) and intersession programs (in December and January) in Russia and the Czech Republic. For information, students should contact:

1. Belgium or the Czech Republic: the director of International Business Studies in the College of Business Administration, David A. Straz Jr., Hall, at (414) 288-7142.
2. Mexico: the Department of Foreign Languages and Literatures, Lalumiere Language Hall, at (414) 288-7063.
3. Russia: the Department of Political Science, William Wehr Physics, at (414) 288-6842.

#### NON-MARQUETTE STUDY PROGRAMS

Students may elect to study abroad with an accredited non-Marquette program. They must obtain the approval of their college or program and, if possible, determine course equivalents in advance. In order to keep their Marquette records current, students who study abroad with non-Marquette programs must also register via TVR for a zero-credit "International Study" course (ARSC 101, BUEX 100, COMM 101, HESC 100) for the term in which they will be abroad. It is the student's responsibility to have all necessary documents and records sent to Marquette for processing upon completion of their study abroad. Neither Marquette aid nor federal financial aid applies to non-Marquette programs. For information, contact the study abroad coordinator, College of Arts and Sciences, Marquette Hall, (414) 288-7059.

#### HONORS PROGRAM

Organized in 1963, the Honors Program is designed to enhance the education experience of intellectually talented and academically motivated students from all colleges in the university. 65 freshman students are enrolled each year; total enrollment is currently about 250. Honors Program students are required to maintain a minimum grade point average of 3.200. Beginning in fall 1999, entering first-year honors students will be expected to live on the Honors Program floors in East Residence Hall.

The Honors Program offers a sequence of special courses (or sections of courses) in English, history, philosophy and theology. Beyond these courses, students extend their honors work in upper-division courses through independent study and seminars.

The university recognizes the distinction of this curricular sequence by awarding an honors degree at Commencement to students who have earned honors credit in at least 15 courses in a required distribution or an honors certificate to those who have earned honors credit in at least eight courses.

A distinctive feature of the Honors Program is the Honors Program Seminars (HOPR 196), offered each semester on a special topic. These seminars are most frequently conducted by faculty members from the departments of philosophy or theology, but other fields of study such as English and history also are represented.

The director monitors the academic progress of all program participants, certifies the successful completion of honors degrees and honors certificates, and supervises the implementation of program policies and procedures.

For information please contact the director of the Honors Program, Coughlin Hall, 001, Marquette University, P.O. Box 1881, Milwaukee, WI 53201-1881 or call (414) 288-7516.

## THE EDUCATIONAL OPPORTUNITY PROGRAM

The Educational Opportunity Program is an academic department of Marquette University that assists first-generation college students, underrepresented students, and students from low-income families to obtain a college education. EOP manages four major TRIO grants from the U.S. Department of Education, all of which share the common purpose of making a college education a realistic option for eligible students.

### **EOP STUDENT SUPPORT SERVICES**

EOP Student Support Services provide a network of services designed to increase the probability that each student will succeed in the university. Support services include need-based financial aid, a pre-freshman summer program, academic counseling, specialized courses, developmental seminars and tutoring, as well as personal career counseling. Students may apply to EOP-SSS when they apply for admission to Marquette University, after completion of the Marquette application, or even after beginning studies at Marquette. The majority of EOP-SSS students enroll as entering freshmen and participate in the EOP-SSS summer program. For application information, contact the counselor/recruiter, Educational Opportunity Program, Marquette Hall, 405, Marquette University, P.O. Box 1881, Milwaukee, WI 53201-1881 or call (414) 288-7593.

## McNAIR SCHOLARS PROGRAM

The McNair Scholars Program provides services designed to encourage eligible sophomores, juniors and seniors to prepare for doctoral study. During the academic year, McNair Scholars participate in seminars, meet with visiting minority scholars, and attend professional and undergraduate research conferences. In the summer, McNair Scholars receive eight-week paid research internships with Marquette faculty, visit graduate schools, and enroll in a GRE preparation course. McNair Scholars are eligible for conference travel grants, research stipends, GRE fee waivers and admissions application fee waivers. For application information, contact: McNair Scholars Program, Marquette Hall 402, Marquette University, P O Box 1881, Milwaukee, WI 53201-1881 or call (414) 288-1771.

## FRESHMAN FRONTIER PROGRAM

The Freshman Frontier Program is an academic support program for selected entering freshmen who do not meet regular admission requirements but show potential for success at Marquette. Students in this program must attend the summer studies prior to their freshman year. In addition they must carry a reduced course load (12-13 credit hours) during the fall and spring terms of their freshman year. The summer studies provides an opportunity for the student to enroll in a three-credit hour course from the regular freshman curriculum and two non-credit learning skills courses. Supportive services are provided during the summer studies and during the entire freshman year.

## ENGLISH AS A SECOND LANGUAGE

The Department of English offers English as a Second Language courses for students who are non-native speakers of English and who need further instruction and practice in composition, reading, listening comprehension, speaking and pronunciation. In addition to these advanced-level courses, there are ESL sections of English 001 and 002. All non-native speakers are required to take the ESL placement test after they arrive on campus. ESL courses, which are scheduled fall and spring semesters, are offered for degree credit, except for engineering students. Up to six credits may be applied toward a degree.

## MILITARY PROGRAMS

### **AIR FORCE AEROSPACE STUDIES**

Marquette University students have the opportunity to fully participate in the Air Force Reserve Officers Training Corps Program. The required AFROTC courses are offered at Marquette University and are taught by resident full-time aerospace studies faculty.

Through this program, Marquette University offers its students the opportunity to prepare for initial active duty assignments as Air Force Commissioned Officers. In order to receive a commission, AFROTC cadets must complete all university requirements for a degree and courses specified by the Air Force. AFROTC courses are normally taken for credit as part of a student's electives. The amount of credit given toward a degree for AFROTC academic work varies as

determined by the student's college and major. AFROTC offers four-, three- and two-year programs leading to a commission as an Air Force officer. Four-year program students complete the general military course and the professional officer course, in addition to a four-week summer field training between their second and third years in the program. Two-year students complete only the professional officer course, but have a six-week summer field training before entering the professional officer course.

*General Qualifications:*

- be a full-time student;
- be a United States citizen (for scholarship appointment);
- be in good physical condition;
- be of good moral character;
- for pilot or navigator training, fulfill all commissioning requirements before age 26 1/2; for scholarship recipients, fulfill commissioning requirements before reaching age 27 on June 30 in the estimated year of commissioning; for nonscholarship students, fulfill all commissioning requirements before age 30.

*General Military Course:* The first- and second-year educational program in Air Force aerospace studies consists of a series of one-hour courses designed to give students basic information on world military systems and the role of the U.S. Air Force in the defense of the free world. All required textbooks and uniforms are provided free. The general military course is open to all students at Marquette without advance application and does not obligate students to the Air Force in any way.

*Field Training:* AFROTC field training is offered during the summer months at selected Air Force bases throughout the U.S. The Air Force pays all expenses associated with field training. The major areas of study include junior officer training, aircraft and air crew orientation, career orientation, survival training, base functions and Air Force environment, and physical training.

*Professional Officer Course:* The third and fourth years of Air Force aerospace studies instruction are designed to develop skills and attitudes vital to the professional officer. Students completing the professional officer course are commissioned as officers in the U.S. Air Force upon college graduation. All students in the professional officer course receive a nontaxable subsistence allowance of \$150 per month during the academic year. Students wanting to enter the professional officer course should apply early in the spring term in order to begin this course of study in the following fall term. Final selection of students rests with the professor of aerospace studies.

*Leadership Laboratory:* Leadership laboratory is a cadet-centered activity. It is largely cadet planned and directed, in line with the premise that it provides leadership training experience that will improve a cadet's ability to perform as an Air Force officer. The freshman and sophomore leadership laboratory program introduces Air Force customs and courtesies, drill and ceremonies, wearing the uniform, career opportunities in the Air Force, education and training benefits, the life and work of an Air Force officer, and opportunities for field trips to Air Force installations throughout the U.S. Initial experiences include preparing the cadet for individual, squadron and flight movements in drill and ceremonies and for the field training assignment prior to the junior year.

The junior and senior leadership laboratory program involves the cadets in advanced leadership experiences. Cadet responsibilities include planning and directing the activities of the cadet corps, preparing briefings and written communications, and providing interviews, guidance, information and other services which will increase the performance and motivation of other cadets.

*AFROTC College Scholarship Program:* This program provides scholarships to selected students participating in AFROTC. While participating in AFROTC, students receive \$150 per month along with paid tuition, fees, laboratory expenses and a fixed reimbursement for textbooks.

In order to be eligible for this scholarship, students must:

- be a U.S. citizen;
- be at least 17 years of age on the date of enrollment and under 27 years of age on June 30 of the estimated year of commissioning;
- pass an Air Force physical exam;
- be selected by a board of Air Force officers;
- have no moral objections or personal convictions that will prevent bearing arms and supporting and defending the Constitution of the United States against all enemies, foreign and domestic (Applicants must not be conscientious objectors.);
- achieve a qualifying score on the Air Force Officer Qualifying Test;
- maintain a quality grade-point average.

High school students can apply for this scholarship late in their junior year or early in their senior year. High school students may get pre-applicant questionnaires by asking their guidance counselor or by writing or telephoning the nearest Air Force recruiting office. Completed pre-application questionnaires should be sent as soon as possible (to meet the earliest selection board) but will not be accepted if sent after December 1 the year before entering college.

For students already enrolled at Marquette, three- and two-year scholarships are available. Applications can be submitted to the professor of aerospace studies.

### **MILITARY SCIENCE**

The Department of Military Science, sponsored by the United States Army Reserve Officers' Training Corps program, was established under the auspices of the College of Arts and Sciences at Marquette University in 1951. Located in the east wing of the Marquette Gymnasium, the Marquette University Army Reserve Officers' Training Corps program combines college courses in military science with a summer training session. This prepares Marquette University undergraduate men and women to receive commissions in the U.S. Active Army, Army National Guard or the U.S. Army Reserve.

There are two program options: a four- or two-year program. The four-year program is divided into two phases: the basic course and the advanced course.

*Four-year Program:* The basic course is taken during the freshman and sophomore years. These courses are open to all students on an elective basis. All military science courses carry Marquette University credit. The courses, taught to meet the basic requirements, incur no military obligation and are free to all registered Marquette University students.

The advanced course is taken during the junior and senior year of the four-year program. Students in this program must have completed the basic course, have two years remaining in college and enter into a contract with the U.S. Army. Advanced course students take classes in leadership and participate in leadership laboratories to prepare for a five-week advanced camp during the summer between junior and senior years.

*Two-year Program:* The two-year program is designed for students at four-year institutions who did not take AROTC during their first two years of college, students entering a two-year postgraduate course of study, or students who have previous military experience. Training is formally started by attending a five-week paid basic camp. Successful completion of this camp is a prerequisite for enrolling in the AROTC advanced course.

*Scholarships:* Four- and three-year Army Reserve Officers' Training Corps Scholarships are available and are awarded on a competitive basis. These scholarships are worth \$15,000 annually. The scholarship also pays for the required educational fees, and provides \$450 annually for textbooks, supplies and equipment. In addition, students receive a subsistence allowance of up to \$1,500 for each year the scholarship is in effect.

Marquette University provides additional incentive funds for scholarship winners. Four-year scholarship winners receive \$7,000 toward tuition cap or university housing and board. Three-year advance designee winners receive \$13,000 in benefits for the freshman year. Once the scholarship benefits are applied in the sophomore year, Marquette University will still provide \$4,000 annually toward tuition cap or university housing and board.

Prospective students interested in a four-year Reserve Officers' Training Corps Scholarship should start the application process during the summer between their junior and senior year of high school. Scholarship applications may be obtained through the Department of Military Science, Marquette University. Current college students may apply for two- and three-year on-campus scholarships.

*Non-scholarship Program:* All students enrolled in the Advanced Course receive a \$150 per month subsistence allowance during the school year. Successful completion of the advanced course leads to commissioning in the Active Army, U.S. Army Reserve or National Guard. Veterans: Men and women at Marquette University with prior military service may enroll directly into the advanced course with the permission of the professor of military science. Veterans must be able to meet the age, citizenship and physical standards of the Reserve Officers' Training Corps program.

*Graduate Educational Delay:* Students may request that their active duty service be deferred until they complete their graduate studies.

*Cross-Enrollment:* Students enrolled in other Milwaukee-area universities and colleges may, with approval of the dean of the College of Arts and Sciences, enroll in military science courses and participate in the AROTC program at Marquette while continuing their major curricula at these neighboring institutions.

For course descriptions, credit and information see the Arts and Sciences section of this bulletin. For complete information, contact the Department of Military Science, Gymnasium A100, Marquette University, P.O. Box 1881, Milwaukee, WI 53201-1881 or call (800) 563-7339.

### **NAVAL SCIENCE**

The United States Naval ROTC unit, established at Marquette University in 1940, provides qualified Commissioned Officers for the Navy and Marine Corps. The mission is to develop midshipmen morally, mentally, and physically, and to imbue them with the highest ideals of honor, courage and commitment in order to commission college graduates as officers who possess a basic professional background, are motivated towards careers in the naval service and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. Graduates who complete all requirements will receive reserve commissions and serve on active duty in the Navy or Marine Corps, with a three-year commitment for non-scholarship students and four-year commitment for scholarship students.

Academically, the Naval Science Department, in the College of Arts and Sciences, teaches naval science courses and administers the program. All midshipmen are required to register for and participate in a two-hour weekly drill period. A naval science class is required each term, with few exceptions, for which Marquette credit toward graduation requirements. Midshipmen are also required to attend a summer training period for a period of four to six weeks each summer. This summer training introduces midshipmen to the fleet, and the life of a junior Naval Officer. The summer training period also provides an orientation to each of the different warfare specialties (air, surface, submarine and Marine Corps).

All NROTC students fall into one of two broad categories: scholarship, or non-scholarship (college program). Some students will enter Marquette with a four-year scholarship, earned on a competitive basis while still in high school. Scholarships are for full tuition, fees, books, laboratory expenses and include a subsistence of \$150 per month. In addition, Marquette provides incentive funds for scholarship winners. Four-year scholarship winners receive \$7,000 per year toward university housing and board.

Students not on scholarship are termed college program students. They receive uniforms, naval science text books and \$150 per month during their junior and senior years. All college program students are eligible to compete for a Chief of Naval Education and Training scholarships. Students are selected on a competitive basis after completing a minimum of one term as a NROTC college program student. Selection boards meet semi-annually in March and June to consider students based on their most recent term. Students may receive scholarships benefits ranging from one to seven terms. Once selected, the students receive all the benefits and incur the same active duty requirements as students in the regular scholarship program.

All NROTC navy option students, except nurse option, are required to complete two terms of calculus by the end of the sophomore year, and two terms of calculus-based physics by the end of the junior year. Navy option college program students must complete one year each in mathematics and physical science. One course in computer science, two terms of English, and either American Military History (HIST 118) or National Security Policy (POSC 129) are required for all navy option students.

All Marine Corps option students, scholarship and college program, are required to complete only the naval science class requirements during the first and last year. Calculus and physics are not required unless they are a prerequisite of the major field of study. During the junior and senior years, students are required to take the marine corps naval science course and American Military History (HIST 118) or National Security Policy (POSC 129). In addition, each student is required to complete a six-week officer training course at Quantico, Va., during the summer between the junior and senior years.

All scholarships are awarded on the basis of merit and personal qualifications. Neither Parents Confidential Financial Statement nor a standard FAF are required for consideration for naval scholarships.

For additional information, contact the Department of Naval Science, Marquette University, P.O. Box 1881, Milwaukee, WI 53201-1881, call (414) 288-7076 or (800) 554-NAVY or visit our Web site at ([www.Marquette.edu/rotc/navy/](http://www.Marquette.edu/rotc/navy/)).

# ADMISSION PROCEDURES

## APPLICATION FOR UNDERGRADUATE ADMISSION

Admission to Marquette University may be granted by the Committee on Admissions to an applicant whose qualifications indicate a potential for successful college work. During the application procedures, the educational background of the applicant is carefully reviewed, and each applicant is given personal attention and consideration.

After reviewing the admission procedures and requirements, prospective students should request an application from the Office of Undergraduate Admissions, Marquette University, P.O. Box 1881, Milwaukee, Wisconsin 53201-1881; or the university's web site, ([www.Marquette.edu](http://www.Marquette.edu)). The request for an application should indicate the classification for which the applicant wishes to apply.

Undergraduate applicants are considered for admission to Marquette University in one of the following classifications:

*Admission as a Freshman:* For applicants entering college for the first time.

*Admission with Advanced Standing:* For applicants who have been enrolled or registered in an institution of higher learning since high school graduation.

*Admission as a Non-degree Student:* For applicants who wish to receive credit for courses but who are not (yet) seeking degree status.

All records and other materials required for admission are described in this section. With the exception of physical therapy, admissions decisions are made on a rolling, first-come, first-served basis. If colleges and schools of the university have special admission procedures and requirements, they are listed in the respective sections of this bulletin.

Applicants with questions not answered in this section are encouraged to write to the Office of Undergraduate Admissions, Marquette University, P.O. Box 1881, Milwaukee, WI 53201-1881, or call (800) 222-6544 or (414) 288-7302.

## ADMISSION TO THE FRESHMAN CLASS

### GENERAL NORMS

Graduation from an accredited high school or the equivalent is required. For success in all of its programs, Marquette University recommends a balanced high school preparation with course work in the following areas: English, mathematics, natural science, social studies, and foreign language. The chart below lists the *minimum* recommended preparation.

### RECOMMENDED HIGH SCHOOL PREPARATION

	English	Social Studies	Foreign Language	Mathematics	Science (any)	Biology	Chemistry	Physics	Additional Academic Subjects	TOTAL
Arts and Sciences	4	3	2	3#	2†				2	16
Business Administration	4	2	2††	3#	2				3	16
Communication	4	2	2	2	1				5	16
Engineering	4	2		4	1	1	1	1	2	16
Nursing	4	2		3		1*	1*		5	16
Health Sciences	4	2		3#		1	1		5	16

\* Academic units specifically required for admission.

#Algebra, geometry, intermediate algebra required. Fourth year of mathematics recommended.

†Pre-medical/dental and science majors should complete three units of science (preferably biology, chemistry, physics; where physics is unavailable, another senior level science or math course should be substituted).

††Students interested in international business are strongly urged to complete four units of a single foreign language.

## ENTRANCE EXAMINATIONS

All applicants for admission as freshmen are required to take the Scholastic Aptitude Test (SAT) of the College Entrance Examination Board or the examination of the American College Testing Program (ACT). Information concerning these examinations can be obtained from high school counselors or by requesting information from the respective organizations. College Board ATP, P.O. Box 6200, Princeton, NJ 08541-6200; ACT Registration, P.O. Box 414, Iowa City, IA 52243. The bulletins, sent without cost, contain information on procedures, fees, and reports, and provide advice to applicants, descriptions of tests and lists of examination centers.

## APPLICATION FEE AND TUITION DEPOSIT

Each application for admission must be accompanied by a non-refundable application fee of \$30. An applicant who is admitted may reserve a place in class by forwarding a \$100 tuition deposit (and a \$100 housing deposit if university housing is desired) by the deadline date specified in his or her admission notification. The tuition deposit will be applied to the tuition assessment of the first term. The tuition and housing deposits are non-refundable.

## ADMISSION WITH ADVANCED STANDING

Students from other colleges, universities, or schools of recognized standing who have pursued courses equivalent to those offered at Marquette University may be considered for admission. In addition to the application forms and high school record, the applicant must submit an official transcript from each post-secondary school, college, university or other institution in which he or she was registered as official. The applicant must request that these transcripts be sent to the Office of Undergraduate Admissions, Marquette University, P.O. Box 1881, Milwaukee, Wisconsin 53201-1881. These transcripts must be sent directly to the Office of Undergraduate Admissions by the other institutions; they will not be accepted by Marquette if routed through the student. Failure to report attendance at any such institution since high school graduation is considered sufficient reason for dismissal.

Generally, applicants for advanced standing must present a satisfactory record from the schools previously attended. Specific programs may require an average above a 2.000 (on the four-point system). Applicants who are seeking to enter some of Marquette's academic programs as juniors or seniors may, at the discretion of the dean or director, be exempted from some freshman and sophomore subjects, provided they present acceptable substitutes.

An applicant for advanced standing admission who has completed fewer than 12 semester hours of college level work (or its equivalent) and who has never taken the Scholastic Aptitude Test (SAT) of the College Entrance Examination Board or the American College Testing Program (ACT) examination is required to take one of these tests and to have the results sent to Marquette University. (See Entrance Examinations, above.)

The university may accept credit from two- and four-year accredited educational institutions based on an individual evaluation of credits by the student's college using the following criteria:

- Educational nature of the institution from which the student intends to transfer credit.
- Comparability of the nature, content, and level of credit earned to that offered by the university.
- Appropriateness and applicability of the credit earned to the programs offered by the college, in light of the student's goals and the nature of Marquette's education. The university will normally not accept trade school or job training courses, physical education courses, or continuing education courses.

NOTE: Refer to individual colleges on Transfer Credit Policy for any transfer requirements.

The following regulations are observed in the granting of credit for work completed at other institutions:

1. Credit is not allowed for courses completed with lower than a C grade; credit may not be granted for certain courses of a professional, technical, or vocational nature.

2. A maximum of 16 hours of correspondence credits (including USAFI courses) may be accepted, provided that these credits are presented on the valid transcript of an accredited institution and that they would normally be accepted for degree credit by the sponsoring institution. These credits may not be used to meet major or minor requirements on the upper division level.

3. Credits from community colleges may not exceed one-half the number of semester hours required for graduation from a four-year curriculum.

4. A tentative evaluation of credits is usually made at the time of admission to Marquette University. This evaluation is subject to cancellation or revision at the close of two terms of full-time attendance, in accordance with the quality of the record made in the interim.

5. Registered nurse applicants follow general admission procedures. Transcripts from nursing programs and/or colleges must be sent to the Office of Undergraduate Admissions. The applicant must be a graduate of a National League for Nursing accredited program and must be currently licensed to practice as a registered nurse.

6. The final 30 credits earned must be from Marquette.

In addition, advanced standing students must meet all graduation requirements of their curricula as stated elsewhere in this bulletin.

## ADMISSION WITH NON-DEGREE STATUS

Students who wish to pursue courses for personal or professional development and who do not (yet) wish to pursue a degree may apply for admission with non-degree status. Although supporting credentials are not ordinarily required for the admission of non-degree students, applicants are encouraged to provide transcripts of high school and/or college work. An interview with the Office of Undergraduate Admissions is required.

Students who have been dismissed from other colleges or universities may be admitted with non-degree status with the lapse of at least one semester since the drop, and then only with the approval of the Committee on Admissions. Such applicants must file transcripts from schools previously attended before their requests for admission will be reviewed. These transcripts must be sent directly to the Office of Undergraduate Admissions by the other institutions; they will not be accepted by Marquette if routed through the student.

Students who wish to apply for student financial aid must seek degree status and must apply for admission as a freshman or for admission with advanced standing.

Additional regulations for non-degree students appear in the academic regulations section of this bulletin.

## ADMISSION OF NON-IMMIGRANT STUDENTS

Marquette University is pleased to enroll more than 600 non-immigrant students from more than 80 countries. Applicants for undergraduate admission who are not citizens or immigrants (permanent residents) of the United States should contact the Office of Campus International Programs for the correct information and assistance to become students. The address is Alumni Memorial Union, 425B, Marquette University, P.O. Box 1881, Milwaukee, WI 53201-1881, U.S.A. The telephone number is (414) 288-7289; fax number (414) 288-3701; and e-mail [World@Marquette.edu](mailto:World@Marquette.edu).

The application procedure is to help each candidate show the Admissions Committee that he or she has the four abilities which are necessary for successful studies at Marquette. These four are high academic ability, positive personal ability, strong English language ability, and sufficient financial ability. To show these four abilities, each applicant must arrange for the appropriate evidence to reach the Office of Campus International Programs. The application procedure can require from one week to many months or more, depending primarily upon when the applicant can provide the required application materials. A complete list of application materials is sent to each prospective student along with complete instructions and information about Marquette University.

## ADMISSION TO SUMMER STUDIES

Detailed information on admission to the Summer Studies conducted by Marquette may be found in the *Summer Studies Bulletin* (published each March and sent upon request). For information, contact the Office of Summer Studies, Marquette University, P.O. Box 1881, Milwaukee, Wisconsin 53201-1881; call (414) 288-7506; or e-mail ([hegertym@Marquette.edu](mailto:hegertym@Marquette.edu)).

## APPROVAL FOR STUDY AT OTHER INSTITUTIONS

Students who plan to study at another institution must obtain written approval for each course prior to enrollment in the course. If prior approval is not obtained, the university reserves the right to not accept the credits earned at the other institution. Course approval forms may be obtained from the student's college office.

Upon completion of the course work, it is the student's responsibility to have an official transcript sent directly from the institution to the Office of the Registrar.

## READMISSION OF FORMER STUDENTS

A former Marquette University student who wishes to return after the lapse of at least one full term (excluding summer studies) must submit to the Office of the Registrar an Application for Readmission. Because Marquette conducts an early registration which begins several months prior to the start of each term, it is to the student's advantage to apply and be accepted as early as possible. Application forms are available in the Office of the Registrar and should be filed no later than three weeks prior to the day classes begin. A re-entering student who wishes degree status and who has attended another school or schools since leaving Marquette must request that a transcript of credits from each such school be sent to the Marquette Office of the Registrar. The transcript(s) must be received before the application for readmission will be considered. The transcript(s) must be sent directly to the Office of the Registrar by the other institution(s); transcript(s) will not be accepted by Marquette if routed through the student. Records of applicants for readmission, including previous work at Marquette University, are subject to review and to a new evaluation of credits.

## TRANSFER WITHIN THE UNIVERSITY

The various colleges of Marquette University operate under the jurisdiction of separate deans. Therefore, enrolled students must submit to the Office of the Registrar a formal Application for Transfer if they wish to transfer from one college to another. If the Application for Transfer is approved, the student will be governed by the degree requirements of the college to which transfer is made. Because Marquette conducts an early registration which begins several months prior to the start of each term, it is to the student's advantage to apply and be accepted as early as possible. Application forms are available in the Office of the Registrar and should be filed no later than three weeks before the day classes begin.

## CHANGE OF STATUS

Applicants who enter any program at Marquette University with non-degree status may later petition for degree status, either in the day division or in Part-time Studies. Application forms are available in the Office of the Registrar and should be filed no later than three weeks before the day classes begin.

## SECOND BACCALAUREATE DEGREE

Baccalaureate degree holders with good scholastic records may be admitted to candidacy for a second baccalaureate degree. Application for acceptance into such a program is made through the readmission procedure in the Office of the Registrar. The appropriate dean will review the application and, if admission is granted, the applicant together with the dean or director will develop a specific plan of study. Candidates for the second degree must complete all the requirements of the college in which they are enrolled. The minimum residence requirement is 32 additional semester hours of upper-division credit. A second baccalaureate degree may not be awarded at the same time as the first degree. Eligibility for graduation with university honors and the attendant quality point average and rank-in-class do not apply to the second baccalaureate degree. Students with a baccalaureate degree who wish to further their education should consider the option of applying for admission to a graduate program.

With the written approval of a dean, a student with a good scholastic record who is entering his or her final term of study for a first baccalaureate degree may enroll in courses that will count toward a second baccalaureate degree. An approved plan must be provided to the Office of the Registrar, prior to the beginning of the final term of work leading to the first degree, as part of the readmission process. The plan must delineate clearly which courses to be taken in the coming term will apply to the first degree and which apply to the second degree. All other conditions specified in the paragraph above apply.

---

## TUITION, FEES AND HOUSING

Payment of tuition, room and board, service fees and other course charges is due approximately 15 days prior to the beginning of classes for fall and spring terms.

A STUDENT'S REGISTRATION IS NOT COMPLETE UNTIL ALL TUITION, FEES AND HOUSING ARE PAID. A student who does not pay in full or make acceptable payment arrangements with the Office of the Bursar by the due date will be subject to a late payment fee. All

courses for which a student is officially registered as of the close of Late Registration are subject to fee assessment and payment, and as such to appear as part of the student's permanent record even if the student does not attend any sessions of the class. Therefore, to avoid unnecessary fee charges and unnecessary courses with permanent grades of UW, WA or F on the student's permanent record, it is the student's responsibility to be certain that before Late Registration ends, his/her official registration accurately reflects only those courses for which the student plans to enroll.

If a student has an unpaid Bursar account at the end of any term, the student will not be permitted to enroll for a subsequent term. A student is not entitled to receive an official transcript of credits or diploma from the Registrar until all tuition, fees and housing have been paid.

A 50 percent discount on tuition (only) is available to individuals 62 years of age and older taking undergraduate and graduate courses for credit and/or audit. This opportunity is offered to students who have the proper background and prerequisite for the course(s) in question. This discount is not available to anyone who takes the audit-only student discount.

A 50 percent discount on tuition (only) is available to individuals who enroll as audit-only students in undergraduate and graduate courses for the fall term. Individuals taking course(s) for credit during any of the other modules are ineligible for this discount. This opportunity is offered on a space available basis during Late Registration of the module to students who have the proper background and prerequisites for the course(s) in question. Interested individuals should contact the Office of the Bursar at (414) 288-7157. This discount is not available to individuals who take the senior citizen discount.

Tuition, fees and housing costs listed are subject to change.

## PAYMENT ARRANGEMENTS

All students are expected to make payment in full approximately 15 days prior to each term. Payment arrangements may be made with the Office of the Bursar if parents and students are unable to make payment from personal funds or if financial aid will not be available until after the term begins.

Acceptable payment arrangements consist of one of the following:

1. Payment of all fees in full approximately 15 days prior to the term. Cash and checks are acceptable methods of payment.
2. Enrollment in a university approved installment plan (AMS, Knight Tuition Payment Plans).
3. Enrollment in the Marquette University Payment Plan.
4. Payment by a university-approved third-party sponsor (ROTC, foreign embassies, companies directly billed.)

NOTE: All financial aid recipients are required to enroll in the Marquette University Payment Plan, AMS, Knight Tuition or be covered by a third-party sponsor.

## TUITION (NEW STUDENT RATE 1999-2000)

Full-time (12 to 18 credit hours), per term,

Arts and Sciences; Communication;

Health Sciences (except Physical Therapy) . . . . . \$8,140.00

Full-time (12 to 18 credit hours), per term, Nursing. . . . . 8,590.00

Full-time (12 to 18 credit hours, or as indicated in current curriculum

listing), per term, Physical Therapy, Physician Assistant Studies . . . . . 8,590.00

Full-time (12 to 18 credit hours), per term, Business Administration . . . . . 8,590.00

Full-time (12 to 19 credit hours), per term, Engineering. . . . . 8,590.00

Part-time, per credit hour

Part-time Studies Program . . . . . 335.00

Non Part-time Studies Program . . . . . 490.00

Excess credit hours over full-time, per credit hour . . . . . 155.00

Study Center in Madrid:

Per term . . . . . 6,745.00

Credit established by examination, per credit hour . . . . . 75.00

Les Aspin Center for Government Congressional Internship Program,

per term . . . . . 11,220.00

Language Reading Course

(cost per course/audit only) FREN/GERM (non-credit) . . . . . 405.00\*\*

\* For information regarding the application fee and initial deposit required of new students, see the Admissions Procedures section of this bulletin.

\*\* Special rate. No other discounts apply.

## LABORATORY AND SPECIAL COURSE FEES

Dental Hygiene (one-time fee)	
Equipment and instruments (paid in sophomore year)*	1,250.00
Uniform and pin fee (paid in sophomore year)	250.00
Nursing	
Uniforms (must be purchased through a private vendor. Vendor list available from the College of Nursing.)	100.00 *
Assessment Equipment (Stethoscope for sophomore nursing courses, \$15.00.** Sphygmomanometer for senior nursing course 179, \$60.00.)	80.00 *
Achievement exam fee, per course, 055, 146	12.00
Diagnostic Assessment Test for Licensure Examination (seniors only)*	30.00

\* Approximate fee. Exact amount based upon vendor costs in effect at time of registration.

\*\* Paid in fall term only.

## SERVICE FEES

Examinations: special, X grade removal, or to establish credit*	25.00
Incomplete grade removal.	15.00
Career Services Credential fee.	15.00
Student Activity Fee (per 16-week term)	56.00
Student Health Service Fee (per 16-week term)	72.00

\*Examination to establish credit:

For part-time students: The \$25.00 examination fee to establish credit will be credited against the \$75.00 per credit hour tuition if credit is earned.

For full-time students: The \$25.00 examination fee to establish credit will be the only charge if credit hours so earned come within an 18-hour course load (19-hour course load in Engineering). Credits earned by examination in excess of the full-time course load will be charged \$75.00 per credit hour, and the \$25.00 examination fee will be credited against this amount.

## HOUSING

Living in a residence hall provides easy access to classes, comfortable furnishings, out-of-class educational experiences, an opportunity to develop personal friendships, recreational facilities, and a chance to get involved in the university community. The university accommodates approximately 3,000 students in men's, women's and coeducational residence halls. Traditional and block meal options are offered to students. Most accommodations are double rooms, although single, triple and quadruple rooms also are available.

An important aspect of residence hall living is the trained staff members available to assist students. Qualified students are employed as resident assistants, while full-time professionally trained staff direct each hall.

All single freshman and sophomore students, except those residing with their parents or guardians during the academic year, are required to live in university residence halls. Students who are at least 21 or two years beyond high school are allowed to select their own housing and may wish to inquire about university-owned apartment buildings. A limited number of efficiency and one-bedroom apartments are available on campus for married students, although the facilities cannot accommodate children beyond infancy.

A deposit of \$100 is required for room reservation and is payable in conjunction with the tuition deposit. Room assignments are based upon the date of deposit, so new students who apply early are more apt to receive their preferred location. Final assignment of rooms remains at the discretion of the university, however, and though it is possible to meet the first alternative for most students, it is not possible to guarantee everyone a preferred assignment.

A limited number of spaces are available for housing during the Winter and Spring Break periods. Students may make reservations for these accommodations by contacting the Office of Residence Life.

Students who are not required to live in residence halls may obtain a list of off-campus housing from the university. Meal plans also are available for off-campus students who wish to eat in the residence halls. Inquiries about housing should be addressed to the Office of Residence Life, P.O. Box 1881, Marquette University, Milwaukee, WI 53201-1881.

**Room and Board:** Rates are per academic year and with double occupancy unless indicated otherwise. Meal plan prices are based on the plan selected by the student. (Other rates are available for singles, triples, and quads. Contact the Office of Residence Life for details.)

	14 Meals	19 Meals	125 Block	175 Block
O'Donnell and Cobeen Halls	\$5,728	\$5,926	\$5,628	\$5,826
Tower Hall	5,920	6,118	5,820	6,018
Schroeder Hall	5,898	6,096	5,798	5,996
McCormick Hall	5,866	6,064	5,766	5,964
Mashuda and East Halls	6,048	6,246	5,948	6,146

**Room Only:**

Carmel Apartments	efficiency	\$3,456
	one bedroom	\$2,216
Humphrey Apartments	one bedroom	\$3,100
	two bedroom	\$2,112

**Board Only**

14 meals/week/150 Block	\$2,196
19 meals/week/200 Block	\$2,394
125 Block	\$2,096
175 Block	\$2,294

**Housing Deposits:**

Freshman and Transfer Students	\$100
Continuing Sophomores, Juniors and Seniors	\$100

## REFUNDS AND ADJUSTMENTS

Students who have prepaid charges but do not register for class will be given a full refund, less applicable non-refundable deposits. Students who register for classes and subsequently change their course load through either a partial withdrawal from courses or a complete withdrawal from the university will have an adjustment made to their student account. If that adjustment results in a refund due to the student, proper application must be made with the Bursar's office to obtain the refund. See page 37 of this bulletin for a full description of withdrawal procedures.

After the first class, laboratory, special course fees, and the Student Activity Fee are non-refundable. Tuition deposits are non-refundable but are applied toward first term tuition charges. Housing deposits are non-refundable but are applied toward first term housing charges.

All courses for which a student is officially registered as of the close of Late Registration are subject to fee assessment and payment, and as such to appear as part of the student's permanent record even if the student does not attend any sessions of the class. Therefore, to avoid unnecessary fee charges and unnecessary courses with permanent grades of UW, WA or F on the student's permanent record, it is the student's responsibility to be certain that before Late Registration ends, his/her official registration accurately reflects only those courses for which the student plans to enroll. Refunds for tuition and room will be given based on the following schedule:

**Refund and Adjustment Schedule**

100 percent refund .....	Through the close of late registration
80 percent refund.....	During the second week
60 percent refund .....	During the third week
40 percent refund .....	During the fourth week
20 percent refund .....	During the fifth week
NO REFUND .....	After the fifth week

Board—Pro-rated number of full weeks remaining in the term as a percent of 16 weeks.

NOTES: Refunds for first time Title IV borrowers will be pro-rated on a weekly basis.

Lab fees are not refunded after Late Registration.

---

## STUDENT FINANCIAL AID

The primary purpose of the financial aid program at Marquette is to aid those students who would be unable to attend the university without assistance. Marquette makes every effort within its means to assist such students in financing their education. No applicant will be considered for financial assistance until he or she has been formally admitted into the university, although one certainly can apply for financial aid before acceptance to the university has been granted.

Financial resources available to undergraduate students include scholarships, grants, loans, and part-time employment. Since these resources can be limited, priority for financial assistance is based on the financial need of the applicant as well as the date on which all application materials have been received by the Office of Student Financial Aid. Students should begin the application process the January prior to their enrollment.

For detailed information on the programs and procedures described in this section, and others which may not be listed here, consult the Marquette University Guide to Financial Aid. This handbook and application materials are available from the Office of Student Financial Aid, P.O. Box 1881, Marquette University, Milwaukee, WI 53201-1881. Telephone: (414) 288-7390. Information can also be obtained on the Internet, ([www.Marquette.edu/financialaid](http://www.Marquette.edu/financialaid)). Questions can be sent via e-mail to [financialaid@Marquette.edu](mailto:financialaid@Marquette.edu).

### APPLICATION FOR STUDENT FINANCIAL AID

To be considered for scholarships, grants, employment and loans, entering freshmen, advanced standing (transfer) and re-entering students must complete the Marquette University Application for Admission.

Since most financial aid is awarded to students on the basis of financial need, applicants are also required to complete a Free Application for Federal Student Aid (FAFSA). The FAFSA allows the Office of Student Financial Aid to determine each applicant's financial need in a uniform manner. The Title IV School Code for Marquette is 003863.

In addition, College of Nursing advanced standing (transfer) and re-entering students must complete a Marquette University Financial Aid Application, and submit a Financial Aid Transcript Form for each post-high school institution attended other than Marquette.

### SCHOLARSHIPS

A scholarship is a form of gift assistance which does not have to be repaid. Selection for Ignatius Scholarships is based upon meeting and maintaining certain academic requirements. Students wishing to apply for academic scholarships should complete the scholarship portion of the Application for Admission. All students having completed applications by the scholarship deadline each year will be considered for a Ignatius Scholarship and be notified in early spring. Students may contact the Office of Undergraduate Admissions for the specific scholarship application deadline.

Marquette University also offers competitive scholarships, athletic scholarships, and ROTC scholarships. For information about selection criteria, application procedures, and renewal requirements for all Marquette scholarships, consult the Marquette University Guide to Financial Aid or contact either the Office of Undergraduate Admissions or the Office of Student Financial Aid.

Marquette University scholarships are funded through gifts and endowments provided by private donors in addition to funds set aside by the university itself. In addition to insuring that recipients meet university scholarship requirements, many of the funds have specific restrictions such as academic major, geographic residence, etc. *In order to be considered for these endowed scholarships, a student must file the forms described in the section headed "Application for Student Financial Aid." Separate applications are not available for these scholarships.*

### GRANTS

A grant is a form of financial assistance which does not have to be repaid. Funding for grant programs is supplied by state and federal agencies as well as institutional sources.

*Federal Pell Grant (PELL):* This is a federal program which provides funds to eligible undergraduate students who do not possess a bachelor's degree. Students eligible for assistance through this grant program may receive up to \$3,125 per year.

*Federal Supplemental Educational Opportunity Grant (SEOG):* The SEOG is a federal program which provides funds to needy full-time undergraduate students who do not possess a bachelor's degree. These grants may range from \$250 to \$4,000 per year.

*Wisconsin Tuition Grant (WTG):* (Wisconsin residents only.) This grant program, funded by the state of Wisconsin, attempts to provide a percentage of the cost differential between attendance at a public and private institution. In order to be eligible, a student must be a legal resident of the state of Wisconsin, enrolled in an undergraduate program on at least a half-time basis, and must not possess a bachelor's degree. The amount of this grant currently varies from \$250 to \$2,300 and is based on need. WTG can be received for a maximum of ten terms.

*Marquette University Grants (MU Grant):* MU Grants are awarded to full-time students in the same manner as the SEOG program.

*Talent Incentive Program Grants (TIP Grants):* The TIP Program is a Wisconsin state sponsored program providing grants to eligible Wisconsin residents with exceptional financial need. Recipients must meet state criteria as low income/disadvantaged students. Grants range up to \$1,800 per year. TIP Grants can be received for a maximum of ten terms.

*Miscellaneous Grants:* The Office of Student Financial Aid also administers other federal and state grants. Consult the MU Guide to Financial Aid for information.

## LOANS

Students are considered for loan assistance if they are attending the university on at least a half-time basis and are in good academic standing. Loans must be repaid according to the terms outlined on the promissory note for each loan program.

The principal loan programs administered by Marquette are the Federal Perkins Loan, the Federal Direct Stafford Ford Loan and the William D. Ford Federal Direct PLUS loan. Eligible students will receive promissory note materials from the Office of Student Financial Aid after filing the FAFSA. All required application materials must be received by the Office of Student Financial Aid prior to July 1 in order to be processed in time for the beginning fall term.

## STUDENT EMPLOYMENT

Marquette University maintains a Student Employment Service within the Office of Student Financial Aid to assist students seeking part-time employment both on- and off-campus. All Marquette students are welcome to use the Student Employment Service to obtain a job.

Many students help finance their education through part-time employment. Part-time employment can benefit students in several ways:

- Employment helps offset the cost of education.
- Students who work tend to manage their time better than students who do not.
- Studies have shown that grades don't suffer if students limit the number of hours worked to less than 20 per week.
- Part-time employment can be an important part of the total educational experience at Marquette. Students can learn good work habits, human relations skills, and other skills that may not be learned in the classroom.

There is an ample number of jobs for those who want to work. To conduct a successful job search, new students should begin during the week of fall orientation. Job vacancies are filled on a first-come, first-served basis. Once a job is secured, students can arrange a work schedule around their class schedule. Typical jobs include food service worker, laboratory assistant, residence hall desk receptionist, typist, computer programmer, maintenance worker, community service worker, and many more. Off-campus jobs are found in non-profit agencies as well as many area businesses.

Students wishing to work must comply with the Immigration Reform Act of 1986. Eligible U.S. citizens must bring a copy of their original birth certificate, social security card, or a U.S. passport to the Office of Student Financial Aid. A picture identification card such as a driver's license or Marquette University identification card is also required. Foreign students should contact the Office of Student Financial Aid for information.

## FAMILY TUITION GRANT

This grant is designed to assist families responsible for the educational expenses of two or more members concurrently enrolled full-time at Marquette.

The grant program provides for each full-time student with a similarly enrolled sibling, parent, or spouse to receive a tuition discount of up to \$750 each semester of enrollment. A family

could receive up to \$3,000 in total discounted tuition with two students enrolled at Marquette concurrently and up to \$4,500 with three students, etc.

Information regarding this program will be mailed to all families each spring. If you have any questions regarding the Marquette Family Tuition Grant, please contact the Office of Student Financial Aid.

## PREPAID TUITION PLAN

This plan allows you and your family to prepay from two to four years of full-time undergraduate tuition at the rate in effect when you enter the plan. This guarantees that your tuition rate will not increase over the entire period for which you prepay. Participation in this plan does not affect your eligibility for financial aid.

Prepayments will be accepted from students who have been admitted or are applying for admission to the university as full-time undergraduate students. For information about the Prepaid Tuition Plan, please contact the Office of the Bursar at (414) 288-7157.

## FINANCIAL AID TRANSCRIPTS

A student who will continue or further his or her education at another college or university may be required to submit a Financial Aid Transcript from Marquette before receiving additional assistance. To obtain a Financial Aid Transcript from Marquette, apply in writing to the Office of Student Financial Aid using the document preferred by the institution of application. The transcripts will be mailed directly to the institution requested.

---

# ACADEMIC REGULATIONS

## OFFICIAL PUBLICATIONS

This edition of the *Undergraduate Bulletin* governs curricular requirements of all students entering Marquette University undergraduate programs as freshmen or as advanced standing students during the 1999–2000 academic year. Students are held accountable for knowledge of the detailed information and for compliance with the regulations contained in this bulletin and in the *Student Handbook*.

Each student receives a copy of the bulletin, free of charge, upon entrance to the university, and should preserve that copy for reference during his/her entire undergraduate career at Marquette. Additional copies of the bulletin, revised and published annually, will *not* be issued to continuing students free of charge. Should a continuing student misplace the copy of the bulletin he/she received as an entering student, he or she will be able to purchase a *bulletin* at the Golden Eagle shop. Copies of the bulletin also are available for reference in the university's libraries, residence halls and school and college offices. For refinement of some of the general policies listed in The University section, and for information on specific regulations, requirements, activities, awards and financial aids in the various divisions of the university, students are requested to refer to the college, school, and program sections of this bulletin.

*The Student Handbook*, also issued annually, contains information and regulations on housing, conduct and student activities. Rules governing eligibility for membership and participation in student organizations, as well as descriptions of all recognized student organizations, also are contained in the *Student Handbook*. Copies of the handbook are available from the Office of Student Development.

## CREDIT

The semester hour is the unit of academic credit used by Marquette University. One semester hour of credit is awarded for one hour of lecture per week for a 16-week course; credit for laboratory hours are appropriately awarded. Semester hour credit is given only in accordance with descriptions for individual courses as published in this bulletin. No credit is given for a course for which a student has not regularly registered.

The normal schedule for full-time students in the undergraduate day division is 16 or 17 credit hours, with the exception of students in the ROTC programs, the special requirements of which necessitate carrying more. An upperclassman may be allowed, with the consent of the dean or director, to carry more than the normal load, provided that, in the preceding term, all

his/her grades were B or higher. Part-time Studies students are ordinarily limited to a maximum of nine credit hours.

Credit for courses pursued at another educational institution while simultaneously enrolled at Marquette (concurrent registration) will not be allowed unless specifically authorized by the dean.

## AUDIT

Applicants who wish to audit courses without earning credit must present evidence of their preparation for the course or courses in which they wish to enroll. Students may change from credit to audit status during the period extending from the first day of classes through the four weeks following the end of mid-term examinations with the permission of both the course instructor and the dean of the college in which the student is enrolled. Auditors are required to attend all classes but are not required to complete written course assignments or examinations. Audit-only students should refer to the Tuition and Fees section of this bulletin for information on available discounts.

## UPPER AND LOWER DIVISION COURSES

Lower division courses are numbered 001-099 and normally are taken by freshmen and sophomores. Upper division courses are numbered 100-199 and normally are taken by juniors and seniors.

## CREDIT BY MARQUETTE EXAMINATION

Marquette recognizes that students by virtue of independent study, previous training, or experience may already possess mastery of the content of a particular course in which they have not been formally registered. To enable students to enrich or accelerate their course of study, the university provides for the establishment of academic credit by means of a special Marquette examination. Such credit, granted only to matriculated students, is the equivalent of the credit the student would have earned had he or she actually been enrolled in the course at Marquette and successfully completed it. Students wishing to establish credit by Marquette examination should submit a request for such examination to the office of their dean or director.

## ADVANCED PLACEMENT

Applicants may be granted advanced placement for college level courses taken in high school. Usually such courses are under the auspices of the Advanced Placement (AP) Program of the College Entrance Examination Board, and tests are taken upon the recommendation of high school teachers. Tests are administered by the College Entrance Examination Board only in the high schools.

Applicants who have participated in the Advanced Placement Program will have their work evaluated by a Marquette University faculty committee after they have been admitted and their test results have been received from the College Entrance Examination Board Advanced Placement Program. Ordinarily, these test results are received by Marquette during the summer just preceding the enrollment. The applicant will be notified of the decision concerning Advanced Placement shortly after the university has received the test papers.

Following is a chart listing those Advanced Placement subjects accepted at Marquette and what amount of credit may be awarded for each score.†

## ADVANCED PLACEMENT CREDIT AND PLACEMENT

SUBJECT/SCORE	1	2	3	4	5
Art History	No Credit	No Credit	Waiver of fine arts requirement	3 cr. for FIAR 069 with an S	6 cr. for HIST 007 and 008 with an S
Biology	No Credit	No Credit	Placement into BIOL 002 or 004	3 cr. for BIOL 001 with an S and placement into BIOL 002 or 004	6 cr. for BIOL 001 and 004 with an S
Chemistry	No Credit	No Credit	4 cr. for CHEM 001 with an S and placement into CHEM002	8 cr. for CHEM 001 and 002 with an S and placement into CHEM 023 or 123	8 cr. for CHEM 001 and 002 with an A and placement into CHEM 023 or 123
American Government and Politics	No Credit	No Credit	No Credit	3 cr. for POSC 020 with an S and placement into upper division* courses	3 cr. for POSC 020 with an S and placement into upper division* courses
Comparative Government and Politics	No Credit	No Credit	No Credit	3 cr. for POSC 040 with an S and placement into upper division* courses	3 cr. for POSC 040 with an S and placement into upper division* courses
English Language and Literature	No Credit	No Credit	No Credit	3 cr. for ENGL 001 with an S and placement into ENGL002	6 cr. for ENGL 001 and 002 with an S and placement into sophomore level English
Computer Science A	No Credit	No Credit	3 cr. for COSC 051 with an S	3 cr. for COSC 051 with an A	3 cr. for COSC 051 with an A
Computer Science AB	No Credit	No Credit	6 cr. for COSC 051 and 055 with an S	6 cr. for COSC 051 and 055 with an A	6 cr. for COSC 051 and 055 with an A
American History	No Credit	No Credit	No Credit	6 cr. for HIST 004 and 005 with an S and placement into upper division* courses	6 cr. for HIST 004 and 005 with an A and placement into upper division* courses
European History	No Credit	No Credit	No Credit	3 cr. for HIST 002 with an S and placement into upper division* courses (HIST 001 must still be completed)	3 cr. for HIST 002 with an A and placement into upper division* courses (HIST 001 must still be completed)
French, or German Language	No Credit	No Credit	Placement into course 003	4 cr. for course 010 with an S	3 cr. for course 040 with an S
Spanish Language	No Credit	No Credit	Placement into course 003	4 cr. for course 010 with an S	3 cr. for course 082 with an S
French Literature	No Credit	No Credit	Placement into course 003	3 cr. for course 040 with an S	3 cr. for course 120 with an S
German Literature	No Credit	No Credit	Placement into course 003	3 cr. for course 198 with an S	3 cr. for course 065 with an S
Spanish Literature	No Credit	No Credit	Placement into course 003	3 cr. for course 198 with an S	3 cr. for course 056 with an S
Latin	No Credit	No Credit	Placement into Latin 003	3 cr. for Latin 004 with an S	3 cr. for Latin 055 with an S
Math/Calculus AB	No Credit	No credit, with possible placement into MATH081	4 cr. for MATH 080 with an S and placement into MATH 081	4 cr. for MATH 080 with an A and placement into MATH081	4 cr. for MATH 080 with an A and placement into MATH081
Math/Calculus BC	No credit, with placement into MATH081	No credit with possible placement into MATH082	8 cr. for MATH 080 and 081 with an S and placement into MATH082	8 cr. for MATH 080 and 081 with an A and placement into MATH082	8 cr. for MATH 080 and 081 with an A and placement into MATH082
Microeconomics	No Credit	No Credit	3 cr. for ECON 043 with an S	3 cr. for ECON 043 with an S	3 cr. for ECON 043 with an A
Macroeconomics	No Credit	No Credit	3 cr. for ECON 044 with an S	3 cr. for ECON 044 with an S	3 cr. for ECON 044 with an A
Physics B**#	No Credit	No Credit	No Credit	6 cr. for PHYS 001 and 002 with an S	6 cr. for PHYS 001 and 002 with an S
Physics C**# (mechanics)	No Credit	No Credit	No Credit	3 cr. for PHYS 003 with an S	3 cr. for PHYS 003 with an S
Physics C**# (electricity and magnetism)	No Credit	No Credit	No Credit	3 cr. for PHYS 004 with an S	3 cr. for PHYS 004 with an S
Psychology	No Credit	No Credit	No Credit	3 cr. for PSYC 001 with an S	3 cr. for PSYC 001 with an S
Statistics	No Credit	No Credit	No Credit	3 cr. for MATH 060 with an S	3 cr. for MATH 060 with an S

† Pre-medical and pre-dental students should consult with the health professions adviser before accepting APcredits.

\* Upper division classes are junior and senior level courses.

\*\* Those students planning to attend medical school should not accept AP credit or placement in physics.

# Science majors should note that credit received does not include lab credit. Labs must be completed at Marquette.

Note: AP code is 1448.

Revised March 1999

## COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

Credit and/or exemption for some college courses may be earned through the College Level Examination Program (CLEP) of the College Entrance Examination Board. Recent high school graduates as well as those who have acquired knowledge in ways other than through traditional formal classroom attendance may benefit from these tests. The maximum number of credits that students can earn by CLEP examination is 30. Marquette credit is not granted for any of the five general examinations. It is granted only for those approved subject examinations listed below. Credits are approved by the respective dean or director. Credit will be designated as earned by CLEP on the permanent record and indicated as an S grade (satisfactory), and therefore will not affect the student's quality point average.

General information on CLEP costs and test centers may be obtained from the College Entrance Examination Board, 888 Seventh Avenue, New York, New York 10019.

### APPROVED CLEP SUBJECT EXAMINATIONS

SUBJECT EXAMINATION	SCALED SCORE REQUIRED	MARQUETTE EQUIV. COURSE	HOURS OF CREDIT
HISTORY OF THE U.S. 1	55	HIST 004	3
HISTORY OF THE U.S. 2	55	HIST 005	3
AMERICAN GOVERNMENT	50	POSC 020	3
WESTERN CIVILIZATION 1	60	HIST 001	3
WESTERN CIVILIZATION 2	60	HIST 002	3
INTRODUCTORY SOCIOLOGY	50	SOCI 001	3
INTRODUCTION TO PSYCHOLOGY 1	55	PSYC 001	3
ANALYSIS AND INTERPRETATION OF LITERATURE	51	SOPHOMORE LITERATURE	3
AMERICAN LITERATURE	50	SOPHOMORE LITERATURE	3
ENGLISH LITERATURE	49	SOPHOMORE LITERATURE	3
CALCULUS WITH ELEMENTARY FUNCTIONS	55	MATH 080	4
COLLEGE ALGEBRA	50	MATH 020	3
INFORMATION SYSTEMS AND COMPUTER APPLICATIONS	54	COSC 050	3
PRINCIPLES OF MARKETING	55	MARK 140	3
PRINCIPLES OF MACROECONOMICS	55	ECON 044	3
PRINCIPLES OF MICROECONOMICS	55	ECON 043	3
PRINCIPLES OF MANAGEMENT	55	MANA 156	3
GENERAL BIOLOGY	48	BIOL 001 AND 004	6
GENERAL CHEMISTRY	48	CHEM 001 AND 002	8

NOTE: The score reported on CLEP reports is the scaled score, not the percentile. CLEP code is 1448.

## PLACEMENT CREDIT IN FOREIGN LANGUAGES

Each student who enters Marquette University with high school credits in French, German, Italian, Japanese, Latin or Spanish and who plans to continue the study of that language in college is required to be placed in the appropriate course on the basis of procedures established by the Department of Foreign Languages and Literatures.

If a student places at Level 004 (in Italian, Japanese or Latin) or Level 010 (in French, German or Spanish) and completes that level with a grade of B or better, he or she will be eligible to apply for three hours of special placement credit (i.e., Italian 005, French 005, etc.) plus credit for the course in which he or she is enrolled.

If a student places at a level beyond Level 004 in Latin, Italian or Japanese or beyond Level 010 in French, German or Spanish and completes that level with a grade of B or better, he or she will be eligible to apply for six hours of special placement credit plus credit for the course in which he or she is enrolled.

The grade awarded for the special placement credit will be a S grade and will count toward the total hours needed for graduation from Marquette. Such special placement credit is not automatic, and it will be the responsibility of the student to request the language department to forward a validation of this credit to the Office of the Registrar and to the student's college.

Other conditions of eligibility for the special placement credit are: 1) the high school credits of the student must have been earned in a U.S. high school; 2) the student may not be a native speaker, or the equivalent, of the language in question; 3) the course being taken to establish placement credit must be the first college course in the language in question taken or attempted by the student.

For further details on placement credit, contact the Department of Foreign Languages and Literatures.

## UNDERGRADUATE STUDENTS IN GRADUATE COURSES

An undergraduate senior may register for a 200-level course if the student has a B (3.000) or better average, his/her current program is such as to allow for involvement in graduate level work and has approval from the Graduate School. To register for a graduate course an undergraduate student must complete the Request for Permission to Enroll in a Graduate Course form, available from the Graduate School office. The student is responsible for securing the necessary signatures (including the course instructor, the graduate department chairperson and the dean of his/her undergraduate college or school), returning the completed form to the Graduate School, then registering for the course using the TVR system.

Undergraduate students taking graduate level courses or upper-division (100-level) courses (any of those designated by a # symbol in the registration *Timetable of Classes*) with the intention of transferring the credits to a graduate program must be graded according to Graduate School standards. Courses may not be graded using the S/U or audit option unless that is the only grading option available for the course. Students are not eligible to receive CD or D grades.

For information on transferring credits to a Marquette graduate program see the *Graduate School Bulletin*.

## UNDERGRADUATE QUALITY POINTS AND GRADING SYSTEM

Marquette uses the quality point system to determine a student's academic average and his/her eligibility to graduate (see Graduation Requirements.) Each grade (A through F) earned in a course carries a specified number of quality points. The quality points earned in any given course equal the quality point value of the grade multiplied by the total number of semester hours credited. A student's quality point average is found by dividing the total number of quality points earned by the total number of semester hours credited in those courses for which quality points have been assigned.

All students must earn at least a C (or 2.000) average in courses actually taken at Marquette. If a student's quality point average falls below 2.000, or if the student has accumulated excessive hours of failure, he/she will be given a scholastic censure or may be required to withdraw. (See Scholastic Censure section in this bulletin.)

The following letter grades, their equivalents in achievement, and quality points per credit hour are used by Marquette instructors to evaluate a student's performance in a course:

Grade	Achievement	Quality Points
A	Superior	4
AB		3.5
B	Good	3
BC		2.5
C	Satisfactory	2
CD		1.5
D	Minimum passing	1
F	Failing	0

Former students who are applying for readmission should consult their respective deans for information concerning the application of the new grading policy to their earlier academic records.

Junior and senior students are given an option to elect one course per term (to a maximum of four courses) for which only an S or U grade is assigned:

Grade	Achievement
S	Satisfactory completion of the course, equivalent of C work or better. Full credit earned, but the grade does not affect the quality point average
U	Unsatisfactory completion of the course. No credit earned and the grade does not affect the quality point average

The following letter grades are used to indicate circumstances involving audits, incompletes, absences and withdrawals:

Grade	Circumstance
AU	Audit (no credit).
I	Assigned by the instructor, normally on a pre-arranged basis, to allow completion of course assignments other than the final examination. It is understood that the student's performance in the course must merit this special concession. If the instructor judges that the student has not merited the I grade, he or she will assign an F grade if the missing work is significant enough to

	deserve an F or, alternatively, a passing grade which reflects both the quality of the work completed and the significance of the work which has not been completed.
X	Assigned by the instructor to a student who is absent from the final examination and who might earn a passing grade in the course were he/she to take a delayed examination. If the two conditions do not exist, the student is assigned the grade of F immediately. A student receiving the grade of X must file an explanation for his or her absence in writing to the dean of the student's college.
IX	Issued by the instructor to a student who is incomplete in the course work and absent from the final examination but who otherwise meets the criteria for the I grade and the X grade. (A student not qualifying will be assigned the grade of F)
W	Official withdrawal, initiated by the student, with approval of dean or director.
UW	Unexcused withdrawal from one or more courses.
WA	Student was withdrawn from the course for excessive absences. (The college office decided that the student—whether passing or failing at the time—was not allowed to return to the class.)

Clearance of grades I, X and IX is effected through the office of the dean of the college, school or program which offers the course. These grades must be cleared by the date specified in the academic calendar for the term following the term in which the grade was assigned or they will automatically become the grade of F (unless the dean has specifically granted a petition for extension of the deadline date). For those continuing students who entered under the previous grading policy, the I, X, and IX grades will remain such on the permanent record. But because these grades denote that the student has not fulfilled all course requirements, the university views these grades, when not removed by the student, with the same seriousness as the grade of earned F

The letter grades involving withdrawal (i.e., grades with a W) do not imply any loss of quality points and therefore do not affect the student's quality point average.

## CD AND D GRADES

The policy on CD and D grades earned in courses taken at Marquette University differs for students in the various colleges, schools and programs. See the pertinent sections of this bulletin for statements of individual policy.

## S/U OPTION

For enrichment purposes, junior and senior students are given an option to elect one course per term (to a maximum of four courses) for which only an S or U grade is assigned. This course must be a true elective in the individual's program, the prerequisites for which the student has met. Courses excluded are those taken in fulfillment of the requirements for the core curriculum, courses for the major or minor including teacher certification and the like, or special courses excluded by the individual colleges, schools or programs and described each term in the *Timetable of Classes*. Arrangements to take a course under the S/U option must be made in person, in the Office of the Registrar, and arrangements must be completed no later than the close of late registration.

**After the close of late registration, the student does not have the option of changing from S/U to regular grading or from regular grading to S/U grades.**

## S/U GRADES

The grades S and U are also awarded routinely to all students enrolled in certain internship type courses such as student teaching and in some practicums. S grades are also routinely awarded in the granting of credit through the CLEP examinations, and S grades may be a student's choice in accepting credit through the Advanced Placement Program.

## REPEATED COURSES

Students who are required to repeat a course because of failure to achieve a required minimum grade for a specific major or minor field, or who choose to repeat a course for other reasons, must file with the office of their dean a request to repeat the course. The repeat course must be identical to the original course in title, subtitle, and credits. Substitution of one course for a different course is never permitted.

Credit hours earned in a repeated course are only given once. All previous courses and grades remain on the students permanent record and appear on the transcript. Beginning with courses repeated during the Fall Term 1999, the grade in the original course is not included by Marquette in the calculation of the students cumulative quality point average. Cumulative quality point average is adjusted at the time the repeated course grade is recorded. If a student withdraws from the repeated course, the earlier grade will remain in the students cumulative quality point average.

Students may repeat a course regardless of the original grade earned. Academic programs may specify courses that normally are not allowed to be repeated, or may identify limits on the number of times specific courses in their curriculum may be repeated. Otherwise, there is not a limit on the number of times a student may repeat a course. Students may not exercise the S/U option for a repeated course. Courses repeated at other institutions will not be used to replace grades earned at Marquette.

## APPEALS PROCEDURE

Undergraduate students may appeal a grade which the student believes to be in error. The student is expected, first of all, to exhaust all possibilities of resolving the problem with the pertinent instructor. If this does not lead to resolution, the student may initiate, in writing, the formal procedure for appealing the grade to the chairperson of the department or, in schools with no departmental structure, to the dean, stating the reasons he or she believes the grade should be changed. The chairperson or the dean will employ the appeals procedure which has been established by the department or college to ensure a fair consideration of the student's appeal. Normally no formal procedure of appeal will be given consideration if the documents are submitted later than the final day officially scheduled for the removal of incompletes, approximately four weeks after the beginning of the regular academic term immediately following the term in which the grade was assigned. The final disposition of the appeal is reserved to the dean of the college or director of the program in which the course was taken.

## EXAMINATIONS AND GRADE REPORTING

### MID-TERM ASSESSMENT

There is a mid-term assessment of the work of all undergraduate students in their undergraduate courses. However, the assignment of mid-term grades in courses numbered 195-199 and those designated "Possibly No Mid-term Grading" in the *Timetable of Classes* is at the option of the instructor, who will make known to the class at the beginning of the semester whether or not such grades will be assigned.

University policy does not require a formal mid-term examination. It is not unlikely, however, that many instructors administer such a test in their undergraduate courses.

Undergraduate students are expected to obtain their mid-term grade information by using the Window account available on Marquette's VAX computer cluster, as described in the Window section of this bulletin and in the *Timetable of Classes*.

### FINAL EXAMS

Final examinations are held in most subjects. A student's achievement in each of his or her subjects, expressed as a letter grade, is based on the combined results of class work and examinations.

A student who misses a final examination risks an F grade for the course. If he or she meets the pertinent criteria detailed under "Undergraduate Quality Points and Grading System" on page 32, he or she will be assigned the grade of X; he or she may be permitted to write a late examination to remove the X if the absence was for a valid reason and was reported in accordance with the norms established by the dean of the student's college.

### GRADE REPORTS

Final grade reports are prepared at end of term and mailed to the student at his/her permanent address. Two copies of the grades are included in the final grade report sent to each student so that any wanting to provide a copy to their parents may do so. A copy of the final grades of any student will be sent to their parents if that student requests it.

## HONOR SOCIETIES

### ALPHA SIGMA LAMBDA

The Zeta Psi chapter of Alpha Sigma Lambda was established at Marquette in 1990. The society honors those dedicated part-time adult students who while adroitly handling their life responsibilities, achieve and maintain high scholastic standards. For information, contact Part-time Studies at (414) 288-3153.

### ALPHA SIGMA NU

Founded in 1915, Alpha Sigma Nu honors students who have maintained high academic standards as well as a commitment to service and loyalty to the ideals of a Jesuit education. Membership requirements include junior standing and a Q.P.A. within the top 15 percent of their class. Only four percent of the students from each class within the various colleges and programs of the university will be considered.

Alpha Sigma Nu boasts 31 student chapters with 40,127 alumni members from Jesuit institutions of higher education throughout the United States, with one chapter at Sogang University in Korea. The society maintains on-going service and professional projects, provides mentoring and networking possibilities for its members, aids 31 Jesuit institutions of higher education through undergraduate scholarships, and coordinates three national book awards on an annual basis.

Founded at Marquette University, Alpha Sigma Nu's national headquarters remain on the Marquette campus. For information contact the office at (414) 288-7542.

### PHI BETA KAPPA

Phi Beta Kappa, chartered at William and Mary in 1776, is the oldest and most prestigious of the academic honor societies in the United States. Its purpose is to distinguish superior academic character and achievement and, through lectureships, scholarships, and publication of *The American Scholar*, to promote liberal education throughout the culture. There are only 249 chapters, and Marquette's Zeta chapter dates from 1971. Membership requirements typically include good (faculty-attested) academic character and a Q.P.A. in liberal arts courses within the top seven or eight percent of the graduating class. Students need not apply to be considered for membership. For further details, consult the College of Arts and Sciences for the name of the current secretary.

## GRADUATION REQUIREMENTS

Normally undergraduate students must meet the graduation requirements which are stated in the *Undergraduate Bulletin* issued for the year in which they entered Marquette. Exceptions to this rule may occur, as determined by the dean or director. It is to be expected that exceptions will occur in the case of any student whose enrollment period extends for more than eight years. Students whose enrollment is interrupted for two or more terms at a time normally must meet the requirements in the bulletin issued for the year in which they return to the university. *Students are responsible for keeping themselves informed of the requirements which apply in their particular cases.*

Every student has available faculty advisers who will assist in planning and implementing the student's program of studies; **however, it is ultimately each student's responsibility to know and fulfill the requirements for graduation specified for the selected program.**

A candidate for a baccalaureate degree must meet the following graduation requirements:

In all colleges and programs a minimum quality point average of 2.000 must be earned for graduation.

1. The candidate for a degree in arts and sciences or communication must earn 128 credit hours and a minimum of 256 quality points (2.000 quality point average).

In business administration (non-accounting), 129 credit hours (includes one one-credit S/U course) and 256 quality points (2.000 quality point average) are required. In addition, a candidate must achieve a 2.000 quality point average in all courses in the College of Business Administration. A candidate majoring in accounting must earn 129 credit hours with a 2.500 average in all courses taken in the college. At least 50 percent of the required business credits must be taken at Marquette University.

In engineering, 133 semester hours and a 2.000 average must be earned in Marquette and transfer credits accepted. In addition, there must be a 2.000 average in all engineering course work.

In health sciences, the candidate for a degree with a major in biomedical sciences, clinical laboratory science, exercise science, or speech pathology and audiology must earn 128 credit hours and a minimum of 256 quality points (2.000 quality point average.) For dental hygiene, 126 credit hours and 252 quality points are required. For exercise science, 126 credit hours and 252

quality points are required. For physician assistant studies, undergraduates must meet the graduation requirements of the biomedical sciences major and must complete in the professional phase 108 credit hours and 216 quality points required for the degree of master of physician assistant studies. For physical therapy, undergraduates must meet the graduation requirements of their selected major, and must complete 49 credit hours of pre-professional course work; in the professional phase, 56 credit hours and 112 quality points are required for the master of physical therapy.

In nursing, 129 credit hours and a minimum of 258 quality points (2.000 quality point average) are required.

In professional studies, 126 credit hours and 252 quality points (2.000 quality point average) are required.

2. Once a student has gained senior classification (as defined in this bulletin in terms of credit hours accumulated), a minimum of 30 hours of the remaining course work normally must be completed at Marquette University. Clinical laboratory science students must spend the second semester of the junior year in residency.

3. A minimum of 32 hours of upper division work normally must be completed at Marquette University.

4. A minimum of 15 credit hours in the major normally must be completed at Marquette University.

5. A student who interrupts residence for two or more consecutive terms must meet the graduation requirements which prevail at the time of readmission.

6. The student must attend any course of lectures, or any other exercises which have been or may be required, even though such courses receive no recognition in terms of credit hours.

7. The student must file a formal application and pay the required fee for a degree at the college office. Graduation fee due dates can be obtained from each college office.

8. May graduates must attend Commencement exercises. Permission to be absent may be secured only for serious reasons by writing before May 1 to the student's dean.

## GRADUATION HONORS

The quality point system is used to compute graduation honors. The computation is made by dividing the total number of quality points earned at Marquette University by the total number of quality point hours earned. To graduate with honors, a candidate must have earned at least 60 credit hours as a junior and senior at Marquette University.

A candidate whose average is 3.500 graduates *cum laude*; one whose average is 3.700 *magna cum laude*; and one whose average is 3.900 *summa cum laude*. Graduation honors are inscribed on diplomas, noted in the published lists of graduates at commencement, and recorded on the student's transcript.

## FAMILY EDUCATION RIGHTS AND PRIVACY ACT

In compliance with the Family Educational Rights and Privacy Act, Marquette University notifies its students of their rights to inspect, amend, and prevent disclosure of their education records. Marquette's policy regarding education records is printed in the *At Marquette* student handbook and copies may be obtained from the Office of Student Life in the Alumni Memorial Union, 121.

## ATTENDANCE

Students are expected to attend all exercises of the courses in which they are registered and to be on time. Any absence, regardless of the reason, will prevent the student from getting the full benefit of the course. Instructors may include class attendance as a measure of academic performance, and inexcusable absences may render a student liable to censure. Students must comply with the absence regulations of the college or school in which the course is offered. An instructor's syllabus should give particular directions regarding class attendance. Students who miss an exam or a deadline for an excusable reason should contact their instructor as soon as possible. (Students who are absent from class for a week or more for an excusable reason, such as a major illness, should inform the college in which they are enrolled.)

## CLASSIFICATION

A matriculated (a student who has declared degree candidacy) undergraduate student must have earned 24 credit hours before being classified as a sophomore; 60 hours before being clas-

sified as a junior; and 92 hours before being classified as a senior. A non-matriculated undergraduate student is not included under any of the above classifications but is categorized as an unclassified (because non-degree) student.

## NON-DEGREE STUDENT ACADEMIC REGULATIONS

1. Non-degree students may register for a maximum of seven credits each term. Written authorization from the student's dean/director must be acquired for exception to this policy. When requesting an exception, non-degree students may be required to present transcripts and other documents for evaluation.

2. Ordinarily, non-degree students, with the exception of registered nurse students, may accumulate a maximum of 24 credits at Marquette. Authorization from the office of the dean/director is required before students may exceed this limit.

3. Twenty-four credit hours earned at Marquette University on non-degree status is the maximum that may be applied toward a degree in all disciplines with the exception of nursing, in which only 12 credit hours may be applied.

4. Normally, students who are accepted and enroll with non-degree status must complete at least 12 credits before applying for degree status.

5. A 2.000 grade point average in Marquette University course work is a minimum requirement to be considered for degree status.

6. At the time non-degree students petition for degree status, they must comply with all regulations regarding credential submission as outlined for degree candidates in the Admissions Procedures section of this Bulletin.

7. Non-degree students are expected to maintain satisfactory academic progress at Marquette University. The student's progress in these areas is monitored regularly by the office of the dean/director. The university's policy and procedures governing scholastic censure outlined in this bulletin apply to non-degree students and are exercised as necessary by the colleges.

## SCHOLASTIC CENSURE

*Quality Point Deficiency*—All students are expected to maintain at least a C (2.000) Q.P.A. in Marquette work. Students whose cumulative Q.P.A. falls below a C (2.000) will be warned of such on their grade report and advised of the Q.P.A. level they must earn in future course work to remove the deficiency and achieve a 2.000 average.

All students who do not maintain at least a 2.000 cumulative quality point average in Marquette work are subject to an Executive Board review and possible academic dismissal at the discretion of the student's college or program. However, all students who do not maintain at least a 2.000 cumulative average in Marquette work and whose Q.P.A. deficiency falls within the following categories will be reviewed by the Executive Board and are subject to possible academic dismissal.

<i>Degree Hours Earned</i>	<i>Student's Quality Point Deficiency</i>
0-34	18 or more
35-70	16 or more
71-102	13 or more
103-	9 or more

*Failing Grades*—Continuing students who are graded under the prior policy are subject to review by the Executive Board as outlined in the section on "Scholastic Censure" in the bulletin under which they entered.

When a student is allowed to continue at Marquette with either excessive quality point deficiency or excessive failing grades the Executive Board, through the dean or director, will prescribe, in writing, conditions under which a student is allowed to continue. Students who fail to meet the conditions for progress stipulated by the Executive Board may be required to withdraw for academic reasons.

Any deviation from this policy appears in the appropriate college or school section of this bulletin.

## WITHDRAWAL FROM COURSES

A student who wishes to withdraw from one or more courses, but who will still be attending at least one other course during the term, must contact his or her college office.

A student may obtain permission to withdraw from a course with a "W" grade during the period extending from the day following the close of late registration until the date specified in the academic calendar. Before withdrawal, a student should confer with the office of the dean or

director to learn what procedures he or she is expected to follow. After this period, a student will no longer be given permission to withdraw from courses except for serious non-academic reasons (e.g., injury, family crisis). A student may, with the consent of the instructor, continue to attend a class from which he or she has withdrawn and may, with the agreement of the instructor and the dean, change to auditor status unless a tuition refund for the course has been received.

If a student, at any time, fails to manifest those qualities judged to be appropriate and necessary to the professional field for which he or she is preparing, withdrawal from the program may be required.

## WITHDRAWAL FROM THE UNIVERSITY

A student who is enrolled for one or more classes but decides to completely discontinue study for the term must formally withdraw from the university. Application for withdrawal must be obtained from the office of the student's academic dean.

After obtaining the Official Withdrawal form, a student who wishes to withdraw from the university during the term will personally confer with the dean at the time of such action.

If a student withdraws from the university during the term without the permission of the dean, he or she receives the grade UW (unexcused withdrawal) in each course, and the grade must be cleared by the dean before the student is eligible for readmission.

When the student obtains the Official Withdrawal form from the academic dean, the student will be informed whether the student must confer with any offices in addition to the dean's.

Withdrawal will not be processed by the university or considered officially complete until the withdrawal form with all necessary signatures is returned by the student to the office of the academic dean.

The only exception permitted to the policies and procedures described above applies to students who have classes only in the evening (after 5 p.m.). Such students do not have to physically appear at the academic dean's office; written notification of intent constitutes acceptable means of compliance with university policy and procedure.

In cases of withdrawal because of disciplinary reasons, the student must be cleared by the academic dean and the dean of students to be eligible for readmission.

A student who intends to withdraw from the university after the close of a term is strongly advised to confer with the dean.

All courses for which a student is officially registered as of the close of Late Registration are subject to fee assessment and payment, and as such to appear as part of the student's permanent record—even if the student does not attend any sessions of the class. Therefore, to avoid unnecessary fee charges and unnecessary courses with permanent grades of UW, WA or F on the student's permanent record, it is the student's responsibility to be certain that before Late Registration ends, his/her official registration accurately reflects only those courses for which the student plans to enroll.

## ACADEMIC DISHONESTY

It is not feasible to attempt to develop a list of all conceivable examples of academic dishonesty, but it may be helpful to list a few and to note that they all involve an attempt to deceive, to distort perceptions of reality, to gain a record of academic accomplishment greater than earned. All who are parties to the deceit are involved in academic dishonesty. Most acts of academic dishonesty involve cheating on examinations or reports in one way or another, improperly obtaining examination questions, plagiarism, forgery, falsification of records or impersonation of a candidate taking an examination.

Students who engage in academic dishonesty, whenever that may be, shall be subject to appropriate university penalties. Penalties ranging up to an F in the course in which the dishonesty occurs can be imposed by the dean of the college or school in which the course is offered. Additional penalties, if they are warranted, ranging up to expulsion from the university, can be imposed by the dean of the college or school in which the affected student is enrolled. If an appeal against the imposition of a penalty for academic dishonesty is taken beyond the college or school in which it was imposed, it should be directed to the Office of Academic Affairs.

---

# ACADEMIC FACILITIES AND RESOURCES

## LIBRARIES OVERVIEW

The university libraries support the teaching, research and service mission of Marquette University by providing access to recorded knowledge through their collections, services, cooperative programs and connections to world wide resources. A full description of resources, services, hours and news is found at the libraries' Web site, ([www.Marquette.edu/library](http://www.Marquette.edu/library)).

Collections of more than one million volumes of books and bound journals and 10,000 serial subscriptions are housed in three facilities: Memorial, Science, and Law.

The libraries' online catalog, MARQCAT, provides current information on book and periodical holdings. Students also may use library-sponsored search tools and databases on the World Wide Web to gain access to library catalogs, online periodical indexes, and full text sources in the full range of curricular subjects. These services are available from more than 80 PCs in the libraries including a 20-place instructional laboratory. Students with personal computers may connect to library resources from all campus residence halls, as well as from off-campus residences equipped with modem and Internet provider. A well-developed instructional program supports faculty and students in the use of electronic information resources.

During regular academic terms, Memorial Library and the Science Library are open 103 hours per week, including weekdays until 11:45 p.m.

Monday – Thursday 7:45 a.m.–11:45 p.m.

Friday 7:45 a.m.–10:00 p.m.

Saturday 10:00 a.m.–10:00 p.m.

Sunday 10:00 a.m.–11:45 p.m.

During final exam week, Memorial Library offers extended hours until 1:45 a.m. Library hours during the summer, intersessions and holidays are posted and updated regularly on the 24-hour recorded message at (414) 288-1530.

Reference desks are staffed most open hours by professional librarians to assist faculty and students in their study and research.

Assistance is available in a variety of formats: telephone, in-person, e-mail and research consultations by appointment. Each library maintains its own specialized collection of reference works, online databases and periodical indexes; subject specialists are appointed to assist with the research needs of students in all disciplines.

A variety of cooperative arrangements extend and supplement Marquette's library resources. Special borrowing privileges (InfoPass) are available to the Marquette community at Milwaukee Public Library (four blocks from campus), UW-Milwaukee, and the Medical College of Wisconsin, as well as more than a hundred other metro Milwaukee libraries. Interlibrary Loan service also obtains books and article copies at no cost for Marquette students and faculty from state, regional and national networks.

## MEMORIAL LIBRARY

The largest campus library, at 1415 W. Wisconsin Ave., Memorial Library supports the social sciences, humanities, and business disciplines with its collection and seating for 2,000. Reference and instruction services are available at (414) 288-7556.

The facilities in this library include study rooms for faculty and graduate students, a PC lab for student use, audiovisual and computer equipment, laser printing and photocopiers.

The Memorial Library Funding Information Center is part of the national network of regional collections of the Foundation Center in New York. The collection contains complete data on all Wisconsin grant-making foundations, as well as books, periodicals, and pamphlets on the subjects of fund raising, proposal writing and philanthropy.

Memorial Library also includes the Department of Special Collections and the University Archives, which contains 11,000 cubic feet of archival and manuscript collections and rare book holdings of over 10,000 volumes. In addition to the archives of Marquette University and the papers of faculty, students, staff, and alumni, the department holds major collections relating to Catholic social action in the 20th century. These include large collections for the following individuals and organizations: Dorothy Day and the Catholic Worker, the National Catholic Conference for Interracial Justice, the Catholic Association for International Peace, Sister Margaret Ellen Traxler, the Milwaukee Council on Urban Life, Monsignor Luigi G. Ligutti, and the National Catholic Rural Life Conference. The original manuscripts of J.R.R. Tolkien and the extensive Bureau of Catholic Indian Missions Records are also available for research use.

## SCIENCE LIBRARY

The library materials and services needed for instruction and research in the physical, life, health and engineering sciences are located in the Science Library at 560 N. 16th St. There is seating for 550, and books and journals are shelved on six floors. Hours are described above and reference service is available at (414) 288-3398.

The Science Library offers all public services including reference, instruction in library use, interlibrary loan and mediated computer searching. The Science Library provides World Wide Web and CD-ROM computer workstations for student research in many science bibliographic databases.

## LAW LIBRARY

The Marquette University Law Library is located in the Legal Research Center and was expanded in 1983. As the largest legal research facility in southeastern Wisconsin, and a selective governmental depository library, the library is used extensively by lawyers, judges, students and faculty. Open seven days a week, the library has a service-oriented staff of 18, including nine professional librarians, four of whom are reference librarians. All library operations are fully automated and patrons have access to MARQCAT, the Marquette University libraries online catalog.

The library's collection contains more than 260,000 volumes and equivalents in books and microforms, and new acquisitions are selected by the library's professional staff to meet the research needs of faculty, students, judges, and attorneys. The library has a comprehensive collection of primary and secondary legal materials for Wisconsin and the United States, and primary legislative and judicial materials from each of the states. The collection also includes a growing number of public international legal materials as well as legislative and judicial legal materials from Great Britain and Canada. The library selectively collects legislative materials of other countries as they become available in English.

In addition to its collection of primary legal materials, the library acquires materials on the philosophy and theory of law, the history and development of law and legal institutions, the effects of law on society, and selected materials in the social sciences and humanities necessary to contemporary legal education, scholarship, and decision-making.

The library's print collection is complemented by several CD-ROM titles such as LegalTrac and Martindale-Hubbell which are available on work stations in the library. Law faculty and law students have access to LEXIS and WESTLAW, two online computer-assisted legal research services. The Law Library maintains two computer labs providing law students with facilities for word processing, computer-assisted legal research and instruction and Internet access. Other library users also may access the Internet through public computer stations. The library also maintains an Internet web site ([www.mu.edu/law/library/research.html](http://www.mu.edu/law/library/research.html)) with information on the library and links to many legal research sources.

Students also may use the Memorial and Science libraries on campus as well as the Milwaukee Public Library and the Milwaukee Legal Research Center, both of which are located within two blocks of the Law School.

## EDUCATION RESOURCES CENTER

The School of Education maintains an Education Resources Center in the Walter Schroeder Health Sciences and Education Complex, 199. Collections of the ERC include sample curriculum guides from many cities and states; sample copies of elementary and secondary school textbooks; audio-visual material and equipment, including educational videos, instructional games, and microcomputers; sample educational computer software, which includes word processing programs; and other items related to teaching and learning. Materials in the ERC may be used by any student, faculty or staff in the university and by public and private teachers in the Milwaukee area, with priority for the needs of students enrolled in undergraduate and graduate studies in the School of Education. Special permission may be granted for use of materials by persons not otherwise connected with the university.

## HAGGERTY MUSEUM OF ART

The Patrick and Beatrice Haggerty Museum of Art opened in 1984 as a home for the university's permanent collection and a center for the fine arts on the Marquette campus. The collection comprises approximately 4,500 works of art from the 16th through the 20th centuries in the areas of painting, works on paper, sculpture, decorative arts, Asian and tribal arts. The muse-

um serves the Marquette community and the city of Milwaukee with changing exhibitions, lectures, concerts, performances, tours and special events.

Education is fundamental to the mission of the Haggerty Museum which aspires to stimulate lifelong interest in the fine arts. Programming includes lectures by artists, scholars and critics; symposia; teacher workshops; and tours. Through educational programs planned in conjunction with academic disciplines at Marquette and with area schools, the museum offers learning opportunities for all ages.

The museum's exhibition schedule incorporates 10 to 12 special exhibitions annually including those organized by the Haggerty Museum staff, traveling exhibitions, and interpretations of the permanent collection. The museum's program of innovative contemporary and historical exhibitions extends to nontraditional and experimental developments in the arts and reflects the cultural diversity of our world.

Admission to the museum is free. Hours are 10 a.m. to 4:30 p.m. Monday through Saturday, 10 a.m. to 8 p.m. Thursday, and noon to 5 p.m. Sunday. The museum is accessible to people with disabilities. For information or free tours, call (414) 288-1669.

## HARTMAN LITERACY AND LEARNING CENTER

The Hartman Literacy and Learning Center is a facility within the School of Education which supports undergraduate and graduate literacy-related programs. The center library houses a children's literature collection which is used by School of Education students as well as children and families participating in the Marquette University Family Literacy Project, a collaboration between the university and three neighborhood elementary schools. Students enrolled in EDUC 160 (Practicum in Reading) participate in the Family Literacy Project by tutoring small groups of children in reading and writing after school. The Hartman Literacy and Learning Center provides faculty and staff to support and conduct research regarding the project.

## INSTRUCTIONAL MEDIA CENTER

Located in Johnston Hall, the Instructional Media Center provides a broad range of media support to the university. Television, multimedia and still photography for classroom support and public communications are produced by the IMC's award-winning professional staff. Audiovisual equipment—from overhead projectors to video display systems—is available for instructional use on campus and may be reserved through the center's A/V division. In addition, the center administers media screening and conference rooms for use by small groups.

The IMC also provides unique educational experiences to Marquette students of radio and television. These facilities include two broadcast quality television studios, five audio studios and numerous editing suites. WMUR and MUTV, the campus radio and television stations, operate out of facilities managed by the IMC. These closed circuit, student operations are open to all students of the university.

## RESEARCH CENTERS AND INSTITUTES

In order to foster and enhance research and study at Marquette University, a number of units on campus have established thematic research centers and institutes. These centers and institutes offer the opportunity for active collaboration and research in a variety of categorical areas. Examples would include the Center for Intelligent Control Systems, the Center for Mass Media Research, the Family Business Center, the National Sports Law Institute, the Nursing Center, the Parenting Center, the Bradley Institute for Democracy and Public Values, the Wisconsin Center for Addiction Studies and the Center for Highway and Traffic Engineering. The Graduate School maintains a list of currently active centers and institutes.

The centers generally are designed to bring an interdisciplinary focus to the study of complex problems and involve the participation of several faculty members. Opportunities are available for student participation in the programs of several of the centers and institutes.

---

## PERSONAL RESOURCES AND FACILITIES

### ALUMNI MEMORIAL UNION

The Alumni Memorial Union provides students, alumni, university employees and guests with a comfortable environment for a variety of activities and meetings as well as a place to relax, eat or study. Union facilities include four food-service areas featuring a wide variety of cuisines; a gameroom; check cashing and ticket sales booth; a retail shop; a chapel; meeting rooms; lounges and other facilities which enhance the out-of-the-classroom experience. Programs held in the Alumni Memorial Union and Union Sports Annex, along with the Varsity Theatre and Weasler Auditorium, include lectures and seminars, concerts, receptions, films, dances and dinners.

The Alumni Memorial Union also houses the offices of the vice-president for Student Affairs, Campus International Programs, Office of Special Events and Conferences; University Ministry, the Marquette University Student Government, Student Educational Services, Commuter Student Association, Student Development, student organizations, and Union Food Service and Catering.

Reservations for meeting space can be made by calling the Alumni Memorial Union at (414) 288-7202. Union facilities may be rented by students, alumni and employees for private use.

The Union Catering Department, operated by the Union Food Service, offers complete catering services for events of all sizes. Catering services are available for use by university groups or private parties. Catering arrangements may be made by contacting the Catering Department at (414) 288-6370.

### ATHLETICS

More than 230 Marquette University students, male and female, are active in intercollegiate sports at the NCAA Division I level. Six sports are available for women, including basketball, cross country, indoor and outdoor track, tennis, volleyball, and soccer. Eight sports are available to men, including basketball, cross country, golf, indoor and outdoor track, soccer, tennis and wrestling.

The eligibility rules for participation in these sports are available from the Intercollegiate Athletics office in the 1212 Building.

### CAMPUS INTERNATIONAL PROGRAMS

The Office of Campus International Programs assists students from other countries to achieve more educational benefit from their Marquette experience and foster cross-cultural experiences on campus for the educational benefit of American as well as students from other countries.

Prospective students considering undergraduate admission who are not U.S. citizens or immigrants should contact the Office of Campus International Programs for appropriate information and application forms. This office replies to inquirers, corresponds with applicants, requests and evaluates foreign credentials, monitors the progress of each candidate's file, recommends university actions on admission, conducts post-acceptance legal procedures, and issues the federal documents necessary for prospective students to secure student visas for entry to the U.S. and enrollment at Marquette.

International undergraduate and graduate students are to report to the Office of Campus International Programs as soon as they arrive at the university. This office acts as liaison between Marquette visa students and the Federal Immigration Service. International students should consult with this office whenever they need information to extend their stay in this country, secure visas or renew passports, apply for work permission on or off campus, travel outside the U.S., apply for practical training permission, and complete related legal procedures. International students also can secure certification letters from this office for their attendance and their expenses for use in various procedures of their home governments.

Specialized housing and orientation programs are provided for newly-arriving international students prior to the beginnings of fall and spring semesters. Ongoing orientation programs also are offered as is assistance to individual students regarding personal situations, nonimmigrant government regulations, campus and community involvement, and a wide range of other cross-cultural matters. Students with certain specialized concerns, such as financial, English language, and academic difficulties, may be referred to other appropriate university offices for additional assistance.

The Office of Campus International Programs also administers the International Center and maintains contact with related local, regional, national, and international agencies. Staff specialists also serve as resources on international matters to other offices of the university. The office is located in the Alumni Memorial Union, 425, (414) 288-7289.

## CAMPUS SAFETY

As the Marquette community is located in downtown Milwaukee, students need to be aware of the realities of urban living. Recognizing this, the university strives to educate students about personal safety and crime prevention through a wide variety of safety programs and services.

Marquette maintains its own Department of Public Safety as a security and safety service to the university community. The department is located on the first floor of Parking Structure I, 749 N. 16th St. (between Wisconsin Avenue and Wells Street). This location houses Public Safety Administration, Officer Operations, Communications Center, Preventive Services, Student Safety Programs, and Transportation Services and Parking Services. Public Safety operates 24 hours a day, every day. Services can be obtained by calling (414) 288-6800. In cases of emergency, students and employees should contact Public Safety's emergency line by dialing 8-1911 from any campus extension or (414) 288-1911 from any off-campus phone.

Public Safety officers monitor on- and off-campus areas by using squad, foot and bicycle patrols. Public Safety officers are trained to respond to all calls for help, including crimes in progress, emergency situations and medical assists. Communications officers operate the department's 24-hour Communications Center and university service officers patrol and service the university's parking lots, buildings and malls to insure that security and safety are maintained. Proper security within the residence halls is insured by Public Safety's residence hall officers, who are on duty from 11:30 p.m. to 7:30 a.m. daily.

The department also maintains an outdoor telephone system which includes more than 60 Blue Light Phones. Blue Light Phones are located on campus pedestrian walkways, mall areas and within the university's parking lots. Six Blue Light Phones are located at Valley Fields and ten have been added to the near off-campus area. When a Blue Light Phone receiver is lifted, a Public Safety officer will respond immediately, knowing the caller's exact location. This enables assistance to be dispatched immediately.

A wide variety of crime prevention and safety awareness programs are made available to groups that are interested in promoting safety. Popular topics include self defense, personal safety, sexual assault prevention and alcohol awareness. Numerous brochures, the *Awareness* newsletter and crime statistics are readily available to provide information.

Any member of the Marquette community who becomes involved in a crisis situation can receive the benefits of the Victim/Witness Services program. The program provides resources for those in need of counseling or support services in addition to providing escorts to and from all necessary court-related appearances.

Public Safety operates in accordance with the Federal Campus Crime Reporting Act through the publication of its annual report. The annual report lists the department's various services and explains how information relevant to campus safety is distributed. A statistical comparison of major crimes over the previous three-year period also is included. A copy of the annual report can be obtained from the Public Safety office or from information racks located in several campus buildings and all residence halls.

## CAREER SERVICES CENTER

The Career Services Center, in Marquette Hall, offers career assistance to students, graduating seniors and alumni. It assists students seeking internships, graduating seniors looking for entry-level positions and alumni looking for new or different career positions. The center staff assists students with career plans and job search efforts of all students. Resources in the career center also are available for students applying to graduate or professional schools or for prestigious scholarships and fellowships.

Students and alumni are brought together with employers in a variety of ways. Approximately 400 employer interview visits are conducted each year resulting in approximately 3,500 campus interviews. Students can register for interviews via telephone once they complete a résumé and are entered into the database system. This also allows Career Services to send out résumés at the request of employers.

The Career Services Center has a web site and advertises all internships and jobs through a program at this site called JobTrak. Marquette students or alumni who can access the World Wide Web can make use of the job openings on JobTrak. In addition, many other job databases,

employer resources, and career information sites are linked to the CSC homepage, including MUSCAN, a Marquette alumni career networking database. Computers are available in the career resource center for student use.

The Career Services resource center contains descriptive brochures and annual reports on a wide variety of employers, general information on government employment, specific public and private job announcements, directories of specific groups of employer information, and self-help books on the job search process. Several national job listings also can be accessed on the personal computers in the resource center. Also available are directories of graduate and professional school programs and information booklets and registration forms for advanced study entrance tests including the GRE, GMAT, LSAT, MCAT, etc.

Seminars for small groups are conducted regularly throughout the year on the job search, résumé writing, interviewing. Individual counseling is available by appointment on all of these topics or other career-related concerns. Everyday from 3 p.m. to 4 p.m., students can drop in with résumés ready for polishing or other quick career-related questions and see a counselor without an appointment.

The main office, (414) 288-7423, and the career resource center with counselor's offices, (414) 288-3577, are located in the lower level of Marquette Hall and are open from 8 a.m. to 5 p.m. Monday through Friday. In addition, the library is open on Monday and Thursday evenings until 6:30 p.m.

## CHANGE OF NAME OR ADDRESS

Whenever a student changes his or her name or address, the change must be reported to the university registrar, who will notify all other appropriate offices.

In the case of a name change, the *Request for Change of Name* form must be requested from the Office of the Registrar, completed, notarized, and returned to that office. The basis for the change of name must also be attached to the form. In most cases (e.g., marriage), a letter of explanation will suffice; but in the case of legal change of name, a certified copy of the court order authorizing the change is required. Free notary service is available for those who appear in person at the Office of the Registrar.

Address changes may be made in person at the Office of the Registrar, on the return card included with the Registrar's confirmation of class schedule, or, perhaps most conveniently, through the WINDOW account on the computer.

## CHECK CASHING SERVICES

A student may cash checks at the Office of the Bursar in Carpenter Tower Hall and at Union Station in the Alumni Memorial Union. To cash a check, students must present a validated student ID card and pay a nominal fee. Check cashing is limited to \$50 on a personal check, \$150 on outside payroll checks, and \$300 on Marquette University student payroll checks, per week. This service is available at the bursar's office between 8 a.m. and 4:30 p.m., Monday through Friday. Check cashing service also is available at the Union Station, between 8:30 a.m. and 5:30 p.m., Monday through Friday and between noon and 3 p.m. on Saturday. Check cashing privileges are subject to suspension or revocation at the discretion of the bursar.

## CHILD CARE CENTER

The Marquette University Child Care Center, located on campus in the William and Evelyn Krueger Parent and Child Care Center at 749 N. 17th St., serves the children of students, employees and alumni. The center's main objective is to provide a positive atmosphere which will promote the social, physical, intellectual and emotional growth of children. The program utilizes a play-based approach with developmentally appropriate activities.

The center provides care for children from ages six weeks through six years and also a summer program for children up to age eight. Half-day kindergarten for four- and five-year-olds is offered, based on a whole language approach and learning centers for hands-on activities. All programs offer the opportunity for individualized attention.

The center is open year round from 7 a.m. to 6 p.m., Monday through Friday, and is closed on all university holidays. Fees are structured to accommodate unique schedules. For information, including enrollment openings and fees, call (414) 288-5655.

## CLUB SPORTS

The Club Sports program at Marquette is designed to provide competitive, recreational and instructional sports activities for students. Many clubs compete against other clubs, schools, colleges, or universities while others offer instruction and intracub competition.

A club sport is a registered student organization conducted by elected student officers that coordinate club activities. The basic structure of clubs allows members numerous opportunities for involvement with fundraising, public relations, budgeting, administration, and scheduling. The key to success of the club sport program is dependent upon the student leadership, interest and involvement.

The following clubs are currently active for the 1999-2000 school year: men's baseball, men's and women's curling, men's ice hockey, men's lacrosse, men's and women's rowing, men's and women's rugby, men's and women's sailing, men's and women's ski racing, women's softball, men's and women's swimming and diving and men's and women's volleyball.

## COMMUTER STUDENT ASSOCIATION

Services to commuter students are provided through the Commuter Student Association. CSA is a student organization with the goals of providing commuter students with services related to orientation, communications, transportation and activities.

Among the services provided are lockers in the Alumni Memorial Union which are available for a nominal rental fee and a lounge for commuters on the first level of the Union. Commuters are kept informed by a newsletter that is published by CSA. For further information call the coordinator for campus programs in the Office of Student Development, Alumni Memorial Union, 121, (414) 288-7205.

## COMPUTER SALES

CDW•G (Computing Solutions Built for Government and Education) offers competitive academic prices, quick delivery, custom configuration and free lifetime technical support on leading brand name products in all major computing categories. CDW•G is located in the Alumni Memorial Union Hall, 151. Hours: Monday through Friday from 8 a.m. to 5 p.m. Call (414) 288-8247 or (800) 808-4239 for pricing and stock information. Web site ([www.CDWG.com](http://www.CDWG.com)).

## COMPUTER SUPPORT — See Information Technology Services

## COUNSELING CENTER

A staff of professional psychologists and counselors provides individual and group assistance to students with educational, vocational, personal or psychological adjustment problems. The staff is committed to providing a warm and friendly atmosphere for students. Counseling services are confidential and free for full-time students. Part-time students are seen for one, free session and then referred to a professional counselor in the Milwaukee community.

Career counseling is provided through individual appointments and career exploration groups. Additional career information is available through the Career Information Library. A variety of ability and interest tests are available to students.

The Counseling Center administers several national testing programs for candidates of graduate and professional schools. Registration information for the MAT, GRE, GMAT, LSAT and MCAT can be obtained by calling (414) 288-7172.

The Counseling Center is in Holthusen Hall, second floor, and is open from 8 a.m. to 4:30 p.m., Monday through Friday. For information call (414) 288-7172.

## DENTAL CLINIC

The clinic services of the School of Dentistry are available to all Marquette students. The Dental Clinic, which is not a part of the University Health Service, is located in the School of Dentistry. Dental services are provided at a nominal fee; all Marquette students enrolled in credit courses receive an additional 10 percent discount. Further information can be obtained from the recorded message at (414) 288-1510, or directly from the Dental School switchboard, (414) 288-6500. Marquette's students also may receive preventive periodontic services (cleaning) from dental hygiene students. Arrangements for such an appointment can be made by calling the Department of Dental Hygiene, (414) 288-7153.

## DISABILITY SERVICES

Marquette University strives to integrate qualified students with disabilities as fully as possible into all aspects of university life. The Office of Disability Services, located within Student Educational Services, has been designated to coordinate this process in accordance with the university's compliance responsibilities under the law. Accommodations determinations for all students with identified and documented disabilities will be made on a case-by-case basis. Examples of possible accommodations include taping of textbooks, locating interpreters, note-takers or attendants, orientation to campus, informal counseling, arranging for alternative tests, and advocacy.

A policies and procedures document containing more detailed information about accessibility for all students with disabilities at Marquette is available from the Coordinator of Disability Services, Alumni Memorial Union, 317, P.O. Box 1881, Milwaukee, WI, 53201-1881; (414) 288-1645 (Voice/TTY).

## INTERNATIONAL CENTER

The International Center, located on the fourth floor of the Alumni Memorial Union 407, promotes interaction among students from around the world, including the United States. Students from all countries are invited to share in the international activities of the center, to participate in its operation and to plan international events there. The center offers discussions and speakers, social and educational activities, films, and exhibits on various cultures. Facilities include a shortwave radio, an international music collection, worldwide television, international boardgames, and a fully equipped kitchen. The center may be reserved by Marquette nationality or international groups for their functions. The center is administered by the Office of Campus International Programs.

## INFORMATION TECHNOLOGY SERVICES

Information Technology Services is a support organization responsible for providing voice and data communications and computer-based services and training to all members of the Marquette community. ITS manages MarquetteNet, the university's campus-wide fiber optic network built to handle the voice, video and data needs of the Marquette community. MarquetteNet allows students to access the computing resources distributed throughout campus. Students also have access to the Internet from their residence hall rooms. E-mail is available through the central computing facilities consisting of a cluster of Digital Equipment Corporation computer via various public workstations, dial-up connections, or through MarquetteNet. ITS also supports several UNIX and Windows NT servers for academic and administrative use.

ITS provides technical support for the PC's, Macintoshes, laser printers, and scanners in the Campus Computer Labs, Cudahy Hall, 108 and 240. Members of the Marquette community can receive computing information and assistance from the ITS Help Desk between 8 a.m. to 5 p.m. Monday through Friday. ITS supports business and information processing for university administrators as well as instructional and research needs of academic areas. ITS staff aid in designing, developing and implementing both third-party software and locally created systems. In addition, free, introductory training courses covering a variety of mainframe and microcomputer topics are offered each semester. For information, visit the ITS website at ([www.Marquette.edu/its/](http://www.Marquette.edu/its/)).

## MAIL SERVICES

U.S. mail is delivered to students in on-campus housing by the U.S. Postal Service. Within the Alumni Memorial Union is Union Station, a U.S. Postal Contract station. Students and the public can bring letters and packages for processing by either U.S. Postal Service or United Parcel Service. Packaging, as well as shipping services are available at Union Station.

## MARQUETTE UNIVERSITY ALUMNI ASSOCIATION

The Marquette University Alumni Association has been a unifying force for Marquette alumni and the university since its founding in 1893. More than 100,000 alumni reside throughout the world.

With its mission to promote the ideals of Marquette and bring alumni closer to the university and one another, the alumni association sponsors nearly 300 service and social projects a year and sponsors numerous Marquette students through their various scholarship programs.

Hundreds of volunteers comprise the various organizations of the Alumni Association, devoting time, talent and resources for the constant improvement of Marquette. The alumni association proudly recognizes 38 Marquette Clubs from San Juan to San Francisco and alumni associations attached to each of Marquette's colleges and programs.

The Alumni Association hosts two signature weekends annually, Reunion Weekend, which takes place the last weekend of July and its National Alumni Awards Weekend, the last weekend of April. The association also sponsors National Service Day when alumni throughout the country celebrate their ties to Marquette on the same day by helping those less fortunate in their communities.

## MULTICULTURAL CENTER

The Multicultural Center is a part of the Office of Student Development. Established in 1972 as a focal point for ethnic minority student interaction and activities, the MCC promotes a philosophy of cultural inclusiveness in its services and programs. The purpose of the MCC is twofold. First, through programs and consultation, the campus community learns about ethnic minority cultures, celebrates each group's cultural contributions, and models how to live in a multicultural world. Second, the MCC assists students from different ethnic backgrounds to create a campus environment that supports their educational goals.

In conjunction with other departments and student organizations, the MCC offers programs and activities promoting ethnic awareness throughout the academic year. To learn more about these activities, contact the coordinator for multicultural programs in the Office of Student Development, Alumni Memorial Union, 121, (414) 288-6769. The Multicultural Center lounge is located in the Alumni Memorial Union, 111.

## PARKING SERVICES

To park in a Marquette University lot or structure at anytime throughout the calendar year, a parking permit must first be purchased by registering the vehicle with the Parking Services office.

Full-term parking permits will be available for purchase in the ballroom of the Alumni Memorial Union on the first two days of classes of the fall term. After that, full-term and less than full-term temporary parking permits can be purchased from the Parking Services office, 749N. 16th St.

Students who commute to campus may purchase a permit and gate card for entry to Lot S, between 18th and 19th Streets, south of Wisconsin Ave., or Lot M, at 12th Street and St. Paul Avenue.

Overnight, or 24-hour parking permits will be available for purchase for two of the university's structured ramps: Parking Structure 1, the seven-level parking ramp located at 749 N. 16th St., and in Parking Structure 2 (Humphrey Hall) on 18th Street north of Wisconsin Avenue. Surface lot parking also will be offered in Lot E located on 13th and Wells Streets, and Lot S located on 18th Street, south of Wisconsin Avenue.

Both evening and part-time student permits also are available for sale. Again, specific lot assignments and entry gate cards are issued. Please contact the parking office at (414) 288-6911 for information on any parking related inquiries.

## RECREATIONAL SPORTS

Indoor recreation activity at Marquette University revolves around the Helfaer Tennis Stadium and Recreation Center and the Rec Plex. Both facilities are free to all students, while their families are eligible to join for a nominal fee.

Facilities at the Recreation Center include six indoor tennis courts, three handball/racquetball/wallyball courts, a squash court, swimming pool, multipurpose room (containing space for five basketball courts, four volleyball courts, three badminton courts and a jogging lane), fully equipped fitness/weight room, pro shop, four locker rooms, two saunas and a fitness assessment center.

The Rec Plex, located in East Hall, includes four handball/racquetball/wallyball courts, a squash court, two gyms, swimming pool, suspended jogging track, two weight rooms, four locker rooms, saunas, whirlpools, steam rooms, and a fitness assessment center.

The Valley Fields Complex is a 13-acre facility located a short distance south of central campus. This outdoor complex includes an 8-lane 400 meter track; a synthetic turf regulation football/soccer/lacrosse field; two synthetic turf recreational fields; a natural turf soccer field; and a gatehouse service building for equipment issue, rest rooms and vending. It will serve as a venue

for individual fitness activities, intramural sport contests, club and varsity sport practices and games/meets, and university and community group use.

The Instructional Sports Program is designed to acquaint individuals with the skills, rules, knowledge and strategies associated with many popular sports and physical activities. A key concept in this program is that it is geared toward providing avenues for one to get in shape, feel good, and have fun throughout his or her lifetime. Activities in this program include tennis, racquetball, karate, aerobics, water exercise, women's self defense, swimming, SCUBA and more. Instruction is geared to meet individual needs. Instructional programs are offered during the regular academic year and during summer sessions. There is a nominal fee and enrollment is limited.

## REGISTRATION (TVR)

Marquette University uses a system of registration by telephone known as Touchtone Voice Response, or TVR. In addition to offering the convenience of phone registration, TVR also offers early registration by permitting continuing and readmitted students to begin registering for the next term during the previous term. New students begin registration at a somewhat later date, but still several weeks before the first day of class.

A student must have both an MU Identification number (MUID) and a Personal Access Code (PAC) to register in the TVR system. The MU I.D. is assigned to students at the time of admission to the university. A PAC is assigned only to students who are eligible to register.

After receiving a PAC, students will complete their registrations using a touchtone phone according to the procedure described in the university's registration *Timetable of Classes*. No class may be attended for which the student is not properly registered. Proper registration includes the payment of all tuition and fees. Advising is required for all students prior to registration each semester. Accordingly, students who register for course work without adviser approval assume full responsibility for their registrations. Courses that do not satisfy the requirements of their programs of study will not be applied toward the degree.

All courses for which the student is officially registered as of the close of TVR Late Registration are subject to fee assessment and payment, and as such to appear as part of the student's permanent record. It is the student's responsibility to be certain that, before Late Registration ends, his or her official registration accurately reflects only those courses for which he or she wants to be enrolled.

## SPEECH AND HEARING CLINIC

The services of the Marquette Speech and Hearing Clinic are available to Marquette students, and their dependents, at no cost. Available services include speech and hearing evaluations, and therapy to assist in correcting speech problems. The clinic is located in Monitor Hall, 619 N. 16th St. An application can be obtained by calling (414) 288-7426.

## STUDENT DEVELOPMENT

The Office of Student Development, housed within the Division of Student Affairs, promotes the education and development of each student and the campus community. The staff, programs, resources, and facilities that comprise the office contribute to the education of the whole person — the development of intellect, spirituality, integrity, identity, and professional and interpersonal competencies. Furthermore, the office serves as a catalyst in the evolution of a culture in which members of the campus community respect, appreciate, understand and learn from each other and from reflection on their experiences.

Through the design and delivery of a wide variety of programs and services, the Office of Student Development focuses on three goals: 1) encouraging active student involvement and a strong, vibrant, diverse campus community; 2) fostering a lifelong ethic of service and a commitment to working for a more just society, and 3) enhancing student leadership and character development.

Specific programs coordinated by the Office of Student Development include:

- Preview, Orientation, and new student programs
- Students Taking Active Roles (STAR) first-year leadership program
- recognition and advisement of 160 student organizations including Marquette University Student Government
- multicultural events and celebrations
- student activities and campus traditions
- music organizations and programs

- commuter student programs
- Marquette University Community Action Program (MUCAP)
- Hunger Clean-up
- administration of the Burke Scholarship program
- community service student organizations and referrals
- leadership workshops, conferences, and training sessions
- leadership resources and recognition programs
- student conduct administration
- Greek life — 18 fraternities and sororities
- Senior Re-orientation

The Office of Student Development is located in the Alumni Memorial Union, 121 and 329, (414) 288-1412. Several of its programs and services are administered through the Center for Community Service (AMU 329), the Multicultural Center (AMU 121), the New Student Orientation Center (AMU 323) and the Leadership and Organizational Resource Center (AMU 140). Housed in the Office of Student Development, these Centers serve as educational hubs that provide students, faculty, staff and community members with resources, expertise and support for their activities.

## STUDENT EDUCATIONAL SERVICES

The Office of Student Educational Services provides a range of academic support services to students free of charge. These services include:

### STUDY SKILLS/TIME MANAGEMENT ASSISTANCE

Students may elect to attend formal workshops on a variety of topics related to study skills or they may meet individually with a study skills specialist to improve their study strategies.

### TUTORING SERVICES

Free tutoring services are provided for a wide variety of courses. Tutorial sessions are conducted by Marquette students in the Alumni Memorial Union. Students may request this service by completing a Tutor Request Form in AMU 317.

### RETENTION SERVICES

In collaboration with the greater campus community, retention services including assessment, referral, and follow-up are provided for students with questions or concerns about any aspect of their enrollment.

### DISABILITY SERVICES

See section on Disability Services in this Bulletin.

Located in the Alumni Memorial Union, 317, the Office of Student Educational Services invites students to drop in or phone the office at (414) 288-3270 with their requests or questions.

## STUDENT GOVERNMENT

The Marquette University Student Government is the central student governmental body for the university. As such, it has several broad responsibilities: the planning and coordination of campus-wide educational, cultural and social programs through the MUSG Services Board, the development of activities in conjunction with student organizations, and the representation of student needs and concerns to the university community.

The student body president, executive vice-president and senators are popularly elected by the total undergraduate student population. Positions in the student government and on all-university committees are open to all full-time undergraduate students. The student government offices are located in the Alumni Memorial Union, 133.

## STUDENT HEALTH INSURANCE

All students enrolled and attending Marquette University and their dependents are eligible to participate in the exclusive plan underwritten by Connecticut General Life Insurance Company and administered by Rust & Associates. Plan description and enrollment materials will be mailed to all enrolled students before the start of fall term each year and to all new students starting spring term. Information about the plan may also be obtained at the Student Health Service. Marquette University makes no representations about the student health plan, but considers it to be an alternative to the limitations of family plans or for students who use it as their sole source of coverage.

## **BRIEF SUMMARY OF PLAN BENEFITS: (Based on 1998-99 Plan Year)\***

### **Maximum Benefit:**

\$500,000 lifetime

### **Benefits:**

\$150 annual deductible

80% of usual and customary charges in PPO network

Limited co-pays for physician visits and prescriptions

Stop-loss protection after \$3,000 of out-of-pocket expenses

For general information, how to file a claim and claim status:\* (800) 336-0747 Rust and Associates (hours: Monday - Friday, 8am - 4:30pm CST).

For general information only, call Student Health Service: (414) 288-7184 (hours: Monday - Friday, 8:30am - 4:30pm CST).

More complete details of the plan are available by calling Rust and Associates (800) 336-0747 or the Student Health Service (414) 288-7184.

\* Plan agent and/or carrier are subject to change, and benefits are subject to improvement for FY2000. If specific information cannot be obtained from the agent/carrier at the telephone number above, contact Student Health Service at (414) 288-7184.

## **STUDENT HEALTH SERVICE**

### **LOCATION:**

The Student Health Service is located in the southeast wing, lower level of the Walter Schroeder Health Sciences and Education Complex.

Telephone: (414) 288-7184

Fax: (414) 288-5681

EMERGENCIES: Call 8-1911 on-campus or 911 off-campus

### **SEMESTER HOURS:**

Monday, Thursday, Friday, 8:30 a.m. to 4:30 p.m.

Tuesday and Wednesday, 8:30 a.m. to 8 p.m.

Saturday Clinic, 10 a.m. to 2 p.m.

### **SUMMER HOURS:**

Monday - Friday 8:30 a.m. to 4:30 p.m.

Student Health Service provides quality primary care and preventive health education and wellness to the student community in the most accessible, efficient, perceptive, and affordable manner possible. We are committed to helping students establish and maintain good health throughout their academic experience at Marquette. Through interactions with the Student Health Service, students learn the important role they play in managing their own health and in developing positive behaviors which will serve them well for the duration of their adult lives.

### **Clinical Services:**

Primary/acute care clinic

Women's care services

Minor surgical procedures

Allergy injections

Immunizations

TB testing

STD screening

Anonymous HIV testing

Eating disorder counseling

Formulary for prescriptions

Laboratory services

### **Health Education and Wellness Programs:**

Nutrition /Weight Management

Hypertension Screening

Fitness Testing

Men's health issues

Women's health issues

Intimate communications

AIDS

Peer Pressure

Preparing for winter

Body art

Partnerships in health

Vegetarianism

### **ELIGIBILITY:**

All students who are enrolled in credit classes are eligible to use the Student Health Service.

### **COST OF CARE:**

Full-time undergraduates pay the \$72 per semester health fee and are entitled to the following: unlimited access to a physician, nurse practitioner, or physician assistant during regular and extended hours of service; no charges for most lab tests done in-house; reduced charges for prescriptions filled at SHS and lab tests sent to reference laboratories; waiver of allergy injections

administration fee; and reduced charges for immunizations. The health fee does not cover charges incurred for referrals or care delivered elsewhere.

Part-time undergraduates and all graduate/professional students may choose to pay the health fee and access services the same as full-time undergraduate students. Students who have the option to pay the health fee may do so within the first 30 calendar days of each term (starting with the first day of class) or first 15 calendar days of each summer session. Voluntary pre-paid health fees may be paid at the Student Health Service, Union Station (AMU), or the Bursar's Office by cash, check, MU flex card, Visa or Master Card, or bank debit card.

Enrolled students who are part-time and not assessed, or who otherwise do not pay the health fee, may be seen at the Student Health Service on a fee-for-service basis.

## STUDENT IDENTIFICATION CARDS

The Marquette Card is a university-recognized source of student identification. A student is required to carry an identification card and be responsible for it at all times. The card is provided by the Marquette Card services and is required for admission to all academic and athletic events and for the following services or facilities: check cashing, e-mail account, flexible spending account, Helfaer Tennis Stadium and Recreation Center, LIMOs, meal plan, Memorial Library access, photocopying, PrintWise, Rec Plex, residence hall access, student employment, student health service, student ticket sales, after-hours building access (selected buildings) and obtaining personal university records. Falsification, misuse or failure to show a Marquette Card may subject a student to disciplinary action. If a student loses his or her card it should be reported immediately to Marquette Card office or Public Safety. There is a replacement fee for lost cards.

## STUDENT PUBLICATIONS

Three publications serve the general needs of Marquette students. The *Marquette Tribune*, a newspaper published Tuesdays and Thursdays; the *Marquette Journal*, a magazine published four times each year; and the *Marquette Hilltop*, the online-CD-ROM yearbook. Although generally staffed by journalism majors, any Marquette student who is interested in publication work can join one of the staffs and serve in some capacity. Several schools and colleges of the university also publish their own magazines, newsletters or newspapers.

## STUDENT SAFETY PROGRAMS

The Department of Public Safety's Transportation Services division provides students with two programs that offer safe transportation throughout the on- and near off-campus area. Both programs provide safety escorts (mobile or foot) seven nights a week to Marquette students, faculty and staff.

### LIMO PROGRAM

The LIMO (Local Intercampus Mobile Operation) Program provides a means for Marquette students and employees to travel safely between the Marquette campus and its adjoining residential areas. With a fleet of 11 vans, the LIMO program is capable of transporting all individuals, including those with physical restrictions. Posted "LIMO STOP" signs are located in every residence hall, the Alumni Memorial Union, the Science and Memorial Libraries, the Rec Center, Humphrey Hall, Cudahy Hall and the Public Safety Office at 749 N. 16th St. These designated stops are visited by LIMO vans approximately every 15 minutes. To request a LIMO transport from any other location, call (414) 288-6363. By showing the LIMO driver a valid Marquette University ID card, students and employees are entitled to free transportation to any location in the on- and near off-campus areas. The LIMO program operates from 5 p.m. to 3 a.m. seven nights a week, year round.

### SAFETY PATROL AND ESCORT SERVICE

Outfitted in yellow windbreakers, student employees also help to deter crime by patrolling the campus and near off-campus areas. Patrols report suspicious activity to Public Safety officers. Safety Patrol personnel provide individuals with information about university services and are available to escort them to and/or from areas within Marquette's on- and near off-campus areas.

The Safety Patrol operates from 5 p.m. to midnight, seven nights a week, throughout the school year. An escort can be obtained by contacting the Communications Center at (414) 288-6363.

## **BICYCLE SAFETY**

Public Safety maintains its secured bike corral which is located on the lower level of Parking Structure 1. The secured area can only be entered via a card system and is monitored by Public Safety. Admission into the corral is free and bicycles can be registered with the Parking Services office. All stored bicycles must be secured to the corral's racks with a high security bicycle lock. In addition to the corral, several bicycle racks are located throughout the campus area which should be used in order to prevent theft and allow for an unobstructed flow of traffic on campus. When traveling to and from campus, students should utilize bike racks on campus. Locking bikes to trees, light poles and other fixtures is not permitted.

## **THEATRE ARTS, DRAMA**

The Evan P. and Marion Helfaer Theatre provides an excellent theatre/teaching facility on campus. The structure includes a 226-seat theatre, a proscenium stage, studio room for acting, directing and dance instruction, and full production support facilities.

The Theatre Arts faculty invite all university students, undergraduate and graduate, to participate in Marquette theatre productions. An undergraduate student must have a 2.000 grade point average to participate.

## **TRANSCRIPT OF RECORDS**

A transcript is a complete and unabridged copy of all academic work attempted at Marquette University and includes only those courses attempted at Marquette University. Course and grade information contained on the transcript are released pursuant to the Family Educational Rights and Privacy Act of 1974 (as amended).

A student may obtain a transcript of his or her Marquette record by applying in writing to the Office of the Registrar at least one week in advance of the date on which the transcript is needed. Fax requests are accepted, but transcripts will NOT be forwarded by fax.

The fee for this regular service is \$3 for one transcript plus \$2 for each additional transcript in the same request. The fee for immediate (within two hours) transcript service is \$4 per transcript. All transcript fees are payable at the time of the request, preferably by check.

Every transcript that is issued directly to a student is clearly so marked. Because most institutions will not accept a transcript that has been in the student's possession, we urgently recommend the student request the Office of the Registrar to mail a transcript directly to the institution involved. Students who elect not to follow this recommendation are liable for any further charges for additional transcripts.

## **UNIVERSITY BOOKSTORES**

The Marquette University bookstores are located in two facilities: the Book Marq and The Golden Eagle. These facilities are provided by the university for the convenience of the Marquette community. Both stores accept Mastercard, VISA, Discover and American Express credit cards, as well as personal checks (with current identification).

### **BOOK MARQ**

The Book Marq, located at 818 N. 16th St., provides all of the textbooks and supplies for the academic needs of the campus. For information, call (414) 288-7317.

### **THE GOLDEN EAGLE**

The Golden Eagle is located in the Alumni Memorial Union and is the source for imprinted sportswear, gifts, greeting cards and general reading material to the Marquette community. For information, call (414) 288-3050.

## **UNIVERSITY INFORMATION**

Located on the second level of the Alumni Memorial Union, University Information has information about university events and organizations as well as community activities which may be of interest to the university community. Phone numbers of students and university offices also are available. Walk-up and telephone information is available during the center's regular semester hours of 7 a.m. to midnight Monday through Thursday; 7 a.m. to 1:30 a.m. Friday; 8 a.m. to 1:30 a.m. Saturday; and 9 a.m. to midnight Sunday. Call (414) 288-7250 during these hours with any questions. The *Milwaukee Journal Sentinel* is sold Monday through Friday at University Information.

## UNIVERSITY MINISTRY

"Into whatever city you go . . . Say to them, the kingdom of God is near to you." (Luke 10)

The proclamation of the Good News of Jesus Christ in word, sacrament, service and the living out of gospel values is the missions of University Ministry in the "city" that is Marquette University. As missioned by the Catholic Church, this work of love is directed particularly toward the education and pastoral care of students and other members of the university community. This ministry is further defined by a commitment to continuing the work and spirituality of St. Ignatius of Loyola.

University Ministry provides opportunities for faith formation, pastoral care for individuals, education for justice and service, retreat and reflection, and sacramental preparation as well as prayer and worship in several religious traditions in addition to the Catholic tradition. University Ministry is located in the Alumni Memorial Union, 236. For information, call (414) 288-6873.

## VETERANS BENEFITS

The Office of the Registrar acts as liaison between the student and the Veterans Administration or the Wisconsin Department of Veterans Affairs. Any student eligible to receive educational benefits under one of the various Veterans Administration programs must report to the Office of the Registrar at the beginning of each term or Summer Studies. Information or consultation is available at any time during regular office hours.

V.A. regulations require schools to enforce certain standards of progress in regard to certifying veterans for educational benefits. Any veteran who fails to meet these standards cannot be certified by the school for V.A. benefits until he has satisfactorily completed counseling with the Veterans Administration.

The following norms refer only to eligibility for veterans' benefits. They do not, therefore, necessarily imply that a veteran who fails to meet them will be dropped from Marquette. They are minimal and apply to all undergraduate divisions of Marquette University. Individual colleges may, therefore, set higher norms for continuation in that college or program; such higher norms apply to all students enrolled in that college regardless of any relationship to the Veterans Administration. The following standards are required by law and must be maintained by the school to retain approval for V.A. benefits.

### *Required Quality Point Average*

For freshmen. . . . .	1.500	For juniors. . . . .	1.800
For sophomores. . . . .	1.700	For seniors. . . . .	1.900

The required quality point average for graduation in all schools and divisions is 2.000.

For the application of these norms the following definitions by semester hours are used:

Freshman . . . . .	has earned only 23 hours or less
Sophomore . . . . .	has earned 24 to 59 hours (incl.)
Junior . . . . .	has earned 60 to 91 hours (incl.)
Senior. . . . .	has earned 92 to 128 hours (and above)

### *Grades of F and permanent grades of I, X and IX*

In addition to the above norms no veteran will continue to be certified if the number of hours with the grades of F and permanent grades of I, X and IX exceeds the following graduated scale:

For freshmen . . . . .	10 hours	For juniors . . . . .	20 hours
For sophomores . . . . .	15 hours	For seniors . . . . .	25 hours

## WINDOW ACCOUNT

Window is an online Marquette computer account available seven days a week that allows students to:

- check their recently assigned grades and grade history;
- view their current course schedule;
- browse the online Timetable of Classes to see all the course sections offered;
- query the student directory for phone numbers and addresses;
- supply and update their addresses and/or phone numbers;
- change their Personal Access Code (PAC) used for TVR registration; and
- reserve campus housing.

The Marquette computer Window account and the Marquette VMS computer cluster can be accessed via:

- web site: ([www.Marquette.edu/window](http://www.Marquette.edu/window));

- time-sharing VMS cluster telephone dial-up connections for computers that have a modem with a terminal-emulation program; and
- computers and terminals located in buildings throughout the Marquette campus.

Further information and instructions regarding access to the Window account appear each term in the published *Timetable of Classes* and at the Marquette web site ([www.Marquette.edu.window](http://www.Marquette.edu.window)).

# College of Arts and Sciences

As the academic center and intellectual heart of the university, the College of Arts and Sciences assumes the responsibility for the liberal education of all Marquette students. Through its courses in the humanities, natural sciences and social-behavioral sciences, it provides each student with an education directed at the whole person—one that nurtures the intellectual maturity and moral integrity every person needs to face the obligations and challenges of a rapidly changing world.

Degree students in the College of Arts and Sciences receive an education which serves for a lifetime. Through a wide variety of disciplines and courses, the college:

- Develops basic skills of comprehension, analysis, and communication.
- Illustrates the interrelationship of the many dimensions of knowledge.
- Encourages an appreciation of the genius and creativity of people throughout history.
- Addresses the need to understand science and its importance in a changing world.
- Emphasizes that learning is continuous in a life well-lived.
- Develops an understanding of Judeo-Christian values in the promotion of truth, justice, and peace.
- Asserts the necessity of ethical standards and moral values in life.
- Proclaims and affirms the integrity of every individual and the spiritual dimension of existence.

Underlying all these characteristics of an Arts and Sciences education at Marquette is the Jesuit tradition that gives the college a heritage begun in the sixteenth century. Each student educated in the college partakes of this tradition and contributes to this heritage, for in a complete education a student gives as well as receives.

To these ends, the college has established a core curriculum encompassing the natural sciences, social sciences, and humanities. While requiring basic courses, the core also allows for the individual needs and interests of students.

---

## DEGREES/MAJORS OFFERED

Marquette University confers the degrees of bachelor of arts in the humanities and social sciences, bachelor of science in the natural sciences, mathematics, and computer science, and associate in arts in criminology and law studies on those students who have satisfactorily completed one of the regularly prescribed programs in the College of Arts and Sciences.

The degrees of master of arts, master of arts in public service, master of arts in teaching (Spanish), master of science, master of science in applied economics, master of education, doctor of philosophy, and doctor of education are conferred through the Marquette University Graduate School. (See the *Graduate School Bulletin* for information concerning the following graduate degrees: master of arts in education, counseling, educational leadership, educational psychology, English, history, international affairs, instructional leadership, medieval studies, philosophy, political science, Spanish, and theology; master of science in biology, chemistry,

clinical psychology, mathematics; doctoral programs in biology, chemistry, clinical psychology, counseling psychology, education, educational psychology, English, history, mathematics, philosophy, and religious studies; and for advanced professional degrees offered through the College of Health Sciences, School of Dentistry and Law School.)

A student holding a bachelor's degree in one discipline may be admitted for work toward a bachelor's degree in another discipline, with approval from the college office (bachelor of arts to bachelor of science or vice versa). This option is useful for a student who wishes to change his or her field of concentration for graduate or professional study.

A candidate for a second baccalaureate degree must complete at least 32 additional upper division credits in residence and satisfy all current degree requirements. Students should see the University section of this bulletin for second degree requirements and procedures.

---

## ADMISSION REQUIREMENTS

For admission requirements for the College of Arts and Sciences, see Admission Procedures on page 19 of this bulletin.

---

## GRADUATION REQUIREMENTS

### AMOUNT AND QUALITY OF WORK

In addition to university requirements for graduation (see the University section of this bulletin), candidates for a degree must earn a minimum of **128 semester hours of credit** and a minimum of quality points equal to twice the number of semester hours completed (2.000 quality point average). Students may present credits but not quality points from another institution. All students must earn at least a 2.000 average in their Marquette work.

Although most students can fulfill the core curriculum and major requirements and take elective courses within 128 credits, certain combinations of major and minor fields may require more than the minimum. Students are urged, therefore, to consult an adviser before selecting a major and an optional minor.

A minimum of 48 semester hours of credit in upper division courses must be presented for a B.A. degree. (Lower division courses are numbered 001 to 099; upper division courses are numbered 100 to 199.) Candidates for a B.S. degree in biology, biochemistry/molecular biology, chemistry, computer science, mathematics, or physics must present a minimum of 42 semester hours of credit in upper division courses. For both degrees, 32 upper division credits must be completed at Marquette.

*Applications for graduation are to be submitted to the college office by the last day of advising week in the term prior to the term of graduation (November for May and August graduates; March for December graduates).*

*It is the responsibility of students to know and fulfill all university, College of Arts and Sciences, and major department requirements.*

### CORE CURRICULUM REQUIREMENTS

All candidates for a baccalaureate degree in the College of Arts and Sciences must complete the following requirements in the core curriculum:

	<i>Credit Hours</i>
English Composition . . . . .	6
Foreign Language . . . . .	0-14
History (Western Civilization) . . . . .	6
Literature and Fine Arts. . . . .	8-9
Mathematics-Logic-Computer. . . . .	6
Natural Science . . . . .	6-8
Philosophy . . . . .	12
Social-Behavioral Science . . . . .	6
Theology. . . . .	9

Core requirements may also fulfill major/minor requirements and vice versa, but a course can fulfill only one core requirement.

### ENGLISH REQUIREMENT

All students must complete ENGL 001 and 002 for a minimum of six credit hours, unless placed directly into ENGL 002 or beyond by recommendation of the Department of English. (See Advanced Placement section of this bulletin.) Non-native speakers of English are required to take a placement test at Marquette during orientation.

### FOREIGN LANGUAGE REQUIREMENT

All students must demonstrate competency in a foreign language through the intermediate college level. The number of credit hours to be completed will vary from 0-14, depending on the student's proficiency.

For students beginning the study of French, German or Spanish as a new language, without previous high school study, the requirement can be completed in four terms of the same language, or students earning an AB or better in Language 002 may elect to complete the requirement with Language 010 in place of Language 003 and 004.

For students beginning the study of Greek, Hebrew, Italian, Japanese, or Latin as a new language, without previous high school study, only the four-term sequence is available.

Students who wish to continue the language studied in high school *must* be placed by the Department of Foreign Languages and Literatures in courses appropriate to their levels of proficiency. Placement is made on the basis of the Foreign Language Placement Questionnaire. Students who wish to continue the language studied in high school and who fail to fill out and return the questionnaire *must* see the chair of the department before registering for a foreign language course.

If a student is placed at an advanced intermediate level (Level 004 in Italian, Japanese, or Latin; Level 010 in French, German or Spanish), additional credit toward graduation may be earned equivalent to three semester hours. If a student is placed at an advanced level (exempt level in Italian, Japanese or Latin; exempt level 1 or 2 in French, German or Spanish), additional credit toward graduation may be earned equivalent to six semester hours by taking an advanced language course. For further details, see the University section on Placement Credit in Foreign Languages.

Students coming to Marquette University directly from high school are advised to begin language study in the freshman year and are *required* to begin it not later than the first term of the sophomore year.

Students for whom English is a second language should consult the college office regarding the foreign language requirement.

### MATHEMATICS-LOGIC-COMPUTER REQUIREMENT

All students must fulfill this six-hour requirement by completing any combination of mathematics, computer science, or logic courses, except for a combination of two logic courses (PHIL 001, PHIL 099, MATH 099).

A statistics course in any discipline fulfills this requirement. The following courses will not fulfill the requirement: MATH 010, 020, and 021.

### LITERATURE AND FINE ARTS REQUIREMENT

All students must complete six hours in literature, either English or foreign language (original or translation), plus either one fine arts course or another literature course for a minimum of eight or nine credit hours. Four terms of non-credit music courses (MUSI 010, 016, 020, 030, and/or 031) will complete the two credit fine arts requirement.

### NATURAL SCIENCE REQUIREMENT

All students are required to complete two courses in natural science for a minimum of six credit hours. One of the courses may be ANTH 002 or ANTH 106. An anthropology course used to fulfill this requirement cannot fulfill part of the social-behavioral science requirement.

### PHILOSOPHY REQUIREMENT

All students are required to complete PHIL 050, 104, and two elective courses, at least one of which must be upper division, for a total of 12 hours. A philosophy course used to fulfill this requirement cannot also be used to fulfill part of the math-logic-computer requirement.

### HISTORY REQUIREMENT

All students are required to complete HIST 001 and 002 (Western Civilization). No exceptions.

## **SOCIAL-BEHAVIORAL SCIENCE REQUIREMENT**

To complete the six hours in the social-behavioral sciences, students may select any two courses from the fields of anthropology, criminology and law studies, economics, political science, psychology, sociology and social work.

## **THEOLOGY REQUIREMENT**

All students must complete nine hours of theology: THEO 001, one second-level course (THEO 100-119), and one third-level course (THEO 120-199), in that sequence.

## **INTERDISCIPLINARY COURSES**

Students seeking to apply an interdisciplinary course toward the fulfillment of a core requirement should contact the college office and, if taken at another institution, provide a course description or syllabus.

## **CORE CURRICULUM REQUIREMENTS FOR EDUCATION MAJORS**

Besides completing at least one academic major, students in the College of Arts and Sciences intending to complete a teacher-preparation program, elementary or secondary, through the Marquette School of Education must also meet the core requirements of the College of Arts and Sciences, adjusted to meet both graduation and licensure requirements. These core curriculum requirements are very specific and require that students seeking to complete the program in four years plan their course work very carefully under the supervision of an academic adviser from the School of Education. The elementary program and some secondary programs will extend beyond a four year sequence. Students who intend to complete a teacher-preparation program through the Marquette School of Education should contact the Office of Teacher Education as early as possible, and should carefully study the School of Education section of this bulletin.

Students interested in elementary education are required to complete one of the eight approved, regular academic majors offered in the College of Arts and Sciences. Students interested in secondary education must complete at least one teaching major to be eligible for Wisconsin licensure. A teaching minor alone is not sufficient for license eligibility but, as a supplement to a teaching major, may lead to licensure in additional areas. Students at either the elementary or secondary level must also complete the appropriate professional education sequence to be eligible for a Wisconsin teacher's license. Further information can be found under Curricula Information in the School of Education section of this bulletin.

## **MAJORS AND MINORS**

### **DEPARTMENTAL MAJORS AND MINORS**

Candidates for degrees are required to complete a major. Formal declaration of the major should be filed in the appropriate departmental office, usually during the sophomore year.

A bachelor of arts degree is offered in anthropology, classical languages, classical studies, criminology and law studies, economics, English, writing intensive English, French, German, international affairs, history, social philosophy, history of philosophy, political science, psychology, social science (see Education section), Spanish language and literature, Spanish for the professions, sociology, social work, or theology.

A bachelor of science degree is offered in biology, biochemistry and molecular biology, human biology, physiological sciences, chemistry, mathematics, computational mathematics, computer science, physics, or broad field science (see Education section).

Many of these departments offer a teaching major or minor for secondary education. Elementary education students are limited to specific majors. Education students must refer to the Education section of this bulletin.

*A minor is not required* but is offered in most disciplines and some interdisciplinary fields. The number of semester hours required for various majors and optional minors is listed in the departmental sections of the bulletin. Where applicable, students may overlap credits between majors and between majors and minors. Please consult the department(s) on the approved number of credits for overlap. *At least 15 hours in the major and nine hours in the minor must be completed at Marquette.*

### **INTERDISCIPLINARY MAJORS AND MINORS**

Students for whom particular interests may be better served by a flexible grouping of courses from several areas can pursue an interdisciplinary major or minor. Such students should consult the college office where they will be referred to a faculty adviser in their area. With this adviser, the student will write a proposal explaining the relationship between educational objectives and the choice of an interdisciplinary major or minor, a listing of courses to be included, and the

sequence in which they will be taken. Such proposals, as well as any subsequent modifications, must be approved by the college office.

The following interdisciplinary majors and minors are formalized and may be declared with the appropriate program coordinator (special permission is not required):

#### INTERDISCIPLINARY MAJOR/MINOR IN AFRICAN-AMERICAN STUDIES

At Marquette, we believe the study of African-American culture is an integral part of the fabric of life in the United States and must be understood and appreciated as one of the chief elements that shapes and defines what it means *to be American*.

Through interdisciplinary study, the courses that constitute the major and minor challenge students to develop a broad range of intellectual skills: critical thinking and argumentation, analysis and interpretation, historical-critical method and aesthetic sensitivity. Students who pursue the degree in African-American Studies come from a variety of racial, ethnic and cultural backgrounds and seek to enlarge and to enrich their intellectual horizons so as to understand more fully themselves, those around them, and the world in which they live.

The major consists of at least 36 credit hours (21 of which may also fulfill core curriculum requirements). The nucleus of the major consists of at least eight courses in English, history, philosophy, and theology, along with two electives from a range of disciplines including fine arts, communication studies, and the social and cultural sciences. In addition, all majors will participate in an interdisciplinary African-American Studies colloquium and conduct a senior research project under faculty supervision.

The minor consists of at least 21 credit hours (18 of which may also fulfill core curriculum requirements): at least four courses in English, history, philosophy and theology; two electives from a range of disciplines including fine arts, communication studies, social and cultural sciences; and the colloquium.

For specific degree requirements, see the program coordinator.

#### INTERDISCIPLINARY MAJOR IN APPLIED MATHEMATICAL ECONOMICS

This interdisciplinary major blends mathematics and economics to provide the quantitative tools necessary for modern economic analysis. Economics students will find this major to be excellent training for employment as a business economist or excellent preparation for graduate study. The mathematics, engineering, or science student who wants to use mathematical expertise to learn a business discipline will find this major to be an interesting and useful application of mathematics.

##### **Core Requirements:**

Eighteen hours in economics: ECON 043, 044, 110, 120, 174, 175.

Fifteen hours in math: MATH 080, 081, 082, 161, or 164.

##### **Electives:**

Three hours in economics (one upper-division course).

Six hours in math: Two of the following: MATH 121, 140, 147, 160, 162, 163, 167.

#### INTERDISCIPLINARY MAJOR IN INTERNATIONAL AFFAIRS

This major offers an interdisciplinary study of international affairs. Student take core courses in international politics and economics and additional courses in history, languages, culture and other areas to complete a concentration based either on a theme or a region. By graduation, students will have gained a solid base of knowledge regarding international affairs and the ability to integrate the diverse perspectives of several disciplines to gain subtle understandings of complex problems.

##### **Background Requirements:**

HIST 001 and 002; ECON 043 and 044; POSC 040 and 060; MANA 025, MATH 060, PSYC 060, or SOCI 060; Demonstrate foreign language competency to the second intermediate (fourth term) level. Students are encouraged to take at least two language courses beyond the intermediate (004) level, and preferably to minor in a foreign language.

##### **Program Requirements:**

ECON 151. Students planning on a concentration in international economic relations are encouraged to take ECON 154; POSC 165, 167, 177 and 178; and ARSC 160; plus twelve hours from any one of the following subfields:

##### **1. Area Studies**

All students opting for this subfield must select from one group only.

GROUP I European Studies: HIST 144-145, 147-148, 156, 158, 162, 165, 166; POSC 142, 173; ANTH 126

- GROUP II Russian Studies: ECON 155, 191; HIST 167, 168; PHIL 150; POSC 148, 152
- GROUP III African Studies: HIST 177, 178, 179; POSC 159; THEO 185
- GROUP IV Asian Studies: HIST 182, 183; JAPA 101; POSC 154, 155, 158, 175; PHIL 188; THEO 186
- GROUP V Latin American Studies: ANTH 124, 142; HIST 171, 172, 173, 174; POSC 156, 176; SPAN 102

2. *Cross-cultural Studies*

Foreign language courses in culture and civilization: FREN/GERM/SPAN/ 100 or 101; JAPA 101; SPAN 102; ANTH 101, 112, 116, 126; PHIL 150, 188; POSC 148, 159; SOCI 165; THEO 157, 163, 168, 184, 185, 186

3. *International Economic Relations*

ECON 126, 134, 155, 156; FINA 185; HIST 135; MANA 183; MARK 153; POSC 141; BULA 132

4. *International Political-Military Relations*

HIST 113, 114, 118, 143, 147-148, 158; POSC 129, 148, 170, 173, 174, 175, 176

Other relevant courses (including those numbered 196, 197, 198, or 199) may be acceptable toward the subfield requirement with the prior approval of the program coordinator. Any substitutions must be approved by the program coordinator.

INTERDISCIPLINARY MAJOR IN SOCIAL SCIENCE

An interdisciplinary major in social science, one of the majors for students seeking elementary education certification, is offered by the School of Education. See Elementary Teacher Preparation in the Education section of this bulletin.

INTERDISCIPLINARY MAJOR IN WOMEN'S STUDIES

Women's studies as an academic discipline examines the world and those who inhabit it in the light of women's own experiences of that world. Such an examination serves other established disciplines in both a complementary and corrective manner. Through its employment of gender, race, class and other critical categories of analysis, women's studies seeks not only to understand all women and their experience, but also to know each woman and her experience. The interdisciplinary nature of the women's studies major, the fact that critical thinking skills are at its core, and the "revolutionary" effects it has on students' personal lives all contribute to making women's studies a versatile and powerful degree.

The interdisciplinary major of women's studies would be secondary to the student's primary major. The women's studies major consists of 36 total credit hours (18 of which may also fulfill core curriculum requirements).

Requirements:

ARSC 140, and at least three courses from each of the following two areas:

Social-Behavioral Science

ANTH 130 (Also SOCI 198), CRLS 167, POSC 119, 196\*; PSYC 157, 165, 166; SOCI 021, 162, 166

Humanities

CMST 196\*, ENGL 171\*, 185, 186; FOLA 148; HIST 123, 152, 196\*, 197\*; PHIL 143, 190\*; THEO 129

At least two courses from the following area:

Electives

JOUR 167, CMST 137, 159; HEAL 122

\*These are special topics or colloquium courses that must focus on areas pertinent to women's studies.

The women's studies minor requires 21 credit hours: ARSC 140, and at least two courses from each of the above areas (Social-Behavioral Science, Humanities and Electives).

INTERDISCIPLINARY MINOR IN ASIAN STUDIES

The interdisciplinary minor in Asian studies introduces students to the culture, history, politics, economics, geography, anthropology, sociology, philosophies, and religions of Asia. The minor consists of 18 hours, six from culture and six from history and society. The remaining six hours may be chosen from any of the listed courses or may consist in whole or part of courses approved by relevant departments and the program coordinator.

Requirements: (6 hours from each of the following)

*Culture*: CMST 140; JAPA 101, 148; PHIL 188; THEO 185, 186

*History and Society*: HIST 182, 183; POSC 154, 155, 158, 175; appropriate offerings of SOCI 196

Any substitutions must be approved by the program coordinator.

#### INTERDISCIPLINARY MINOR IN CATHOLIC STUDIES

The interdisciplinary minor in Catholic studies offers students an integrated understanding of Catholicism as a unique form of Christianity, examining its distinctive doctrines, historical changes in institutional forms and world-views, and impact upon culture, art and literature. The minor combines courses in theology, philosophy, English and history, and other special courses that deal with Catholic Christianity, among other topics, from their various perspectives.

The minor consists of 21 hours. Required courses: THEO 157 or 158; HIST 138 or 139; one course each from electives in English and philosophy; nine additional hours drawn from other approved upper-division offerings in the four areas, at least two areas of which must be represented in these nine hours.

#### INTERDISCIPLINARY MINOR IN FAMILY STUDIES

The interdisciplinary minor in family studies allows students to combine theoretical and practical perspectives on the family and to become familiar with the several methodologies that academic disciplines use to construct definitive statements about the family. The minor requires 18 credit hours (17 credits for nursing students taking the NURS 138-139 sequence). Enrollment is limited; call the Institute for Family Studies for enrollment information. Any substitutions must be approved by the program coordinator. For course updates, see the Family Studies Web page.

##### **Required courses:**

SOCI 021—Should be taken before other courses in the minor, or at least as soon as the student has selected the minor.

ARSC 150—Should be taken last after the other five courses have been completed or during the student's last year of study.

##### **Electives:**

Twelve hours to include at least one course from each of the following three categories:

##### *Category I Family as Experience*

ANTH 130; HIST 152; THEO 167; PHIL 110\*, ENGL 173\*, PHIL 192, HEAL 025; SOCI 166

##### *Category II Family as System within Society*

JOUR 160, EDUC 078 (only for education majors), PSYC 078, 157, 166 (for non-PSYC majors); SOCI 125, 129\*, 162, 198\*; CMST 196\*; PSYC 101, 102, 103 (for PSYC majors).

##### *Category III Family as Resource for Human Needs*

CMST 145; CRLS 152, 168; EDUC 088, 104; PSYC 138; SOWO 168, 170, 182, SOWO 190\*

NURS 138, 139, 140 (only for nursing students)

PHTH 414 (only for physical therapy students)

Relevant courses numbered 196, 197, 198, or 199 may be acceptable toward the requirement with the prior approval of the program coordinator. Any substitutions must be approved by the program coordinator.

\* Student must check with the program coordinator for the correct section.

#### INTERDISCIPLINARY MINOR IN MEDIEVAL STUDIES

The interdisciplinary minor in medieval studies integrates courses in English, foreign languages, literature, history, philosophy, and theology to introduce students to the major movements and achievements of the Latin Christian West from approximately A.D. 500 to 1500. The minor requires 21 credit hours.

##### **Requirements:**

ARSC 130

Three hours from HIST 133, 134, 135, 136, 138

Three hours from ENGL 114, 115; Medieval offerings of ENGL 195, 198; FREN 115, FOLA 098, 148, 195, 198, GERM 190, SPAN 190

PHIL 113

THEO 140

##### **Electives:**

Six hours from the following:

HIST 133, 134, 135, 136, 137, 138

Appropriate offerings of HIST 195, 197, 198

English courses listed under required courses  
 Language courses listed under required courses  
 PHIL 119; appropriate offerings of PHIL 190, 195  
 THEO 138, 141, 149, appropriate offerings of THEO 195  
 Any substitutions must be approved by the program coordinator.

#### INTERDISCIPLINARY MINOR IN URBAN AFFAIRS

The interdisciplinary minor in urban affairs introduces students to urban issues from multiple viewpoints. The minor requires 21 credit hours:

Students must take ARSC 120 and at least one course from each of the following four areas:  
 ECON 145, 146  
 POSC 117, 118  
 SOCI 131, SOWO 182, ANTH 129  
 HIST 121 and appropriate offerings from 196, 197, 198

In addition, students may elect other courses from an approved list from the program coordinator. An interdisciplinary urban affairs major can be created for individual students in consultation with the program coordinator.

#### INTERDISCIPLINARY MINOR IN URBAN AND ENVIRONMENTAL AFFAIRS

The interdisciplinary minor in urban and environmental affairs introduces students to urban issues and environmental issues that affect urban areas. The minor requires 21 credit hours.

Students must take ARSC 120, at least two courses from one of the following areas, and at least one course from each of the remaining two areas:

ECON 163, PHIL 132  
 ECON 146, HIST 121, POSC 117, SOCI 131, CEEN 185  
 PHYS 009, BIOL 040, CHEM 123, CHEM 125

In addition, students may elect other courses from an approved list from the program coordinator.

An interdisciplinary urban and environmental affairs major can be created for individual students in consultation with the program coordinator.

#### PROFESSIONAL MINORS

Professional minors are available in advertising (College of Communication), business administration, human resource management and marketing (College of Business Administration), biomedical sciences (College of Health Sciences) and health studies (College of Nursing). See the appropriate sections of this bulletin for information.

#### CRIMINOLOGY AND LAW STUDIES CURRICULA

The College of Arts and Sciences offers programs of study leading to an associate in arts degree and the bachelor of arts degree in criminology and law studies. The associate in arts degree will be awarded by the college upon completion of a 65 credit hour program. All work included in the associate degree can be applied to the bachelor's degree at Marquette University.

#### ASSOCIATE IN ARTS\*

##### **Background requirements:**

ENGL 001 and 002, HIST 001 and 002,  
 POSC 020, PHIL 050, PHIL 104 or THEO 001,  
 PSYC 001, SOWO 080, ANTH 001 . . . . . 30 sem. hrs.

##### **Criminology and Law Studies:**

051, 083, 152, 156, 157 or 159,  
 182, 186, 187, 188, 189 . . . . . 30 sem. hrs.

**Electives:** . . . . . 5 sem. hrs.

**TOTAL** . . . . . 65 sem. hrs.

\*This is a two-year program. For the regular four-year program see the Department of Social and Cultural Sciences.

#### ELECTIVE COURSES

Of the 128 credit hours required for a degree, those not fulfilling core and major requirements are deemed electives. Courses in other divisions of the university may also be taken for elective credit.

## PRE-PROFESSIONAL STUDIES

The Office of Pre-Professional Studies, sponsored by the College of Arts and Sciences, provides advice and service to students who wish to enter dental, law, medical or other health-related professional schools. Interested students should register with the Office of Pre-Professional Studies, Marquette Hall, 208.

### PRE-DENTISTRY

#### COURSE REQUIREMENTS

The requirements for dental schools typically include:

Biology	8-9 semester hours	Organic Chemistry	8 semester hours
English	6 semester hours	Physics	8 semester hours
General Chemistry	8 semester hours		

All required courses in biology, chemistry, and physics must include laboratory work.

Generally, dental schools require a minimum of three years (90 semester hours) of undergraduate study.

For specific requirements of particular dental schools, refer to *Admission Requirements of U.S. and Canadian Dental Schools* which is available in the Office of Pre-Professional Studies.

#### DENTAL APTITUDE TEST

All candidates for dental school must take the Dental Aptitude Test (DAT). This test is now given in electronic form only and can be taken at various times throughout the year. Registration packets are available in the Office of Pre-Professional Studies.

#### APPLICATION

Application is made through the American Association of Dental Schools Application Service (AADSAS), a central application service. Application packets are available in the Office of Pre-Professional Studies or the main office of Marquette's School of Dentistry.

### PRE-MEDICINE

#### COURSE REQUIREMENTS

Although specific course requirements vary among medical schools, the common basic requirements are:

Biology	8-9 semester hours	Organic Chemistry	8 semester hours
English	6 semester hours	Physics	8 semester hours
General Chemistry	8 semester hours		

All required courses in biology, chemistry and physics must include laboratory work.

For requirements of specific medical schools, refer to *Medical School Admission Requirements: USA and Canada* which is available in the Office of Pre-Professional Studies. Most U.S. medical schools require a minimum of 90 semester hours of undergraduate work and most give preference to students who finish a bachelor's degree before entering medical school. Preference in admission is not given to students with particular majors or academic concentrations.

#### MEDICAL COLLEGE ADMISSION TEST

Most U.S. medical schools require the Medical College Admission Test (MCAT), which must be taken a full year before entering medical school. This test is given twice each year in April and August. Registration packets are available in the Office of Pre-Professional Studies.

#### APPLICATION

Normally, application is made through the American Medical College Application Service (AMCAS). Some medical schools do not use AMCAS and would require application directly to these schools. AMCAS packets are available in the Office of Pre-Professional Studies.

### PRE-LAW

#### COURSE REQUIREMENTS

Law schools do not require specific college courses or majors. The Association of American Law Schools recommends that students take rigorous and demanding courses, ones that develop basic intellectual skills: reading, writing, and speaking, critical and logical thinking.

For information, see the pre-law adviser in the Office of Pre-Professional Studies, Marquette Hall, 208.

### LAW SCHOOL ADMISSION TEST

Almost all law schools require applicants to take the Law School Admission Test (LSAT). This test is offered four times a year, and should normally be taken at least one full year before entering law school.

### APPLICATION

Almost all law schools require applicants to register with the Law School Data Assembly Service (LSDAS). Students will also need to call or write law schools in which they are interested, to request application forms and instructions. Although deadlines vary from school to school, it is generally advantageous to complete applications early. Application occurs within one year in advance of desired entrance.

---

## ACADEMIC REGULATIONS

Students in the College of Arts and Sciences are expected to comply with the academic requirements and regulations listed in the University section of this bulletin and must fulfill the graduation requirements stated in the *bulletin issued the year they entered Marquette*. Students who have not enrolled for one or more years must follow the requirements in effect at the time of their return. (Exception is made for students who interrupted enrollment to serve in the Armed Forces.) ***It is the responsibility of students to know and fulfill all university, College of Arts and Sciences, and major department requirements.***

While the principal policies and procedures of the college are contained in this section of the bulletin, questions concerning other regulations should be directed to the college or relevant department office.

### ACADEMIC DISHONESTY

All students enrolled in Arts and Sciences classes are subject to the college's policy and procedure on academic dishonesty:

#### POLICY

The College of Arts and Sciences recognizes that any form or degree of academic dishonesty challenges the principles of truth and honesty which are among the most important foundation principles of Marquette University. Consequently, the college treats academic dishonesty as a serious violation of academic trust. It penalizes all students engaging in dishonesty.

The ensurance of academic honesty within the College of Arts and Sciences must be a cooperative enterprise of faculty, students and administrators. Acts of academic dishonesty include but are not limited to the following:

1. The illegitimate use of materials in any form during a quiz or examination.
2. Copying answers from the quiz or examination paper of another student.
3. Plagiarizing or falsifying materials or information used in the completion of any assignment which is graded or evaluated as the student's individual effort. Plagiarism includes submitting as one's own the ideas or work of another, including the computer programs or material from the computer files of another, regardless of whether that information is used verbatim or in paraphrased form, and regardless of whether those ideas or that work is derived from published materials or from private materials of another person who either intentionally or unintentionally contributes to the act of plagiarism. The same applies to anything derived from the Internet.
4. Obtaining, through theft, bribery, or collusion, or otherwise improperly securing an examination paper prior to the time and date for the administration of the examination. Also, use of an examination paper previously administered (e.g., during an earlier term) without the consent of the instructor who authored the examination.
5. Furnishing credentials that have been earned by another person, or falsifying records, transcripts, or other academic papers in order to falsely present one's academic position.
6. Impersonating a candidate at an examination or availing oneself of such an impersonation.
7. Intentionally interfering with any person's scholastic work, for example, by damaging or stealing laboratory experiments or library materials.
8. It is presumed that material submitted by a student for an assignment is original to that assignment and, therefore, submitting the same work for more than one course without the consent of the instructors of each course in which the work is submitted is considered dishonest.

9. Aiding or abetting any such offenses. A complete statement of the procedures followed in cases of academic dishonesty can be obtained from the college office, Marquette Hall, 208.

## ADVISERS

Upon entering the College of Arts and Sciences, students are assigned a pre-major adviser. They must consult with this adviser (or the Arts and Sciences Advising Center) at least once before registering for their first term and at least once every term thereafter. Upon declaring a major, the student will be assigned a major adviser, with whom the student must consult at least once each term before registering. Advisers are available during each registration period as well as by appointment throughout the academic year.

## CLASS ATTENDANCE POLICY

A. Because absence from class will prevent a student from getting the full benefit of a course, and because in many courses each student's involvement contributes to the learning process for all other students in the class, **attendance is mandatory** for every exercise of a course in which a student is registered. **Excessive absences can result in lower grades.**

B. Students registered in any course offered by the College of Arts and Sciences are bound by this attendance policy even though they are enrolled in another college, program, or division of the university. It is the responsibility of each student to know and follow the college's class attendance policy and any specific attendance regulations of their instructors.

C. In the case of an emergency absence (prolonged absence from class due to illness or other personal emergency), a student must inform the Arts and Sciences office, which will keep a written record of such cases and inform the relevant instructors. Normally, the college office will not keep a record nor take any action unless such absences extend for one week or longer.

D. Enforcement of the class attendance policy shall lie with the faculty. Instructors may take class attendance into account when evaluating student performance and assigning final grades, subject to the following three conditions.

1. The instructor's norms for reducing grades because of absences (i.e., the rate at which grades will decline per absence) **must be clearly indicated on the course syllabus and announced during the first week of class each term.**
2. Normally the maximum number of absences permitted before lowering a final grade is equal to two weeks of classes. (That is, in a class meeting three times each week, six absences may be allowed. In a class meeting twice each week, four absences may be allowed.) Until the maximum is reached, final grades may not be reduced because of excessive absences.
3. Final grades will not be lowered more than half a letter grade for each absence beyond the maximum.

## ABSENCES FROM FINAL EXAMINATIONS

An Arts and Sciences student who misses a final examination in any course must file a written excuse with the college office no later than 10 days after the examination. All other students taking Arts and Sciences courses must file excuses with their college/program office. Students with validated excuses may take make-up examinations during the following term at the time designated by the university. Clearance of temporary grades (I, X, and IX) in all Arts and Sciences courses is administered by the College of Arts and Sciences.

## CD OR D GRADES

Courses completed with a grade of CD or D do not count toward the total hour requirement for a major or minor but do fulfill the subject matter requirement and do count toward the total 128 hours required for graduation. Since credit is never given twice for the same course, students who receive the grade of CD or D in a course in their major or minor field need not repeat the course. They may, however, repeat the course if they wish. In such cases, both grades will be counted in the cumulative quality point average and both will appear on the official transcript, even though credit will be given only once. Cognate requirements can be completed at a CD or D grade.

## TRANSFER CREDIT POLICY

In accordance with the University Transfer Credit Policy, the College of Arts and Sciences will grant credit for courses taken for a grade and completed at a C or better. Only credit will transfer, not grades. Courses completed in a quarter-hour system will be converted to semester credits, therefore reducing the total credits accepted by one-third. A Marquette equivalent will be specified for each transferable course. Courses awarded as 069 (lower division) and 169 (upper division) indicate transferable credit for which there is no discernable Marquette equivalent. These credits will count toward the degree and may fulfill core, major or minor requirements. However, they will not fulfill any requirement where a specific course number (i.e. PHIL 050 or THEO 001) has been indicated. An exception may be made by college. Contact the director of student records with any questions or concerns regarding transfer of credit.

## REPEATED COURSES

See the University section of this bulletin.

## REQUIREMENT TO WITHDRAW FOR ACADEMIC REASONS

Students admitted to the College of Arts and Sciences are expected to meet college academic standards. Academic performance is monitored carefully by the Committee on Scholastic Actions, and students neither maintaining steady progress nor demonstrating adequate achievement will be required to withdraw from the college.

The bases for committee review are quality point deficiency, inadequate progress, grades of UW, and the violation of special conditions. Special conditions may be prescribed in writing at the time of the student's admission, readmission, or transfer into the college. Conditions may also be prescribed in writing in the case of a student whose course performance or failure to follow academic advice warrants such action. *Registration is interpreted as the student's agreement to the specified conditions.* All students to whom conditions have been specified will be subject to committee review and academic dismissal should they fail to fulfill the terms specified.

*It is possible that a student could be dismissed for academic reasons even though the student's cumulative Q.P.A. exceeds 2.000.* Students concerned about their academic progress should consult the college office. Students required to withdraw for academic reasons will be notified by letter of the Committee's decision and of the appeal process.

---

## SPECIAL ACADEMIC PROGRAMS

### FIRST-YEAR SEMINAR:

#### INTRODUCTION TO INQUIRY (ARSC 007)

This unique first-year seminar introduces students to academic culture by demonstrating academic inquiry and practicing the skills needed for successful learning: argumentation, listening, finding evidence. Each course meeting centers on a discussion of a short text, using the rules of shared inquiry. (The rules stipulate that no one may participate who has not read the text, that discussion be restricted to the text itself, that opinions be supported by textual evidence, and that discussion leaders only ask questions, never answer them.) The group also takes up a topic relating to the students' transition to academic culture. The faculty leader is also an academic adviser for each student.

### PART-TIME STUDIES PROGRAM

Part-time Studies serves students who wish to enroll at Marquette University but are unable to attend classes on a full-time basis. Students in the division are assigned to academic advisers in the College of Professional Studies. See the section on the Part-time Studies Program in the University section of this bulletin for information.

### STUDY ABROAD PROGRAMS

Students interested in studying abroad should consult the University section of this bulletin. The college office will direct students to the appropriate adviser depending upon the particular interest or program. A collection of foreign study resource materials are located in the Study Abroad Resource Center, Marquette Hall 208.

Those who wish to attend non-Marquette programs should obtain course approval forms from the college office and register for ARSC 101, International Study, for the term(s) abroad to maintain continuous enrollment. Likewise, students accepted into Marquette's exchange program should complete a course approval form and register for the appropriate section of ARSC 190, Undergraduate International Exchange, for the term(s) abroad to maintain continuous enrollment. Students accepted to St. Clare's, Loyola Rome, or The Beijing Institute of Language and Culture should also complete a course approval form. St. Clare's students should register for BUEX 191 while students on Arts and Sciences affiliated programs should register for the appropriate section of ARSC 192.

## HONORS PROGRAM

The Marquette University Honors Program serves a select group of academically talented students from all divisions of the university. Participants in the program are provided with distinctively challenging learning experiences. For details, see the University section of this bulletin.

---

## BACKGROUND CHECKS, DRUG TESTING

Some degrees, majors and/or courses may require a student to submit to a criminal background check and/or drug testing. The results of those checks and/or tests may affect the student's eligibility to continue in that degree, major and/or course.

---

## CURRICULA INFORMATION

The following outlines may be helpful in planning programs for majors. However, these are only suggested outlines. Students should consult their academic advisers for variations. Students in special programs should also consult their program advisers. **Students taking only the minimum number of hours each term will not accumulate sufficient hours for graduation in four years.**

### BACCALAUREATE DEGREE PROGRAM SEQUENCE

#### BACHELOR OF ARTS (TYPICAL FOR MAJORS IN THE HUMANITIES AND SOCIAL-BEHAVIORAL SCIENCES)

##### *Freshman*

FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.

\*Many students, including those continuing on to graduate school, should consider the option of two terms of physical chemistry (CHEM 132 and 133) which requires an additional term of calculus (MATH 082). Students who take CHEM 132, 133, and MATH 082 are required to take only one additional elective in biology, chemistry or mathematics.

\*\*BIOL or CHEM 195 may be substituted.

**BACHELOR OF SCIENCE (FOR HUMAN BIOLOGY MAJORS)**

Open only to undergraduate students who have been admitted directly into the six-year master of physical therapy degree program, are in good academic standing prior to the beginning of the professional phase of the program, and want to earn a bachelor of science degree from the College of Arts and Sciences after four years of study.

*Freshman*

3. Potential computational mathematics majors who have taken a university level calculus course in high school should discuss with the department the possibility of credit by examination for MATH 080 and/or 081 or placement in MATH 081 or 082 before registering for a calculus course.

# **BACHELOR OF SCIENCE (FOR MATHEMATICS MAJORS WITH SECONDARY TEACHER PREPARATION CURRICULUM, GRADES 9-12)**

For students who enter Marquette in EVEN-numbered years (1998, 2000 . . .). From the beginning of their work toward a degree, students should consult with the department adviser for secondary mathematics teaching majors and the Office of Teacher Education.

## *Freshman*

2. Students who place below Foreign Languages level 003 are required to take level 001 and 002 courses in addition to those listed here.

**BACHELOR OF SCIENCE (FOR PHYSICS MAJORS)**

Students planning to major in physics should declare the major and consult with the physics department major adviser as soon as possible after matriculation. To satisfy the minimum requirements for a bachelor of science in physics, the courses marked as electives must include eight credit hours in upper division physics. Students planning graduate study in physics should take the additional courses listed in the Department of Physics bulletin entry.

## BACHELOR OF SCIENCE (FOR PRE-MEDICAL/PRE-DENTAL PHYSICS MAJORS)

Pre-medical and pre-dental students planning to major in physics should consult with the physics department major adviser and the pre-medical/pre-dental adviser as soon as possible after matriculation. To satisfy the requirements for a bachelor of science in physics, the eight credit hours of physics electives must be upper division courses.

# COURSE DESCRIPTIONS

## BIOLOGY (BIOL)

*Chairperson and Professor:* Unsworth  
*Professors:* Courtright, Downs, Fitts (Wehr Distinguished Professor), Fredricks, Munroe, Noel, Piacsek, Waring  
*Associate Professors:* Buchanan, Eddinger, Hennen, Karrer, Maki, Thomson (*Emeritus*)  
*Assistant Professors:* Mynlieff, Schläppi, Waters

### MAJOR:

LECTURE COURSES: BIOL001, 004, 100, 125, and 135. LAB COURSES: Any three from 090, 101, 126, 137, 156, 166, 171, and 195. Majors are encouraged to take upper division laboratories, although one lower division laboratory may be used to satisfy this requirement. BIOL002 meets the requirements of BIOL004, however, BIOL004 is strongly recommended for pre-medical and pre-dental students.

ELECTIVE COURSES: any four courses of two or more credits from the following: (a) any of the core laboratory courses not previously taken, including a second BIOL195 course; (b) BIOL040, 140, 142, 155, 160, 170, 176, 180, 185; (c) MATH 166; (d) by consent of instructor, departmental chairperson and Graduate School, any graduate course; (e) courses offered by other departments and acceptable to the Department of Biology as components of the major program. Cognate course requirements are: CHEM 001 and 002, 023 and 024 (or 123 and 124); PHYS 001 and 002 (or 003 and 004); and MATH 073 or 080.

### MINOR:

Six courses, including BIOL001 and BIOL002 (or 004) plus two other courses offered in the biology department. Two additional courses may be selected from three sources: a) the biology department, and/or b) the chemistry department, and/or c) ANTH 106, PSYC 165, MATH 060.

### TEACHING MINOR:

BIOL001, 002 or 004, 090, 100, 125, 135, and 170.

### HUMAN BIOLOGY MAJOR:

Open only to undergraduate students who have been admitted directly into the six year master of physical therapy degree program, are in good academic standing prior to the beginning of the professional phase of the program, and want to earn a bachelor of science degree from the College of Arts and Sciences after four years of study.

Required courses: BIOL001, 004 (or 002), 100, 125, 135, and 172; ANTH 001 or 002; BAHS 120, 125, and 130; PHTH 402, 405, 412, 415, 418, 422, and 425; PSYC 001. Cognate courses: (8 courses) CHEM 001 and 002, 023 and 024 (or 123 and 124); MATH 073 or 080, 060 or 164; PHYS 001 and 002 (or 003 and 004)

For information on physical therapy, please see the Physical Therapy section in this bulletin. Those students interested in the human biology major should contact the biology department as soon as possible.

### PHYSIOLOGICAL SCIENCES MAJOR:

Provides students interested in physiology and neurobiology a strong foundation in biology, cell biology and biochemistry and further studies in comparative physiology, neurobiology, endocrinology, human physiology and anatomy, muscle and exercise physiology.

Required courses: BIOL001, 004, 100, 135, 155, 156, 170 (or 172), and 171; CHEM001, 002, 023 (or 123), 024 (or 124); MATH 073 (or 080) and MATH 060 (or 164); PHIL191; PHYS 001 (or 003), 002 (or 004); BAHS 125 (or 135).

Elective courses: Any three of the following: BIOL125, 126, 137, 140, 142, 160, 166, 176, 177, 180, 185; MATH 166.

Recommended course: BAHS 136.

#### BIOL001. General Biology 1

3 lec., disc., 3 sem. hrs.

Biology as a science. Cell structure, cycle and mitosis. General reproduction and meiosis. Mendelian genetics. Development. Evolution. Phylogenetic relationships. Bacteria, viruses, fungi, plants, lower animals, coelomates. Ecology. Offered fall semester.

#### BIOL002. General Biology 2

3 lec., disc., 3 sem. hrs.

Designed for the non-science student and can be used in partial fulfillment of the one-year science requirement in the College of Arts and Sciences. This course will introduce biological concepts and will focus on how scientific knowledge is generated. Special emphasis will be placed on evolutionary biology, genetics and modern genetic methods. Topics covered will include, inheritance of genetic traits, cloning and biotechnology, viral evolution, speciation and extinction. Offered spring semester.

#### BIOL004. General Biology 4

3 lec., disc., 3 sem. hrs.

Biological macromolecules. Cell absorption and secretion. Energy flow. Glycolysis and cellular respiration. Photosynthesis. Molecular genetics. Digestion. Respiration. Circulation. Excretion. Immunobiology. Nervous coordination. Endocrine systems. Muscle contraction. Animal behavior. Human reproduction and development. Offered spring semester. *Prereq: BIOL001 and CHEM 001. BIOL004 required of all Biology majors. Strongly recommended for premedical and pre dental students.*

#### BIOL040. Ecology 3 lec., 3 sem. hrs.

The study of the complex interactions of living organisms, including both micro- and macro-organisms, with each other and with their chemical and physical environments. Emphasis on the scientific principles involved in these interactions. Offered fall semester. *Prereq: BIOL001; and BIOL002 or BIOL004.*

#### BIOL090. Principles of Biological Investigation

1 lec., 3 hrs. lab., 3 sem. hrs.

Introduction to selected instrumentation and techniques, including light microscopy, staining, aseptic procedures, and spectrophotometry. Other laboratory studies include: cell structure and function, restriction endonuclease effects

on DNA, protein extraction and quantification, bacterial studies, vertebrate anatomy (gross and microscopic) and physiology of cardiovascular and nervous systems. Offered every semester. *Prereq: BIOL001.*

#### BIOL100. The Molecular Basis of Biology

3 lec., 3 sem. hrs.

Major themes in biochemistry are examined in the context of mammalian physiology. Topics include: Protein structure and enzyme catalysis, carbohydrate and lipid metabolism in relation to energy production, nitrogen metabolism, vitamins, protein and nucleic acid synthesis, and the nature of the genetic code. Offered spring semester. *Prereq: BIOL002 or 004; and CHEM 024 (the latter may be taken concurrently).*

#### BIOL101. Experimental Molecular Biology

1 lec., 4 hrs. lab., 3 sem. hrs.

Purification, characterization and biosynthesis of proteins, nucleic acids, lipids and other biomolecules with emphasis on chemical and enzymatic methods of analysis. Offered spring semester. *Prereq: BIOL100 and cons. of dept. ch.*

#### BIOL 105. Proteins and Nucleic Acids: Structure, Function, and Evolution

2 lec., 3 sem. hrs.

The structural and biochemical properties of proteins and nucleic acids are examined with respect to biological function and evolution. Specific topics include methods of biochemical analysis, mechanisms of enzyme catalysis, oxygen transport, protein-nucleic acid interactions, DNA replication, transcription, RNA splicing and translation. Offered alternate fall semesters. *Prereq: BIOL100 and cons. of instr.*

#### BIOL 110. Cellular Metabolism 4 sem. hrs.

The mechanisms of biological energy generation, with emphasis on processes associated with cellular membranes. The outlines, principles, coordination, and evolution of fundamental metabolic pathways. The emphasis is on metabolism that is shared by diverse groups of organisms. Offered alternate spring semesters. *Prereq: BIOL100 and cons. of instr.*

#### BIOL125. Genetics 3 lec., 3 sem. hrs.

Analysis of mechanisms of inheritance with emphasis on the nature of the gene, gene regulation, and genetic changes in populations. Offered spring semester. *Prereq: BIOL100.*

#### BIOL126. Experimental Genetics

1 lec., 4 hrs. lab., 3 sem. hrs.

Genetic organization, function, engineering, and inheritance in prokaryotic and eukaryotic organisms. Offered spring semester. *Prereq: BIOL125 (may be taken concurrently) and cons. of dept. ch.*

#### BIOL 135. Cell Biology 3 lec., 3 sem. hrs.

Ultrastructural and biochemical analysis of the structure and functions of cells with special reference to their evolution and to the molecular basis of function of cell organelles. Offered fall semester. *Prereq: BIOL100.*

**BIOL137. Experimental Cell Biology**

1 lec., 4 hrs. lab., 3 sem. hrs.

Microscopic and biochemical studies of cellular structure and organization in relation to integrated cellular function. Offered fall semester. *Prereq: BIOL135 (may be taken concurrently) and cons. of dept. ch.*

**BIOL140. Advanced Ecology**

3 lec., 3 sem. hrs.

The study of the complex interactions of micro- and macro-organisms with each other and with their chemical and physical environments. Emphasis on the environmental factors influencing these interactions. Students in BIOL040 and 140 will attend the same lectures but will meet in separate discussion sections; furthermore, students in BIOL140 will be expected to complete assignments and exam material beyond those required for students enrolled in BIOL040. May not be taken for credit by students who have completed BIOL040. Offered fall semester. *Prereq: BIOL001; and either BIOL002 or BIOL004; or cons. of instr.*

**BIOL142. Plant Biology** 3 lec., 3 sem. hrs.

Despite their tremendous diversity in form, seed plants share many similarities in their cellular organization, metabolism, and development. Introduction to the organization, growth and development of vascular plants. Concepts of plant evolution and reproduction from algae to flowering plants. Application of genetic engineering to plants. Offered spring semester. *Prereq: BIOL002 or 004.*

**BIOL155. Neurobiology** 3 lec., 3 sem. hrs.

General principles of the organization and function of the vertebrate nervous system. Topics include the cellular and molecular mechanisms of excitable cells and synaptic transmission, sensory information processing of both special (e.g., vision, audition) and somatic sensation, and cellular and systemic mechanisms of motor output. Physiology of "higher" nervous functions including sleep, emotional behavior, and learning will also be discussed. A functional approach to neuroanatomy will be integrated throughout the course. Offered spring semester. *Prereq: BIOL 001; and BIOL002 or BIOL 004.*

**BIOL 156. Experimental Neurobiology**

1 hr. lec., 4 hrs. lab., 3 sem. hrs.

Experimental analysis of synapses and neuronal circuitry using a variety of preparations and electrophysiological techniques. The basic electrical properties of excitable cells and chemical communication between cells will be investigated. Offered spring semester. *Prereq: BIOL155 (may be taken concurrently) or BIOL170; and cons. of dept. ch.*

**BIOL 160. Animal Development**

3 lec., 3 sem. hrs.

The study of the ordered formation of complex, multi-cellular organisms from a single cell. A multidisciplinary exploration of the integrative processes underlying animal development, incorporating techniques of cellular and molecular biology for the study of development. Offered spring semester. *Prereq: BIOL100 or cons. of instr.*

**BIOL166. Experimental Embryology**

1 lec., 4 hrs. lab., 3 sem. hrs.

Experimental analyses of development in diverse living systems. Offered spring

semester. *Prereq: BIOL160 (may be taken concurrently) and cons. of dept. ch.*

**BIOL170. Comparative Vertebrate Physiology** 4 lec., 4 sem. hrs.

Introduction to the control and integration of homeostasis in vertebrate organisms and the adaptations which allow organisms to survive in a broad range of environments, both aquatic and terrestrial. Offered fall semester. *Prereq: BIOL100 or cons. of instr.*

**BIOL171. Experimental Physiology**

1 lec., 4 hrs. lab., 3 sem. hrs.

Investigation of selected topics relating to the regulation of physiological activity in vertebrate organisms. Emphasis on use of modern recording systems and experimental preparation of the vertebrate for the study of integrated systemic functions. Offered fall semester. *Prereq: BIOL170 (may be taken concurrently) and cons. of dept. ch.*

**BIOL 172. Human Physiology**

4 lec. hrs., 4 sem. hrs.

A basic course designed to explain to students in the Medical Technology and Physical Therapy curricula the systemic and cellular mechanisms responsible for homeostasis in the human organism. Offered fall semester. *Prereq: Registration in PHTH curriculum.*

**BIOL176. Microbiology** 3 lec., 3 sem. hrs.

Study of selected groups of microorganisms (algae, bacteria, and fungi). Topics include microbial morphology, taxonomy and metabolic activities, and the effect of microorganism on man and on the earth. Offered fall semester. *Prereq: BIOL100.*

**BIOL177. Exercise Physiology** 3 sem. hrs.

Study of the effects of acute and chronic exercise on selected organ systems. Particular emphasis will be placed on muscle, cardiovascular, respiratory, and environmental physiology. Offered alternate spring semesters. *Prereq: BIOL170 or 172 or their equivalents, or cons. of instr.*

**BIOL180. Endocrinology and Reproduction of Vertebrates** 3 sem. hrs.

This course is designed to examine the hormonal regulation and integration of homeostatic and reproductive function in vertebrates with special emphasis on mammalian species, including humans. This includes an analysis of the molecular, cellular and systematic aspects of hormone action and the mechanisms involved in the control of hormone secretion. Discussion of reproductive function emphasizes endocrine control as well as diversity of reproductive strategies and adaptations found among vertebrates. Offered alternate spring semesters. *Prereq: BIOL 100 and BIOL170; or cons. of instr.*

**BIOL185. Immunobiology** 2 lec., 3 sem. hrs.

Cellular and molecular mechanisms of the immune response. Nature of antigens and antibodies and their interactions. Special topics include complement, immediate and delayed hypersensitivity, transplantation and tumor immunobiology, immunosuppression, and immunological tolerance. Offered fall semester. *Prereq: BIOL100.*

**BIOL195. Independent Study** 3 sem. hrs.

Experimental analysis of a selected topic under faculty supervision. Offered every semester. *Prereq: Sr. stndg. and cons. of instr. and dept.ch.*

**BIOL198. Topics in Biology** 1 sem. hr.

Analysis of selected topics under faculty supervision. Offered every semester. *Prereq: Cons. of instr. and dept. ch. Does not count toward requirements for Biology major. S/U grade assessment.*

## BIOCHEMISTRY AND MOLECULAR BIOLOGY

*Required courses:*

BIOL001, 004 (or 002), 100, 101, 125, 135—18 sem. hrs.

CHEM 001, 002, 114, 123 (or 023), 124 (or 024), 131 (or 132 and 133)—23 sem. hrs. Biology laboratory course (upper division) or BIOL or CHEM 195 —3 sem. hrs.

MATH 080, 081—8 sem. hrs.

PHYS 001, 002 (or 003, 004)—8 sem. hrs.

*Elective courses. Any three of the following:*

BIOL105, 110, 126, 137, 140, 142, 155, 156, 160, 166, 170, 171, 176, 180, 185, 200, 210  
CHEM 105, 115, 125, 129, 166  
MATH 082, 083, 166

Students who take CHEM 132, 133, and MATH 082 are required to take only one additional elective in biology, chemistry or mathematics.

Students electing this curriculum are expected to complete all Arts and Sciences core curriculum requirements. Honors courses will be available from both departments by contract with the instructors. Courses available for honors credits will be identified.

## CHEMISTRY (CHEM)

*Chairperson and Professor:* Wilkie  
*Professors:* Cremer, Donaldson, Haworth, Hoffman (*Emeritus*), Jache (*Emeritus*), Kincaid, Kittsley (*Emeritus*), Nakamoto (*Emeritus*), Ryan, Schrader (*Research*), Steinmetz, Tran  
*Associate Professors:* Hossenlopp, McKinney  
*Assistant Professors:* Jayaraman, S. Reid, Ursenbach, Yi  
*Laboratory Supervisors:* Ausman, Petro  
*Teaching Post-doctoral Fellow:* Thompson

**MAJOR:**

Forty-three hours, including CHEM 001, 004, 105, 114, 115, 123, 124, 132, 133, 134, 135 and six hours of electives. Three of the six hours of electives must be from an upper division chemistry course and the other three hours either from one other upper division chemistry course or any one of the following courses: COSC 051, 148, MATH 083, 121, 140, 164; BIOL100; any upper division PHYS course except 195, 196, 199. PHYS 003 and 004; MATH 080, 081 and 082 are also required for the major. (Students who do not select chemistry as their major upon entry to the university may substitute CHEM 023, 024, for 123, 124, respectively.) French, German or Russian is recommended for fulfillment of the foreign language requirement. Chemistry offers both American Chemical Society certified and non-certified degrees.

Consult with the department undergraduate curriculum chairman for the requirements of each.

### MINOR:

Five courses, including CHEM001, 002, 023 (or 123), 024 (or 124), plus one upper division chemistry course (not including CHEM123, 124, or 195).

### TEACHING MAJOR:

Thirty-four hours, including CHEM 001, 002, 114, 115, 123, 124, 132 and 133; four hours of chemistry electives and EDUC 155. It should be noted that PHYS 001 and 002 or 003 and 004 and MATH 082 are prerequisites for CHEM 132 and 133.

Please refer to "Core Curriculum requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

### TEACHING MINOR:

Twenty-two hours, including CHEM 001, 002, 023, 024 and 114 plus two hours of chemistry electives.

### BROAD FIELD SCIENCE TEACHING MAJOR WITH CHEMISTRY TEACHING MINOR:

Sixty-two to 64 hours, including CHEM 001, 002, 023, 024, 110 (or 114), two to three hours of chemistry electives, BIOL001, 002 (or 004), 090, 100, 125, PHYS 001, 002, 008, 009, PHIL 130, COSC 050, MATH 073 (or 080). Students should see the department adviser for secondary teaching majors or minors to consult about the appropriate sequence of courses. It is also important that prospective teachers study carefully the School of Education section in this bulletin regarding university and state requirements (in addition to department requirements) for teacher certification.

#### CHEM001. General Chemistry 1

3 lec., 3 hrs. lab., 4 sem. hrs.

Introductory college chemistry. Fundamental principles of chemistry including stoichiometry, physical states of matter, energy relationships, periodic table, atomic and molecular structure and solutions. The following mathematical concepts are used in CHEM 001 and 002: Scientific notation, logarithms, and the quadratic equation and proportionality. Offered every semester.

#### CHEM002. General Chemistry 2

3 lec., 3 hrs. lab., 4 sem. hrs.

Continuation of CHEM 001. Chemistry of metals and nonmetals, kinetics, chemical equilibrium, aqueous equilibria, free energy relationships, electrochemistry, nuclear chemistry, organic chemistry, and chemistry of the transition metals. Qualitative analysis included as part of the laboratory work. Offered every semester. *Prereq:* CHEM 001.

#### CHEM004. General Chemistry for Chemistry Majors

3 lec., 3 hrs. lab, 4 sem. hrs.

Continuation of CHEM001. Intended for chemistry majors. Emphasis in the lecture will be on kinetics, equilibrium, electrochemistry, nuclear chemistry, symmetry in coordination and organic chemistry, and industrial processes as applied from thermodynamic principles. The laboratory will consist of experiments designed to correlate with lecture; introduction of some

research type instrumentation will be given.

*Prereq:* CHEM001.

#### CHEM008. Chemistry—The World

3 sem. hrs.

Introduction to chemical concepts and their applications to energy, the environment, air and water pollution, agriculture, food and drugs. Satisfies half of the Arts and Science core curriculum requirement. Course designed for non-science majors. Offered occasionally.

#### CHEM023. Organic Chemistry 1

3 lec., 4 hrs. lab., 4 sem. hrs.

Modern theories of bonding, stereochemistry, synthesis and reaction mechanism. The chemistry of aliphatic hydrocarbons and their functional group derivatives. Laboratory: basic organic manipulations such as distillation, recrystallization, including simple synthesis. Offered every semester. *Prereq:* CHEM 002 or 004.

#### CHEM024. Organic Chemistry 2

3 lec., 4 hrs. lab., 4 sem. hrs.

Continuation of CHEM 023. Extension of the chemistry of the remaining mono and polyfunctional, and aromatic compounds. Bonding, stereochemistry, mechanisms, synthesis, applied spectroscopy, heterocycles and natural products. Laboratory: synthesis, instrumental application, organic qualitative analysis. Offered each spring. *Prereq:* CHEM 023 or 123.

#### CHEM080. Lecture Only—Lower Division

1-3 sem. hrs.

This is a variable title, variable credit course designed to provide students with a formal course number in which they may register for a lecture without laboratory basis for existing lower division chemistry courses.

*Prereq:* Cons. of dept. ch.

#### CHEM081. Laboratory Only—Lower Division

1-2 sem. hrs.

This is a variable title, variable credit course designed to provide students with a formal course number in which they may register for a laboratory without lecture basis for existing lower division chemistry courses.

*Prereq:* Cons. of dept. ch.

#### CHEM105. Inorganic Chemistry

3 sem. hrs.

Structure and bonding as related to physical and chemical properties; concepts relating to mechanisms; metal complexes; organometallic chemistry; molecular symmetry; catalysis; and descriptive chemistry to demonstrate applications of principles. Offered annually. *Prereq:* CHEM 133.

#### CHEM 114. Quantitative Analysis

3 lec., 4 hrs. lab., 4 sem. hrs.

Fundamental theory of analytical chemistry covering principal gravimetric and titrimetric methods with introduction to electrochemical and spectrophotometric techniques and to separations. Offered annually. *Prereq:* CHEM 002 or 004.

#### CHEM 115. Instrumental Analysis

3 lec., 4 hrs. lab., 4 sem. hrs.

Continuation of CHEM 114. Physical methods of analysis with emphasis on electrochemical, spectral and chromatographic methods. Offered annually. *Coreq:* CHEM 132; *Prereq:* CHEM 114 and either PHYS 002 or 004.

#### CHEM123. Organic Chemistry for Majors 1

3 lec., 1 lab-recit., 4 hrs. lab., 4 sem. hrs.

Intended to be taken by chemistry majors, honors students, and other interested science majors. Principles of bonding, stereochemistry, mechanisms, kinetics, and spectrometry applied to aliphatic and aromatic hydrocarbons and simple monofunctional organic molecules. Laboratory: modern techniques using research instruments. Offered fall semester. *Prereq:* CHEM 002 or 004. Does not carry credit for Chemistry graduate students.

#### CHEM124. Organic Chemistry for Majors 2

3 lec., 1 lab-recit., 4 hrs. lab., 4 sem. hrs.

Continuation of CHEM 123. Mechanisms, structure-reactivity relationships, and complex syntheses applied to the remaining principle classes of organic compounds. Laboratory: organic qualitative analysis. Offered spring semester. *Prereq:* CHEM 123 or CHEM 023. Does not carry graduate credit for Chemistry graduate students.

#### CHEM125. Introduction to Biochemistry

3 sem. hrs.

Bioenergetics, glycolysis, oxidative degradation, enzymes, metabolic controls, metabolism of carbohydrates, lipids and amino acids. Offered occasionally. *Prereq:* CHEM 024 and either CHEM 131 or 132.

#### CHEM 129. Characterization of Organic Compounds

2 lec., 4 hrs. lab., 3 sem. hrs.

Fundamental theory of spectral methods used to identify organic compounds. Structure elucidation through application of nuclear magnetic resonance, ultraviolet, infrared, and mass spectroscopy. Hands-on use of spectrometers for structural analysis of synthetic intermediates and products. Offered occasionally. *Prereq:* CHEM 133.

#### CHEM131. Physical Chemistry: Fundamentals with Applications in Biological Sciences

3 sem. hrs.

One semester course in Physical Chemistry with focus on basic principles, using examples drawn from applications to biological systems. Covers macroscopic, statistical, and microscopic descriptions of matter. Emphasis on thermodynamics, chemical and physical equilibria, transport properties, and kinetics. Offered fall semester. *Prereq:* CHEM 002 or 004, PHYS 002 or 004, and MATH 073 or 080.

#### CHEM 132. Physical Chemistry 1

3 lec., 3 sem. hrs.

Atomic and molecular structure, states of matter, spectroscopy, laws of thermodynamics, phase and chemical equilibrium, electrochemistry, transport properties, kinetics and macromolecules. Offered fall semester. *Prereq:* CHEM 114, 124, MATH 082, PHYS 002 or 004. Does not carry graduate credit for Chemistry graduate students.

#### CHEM 133. Physical Chemistry 2

3 lec., 3 sem. hrs.

Continuation of CHEM 132. Offered spring semester. *Prereq:* CHEM 132. Does not carry graduate credit for Chemistry graduate students.

**CHEM134. Physical Chemistry Laboratory 1**

5 hrs. lab., 2 sem. hrs.

Laboratory experiments illustrating the principles of physical chemistry. Offered spring semester. *Prereq: CHEM 132.*

**CHEM135. Physical Chemistry Laboratory 2**

5 hrs. lab., 2 sem. hrs.

Continuation of CHEM 134. Offered fall semester. *Prereq: CHEM 133.*

**CHEM160. Introduction to Polymer Science**

3 sem. hrs.

Theory and practice of molecular weight determination for macromolecules. Characterization of polymers, including spectroscopic, chemical and mechanical procedures. Synthesis of polymers, including kinetics of reaction. Polymer additives and technology. Offered occasionally. *Prereq: CHEM 024, CHEM 133.*

**CHEM166. Introduction to Quantum Chemistry**

3 sem. hrs.

Elementary quantum theory and applications to atoms, molecules, and chemical bonding. Offered occasionally. *Prereq: CHEM 133.*

**CHEM180. Lecture Only—Upper Division**

1-3 sem. hrs.

This is a variable title, variable credit course designed to provide students with a formal course number in which they may register for a lecture without laboratory basis for existing upper division chemistry courses. *Prereq: Cons. of dept. ch.*

**CHEM181. Laboratory Only—Upper Division**

1-2 sem. hrs.

This is a variable title, variable credit course designed to provide students with a formal course number in which they may register for a laboratory without lecture basis for existing upper division chemistry courses. *Prereq: Cons. of dept. ch.*

**CHEM195. Independent Study**

1-3 sem. hrs.

Analysis of a specific topic under faculty supervision. Offered every semester. *Prereq: CHEM 133 and cons. of dept. ch.*

**CHEM196. Undergraduate Seminar**

1-3 sem. hrs.

Emphasis on critical reading, analysis, and oral reporting of current literature sources in Chemistry. Offered occasionally. *Prereq: CHEM 133.*

**CHEM197. Selected Topics in Chemistry**

1-3 sem. hrs.

Topics of current interest in inorganic, organic, analytical, physical or biochemistry. Offered occasionally. *Coreq: CHEM 133 or with permission of instr.*

**CHEM199. Senior Thesis**

2-4 sem. hrs.

Laboratory work leading to a thesis under the direction of an adviser. Offered every semester. *Prereq: CHEM 133 and cons. of dept. ch.*

## ECONOMICS (ECON)

*Chairperson and Professor:* Brush

*Professors:* Danner (*Emeritus*), Smiley

*Associate Professors:* Booth, Breeden, Chowdhury, D. Clark, Crane, Daniels, Davis, Hunter, McGibany, Nourzad, Toumanoff, Trestrail (*Emeritus*)

**MAJOR:**

Twenty-seven hours, including ECON 043, 044, 110, 120, and fifteen additional hours of upper division work. In addition, courses in basic statistics (MATH 060 or equivalent) and mathematics (MATH 070 and 071, or MATH 080 and 081, or equivalent) are required. Students contemplating graduate study in economics should take MATH 080 and 081.

**MINOR:**

Eighteen hours, including ECON 043 and 044 and twelve hours of upper division course work. In addition, a course in basic statistics (MATH 060 or equivalent) is required. Students minoring in economics are urged to satisfy the mathematics-logic-computer requirement of the College of Arts and Sciences by taking MATH 070 and 071 or MATH 080 and 081.

**TEACHING MINOR:**

Twenty-two hours, including ECON 043, 044, 110, and 120, with additional courses to fill out the minor requirements from the following groups, a minimum of one course from each group:

Group I: ECON 126, 190

Group II: ECON 133, 134, 145, 160

Group III: ECON 155, 156, 163

Also required are a course in basic statistics and a course in personal finance (FINA081).

Please refer to "Core Curriculum requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

**5-YEAR BA/MSAE PROGRAM:**

The Department of Economics offers a special five-year program enabling students to earn an undergraduate degree and a Master of Science degree in Applied Economics (MSAE) degree. For information, consult the Graduate Bulletin or contact the Department of Economics.

**ECON 020. Introduction to Economics**

3 sem. hrs.

An introductory survey of economic issues for non-majors, with an emphasis on using economic concepts as elements of critical reasoning. Microeconomic topics include markets and the role of government in a market economy. Macroeconomic topics include the banking system, inflation and unemployment. International issues include the balance of trade and foreign exchange. Will not be counted towards the economics major.

**ECON 043. Principles of Microeconomics**

3 sem. hrs.

Institutions and processes of market specialization and exchange. Supply and demand and their determinants. Pricing and production decisions of the firm under varying competitive conditions. The role of government in a modern mixed economy. Microeconomic analysis applied to selected economic problems. Offered every semester.

**ECON 044. Principles of Macroeconomics**

3 sem. hrs.

Processes and determinants of overall economic activity and growth. National income accounting, determination of aggregate income, employment, and the price level. Money and banking, government monetary and fiscal

policy, and international economics. Offered every semester. *Prereq: ECON 043.*

**ECON 110. Applied Microeconomic Analysis**

3 sem. hrs.

A review of the tools of supply and demand analysis. A study of the market behavior of consumers and business firms and the way they interact with each other and with public policy. The application of market theory to questions of resource allocation efficiency, changing market conditions, optimal pricing and output strategies, and to important social issues of the day. Offered every semester. *Prereq: ECON 043 and 044; and MATH 071 or equivalent.*

**120. Intermediate Macroeconomic Analysis**

3 sem. hrs.

Determination of the levels of aggregate output, employment, and prices. Inflation and unemployment. A description of available policy variables and their impacts upon the money, bond, goods, and labor markets. International macroeconomic interrelationships. Fundamentals of the economic growth process. Offered annually. *Prereq: ECON 043 and 044; and MATH 071 or equivalent.*

**ECON 125. American Business History**

3 sem. hrs.

Survey of the development of American business from the Colonial era to the present. Industries and individual firms will be examined as well as entrepreneurs and their role in the development of American business, and the role of governments in the development of American businesses. *Prereq: ECON 043 and 044.*

**ECON 126. American Economic History**

3 sem. hrs.

Briefly surveys the pre-1900 development of the American economy and then examines 20th century changes in the agricultural, manufacturing, transportation, finance, and trade and communication sectors. Prosperity and depression in the 1920 to 1940 period will be examined in depth. Concludes with an examination of the distribution of income and wealth and the changing role of government in the 20th century American economy. Offered annually. *Prereq: ECON 043 and 044.*

**134. Public Policies Toward American Industry**

3 sem. hrs.

Role of competition as an economic regulator. Bases and consequences of monopoly power. Development of statutory and administrative law affecting market processes in the U.S. Antitrust policies applied to monopoly, oligopoly, mergers and restrictive trade practices. Alternatives to antitrust, including utility regulation and social regulation. *Prereq: ECON 043 and 044.*

**ECON 145. Public Finance**

3 sem. hrs.

Examination of such current topics as the growth of government spending, taxes, and deficits. The proper role of the state, centralization and decentralization, the impact of government decisions on the distribution of income and the efficient allocation of resources. *Prereq: ECON 043 and 044.*

**ECON 146. Urban Economics**

3 sem. hrs.

The economic role of cities. The forces behind urban growth. The problems of central city

economic decline and urban poverty. The urban land and housing markets. Suburbanization of employment and population. *Prereq: ECON 043 and 044.*

**150. Money, Banking, and Monetary Policy**  
3 sem. hrs.

Origins, nature and importance of money. Money demand and supply. Types of financial markets and their role in the economy. Banking institutions and the Federal Reserve. Role of monetary policy in business cycles and its impact on financial institutions and markets. International monetary policy and global financial markets. *Prereq: ECON 043 and 044.*

**ECON 151. International Economic Issues**  
3 sem. hrs.

Survey of international economics. Basis for and welfare effects of international trade, commercial policies, and economic growth. International organizations, trading regions, and trade accords. Balance of payments concepts and exchange rate theories. History and theory of international monetary systems including fixed versus flexible exchange rates. Cannot be taken for credit after ECON 154 or ECON 156. *Prereq: ECON 043 and 044.*

**ECON 154. International Financial Economics** 3 sem. hrs.

Balance of payments concepts and international indebtedness. Organization and characteristics of foreign exchange markets. International monetary history. Operation and structure of international banking and international securities markets. Theories of payments adjustment and exchange rate determination. Effects of open economy macroeconomic policy under various monetary arrangements. *Prereq: ECON 043 and 044.*

**ECON 155. Comparative Economic Development** 3 sem. hrs.

An analysis and description of institutional differences among national economies. A theoretical framework for analyzing the effects of alternative systems on social and economic behavior is developed. Theoretical models are applied to specific cases, with special emphasis on issues of growth and development in advanced variants of capitalist, post-Communist, and less developed economies. *Prereq: ECON 043 and 044.*

**ECON 156. International Trade** 3 sem. hrs.  
Sources, patterns, and welfare implications of international trade. Empirical investigations of traditional trade theories. Arguments for and impact of commercial policies. Trade effects of economic growth. Imperfect competition and intra-industry trade as alternatives to traditional theories and views. *Prereq: ECON 043 and 044 and 110.*

**ECON 160. Economics of Labor Markets**  
3 sem. hrs.

The study of the supply of and demand for labor. Topics include: Investment in education and training, compensation determination, work/family issues, discrimination, and poverty. *Prereq: ECON 043 and 044.*

**ECON 163. Environmental and Natural Resource Economics** 3 sem. hrs.

Economic analysis of environmental and natural resources including land, air, and water.

Special emphasis on the roles of human values and economic institutions in resource exploitation. Topics covered include global warming, air and water pollution, energy and materials conservation, forestry practices, biodiversity preservation and the population problem. *Prereq: ECON 043 and 044.*

**ECON 174. Introduction to Mathematical Economics** 3 sem. hrs.

Provides students with an appreciation of the use of mathematics in economic analysis. Mathematical techniques are immediately applied to economic modeling. Mathematics topics include differential calculus, constrained and unconstrained optimization, and matrix algebra. Economics topics include market supply and demand, national income determination, consumer behavior, and production and cost. *Prereq: MATH 070 and 071 or their equivalent; and ECON 043 and 044.*

**ECON 175. Introduction to Econometrics**  
3 sem. hrs.

Designed to teach how to specify and estimate statistical models of phenomena that are observed in business and economics. The estimated model is subjected to diagnostic tests in order to determine whether it satisfies desirable statistical assumptions. The verified model is used for hypothesis testing, forecasting, and policy analysis. Single-equation multivariate linear regression analysis provides the underlying statistical framework. *Prereq: ECON 043 and 044; and MANA026 or MATH 060 or their equivalents.*

**ECON 181. Economics and Ethics**  
3 sem. hrs.

Investigation of the relation of economics to social values. Study of utilitarianism, welfare analysis, and Pareto efficiency concepts as foundations for normative economics. Introduction to justice, equity, and fairness approaches to normative economics. Applications to public policy issues. *Prereq: ECON 043 and 044, and PHIL 104.*

**ECON 182. Economics and Law** 3 sem. hrs.

An application of microeconomic reasoning to the traditional areas of property, contract and tort (injury and accident) law. Develops and then criticizes, the perspective that common law (judge-made law) should strive for economic efficiency. Topics include the economics of common property resources, the notion of optimal accident rates, and the contractarian logic of property rights/public choice theory. *Prereq: ECON 043 and 044.*

**ECON 195. Independent Study** 1-4 sem. hrs.  
*Prereq: Cons. of dept. ch.*

**ECON 196. Undergraduate Seminar**  
3 sem. hrs.

Specific titles to be announced in the *Timetable of Classes*. Offered occasionally. *Prereq: Jr. stndg. and cons. of dept. ch.*

**ECON 199. Senior Thesis** 2 sem. hrs.

With department approval, Seniors may write a thesis under direction of an adviser. *Prereq: Cons. of dept. ch.*

## ENGLISH (ENGL)

*Chairperson and Professor:* Machan  
*Professors:* Bates, Block, DeFalco (Emeritus)  
M. Gillespie, Hoeveler, McCanles, Rivero, Schwartz (Emeritus)

*Associate Professors:* Asp, Bodden, Boly, Chappell, Duffy, Hribal, Jeffers, Krueger, Ratcliffe, Stephens

*Assistant Professors:* Curran, Hathaway, Justice, McCabe, M. Reid, Sandy, Sorby, Spargo  
*Adjunct Assistant Professors:* Bieganowski, P. Gillespie, Gras, McCormick  
*Lecturers:* Batchelor, Ciemnieski, Erable, Foran, Gibson, Grisk, Inouye, Lewis, McGuire, Navarre, Prchal, Prochaska, Reiter, Rymut, Sherwood, Sloan, Tallon

### MAJOR:

Thirty hours (excluding ENGL001 and 002), divided according to the following groups.  
Group I, Historical Surveys (9 hrs.): 022, 023, either 032 or 033.  
Group II, Language Study (3 hrs.): 101, 102, 103, or 170.  
Group III, Individual Authors (3 hrs.): 114, 119, or 165.  
Group IV, English or American Literature before 1800 (3 hrs.): 114, 115, 117, 118, 119, 120, 121, 150; or 165, 171, 173, 177, 198 when the course deals with pre-1800 English or American literature.  
Group V, Shakespeare (3 hrs.): 160.  
Group VI, Electives (9 hrs.): any three upper-division courses, no more than one of which may be a "writing" course.  
See Director of Undergraduate Studies for a requirements checklist.

### MINOR:

Eighteen hours (excluding ENGL001 and 002), divided according to the following groups:  
Group I, Surveys or Introductions (6 hrs.): any two sophomore courses.  
Group II, Shakespeare (3 hrs.): 160.  
Group III, Electives (9 hrs.): any three upper-division literature courses.  
See Director of Undergraduate Studies for a requirements checklist.

### TEACHING MAJOR:

Thirty-nine hours (excluding ENGL001 and 002), divided according to the following groups:  
Group I, Historical Surveys (9 hrs.): 022, 023, either 032 or 033.  
Group II, Language Study (3 hrs.): 103.  
Group III, One upper-division elective in British literature.  
Group IV, Advanced Composition (3 hrs.): 104.  
Group V, Rhetoric (3 hrs.): either 106 or 192 (4 sem. hrs.)  
Group VI, Multicultural (3 hrs.): either 159 or 177.  
Group VII, Shakespeare (3 hrs.): 160.  
Group VIII, Methods (3 hrs.): 190.  
Group IX, Criticism (3 hrs.): 193.  
Group X, American Elective (3 hrs.): any upper-division course in American literature.  
Group XI, Literature for Teaching Majors (3 hrs.): 175.  
Students should consult the departmental adviser for English Education about the appropriate sequence of courses. It is also essential to consult the School of Education section of this bulletin regarding university and state

requirements for teacher certification. A teaching major is required for secondary teacher certification.

Please refer to "Core Curriculum requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

### TEACHING MINOR:

Thirty hours (excluding ENGL001 and 002), divided according to the following groups:  
Group I, Historical Surveys (6 hrs.): either 022 or 023, either 032 or 033.  
Group II, Language Study (3 hrs.): 103.  
Group III, Advanced Composition (3 hrs.): 104.  
Group IV, Rhetoric (3 hrs.): either 106 or 192 (4 sem. hrs.)  
Group V, Multicultural (3 hrs.): either 159 or 177.  
Group VI, Shakespeare (3 hrs.): 160.  
Group VII, American Literature (3 hrs.): any upper-division course therein.  
Group VIII, Methods (3 hrs.): 190.  
Group IX, Criticism (3 hrs.): 193.  
Students should consult the departmental adviser for English Education about the appropriate sequence of courses. It is also essential to consult the School of Education section of this bulletin regarding university and state requirements for teacher certification.

### WRITING-INTENSIVE ENGLISH

Thirty-six hours (excluding ENGL001 and 002), divided according to the following groups:  
Group I, Surveys or Introductions (6 hrs.): any two sophomore courses.  
Group II, Shakespeare (3 hrs.): 160.  
Group III, Individual Authors (3 hrs.): 114, 119, 165.  
Group IV, English or American Literature before 1800 (3 hrs.): 114, 115, 117, 118, 119, 120, 121, 150; or 165, 171, 173, 177, 198 when the course deals with pre-1800 English or American literature.  
Group V, Language Study (3 hrs.): 101, 102, 103, or 170.  
Group VI, Electives (6 hrs.): two upper-division literature courses.  
Group VII, Writing (12 hrs.): 104 (required); 105, 106, 191, or 197; or 173, 196, 198 when the course focuses on writing; or, if not used in Group V, 101, 102, 103, or 170; or no more than two among JOUR 111, 112, 113, 114, 151, 155 (all of which have ENGL104 as a prerequisite; 151 and 155 also have JOUR 100 as a prerequisite).  
See director of Undergraduate Studies for a requirements checklist.

### COURSES FOR FRESHMEN

**ENGL001. Expository Writing 1** 3 sem. hrs.  
An introduction to the basic principles of rhetoric and composition. Investigation of and practice in the methods of expository writing. Offered every semester.

**ENGL002. Expository Writing 2** 3 sem. hrs.  
A further introduction to the principles of rhetoric and composition. Investigation of and practice in the uses of the written language in argument, persuasion, and critical analysis. Offered every semester. *Prereq: ENGL001 or equivalent.*

**ENGL005. World and Text 1** 3 sem. hrs.  
This course studies the ways in which human beings have fashioned imaginative works that reflect, challenge, and transfigure the worlds in which they live. There is intensive analysis of texts selected from such writers as Homer, Sophocles, Virgil, Dante, Chaucer, Shakespeare, and Milton. Strong emphasis is placed on student writing. Enrollment is limited to students in the Honors Program. Counts as equivalent of ENGL022 for English majors and minors. Offered fall semester. *Prereq: Consent of program director.*

**ENGL006. World and Text 2** 3 sem. hrs.  
A continuation of ENGL005, with texts selected from such writers as Pope, Swift, Austen, Wordsworth, Keats, Emily Brontë, Melville, Adams, Faulkner, Hemingway, and T.S. Eliot. Enrollment limited to students in the Honors Program. Counts as equivalent of ENGL023 for English majors and minors. Offered spring semester. *Prereq: ENGL005 and consent of program director.*

### COURSES FOR SOPHOMORES

**ENGL022. Survey of English Literature 1** 3 sem. hrs.  
An introductory survey of the British literary tradition, from the beginnings to the latter part of the 18th century. Approaches vary with the instructor, as the focus may be on a particular theme or historical development. Readings drawn from authors such as Chaucer, Shakespeare, Milton, Pope, Swift, Fielding, and Johnson. Offered annually. Required for regular English majors. *Prereq: ENGL002 or equivalent.*

**ENGL023. Survey of English Literature 2** 3 sem. hrs.  
Continuation of English 022, following the development of British literature up to the present. Readings drawn from authors such as Austen, Wordsworth, George Eliot, Tennyson, Shaw, Joyce, and Woolf. Offered annually. Required for regular English majors. *Prereq: ENGL002 or equivalent.*

**ENGL 032. Survey of American Literature 1** 3 sem. hrs.  
An introductory survey of American literary traditions, from the beginnings to the Civil War. Approaches vary with the instructor, as the focus may be on a particular theme or historical development. Readings drawn from authors such as Bradstreet, Franklin, Wheatley, Emerson, Poe, Douglass, Hawthorne, Stowe, Melville, and Whitman. Offered annually. This course, or 033, is required for regular English majors. *Prereq: ENGL002 or equivalent.*

**ENGL033. Survey of American Literature 2** 3 sem. hrs.  
Continuation of English 032, following American literary traditions since the Civil War. Readings will be drawn from authors such as Dickinson, Mark Twain, James, Frost, Stein, O'Neill, Stevens, Baldwin, and Rich. Offered annually. This course, or 032, is required for regular English majors. *Prereq: ENGL002 or equivalent.*

**ENGL 042. Introduction to Literature: Fiction** 3 sem. hrs.  
An introduction to various types of fiction (e.g., fable, short story, novel) representing a range of cultural points of view. Emphasis on tech-

niques for analyzing the conventions, structures, and styles of fiction. Offered every semester. *Prereq: ENGL002 or equivalent.*

**ENGL043. Introduction to Literature: Drama** 3 sem. hrs.  
An introductory survey, from the ancient to the contemporary theater, of major writers, movements, and forms. Offered every semester. *Prereq: ENGL 002 or equivalent.*

**ENGL044. Introduction to Literature: Poetry** 3 sem. hrs.  
Concentration on how the formal techniques of verse—for example, symbol, metaphor, simile, imagery, persona, meter, rhythm, and stanzaic patterns—combine for poetic effect. Emphasis on close reading of poems drawn from a variety of traditions. Offered annually. *Prereq: ENGL 002 or equivalent.*

### COURSES FOR JUNIORS AND SENIORS

#### LANGUAGE, RHETORIC, AND COMPOSITION

**ENGL101. History of the English Language** 3 sem. hrs.  
Elementary phonology, morphology, and syntax through the three stages of Old, Middle, and Modern English, along with dialectology and the sources of vocabulary. Characteristics of present-day American English. Offered annually. *Prereq: Jr. stndg. Comment: May not be counted as literature requirement in Arts & Sciences core curriculum.*

**ENGL102. Structure of the English Language** 3 sem. hrs.  
The phoneme and morpheme as structural units. Parts of speech. Analysis of Modern English syntax by traditional, structural, immediate constituent and generative-transformational methods. Offered annually. *Prereq: Jr. stndg. Comment: May not be counted as literature requirement in Arts and Sciences core curriculum.*

**ENGL103. English Linguistics** 3 sem. hrs.  
The study of the English language, its structure, history, uses, and purposes. Attention to language acquisition, and to social and regional variations. Offered annually. *Prereq: Jr. stndg. Comment: May not be counted as literature requirement in Arts & Sciences core curriculum.*

**ENGL104. Advanced Composition** 3 sem. hrs.  
Investigation of and sustained practice in the strategies of expository writing. Emphasis on various forms of argument and persuasion. Assumes a mastery of basic principles of rhetoric and composition. *Prereq: ENGL002 or equivalent. Comment: May not be counted as literature requirement in Arts & Sciences core curriculum.*

**ENGL105. Writing for the Professions** 3 sem. hrs.  
Analysis of the rhetorical problems encountered in non-academic writing, designing documents and revising for style, with emphasis on analyzing audiences and purposes. Practical applications may include proposals, résumés, memos, letters, manuals, feasibility studies, and research and progress reports. *Prereq: Jr. stndg. and ENGL002 or equivalent. May*

not be counted as literature in the Arts and Sciences core curriculum.

### **ENGL106. The Art of Rhetoric:**

#### **Theory and Application 3 sem. hrs.**

A definition of rhetoric. The discovery and reality of arguments. Evidence. The ethos of the rhetor and of the audience. Style as a concept. Rhetoric and reality. Offered spring semester. *Prereq: Jr. stndg. Comment: May not be counted as literature requirement in Arts and Sciences core curriculum.*

## **LITERATURE IN HISTORICAL PERSPECTIVE**

### **ENGL 114. Chaucer 3 sem. hrs.**

Close reading of the *Canterbury Tales* and, on occasion, of *Troilus and Criseyde*. Emphasis on Chaucer's techniques and thematic concerns. Considerations of cultural context and Chaucer's place in literary history. Offered annually. *Prereq: Jr. stndg.*

### **ENGL 115. British Literature from the Beginnings to 1500 3 sem. hrs.**

A reading of medieval works representative of the Old and Middle English periods and their backgrounds. Special attention to 14th century works—*The Pearl*, *Gawain*, *Piers Plowman*, and selections from Chaucer. All works prior to the 14th century read in translation. Offered annually. *Prereq: Jr. stndg.*

### **ENGL 117. The Literature of the Renaissance: The 16th Century 3 sem. hrs.**

Developments in English prose and poetry from the close of the Middle Ages to the death of Queen Elizabeth. Emphasis on the Elizabethan period and the rise of forms and genres. Evaluation and analysis of significant works by More, Wyatt, Spenser, Sidney, Shakespeare, and Hooker. Currents and cross-currents in literary influence. Offered annually. *Prereq: Jr. stndg.*

### **ENGL 118. The Literature of the Renaissance: The 17th Century 3 sem. hrs.**

Developments in English prose and poetry from 1603 to the beginnings of the neoclassical period. Emphasis in poetry on the metaphysical poets—Donne, Herbert, Marvell—and the Jonsonians—Jonson, Herrick and the Cavaliers. Readings in the prose of Bacon, Burton, Browne and others, with emphasis on the major developments in prose style. Offered annually. *Prereq: Jr. stndg.*

### **ENGL 119. Milton 3 sem. hrs.**

Close reading of *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes*, as well as shorter poems and selected prose. Offered annually. *Prereq: Jr. stndg.*

### **ENGL 120. The Ages of Dryden and Pope 1660-1744 3 sem. hrs.**

The prose and poetry of the Restoration and early 18th century. Representative writers such as Dryden, Pope, and Swift. The background of history, together with philosophical and critical ideas. Offered annually. *Prereq: Jr. stndg.*

### **ENGL121. The Age of Johnson, 1744-1790 3 sem. hrs.**

The prose and poetry of the mid and later 18th century—Johnson, Boswell and their con-

temporaries. At least one of the longer novels and some of the minor prose and verse. The changing temper of ideas and literary forms of this era. Offered annually. *Prereq: Jr. stndg.*

### **ENGL130. The Romantic Movement, 1790-1837 3 sem. hrs.**

The major and minor poets and the major non-fiction prose writers of the period, 1790-1837, such as Blake, Wordsworth, Coleridge, Shelley, Keats, and Byron. Offered annually. *Prereq: Jr. stndg.*

### **ENGL131. Victorian Literature 3 sem. hrs.**

The major poets and prose writers of the period, 1837-1900, such as Browning, Tennyson, Arnold, Ruskin, Newman and Carlyle. Offered annually. *Prereq: Jr. stndg.*

### **ENGL135. The British Novel from the Beginnings to 1900 3 sem. hrs.**

Representative major novels by such authors as Fielding, Austen, Scott, Dickens, Thackeray, the Brontës, Eliot, Trollope, and Hardy. Offered annually. *Prereq: Jr. stndg.*

### **ENGL145. Twentieth-Century British Literature: The Modern Period 3 sem. hrs.**

The major figures in poetry and prose and the principal movements from about 1900 to 1930. Writers such as Yeats, Forster, Joyce, Lawrence, Woolf, Huxley. Offered annually. *Prereq: Jr. stndg.*

### **ENGL146. Twentieth-Century British Literature: The Contemporary Period 3 sem. hrs.**

The major writers in poetry and prose and the principal movements from about 1930 to the present. Writers such as Auden, Thomas, Greene, Waugh. Offered annually. *Prereq: Jr. stndg.*

### **ENGL148. British Drama 3 sem. hrs.**

Major developments in British drama. Analysis and evaluation of representative plays by such authors as Marlowe, Sheridan, Shaw and Pinter. The evolution of dramatic form with relation to social and intellectual currents. Offered annually. *Prereq: Jr. stndg.*

### **ENGL150. The Rise of a National Literature 3 sem. hrs.**

The patterns of colonial writing, the literature of the Revolutionary War and the early republic, and the emergence of a national literature. Representative writers from the Puritans through Washington Irving. Offered occasionally. *Prereq: Jr. stndg.*

### **ENGL151. American Literature from 1798-1865 3 sem. hrs.**

Fiction, non-fiction and poetry of the major American writers from 1798 to the Civil War. Emphasis upon the individual author, his or her literary genre and special contribution to American thought. Representative writers such as Hawthorne, Emerson, Stowe, Thoreau, Melville, and Whitman. Offered annually. *Prereq: Jr. stndg.*

### **ENGL152. American Literature from 1865-1900 3 sem. hrs.**

Literary aftermath of the Civil War. Disillusionment and the rise of realism. Important contributors to the tradition of realism such as Dickinson, Twain, Howells, Crane,

James. Representative regional writers. Poets and non-fiction writers who anticipate the modern temperament in their respective genres. Offered annually. *Prereq: Jr. stndg.*

### **ENGL153. American Fiction from the Beginnings to 1900 3 sem. hrs.**

American fiction from the beginnings to the rise of the Modern Period, with special emphasis on the novel. Representative major works by such writers as Cooper, Hawthorne, Stowe, Melville, Twain, James. Offered annually. *Prereq: Jr. stndg.*

### **ENGL 155. Twentieth-Century American Literature: The Modern Period 3 sem. hrs.**

The main movements in modern American poetry and prose with emphasis upon poetry and fiction as literary forms from 1900 to about 1946. Emphasis on major writers such as Wharton, Frost, Eliot, Hemingway, Fitzgerald, Faulkner. Offered annually. *Prereq: Jr. stndg.*

### **ENGL156. Twentieth-Century American Literature: The Contemporary Period 3 sem. hrs.**

The principal movements and representative major figures in American fiction and poetry from about 1946 to the present. Emphasis on writers such as Mailer, Lowell, Bishop, Baldwin, Updike, Levertov. Offered annually. *Prereq: Jr. stndg.*

### **ENGL158. American Drama from the Beginnings to the Present 3 sem. hrs.**

American drama from the beginning to the present with emphasis on representative dramatists after 1918, including such authors as Herne, O'Neill, Williams, Miller, Mamet. Offered annually. *Prereq: Jr. stndg.*

### **ENGL 159. Ethnicity in Modern American Literature and Culture 3 sem. hrs.**

This course will examine literary works by authors who identify with a range of different ethnic groups (including African American, Asian American, Chicano/a, Jewish, and Native American) in order to develop an understanding of how ethnicity has become defined in the contemporary U.S., obtain introductory knowledge of ethnic literature and theory, and consider the complex relationship between ethnic writing and literary modernism in the U.S. Offered annually. *Prereq: Jr. stndg.*

### **ENGL160. Shakespeare's Major Plays 3 sem. hrs.**

Careful, detailed analysis of approximately 12 plays. Emphasis on each play as an organic whole. Attention also given to Shakespeare's development as a dramatist and to the major artistic and intellectual trends of his time. Offered every semester. *Prereq: Jr. stndg.*

### **ENGL165. Individual Author 3 sem. hrs.**

A detailed examination of the works of an individual author. Instructors may incorporate various biographical, historical, and cultural concerns, and may focus on the development of an author's works, on that author's works in a unified corpus, or on a more selective group of texts. Specific author to be studied will be announced in the *Timetable of Classes* each semester. *Prereq: Jr. stndg.*

## SPECIAL COURSES

**ENGL170. Studies in Language** 3 sem. hrs.  
Examination of some aspect of language or language study. Topics may include stylistics, sociolinguistics, introductory linguistics, history of linguistics, or semiotics. Specific topics will be announced in the *Timetable of Classes*.  
*Prereq: Jr. stndg. Comment: May not be counted as literature requirement in Arts and Sciences core curriculum.*

**ENGL171. Studies in Literature and Culture** 3 sem. hrs.  
Specific offerings under this rubric will investigate literary and cultural issues from a variety of perspectives including, but not limited to, those that are historical, cultural, multi-generic, interdisciplinary, or socio-ideological. Specific topics will be announced in the *Timetable of Classes*.  
*Prereq: Jr. stndg.*

**ENGL173. Studies in Genre** 3 sem. hrs.  
Introduction to a mode or form of literary expression and to its development across historical, social, and other boundaries. Examination of the potential of genre to articulate meaning in multiple contexts. Specific topics will be announced in the *Timetable of Classes*.  
*Prereq: Jr. stndg.*

**ENGL175. Literature for Teaching Majors** 3 sem. hrs.  
A specialized course that will focus both on young adult literature and on western and non-Western world literature. The purpose of the course is to acquaint prospective teachers of English with an overview of the drama, poetry and fiction typically taught in middle and secondary school. Offered annually.  
*Prereq: Jr. stndg.*

**ENGL177. Studies in Multicultural Literature** 3 sem. hrs.  
The focus of this course will change each semester, but all courses offered under this rubric will investigate a variety of literary and cultural issues pertaining to multicultural writing in the United States. Possible specific topics include ethnic autobiography, the Harlem Renaissance, Black women's writing, Commonwealth literature, and Native American oral narratives. Please consult the *Timetable of Classes* for specific topics. Course descriptions are available in the English Department. Offered annually.  
*Prereq: Jr. stndg.*

**ENGL185. Women in Literature** 3 sem. hrs.  
Through the study of major authors, introduces a variety of the critical methods that are instrumental to feminist literary criticism—e.g., historicism, archetypal criticism, psychoanalysis, linguistics—and addresses the distinctive social and aesthetic problems encountered by women writers and readers.  
*Prereq: Jr. stndg.*

**ENGL186. Special Topics in Women's Literature** 3 sem. hrs.  
Offers instruction in a major area of literary study concerned with women writers and/or women's issues. May be organized either historically or generically. Specific course descriptions available in the English Department.  
*Prereq: Jr. stndg.*

**ENGL190. Teaching English in the Secondary School** 3 sem. hrs.  
Problems, curricular materials and procedures in the teaching of language, composition and

literature. Includes field experience in selected area schools. Offered fall semester. Equivalent to EDUC 145 or 155.  
*Prereq: EDUC 095 and Jr. stndg. Comment: May not be counted as literature requirement in Arts and Sciences core curriculum. Admission to School of Education required.*

**ENGL 191. Creative Writing Workshop** 3 sem. hrs.  
Workshop in the composition of various literary forms. Emphasis depending upon the needs of students and the perspective of the instructor. Offered annually.  
*Prereq: Jr. stndg. Comment: May not be counted as literature requirement in Arts and Sciences core curriculum.*

**ENGL192. The Processes of Writing** 4 sem. hrs.  
Theoretical and practical aspects of the nature and development of composing processes. Topics include: prewriting and revision, current rhetorical theory and its historical antecedents, strategies for designing and sequencing writing assignments, and responding to others' writing. A quarter of the coursework is devoted to peer-tutoring experience. Offered annually.  
*Prereq: Jr. stndg. Comment: May not be counted as literature requirement in Arts and Sciences core curriculum.*

**ENGL193. Literary Criticism** 3 sem. hrs.  
The premises and methods of criticism. Exercises in practical criticism; the analysis and comparison of literary works. Offered annually.  
*Prereq: Jr. stndg.*

**ENGL194. Literature in Film** 3 sem. hrs.  
The existence of literary modes in film. The ways in which film derives its effects from literature. The interrelationship of literature and film. Special problems of film maker and fictionist. The film as a reading of a novel. Differences in scale. Both forms as social forces. Offered occasionally.  
*Prereq: Jr. stndg.*

**ENGL195. Independent Study** 1-3 sem. hrs.  
Offered every semester.  
*Prereq: Cons. of dept.ch.*

**ENGL196. Undergraduate Seminar** 3 sem. hrs.  
Designed to initiate a selected group of qualified undergraduates in the techniques and discipline of intensive scholarly study by concentrated work in a restricted field. Emphasis on the critical reading and analysis of primary and/or secondary sources. Specific subjects announced in the *Timetable of Classes*. Offered occasionally.  
*Prereq: Jr. stndg. and cons. of instr.*

**ENGL197. Writing Internship** 3 sem. hrs.  
On-the-job experience as a writer and/or editor for a local agency; supervised by the agency and by English faculty. Although this course is graded S/U, it nonetheless counts toward the major or minor. It may be taken only once for credit toward fulfilling the requirements of the English Major. Offered every semester.  
*Prereq: Jr. stndg. and cons. of instr. Comment: May not be counted as literature requirement in Arts and Sciences core curriculum.*

**ENGL198. Special Topics** 3 sem. hrs.  
Topics vary by section to offer a variety of methodological or thematic approaches to

bodies of literature. Specific course descriptions available in the English Department.  
*Prereq: Jr. stndg.*

**ENGL199. Senior Thesis** 1-3 sem. hrs.  
The writing of a thesis under the direction of an adviser. Offered every semester.  
*Prereq: Cons. of dept. ch.*

**ENGLISH AS A SECOND LANGUAGE PROGRAM (ESLP)**  
The Department of English offers advanced-level English as a Second Language (ESL) courses for students who are non-native speakers of English and who need further instruction and practice in composition, reading, listening comprehension, speaking and pronunciation. In addition to these courses, there are ESL sections of English 001 and 002.

All non-native speakers are required to take the ESL placement test after they arrive on campus. Following the placement test, students are required to complete ESL/English courses in their first semester. In addition, students who are taking a sequence of ESL/English composition courses should not interrupt the sequence until requirements are completed. Up to six credits of ESL coursework are allowed toward the total number of credits required for graduation, except for Engineering students.

**ESLP082. Composition** 3 sem. hrs.  
Advanced study of written English. Extensive practice in writing expository and argumentative essays; review of paragraph development; study skills associated with writing a composition; selection of topic, thesis statement, outlining. Offered every semester. Not available as an S/U option.  
*Prereq: Placement by ESL program director.*

**ESLP083. Reading** 3 sem. hrs.  
Advanced reading in English. Extensive practice in reading comprehension, vocabulary development, increasing reading speed, study skills associated with reading university-level texts and reference materials: Previewing, reading for thorough comprehension, critical reading. Offered fall semester. Not available as an S/U option.  
*Prereq: Placement by ESL program director.*

**ESLP084. Listening Comprehension** 3 sem. hrs.  
Advanced listening comprehension in English. Extensive practice in listening to lectures, taking lecture notes, listening to different styles and different speakers of American English; work on study skills associated with listening and notetaking; outlining, reviewing lecture notes. Offered every semester. Not available as an S/U option.  
*Prereq: Placement by ESL program director.*

**ESLP182. Expository Writing for Non-Native Speakers** 2 sem. hrs.  
Supplementary instruction and practice in composition for non-native speakers of English concurrently enrolled in the specially designated section of ENGL001. Students receive two hours each week of further explanation and/or practice in composition processes, assigned readings, and reviewing grammar difficulties. Registration in this course is required of all students registering for the specially designated section of ENGL001. Not available as an S/U option. Offered every

semester. *Prereq:* Placement by ESL program director.

## FINE ARTS (FIAR)

Students interested in pursuing subjects in the fine arts and/or in fulfilling fine arts core requirements should consult listings of the following departments:

Foreign Languages and Literatures, and History (College of Arts and Sciences) for offerings in cultural or art history.

Film, Broadcast and Electronic Communication, Journalism, Music, and Performing Arts (College of Communication).

Marquette's College of Arts and Sciences and College of Communication have worked in cooperation with the Milwaukee Institute of Art and Design to present two art minors: Studio Art and Art History.

These minors have been developed to satisfy your art interests and expand your career possibilities. Each minor consists of three required courses and three additional courses for a total of eighteen credits. Studio art and art history minors give you the opportunity to enhance your skills as an artist, increase your knowledge of the arts, and fulfill your desire to create. If you cannot complete a minor, you may take any of the MU/MIAD courses to fulfill core requirements or as electives.

If you are interested and need information, please call or visit the College of Arts and Sciences or the College of Communication. Students wishing to pursue a minor in art should complete a Declaration of Art Minor form in Marquette Hall, 208 or Johnston Hall, 114.

## MINOR IN STUDIO ART

### Basic Requirements

HIST007	History of Western Art 1*
HIST008	History of Western Art 2*
FIAR003	Fundamentals of Drawing
FIAR004	Fundamentals of Design

Plus

### Program One

(Recommended for Advertising Majors)

FIAR 073	Communication Design 1
FIAR074	Communication Design 2
ADPR143	Marketing Communications Design and Production*

or

### Program Two

(Recommended for Theatre Arts Majors)

FIAR031 Space, Form, Materials  
And TWO courses listed from below:

FIAR061	Painting 1
FIAR 062	Painting 2
FIAR 071	Figure Sculpture—sem. 1
FIAR 072	Figure Sculpture—sem. 2

or

### Program Three

(Recommended for Any Major)

Two courses (in sequence) from a single MIAD fine art discipline listed below:

Drawing	(FIAR063, 064)
Painting	(FIAR061, 062)
Photography	(FIAR 075, 076)

Printmaking	(FIAR033, 034, 035, 036, 037, 038)
Sculpture	(FIAR065, 066)
Figure Sculpture	(FIAR071, 072)

## MINOR IN ART HISTORY

### Basic requirements

HIST007	History of Western Art 1*
HIST008	History of Western Art 2*
(And either:)	
HIST190	Historical Theory and Method*
PHIL120	Philosophy of Art and Beauty*

Plus three courses from the following:

### Topics in Art History

FIAR180	History of Modern Design
FIAR 182	Art Since 1960
FIAR183	History of Photography
FIAR184	The History of Sculpture

\*Indicates courses taken at Marquette University. All other courses are offered at the Milwaukee Institute of Art and Design located at 273 East Erie Street.

The MIAD catalogue identification number appears in parentheses following the Marquette course number. Students taking courses at MIAD must pay their fees for materials directly to MIAD before the start of classes.

### FIAR 003 (F120). Fundamentals of Drawing 3 sem. hrs.

A one semester course in which students meet twice weekly to develop their drawing skills. One half of the course places primary emphasis on depicting the human form; the other half places emphasis on depicting objects in space. While experimentation and imaginative probing are important and essential aspects of this course, the main thrust of the course is analytical seeing and drawing with traditional media. *Fee paid to MIAD.*

### FIAR 004 (F121). Fundamentals of Design 3 sem. hrs.

A one semester course that presents the basic elements and principles of two-dimensional design and color as a foundation for all the visual arts. The course broadens the beginning student's understanding of design in terms of concepts, methods and materials, and includes development and improvement of technical and media skills. The theory and application of line, shape, mass, texture, composition, and color are all explored through a variety of processes and materials. Systems of design, and making good ideas visual are emphasized. *Fee paid to MIAD.*

### FIAR 011 (F110). Two-Dimensional Composition 3 sem. hrs.

Two-Dimensional Composition is a problem solving course that presents the fundamental elements and principles of two-dimensional design as a foundation for all the visual arts. The course broadens the beginning student's understanding of composition in terms of concept, methods and materials and includes development and improvement of technical and media skills including computer graphics. The theory and application of visual elements including line, shape, value, mass, texture and color are explored. *Fee paid to MIAD.*

### FIAR 021 (F111). Color Theory/Composition 3 sem. hrs.

This course furthers the visual exploration begun in FIAR 011 with a concentration on color, one of the elements of design. The study of color theories in conjunction with studio problems allows the student to investigate the physical, perceptual and psychological properties of color. Color is explored as a phenomenon of light, as an optical occurrence, as pigment with specific mixing properties and as an element with powerful expressive and symbolic potential. Problem solving tools include traditional materials/mediums and the computer. *Prereq: FIAR 011. Fee paid to MIAD.*

### FIAR 031 (F130). Space, Form and Materials 3 sem. hrs.

Space, Form and Materials investigates three-dimensional visual experiences and the application of design principles to the creation of vital and expressive forms. Three-dimensional design techniques are studied through projects dealing with the development of ideas via handmade forms. Within the course, students receive an orientation to MIAD's 3-D lab which includes instruction in the proper and safe use of simple hand tools and power equipment. *Fee paid to MIAD.*

### FIAR 033, 034 (FA260, FA261) Intaglio sem. 1, sem. 2; 3 hrs. each sem.

Process, experimentation and craft issues are pursued in this introductory course. The basic vocabulary and technique necessary for future creative exploration are introduced at this level. *FIAR003 and 004 are prerequisites for FIAR 033. FIAR 033 is a prerequisite for FIAR034. Fee paid to MIAD.*

### FIAR 035, 036 (FA270, FA271) Lithography sem. 1, sem. 2; 3 hrs. each sem.

Courses cover the basic methods and techniques of fine art lithography. Students will work on stone and aluminum plates as part of the hand-process of lithography. The lithographic press will also be used in the technical aspect of lithographing. Direct drawing, transfer drawing, and photo transfer are examined. *FIAR 003 and 004 are prerequisites for FIAR 035. FIAR 035 is a prerequisite for FIAR 036. Fee paid to MIAD.*

### FIAR 037, 038 (FA230, FA231) Silkscreen sem. 1, sem. 2; 3 hrs. each sem.

In this introduction to the versatile screenprinting process, students learn about basic equipment, printing techniques, papers and a variety of stencil processes including the photographic stencil. Confidence in the use of color is encouraged through the use of both transparent and opaque water-based screenprinting inks. *FIAR003 and 004 are prerequisites for FIAR037. FIAR037 is a prerequisite for FIAR038. Fee paid to MIAD.*

### FIAR 051 (F150-F151). Visual Statement-Variable Titles 1.5 sem. hrs.

In Visual Statement, students are made aware of the interconnections which link the visual arts. The means of visual communication and artistic expression are examined. Each course emphasizes concept, process and creativity. Subject matter and media are exploited as a means of obtaining conceptual goals. *Fee paid to MIAD.*

**FIAR 061, 062 (FA220, FA221). Painting 1, 2**  
3 hrs. each sem.

*Painting 1:* Painting materials, techniques, theory and practice are explored by working in oil and acrylic from direct observation. Critiques, lectures, assignments and demonstrations support studio instruction enabling the student to conceive, comprehend and compose visual ideas within a stable pictorial space. *Prereq:* FIAR 003 and 004. *Fee paid to MIAD.*

*Painting 2:* "Imprimature" and glazing medium and techniques are introduced and practiced within traditional and alternative painting philosophies. Color theories, perception and formal principles provide the basis for directly observed studio assignments. Slide lectures, demonstrations and critiques assist in developing an expanded visual vocabulary. *Prereq:* FIAR 003, 004, and FIAR 061. *Fee paid to MIAD.*

**FIAR 063, 064 (FA200, FA201). Drawing**  
**sem. 1, sem. 2;** 3 hrs. each sem.

This drawing course challenges students with various compositional problems. Technical proficiency and diversity are enriched through the use of familiar drawing media as well as aggressive experimentation with new media and manners of working. Wide variety of drawing subjects, including the anatomy of the head and neck. *FIAR 003 and 004 are prerequisites for FIAR 063. FIAR 063 is a prerequisite for FIAR 064. Fee paid to MIAD.*

**FIAR 065, 066 (FA250, FA251). Sculpture**  
**sem. 1, sem. 2;** 3 hrs. each sem.

This year-long course focuses on form, material and structure while introducing a wide range of additive and reductive casting methods with hand and power tools. Problems investigate the potential of wood, assemblage, oxyacetylene and arc welding, and plastics carving. Sculptural concepts of static and kinetic structure, scale, light, illusion, objectness and function elaborate those of line, plane, volume and space. Creative problem solving will be furthered by slide lectures, demonstrations, group critiques, visiting artists and field trips. *FIAR 031 is a prerequisite for FIAR 065. FIAR 065 is a prerequisite for FIAR 066. Fee paid to MIAD.*

**FIAR 071, 072 (FA252, FA253). Figure Sculpture**  
**sem. 1, sem. 2;**  
3 hrs. each sem.

The first course in figurative sculpture is an introduction to the figure as a sculptural concern. Working from the figure, students learn a variety of basic techniques including the safe use of tools, modeling in both oil-based and terra cotta clays, molding, basic casting, carving, mounting and finishing. The figure also serves as a basis for resolving aesthetic questions in three dimensions. Through studying the figure, students begin to solve problems of composition, texture, line, scale and balance. Projects include both full and partial figure studies. *FIAR 003 and FIAR 031, or FIAR 004 and FIAR 031 are prerequisites for FIAR 071. FIAR 071 is a prerequisite for FIAR 072. Fee paid to MIAD.*

**FIAR 073, 074 (DS200, DS201)**  
**Communication Design 1, 2;**  
3 hrs. each sem.

Fundamentals of graphic design and the printing industry are introduced to the student with theoretical and applied studies in design, problem solving, communication and presentation. *FIAR 004 is a prerequisite for FIAR 073. FIAR 073 is a prerequisite for FIAR 074. Fee paid to MIAD.*

**FIAR 075 (FA280). Principles of Photography**  
3 sem. hrs.

An introduction to 35mm photography. This course covers basic principles of all forms of photography, with an emphasis on black and white photography. Projects encompass camera handling, film exposure and development, darkroom procedures, print finishing, and evaluation. Students investigate depth of field, motion, burning, dodging, spotting and print presentation. Students must have a 35mm camera with adjustable aperture and shutter speed controls and a light meter. *Fee paid to MIAD.*

**FIAR 076 (FA281). Language of Photography**  
3 sem. hrs.

This course introduces the basic formal and aesthetic "language" of photography. A variety of image making strategies and the expressive use of tonality, line, texture and composition are explored. Students investigate recognized photographers, gain more control over negative exposure and printing decisions, increase their powers of observation, and complete projects from problem creation to "finished" prints. *Prereq: FIAR 075. Fee paid to MIAD.*

**FIAR 180 (AH213). History of Modern Design**  
3 sem. hrs.

The course outlines major trends in graphic design, illustration, industrial design and interior design from the beginning of industrialization to the present day. Divided into three sections, the course traces the philosophical, social and cultural concerns of Victorian design, Art Nouveau, the Bauhaus, Art Deco, Pop Art and Post-Modernism within the context of the United States, Europe and Japan. *Prereq: HIST 007 and HIST 008. Fee paid to MIAD.*

**FIAR 182 (AH212). Art Since 1960** 3 sem. hrs.

This course offers an in-depth study of contemporary art makers and movements and the critical and social issues surrounding them. The course reviews major trends in art following World War II and follows with a close examination of art from the 1960s through the present day. *Prereq: HIST 007 and HIST 008. Fee paid to MIAD.*

**FIAR 183 (AH215). History of Photography**  
3 sem. hrs.

Students have the opportunity to study the origins and traditions of photography in both artistic and technological terms. The course will trace the evolution of photography from its beginnings in 1839 to the present. Major figures in photography will be studied and important critical and aesthetic issues examined. *Prereq: HIST 007 and HIST 008. Fee paid to MIAD.*

**FIAR 184 (AH216). History of Sculpture**  
3 sem. hrs.

This course is an examination of three-dimensional art with emphasis on the past 200 years. Focus on issues such as form and space, materials, figurative and non-figurative expressions, installations and performance will be examined. Students will also have the opportunity to study in depth the work of key figures in the history of sculpture. *Prereq: HIST 007 and HIST 008. Fee paid to MIAD.*

**FIAR 191 (DS230). Computer Studio 1**  
3 sem. hrs.

This course introduces students to the general structure of the Macintosh computing platform and engages them in an intensive tool- and function-based experience with the current versions of QuarkXPress and Adobe Illustrator. Digital pre-press fundamentals are also introduced. *Prereq: Jr. stndg. Fee paid to MIAD.*

**FIAR 192 (DS231). Computer Studio 2**  
3 sem. hrs.

The computer is introduced as a graphic design production tool. Students are guided through the workings of page layout, illustration and image processing programs. Through various assignments the student is given the opportunity to explore the creative potential of digital media. *FIAR 191 is a prerequisite for FIAR 192. Prereq: Jr. stndg. Fee paid to MIAD.*

## FOREIGN LANGUAGES AND LITERATURES

*Chairperson and Associate Professor:* Lacy Professors: Soto-Ruiz (*Emeritus*), Trifilo (*Emeritus*)

*Associate Professors:* Aguilú de Murphy, Benda, G. Carrillo, Castañeda, Coste, González-Pérez, Jamison, Kraemer, Lafouge, Marquardt, Montante, Pappanastos (*Emerita*), Pasero, Pustejovsky, Sánchez de la Calle, S. Taylor, Velleman  
*Assistant Professors:* Beall, Davies Cordova, Houston, Joda  
*Adjunct Instructors:* C. Carrillo, Escudero, Fossier, Isaac, Lencina, Sitzes, A. Tani  
*Lecturer:* Gettel

### MAJOR IN CLASSICAL LANGUAGES:

Twenty-nine hours, including fifteen hours in reading Latin beyond 002, eight hours in Greek 001 and 002, and six additional hours in Latin and/or Greek. Three hours may be taken in a classical culture/civilization course.

### MAJOR IN CLASSICAL STUDIES:

Thirty-six hours, including Latin 003 and 004 or Greek 003 and 004, History 007 and 131, Philosophy 112, and twenty-one elective hours in ancient languages, civilization or tradition.

### MAJOR IN FRENCH:

Twenty-seven hours, excluding courses 001 through 010, and including courses 040, 082, 182, 185 and 15 additional hours distributed as follows: three hours in literature prior to the 18th century (FREN 115, 116, 117); three hours in literature from the 18th century and later (FREN 118, 119, 120, 130); three hours in elective literature (any of the courses listed above,

plus FREN 129 and 198, when it has a literature topic); six hours elective credit in any courses 100 or above. A maximum of one course may be taken in English (FREN 101 or 148).

#### **MAJOR IN GERMAN:**

Twenty-seven hours, excluding courses 001 through 010, and including courses 040, 065, 082, 165, 182, and 12 additional hours in upper division courses. One course (101 or 148) in English may be counted toward the major.

#### **MAJOR IN SPANISH: SPANISH LANGUAGE AND LITERATURE:**

Twenty-seven hours, excluding courses 001 through 010, and including courses 050, 055, 056, 082, 100 or 102, 182, 193 or 194, and six additional hours in upper division Spanish courses, excluding 101, 148 and 158.

#### **MAJOR IN SPANISH: SPANISH FOR THE PROFESSIONS:**

Twenty-seven hours, excluding courses 001 through 010, and including courses 050, 055 or 056, 082, 100, 102, 103, 152, 153 and 182. Students might be allowed to take any other upper division literature course to fulfill the literature requirements, excluding 101, 148 and 158.

#### **MAJOR IN SPANISH: SPANISH LANGUAGE AND LITERATURE FOR THE BILINGUAL STUDENT**

Twenty-seven hours, excluding courses 001 through 082, and including courses 183, 184, 100 or 102, 193 or 194, and 15 additional hours in upper division courses, excluding 101, 148, 158 and 182.

#### **MINOR IN**

##### **CLASSICAL LANGUAGES:**

Eighteen to twenty hours, including six hours in reading Latin or Greek beyond 002, six to eight hours in the elementary or intermediate level of the other language, and six hours in further reading of Latin and/or Greek authors.

#### **MINOR IN**

##### **CLASSICAL STUDIES:**

Twenty-four hours, including Latin 003 and 004 or Greek 003 and 004, History 007 and 113, Philosophy 112, and nine elective hours in ancient languages, civilization, or tradition.

#### **MINOR IN FRENCH:**

Eighteen hours, excluding courses 001 through 010, and including courses 040, 082, 182, one literature elective (selected from FREN 115, 116, 117, 118, 119, 120, 129, 130, 198, when it has a literature topic), and two open electives. A maximum of one course may be taken in English (FREN 101 or 148).

#### **MINOR IN GERMAN:**

Fifteen hours, excluding courses 001 through 010, and including courses 040, 065, 082, and six additional hours in upper division courses. One course (101 or 148) in English may be counted toward the minor.

#### **MINOR IN SPANISH:**

##### **SPANISH LANGUAGE AND LITERATURE**

Fifteen hours, excluding courses 001 through 010, and including courses 050, 055 or 056, 082, 100 or 102, and three additional hours in 100 level Spanish courses, excluding 101, 148 and 158.

##### **SPANISH FOR THE PROFESSIONS**

Fifteen hours, excluding courses 001 through 010, and including courses 050, 082, 100 or 102, 152 or 153, and three additional hours in the 100 level courses, excluding 101, 148 and 158.

##### **SPANISH LANGUAGE AND LITERATURE FOR THE BILINGUAL STUDENT**

Fifteen hours, excluding courses 001 through 082, and including one civilization course (100, 102 or 103), 183, 184, and six additional hours in 100 level courses, excluding 101, 148, 158 and 182.

#### **TEACHING MAJORS:**

Students should see the specific language adviser for secondary teaching majors or minors to consult about the appropriate sequence of courses. It is also important that prospective teachers see the School of Education adviser and study carefully the School of Education section of this bulletin regarding university and state requirements (in addition to department requirements) for teacher certification.

Please refer to "Core Curriculum requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this Bulletin.

#### **TEACHING MAJOR IN FRENCH:**

Residence and study in a French-speaking country in addition to 34 hours, including courses 040, 082, 100, 142, 182, 185, one course in French literature up to the end of the 17th century, one course in French literature from the 18th century, one course in Francophone literature, and one open elective (excluding FREN 101 and 148). Work done in French prior to commencement of the academic major may be counted toward fulfillment of the remaining four hours required for the state certification upon the expressed approval of the department.

#### **TEACHING MAJOR IN GERMAN:**

Thirty-four hours, including courses 040, 065, 082, 100, 142, 165, 182, 185, and three additional hours in other upper division courses excluding 148. Work done in German prior to commencement of the academic major may be counted toward fulfillment of the remaining seven hours required for state certification upon the expressed approval of the department.

Candidates for student teaching must demonstrate competence in German before being allowed to register for EDUC 175. Since such competence is not necessarily demonstrated by performance in course work, the German section gives a competency test in the semester preceding the planned student teaching. The purpose of this test is to obtain a final

evaluation of the candidate's ability to understand and produce German, to read and write the language, and to understand the structure of the language. Additionally an evaluation is made of the candidate's familiarity with current German culture.

To prepare students for this test, the German section will be offering a colloquium on a monthly basis. This colloquium will undertake an on-going evaluation of the candidates' abilities in the above areas, and provide practice and help in developing these areas. Students should inquire about this colloquium as soon as they decide to work for a Teaching Major in German. This will be required even of those students who have spent an extended period in a German-speaking country.

#### **TEACHING MAJOR IN LATIN:**

Thirty-four hours, including courses 055, 056, 121, 182, and 12 hours in other upper division courses. Work done prior to commencement of the academic major may be counted toward fulfillment of the remaining 10 hours required for state certification upon the expressed approval of the department.

#### **TEACHING MAJOR IN SPANISH:**

Thirty-four hours, including courses 050; 055; 056; 082; 100 or 102; 142; 182; 185; 193 or 194, and three additional hours in upper division Spanish literature courses. These three hours should be taken in the following areas: literature of the 17th century or earlier, literature of either the 19th or 20th century. Work done prior to the commencement of the academic major may be counted toward fulfillment of the remaining four hours required for state certification upon expressed approval of the department.

Students with an exceptionally strong background in literary study may, with consent of the Chair, substitute a 100 level course for SPAN 050. (Students who are bilingual or native speakers take SPAN183 and 184 instead of SPAN082 and 182.)

#### **TEACHING MAJOR IN SPANISH FOR THE BILINGUAL STUDENT:**

Thirty-four hours, including courses 100 or 102, 142, 183, 184, 185, 193 or 194, two upper-division literature electives, and two additional upper-division electives. The two literature courses should be taken in the following areas: literature of the 17th century or earlier, literature of either the 19th or 20th century. Work done prior to the commencement of the academic major may be counted toward fulfillment of the remaining hours required for state certification upon expressed approval of the department.

#### **TEACHING MINOR IN LATIN:**

Twenty-two hours, including courses 055, 056, 182, and six hours in other upper division courses exclusive of courses in translation. Intermediate courses or their equivalents may be counted as part of the remaining seven hours required for state certification.

*NOTE:* Students wishing state certification in French, German, or Spanish also need the regular teacher education sequence: 27 hours, including the special methods course (FOLA 162), and student teaching. Teaching Majors in French, German, or Spanish must also meet the following requirements:

1. Maintenance of a minimum B average in the language skill courses (082, 142, 182, 185).
2. Recommendation by the department before being permitted to student teach. Passing a competency examination is the normal requirement for recommendation. Students should consult their advisers and be familiar with the requirements of the School of Education.

The state also requires a period of residence in a country in which the foreign language is spoken or participation in an intensive program approved by the Department of Foreign Languages and Literatures.

## Foreign Language (FOLA)

### FOLA098. Topics in Foreign Language or Culture 1-3 sem. hrs.

An umbrella course to offer occasional additional lower division topics in those languages which have limited offerings (Italian, Japanese) or for occasions where a specific subject matter fits under none of the languages presently offered, either because it is cross-language or the language/culture is not a regular part of our curriculum. Offered occasionally.

### FOLA148. Special Topics in Women's Literature\* 3 sem. hrs.

Offers instruction in a major area of literary study concerned with women writers and/or women's issues in foreign literatures. Offered occasionally. *Comment: Counts toward Women's Studies Minor.*

\*May be counted as part of the literature core curriculum requirement but not as part of the foreign language requirement.

### FOLA162. Methods of Teaching a Second Language 3 sem. hrs.

Theory and technique of classroom presentation, in addition to clinical experience in high school or college setting. Required of all foreign language teaching majors and minors. Clinical experience requirement: three hours per week for a total of 40 hours. Offered alternate years. *Prereq: EDUC 095; Admission to School of Education required.*

### FOLA195. Independent Study 1-3 sem. hrs.

Offered every semester. *Prereq: Cons. of dept.ch.*

### FOLA196. Undergraduate Seminar 1-3 sem. hrs.

Designed to initiate qualified undergraduates in the techniques and discipline of scholarly literary or linguistic research by concentrated work in an interdisciplinary field. Emphasis on the critical reading and analysis of primary and/or secondary sources in English translation. Specific subjects of seminar to be announced in the *Timetable of Classes*. Does not count toward fulfillment of academic or teaching major or minor. Offered occasionally. *Prereq: Jr. stndg. or cons. of dept. ch.*

## French (FREN)

### FREN 001. Elementary 1 4 sem. hrs.

Introduction to the French language. Fundamentals of comprehension, speaking, reading and writing. No previous study of French or by departmental placement. Offered annually.

### FREN 002. Elementary 2 4 sem. hrs.

Continuation of FREN 001, plus supplementary reading. Offered annually. *Prereq: FREN 001.*

### FREN 003. Intermediate 1 3 sem. hrs.

Grammar review, oral and written practice, and more intensive reading. Offered annually. *Prereq: FREN 002 or by departmental placement.*

### FREN 004. Intermediate 2 3 sem. hrs.

Continuation of French 003. Offered annually. *Prereq: FREN 003.*

### FREN 005. French Placement Credit

3 or 6 sem. hrs.

A student who places at FREN 010 and completes FREN 010 with a grade of B or better will be eligible for three additional credit hours at a grade of S to be designated as FREN 005. Students exempted from the foreign language requirement will be eligible for six additional credit hours at a grade of S to be designated as FREN 005 upon completion with a grade of B or better of a third year course to be designated by the department. For details see "Foreign Language Requirement" under "Arts and Sciences Degree Requirements."

### FREN 010. Concentrated Intermediate French 4 sem. hrs.

Selective grammar review with conversation and extensive reading. Aimed to give qualified students the opportunity to complete their foreign language requirement in one semester. Offered annually. *Prereq: AB grade or better in FREN 002 or by departmental placement.*

### FREN 040. Developing Critical Reading Skills in French 3 sem. hrs.

Intensive practice in reading comprehension of authentic contemporary French texts. Vocabulary enrichment. May not be counted as part of the Arts and Sciences literature core requirement. Offered every semester. *Prereq: FREN 004 or FREN 010 or by departmental placement.*

### FREN 082. Composition and Conversation 1 3 sem. hrs.

Practice in the oral and written use of the French language. Systematic review of grammatical structure and idiomatic expression. Offered every semester. *Prereq: FREN 004 or 010 or by departmental placement.*

### FREN 083. Conversational French 1 sem. hr.

Students meet once weekly for two hours. Guided conversation on contemporary topics. S/U grading only. May be taken up to three times. Does not count toward French major or minor or teaching major. Offered every semester. *Prereq: FREN 082.*

### FREN 100. French Civilization† 3 sem. hrs.

Historical development of the social, institutional, intellectual, and artistic life of France from inception to the present. Duplicate

credit will not be given for FREN 100 and FREN 101. Offered annually. *Prereq: FREN 040 or by departmental placement.*

### FREN 101. French Contributions to Western Civilization† 3 sem. hrs.

Historical development of the social, institutional, intellectual and artistic life of France from inception to the present. In English. Duplicate credit will not be given for FREN 100 and FREN 101. May not be counted toward fulfillment of teaching major. Offered occasionally.

### FREN 115. The Middle Ages (1050-1450) 3 sem. hrs.

Major aspects of the period through literature, the arts and film (in modern French). Offered occasionally. *Prereq: FREN 040 and 082 (FREN 082 may be taken concurrently).*

### FREN 116. Sixteenth Century Literature 3 sem. hrs.

Major aspects of the Renaissance through literature, the arts and film. Offered occasionally. *Prereq: FREN 040 and 082 (FREN 082 may be taken concurrently).*

### FREN 117. Seventeenth Century Literature 3 sem. hrs.

Major aspects of French Classicism through literature, the arts and film. Offered occasionally. *Prereq: FREN 040 and 082 (FREN 082 may be taken concurrently).*

### FREN 118. Eighteenth Century Literature 3 sem. hrs.

Major aspects of the Enlightenment through literature, the arts and film. Offered occasionally. *Prereq: FREN 040 and 082 (FREN 082 may be taken concurrently).*

### FREN 119. Nineteenth Century Literature 3 sem. hrs.

Major aspects of the period through literature, the arts and film. Offered occasionally. *Prereq: FREN 040 and 082 (FREN 082 may be taken concurrently).*

### FREN 120. Twentieth Century Literature 3 sem. hrs.

Major aspects of the period through literature, the arts and film. Offered occasionally. *Prereq: FREN 040 and 082 (FREN 082 may be taken concurrently).*

### FREN 129. Film as Genre 3 sem. hrs.

The examination and analysis of French cinema as it relates to literary genres and thematic motifs. Offered occasionally. *Prereq: FREN 040 and 082 (082 may be taken concurrently.)*

### FREN 130. French Canadian Culture through Literature 3 sem. hrs.

"Quebecois" and "Acadian" cultures in the Americas as interpreted by their histories, languages, literatures and arts. Offered occasionally. *Prereq: FREN 040 and 082 (FREN 082 may be taken concurrently).*

### FREN 134. Practicum in French/Francophone Theatre 3 sem. hrs.

Study of a French/Francophone dramatist and production of a play. Offered occasionally. *Prereq: FREN 182.*

**FREN 142. Phonetics** 3 sem. hrs.

Articulation of French individual sounds and speech patterns. Offered alternate years.

*Prereq: FREN082.*

**FREN 148. French Literature in English Translation\*** 3 sem. hrs.

Readings in English translation of selected masterpieces of French and Francophone literature. May not be counted toward fulfillment of teaching major. Offered occasionally.

**FREN 152. French for the Professions** 3 sem. hrs.

An introduction to French terminology and practice in such fields as business, journalism, communications, etc. Offered occasionally.

*Prereq: FREN 082.*

**FREN 153. Advanced French for the Professions** 3 sem. hrs.

Advanced French for international business in the French-speaking world. Offered occasionally. *Prereq: FREN 152.*

**FREN 182. Composition and Conversation 2** 3 sem. hrs.

Advanced study of oral and written French. Emphasis on idiomatic fluency. Offered annually. *Prereq: FREN 082 or by departmental placement.*

**FREN 185. Advanced Grammar** 3 sem. hrs.

Intense review of the morphology and syntax of written and oral standard French. Offered annually. *Prereq: FREN 182.*

**FREN 195. Independent Study** 1-3 sem. hrs.

Offered every semester. *Prereq: Cons. of dept.ch.*

**FREN 198. Topics in Language and Literature** 1-3 sem. hrs.

Subject to be announced. Offered occasionally. *Prereq: FREN040 and at least one literature course; or cons. of instr.*

**FREN 199. Senior Thesis** 2 sem. hrs.

Introductory thesis guidance for approved students under the direction of a departmental adviser. Offered occasionally. *Prereq: Cons. ofdept. ch.*

†May be counted toward the core curriculum requirement in Fine Arts.

\*May be counted as part of the literature core curriculum requirement but not as part of the foreign language requirement.

## German (GERM)

**GERM001. Elementary 1** 4 sem. hrs.

Introduction to the German language. Fundamentals of comprehension, speaking, reading and writing. Open to students with no previous study of German or by departmental placement. Offered fall semester.

**GERM002. Elementary 2** 4 sem. hrs.

Continuation of GERM 001, plus supplementary reading. Offered spring semester. *Prereq: GERM 001.*

**GERM003. Intermediate 1** 3 sem. hrs.

Grammar review, oral and written practice, and more intensive reading. Offered fall semester. *Prereq: GERM 002 or by departmental placement.*

**GERM004. Intermediate 2** 3 sem. hrs.

Continuation of GERM 003. Offered spring semester. *Prereq: GERM 003.*

**GERM005. German Placement Credit** 3 or 6 sem. hrs.

A student who places at GERM 010 and completes GERM 010 with a grade of B or better will be eligible for three additional credit hours at a grade of S to be designated as GERM 005. Students exempted from the foreign language requirement will be eligible for six additional credit hours at a grade of S to be designated as GERM 005 upon completion with a grade of B or better of a third year course to be designated by the department. For details see "Foreign Language Requirement" under "Arts and Sciences Degree Requirements."

**GERM010. Concentrated Intermediate German** 4 sem. hrs.

Selective grammar review with conversation and extensive reading. Aimed to give qualified students the opportunity to complete their foreign language requirement in one semester. Offered annually. *Prereq: AB grade or better in GERM 002 or by departmental placement.*

**GERM040. Intensive Critical Reading in German** 3 sem. hrs.

Intensive practice in comprehending unedited German prose, with primary emphasis on texts since the Enlightenment. Vocabulary enhancement. May not be counted as part of the Arts and Sciences literature core requirement. Offered occasionally. *Prereq: GERM 004 or 010 or by departmental placement.*

**GERM065. The Modern German Short Story** 3 sem. hrs.

An introduction to textual analysis and interpretation concentrating on the post-World War II German short story in historical and cultural context. Offered annually. *Prereq: GERM 040, which may be taken concurrently, or cons. of dept. ch.*

**GERM082. Composition and Conversation 1** 3 sem. hrs.

Practice in the oral and written use of the German language. Offered every semester. *Prereq: GERM 004 or 010, or cons. of dept. ch. or by departmental placement.*

**GERM100. Culture and Civilization†** 3 sem. hrs.

Historical development of the social, intellectual and artistic life of the German speaking nations. Duplicate credit will not be given for GERM 100 and GERM 101. Offered occasionally. *Prereq: GERM 004 or 010 or by departmental placement.*

**GERM101. German Contributions to Western Civilization†** 3 sem. hrs.

Readings in English translation dealing with the culture and civilization of German speaking countries. Duplicate credit will not be given for GERM 100 and GERM 101. May not be counted toward fulfillment of academic or teaching major or minor. Offered occasionally.

**GERM126. German Drama** 3 sem. hrs.

Significant German drama from Lessing to the present. Offered occasionally. *Prereq: GERM 065.*

**GERM135. The German Novelle** 3 sem. hrs.

Novelle: the genre and representative works. Offered occasionally. *Prereq: GERM 065.*

**GERM142. Phonetics and Advanced Speaking Practice** 3 sem. hrs.

German sounds and speech patterns. Offered alternate years. *Prereq: GERM 082.*

**GERM148. German Literature in English Translation\*** 3 sem. hrs.

Readings in English translation of principal authors from the Middle Ages to the present day. Offered occasionally.

**GERM 152. German for the Professions** 3 sem. hrs.

An introduction to German terminology and practice in such fields as business, journalism, communications, etc. Offered occasionally. *Prereq: GERM 082, or cons. of dept. ch.*

**GERM165. Special Topics in German Literature** 3 sem. hrs.

Survey of selected themes, forms or periods in German literature. Subject to be announced. Offered annually. *Prereq: GERM065 and Jr. stndg.*

**GERM172. Workshop in Translation** 1 sem. hrs.

A practical workshop to familiarize advanced students with the problems of and processes required in translating from German to English. Different non-literary texts supplied by outside sources will be assigned to each student. Discussions will involve general principles of translating, as well as text-specific problems. *Prereq: Cons. of instr.*

**GERM182. Composition and Conversation 2** 3 sem. hrs.

Continuation of GERM 082. Offered annually. *Prereq: GERM 082 or by departmental placement.*

**GERM185. Advanced Grammar** 3 sem. hrs.

Grammatical structure of the German language in context with other linguistic areas. Offered annually. *Prereq: GERM 082.*

**GERM190. German Literature from the Twelfth to the Eighteenth Centuries** 3 sem. hrs.

Principal works of the Medieval, Renaissance, and Baroque periods. Offered occasionally. *Prereq: GERM 065.*

**GERM191. Eighteenth Century Literature** 3 sem. hrs.

Authors and works of the Enlightenment, Storm and Stress, and Classicism, including Goethe's late works. Offered occasionally. *Prereq: GERM 065.*

**GERM192. Nineteenth Century Literature** 3 sem. hrs.

Romanticism and Realism. Offered occasionally. *Prereq: GERM 065.*

**GERM193. Modern Literary Trends 1** 3 sem. hrs.

Naturalism, Neo-Romanticism and Expressionism. Offered occasionally. *Prereq: GERM 065.*

**GERM194. Modern Literary Trends 2** 3 sem. hrs.

German literature since World War I. Offered occasionally. *Prereq: GERM 065.*

**GERM195. Independent Study** 1-3 sem. hrs.

Offered every semester. *Prereq: Cons of dept ch.*

**GERM198. Topics in Language or Literature**

1-3 sem. hrs.

Subject to be announced. Offered occasionally.

*Prereq: Sr. stndg. or cons. of dept. ch.***GERM199. Senior Thesis** 2 sem. hrs.Introductory thesis guidance for approved students under the direction of a departmental adviser. Offered occasionally. *Prereq: Cons. of dept. ch.*

†May be counted toward the core curriculum requirement in Fine Arts.

\*May be counted as part of the literature core curriculum requirement, but not as part of the foreign language requirement.

## Greek (GREE)

**GREE001. Elementary 1** 4 sem. hrs.

Classical Greek. Morphology and syntax. Readings. No previous study of Greek or by departmental placement. Offered annually.

**GREE002. Elementary 2** 4 sem. hrs.Continuation of GREE 001. Offered annually. *Prereq: GREE 001.***GREE003. Intermediate 1** 3 sem. hrs.Review of morphology and syntax. Extensive reading. Offered annually. *Prereq: GREE 002 or by departmental placement.***GREE004. Intermediate 2** 3 sem. hrs.Continuation of GREE 003. Offered annually. *Prereq: GREE 003 or by departmental placement.***GREE 005. Greek Placement Credit**

3 sem. hrs.

A student who places at GREE 004 and completes GREE 004 with a grade of B or better will be eligible for three additional credit hours at a grade of S to be designated as GREE 005. For details see "Foreign Language Requirement" under "Arts and Sciences Degree Requirements."

**GREE009. Greek and Latin Origins of Medical and Specialized Terminology** 2 sem. hrs.

Systematic presentation of the most common Greek and Latin words whose derivations are important in medical, scientific, and specialized terminology, such as that of psychology and law. Exercises in word-building and analysis of definitions. Study of prefixes, suffixes, and word roots. Knowledge of Greek or Latin not required. Does not fulfill any core curriculum requirements. Offered occasionally.

**GREE108. Greek and Roman Epic Poetry\*** 3 sem. hrs.

Origins and development, with readings in translation of the individual works of Homer, Apollonius of Rhodes and Vergil. Knowledge of Greek not required. Offered occasionally.

Greek and Latin literary masterpieces in translation. The classical tradition in European literature. Knowledge of Greek not required. Offered occasionally.

**GREE138. Greek and Roman Literature in English Translation\*** 3 sem. hrs.

Readings in English translation from Greek and Latin authors. Knowledge of Greek not required. Offered occasionally.

**GREE 148. Greek and Roman Tragedy\*** 3 sem. hrs.

Origins and development, with readings in translation of individual plays of Aeschylus, Sophocles, Euripides, and Seneca. Knowledge of Greek not required. Offered occasionally.

**GREE 158. Greek and Roman Comedy\*** 3 sem. hrs.

Origins and development, with readings in translation of the individual plays of Aristophanes, Menander, Plautus and Terence. Knowledge of Greek not required. Offered occasionally.

**GREE 170. Greek Civilization and Art†** 3 sem. hrs.

Life in ancient Greece. Major achievements of the Greeks in the creative arts. Knowledge of Greek not required. Offered occasionally.

**GREE175. Mythology\*** 3 sem. hrs.

Classical myths and legends in ancient literature and religion. Knowledge of Greek not required. Offered occasionally.

**GREE 178. Greek and Roman Rhetoric\*** 3 sem. hrs.

Origins and development, with readings in translation of the individual works of Aristotle, Cicero, Seneca Rhetor, Antiphon, Lysias, Demosthenes and others. Knowledge of Greek not required. Offered occasionally.

**GREE195. Independent Study** 1-3 sem. hrs.Offered every semester. *Prereq: Cons. of dept. ch.***GREE198. Topics in Language and Literature** 1-3 sem. hrs.Subject to be announced. Offered occasionally. *Prereq: Sr. stndg. or cons. of dept. ch.*

†May be counted toward the core curriculum requirement in Fine Arts.

\*May be counted as part of the literature core curriculum requirement, but not as part of the foreign language requirement.

## Hebrew (HEBR)

**HEBR 001. Elementary 1** 4 sem. hrs.

Biblical Hebrew. Morphology and syntax, readings. No previous study of Hebrew or by department placement. Offered annually.

**HEBR 002. Elementary 2** 4 sem. hrs.Continuation of Hebrew 001. Offered annually. *Prereq: HEBR 001, or by departmental placement.***HEBR 003. Intermediate 1** 3 sem. hrs.Review of morphology and syntax. Extensive reading. Offered annually. *Prereq: HEBR 002, or by departmental placement.***HEBR 004. Intermediate 2** 3 sem. hrs.Continuation of Hebrew 003. Offered annually. *Prereq: HEBR 003, or by departmental placement.*

## Italian (ITAL)

**ITAL001. Elementary 1** 4 sem. hrs.

Introduction to the Italian language. Fundamentals of comprehension, speaking, reading and writing. No previous study of Italian or by departmental placement. Offered annually.

**ITAL002. Elementary 2** 4 sem. hrs.Continuation of ITAL001 plus supplementary reading. Offered annually. *Prereq: ITAL001.***ITAL003. Intermediate 1** 3 sem. hrs.Grammar review, oral and written practice, and more intensive reading. Offered annually. *Prereq: ITAL002 or by departmental placement.***ITAL004. Intermediate 2** 3 sem. hrs.Continuation of ITAL 003. Offered annually. *Prereq: ITAL 003 or by departmental placement.***ITAL005. Italian Placement Credit** 3 or 6 sem. hrs.

A student who places at ITAL004 and completes ITAL004 with a grade of B or better will be eligible for three additional credit hours at a grade of S to be designated as ITAL005. Students exempted from the foreign language requirement will be eligible for six additional credit hours at a grade of S to be designated as ITAL005 upon completion with a grade of B or better of a third year course to be designated by the department. For details see "Foreign Language Requirement" under "Arts and Sciences Degree Requirements."

**ITAL055. Italian Literature 1** 3 sem. hrs.Italian literature from its origin to the end of the 17th century. The course will focus mainly on the Italian great "trecentisti": Dante, Petrarch, and Boccaccio. Offered occasionally. *Prereq: ITAL004 or by departmental placement.***ITAL056. Italian Literature 2** 3 sem. hrs.Continuation of ITAL055. Italian literature from the 18th century to the present. Main focus on A. Manzoni, G. Verga, L. Pirandello, and I. Silone. Offered occasionally. *Prereq: ITAL 004 or by departmental placement.***ITAL082. Composition and Conversation** 3 sem. hrs.Practice in the oral and written use of the Italian language. Offered occasionally. *Prereq: ITAL004 or by departmental placement.***ITAL101. Italian Contributions to Western Civilization†** 3 sem. hrs.

Readings and lectures in English dealing with the culture and civilization of Italy. Offered occasionally.

**ITAL148. Italian Literature in English Translation\*** 3 sem. hrs.

Readings in English translation of selected masterpieces of Italian literature. Offered occasionally.

†May be counted toward the core curriculum requirement in Fine Arts.

\*May be counted as part of the literature core curriculum requirement, but not as part of the foreign language requirement.

## Japanese (JAPA)

### JAPA 001. Elementary 1 4 sem. hrs.

Introduction to the Japanese language Fundamentals of comprehension, speaking, reading and writing. No previous study of Japanese or by departmental placement. Offered annually.

### JAPA 002. Elementary 2 4 sem. hrs.

Continuation of JAPA 001. Offered annually. *Prereq: JAPA 001.*

### JAPA 003. Intermediate 1 3 sem. hrs.

Grammar review, oral and written practice, and more intensive reading. Offered annually. *Prereq: JAPA 002 or by departmental placement.*

### JAPA 004. Intermediate 2 3 sem. hrs.

Continuation of JAPA 003. Offered annually. *Prereq: JAPA 003 or by departmental placement.*

### JAPA 005. Japanese Placement Credit

3 or 6 sem. hrs.

A student who places at JAPA 004 and completes JAPA 004 with a grade of B or better will be eligible for three additional credit hours at a grade of S to be designated as JAPA 005. Students exempted from the foreign language requirement will be eligible for six additional credit hours at a grade of S to be designated as JAPA 005 upon completion with a grade of B or better of a third year course to be designated by the department. For details see "Foreign Language Requirement" under "Arts and Sciences Degree Requirements."

### JAPA 082. Composition and Conversation 1 3 sem. hrs.

Practice in the oral and written use of the Japanese language. Offered occasionally. *Prereq: JAPA 004 or by departmental placement.*

### JAPA 101. Japanese Culture and Civilization† 3 sem. hrs.

Readings and lectures in English dealing with the culture and civilization of Japan. Offered occasionally.

### JAPA 148. Japanese Literature in English Translation\* 3 sem. hrs.

Readings in English translation of selected masterpieces of Japanese literature. Offered occasionally.

### JAPA 182. Composition and Conversation 2 3 sem. hrs.

Continuation of JAPA 082. Offered occasionally. *Prereq: JAPA 082 or by departmental placement.*

†May be counted toward the core curriculum requirement in Fine Arts.

\*May be counted as part of the literature core curriculum requirement, but not as part of the foreign language requirement.

## Latin (LATI)

### LATI 001. Elementary 1 4 sem. hrs.

Classical Latin. Morphology and syntax. Readings. No previous study of Latin or by departmental placement. Offered annually.

### LATI 002. Elementary 2 4 sem. hrs.

Continuation of LATI 001. Offered annually. *Prereq: LATI 001.*

### LATI 003. Intermediate 1 3 sem. hrs.

Review of morphology and syntax. Extensive reading. Offered annually. *Prereq: LATI 002 or by departmental placement.*

### LATI 004. Intermediate 2 3 sem. hrs.

Continuation of LATI 003. Offered annually. *Prereq: LATI 003 or by departmental placement.*

### LATI 005. Latin Placement Credit

3 or 6 sem. hrs.

A student who places at LATI 004 and completes LATI 004 with a grade of B or better will be eligible for three additional credit hours at a grade of S to be designated as LATI 005. Students exempted from the foreign language requirement will be eligible for six additional credit hours at a grade of S to be designated as LATI 005 upon completion with a grade of B or better of a third year course to be designated by the department. For details see "Foreign Language Requirement" under "Arts and Sciences Degree Requirements."

### LATI 009. Greek and Latin Origins of Medical and Specialized Terminology 2 sem. hrs.

Systematic presentation of the most common Greek and Latin words whose derivations are important in medical, scientific, and specialized terminology, such as that of psychology and law. Exercises in word-building and analysis of definitions. Study of prefixes, suffixes, and wordroots. Knowledge of Greek or Latin not required. Does not fulfill any core curriculum requirements. Offered occasionally.

### LATI 055. Latin Literature 1 3 sem. hrs.

Latin literature from its origin to the end of the Republic. Offered annually. *Prereq: LATI 004 or by departmental placement.*

### LATI 056. Latin Literature 2 3 sem. hrs.

Continuation of LATI 055: Latin literature in the Golden and Silver Ages. Offered annually. *Prereq: LATI 004 or by departmental placement.*

### LATI 105. Cicero: De Senectute and De Amicitia 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 108. Greek and Roman Epic Poetry\* 3 sem. hrs.

See GREE 108. Knowledge of Latin not required. Offered occasionally.

### LATI 110. Vergil: Aeneid 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 112. Horace: Odes 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 113. Livy 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 118. Classical Foundations of European Literature\* 3 sem. hrs.

See GREE 118. Knowledge of Latin not required. Offered occasionally.

### LATI 121. Quintilian: Institutio Oratoria 3 sem. hrs.

Required for teaching majors. Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 133. Roman Letter Writers 3 sem. hrs.

Selections from the letters of Cicero, Seneca, and Pliny. Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 134. Elegiac Poetry 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 138. Greek and Roman Literature in English Translation\* 3 sem. hrs.

Readings in English translation from Greek and Latin authors. Knowledge of Latin not required. Offered occasionally.

### LATI 148. Greek and Roman Tragedy\* 3 sem. hrs.

See GREE 148. Knowledge of Latin not required. Offered occasionally.

### LATI 150. Roman Comedy: Plautus and Terence 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 155. Roman Satire: Juvenal 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 158. Greek and Roman Comedy\* 3 sem. hrs.

See GREE 158. Knowledge of Latin not required. Offered occasionally.

### LATI 160. Tacitus: Germania and Agricola 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 170. Roman Civilization and Art† 3 sem. hrs.

Life in ancient Rome. Major achievements of the Romans in the creative arts. Knowledge of Latin not required. Offered occasionally.

### LATI 174. Cicero: Philosophical Writings 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 175. Mythology\* 3 sem. hrs.

See GREE 175. Knowledge of Latin not required. Offered occasionally.

### LATI 178. Greek and Roman Rhetoric\* 3 sem. hrs.

See GREE 178. Knowledge of Latin not required. Offered occasionally.

### LATI 182. Composition 3 sem. hrs.

Systematic review of Latin syntax. Exercises in writing Latin prose and analysis of prose of selected authors. Offered occasionally. *Prereq: LATI 055 and 056.*

### LATI 185. Medieval Latin 3 sem. hrs.

Offered occasionally. *Prereq: LATI 055 or 056.*

### LATI 195. Independent Study 1-3 sem. hrs.

Offered every semester. *Prereq: Cons. of dept. ch.*

### LATI 198. Topics in Language or Literature 1-3 sem. hrs.

Subject to be announced. Offered occasionally. *Prereq: Sr. stndg. or cons. of dept. ch.*

### LATI 199. Senior Thesis 2 sem. hrs.

Introductory thesis guidance for approved students under the direction of a departmental adviser. Offered occasionally. *Prereq: Cons. of dept. ch.*

†May be counted toward the core curriculum requirement in Fine Arts.

\*May be counted as part of the literature core curriculum requirement, but not as part of the foreign language requirement. Only one literature course in translation may be counted toward fulfillment of the academic or teaching major in Classical Languages and Latin.

## Spanish (SPAN)

### **SPAN 001. Elementary 1\*\*** 4 sem. hrs.

Introduction to the Spanish language. Fundamentals of comprehension, speaking, reading and writing. No previous study of Spanish or by departmental placement. Offered every semester.

### **SPAN 002. Elementary 2\*\*** 4 sem. hrs.

Continuation of SPAN 001 plus supplementary reading. Offered every semester. *Prereq:* SPAN 001.

### **SPAN 003. Intermediate 1\*\*** 3 sem. hrs.

Grammar review, oral and written practice, and more intensive reading. Offered every semester. *Prereq:* SPAN 002 or by departmental placement.

### **SPAN 004. Intermediate 2\*\*** 3 sem. hrs.

Continuation of SPAN 003. Offered every semester. *Prereq:* SPAN 003.

### **SPAN 005. Spanish Placement Credit**

3 or 6 sem. hrs.

A student who places at SPAN 010 and completes SPAN 010 with a grade of B or better will be eligible for three additional credit hours at a grade of S to be designated as SPAN 005. Students exempted from the foreign language requirement will be eligible for six additional credit hours at a grade of S to be designated as SPAN 005 upon completion with a grade of B or better of a third year course to be designated by the department. For details see "Foreign Language Requirement" under "Arts and Sciences Degree Requirements."

### **SPAN 010. Concentrated Intermediate Spanish\*\*** 4 sem. hrs.

Selective grammar review with conversation and extensive reading. Aimed to give qualified students the opportunity to complete their foreign language requirement in one semester. Offered every semester. *Prereq:* AB grade or better in SPAN 002 or by departmental placement.

### **SPAN 050. Introduction to Hispanic Literature\*** 3 sem. hrs.

Basic literary concepts and analysis of the four genres, with intensive practice in reading and oral comprehension. Offered annually. Counts as part of the Arts and Sciences literature requirement. Not open to native speakers or bilingual Spanish speaking students. *Prereq:* SPAN 004 or 010 or cons. of the dept. ch. or by departmental placement. SPAN 082 is strongly recommended.

### **SPAN 055. Spanish Literature 1** 3 sem. hrs.

Spanish literature from its origin to the end of the 17th century. Not open to native speakers or bilingual Spanish speaking students. Offered annually. *Prereq:* SPAN 050 or cons. of dept. ch.

### **SPAN 056. Spanish Literature 2** 3 sem. hrs.

Continuation of SPAN 055: Spanish literature from the 18th century to the present. Not open to native speakers or bilingual Spanish speak-

ing students. Offered annually. *Prereq:* SPAN 050 or cons. of dept. ch.

### **SPAN 082. Composition and Conversation 1\*\*** 3 sem. hrs.

Practice in the oral and written use of the Spanish language. Not open to native speakers or bilingual Spanish speaking students. Offered every semester. *Prereq:* SPAN 004 or 010 or by departmental placement.

### **SPAN 100. Spanish Civilization†** 3 sem. hrs.

Historical development of the culture and civilization of Spain from early times to the present. Duplicate credit will not be given for SPAN 100 and SPAN 101. Offered annually. *Prereq:* SPAN 004 or 010 or by departmental placement.

### **SPAN 101. Hispanic Contributions to Western Civilization†** 3 sem. hrs.

Readings in English translation dealing with the culture and civilization of Spain and Spanish America. Duplicate credit will not be given for SPAN 100 and SPAN 101, or for SPAN 102 and SPAN 101. May not be counted toward fulfillment of academic or teaching major or minor. Offered occasionally.

### **SPAN 102. Spanish-American Civilization†** 3 sem. hrs.

Historical development of the culture and civilization of Spanish America from early times to the present. Duplicate credit will not be given for SPAN 101 and SPAN 102. Offered annually. *Prereq:* SPAN 004 or 010 or by departmental placement.

### **SPAN 103. Contemporary Issues in the Hispanic World** 3 sem. hrs.

Lecture and discussion in Spanish at an advanced level of current Hispanic topics and issues pertaining to such areas as culture, business, education, politics and history. Offered annually. *Prereq:* SPAN 100 or 102.

### **SPAN 125. Golden Age Drama and Poetry** 3 sem. hrs.

Selected readings in Spanish drama and poetry of the sixteenth and seventeenth centuries. Offered occasionally. *Prereq:* SPAN 055 or 184 or cons. of dept. ch.

### **SPAN 126. Modern Spanish Drama** 3 sem. hrs.

Significant Spanish drama of the 19th and 20th centuries. Offered occasionally. *Prereq:* SPAN 056, 184 or cons. of dept. ch.

### **SPAN 135. Practicum in Hispanic Theatre†** 2 sem. hrs.

Development of language skills through participation in Hispanic dramatic productions. Does not count toward Spanish major or minor. Subject to be announced. Offered occasionally. May be repeated for credit with cons. of dept. ch. S/U grade assessment. *Prereq:* SPAN 004 or 010 or cons. of dept. ch.

### **SPAN 142. Phonetics** 3 sem. hrs.

Articulation of individual sounds and sound groupings, and patterns of tone and stress in the Spanish of Spain and Spanish America. Offered annually. *Prereq:* SPAN 082 or cons. of dept. ch.

### **SPAN 148. Spanish Literature in English Translation\*** 3 sem. hrs.

Major literary developments in Spanish literature with emphasis on outstanding literary works and figures. May not be counted toward fulfillment of academic or teaching major or minor. Offered occasionally.

### **SPAN 150. Twentieth Century Literature** 3 sem. hrs.

Non-dramatic literature of the Generation of 1898 and subsequent literary developments in contemporary Spain. Offered occasionally. *Prereq:* SPAN 056 or 184 or cons. of dept. ch.

### **SPAN 152. Introduction to Spanish for International Business\*\*** 3 sem. hrs.

An overview to Spanish terminology and international business practices in the Hispanic world. Offered annually. Not open to students with native or near-native fluency. *Prereq:* SPAN 082, or cons. of dept. ch.

### **SPAN 153. Advanced Spanish for International Business: Commercial Spanish and Contracts** 3 sem. hrs.

An advanced course in commercial Spanish to train students to deal successfully at all levels in the Hispanic business world. Offered annually. *Prereq:* Non-native speakers must have completed SPAN 152.

### **SPAN 158. Spanish-American Literature in English Translation\*** 3 sem. hrs.

Major literary developments in Spanish-American literature with emphasis on outstanding literary works and figures. May not be counted toward fulfillment of academic or teaching major or minor. Offered occasionally.

### **SPAN 170. Spanish-American Novel** 3 sem. hrs.

Evolution of the Spanish-American novel, with emphasis on significant fiction of the 20th century. Offered occasionally. *Prereq:* SPAN 056 or 184; SPAN 193 or 194; or cons. of dept. ch.

### **SPAN 175. Golden Age Prose** 3 sem. hrs.

Selected reading from Don Quixote and other significant prose works of the Golden Age. Offered occasionally. *Prereq:* SPAN 055 or 184; or cons. of dept. ch.

### **SPAN 182. Composition and Conversation 2** 3 sem. hrs.

Advanced practice in the oral and written use of the Spanish language. Not open to native speakers or bilingual Spanish speaking students. Offered every semester. *Prereq:* SPAN 082 or by departmental placement.

### **SPAN 183. Spanish for the Bilingual Student** 3 sem. hrs.

Acquaints bilingual students with Spanish specifically in its written form by focusing on reading and lexical development, grammar review, orthographic practice and composition. Offered fall semester.

### **SPAN 184. Literature for the Bilingual Student** 3 sem. hrs.

Acquaints native and/or bilingual Spanish speaking students with the principal literary movements and representative authors in the Hispanic world. Offered spring semester.

**SPAN 185. Advanced Grammar** 3 sem. hrs. Grammatical structure of the Spanish language in context with other linguistic areas. Offered

annually. *Prereq:* SPAN 082 or cons. of dept. ch.

**SPAN 190. Spanish Literature Prior to the Golden Age** 3 sem. hrs.

Significant literary texts from the Middle Ages to the 16th century. Offered occasionally. *Prereq:* SPAN 055 or 184 or cons. of dept. ch.

**SPAN 192. Nineteenth Century Literature** 3 sem. hrs.

The Romantic, Realist, and Naturalist movements excluding dramatic literature. Offered occasionally. *Prereq:* SPAN 056 or 184 or cons. of dept. ch.

**SPAN 193. Spanish-American Literature 1** 3 sem. hrs.

Principal writers and trends of the colonial period. Offered annually. *Prereq:* SPAN 055 or 184 or cons. of dept. ch.

**SPAN 194. Spanish-American Literature 2** 3 sem. hrs.

Continuation of SPAN 193 Literary developments from the Wars of Independence to the present. Offered annually. *Prereq:* SPAN 056 or 184, or cons. of dept. ch.

**SPAN 195. Independent Study** 1-3 sem. hrs. Offered every semester. *Prereq:* Cons. of dept. ch.

**SPAN 198. Topics in Language or Literature** 1-3 sem. hrs.

Subject to be announced. Offered occasionally. *Prereq:* Sr. stndg. or cons. of dept. ch.

**SPAN 199. Senior Thesis** 2 sem. hrs.

Introductory thesis guidance for approved students under the direction of a departmental adviser. Offered occasionally. *Prereq:* Cons. of dept. ch.

†May be counted toward the core curriculum requirement in Fine Arts.

\*May be counted as part of the literature core curriculum requirement but not as part of the foreign language requirement.

\*\*SPAN 001, 002, 003, 004, 010, 050, 055, 056, 082, 152, 182 not open for credit to native speakers of Spanish except by consent of Department Chairperson.

## HISTORY (HIST)

*Chairperson and Associate Professor:* Grahn  
*Professors:* Bicha, Donnelly, Gardinier, Hachey, Phayer, Prucha (*Emeritus*), Theoharis, Weber, Zupko

*Associate Professors:* Avella, Ball, C. Hay, R. Hay, Jablonsky, Krugler, Marten, Naylor, Ruff, Zeps

*Lecturers:* Brazeau

*Instructor:* Hauser

### MAJOR:

HIST001, 002, 004, 005, plus 18 hours of upper division history, which must be selected from at least three of the groups listed below.

Group I	United States	Courses 101–123
Group II	Ancient and Medieval	Courses 130–138
Group III	Modern Europe	Courses 140–168
Group IV	Third World	Courses 171–183

### MINOR:

HIST001, 002, 004, 005, plus nine hours of upper division history

### TEACHING MAJOR:

Thirty-six hours including HIST001, 002, 004, 005 plus 24 hours of upper division history. The 24 hours must be selected from all four of the groups listed above, must include HIST 190, and must include one course from either HIST 196 or HIST 197.

Students should see the department adviser for secondary teaching majors or minors to consult about the appropriate sequence of courses. It is also important that prospective teachers study carefully the School of Education section of this bulletin regarding university and state requirements (in addition to department requirements) for teacher education.

Please refer to "Core Curriculum requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

### TEACHING MINOR:

Twenty-four hours, including HIST001, 002, 004, 005, plus 12 hours of upper division history. The upper division courses must be selected as follows: one course from either Group I or Group III; one course from Group II; one course from Group IV; and must include HIST 190. One of the upper division courses must be either HIST 196 or HIST 197.

*Note:* HIST 195, 196, 197, and 198, courses whose content varies from semester to semester, will satisfy group distribution requirements according to their course title and content.

*Note:* At the discretion of the department, credit in history may be allowed in exceptional cases for courses taken in other departments of the university.

**HIST 001–002. Growth of Western Civilization** 1, 2 3 hrs. each sem.

An interpretation of the evolution of Western society beginning with the ancient Near Eastern experience. Second semester begins 1715. Offered every semester. HIST001 is a prerequisite for HIST002.

**HIST 004–005. Growth of the American Nation** 1, 2 3 hrs. each sem.

The United States from colonial origins to the present, with consideration of political, cultural, and economic institutions and ideas. Second semester begins with Reconstruction.

**HIST 006. Introduction to American History** 3 sem. hrs.

A survey of American history from the colonial origins to the present designed to give students the historical background necessary to teach history at the elementary level. Restricted to students in the elementary teacher preparation program. Offered every spring semester. Enrollment limited to Elementary Education majors. *Prereq:* Consent of program director.

**HIST 007–008. History of Western Art, 1, 2** 3 hrs. each sem.

Historical survey of painting, sculpture, architecture, and the minor arts representative of the main contributions of western civilization. Illustrated lectures and discussions. First semester: Prehistory, the Ancient Near East, Greco-Roman Antiquity through the Middle Ages. Second semester: Renaissance and

Modern, to the present. Offered annually.

Maybe counted as Fine Arts in the Arts and Sciences core curriculum but does not count toward the history major or minor.

### GROUP I UNITED STATES

**HIST 101. The British American Colonies to 1763** 3 sem. hrs.

The founding of the mainland colonies, the growth of political and social institutions, the development of religious freedom, the Indian wars, and the rise of African slavery to 1763. *Prereq:* Soph. stndg.

**HIST 102. The American Revolution and the New Nation** 3 sem. hrs.

The development of an American nationality in the 18th century, the causes and consequences of the American Revolution, the Loyalist response, the Constitution and the establishment of the new government to 1800. *Prereq:* Soph. stndg.

**HIST 103. Jeffersonian and Jacksonian Democracy** 3 sem. hrs.

United States history, 1800 to 1836, emphasizing democratic movements and the emergence of nationalism. *Prereq:* Soph. stndg.

**HIST 104. Sectionalism and the Civil War** 3 sem. hrs.

An examination of American history from 1831–1877, focusing on the political, social, economic, and cultural differences between the North and the South. Includes discussions of the black experience during the Civil War era, of military events during the War itself, and of the resolution or continuation of sectional tensions through Reconstruction. *Prereq:* Soph. stndg.

**HIST 106. The Gilded Age in America** 3 sem. hrs.

America from the Civil War to the beginning of the present century, emphasizing urban development, business, and immigration. *Prereq:* Soph. stndg.

**HIST 107–108. United States in the Twentieth Century 1, 2** 3 sem. hrs.

The United States since 1900, emphasizing the Progressive Movement, the New Deal, and the role of the United States in world affairs. *Prereq:* Soph. stndg.

**HIST 109–110. The Westward Movement 1, 2** 3 hrs. each sem.

American westward expansion from colonial days to the end of the 19th century. The impact of the frontier on the development of American democracy and its frontier institutions. Second semester: the Trans-Mississippi West. *Prereq:* Soph. stndg.

**HIST 111–112. Social and Intellectual History of the United States 1, 2** 3 hrs. each sem.

American thought and society from Puritan New England to recent times, emphasizing the principal idea patterns that have given character to American society. Second semester begins 1865. *Prereq:* Soph. stndg.

**HIST 113–114. American Foreign Relations 1, 2** 3 hrs. each sem.

American foreign relations from the American Revolution to the emergence of the United

States as a world power. This course gives equal emphasis to the conduct of American diplomacy by agents of the U.S. government and the social, economic, and cultural forces that shape foreign policies. Second semester begins with World War I. *Prereq: Soph. stndg.*

**HIST 115–116. Religion and American Life 1, 2**  
3 hrs. each sem.

These courses survey the historical impact of religious belief and institutions on the intellectual, cultural, and public life of the United States. The second semester considers these same themes through the challenges of the latter nineteenth century and the twentieth century. *Prereq: Soph. stndg.*

**HIST 118. American Military History**  
3 sem. hrs.

The nature and history of the military in the United States from the American Revolution to the present, with emphasis on its role and significance in American life and foreign affairs. *Prereq: Soph. stndg.*

**HIST 119. Constitutional History of the United States** 3 sem. hrs.

Origin and development of the American constitutional system. Principles of the Constitution. Expansion of the Constitution through usage, amendment, and judicial interpretation. *Prereq: Soph. stndg.*

**HIST 120. African American History**  
3 sem. hrs.

The role and response of the African-American in American society. Emphasis on the problems of slavery, exclusion, accommodation, migration, urbanization, and currents of protest. *Prereq: Soph. stndg.*

**HIST 121. American Urban History**  
3 sem. hrs.

History of the American city from the colonial era to the present. Topics include the economic, political, and cultural effects of cities on American society, as well as America's philosophical and moral response to urbanization. *Prereq: Soph. stndg.*

**GROUP II ANCIENT AND MEDIEVAL**

**HIST 130. Ancient Near East** 3 sem. hrs.  
The civilizations of the Eastern Mediterranean from their beginnings to 500 B.C. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 131. Ancient Greece and Rome**  
3 sem. hrs.

The course traces Greek history from the Minoans and Mycenaeans to the Hellenistic world, with stress on political, literature and art; the rise of Rome, the decay of the Roman republic, the high civilization of the Emperors, the rise of Christianity, and the Fall of the Empire. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 133. The Middle Ages** 3 sem. hrs.  
An introductory, issue-oriented course for students interested in pursuing more intensive and specialized courses in medieval history. The reading of interpretive studies constitutes an important element in the course. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 134. The Crusades** 3 sem. hrs.  
Western European and Middle Eastern relations from the 11th through the 13th centuries; includes Arabic, Byzantine, Turkish, and Mongol areas. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 135. Economic and Social History of the Middle Ages** 3 sem. hrs.

The social, technological, industrial, and commercial growth of Europe in the Middle Ages, emphasizing the rise of towns, the shifting demographic patterns, and the Commercial Revolution. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 136. Medieval England** 3 sem. hrs.  
A social, political, and military history of England from the Roman Empire to the rise of the Tudor Dynasty. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 137. The Renaissance** 3 sem. hrs.  
Europe from the Black Death to Erasmus, with stress on Western Europe, especially Italy, and the intellectual and artistic achievements of the age. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

**HIST 138. History of the Catholic Church 1, 100–1500,** 3 sem. hrs.

This course gives equal stress to the Church as an institution, the development of doctrine, and popular religion. It traces Catholicism from the Roman Period to the Renaissance. *Prereq: HIST 001, 002.*

**GROUP III MODERN EUROPE**

**HIST 139. History of the Catholic Church 2, 1500–Present,** 3 sem. hrs.

This course examines the effect of the Protestant and Catholic Reformations on Christianity in the West, the impact of Absolutism, and the challenges of modernity from the Enlightenment through Vatican II. *Prereq: HIST 001, 002.*

**HIST 140. The Age of the Reformation, 1500–1648** 3 sem. hrs.

The course, which stresses political and religious history, begins with the late medieval church, then studies Luther and Calvin and the rise of Protestantism, the Catholic Reformation, and the Wars of Religion. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

**HIST 141. Pre-Revolutionary Europe, 1648–1789** 3 sem. hrs.

The confrontation of aristocratic societies with the modernizing forces of absolute monarchy, Enlightenment ideology, demographic change, and economic development which produced social and political upheavals in France, Spain, Italy, the Netherlands, Germany and Sweden. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 142. The French Revolution and Napoleon, 1787–1815** 3 sem. hrs.

A survey of Revolutionary Europe with emphasis on the causes and consequences of the Revolution, the Reign of Terror, the counter-revolutionary movements, the conquest of Europe, and the relation between revolution and religion. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

**HIST 143. Reaction, Revolution and Nationalism, 1814–1914** 3 sem. hrs.

A survey of the political, economic and cultural institutions of the Western European States in the aftermath of the French Revolution and Napoleon. Principal states include Great Britain, France, Germany, Italy, the Low Countries and Spain. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

**HIST 144–145. Twentieth Century Europe 1, 2** 3 hrs. each sem.

Europe from 1914 to the present. First semester: World War I and the consequences of the peace settlement, the growth of totalitarianism, and the development of collective security. Second semester: World War II and the resulting social and political changes. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 147–148. Diplomatic History of Europe Since 1815 1, 2** 3 sem. hrs.

The art of diplomacy as practiced by European states from the end of the Napoleonic era to the present including pan-European movements and relations with other powers. Principal states include France, Great Britain, Germany, Spain, the Low Countries, Russia and Italy. First semester, 1815–1914 with special emphasis on the alliances, conferences and congresses used to deal with international crises between Waterloo and the outbreak of World War I. Second semester begins with the Paris Peace Conference of 1919 and concludes with the diplomacy of the Cold War. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

**HIST 149–150. Intellectual History of Modern Europe 1, 2** 3 hrs. each sem.

European intellectual and religious developments since 1550. First semester: the scientific revolution, the Age of Genius, the Enlightenment. Second semester: romanticism, liberalism, nationalism, the Catholic revival and Marxian materialism. *Prereq: Soph. stndg. HIST 001, 002 recommended.*

**HIST 151. History and Philosophy of Crime and Punishment** 3 sem. hrs.

A study of crime and punishment from both the historical and philosophical perspectives. The course will emphasize the European experience as a foundation for understanding American developments. Emphasis will be placed on the interdisciplinary aspects of crime and punishment. May be counted toward the core curriculum requirement in philosophy or social-behavioral science. Same as PHIL 151 and CRLS 151. *Prereq: Jr. stndg., PHIL 050.*

**HIST 152. Women in Western Civilization**  
3 sem. hrs.

Survey of women's experiences in western civilization from prehistory to the present. Focusing primarily on Europe and the United States, the course analyzes the changing roles and responsibilities of women in the family, in the work force, and in the community. Also, the impact of such phenomena as religion, science, technology, and democracy on the shifting perceptions and definitions of gender in western civilization. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

**HIST 153. Tudor England, 1485–1603**

3 sem. hrs.

The political, socio-economic, religious and cultural developments in Renaissance and Reformation England with particular attention to the personalities who dominate the Tudor court; the effects of the establishment of Caesaro-Papism by Henry VIII upon the art, architecture, literature and social life of the country. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 154. Stuart England, 1603–1714**

3 sem. hrs.

Seventeenth-century England, the struggle for constitutional rights, colonialism; relations with Ireland and Scotland, educational progress, arts, literature and social life. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 155. Great Britain, 1714–1867**

3 sem. hrs.

Political, social and economic history of Britain from the Hanoverian succession to the Reform Bill of 1867. Against the background of the second hundred years war, emphasis on development of cabinet government, the Industrial Revolution, the reform impulse and England's emergence as the age's foremost commercial and imperial power. *Prereq: Soph. stndg., HIST001, 002 recommended.*

#### **HIST 156. Great Britain Since 1867**

3 sem. hrs.

The political, social, economic, and cultural development of Britain from the Reform Act of 1867 to the present. Emphasis upon urbanization; the development of mass politics and mass culture; the consequences of World War I and World War II; the creation of the welfare state; and Thatcherism. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 157. Constitutional and Legal History of England** 3 sem. hrs.

Constitutional and legal developments from the Anglo-Saxon period to the present, emphasizing the evolution of parliamentary democracy and the Common Law system. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 158. The British Empire** 3 sem. hrs.

Survey of the creation, expansion and dismantling of the world's largest empire from the 16th century to the present. Exploration of political, social, economic and cultural factors. Emphasis on contrasting the views and experiences of Britons and of natives of various colonized areas. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 160. Ireland Since 1780** 3 sem. hrs.

A survey of the political and cultural history of Ireland since the Grattan parliament, focusing upon the dual legacy of constitutional and revolutionary nationalism in Irish life. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 162. France Since 1815** 3 sem. hrs.

France from the fall of Napoleon into the 20th century, emphasizing the internal developments, with some attention to foreign affairs. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 163. Germany, 1648–1870** 3 sem. hrs.

German-speaking Europe with emphasis on the great personalities, including Frederick the Great, Maria Theresa, Metternich, and Bismarck; the major social themes, including life in rural

Germany and in German hometowns; and the principal movements, including the revolution of 1848 and German unification after the Franco-Prussian war. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 164. Germany Since 1870** 3 sem. hrs.

The political, social, and intellectual development of Germany under the Empire, in the Weimar Republic, the Third Reich, and the post war period. Special attention is given to the Nazi era, including the personality and motivation of Adolf Hitler. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 165. "The Great War": World War I, 1914-1918** 3 sem. hrs.

A survey of the causes, course and consequences of the First World War. Beginning with events and military operations in Europe, the course also will treat the war outside of Europe and at sea, as well as the political, social, economic and intellectual impact of the "war to end all wars." *Prereq: Soph. stndg.; HIST 001 and 002 recommended.*

#### **HIST 166. World War II** 3 sem. hrs.

A survey of the causes, course, and consequences of the Second World War. Focuses on the European theater including military developments, propaganda, the defeat of German and Japanese imperialism, the impact of the war on society, and the origins of the Cold War. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 167. Russia to 1861** 3 sem. hrs.

The Slavs, the Kievan Rus Empire, the Mongol invasion, the rise of Muscovy, and the Russian empire of Peter the Great and his successors down to the emancipation of the serfs in 1861. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 168. The Russian Revolution and the Soviet Union** 3 sem. hrs.

Pre-revolutionary Russia from 1861, the Revolution of 1917, Soviet economic growth and totalitarianism, World War II, and the emergence of the USSR as a world power. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

### **GROUP IV THIRD WORLD**

#### **HIST 171. Latin America: Colonial Period** 3 sem. hrs.

Social and political forces that shaped the colonial empires of Spain and Portugal in America, 1492–1821. Topics include indigenous civilizations, economic systems, political reforms, and the Wars for Independence. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 172. Latin America: National Period** 3 sem. hrs.

Independent Latin America from 1810 to the present. Topics include the rise of neocolonialism, the impact of modernization, revolutionary movements, and foreign affairs. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 173. The Caribbean** 3 sem. hrs.

This course focuses on the contours of Caribbean history, 1400 to present. It examines Native American culture, colonialism, slavery, international trade, the politics of independence, economic development, national identity, and ethnicity. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 174. History of Mexico** 3 sem. hrs.

Mexico from pre-Columbian times to the present, with emphasis on ancient civilizations, the conquest, colonial society, independence, nineteenth-century disorder, Porfirian dictatorship, the Revolution of 1910, and modern society since 1920. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 177. Africa to 1885** 3 sem. hrs.

African peoples and civilization, the Sudanic empires, Islamic influences, and European settlements in southern Africa. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 178. Africa Since 1885** 3 sem. hrs.

The periods of European partition, colonial rule, and national independence. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 179. North Africa** 3 sem. hrs.

North Africa from the 7th century to the present, emphasizing Islamic and European influences. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 181. Modern Middle East since 1500** 3 sem. hrs.

A survey of the Arab, Turkish and Iranian peoples since 1500 emphasizing the Islamic backgrounds and the Middle East in world affairs, especially during the 20th century. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 182. East Asia 1** 3 sem. hrs.

China, Japan and Korea from prehistoric times to 1600; their political, cultural, social and economic developments; their interrelations; and their relations with civilizations outside East Asia. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

#### **HIST 183. East Asia 2** 3 sem. hrs.

China, Japan and Korea from 1600 to the present; their early Modern developments, subsequent contact with and defeats by Western states; their modernization efforts. *Prereq: Soph. stndg., HIST 001, 002 recommended.*

### **SPECIAL COURSES**

#### **HIST 190. Historical Theory and Method** 3 sem. hrs.

Survey of types of historical sources and methods of research, analysis and interpretation. Techniques of historical criticism. Evaluation of oral, documentary, fictional and film versions of historical events. Discussion of the role of history in the world today and current debates within the profession. Offered spring semester. *Prereq: Jr. stndg., HIST001, 002 recommended.*

#### **HIST 193. Internship in History, Museum and Archival Studies** 3 sem. hrs.

Practical experience related to history, museum, or archival studies involving work in an approved agency. Projects of a substantive nature are to be arranged by the student with the historical agency. Projects not involving remuneration should entail approximately 8–10 hours per week for undergraduates and 10–15 hours per week for graduate students

at the agency. Other projects will include a substantive paper along with the work experience. Although performance in this course is assessed using S and U grades, the course counts toward the undergraduate major or minor. *Prereq: Cons. of dept. asst. ch. for all students and Jr. stndg. required for under - graduates; HIST 190 recommended for under - graduates; HIST 210 (Historical Method) required for graduate students.*

**HIST 195. Independent Study** 1-3 sem. hrs. Offered annually. *Prereq: Cons. of dept. ch., Cons. of instr., and Jr. stndg.*

**HIST 196. Undergraduate Seminar** 3 sem. hrs.

Designed to initiate a selected group of qualified undergraduates in the techniques of scholarly historical study by concentrated work in a restricted field. Offered annually. *Prereq: Jr. stndg.*

**HIST 197. Undergraduate Colloquium in History** 3 sem. hrs.

Readings and discussion course designed to introduce a small group of undergraduates to topics, problems and methodologies in history which are not taught in the regular lecture courses. The topics to be treated in 197 courses will be designated in the *Timetable of Classes*. Offered annually. *Prereq: Jr. stndg.*

**HIST 198. Special Topics in History** 3 sem. hrs.

A lecture course on special areas and themes. The specific topics of 198 courses will be designated in the *Timetable of Classes*. Offered occasionally. *Prereq: Soph. stndg.*

**HIST 199. Senior Thesis** 3 sem. hrs. Offered annually. *Prereq: Cons. of dept. asst. ch. and 3.5 or above Q.P.A..*

## MATHEMATICS, STATISTICS AND COMPUTER SCIENCE (MATH AND COSC)

*Chairperson and Professor: Harris*  
*Assistant Chairperson and Associate Professor: Simms*  
*Professors: Bankston, Braunschweiger (Emeritus), Corliss, Hamedani, Hanneken (Emeritus), P. Jones, Lawrence (Emeritus), Merrill, Moyer, Pastijn, Ziegler*  
*Associate Professors: Bansal, Brookshear, Byleen, Clough, Krenz, Lamon, Liu, Mullins, Ruitenburg, Ryba, Slattery, Tonellato*  
*Adjunct Assistant Professor: Barnard*  
*Adjunct Instructors: Manyo, Utzerath*  
*Lecturers: Boelk, Georgeson, Laughlin*

### MATHEMATICS MAJOR:

Thirty-nine hours of mathematics courses, including MATH 080, 081, 082, 090, 121 and at least twenty-one additional hours of upper division MATH courses including at least three of the following: MATH 112, 124, 135, 140, 160, and 180. In addition, each student must complete at least one computer science course offered by the department.

### MATHEMATICS MINOR:

Twenty-four hours of mathematics courses, including MATH 080, 081, 082, either 083 or 090, and at least nine additional hours of upper division MATH courses.

### COMPUTER SCIENCE MAJOR:

Thirty-three hours of computer science courses, including COSC 051, 054, 055, 148, 149, 152, 157, and twelve additional hours of upper-division COSC courses. In addition, each student must complete the following fourteen hours of mathematics courses: MATH 080, 081, 090, 147.

### COMPUTER SCIENCE MINOR:

Eighteen hours of computer science courses consisting of COSC 051, 054, 055, 148, 149, 152.

### COMPUTATIONAL MATHEMATICS MAJOR:

Forty-eight hours of mathematics and computer science courses, including MATH 080, 081, 082, 090, 121, 147, either 161 or 164; COSC 051, 054, 055, 146, 148; two of MATH 140, 142, 160, 166, 167, 180; and one of COSC 149, 152.

### TEACHING MAJOR IN MATHEMATICS:

Thirty-nine hours of mathematics courses, including MATH 080, 081, 082, 090, 121, 124, 135, 138, 160, either 161 or 164, and six additional hours of upper division MATH courses. In addition to these thirty-nine hours, each student must complete at least one computer science course offered by the department and MATH 137 (Teaching of Mathematics), which is required as part of the state certification program. MATH 137 and a computer science course must be completed before student teaching.

From the beginning of their work toward a degree students should consult with both the department adviser for secondary teaching majors and the Director of Teacher Education in the School of Education about the appropriate sequence of courses. University and state requirements for teacher certification are described in the School of Education section of this bulletin.

Please refer to "Core Curriculum requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

### TEACHING MINOR IN MATHEMATICS:

Twenty-six hours of mathematics courses consisting of MATH 080, 081, 090, 121, 124, 135, 138, and 164. In addition to these twenty-six hours, MATH 137 (Teaching of Mathematics) is required as part of the state certification program. MATH 137 must be completed before student teaching. From the beginning of their work toward a degree students should consult with both the department adviser for secondary teaching majors and the Director of Teacher Education in the School of Education about the appropriate sequence of courses. University and state requirements for teacher certification are described in the School of Education section of this bulletin.

### TEACHING MINOR IN COMPUTER SCIENCE:

Twenty-two hours consisting of COSC 051, 054, 055, 148, 149, 152 and MATH 080. From the beginning of their work toward a degree students should consult with both the department adviser for secondary teaching majors and the Director of Teacher Education in the School of Education about the appropriate sequence of courses. University and state requirements for teacher certification are described in the School of Education section of this bulletin.

## Mathematics Courses (MATH)

**010. Intermediate Algebra** 2 sem. hrs.

Designed for students with deficient mathematical backgrounds. Basic arithmetic and algebraic operations on integers, polynomials, rational numbers and expressions. Linear equations and inequalities, quadratic equations. Relations and functions. Not applicable to the total number of hours required for graduation. Offered occasionally. *Prereq: Cons. of dept. ch.*

**MATH 020. College Algebra** 3 sem. hrs.

Precalculus mathematics including basic algebraic operations, equations, inequalities, complex numbers, graphs, functions, zeros of polynomials, systems of equations, and matrices. Offered every semester. *Prereq: Two years of college preparatory mathematics including a year each of algebra and geometry. Does not count toward Math-Logic-Computer requirement in the Arts and Sciences core curriculum.*

**MATH 021. Trigonometry and Analytic Geometry** 3 sem. hrs.

A continuation of MATH 020 covering precalculus mathematics including trigonometric functions and their properties, trigonometric identities and equations, applications of trigonometry, vectors, polar coordinates, exponential and logarithmic functions, and conic sections. Offered spring semester. *Prereq: MATH 020 or its equivalent. Does not count toward Math-Logic-Computer requirement in the Arts and Sciences core curriculum.*

**MATH 025. The Nature of Mathematics** 3 sem. hrs.

Concepts of mathematics for liberal arts students. Emphasis on understanding and appreciating concepts rather than developing computational skills. For example, such topics as the historical development of ideas, role of abstraction, and relationship between different areas of mathematics is given precedence over performance of arithmetic and algebraic manipulations. Offered occasionally. *Prereq: Two years of college preparatory mathematics.*

**MATH 026. Applications of Mathematics** 3 sem. hrs.

Application of mathematics presented via case studies. Examples drawn from such areas as biology, engineering, and social sciences. Emphasis on the contributions of mathematics rather than computational skills. Offered occasionally. *Prereq: Two years of college preparatory mathematics.*

**MATH 030. Early Arithmetic** 3 sem. hrs.

Prepares students to teach early elementary grades. Uses a problem solving approach. Integrates mathematics and science topics; content and methods; arithmetic, algebra, and geometry; classroom and field work. Includes NCTMStandards, Constructivism, inductive and deductive reasoning, sets, sequences, numeration systems, the CGLmethod of teaching addition and subtraction, number theory, measurement, topology, LOGO, and various manipulatives. Restricted to students in the elementary and middle school teacher preparation programs. *Prereq: Two years of college preparatory mathematics; soph. stndg.*

**MATH 031. Elementary School Mathematics** 3 sem. hrs.

Prepares students to teach mathematics in the elementary grades. Uses a problem solving approach. Integrates mathematics and science topics; content and methods; arithmetic, algebra, and geometry; classroom and field work. Includes whole numbers, exponents, fractions, ratios, percent, transformational geometry, spreadsheet, Geometric Supposers, and various fraction manipulatives. Restricted to students in the elementary and middle school teacher preparation programs. *Prereq: MATH030.*

**MATH 032. Pre-Algebra and Geometry** 3 sem. hrs.

Prepares students to teach mathematics in the upper elementary and middle school grades. Uses a problem solving approach. Integrates mathematics and science topics; content and methods; arithmetic, algebra, and geometry; classroom and field work. Includes probability and statistics, integers, rational and irrational numbers, relations and functions, equations and inequalities, conjectures and deductions in geometry, algebra lab gear and other manipulatives. Restricted to students in the elementary and middle school teacher preparation programs. *Prereq: MATH031.*

**MATH 060. Modern Elementary Statistics** 3 sem. hrs.

Fundamental theory and methods of statistics without calculus. Descriptive statistics, elements of probability theory, estimation, tests of hypotheses, regression, correlation, introduction to computer methods of statistical tabulation and analysis. This course is recommended for students seeking a general introduction to statistical concepts and is not intended to be a final course in statistics for students who need a thorough working knowledge of statistical methods. (May not be taken for credit by students who have received college credit for another probability or statistics course.) Offered every semester. *Prereq: Two years of college preparatory mathematics or MATH 010.*

**MATH 070. Finite Mathematics** 3 sem. hrs.  
Mathematics of finance, including simple and compound interest, present and future value of ordinary annuities, sinking funds, and amortization schedules. Matrices, linear systems and linear programming. Combinatorics and elementary probability theory. Offered every semester. *Prereq: Three years of college preparatory mathematics or MATH 020.*

**MATH 071. Elements of Calculus 1** 3 sem. hrs.

The basic concepts and techniques of differential and integral calculus. Applications and examples chosen primarily from economics, biology, the social and behavioral sciences and business. Offered every semester. *Prereq: Three years of college preparatory mathematics or MATH 020.*

**MATH 072. Elements of Calculus 2** 3 sem. hrs.

Partial derivatives, multiple integration, differential equations, infinite series, numerical techniques. Applications and examples chosen primarily from business, economics, and the social and behavioral sciences. Offered occasionally. *Prereq: MATH 071.*

**MATH 073. Calculus for the Biological Sciences** 3 sem. hrs.

Fundamental concepts and techniques of differential and integral calculus, logarithmic, exponential and trigonometric functions, examples and applications from biology and medicine. Offered every semester. *Prereq: Three years of college preparatory mathematics or MATH 020.*

**MATH 080. Calculus 1** 4 sem. hrs.

Functions of one variable, limits and continuity. The derivative and the definite integral with applications. Offered every semester. *Prereq: MATH 021 or three to four years of college preparatory mathematics including topics listed in description of MATH 021.*

**MATH 081. Calculus 2** 4 sem. hrs.

The transcendental functions. Techniques of integration including numerical methods. Elementary differential equations. Infinite sequences and series, Taylor Series. Offered every semester. *Prereq: MATH 080.*

**MATH 082. Calculus 3** 4 sem. hrs.

Three-dimensional analytic geometry including parametric equations, vectors and vector functions. The differential and integral calculus of functions of several variables. Offered every semester. *Prereq: MATH 081.*

**MATH 083. Differential Equations** 4 sem. hrs.  
Methods and techniques applicable to first order, nth order, and systems of first order differential equations. Eigenvalues, eigenvectors, the Wronskian, Laplace transforms, linearization, and phase portraits. Offered every semester. *Prereq: MATH 082.*

**MATH 090. Discrete Mathematics** 3 sem. hrs.  
Introduction to abstract mathematics through the window of discrete mathematics. Algebraic systems. Sequences and generating functions. Sets and relations, including equivalences, congruences, and orderings. Elementary graph theory. (Credit will not be given for both MATH 090 and MATH 145.) Offered every semester. *Prereq: MATH 081.*

**MATH 099. Modern Logic** 3 sem. hrs.

An introduction to deductive reasoning, which underlies philosophical, mathematical, scientific, legal, and everyday discourse. The precise formulation and sound construction of valid arguments in propositional and first-order logic. Logical connectives, quantifiers, proofs, theorems, and theories. Applications of symbolic logic to axiomatic systems. This course is equivalent to PHIL099, and counts toward the philosophy major and core curriculum logic or philosophy requirements. Offered spring semester.

ophy major and core curriculum logic or philosophy requirements. Offered spring semester.

**MATH 100 Problem Solving — Putnam Competition** 1 sem. hr.

Students will study mathematical problems, examine their solutions and formulate general problem solving methods and techniques. The course is a preparation for the Putnam Mathematical Competition. S/U grade assessment. *Prereq: Cons. of instr.*

**MATH 101. History of Mathematical Ideas** 3 sem. hrs.

Topics selected from the following: development of the number system (need for irrational and complex numbers); development of geometry including the effects of the discovery of non-Euclidean geometry; limit concept; need for axiomatic structures; twentieth century problems. Current mathematics research and place of mathematics in today's world. Offered alternate spring semesters. *Prereq: Jr. stndg. or cons. of dept. ch.*

**MATH 112. Topology** 3 sem. hrs.

Topological spaces, mappings, metric spaces, product and quotient spaces. Separation axioms, compactness, local compactness and connectedness. Offered occasionally. *Prereq: MATH 090.*

**MATH 120. Theory of Numbers** 3 sem. hrs.

Integers, unique factorization theorems, arithmetic functions, theory of congruences, quadratic residues, partition theory. Offered spring semester. *Prereq: MATH 090.*

**MATH 121. Linear Algebra and Matrix Theory** 3 sem. hrs.

N-dimensional vector spaces, bases and coordinate systems, linear transformations and matrices, systems of equations, characteristic values, applications to differential equations and geometry. Offered every semester. *Prereq: MATH 083 or 090.*

**MATH 124. Abstract Algebra 1** 3 sem. hrs.

Sets, mappings, operations on sets, relations and partitions. A postulational approach to algebraic systems including semigroups, groups, rings and fields. Homomorphisms of groups and rings, number systems, polynomial rings. Offered fall semester. *Prereq: MATH 090.*

**MATH 125. Abstract Algebra 2** 3 sem. hrs.

A continuation of MATH 124 with emphasis on groups, rings, fields, and modules. Offered occasionally. *Prereq: MATH 124.*

**MATH 135. Foundations of Geometry** 3 sem. hrs.

Modern postulational development of Euclidean and non-Euclidean geometries. Offered fall semester. *Prereq: MATH 090.*

**MATH 136. Geometric Transformations** 3 sem. hrs.

Overview of transformation geometry including a study of congruence, similarity, affine, projective and topological transformation groups. Offered occasionally. *Prereq: MATH 090.*

**MATH 137. The Teaching of Mathematics** 3 sem. hrs.

Historical background, problems, curricular materials, and teaching procedures in the various areas of mathematics pertinent to the needs of a secondary school mathematics teacher. In addition

tion, a three-hour time block on one day each week between 8 a.m. and 3 p.m. must be kept free for clinical experience. Offered alternate fall semesters. *Prereq: EDUC 095; and MATH 124, 135, both which may be taken concurrently. Admission to School of Education required.*

**MATH 138. Topics in Elementary Mathematics from an Advanced Standpoint** 3 sem. hrs.

Topics closely related to the secondary mathematics program taught to deepen the student's understanding of these topics. Topics selected from such areas as set theory, number theory, elementary functions, theory of equations, and transformation geometry. Offered alternate spring semesters. *Prereq: MATH 124, 135 and cons. of department's coordinator of teacher education.*

**MATH 140. Theory of Differential Equations** 3 sem. hrs.

Existence and uniqueness theorems, linear and non-linear systems, numerical techniques, stability. Offered spring semester. *Prereq: MATH 083 or 121.*

**MATH 142. Boundary Value Problems** 3 sem. hrs.

Boundary value problems in partial differential equations and associated ordinary differential equations: Fourier series, Sturm-Liouville problems. Offered occasionally. *Prereq: MATH 082.*

**MATH 144. Operational Methods in Physics and Engineering** 3 sem. hrs.

Functions of a complex variable. Laplace and Fourier transforms and applications. Introduction to the calculus of variations. Offered occasionally. *Prereq: MATH 082.*

**MATH 146. Numerical Analysis** 3 sem. hrs.  
Numerical solution of algebraic and transcendental equations, linear systems and the algebraic eigenvalue problem, interpolation and approximation, numerical integration, difference equations, numerical solution of differential equations, and finite difference methods. Offered fall semester. *Prereq: MATH 081 and either COSC 051 or GEEN 021 or GEEN 051.*

**MATH 147. Computational Models** 3 sem. hrs.

Construction and analysis of mathematical models from biological, behavioral and physical sciences. Methodology of model building and problem solving. Offered every semester. *Prereq: MATH 090 and COSC 051.*

**MATH 150. Applied Combinatorial Mathematics** 3 sem. hrs.

Permutations and combinations, recurrence relations, inclusions and exclusion, Polya's theory of counting, graph theory, transport networks, matching theory. Offered occasionally. *Prereq: MATH 090.*

**MATH 160. Theory of Probability** 3 sem. hrs.  
Random variables, distributions, moment generating functions of random variables, various derived probabilistic models and applications. Recommended, with MATH 161, for students in mathematics, engineering, and the physical and behavioral sciences. Offered fall semester. *Prereq: MATH 082.*

**MATH 161. Mathematical Statistics** 3 sem. hrs.

Sampling theory and distributions, estimation and hypothesis testing, regression, correlation, analysis of variance, non-parametric methods, Bayesian statistics. Offered spring semester. *Prereq: MATH 160.*

**MATH 162. Time Series Analysis** 3 sem. hrs.

Basic concepts of probability. Stationary time series. Autocorrelation and spectrum. Descriptive methods for time series data. ARMA and ARIMA models: estimation and forecasting. Identification and diagnostic techniques. Periodogram and spectral analysis. Use of softwares for time series analysis. Offered occasionally. *Prereq: MATH 082 or equivalent.*

**MATH 163. Regression Analysis** 3 sem. hrs.

Basic concepts of statistical inference, simple linear regression, multiple linear regression, diagnostic analysis, selecting the best equation, stepwise methods, nonlinear regression, use of statistical software. Offered occasionally. *Prereq: MATH 164 or equivalent.*

**MATH 164. Statistical Methods** 3 sem. hrs.

Probability, discrete and continuous distributions. Treatment of data, point and interval estimation, hypothesis testing. Large and small sample methods, regression, time series, non-parametric methods. An introductory applications-oriented course recommended for students who wish to acquire a basic understanding of statistical methods. Offered every semester. *Prereq: MATH 071 or MATH 073 or MATH 080. May not be taken for credit by those who have completed MATH 161.*

**MATH 166. Biomathematics** 3 sem. hrs.

Introduction to the use of mathematical models in biology. Difference equations, differential equations and simulation techniques. Offered fall semester. *Prereq: Jr. stndg. and one semester of calculus.*

**MATH 167. Theory of Optimization** 3 sem. hrs.

Fundamental theorems describing the solution of linear programs and matrix games. Minimax, duality, saddle point property, simplex and specialized algorithms. Zero sum games, transportation and assignment problems., applications to economics. Offered occasionally. *Prereq: MATH 083 or 121.*

**MATH 168. Computational Statistics** 3 sem. hrs.

Analysis of raw data and selection of appropriate estimation and hypothesis testing techniques. Emphasis on exploratory analysis, model building, data transformations, multivariate and stepwise techniques, error analysis. Course will make extensive use of statistical computer packages. Offered occasionally. *Prereq: MATH 161 or 164.*

**MATH 180. Intermediate Analysis 1** 3 sem. hrs.

Limits and continuity, differentiability, Riemann integration. Topology of N-dimensional spaces. Offered fall semester. *Prereq: MATH 083 or 121.*

**MATH 181. Intermediate Analysis 2** 3 sem. hrs.

Transformations of N-spaces, line and surface integrals, sequences and series, uniform convergence. Offered occasionally. *Prereq: MATH 180.*

**MATH 182. Complex Variables** 3 sem. hrs.

Complex numbers, analytic functions, differentiation, series expansion, line integrals, singularities, and residues. Offered spring semester. *Prereq: MATH 082.*

**MATH 192. Co-op Work Period** No credit

Students work full-time during fall or spring semesters in a cooperative education program work assignment approved in advance by the department. Responsibilities include relevant academic content. Grading and credits are accomplished by registering for MATH 193 during the following semester. Offered every semester. *Prereq: Jr. stndg. Fee.*

**MATH 193. Co-op Grading Period** 1 sem. hr.

Grading for preceding co-op work assignment is accomplished by completing a report on the work assignment, a report on academic material related to the work assignment, and other materials as required. Grading is completed during the school semester following the work assignment. May be taken more than once, but a maximum of two credits may be counted toward a major in the department. Offered every semester. *Prereq: Jr. stndg. and MATH 192.*

**MATH 195. Independent Study in Mathematics** 1-3 sem. hrs.

Directed reading and/or research in Mathematics under a member of the staff. Offered every semester. *Prereq: Cons. of dept. ch.*

**MATH 196. Undergraduate Seminar** 3 sem. hrs.

Designed to initiate a selected group of qualified undergraduates into the techniques and discipline of scholarly research by concentrated work in a restricted field. Emphasis on critical reading and analysis of sources. Specific subjects to be announced in the *Timetable of Classes*. Offered occasionally. *Prereq: Cons. of dept. ch.*

**MATH 198. Topics in Mathematics or Statistics** 1-3 sem. hrs.

Special topics selected from one of the various branches of mathematics or statistics. Specific topics to be announced in the *Timetable of Classes*. Offered occasionally.

**MATH 199. Senior Thesis** 2 sem. hrs.

Preparation of a thesis by approved students under the direction of an adviser from the staff. Offered every semester. *Prereq: Cons. of dept. ch.*

## Computer Science (COSC)

**COSC 050. Introduction to Computer Science** 3 sem. hrs.

Introduction to the major areas of computer science including algorithms and their development, machine architectures, operating systems, programming languages, and data representation and storage. Simple programming concepts and typical application programs.

(Previous computer experience is not required.) Offered every semester. *Prereq:* Two years of college preparatory mathematics.

### **COSC 051. Structured Programming**

3 sem. hrs.

An introduction to computer programming using JAVA. Designed for students seeking a rigorous foundation in programming skills. Includes data types, data structures, control structures, and design methodologies. Also includes a brief introduction to those features of the UNIX operating system that are used in the course (file system, editors, compilers, etc.). Offered every semester. *Prereq:* Two years of college preparatory mathematics.

### **COSC 054. Principles of Computer Science**

3 sem. hrs.

A survey of computer science that relates mathematical and theoretical foundations to the applied topics discussed. Covers topics such as development and implementation of algorithms, machine organization, operating systems structure, programming languages, data organization, and issues of computability. Includes programming projects of intermediate size and complexity that reinforce the topics presented. Offered every semester. *Prereq:* COSC 051.

### **COSC 055. Data Structures**

3 sem. hrs.

A study of the major classes of data structures and the algorithms used to build, examine, and manipulate them. Includes an introduction to object-oriented methods and programming projects of intermediate size and complexity. (Credit will not be given for both COSC 055 and COSC 154.) Offered every semester. *Prereq:* COSC 054.

### **COSC 146. Numerical Analysis**

3 sem. hrs.

Numerical solution of algebraic and transcendental equations, linear systems and the algebraic eigenvalue problem, interpolation and approximation, numerical integration, difference equations, numerical solution of differential equations, and finite difference methods. Offered fall semester. *Prereq:* MATH 081 and either COSC 051 or GEEN 021 or GEEN 051.

### **COSC 148. Hardware Systems**

3 sem. hrs.

Architecture of hardware systems and how their features affect the hardware/software interface. Topics include information representation, addressing techniques, communication protocols, polling vs. interrupt handling, microprogramming, assembly language programming, and hardware support for operating systems. Offered every semester. *Prereq:* COSC 054.

### **COSC 149. Operating Systems**

3 sem. hrs.

Fundamental concepts of operating systems including memory management, scheduling, concurrent processing, device management, file systems, networking, security, and system performance. Examples are drawn from legacy and modern operating systems. Offered every semester. *Prereq:* Either COSC 055 and 148, or COSC 154.

### **COSC 151. Analysis of Algorithms**

3 sem. hrs.

Computational complexity and types of algorithms such as divide-and-conquer, greedy, probabilistic, graph transversal, heuristic, and

parallel algorithms. Offered occasionally.

*Prereq:* COSC055 and MATH 090.

### **COSC 152. Programming Languages**

3 sem. hrs.

A comparative study of programming paradigms and representative high-level programming languages. Topics include control of data, control of execution, operating environment, and the role of a language as an organizational tool. Offered fall semester. *Prereq:* Either COSC 055 and 148, or COSC 154.

### **COSC 153. Principles of Database Systems**

3 sem. hrs.

The internal, conceptual, and external levels of database systems as reflected in the relational, network, and hierarchical database models. Query languages. File organizations appropriate for database systems. Principles and methods for database design. Offered fall semester. *Prereq:* COSC 055 or COSC 154.

### **COSC 154. Data Structures for Engineers**

3 sem. hrs.

Data structures and their applications. Includes the study of such data structures as lists, stacks, queues, and trees and their related algorithms. Knowledge of the C programming language is a prerequisite. (Credit will not be given for both COSC 154 and COSC 055.) Does not carry graduate credit for MSCS graduate students. Does not carry graduate credit for MSCS graduate students. Offered every semester. *Prereq:* EECE 190 or COEN 030 or GEEN 051 or COSC 051.

### **COSC 157. Formal Languages and**

**Computability** 3 sem. hrs.

The hierarchy of formal languages, automata, and grammars with application to parsing. Limitations of computational processes and the implications of the Church-Turing thesis. Offered fall semester. *Prereq:* Either COSC 055 and MATH 090, or COSC 154.

### **COSC 158. Computer Systems Analysis**

3 sem. hrs.

Large applications systems involve many people over a long life span. Assess and apply computing techniques in a cost-effective and usable way. Produce large software systems which are reliable, understandable, and which can be maintained. Software lifecycle (requirements, design, implementation, testing, maintenance), human factors analysis, project management. Projects help simulate the life of a working systems analyst. Offered spring semester. *Prereq:* COSC 149 and 152, or equivalent.

### **COSC 159. Fundamentals of Artificial**

**Intelligence** 3 sem. hrs.

Survey of topics in the field of artificial intelligence with emphasis on the underlying concepts on which intelligent systems are developed (such as production systems, heuristics, the predicate calculus, and theorem proving techniques). Offered spring semester. *Prereq:* COSC 152.

### **COSC 170. Compiler Construction**

3 sem. hrs.

Techniques of lexical analysis, parsing, and code generation, including theoretical foundations and the practical concerns of implementation. Offered spring semester. *Prereq:* Either COSC 148 and 157, or COSC 154 and 157.

**COSC 192. Co-op Work Period** No credit  
Students work full-time during fall or spring semesters in a cooperative education program work assignment approved in advance by the department. Responsibilities include relevant academic content. Grading and credits are accomplished by registering for COSC 193 during the following semester. Offered every semester. *Prereq:* Jr. stndg. Fee.

### **COSC 193. Co-op Grading Period**

1 sem. hr.

Grading for preceding co-op work assignment is accomplished by completing a report on the work assignment, a report on academic material related to the work assignment, and other materials as required. Grading is completed during the school semester following the work assignment. May be taken more than once, but a maximum of 2 credits may be counted toward a major in the department. Offered every semester. *Prereq:* Jr. stndg. and COSC 192.

### **COSC 195. Independent Study in Computer Science**

1-3 sem. hrs.

Directed reading and/or research in computer science under a member of the staff. Offered every semester. *Prereq:* Cons. of dept. ch.

### **COSC 196. Undergraduate Seminar**

3 sem. hrs.

Designed to initiate a selected group of qualified undergraduates into the techniques and discipline of scholarly research by concentrated work in a restricted field. Emphasis on critical reading and analysis of sources. Specific subjects to be announced in the *Timetable of Classes*. Offered occasionally. *Prereq:* Cons. ofdept. ch.

### **COSC 198. Topics in Computer Science**

1-3 sem. hrs.

Special topics selected from one of the various branches of computer science. Specific topics to be announced in the *Timetable of Classes*. Offered occasionally.

### **COSC 199. Senior Thesis**

2 sem. hrs.

Preparation of a thesis by approved students under the direction of an adviser from the staff. Offered every semester. *Prereq:* Cons. of dept.ch.

## **PHILOSOPHY (PHIL)**

*Chairperson and Professor:* J. Jones

*Assistant Chairperson and*

*Associate Professor:* Starr

*Professors:* Anderson, Ashmore, Carter, Griesbach (*Emeritus*), Kainz, Kendzierski (*Emerita*), O'Malley (*Emeritus*), Tallon, Teske, Wreen, Zedler (*Emerita*)

*Associate Professors:* P. Coffey (*Emeritus*), Dooley, Goldin, Harrison, Ibáñez-Noé, McNulty, Naus, Prendergast, Rice, Rousseau (*Emerita*), Snow, R. Taylor, Treloar, Twetten, Vater, Vandeveld

*Assistant Professors:* Foster, Gibson, Landry, Peressini, Souffrant, South, Stohrer, Valadez

### **MAJOR: History of Philosophy**

Thirty hours, including either PHIL001 or 099, 050, 102, 104 and three courses on the history

of philosophy (PHIL 112–119), plus 9 hours of electives.

### **MAJOR: Social Philosophy**

Thirty hours, including PHIL001, or 099, 050, 104, 105 and three of the following: 102, 106, 107, 110; plus 9 hours of electives.

### **MINOR:**

Twenty-one hours, including either PHIL001 or 099, 050, 102, and 104.

### **TEACHING MAJOR:**

Thirty-six hours including either PHIL001 or 099, 050, 104, 105, 112 or 113, 114, 120, 180, and one of the following: 115, 117, 160, 185. Students should see the department adviser for secondary teaching majors or minors to consult about the appropriate sequence of courses. It is also important that prospective teachers study carefully the School of Education section in this bulletin regarding university and state requirements (in addition to department requirements) for teacher certification.

Please refer to "Core Curriculum requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

### **TEACHING MINOR:**

Twenty-four hours including either PHIL001 or 099, 050, 104, 105, and 180. Education requirements must be completed for certification.

## **INTRODUCTORY COURSES**

### **PHIL001. Logic** 3 sem. hrs.

The goal of the course is to provide the student with an understanding of correct reasoning as it is employed in ordinary discourse. To this end, the course will study topics such as: terms and propositions, definition, opposition, induction and deduction, reasoning and argumentation, fallacies in argument. Offered every semester. Freshman standing recommended. May not be taken by engineering students to fulfill philosophy requirement.

### **PHIL050. Philosophy of Human Nature** 3 sem. hrs.

Investigation into the meaning of rational life. The course deals with the following four problem areas: human choice, human cognition, the affective, social and spiritual dimensions of the human person, and the unity of the human being. A substantive treatment of classical and Christian philosophical approaches will be included. Offered every semester. May not be taken by first semester freshmen.

### **PHIL 099. Modern Logic** 3 sem. hrs.

Introduction to techniques of symbolic logic. Primary emphasis on practical problem-solving. Propositional calculus, monadic predicate logic, and first-order general predicate logic. Techniques of truth-functional analysis and natural deduction. This course is equivalent to MATH 099. Offered occasionally. May not be taken by engineering students to fulfill philosophy requirement.

## **COURSES FOR JUNIORS AND SENIORS**

### **PHIL102. Metaphysics** 3 sem. hrs.

Investigation of such fundamental problems as the meaning and nature of reality as opposed to the unreal, the unity and diversity of real

things, substance and accident; internal and external principles or causes which are necessary for an intelligible explanation of reality. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL103. Philosophy of God** 3 sem. hrs.

The idea of God; the proofs of God's existence. God's nature and attributes; foreknowledge and free will; divine action in the universe; providence and the problem of evil. An appraisal of agnosticism, atheism, pantheism. A discussion of the modern substitutions for the notion of God. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL104. Theory of Ethics** 3 sem. hrs.

An investigation into the moral dimension of human life. Among the topics to be considered are the norms of morality and the general process of moral decision-making. Traditional natural law will be one of the points of view included. Offered every semester. *Prereq: Second semester soph. stndg. (45 cr. hours) and PHIL050.*

### **PHIL105. Contemporary Ethical Problems** 3 sem. hrs.

Ethical considerations such as human rights and responsibilities in social and racial justice, war and international relations, expression of dissent, and sexual conduct. Offered every semester. *Prereq: Jr. stndg. and PHIL104.*

### **PHIL106. Philosophy of the State** 3 sem. hrs.

Inquiry into the nature of political society. Writings of philosophers used toward understanding of political authority; the purpose of the State, human rights and responsibilities, and the relationships between the Church and State. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL 107. Philosophy of Law** 3 sem. hrs.

An inquiry into the nature and foundation of law, with particular attention to natural law, legal positivism and rights-based theories of law, theories of punishment and responsibility, and the relationship between law and morality. Offered annually. *Prereq: Jr. stndg. and PHIL 050.*

### **PHIL 108. Business Ethics** 3 sem. hrs.

An application of theories of ethics to the moral dimensions of business endeavors and their effects on individuals, organizations, and society. Selected topics may include issues of responsibility, discrimination and affirmative action in the workplace, whistle blowing, economic justice, environmental impact, and the effects of the "global economy." Offered every semester. *Prereq: Jr. stndg. and PHIL 104.*

### **PHIL 110. Philosophy of Community** 3 sem. hrs.

Community and communication, the individual and social dimensions of personal existence, the meaning and direction of human life and social interaction. Source works in both the American and Continental traditions. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL 112. Ancient Philosophy** 3 sem. hrs.

The main tendencies in the West, beginning with the early Greeks and continuing through the classical Roman philosophers. The philosophies of Plato, Aristotle, the Stoics, Plotinus.

Selections read in translation. Offered every semester. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL 113. Early Medieval Philosophy** 3 sem. hrs.

Outstanding figures in Christian philosophy from Augustine in the 4th century to Thomas Aquinas in the 13th century. Medieval Jewish and Arabian philosophers in their relation to Christian thought. Selections read in translation. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL 114. Modern Philosophy** 3 sem. hrs.

Beginnings of modern philosophy studied in the social, scientific, religious, and literary movements of the 16th century. Descartes and the philosophers whom he influenced. Hume, Kant. Special emphasis on the reading of selections from the philosophers' own works. Offered annually. *Prereq: Jr. stndg. and PHIL 050.*

### **PHIL 115. American Philosophy** 3 sem. hrs.

Outstanding figures from the colonial period to present day with emphasis on two or more of the following: Pierce, James, Dewey and Royce. Offered annually. *Prereq: Jr. stndg. and PHIL 050.*

### **PHIL 117. 19th Century German Philosophy** 3 sem. hrs.

A survey of some of the philosophical developments taking place in Germany from the post-Kantian idealism of Fichte, Schelling and Hegel to the thought of Nietzsche. Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL 119. Late Medieval and Renaissance Philosophy** 3 sem. hrs.

Outstanding figures and movements in late 13th and 14th centuries, and Renaissance. Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL120. Philosophy of Art and Beauty** 3 sem. hrs.

The relationship of art and nature. The artist's knowledge, which is practical and intuitive. The artist's work. Ethics and art. The objectivity and criteria of beauty in art. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL121. Philosophy of Language** 3 sem. hrs.

An examination of philosophical approaches to language selected from these: logical syntax (Camap), ordinary language (Austin), linguistic (Chomsky), phenomenological (Husserl). Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

### **PHIL122. Philosophy and Literature** 3 sem. hrs.

The relationship between philosophy and literature. The course will treat the following: philosophy in literature as the search for philosophical insights embedded in literary texts; philosophy of literature as a branch of aesthetics peculiar to literature; philosophical texts as literary expression as, for example, in the Straussian and deconstructionist approaches. Offered occasionally. *Prereq: PHIL050 and Jr. stndg.*

### **PHIL130. Philosophy of Natural Science** 3 sem. hrs.

Topics such as epistemological problems encountered in the natural sciences. The aim of science, the kind of knowledge it attains, and

the role of hypotheses. Elaboration of a systematic cosmology. Offered occasionally. *Prereq: Two semesters of science, Jr. stndg. and PHIL050.*

**PHIL131. Technology and the Human Condition** 3 sem. hrs.

This course attempts to understand the nature of technology and assess its role in human life. One of its goals is to evaluate various features of modern technology, including its positive and negative impact on human beings, their physical environment and their social institutions. Offered occasionally. *Prereq: Jr. stndg. and PHIL 050.*

**PHIL 132. Environmental Philosophy** 3 sem. hrs.

Philosophical inquiry into the relationship between humans and nature. Moral, scientific, and social problems posed by global environmental crises. Selected issues in value theory, ethics and aesthetics such as the value standing of natural objects and systems, the morality of trade-offs between species and the ethics of limiting consumption and population. Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

**PHIL 135. Philosophy of History** 3 sem. hrs. Meaning of history. Relation to philosophy and other disciplines. Possibility of a philosophy and theology of history. Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

**PHIL142. Philosophy of Knowledge** 3 sem. hrs.

Knowledge in general and of the cognitive acts—sensory and intellectual. The meaning of truth and man's attainment of it, the cause of error, the nature of science, and the diversity of human knowledge. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

**PHIL143. Feminist Philosophy** 3 sem. hrs. The history of philosophical views of women and a critical introduction to different types of feminism, e.g., liberal, existentialist, radical, Marxist, and socialist feminism. Includes such topics as feminist theory of knowledge, political theory, and ethics. Offered occasionally. *Prereq: PHIL050 and Jr. stndg.*

**PHIL150. Marx and Marxism** 3 sem. hrs. Marx's intellectual transition from "leftist" Hegelianism to dialectical materialism; and thence, from his study of political economics to *Das Kapital*. Developments and adaptations of Marx's thought as found in thinkers representative of various schools of Marx interpretation. Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

**PHIL151. Philosophy and History of Crime and Punishment** 3 sem. hrs.

A study of crime and punishment from philosophical and historical perspectives. Crime and punishment from both the European and the American experience will be discussed. Emphasis will be placed on the interdisciplinary nature (philosophical/historical institutions) of crime and punishment. May be counted toward the core curriculum requirement in Philosophy or social-behavioral science. Offered annually. Same as HIST 151 and CRLS 151. *Prereq: Jr. stndg. and PHIL050.*

**PHIL160. Existentialism** 3 sem. hrs. Writings of major 19th and 20th century Existentialists, including several of the following: Kierkegaard, Nietzsche, Heidegger, Jaspers, Marcel, and Sartre. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

**PHIL173. Philosophy of Religion** 3 sem. hrs. Philosophical reflections on religious activity and commitment. One or more of the following will be examined; religious experience, faith and understanding, religious use of language, the meaning of transcendence, prayer and worship, belief and unbelief. Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

**PHIL180. Special Methods of Teaching Philosophy in the Secondary School** 3 sem. hrs.

Problems, curricular materials, procedures, and sources in the teaching of philosophy; with special emphasis upon contemporary pilot programs in philosophy at the secondary level. Restricted to students pursuing the teaching major or minor. This course is equivalent to EDUC 145. Offered occasionally. *Prereq: EDUC 095, Jr. stndg., PHIL050, cons. of instr., admission to School of Education required.*

**PHIL 185. Twentieth-Century Anglo-American Philosophy** 3 sem. hrs.

A critical examination of a number of 20th century Anglo-American philosophers and philosophical movements. Movements considered will include some of the following: "Common Sense" Philosophy, Logical Atomism, Logical Positivism, and Ordinary Language Philosophy. Philosophers treated may include G.E. Moore, Bertrand Russell, Ludwig Wittgenstein, J.L. Austin, Elizabeth Anscombe, Willard Quine, Thomas Nagel, and Saul Kripke. Offered occasionally. *Prereq: Jr. stndg. and PHIL 050.*

**PHIL 188. Oriental Philosophies** 3 sem. hrs. The major systems of philosophy of India and China; early Vedic and Upanishadic systems, Buddhism, Brahmanism, Hinduism, Confucianism, Taoism, and Zen. Emphasis on the key ideas in Eastern philosophy. Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

**PHIL189. African-American Philosophy** 3 sem. hrs.

Historical and contemporary philosophical writings by African-Americans such as W.E.B. DuBois, Malcolm X, Cornel West, and Angela Davis. Perennial issues in philosophy of human nature and social/political philosophy from an African-American perspective, including some of the following topics: the nature of racism, race and self-consciousness, contemporary race relations, African Philosophy and its relation to African-American philosophy, and feminism. Offered occasionally. *Prereq: Jr. stndg. and PHIL050.*

**PHIL190. Special Questions in Philosophy** 3 sem. hrs.

Offered every semester. *Prereq: Jr. stndg. and PHIL050.*

**191. Medical Ethics** 3 sem. hrs.

An introduction to medical ethics which examines several approaches to ethics within the inter-related contexts of medicine, health care and the law. Topics investigated may include: professional-patient relationships; institutional

and social settings of care delivery; informed consent, confidentiality, and truth-telling; abortion; critically ill neonates; death and dying; mental illness; human experimentation; resource allocation; and justice and health care. Case studies may be selected in light of both students' pre-professional training and personal interests. Offered every semester. *Prereq: Jr. stndg., and PHIL104.*

**PHIL192. Health Care Ethics** 3 sem. hrs. Approaches to ethics, moral deliberation and decision making in the context of clinically-based health care. Topics may include: professional-client relationship, professional socialization, institutional and social settings of health care delivery, care of selected populations, and justice in the allocation of health care resources. Prior clinical experience required. Offered every semester. *Prereq: Sr. stndg., and PHIL104, NURS major or Sr. stndg., and PHIL104, cons. of instr.*

**PHIL195. Independent Study** 1-3 sem. hrs. Offered every semester. *Prereq: Cons. of dept. ch., Jr. stndg. and PHIL050.*

**PHIL 196. Undergraduate Seminar** 3 sem. hrs.

Designed to initiate a selected group of qualified undergraduates in the technique and discipline of scholarly research by concentrated work in a restricted field. Critical reading and analysis of sources. Specific subjects of seminars to be announced in the *Timetable of Classes*. Offered every semester. *Prereq: Jr. stndg. and cons. of instr. and PHIL050.*

**PHIL199. Senior Thesis** 3 sem. hrs. Preparation of a thesis by approved students under direction of an adviser. Offered every semester. *Prereq: Cons. of dept. ch.*

## PHYSICS (PHYS)

*Chairperson and Professor:* Karkheck  
*Professors:* Burch, Markowitz (*Emeritus*), Matthys, Mendelson, S. Tani (*Emeritus*)  
*Associate Professors:* Collins, Day  
*Assistant Professors:* Guha, Lamelas  
*Research Professor:* Lee  
*Research Associate Professor:* Sorbján  
*Lecturers:* Buxton, Joseph, Solocheh  
*Laboratory Supervisor:* Vigil  
*Adjunct Instructor:* Human

### MAJOR:

The following forms a common core and specifies the minimum requirements for a BS in physics for students with diverse career interests: PHYS 003, 004, 104, 105, 111, 131, 155, plus eight additional hours in upper division physics courses (30 hours); MATH 080, 081, 082, 083 (16 hours); and CHEM 001 and 002 (8 hours). Specific career preparation programs may require additional courses.

### MINOR

Twenty hours, including PHYS 001 and 002, or 003 and 004.

### AREAS OF CONCENTRATION:

Students interested in pursuing medical or dental professional studies also should take BIOL 001, 004, 090; and CHEM 023 and 024. They should consult with the pre-professional adviser for specifics regarding the various medical and professional school admission requirements.

To satisfy graduate school admission expectations, students interested in graduate study in physics should take: PHYS 112, 124, 132, 156, 157, and 162, (for a total of 38 hours in physics); MATH 182 (for a total of 19 hours in mathematics); and either three additional hours in upper division mathematics or PHYS 148.

Students also may concentrate in areas such as optics, computer science, engineering, business, or pre-law. Additional courses beyond the common core should be chosen in consultation with the physics faculty adviser.

### TEACHING MAJOR/MINOR:

Students interested in becoming elementary or secondary school teachers should contact the School of Education early in their Marquette careers. A teaching major in physics consists of the common core plus PHYS 009 and an additional physics credit hour, and education courses chosen in consultation with the director of teacher education in the School of Education.

A teaching minor includes the physics minor (but PHYS 009 is required) plus two additional physics credits plus the School of Education requirements. PHYS008 and 009 are required for the Broad Field Science major. In addition, the student must complete MATH 080, 081, and 082.

Please refer to "Core Curriculum Requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

#### PHYS 001. General Physics 1

3 lec. hrs., 2 hrs. lab., 1 hr. quiz, 4 sem. hrs. Newton's laws, linear motion, circular and harmonic motion, fluids, heat, kinetic theory, wave motion and sound. Offered fall semester. *Prereq: High school trigonometry or equivalent.*

#### PHYS 002. General Physics 2

3 lec. hrs., 2 hrs. lab., 1 hr. quiz, 4 sem. hrs. Continuation of PHYS 001. Electrostatics, DC circuits, magnetism, electromagnetic induction, light, optical instruments, interference and diffraction of light, modern physics. Offered spring semester. *Prereq: PHYS 001.*

#### PHYS 003. General Physics with Introductory Calculus 1

3 lec. hrs., 2 hrs. lab., 1 hr. quiz, 4 sem. hrs. Survey of classical physics for science majors and engineering students. Kinematics in one and two dimensions. Newton's laws of motion and dynamics, including rotation of rigid bodies. Energy concepts in physical systems. Newton's law of universal gravitation. Applications of these principles to simple harmonic motion, wave motion, and fluids. Thermodynamics. A command of high school algebra, geometry and trigonometry is assumed. Requires the use of introductory calculus. Offered fall semester. *Coreq: MATH 080.*

#### PHYS 004. General Physics with Introductory Calculus 2

3 lec. hrs., 2 hrs. lab., 1 hr. quiz, 4 sem. hrs. A continuation of PHYS 003. A survey of classical electromagnetic theory and optics, with a brief introduction to modern physics. Electricity and magnetism: Coulomb's law, Gauss's law, the electric field and the electric potential, DC circuits, Ampere's law, Faraday's law, electromagnetic waves. Optics: geometric optics, including lenses and mirrors; physical optics,

including interference and diffraction phenomena. Modern physics: the origins of quantum mechanics and models of the atom. Offered spring semester. *Coreq: MATH 081. Prereq: PHYS 003 and MATH 080.*

#### PHYS 005. Perspectives in Physical Sciences 1 3 sem. hrs.

Basic concepts in the physical sciences and their impact on technology, the humanities and the world. Course designed for non-science majors. This course satisfies the Arts and Sciences core curriculum requirement. Offered occasionally.

#### PHYS 006. Perspectives in Physical Sciences 2 3 sem. hrs.

Continuation of PHYS 005. Course designed for non-science majors. This course satisfies the Arts and Sciences core curriculum requirement. Offered occasionally. *Prereq: PHYS 005.*

#### PHYS 007. Survey of Meteorology 3 sem. hrs.

An introduction to the science of the atmosphere as it relates to the weather of the earth. Topics will include the gas laws, heat transfer, causes of the seasons, atmospheric optics, humidity, clouds, atmospheric stability, causes of precipitation, atmospheric motions, air masses, fronts and pressure systems, thunderstorms, tornados, and hurricanes. Emphasis will be put on how weather is forecast and how it relates to everyone's life. Satisfies Arts and Sciences core curriculum requirement. Offered fall semester.

#### PHYS 008. Astronomy and Space Physics 3-4 sem. hrs.

Physics of the solar system, universe, galaxies, and stars. Special subjects such as space probes, black holes, quasars, and neutron stars. Emphasis given to the physics of various astronomical phenomena. Course designed for non-science majors. Course satisfies Arts and Sciences core curriculum requirement. Offered every semester. *Note: 4 sem. hrs. credit only for Broad Field Science majors in Education and teaching minors, with cons. of dept. ch.*

#### PHYS 009. Earth and Environmental Physics 3-4 sem. hrs.

Impact of human activities on the terrestrial environment. Population and distribution of energy. Energy balance of the earth. Land and water use, the water cycle. Effects of chemical and physical pollutants on water and atmosphere. Offered spring semester. Course designed for non-science majors. Course satisfies Arts and Sciences core curriculum requirement. *Note: 4 sem. hrs. credit only for Broad Field Science majors in Education and teaching minors, with consent of dept. ch.*

#### PHYS 104. Modern Physics:

##### Atoms, Particles and Quanta 3 sem. hrs.

A survey of 20th century physics concentrating on atoms and particles. Quantum mechanics: origins, the Schrödinger equation, the hydrogen atom, many-electron atoms and angular momentum. Introduction to special relativity. Nuclear structure, radioactivity, nuclear reactions, fission and fusion. Elementary particles, conservation laws, reactions, the Standard Model, and cosmology. Offered fall

semester. *Coreq: MATH 082. Prereq: PHYS 002 or 004.*

#### PHYS 105. Modern Physics:

##### The States of Matter 3 sem. hrs.

A survey of the physics of matter and materials. Atoms and the forces between them, molecules, the states of matter, kinetic theory, perfect and imperfect gases. Statistical physics: classical statistics and the Boltzmann factor, quantum statistics. The solid state: cohesion and structure, electrical, magnetic, thermal and elastic properties. The liquid state: cohesion and structure, latent heat and melting, flow in ideal and real liquids. Offered spring semester. *Coreq: MATH 082. Prereq: PHYS 002 or 004.*

#### PHYS 111. Classical Mechanics 3 sem. hrs.

Three-dimensional motion of a particle in both Cartesian and spherical coordinate systems. Newtonian dynamics, the classical harmonic oscillator, central forces. Lagrange and Hamilton's formulations of analytical mechanics, angular momentum, Kepler's problem, and the dynamics of a rigid body. Coupled oscillators. Offered fall semester. *Prereq: PHYS 002 or PHYS 004, and Math 083.*

#### PHYS 112. Quantum Mechanics 3 sem. hrs.

Quantum states, state vectors, observables and operators. The formal structure of quantum mechanics. Time evolution of the state vector. The Hamiltonian. Position and momentum representations, and the wave function. One-dimensional wave mechanics and the harmonic oscillator. Three-dimensional wave mechanics. Symmetry, angular momentum, and the hydrogen atom. Fermions, and bosons. Perturbation methods. Offered spring semester. *Prereq: PHYS 104 and MATH 083.*

#### PHYS 124. Modern Optics 3 sem. hrs.

Geometric optics, classical wave theory of optics, interference, diffraction, polarization, electromagnetic theory of light, interaction of light and matter, lasers and coherence. Offered spring semester. *Prereq: PHYS 002 or 004, and MATH 081.*

#### PHYS 131. Electricity and Magnetism 1 3 sem. hrs.

Electro- and magnetostatics using vector calculus. Gauss's law, Coulomb's law, the electrostatic potential and solutions of Laplace's equation. Dielectrics and electrostatic fields. Microscopic theory of Ohm's law and steady state currents. The Lorentz force and forces on current carrying conductors. Biot-Savart law, Ampere's law, the magnetic vector potential and magnetic materials. Faraday's law and self and mutual induction. Offered fall semester. *Prereq: PHYS 002 or 004, and Math 082.*

#### PHYS 132. Electricity and Magnetism 2 3 sem. hrs.

Maxwell's equations, electromagnetic waves, plane wave propagation, reflection and refraction. Radiation from accelerated charges. Antennae. Waveguides. The special theory of relativity and electrodynamics. Offered spring semester. *Prereq: PHYS 131.*

#### PHYS 145. Introduction to Biophysics 3 sem. hrs.

Laws of physics applied to biological organisms: Biomechanics, fluids and blood

circulation, nerve cells and cell-cell communication, acoustics (hearing), and optics (vision). Discussion of some of the experimental techniques used to investigate the biological structure of organisms. Offered occasionally. *Prereq: PHYS 002 or 004.*

**PHYS 148. Mathematical Methods for Physicists** 3 sem. hrs.

This course presents mathematical methods applied to physical problems including Fourier Analysis, special functions, eigenvalue problems, the calculus of variations, probability and statistics. Offered occasionally. *Prereq: MATH 083, and PHYS 003 and 004.*

**PHYS. 149. Computational Physics** 3 sem. hrs.

Computational techniques applied to problems in the physical sciences. Construction of models of physical systems. Generation and analysis of data. The role of models in developing physical theories. Course assignments will use a variety of programming environments and commercial software. Offered occasionally. *Prereq: PHYS 111, and either Phys131 or EECE 121; or cons. of instr.*

**PHYS 155. Electronics Lab** 1 lec. hr., 3 hrs. lab, 2 sem. hrs.

Introduction to electronic measuring equipment and circuits. Voltmeters, ammeters, ohmmeters, oscilloscopes, DC and AC circuits, resistance, impedance, passive and active filters, power supplies, op-amps, amplifiers, and analog-digital conversion. An introduction to error analysis and precision of measurement. Offered fall semester. *Prereq: PHYS 004.*

**PHYS 156. Contemporary Physics Lab 1** 1 lec. hr., 3 hrs. lab, 2 sem. hrs.

Experiments in molecular, nuclear, atomic, solid state physics, and in geometrical and physical optics. Application of error analysis, precision of measurement, and propagation of errors. Offered spring semester. *Prereq: PHYS 155.*

**PHYS 157. Contemporary Physics Lab 2** 1 lec. hr., 3 hrs. lab, 2 sem. hrs.

Continuation of the experiments in PHYS 156. Measurement and propagation of uncertainty, curve fitting, automated data collection and experiment control. Offered spring semester. *Prereq: PHYS 156.*

**PHYS 162. Introduction to Thermodynamics** 3 sem. hrs.

Fundamental concepts of thermodynamics: temperature, internal energy, entropy and thermodynamic potentials. Laws of thermodynamics, their consequences and applications. Introduction to statistical thermodynamics. Offered fall semester. *Prereq: MATH 082 and PHYS 105.*

**PHYS 171. Atomic Physics** 3 sem. hrs.

Quantum mechanics of one and many electron atoms. Spin, orbital, and total angular momentum. Atoms in electric and magnetic fields, the Stark effect and the Zeeman effect. Atomic transitions, symmetry and selection rules. The periodic table and shell structure. Modern spectroscopy. Offered occasionally. *Prereq: PHYS 112 and 132.*

**PHYS 172. Introduction to Nuclear and**

**Elementary Particle Physics** 3 sem. hrs. Experimental methods in nuclear and particle physics. Theories of nuclear structure, radioactivity, decay schemes, fission and fusion models, conservation laws. Elementary particle classifications and the Standard Model. Offered occasionally. *Prereq: PHYS 112.*

**PHYS 175. Introduction to Solid State Physics** 3 sem. hrs.

Crystal structure of solids, the reciprocal lattice and diffraction. Lattice vibrations and thermal properties. Electrons in metals, band structure and semiconductors. The Fermi surface. Dielectric and magnetic properties of solids. Superconductivity. Offered occasionally. *Prereq: PHYS 105 and 112.*

**PHYS 195. Independent Study** 1–3 sem. hrs.

Independent study of special topics in physics under faculty supervision. Topics selected by students. This course may not be used to satisfy the 30 cr. hr. minimum requirements for a bachelor of science in physics. Offered every semester. *Prereq: Cons. of dept. ch.*

**PHYS 196. Seminar in Physics** 1 sem. hr.

Critical analysis of the original works of scientists who have made significant contributions to Physics. This course may not be used to satisfy the 30 cr. hr. minimum requirements for a bachelor of science in physics. Offered occasionally. *Prereq: Cons. of dept. ch.*

**PHYS 197. Undergraduate Research** 1–3 sem. hrs.

Experimental or theoretical research in an area of contemporary physics under the guidance of a physics faculty member who has expertise in that area. Successful completion of the course includes a summary paper and an oral presentation to the regular physics faculty. This course may not be used to satisfy the 30 cr. hr. minimum requirements for a bachelor of science in physics. *Prereq: Cons. of a regular physics faculty member and Jr. stndg.*

**PHYS 198. Topics of Special Interest in Contemporary Physics** 3 sem. hrs.

Topics drawn from areas of current interest such as astrophysics, atmospheric physics, condensed matter physics or particle physics. This course may not be used to satisfy the 30 cr. hr. minimum requirements for a bachelor of science in physics. Offered occasionally. *Prereq: Cons. of dept. ch.*

**PHYS 199. Senior Thesis** 2 sem. hrs.

Independent research under the guidance of physics faculty. The topic may be chosen from any area of physics. Successful completion of the course includes a written thesis on the research and an oral presentation. This course may not be used to satisfy the 30 cr. hr. minimum requirements for a bachelor of science in physics. *Prereq: Cons. of a regular physics faculty member and Sr. stndg.*

## POLITICAL SCIENCE (POSC)

*Chairperson and Professor: Wolfe*

*Assistant Chairperson and Associate Professor: Friman*

*Professors: Boles, Dobbs, Rhodes, Thomas*

*Adjunct Professor/McBeath Senior Research Scholar: Gill*

*Associate Professors: Fleet, LeBlanc,*

*McAdams, McCormick, Swank*

*Assistant Professor: Barrington*

*Adjunct Professor of American Government;*

*Director, Marquette University Les Aspin Center for Government: O'Brien*

### MAJOR:

Thirty-three hours, in one of the three tracks described below, including six credits in major writing enhancement classes (specified in each term's *Timetable of Classes*); and six credits from the lists of cognate courses. Students majoring in political science will choose one of the following three options:

#### Track I: Politics

POSC 020, 040, 060, and 080, and seven upper division courses chosen from at least three of Groups I-IV. Six credits from the following cognate courses: ECON 043, ECON 044, ENGL104, MATH 026, MATH 070, and any foreign language 082 or 182. Recommended major courses: POSC 190 and 193.

#### Track II: Law and Politics

POSC 020 and 080, and either POSC 040 or 060; eight upper division courses, including: POSC 133 and 134; POSC 165; POSC129 or 135; two other courses from Group I; and one course from Group III or Group IV. Six credits from the following cognate courses: ECON 043, ECON 044, MATH 026, MATH 070, and ENGL 104. Recommended major courses: POSC 190, 191, and 193. Recommended cognate courses: ENGL032, 033, 044, 165; ECON 125, 126, 182; HIST004, 005, 102, 107, 108, 111, 112; MATH 060; PHIL106, 107.

#### Track III: Global Politics

POSC 020, 040, and 060; eight upper division courses, including: POSC 165 or 167; POSC 177 or 178; one of: POSC 170, 173, 174, 175, 176; one of: POSC128, 129, 130, 135; one other course from Group I; and two course from Group III. Six credits of cognate courses: either a third year of foreign language, or ECON 043 and 044. Recommended major courses: POSC 190. Recommended cognate courses: foreign history and literature courses, including at least one of HISTGroup III or IV; THEO 166, 180, 182, 184, 185, 186; one of MATH 060 of COSC 050; ECON 154, 155, 156.

**Note:** Students enrolled in the Les Aspin Washington Center for Government program may count a maximum of nine credit hours in political science taken in the program towards the major.

### MINOR:

Eighteen hours, including POSC 020, 040, 060 and 080.

### TEACHING MAJOR:

Thirty-six hours, including POSC 020, 040, 060 and 080, and also including a second, upper division course from each of Groups I-IV. The department also strongly suggests that teaching majors select cognate courses from those listed in the various tracks above. Persons holding Wisconsin's Broad Field Social Studies license will be qualified to teach political science if they complete 15 semester hours in the discipline.

Students should see the department adviser for secondary teaching majors or minors to consult about the appropriate sequence of courses.

It is also important that prospective teachers study carefully the School of Education section of this bulletin regarding university and state requirements (in addition to department requirements) for teacher certification.

Please refer to "Core Curriculum Requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

## TEACHING MINOR:

Twenty-four hours, including POSC 020, 040, 060 and 080, and also including a second, upper division course from each of Groups I-IV.

## INTRODUCTORY COURSES

**POSC 020. American Politics** 3 sem. hrs.  
Problems of organizing and using governmental power at the national level. The principles of the U.S. Constitution. The Presidency, Congress and the federal judiciary. Public opinion, elections, political parties and interest groups. Issues of public policy. Offered every semester.

**POSC 040. Comparative Politics** 3 sem. hrs.  
Types of government, ranging from democratic to totalitarian. The parliamentary alternative to presidential democracy. Political modernization and revolution. Offered every semester.

**POSC 060. International Politics** 3 sem. hrs.  
Patterns of interaction among nations and sub-national and supranational entities. Cooperation and conflict. National interest, elements of power and war. Morality and human rights issues; economic, environmental, and resource issues in world politics. Recent developments and their impact. Offered every semester.

**POSC 080. Justice and Power** 3 sem. hrs.  
The debate between ancients and moderns about the fundamental elements of political life; as seen in works by Plato, Aristotle, Machiavelli, and Hobbes. Should be taken by POSC majors during sophomore year. Offered every semester.

## GROUP I: POLITICAL THEORY

**POSC 080. Justice and Power** 3 sem. hrs.  
Course description listed under Introductory Courses.

**POSC 100. Citizens, Beasts or Gods?** 3 sem. hrs.  
Are humans made for citizenship, for apolitical states of nature, or for self-transcendence into higher, suprapolitical beings? Authors such as Plato, Aristotle, Sophocles, Rousseau, Marx, Mill, and Nietzsche. Offered annually. *Prereq:* POSC 080 or Jr. stndg.

**POSC 101. The Best Constitution** 3 sem. hrs.  
What is the best constitution? The purposes, organizational principles, social bases, problems, and relative merits of ancient and modern types of kingship, tyranny, aristocracy, oligarchy, and democracy. Authors such as Xenophon, Aristotle, Locke, Montesquieu, and Rousseau. Offered annually. *Prereq:* POSC 080 or Jr. stndg.

**POSC 102. Democracy and Its Problems** 3 sem. hrs.  
Do democracies inevitably destroy themselves after a few decades or centuries, or can measures be taken to preserve them for longer

periods? What factors affect their stability? Authors such as Thucydides, Machiavelli, "Publius," Tocqueville, and selected contemporaries. Offered annually. *Prereq:* POSC 080 or Jr. stndg.

**POSC 104. Politics and the Kingdom of God** 3 sem. hrs.

Do the messianic prophecies and events of the Hebrew and Christian scriptures imply or demand the transformation of politics into embodiments of the divine Kingdom? What are the implications of revelation for politics? Biblical texts, patristic, medieval and modern theories. Offered occasionally. *Prereq:* POSC 080 or Jr. stndg.

**POSC 105. Karl Marx** 3 sem. hrs.  
Primary works on freedom and alienation, history, capitalism, revolution, and socialism that have inspired Marxist movements. Offered every two years. *Prereq:* POSC 080 or Jr. stndg.

**POSC 107. Political Novels** 3 sem. hrs.  
Great novelists of the past two centuries have offered important analyses of the grounds of order and the causes of disorder in human affairs. Achebe, Bellow, Conrad, Dostoyevsky, Mann, and Solzhenitsyn are among the writers selected for study. Offered annually. *Prereq:* POSC 080 or Jr. stndg.

**POSC 108. Postmodern Politics** 3 sem. hrs.  
Nietzsche and the thinkers following in his wake who have tried to create a postmodern world. Offered every two years. *Prereq:* POSC 080 or Jr. stndg.

## GROUP II: AMERICAN POLITICS

**POSC 020. American Politics** 3 sem. hrs.  
Course description listed under Introductory Courses.

**POSC 117. Urban Public Policy** 3 sem. hrs.  
Conditions in American cities and the extent to which they can be improved by political activity. Race relations, ethnicity and class and their effects on housing, education and income. Offered every two years. *Prereq:* POSC 020 or Jr. stndg.

**POSC 118. Urban Politics** 3 sem. hrs.  
Urban governmental structures and techniques of gaining power in urban areas. The role of elected and appointed officials, political parties, economic elites, neighborhood organizations, and ethnic groups in urban politics. Offered every two years. *Prereq:* POSC 020 or Jr. stndg.

**POSC 119. Politics of Race, Ethnicity, and Gender** 3 sem. hrs.  
The role of African-Americans, Asian Americans, Hispanics, white ethnics, American Indians, and women in shaping American politics through elections, political parties, and public office. The nature and impact of political organizations representing these groups. Offered every two years. *Prereq:* POSC 020 or Jr. stndg.

**POSC 121. Interest Group Politics** 3 sem. hrs.  
How groups are organized around particular economic interests and political preferences in order to influence policy-making institutions. The internal incentive structure of political organizations, including business, professional,

trade union, and "public interest" groups. Functions of, and biases inherent in, the group process. Offered annually. *Prereq:* POSC 020 or Jr. stndg.

**POSC 122. Religion and Politics** 3 sem. hrs.  
Religion and politics in contemporary America. The historic patterns and current interactions of religious movements, denominations, and individuals involved in American politics. Specific attention given to the rationales used for religious involvement in politics, the types of political behavior employed, and the consequences of that behavior. Offered occasionally. *Prereq:* POSC 020 or Jr. stndg.

**POSC 124. Elections, Parties and Political Opinion** 3 sem. hrs.  
The development, functions, and membership of political parties in the United States. The opinions Americans hold on various issues, and how these opinions are influenced by institutions, including the family, schools, and the media. Why Americans vote as they do, including the effect of political parties and issues. Voter apathy and alienation and their sources. Offered every two years. *Prereq:* POSC 020 or Jr. stndg.

**POSC 128. The United States Congress** 3 sem. hrs.  
Membership, legislative process, and internal distribution of power in the U.S. Congress. Congressional relationships with the presidency, executive bureaucracy, interest groups, and public. Offered annually. *Prereq:* POSC 020 or Jr. stndg.

**POSC 129. National Security Policy** 3 sem. hrs.  
Defense policy processes in the United States; issues in defense decision-making, including the roles of the public, interest groups, Congress, the President, and executive agencies, with emphasis on the defense establishment; U.S. strategic doctrines since World War II; budgeting; civil-military relations. Offered annually. *Prereq:* POSC 020 or Jr. stndg.

**POSC 130. The United States Presidency** 3 sem. hrs.  
The evolution and contemporary status of the American presidency. Presidential elections, policy-making, advisory systems, and relationships with Congress, the bureaucracy, and the courts. Problems and techniques of decision-making. Offered occasionally. *Prereq:* POSC 020 or Jr. stndg.

**POSC 133. Constitutional Law** 3 sem. hrs.  
Development of American constitutional law in the areas of judicial power, separation of powers, the presidency, state and national regulation of commerce, the taxing and spending power, and the rise and decline of due-process property rights. Same as CRLS133. Offered occasionally. *Prereq:* POSC 020 or Jr. stndg.

**POSC 134. Civil Liberties** 3 sem. hrs.  
Development of American constitutional law in the areas of criminal defendants' rights, freedom of speech and religion, equal protection of the laws, and noneconomic due-process rights. Offered annually. *Prereq:* POSC 020 or Jr. stndg.

**POSC 135. American Public Policy**

3 sem. hrs.

U.S. domestic policy with special attention to the politics of national policy in the areas of the economy, social welfare, and the environment. The stages of the policy process: agenda-building, formation, budgeting, implementation, and evaluation. Offered every two years. *Prereq: POSC 020 or Jr. stndg.*

**GROUP III: COMPARATIVE POLITICS****POSC 040. Comparative Politics** 3 sem. hrs.

Course description listed under Introductory Courses.

**POSC 141. Public Policy in Industrial Democracies** 3 sem. hrs.

Politics of public policies in democratic political systems, with special attention to North America, Western Europe, and Japan. Alternative theoretical perspectives on the problem of social choice in democracies. Problems and policies in the areas of the economy, education, health, welfare, and the environment. Offered annually. *Prereq: POSC040 or Jr. stndg.*

**POSC 142. European Politics** 3 sem. hrs.

Nationalism and European identity; evolution of executive and legislative institutions; political parties; ongoing changes in the welfare state and state socialism; transformation of class structure; the challenge of post-industrial society. Include both Eastern and Western Europe. Offered annually. *Prereq: POSC 040 or Jr. stndg.*

**POSC 145. Democracy, Authoritarianism and Totalitarianism** 3 sem. hrs.

Three "ideal types" of political systems, and their manifestations in countries at different points in time. Topics include power, legitimacy, ruling elites, institution and economics. Examination of political system change through coup, revolution and peaceful transition. Offered occasionally. *Prereq: POSC 040 or Jr. stndg.*

**POSC 148. Modern Revolutions** 3 sem. hrs.

Types and causes of revolutions. Modern case studies. The American, French, Russian, German and selected "Third World" revolutions, with attention to ideas, institutions, socio-economic conditions, and the nature of actual changes. Offered every two years. *Prereq: POSC 040 or Jr. stndg.*

**POSC 152 Russian and Post-Soviet Politics** 3 sem. hrs.

Developments in Russia and the other countries which emerge from the collapse of the Soviet Union. Brief coverage of tsarist and Soviet politics, with a particular emphasis on reasons for the USSR's collapse and Soviet legacies, followed by an overview of domestic and international politics in the region. Offered every two years. *Prereq: POSC 040 or Jr. stndg.*

**POSC 154. Chinese Politics** 3 sem. hrs.

Origins of the Chinese Revolution, political change and conflict in post-1949 China, and the contemporary political system and political developments. Offered annually. *Prereq: POSC 040 or Jr. stndg.*

**POSC 155. Japanese and Korean Politics**

3 sem. hrs.

Political culture, unique patterns of modernization, and the contemporary political system in Japan and the two Koreas. Offered occasionally. *Prereq: POSC 040 or Jr. stndg.*

**POSC 156. Latin American Politics**

3 sem. hrs.

Government and politics in major Latin American countries. The politics of social change and development, seizures of power and rule by the military, and the role of external factors. Offered annually. *Prereq: POSC 040 or Jr. stndg.*

**POSC 158. Politics of the Indian Subcontinent** 3 sem. hrs.

The British in India; the Indian nationalist movement and the Hindu-Muslim struggle; political systems in India and Pakistan; the creation of Bangladesh; linguistic, economic, and social issues in South Asia. Offered every two years. *Prereq: POSC 040 or Jr. stndg.*

**POSC 159. Third World Politics** 3 sem. hrs.

Politics of agricultural development, industrialization, military intervention, and social and cultural conflict in Third World Countries. Offered every two years. *Prereq: POSC 040 or Jr. stndg.*

**GROUP IV: INTERNATIONAL POLITICS****POSC 060. International Politics** 3 sem. hrs.

Course description listed under Introductory Courses.

**POSC 165. International Law** 3 sem. hrs.

Law among states in peace and war. Historical background and political foundations of international law. The influence of judicial decisions, international courts and organizations, treaties, and practices of states upon the growing body of international law. Offered annually. *Prereq: POSC 060 or Jr. stndg.*

**POSC 167. International Organization**

3 sem. hrs.

Development and characteristics of international organizations. Functions of the League of Nations, the United Nations, and other organizations. Major contributions to international peace. Main political and legal problems. Offered annually. *Prereq: POSC 060 or Jr. stndg.*

**POSC 170. United States Foreign Policy**

3 sem. hrs.

Objectives of American foreign policy. Problems facing the United States in its relations with other countries. Trade, aid, propaganda and alliances as instruments of foreign policy. Offered annually. *Prereq: POSC 060 or Jr. stndg.*

**POSC 173. International Politics of Europe**

3 sem. hrs.

Evolution of the post-war settlement in Europe. Western European and Eastern European integration, relations between Western and Eastern Europe, Europe and the superpowers, French-German and intra-German relations, Europe and the Third World, European security issues. Offered occasionally. *Prereq: POSC 060 or Jr. stndg.*

**POSC 174. International Politics of the Middle East** 3 sem. hrs.

Historical and religious background of Middle East politics; comparative ideologies and political systems in the Middle East; Arab-Israeli relations; Persian Gulf politics; politics in the Maghreb; great power interests in the region. Offered occasionally. *Prereq: POSC 060 or Jr. stndg.*

**POSC 175. International Politics of Asia** 3 sem. hrs.

Principal patterns and problems of international politics in Asia, including international political economy, development and security issues, and the impact of global trends. Regional focus varies with instructor. Offered annually. *Prereq: POSC 040 or 060 or Jr. stndg.*

**POSC 176. United States-Latin American Relations** 3 sem. hrs.

United States response to reform and revolutionary movements and governments in Latin America. The politics of trade, foreign investment, foreign assistance, and human rights. Offered every two years. *Prereq: POSC 060 or Jr. stndg.*

**POSC 177. Politics of the World Economy** 3 sem. hrs.

Political and economic dynamics of the world economy; historical and theoretical roots; international trade and monetary relations and the impact of hegemony, interdependence, regimes, and domestic politics; trade, debt, multinational corporations, and the dynamics of dependency and development; communism, capitalism, and change. Offered annually. *Prereq: POSC 060 or Jr. stndg.*

**POSC 178. World Conflict and Security** 3 sem. hrs.

Classical and contemporary theories of war and peace; just and unjust wars; principles of strategic analysis, arms control, and security policy-making; the proliferation of nuclear, chemical, and biological weapons. The international trade in arms; nationalism, ethnic conflict, and wars of secession. Offered annually. *Prereq: POSC 060 or Jr. stndg.*

**SPECIAL COURSES****POSC 190. Contemporary Political Research** 3 sem. hrs.

Approaches to the scientific study of politics; statistical and other selected research techniques. Offered annually. *Prereq: POSC 020 or Jr. stndg.*

**POSC 191. The Logic of Social Inquiry:****The Kennedy Assassination** 3 sem. hrs.

The Kennedy Assassination. The question of who killed President John F. Kennedy, and whether there was a conspiracy. The physical evidence; eyewitness testimony; Lee Harvey Oswald, Jack Ruby, and suspected conspirators. The logic of social inquiry, and how we can approach "conspiracy" as an hypothesis to be tested. Offered annually. *Prereq: POSC 020 or Jr. stndg.*

**POSC 193. Internship in Politics**

1–4 sem. hrs.

Practical learning experience in politics. Evaluation will require the student to relate the experience to literature on the subject.

Arrangements to be worked out by student, faculty member and agency concerned. Normally may be taken once. A second internship may be taken in Washington, with permission of department chair or director of Les Aspin Center for Government. Second internships will count toward university elective credit, but not toward the political science major or minor. The 4-credit section is limited to students in the Washington Program. Offered every semester. *Prereq: POSC 020 or jr. stndg; 2.5 MU Q.P.A.; and cons. of dept. ch. and cons. of instr.*

**POSC 195. Independent Study** 1-3 sem. hrs. Offered every semester. *Prereq: Jr. or Sr. stndg. and cons. of dept. ch. and cons. of instr.*

**POSC 196. Undergraduate Seminar** 3 sem. hrs.

Designed to initiate a selected group of qualified undergraduates in the techniques and discipline of scholarly research by concentrated work in a restricted field. Students pursue course reading in preparation of reports, while working under close supervision of a professor. Course intended primarily for Political Science majors, but other qualified students may apply. Specific subjects of seminars to be announced in the *Timetable of Classes*. Offered occasionally. *Prereq: Jr. stndg. and cons. of instr.*

**POSC 198. Topics in Political Science** 2-3 sem. hrs.

Lectures and discussion in a broad area which, because of its topicality, is not the subject of a regular course. May be taken a maximum of three times. Offered occasionally. *Prereq: Jr. stndg.*

**POSC 199. Senior Thesis** 3 sem. hrs. Preparation of a thesis by approved students under the direction of an adviser. Offered every semester. *Prereq: Sr. stndg., cons. of dept. ch., and three sem. hrs. of POSC 195 (may be taken concurrently).*

## PSYCHOLOGY (PSYC)

*Chairperson and Associate Professor: Lueger*  
*Professors: Berkowitz, Quereshi, Sheikh*  
*Associate Professors: Czech, Franzoi, Guastello, McDonald (Emeritus), Nash, Wierzbicki*  
*Assistant Professors: Grych, Nielson, Saunders, Siderits, Wandrei*  
*Lecturers: Heckman, Henricks, Schaefer, Smuckler, Suarez, Vice*

### MAJOR:

Thirty-five hours including PSYC 001, 060 and 090, and at least one course from at least five of the following eight content areas: Developmental (101, 102, or 103); Social (111 or 104); Learning (121 or 122); Assessment (127 or 131); History and Systems (128); Personality Theories (132); Physiological (129 or 135); and Abnormal (137).

### MINOR:

Six courses in psychology, including PSYC 001.

### TEACHING MAJOR:

Thirty-five hours including PSYC 001, 060, 090, 101, 102, 121 or 122, 128, 131, 132, 137 and any one upper division course.

Students should see the department adviser for secondary teaching majors or minors to consult about the appropriate sequence of courses. It is also important that prospective teachers study carefully the School of Education section of this bulletin regarding university and state requirements (in addition to department requirements) for teacher certification.

Please refer to Core Curriculum Requirements for Education Majors under Graduation Requirements in the College of Arts and Sciences section of this bulletin.

### TEACHING MINOR:

Twenty-six hours including PSYC 001, 060, 090, 101, 102, 128, 131, and 132.

## EDUCATION COURSES FOR TEACHING MAJOR AND TEACHING MINOR:

Teaching majors and minors are also required to take 36 semester hours of courses in education including EDUC 008, 048, 078, 088, 095, 125, 135, 145, 158 and 175 or 176.

**PSYC001. General Psychology** 3 sem. hrs. Introduction to scientific psychology: biological bases of behavior; perception; principles of learning; intelligence and personality testing; current theories of personality; conflict, adjustment and mental health; interpersonal relations; social processes; applications of psychological principles to human affairs. Three hours of classroom instruction and one optional discussion hour for review of exams and special assistance with selected areas of course content. Offered every semester.

**PSYC060. Psychological Measurements and Statistics** 3 hrs. lec., 2 hrs. lab., 4 sem. hrs.

Logic and rationale of psychological measurement. Scales of measurement and statistical techniques. Descriptive statistics, the normal distribution and sampling theory, introduction to statistical inference. T-test, simple analysis of variance, chi square, measures of correlation. Offered every semester. *Prereq: PSYC 001; and either three years of high school mathematics or MATH 020 or its equivalent.*

**PSYC078. Introduction to Life-span Developmental Psychology** 3 sem. hrs.

Principles, theories, and research in development. The entire life-span from conception to death will be studied with emphasis on theoretical approaches and empirically obtained data. The effects of genetic, social, and environmental factors on typical development patterns. Offered every semester. *Prereq: PSYC 001 or equivalent.*

**PSYC090. Experimental Psychology**

3 hrs. lec., 2 hrs. lab., 4 sem. hrs. Scientific methodology and its application in psychology with emphasis on the experimental method. Experimental and quasi-experimental designs, and selection of analysis procedures. Individual laboratory projects and preparation of scientific reports. Content principally in areas of sensation and perception; learning and motivation. Offered every semester. *Prereq: PSYC 001 or equivalent; and PSYC 060.*

**PSYC101. Developmental Psychology 1: Conception Through Childhood** 3 sem. hrs.

Survey of theory and research in child development, focusing on prenatal, infant and child years. Typical developmental patterns will be analyzed, as will genetic, social, and environmental determinants. Offered annually. *Prereq: PSYC 001 or equivalent.*

**PSYC102. Developmental Psychology 2: Adolescence Through Young Adulthood** 3 sem. hrs.

Survey of theory and research in adolescence and young adulthood. Typical developmental patterns will be analyzed, as will genetic, social, and environmental determinants. Offered annually. *Prereq: PSYC 001 or equivalent.*

**PSYC103. Developmental Psychology 3: Adulthood and Aging** 3 sem. hrs.

Survey of theory and research in adulthood. Emphasis on adulthood, middle age, and old age. Typical developmental patterns will be analyzed, as will genetic, social, and environmental determinants. Offered annually. *Prereq: PSYC 001 or equivalent.*

**PSYC104. Industrial Psychology** 3 sem. hrs. Psychology applied to basic problems of industry: personnel selection, motivation, training, job satisfaction, job safety, leadership, performance appraisal, job analysis, and pertinent legal issues. Offered annually. *Prereq: PSYC 001 or equivalent.*

**PSYC107. The Psychology of the Exceptional Child** 3 sem. hrs.

Description and psychological implications of various forms of physical and mental deviations. Educational, vocational, therapeutic and social facilities for exceptional children. May be taken for credit in special education by minors in special education-speech therapy. Offered annually. *Prereq: PSYC 101 or equivalent; or cons. of instr.*

**PSYC 111. Introductory Social Psychology** 3 sem. hrs.

The nature and concept of social psychology. Socialization of the child. Small group behavior including conformity, leadership, problem-solving. Attitudes and attitude change, prejudice, racism and sexism. Comparative studies in social behavior. Social psychology of the research situation. Offered every semester. *Prereq: PSYC 001 or equivalent.*

**PSYC 112. The Psychology of Prejudice** 3 sem. hrs.

An overview of theory and research on the psychological underpinnings of intergroup intolerance, with emphasis given to racism, sexism, and heterosexism. *Prereq: PSYC 001.*

**PSYC 114. Human Factors Engineering** 3 sem. hrs.

Person-machine interactions, including sensory and motor phenomena and human limitations, controls and displays for computer-based and conventional machines, human information processing and artificial intelligence, workspace and environmental factors that influence optimal performance, relevant legal issues and human functioning in outer space. Offered

annually. *Prereq: PSYC 001 or equivalent and Jr. stndg.; or cons. of instr.*

### **PSYC121. Learning and Behavior**

3 sem. hrs.

A comprehensive survey of methods and findings of classical and operant conditioning. Some introduction to theories of learning. Offered annually. *Prereq: PSYC 001 or equivalent.*

### **PSYC122. Cognition**

3 sem. hrs.

A systematic survey of classical and contemporary research topics in human learning; information processing, concept formation, problem-solving, verbal and motor learning. Offered annually. *Prereq: PSYC 001 or equivalent.*

### **PSYC127. Principles of Psychological Testing**

3 sem. hrs.

The nature of psychological measurement. Principles of evaluation, construction and analysis of tests. Uses and classification of tests. Standards of ethical conduct in using tests. Individual and group tests of aptitude, achievement, interests, attitudes, values and personality adjustment. Offered annually. *Prereq: PSYC 001 or equivalent; and PSYC 060.*

### **PSYC128. History and Systems of Psychology**

3 sem. hrs.

The development of psychological thinking from the 17th century to the present. The contributions of Descartes and Newton to Locke and the other British empiricists and, through them, to German mechanism and physiological psychology. The influence of Darwin, Freud, behaviorism and Gestalt psychology. The phenomenological and humanistic movement after World War II. Offered annually. *Prereq: PSYC 090 or Sr. stndg.*

### **PSYC129. Sensory Processes and Perception**

3 sem. hrs.

The physiological processes underlying the various sensory systems with special emphasis on visual and auditory sensory and perceptual phenomena. Offered annually. *Prereq: PSYC 001 or equivalent.*

### **PSYC130. Psychology of Motivation**

3 sem. hrs.

Theoretical and empirical aspects of the concepts of motivation as they relate to various behaviors. The nature of arousal and primary drives (hunger, sex, etc.) will be explored with emphasis given to learned motives. Offered annually. *Prereq: PSYC 001 or equivalent.*

### **PSYC131. The Psychology of Individual Differences**

3 sem. hrs.

Problems and methods in the study of human differences. Physical, mental, racial, social and cultural variability. Offered annually. *Prereq: PSYC 001 or equivalent; and PSYC 060.*

### **PSYC132. Theories of Personality**

3 sem. hrs.

The formulation of personality theory, its purpose and problems. Psychoanalytic, behavioral, humanistic, and other theories of personality and their various applications to human behavior. Review of relevant research findings. Offered every semester. *Prereq: PSYC 001 or equivalent.*

### **PSYC135. Biopsychology**

3 sem. hrs.

Biological foundations of behavior with emphasis on the nervous system. Physiological mechanism in sensation, perception, motivation, emotion and learning. Functional neuroanatomy. Offered without a laboratory component. Offered annually. *Prereq: PSYC 090 or cons. of instr.*

### **PSYC136. Animal Behavior**

3 sem. hrs.

Animal behavior, both in natural and experimental situations, emphasizing early experience, motivation, physiological mechanisms, adaptiveness and the evolution of behavior. Offered occasionally. *Prereq: PSYC 001 or equivalent.*

### **PSYC137. Abnormal Psychology**

3 sem. hrs.

The nature of normality-abnormality. Defense mechanisms and neurotic symptomatology. Functional psychoses and the personality pattern disturbances. Character disorders including sociopathy and passive-aggression, the addictions and sex deviations. Organic and psychosomatic disorders. Offered every semester. *Prereq: PSYC 001 or equivalent.*

### **PSYC138. Childhood Psychopathology**

3 sem. hrs.

The major types of psychological disturbances in children viewed as deviations from normal development. Causative factors in the genesis of behavior problems, with emphasis on social learning. Behavior modification techniques used with children. Offered annually. *Prereq: PSYC 101 or cons. of instr.*

### **PSYC139. Introduction to Clinical Psychology**

3 sem. hrs.

Clinical psychology as a science and profession is discussed. Topics include the history, ethics, theories, roles and methods of clinical psychology. Also addressed are current issues concerning the practice of clinical psychology. Offered occasionally. *Prereq: PSYC 132 and 137.*

### **PSYC145. Psychology of Language**

3 sem. hrs.

Survey of methods and results of research on language development and function; verbal behavior; language learning and bilingualism; speech perception; language disorders. Offered occasionally. *Prereq: PSYC 001.*

### **PSYC157. Psychology of Marriage and Family**

3 sem. hrs.

Psychological theory and research pertinent to understanding marital and family functioning. Topics vary, but include the development of intimate relationships, the transition to parenthood, divorce, and family violence. Offered occasionally. *Prereq: PSYC 001 and sr. stndg.*

### **PSYC160. Psychology of Religion**

3 sem. hrs.

Empirical research and findings pertinent to religion and religious experiences; psychological theories regarding religion; religious practices and experiences; religious orientation and awareness. Offered occasionally. *Prereq: PSYC 001.*

### **PSYC165. Human Sexuality**

3 sem. hrs.

The scientific study of human sexuality from both a biological and behavioral perspective. Topics include: male and female sexual anatomy and

sexual functioning, conception, pregnancy, childbirth, sexual variations, and sexually transmitted diseases. Offered annually. *Prereq: PSYC 001 or equivalent or cons. of instr.*

### **PSYC166. Psychology of Gender Roles**

3 sem. hrs.

Biological and cultural bases of gender roles; the psychology of women and men and the consequent relationships between the sexes; the pressures of gender stereotype and the bases of non-stereotypic childrearing; implications of anthropological investigations for an understanding of sex role ascriptions; relationship between gender role and responses to sexuality; remedial education for personhood. Offered annually. *Prereq: PSYC 001 or equivalent.*

### **PSYC170. The Psychology of Death and Dying**

3 sem. hrs.

Review of the psychological literature on death. Social and individual attitudes toward death. Reactions to the anticipation of the death of self and of significant others. Ways of responding to loss and death including grief, mourning, and bereavement. A survey of the various theories of death and suicide. Offered annually. *Prereq: PSYC 001 or equivalent.*

### **175. Health Psychology**

3 sem. hrs.

This course examines the psychological aspects of health and illness. Topics include health promotion, stress and coping, prevention, lifestyle and health, psychological adaptation to chronic illness and pain, rehabilitation, and health service delivery. Offered occasionally. *Prereq: PSYC 001.*

### **PSYC180. The Psychology of Fantasy and Imagination**

3 sem. hrs.

Review of theoretical, experimental, and clinical literature on fantasy and imagination; development of imaginal processes; types of imagery; cerebral asymmetries and the imaging process; physiology of imagination; imagery and learning; imagery and verbal communication; role of fantasy and imagination in creativity; imagination and make believe play; function of fantasy in sexual behavior; diagnostic and therapeutic uses of fantasy and imagination; role of imagination in hypnosis. Offered annually. *Prereq: PSYC 001 or equivalent.*

### **PSYC195. Independent Study**

1-3 sem. hrs.

Independent study and research under the direction of a faculty member. Offered every semester. *Prereq: Cons. of dept. ch.*

### **PSYC196. Advanced Undergraduate Seminar**

3 sem. hrs.

Readings and discussion course designed to provide a high level overview of psychology with an emphasis on selected current topics. Each student will be expected to design and propose, but not necessarily conduct, a specific scholarly project. Offered annually. *Prereq: Cons. of instr.*

### **PSYC198. Selected Topics in Psychology**

3 sem. hrs.

Contemporary theoretical and research trends in selected contemporary areas of psychology. Topics to be announced. Offered occasionally. *Prereq: Cons. of instr.*

**PSYC199. Senior Thesis** 3 sem. hrs.  
Conduct empirical research involving an original research question under the direction of a psychology faculty adviser. Open to psychology majors. Offered every semester. *Prereq: PSYC 090 or sr. stdng.; and grade point average of at least 3.500 in psychology, and 3.000 overall; and cons. of dept. ch. Maximum of six credits available for 199 alone or 195 and 199 combined.*

## RESERVE OFFICERS' TRAINING CORPS

### Air Force Aerospace Studies (AFAS)

*Chairperson and Professor:* Shappell  
*Associate Professors:* T. Jones, Naughton, Wagner

AFAS courses are available to all Marquette University students, and especially intended for those enrolled in the Air Force ROTC Program. For information on the AFROTC Program see the University section of this bulletin.

*Note:* AFROTC students should note that most programs will probably entail more than the 128 hours normally required for graduation.

#### MINOR

AFAS011, 012, 021, 022, 131, 132, 141 and 142; plus 051 taken each semester; for a total of 16 credits. In addition the student must complete 6 credits to obtain breadth of knowledge and a basis for understanding Joint Military Doctrine. Political Science (choose 1): 128 Congress and the President or 129 National Security Policy. Military Science/Army (choose 1): 010 Intro to Military Science or 011 Intro to Military Leadership. Naval Science/Navy (choose 1): 009 Intro to Naval Science or 022 Seminar in Sea Power.

*Note:* The courses in Army and Navy may not be taken until completing the Air Force required summer camp (usually taken between sophomore and junior year).

#### **AFAS 011. Foundations of the Air Force Today** 1 sem. hr.

Introduction to the organizational structure and missions of Air Force organizations; officership and professionalism; and includes an introduction to communicative skills. Open to all students. Students pursuing an Air Force commission must register for AFAS 051.

#### **AFAS 012. Foundations of the Air Force Today** 2 sem. hr.

Continuation of AFAS 011. Open to all students. Students pursuing an Air Force commission must register for AFAS 051.

#### **AFAS 013, 023, 133, 143. Air Force Health and Fitness** 1, 3, 5, 7 1 sem. hr.

A survey course designed to promote self responsibility and a holistic approach to health and fitness. This course provides the knowledge needed to make informed decisions about nutrition, stress management, and alcohol and tobacco use. Proper warm-up and exercise techniques are taught and the framework for

improved physical conditioning is built. *Coreq: AFAS 054.*

#### **AFAS 014, 024, 134, 144. Air Force Health and Fitness** 2, 4, 6, 8 1 sem. hr.

A continuation of Air Force Health and Fitness 1. It builds upon previously taught health and fitness principles and focuses on their application. All aspects of physical conditioning will be practiced, including cardiorespiratory endurance, strength development and flexibility. Nutrition and conditioning will be measured, individual goals established, and progress monitored. *Coreq: AFAS 054. Prereq: AFAS 013 or cons. of instr.*

#### **AFAS 021. Evolution of the Air Force/Air and Space Power** 1 sem. hr.

Focuses on factors contributing to the development of air power from its earliest beginnings through two world wars; the evolution of air power concepts and doctrine; and an assessment of communicative skills. Open to all students. Students pursuing an Air Force commission must register for AFAS 051.

#### **AFAS 022. Evolution of the Air Force/Air and Space Power** 2 sem. hr.

Continuation of AFAS 021. Open to all students. Students pursuing an Air Force commission must register for AFAS 051.

#### **AFAS 051. Leadership Laboratory** 0 sem. hrs.

An average of two hours per week throughout the student's enrollment in AFROTC. Supervised instruction is conducted within the framework of organized cadet corps activities designed to develop each student's leadership potential. Also Air Force customs and courtesies, drill and ceremonies, career opportunities, and the life and work of an Air Force junior officer. All students pursuing Air Force commission must register for this course.

#### **AFAS 054. Air Force Fitness Laboratory** 0 sem. hrs.

The practical application of the concepts and theories presented in the AFAS Air Force Health and Fitness Series. Students will improve physical conditioning through group fitness activities. Students enrolled in AFAS 013, 014, 023, 024, 133, 134, 143, or 144 must enroll in a section of AFAS 054. S/U grade assessment.

#### **AFAS 131. Air Force Leadership Studies** 1 3 sem. hrs.

A study of leadership and quality management fundamentals, professional knowledge, leadership ethics, and communicative skills required of an Air Force officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. Students pursuing an Air Force commission must register for AFAS 051.

#### **AFAS 132. Air Force Leadership Studies** 2 3 sem. hrs.

Continuation of AFAS 131. Students pursuing an Air Force commission must register for AFAS 051.

#### **AFAS 141. National Security Affairs/Preparation for Active Duty** 1 3 sem. hrs.

Examines the need for national security, analyzes the evolution and formulation of the American defense policy, strategy, and joint doctrine; investigates the methods for managing conflict; and overviews regional security, arms control, and terrorism. Special topics of interest focus on the military as a profession, officership, the military justice system, and current issues affecting military professionalism. Within this structure, continued emphasis is given to the refinement of communicative skills. Students pursuing an Air Force commission must register for AFAS 051.

#### **AFAS 142. National Security Affairs/Preparation for Active Duty** 2 3 sem. hrs.

Continuation of AFAS 141. Students pursuing an Air Force commission must register for AFAS 051.

**AFAS 195. Independent Study** 1-3 sem. hrs.  
Independent study of special topics in Aerospace Studies under faculty supervision. Topics selected by student/faculty conference. Offered every semester. *Prereq: Cons. of dept. ch.*

## Military Science (MISC)

*Chairperson and Professor:* P. Johnson  
*Assistant Professors:* Cushman, Horn, Krahling  
*Lecturers:* Clarke, Moses, Tramble

#### MINOR:

MISC 001-008, 010, 011, 024, 025, 135, 136, 137, 138, 144, 146, 147, 148, and HIST 118. In addition, the student must complete one semester of written communication and one semester of computer literacy.

*Note:* For a general discussion of the Army Reserve Officer Training Corps Program see the section entitled Military Science in the University section of this bulletin.

*Note:* The required history for senior AFROTC students is HIST 118, offered fall semester.

*Note:* In addition to Military Science courses listed here, Army Reserve Officers' Training Corps students are encouraged to complete a course in national security policy (POSC 129) and in management.

*Note:* Army Reserve Officers' Training Corps students should note that when most majors are combined with the Military Science Program, graduation and commissioning requirements will exceed the 128-134 semester hours normally required for graduation.

#### **MISC 001, 003, 005, 007 Physical Training Laboratory** 1 sem. hr.

Goal-oriented, small unit approach to physical conditioning and military drill. The physical conditioning phase is conducted two times per week. Conditioning is oriented towards strength development, cardiorespiratory endurance, and flexibility. Physical development and the ability to master principles of small unit leadership are stressed. Cadet physical development is measured by the Army Physical Fitness Test, consisting of pushups, situps, and a timed two-mile run. Drill instruction is conducted on Fridays, and stresses fundamentals of unit organization,

wear of the uniform, and practical application of small unit leadership techniques. The Physical Training Laboratory is required for all cadets who are enrolled in Military Science courses. Non-military Science students may elect to take only the physical conditioning portion of the Laboratory. Offered fall semester.

**MISC 002, 004, 006, 008 Physical Training Laboratory** 1 sem. hr.

Goal-oriented, small unit approach to physical conditioning and military drill. The physical conditioning phase is conducted two times per week. Conditioning is oriented towards strength development, cardiorespiratory endurance, and flexibility. Physical development and the ability to master principles of small unit leadership are stressed. Cadet physical development is measured by the Army Physical Fitness Test, consisting of pushups, situps, and a timed two mile run. Drill instruction is conducted on Fridays, and stresses fundamentals of unit organization, wear of the uniform, and practical application of small unit leadership techniques. The Physical Training Laboratory is required for all cadets who are enrolled in Military Science courses. Non-Military Science students may elect to take only the physical conditioning portion of the Laboratory. Offered spring semester.

**MISC 010. Introduction to Military Science** 1 sem. hr.

Introduction to the national security structure with emphasis on today's Army. Role of the Reserve Officers' Training Corps in providing leaders for the Army. Roles of active and reserve components to include basic Army organizations, missions and chain of command. Customs, courtesies, and traditions of the U.S. Army. Introduction to branches of the Army, their missions and relationships to students' academic majors. Offered fall semester.

**MISC 011. Introduction to Military Leadership** 1 sem. hr.

Introduction to the principles of leadership and their application to the military. An in-depth examination of the concept of leadership, the character of a leader and the knowledge he/she must possess. A practical application of basic individual skills necessary for small unit leaders. Students learn fundamentals in leadership, military map reading, first aid, written and oral communications and physical fitness. Offered spring semester.

**MISC 024. Basic Military Skills** 2 sem. hrs.  
Practical application of basic individual skills necessary for all future military leaders: proper movement techniques, land navigation, and targeting with various weapons systems. Students will prepare and issue operations orders and, by assuming positions of authority, develop leadership abilities. Offered fall semester.  
*Prereq: MISC 010 and 011; or cons. of instr.*

**MISC 025. Military Skills** 2 sem. hrs.  
Practical application of basic individual skills necessary for small unit leaders. Students learn fundamentals in military map reading, radio-telephone operating procedures, seven life saving first aid steps. Students will conduct briefings and participate in practical exercises as a small unit leader. Offered spring semester.  
*Prereq: MISC 010 and MISC 011; or cons. of instr.*

**MISC 135. Applied Leadership 1** 2 sem. hrs.  
Leadership procedures, delegation of authority, planning, coordinating and decision making. Experiential learning through case studies, simulations, and exercises. Preparing and conducting military training. Offered fall semester. *Prereq: MISC 010, 011, 024 and 025; or cons. of instr. Coreq: MISC 137.*

**MISC 136. Applied Leadership 2** 2 sem. hrs.  
Organization and mission of Army units on the modern battlefield. Development of mission orders and leader responsibilities. Advanced land navigation techniques. Contemporary topics on the officer personnel management system and career development of the U.S. Army Officer. Offered spring semester.  
*Prereq: MISC 135. Coreq: MISC 138.*

**MISC 137. Applied Leadership Laboratory 1** 1 sem. hr.

Practical exercises in military subjects, including drill and ceremonies and methods of instruction. Advanced camp orientation and preparation. Land navigation, map reading exercises and satisfactory completion of the Land Navigation Diagnostic Test. Field training exercises stressing military skills and leadership development. Offered fall semester.  
*Coreq: MISC 135.*

**MISC 138. Applied Leadership Laboratory 2** 1 sem. hr.

Practical exercises in military subjects, including drill and ceremonies and methods of instruction. Advanced camp orientation. Field training exercises stressing military skills and leadership development. Offered spring semester. *Coreq: MISC 136.*

**MISC 144. Organizational Leadership** 2 sem. hrs.

Introduction to planning, organizing and directing military staff and command activities. Study of logistics and maintenance management at the small unit level. Description of personnel management and training, and training management. Thorough discussion of practical situations facing junior officers upon entering military service. Offered spring semester.  
*Prereq: MISC 135 and 136. Coreq: MISC 148.*

**MISC 146. Military Law, Professionalism and Ethics** 2 sem. hrs.

Introduction to the Uniform Code of Military Justice, the Manual for Courts Martial, personal affairs/legal assistance and international law. Discussion of the Army officer's responsibilities focusing on the requirement to develop awareness of and sensitivity to ethical issues. Real world case studies emphasize the pragmatic and ethical decision making process. Offered fall semester. *Prereq: MISC 135 and 136. Coreq: MISC 147.*

**MISC 147. Advanced Leadership Laboratory 1** No Credit

Weekly practical exercises and preparatory periods for command staff functions, drill and ceremonies, assistant instructor roles and field training exercises. Students perform roles of cadet officers in assigned positions or tasks. Offered fall semester. *Coreq: MISC 146.*

**MISC 148. Advanced Leadership Laboratory 2** No Credit

Weekly practical exercises and preparatory periods for command staff functions, drill and ceremonies, assistant instructor roles and field training exercises. Students perform roles of cadet officers in assigned positions or tasks. Offered spring semester. *Coreq: MISC 144.*

**MISC 193. Military Science Practicum** 6 sem. hrs.

Off-campus summer program offered at the U.S. Army Reserve Officers' Training Corps Basic Camp, Fort Knox, Kentucky. This program counts as completion of the Basic Course. The six-week program provides the student with practical leadership experience and extensive practical training in fundamental leadership and military skills. Students do not incur military obligation, do not pay expenses, but do receive pay for this training. The program is offered in lieu of MISC 010, 011, 024, and 025. Offered only during the summer.  
*Prereq: Cons. of dept. ch. S/U grading.*

**MISC 195. Independent Study** 1-3 sem. hrs.  
Independent study of special topics in Military Science under faculty supervision. Topics selected by student/faculty conference. Offered every semester. *Prereq: Cons. of dept. ch.*

## Naval Science (NASC)

*Chairperson and Professor:* McElroy

*Associate Professor:* Smith

*Assistant Professors:* Beier, Coleman, Pfister, Schabert

*Note:* NROTC students should note that most programs will probably entail more than the 128 hours normally required for graduation.

### MINOR:

Twenty hours of Naval Science courses from the following: NASC 009, 022, 142, 151, 152, 162, 185, 186 and/or 195. Marine Option students substitute NASC 161, 181, and 193 for 151, 152, 185 and 186.

Additional requirements: All NROTC Navy Option scholarship students are required to complete two semesters of calculus by the end of the sophomore year: (MATH 080 and 081). Core and major requirements may dictate what combination of calculus courses must be taken. In addition, Navy Option scholarship students must complete two semesters of calculus-based physics (PHYS 003 and 004) by the end of the junior year. Navy Option scholarship students must also complete HIST 118 or POSC 129, one semester of computer science, and two semesters of English. To be competitive for selection for a scholarship, non-scholarship students should plan on completing two semesters of calculus (MATH 080 and 081) by the end of the freshman year and two semesters of Physics (PHYS 003 and 004) by the end of the sophomore year. For specific details, contact the Professor of Naval Science.

**NASC 001. Drill and Information Briefing** 0 sem. hrs.

Weekly formations focusing on Marine Corps and Navy drill, ceremonies, and inspections. Classroom instruction on special interest areas to the prospective naval officer such as financial responsibilities, career opportunities, lead-

ership, maritime strategy, national security and sailing. Instruction and application of the fundamentals of unit organization, the chain of command, and how to properly wear and inspect uniforms. Designed to develop teamwork, leadership, management, and initiative. Required of all NROTC midshipmen every semester. Offered every semester.

**NASC 009. Introduction to Naval Science**  
2 sem. hrs.

General introduction to seapower and the naval service. The instruction places particular emphasis on the mission, organization, regulations and broad warfare components of the Navy. Included is an overview of officer and enlisted rank and rating structures, procurement and recruitment, training and education, promotion and advancement and retirement policies. Offered fall semester.

**NASC 022. Seminar in Sea Power and Maritime Affairs** 2 sem. hrs.

Influence of U.S. Sea Power and Maritime Affairs on international economic and political relationships. Classroom discussions based on independent reading. Offered spring semester. Non-NROTC students require consent of dept. ch.

**NASC 142. Naval Ship Systems** 1 3 sem. hrs.  
Ship design, construction, types and missions. Ship compartmentation, interior communications; propulsion, auxiliary power and ship control systems. Elements of ship design for safe operation. Ship stability characteristics. Offered fall semester.

**NASC 151. Navigation and Naval Operations** 1 3 sem. hrs.

Theory, principles and procedures of ship navigation and movements. Spherical trigonometry, mathematical analysis, nautical astronomy, oceanographic factors, piloting, celestial navigation, celestial sights, sextants, charts, publications, electronics aids and inertial navigation systems. Offered fall semester. *Prereq: Non-NROTC students require cons. of dept. ch.*

**NASC 152. Navigation and Naval Operations** 2 3 sem. hrs.

Theory, principles and procedures of ship navigation, movements and employment. Tactical formations and dispositions, relative motion and maneuvering board solutions. Analysis of tactical plots for force effectiveness. Rules of the nautical road, lights, signals and navigational aids. Offered spring semester. *Prereq: Non-NROTC students require cons. of dept. ch.*

**NASC 161. Evolution of the Art of War**  
3 sem. hrs.

Military principles and concepts throughout history. Tactical and strategic applications in selected engagements. Offered alternate fall semesters.

**NASC 162. Naval Ship Systems** 2 3 sem. hrs.  
Theory and principles of operations of naval weapons systems including types, capabilities, limitations. Theory of target detection, acquisition, identification and tracking. Principles of trajectories. Offered spring semester. *Prereq: NASC 142.*

**NASC 181. Amphibious Warfare** 3 sem. hrs.  
Application of amphibious doctrine to battles of World War II and the Korean conflict. Offered alternate fall semesters. *Prereq: Non-NROTC students require cons. of instr.*

**NASC 185. Leadership and Management**  
3 sem. hrs.

Stress on experiential approach to leadership and management. Motivation and communication theory and practice. Group dynamics decision making techniques. Lines of control and organizational structure. Case studies, experiential exercises and situational problems will be used. Offered fall semester. *Prereq: Non-NROTC students require cons. of instr.*

**NASC 186. Leadership and Ethics**  
2 sem. hrs.

Applied techniques and theories learned in NASC 185. Practical application of sound leadership and ethics to Navy situations. Counseling, discipline, and administration are explored. Offered spring semester. *Prereq: NASC 185, and Non-NROTC students require cons. of instr.*

**NASC 193. Practicum in U.S. Marine Corps Leadership and Management**  
4 sem. hrs.

Provides instruction and practical application of Leadership and Management Technique used in the Marine Corps and Naval Service. The course is held at the Officer Candidate School at Quantico, Virginia. S/U grades only. *Prereq: Jr. strndg. in USMC option.*

**NASC 195. Independent Study** 1-3 sem. hrs.  
Independent study of special topics in Military Science under faculty supervision. Topics selected by student/faculty conference. Offered every semester. *Prereq: Cons. of dept. ch.*

## SOCIAL AND CULTURAL SCIENCES

*Chairperson and Associate Professor:* Sullivan  
*Professors:* Buckholdt, Holstein, Kehoe, Knudten, G. Miller, Moberg (*Emeritus*), Wells  
*Associate Professors:* R. Jones, Metz, Zevitz  
*Assistant Professor and Director of the Program in Criminology and Law Studies:* Albritton  
*Assistant Professors:* Coles, Farkas, Marlaire, Peterson, Staral, Stichman  
*Adjunct Professor:* Overstreet  
*Adjunct Assistant Professor:* Johnstone  
*Lecturers:* Craft, Eckstein, Guerin, Hammetter, Palazzari, Ranfranz, Ruffin, Rutz, Taylor-Boyd, Thorne

## Anthropology (ANTH)

Courses are grouped according to the main streams of emphasis: Linguistics is covered by ANTH 109 which is grouped with courses in method and theory; 120–129 covers cultural anthropology; 140–149 represents archaeology; and 150–159 lists physical anthropology.

### MAJOR:

Thirty hours, including ANTH 001, 101, 105, 106, 109, 191, and 12 additional hours in upper division courses.

### MINOR:

Eighteen hours, including ANTH 001.

### TEACHING MAJOR:

Thirty-four hours, including ANTH 001, 002, 101, 105, 109, 191 and at least one course in the Peoples and Cultures series (ANTH121–128).

Students should see the department adviser for secondary teaching majors or minors to consult about the appropriate sequence of courses. It is also important that prospective teachers study carefully the School of Education section of this bulletin regarding university and state requirements (in addition to department requirements) for teacher certification.

Please refer to "Core Curriculum Requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

### TEACHING MINOR:

Twenty-two hours, including ANTH 001, 002, 101, 105, 109, 121, with a minimum quality point average of 2.700 in Anthropology.

### PREREQUISITES:

The designation "Recommended prerequisite" that follows most courses has two implications: (1) The instructor will teach the course as if all students enrolled had completed satisfactory work in the prerequisite. (2) Any student who seeks a challenging intellectual experience, particularly an advanced major in some field other than anthropology, may enroll without the prerequisites, but in so doing assumes full responsibility to obtain independently an adequate background which is the equivalent of the listed prerequisites.

**ANTH 001. Introductory Anthropology** 3 sem. hrs.

Introduction to human social and cultural variation. Prehistory as reflected in archaeology. Human biological evolution as manifest in paleontology. Human biological variation in the contemporary world. Offered every semester.

**ANTH 002. Introduction to Biological Anthropology** 3 sem. hrs.

The evolution of humans and history of evolutionary concepts. Evolutionary process documented in genetic principles, primate behavior, human ancestors and ongoing evolution in the human species. Cannot be taken for core curriculum natural science credit by students who have received natural science credit in ANTH106. Credit will be given toward fulfillment of the science requirement in the Arts and Sciences core curriculum.

**ANTH 101. Cultural Anthropology** 3 sem. hrs.

Fundamentals of ethnology, the comparative study of cultures, through a survey of anthropological community studies that represent a variety of world areas. Examines localized responses to universal human challenges such as meeting subsistence needs, resolving conflict, and coping with change. Traditional approaches to ethnographic fieldwork are reviewed as basis for considering innovations in method and theory. Offered annually.

**ANTH 105. Archaeology and Prehistoric Cultures** 3 sem. hrs.

Development of human cultures from earliest evidence to literate urban societies in Europe, Asia, Africa, and the Americas. Examination of principal influences on prehistoric culture change. Offered annually.

**ANTH 106. Human Evolutionary Process** 3 sem. hrs.

Darwinian models of evolutionary process. Critiques of the Darwinian model with reference to macroevolutionary process in the order Primates and microevolutionary events in the species sapiens. Cannot be taken for Arts and Sciences natural science credit by students who have taken ANTH002. Offered annually. Credit will be given toward fulfillment of the science requirement in the Arts and Sciences core curriculum.

**ANTH 109. Language and Culture** 3 sem. hrs. The role of language in human life. Comparative linguistic analysis. Interdependence of language and culture. Offered annually.

**ANTH 110. Human Geography** 3 sem. hrs. Description and world distribution of landscapes with (1) an analysis of past and present interplay among land forms, biota, and human activity; (2) an investigation into the manner in which culture is both restricted and stimulated by different habitats; and (3) a critique of the ecological problems resulting from modifying the landscape. Offered annually. Fulfills geography requirement for social studies teaching certification.

**ANTH 111. Economic Anthropology** 3 sem. hrs.

The distributive aspects of nonliterate societies. Inter-relations of distribution with productive organization, division of labor, etc. Consideration of the problem and strategies of economic development. Offered occasionally. *Recommended prereq: ANTH 001.*

**ANTH 112. Anthropology of Religion** 3 sem. hrs.

Cross-cultural perspective on religion in human societies. Examples from Western and non-Western societies, rituals, healing, revitalization, role of religion. Offered occasionally.

**ANTH 116. Culture Change and Development** 3 sem. hrs.

Societal changes analyzed from holistic anthropological perspective. Recognizing factors of long-term cultural change; modernization of the West and Third World countries; ecological and social problems related to development in the contemporary world. Offered occasionally. *Prereq: ANTH 001 and 101 recommended.*

**ANTH 121. Native Peoples of North America** 3 sem. hrs.

Ethnology of native peoples of North America: culture areas, major cultural patterns, history, and present conditions. Importance of American Indian studies to anthropological theory. Offered alternate years.

**125. People and Cultures of the Middle East** 3 sem. hrs.

This course explores the variety of Middle Eastern cultures with reference to topics of central concern to cultural anthropology: environment, economics, social structure, political systems, religion, and culture change.

Nomadic, rural agricultural, and urban groups are discussed. Offered occasionally. *Recommended prereq: ANTH 001 or ANTH101.*

**ANTH 126. European Cultures and Peoples** 3 sem. hrs.

Cultural traditions and contemporary ethnic issues of European nations; heritage of ethnic European descendants in the United States. Offered occasionally.

**ANTH 129. Urban Anthropology** 3 sem. hrs.

The anthropological analysis of social and cultural institutions in contemporary, pluralistic, industrial based, urban societies. The course emphasizes the contribution made to understanding such societies by use of the traditional analytic techniques developed by anthropologists for studying the institutions of simpler, smaller communities, techniques that complement those used by other social sciences. Offered occasionally. *Recommended prereq: ANTH 001 or 101.*

**ANTH 130. Women and Men in Cross-Cultural Perspective** 3 sem. hrs.

Examination of roles and statuses of men and women, and of ideology of the nature of men and women, in selected societies around the world, including contemporary American society. The effects of political and economic conditions and policy initiatives on men and women. Offered annually.

**ANTH 141. Prehistory of North America** 3 sem. hrs.

Archaeology of North America, including Mexico, from earliest migrations to European contact; background for historic Indian peoples. Archaeological methods and controversies. Offered occasionally. *Recommended prereq: ANTH 105.*

**ANTH 142. Prehistory of South America** 3 sem. hrs.

Primitive and civilized peoples of ancient Middle and South America from Paleo-Indian period to Aztecs, Mayas, and Incas. Development of the great Indian nations and discussion of marginal areas. Offered occasionally. *Recommended prereq: ANTH 105.*

**ANTH 145. The Rise of Civilization** 3 sem. hrs.

Patterns of processes involved in the development of complex social systems. Archaeological records of state formation and urbanization in Egypt, Mesopotamia, and Mesoamerica. Offered alternate years. *Prereq: ANTH 105.*

**146. Ethnoarchaeology** 3 sem. hrs.

This course introduces students to the theories and methods of ethnoarchaeology; that is, how archaeologists understand material culture patterns and cultural content through the study of living groups. Case studies highlight the historical development of the field and the variety of approaches that are used. Offered alternate years. *Recommended prereq: ANTH 105.*

**ANTH 148. Archaeological Fieldwork** 3 sem. hrs.

An introduction to methods used in the excavation and analysis of prehistoric sites. Surveying techniques, stratigraphy, analyses of soils and landforms, analytical fundamentals of prehistoric

material remains. Offered summer. *Prereq: ANTH 105, and SOCI 060 or equivalent statistics course.*

**ANTH 151. Human Osteology and Odontology** 3 sem. hrs.

The anatomy of the skeleton and teeth. Methods of analysis of biological dynamics of past populations including reconstruction of population structure and patterns of disease. Offered alternate years. *Prereq: ANTH 106.*

**ANTH 152. Origins of the Human Species** 3 sem. hrs.

The biological past of the species sapiens. The biological legacy of the non-human primate past and the fossils which exemplify the evolutionary trends of our species. Offered alternate years. *Prereq: ANTH 106.*

**ANTH 153. Demography** 3 sem. hrs.

Methods of analyzing population structure in small-scale societies, including studies of mortality and fertility patterns in bio-social and environmental contexts. Offered occasionally. *Prereq: ANTH 001.*

**ANTH 155. Sex and Evolution** 3 sem. hrs.

The evolutionary significance of sex. Mechanisms of reproduction and sexual reproduction as a source of variation. Reproductive anatomy, sexual strategies and adaptation as well as sexual selection in the order Primates. Offered occasionally. *Prereq: ANTH 106.*

**ANTH 191. Development of Anthropological Theory** 3 sem. hrs.

Major theoretical concepts and issues of Anthropology from 19th century beginnings to present. An overview of the development of the science with study of key figures and critiques of current work. Offered annually. *Prereq: 12hrs. of Anthropology and Sr. stndg.*

**ANTH 193. Internship in Anthropology** 3 sem. hrs.

Supervised placement for pre-professional experience in applying anthropological concepts, principles, and methods in a museum, school, hospital, business, or other appropriate institutional setting. A minimum of 8 hours per week in the agency. Mid-term and final reports summarizing activities and integrating experiences with relevant anthropological literature. Offered every semester. *Prereq: 9 credits in Anthropology including 001 and one or more of the following: 101, 105, 106, 109; Jr. stndg; Q.P.A. of 3.0 in ANTH courses; arrangements formalized during prior semester with consent and assistance of instructor.*

**ANTH 195. Independent Study** 1-3 sem. hrs.

Supervised study of a specific area or topic in anthropology. Offered every semester including summer. *Prereq: Cons. of instr. and cons. of dept. ch.*

**ANTH 196. Seminar in Anthropology** 3 sem. hrs.

Exploration of selected problems in Anthropology through directed student research and group discussion. Variable topics. Offered occasionally. *Prereq: 12 hrs. of Anthropology.*

**ANTH 198. Special Topics in Anthropology** 3 sem. hrs.

The special topics of 198 will be designated in the *Timetable of Classes*. Offered occasionally. May be taken a maximum of two times. *Prereq:*

No prerequisites unless announced in the *Timetable of Classes*.

**ANTH 199. Senior Thesis** 1-3 sem. hrs.  
For majors in Anthropology. Research project and paper prepared under faculty supervision. Strongly recommended for students planning to enter graduate programs. Offered every semester. *Prereq: Sr. stndg., cons. of instr. and cons. of dept. ch.*

## Criminology and Law Studies (CRLS)

The Criminology and Law Studies major is designed to provide a broad based liberal arts education for undergraduates interested in careers in criminal justice and law. The major also provides preparation for professional and graduate study in law, criminology, and public administration. Students in other major fields of study interested in expanding their knowledge of the legal system may elect Criminology and Law Studies courses.

Courses in the Criminology and Law Studies Program are taught by faculty from both the College of Arts and Sciences and criminal justice practitioners.

### MAJOR:

Thirty hours, including CRLS 051, 156, 157 or 159, 186, and 187, plus fifteen hours selected from other CRLS courses.

Majors must fulfill half of their core curriculum mathematics-logic-computer requirement with SOCI 060 (Social Statistics).

### MINOR:

Eighteen hours, including CRLS 051 and fifteen hours of electives in CRLS courses (with the exception of 193).

#### **CRLS 051. Introduction to Criminology** 3 sem. hrs.

Survey of recent trends in crime and delinquency. The nature of and societal reaction to criminal behavior. Personal and social factors in crime causation. Critical analysis of criminological theories as well as the operation of criminal justice agencies. Offered every semester.

#### **CRLS 083. Introduction to the Law** 3 sem. hrs.

Legal concepts and classifications; legal philosophy, including the sources and nature and functions of law; legal methods; legal research; legal ethics; basic processes and judicial processes and procedures; the court system, state and federal. Offered occasionally.

#### **CRLS 104. Methods of Criminological Research** 3 sem. hrs.

Basic methodological issues in the study of crime, criminals, and the law; principles, purposes, and limits of research; introduction to empirical research design and methods of inquiry, including formulating and testing hypotheses, sampling procedures, data collection techniques, and ethical issues in preparation of research reports. Offered annually. *Prereq: SOCI 060 or equivalent, or cons. of instr.*

**CRLS 133. Constitutional Law** 3 sem. hrs.  
Development of American constitutional law in the areas of judicial power, separation of powers, the presidency, state and national reg-

ulation of commerce, the taxing and spending power, and the rise and decline of due-process property rights. Same as POSC133. Offered occasionally. *Prereq: POSC 020 or Jr. stndg.*

#### **CRLS 151. History and Philosophy of Crime and Punishment** 3 sem. hrs.

A study of crime and punishment from both the historical and philosophical perspectives. The course will emphasize the European experiences as a foundation for understanding American developments. Emphasis will be placed on the interdisciplinary aspects of crime and punishment. May be counted toward the core curriculum requirement in either philosophy or social-behavioral science. Same as HIST 151 and PHIL151. Offered annually. *Prereq: Jr. stndg. and PHIL050.*

#### **CRLS 152. Juvenile Delinquency/Juvenile Justice** 3 sem. hrs.

Definitions of delinquent behavior. Nature, etiology, and extent of juvenile delinquency; contributing social problems; adolescence as a subculture. The adjudication process for juveniles: philosophy, development, and organization. Diversion, detention, and treatment of the juvenile offender. Offered occasionally.

**CRLS 155. Criminological Theory** 3 sem. hrs.  
Analysis of the nature and consequences of delinquency and crime. Classical and contemporary examinations of criminal behavior. The effects of social interaction, social class, social organization, small groups, and other variables on crime patterns and efforts to cope with crime. Relationship of criminological theory to social policy issues. Offered occasionally.

#### **CRLS 156. Corrections: Prisons, Probation, and Parole** 3 sem. hrs.

Analysis of the organization of correctional agencies and the role of corrections in the criminal justice system. Review of relevant theories, practices, systems, and treatment methods. Offered every semester.

**CRLS 157. Police and Society** 3 sem. hrs.  
Social and historical origins of the police; police organization; police culture, roles and careers; police in the legal system, police discretion in practice, police and the community. Offered every semester.

**CRLS 158. Victimology** 3 sem. hrs.  
Examination of the roles and functions of the victim within the civil and criminal justice systems. An investigation into victim attitudes, beliefs, problems, and needs; theories of victimization; experiences of victims within the legal system; victim assistance programs; and public policy and victimology. Offered occasionally.

#### **CRLS 159. Police Organization and Administration** 3 sem. hrs.

Organization and administration of police agencies. Principles of planning, personnel management, line operations, staff and auxiliary services. Organizational models and leadership styles. Internal control and policy formation. Evaluation of effectiveness. Offered occasionally.

#### **CRLS 160. Ultimate Penalties in the Criminal Justice System** 3 sem. hrs.

A critical look at the rationales and history of corporal punishment, capital punishment, and life imprisonment without possibility of parole in order to understand the endurance of these types of sanctions in modern society. The focus will be on the philosophical, legal, social, and political aspects of the punishments. Research on ultimate punishments, such as frequency of use, characteristics of offenses and offenders, will also be presented. In addition, the course will examine the experience of sentenced offenders and their families, and correctional staff in implementing the punishments. Offered occasionally.

#### **CRLS 162. White Collar Crime** 3 sem. hrs.

Survey of current theoretical, research and public policy issues regarding white collar crime. Definitions of white collar crime as well as various typologies of white collar crime activity. The nature, extent, and consequences of white collar crime in the U.S. Strategies for combatting white collar crime as well as prospects of alternative systems of control, such as civil litigation, will be assessed. Offered occasionally.

#### **CRLS 163. Criminal Violence in America** 3 sem. hrs.

Analysis of violent crime in American society and ways in which the criminal justice system responds to it. Examination of the causes of violent crime, its prevention, treatment and public policy ramifications. Historical and contemporary understanding of the significance of violence in American culture. Critical evaluation of methods utilized to deal with violent offenders. Offered occasionally.

**CRLS 164. Organized Crime** 3 sem. hrs.  
Examination of the political, social, and economic conditions involved in the appearance and expansion of organized crime in the United States. Descriptions of structures as well as internal and external dynamics, including incentives and penalties employed by criminal groups. Explanation of investigative techniques and impact of police, courts, and correctional agencies. Offered occasionally.

#### **CRLS 165. Comparative Justice Systems** 3 sem. hrs.

The nature and character of police, prosecutorial, court, and correctional activity and operations in world legal systems. An examination of common law, civil law, socialist, and Islamic systems of law and social control. Offered occasionally.

**CRLS 166. Clinical Criminology** 3 sem. hrs.  
The theory, research and practice dimensions of clinical criminology, with a focus on sociological, psychiatric, biological, biosocial learning, cognitive, psychoanalytic theory. Examination of deviant and/or criminal interactions and their consequences. Topics for possible inclusion: substance abusers, psychopathic and violent offenders, spouse and child abusers, sex offenders, juvenile offenders, female offenders. Orientation to clinical techniques and therapy as they apply to intervention, decision-making, incarceration and sentencing, and modifications of behavior. Offered occasionally.

**CRLS 167. Women, Crime, and Criminal Justice** 3 sem. hrs.

Examination of the roles of women in the criminal justice system. Critical analysis of the relationship of women as offenders, as victims, and as agents of social control. Review of relevant theories and practices and both historical and contemporary issues. Offered occasionally.

**CRLS 168. Family Violence and Public Intervention** 3 sem. hrs.

Analysis of maltreatment of children, youth, spouses, and seniors within the family. Examination of causes and intervention methods emphasizing the response of actors and government agencies. Offered annually. Same as SOWO 168. SOWO majors register for SOWO 168.

**CRLS 181. Ethics in Criminal Justice** 3 sem. hrs.

An introduction to prevailing ethical controversies confronting the process and agencies of contemporary criminal justice. Special attention given to concrete ethical issues and dilemmas which are encountered regularly by participants in the major components of the criminal justice system: police, courts, and corrections. Offered occasionally.

**CRLS 182. Criminal Court Process** 3 sem. hrs.

Consideration of the criminal adjudication process, with emphasis on the organization of discretion. Topics include bail setting, prosecutorial and defense decision-making, plea bargaining, trial operations, sentencing and post-conviction remedies. Offered annually.

**CRLS 185. Financial Crime Investigation** 3 sem. hrs.

This course will introduce current perspectives and procedures used by the financial investigator in detecting and resolving financial crimes. Included will be the specific study of: methods of tracing funds, financial recordkeeping, accounting, interviewing techniques, and law and evidence as they relate to financial investigations. Offered occasionally.

**CRLS 186. Criminal Law** 3 sem. hrs.

Substantive law crimes; the theory, sources and purposes of criminal law; definition and classification of crimes; legal elements of crimes; meaning of criminal responsibility; defenses and mitigating circumstances. Offered annually.

**CRLS 187. Criminal Procedure** 3 sem. hrs.

Criminal procedure; arrest, search and seizure; interrogation; court procedure; constitutional limitations on state and federal rules of criminal procedure. Offered annually.

**CRLS 188. Criminal Investigation** 3 sem. hrs.

Fundamental principles and procedures of criminal investigation. Crime scene search and recording. Collection and preservation of physical evidence. Obtaining testimonial evidence. Offered occasionally.

**CRLS 189. Evidence** 3 sem. hrs.

Basic principles of the law of evidence. Presentation of oral and demonstrative evidence in the trial process. The quantum of proof in criminal proceedings. Offered occasionally.

**CRLS 193. Internship in Criminology and Law Studies** 3 or 6 sem. hrs.

Field experience in a federal, state, county or municipal criminal justice or administrative law agency for the purpose of furthering the student's integration of theory and practice. Placement and participation in law enforcement agencies, correctional settings, judiciary and court related offices, or legal research bureaus. Based upon agency agreement, minimum of either eight (3 credits) or sixteen (6 credits) field hours per week under direct supervision of instructor and agency personnel. Offered every semester. S/U grade assessment. Only three credit hours may be counted toward the 30 credit hours required for the major. *Prereq: 18hrs. of course work in CRLS, a cumulative quality point average of 2.500 in all degree course work, Sr. stndg., cons. of internship coordinator; limited enrollment.*

**CRLS 195. Independent Study** 1-3 sem. hrs.

Readings and research on a particular problem or subject of interest to the student. Offered every semester. *Prereq: Cons. of dept. ch. and instr.*

**CRLS 198. Special Topics in Criminology and Law** 3 sem. hrs.

Lectures and discussions in a broad area which, because of its topicality, is not the subject of a regular course. The special topics will be designated in the *Timetable of Classes*. Maybe taken a maximum of two times. Offered occasionally.

## Social Work (SOWO)

**MAJOR:**

The primary goal of the social work major is to prepare students for entry level professional practice. Baccalaureate social workers find employment in a variety of settings, including family and children's services, health and mental health, substance abuse, domestic abuse, corrections, state and county social services, and programs for older adults, people with disabilities and the homeless. The major is fully accredited by the Council on Social Work Education. Students are eligible to apply for state social work certification immediately after graduation, and advanced standing is available at many graduate schools of social work.

Classroom learning is combined with more than 430 clock hours of field instruction in local social service agencies and programs, in order to provide a balanced background, both academic and participant-learning, for social work practice.

Students interested in the social work major should complete SOWO 080 by the second semester of their sophomore year, so that they can begin the social work practice sequence in the first semester of their junior year. Courses in social work practice and field instruction are offered in a sequence which must be commenced in the fall semester, normally as the student is beginning the junior year.

Students should apply to the Social Work Program in their sophomore year after having completed SOWO 080. If, however, the student takes this course only in the second semester of sophomore year, application should be made during this semester. Application forms may

beobtained from a social work adviser.

Applications should be completed and submitted by March 15 for admission to the Social Work major in the following fall semester. A quality point average of 2.300, a grade of BC or better in SOWO 080, a written application, a personal interview, and approval of the Social Work Admissions Committee are required for, but do not guarantee, enrollment in the major. Enrollment in the major is limited to 15 students per year.

Major: 32 hours of social work: SOWO 080, 182, 184, 185, 186, 187, 188, 189, 190, 191, 196. Additional requirements to be completed (a total of 27 credit hours): ANTH 001; ANTH 002; POSC 020; SOCI 001, 060, 104, 122, and 163; PSYC 001. All of the previously listed lower division requirements, except SOCI 060, should be taken prior to the junior year. In addition students are encouraged to take other courses in the social sciences as electives, and to consult with the social work adviser for suggestions.

It is strongly recommended that majors fulfill their liberal arts mathematics-logic-computer requirement with SOCI 060 (Statistics) and a computer course; part of their natural science requirement with ANTH002; and their foreign language requirement with Spanish. Students who have already fulfilled their liberal arts requirements with other than the above should consult with the social work adviser for possible options.

**SOWO 080. Introduction to Social Work and Social Welfare** 3 sem. hrs.

Social welfare as an institution in the United States today. Fields and methods of social work practice, with exploration of values and goals. Examination of the relationship of social problems, historic and contemporary, to the various fields of social work practice and to issues in social welfare policy. Students will make observational visits to selected social service agencies in the Milwaukee area. Agency representatives will offer classroom presentations relating to current social work practice and social welfare policy issues. Offered every semester.

**SOWO 168. Family Violence and Public Intervention** 3 sem. hrs.

Analysis of maltreatment of children, youth, spouses, and seniors within the family. Examination of causes and intervention methods emphasizing the response of actors and government agencies. Offered occasionally. Same as CRLS 168. CRLS majors register for CRLS 168.

**SOWO 170. Family Counseling and Therapy** 3 sem. hrs.

Introduction to family counseling and therapy primarily examining communication and structural models. Various theories of family intervention. Exploration of the process of therapy from initial problem assessment through intervention planning, implementation, evaluation, and termination. Simulations, role play and other classroom exercises help students understand how theories and techniques of counseling are applied in practice. Offered occasionally. *Prereq: Jr. stndg. and at least 1 relevant social science course.*

### **SOWO 182. Social Welfare Policy and Programs** 3 sem. hrs.

Examination of historical, political, and economic influences in the development of social welfare policy. The policy making process, and appropriate professional roles for social workers. The relationship of social work values to the formulation and evaluation of social welfare policies and services. Description and analysis of contemporary social welfare programs, public and private. Offered fall semester. *Prereq: SOCI 001 or cons. of instr.*

### **SOWO 184. Social Work Practice 1** 3 sem. hrs.

Introduction to generalist social work practice theory with individuals, families, groups, organizations, and communities. Students begin the development of skills in obtaining knowledge and relating knowledge to issue assessment, including interviewing, other methods of data collection, establishing and maintaining appropriate professional relationships and recording. Working with individuals is the primary focus within the generalist model. A volunteer experience of two hours per week to be arranged by the student (26 hours total for the semester) in a local social service agency is required. Offered fall semester. *Prereq: Majors only or cons. of instr., SOWO080.*

### **SOWO 185. Human Behavior in the Social Environment** 3 sem. hrs.

An integrating course designed to provide a systems framework for understanding and assessing human behavior at the individual, group, family, organizational and community levels. The student learns how the various systems affect one another and why consideration of all systems and their interrelationships is necessary for effective social work practice. Special attention is paid to human diversity factors, social justice issues, and populations at risk. Offered spring semester. *Prereq: ANTH002, PSYC 001, SOCI 001, SOCI 122; or cons. of prog. dir.*

### **SOWO 186. Social Work Practice 2** 3 sem. hrs.

Continuation of the study of generalist social work practice theory. Students strengthen their skills in interviewing, data collection, problem appraisal, and the development of contracts for planned change. Competence is developed in carrying out contract plans, evaluating results, renegotiating contracts where appropriate, and terminating. Working with families and groups is examined within the generalist model. A second volunteer experience of two hours per week to be arranged by the student (26 hours for the semester) is required. Offered spring semester. *Prereq: Majors only or cons. of instr.; SOWO 080, 182, and 184.*

### **SOWO 187. Field Instruction** 4 sem. hrs.

Participation in a community social service agency for 16 hours per week (216 hours for the semester), with professional supervision. Field instruction settings include hospitals, nursing homes, correctional agencies, neighborhood centers, schools, counseling services, consumer advocacy agencies and others. Because of the relationship between competent professional practice (as demonstrated in field instruction) and the public trust, field instruction, if not completed at a satisfactory level of perfor-

mance, may not normally be repeated, and the student will not normally be permitted to continue in the Social Work Program. Offered fall semester. S/U grade assessment. *Prereq: SOWO 080, 182, 184, 185, 186.* Must be taken concurrently with SOWO 188 and SOWO 189; SOWOmajor.

### **SOWO 188. Field Instruction Seminar** 2 sem. hrs.

Students enrolled in field instruction meet on campus together for two hours per week to share and discuss their various learning experiences in the agency setting. Social work practice theory is discussed to help integrate theory with practice; ethical and value dilemmas which confront the learner in the field setting are shared and discussed. Knowledge of community resources is expanded. Offered fall semester. *Prereq: SOWO 080, 182, 184, 185, 186.* Must be taken concurrently with SOWO 187 and SOWO 189; SOWOmajor.

### **SOWO 189. Integrating Policy and Practice** 3 sem. hrs.

Examination and review of the generalist approach and the planned change process, focusing on application at the organization and community levels. Course integrates advanced social welfare policy analysis, the administration and structure of social service agencies, and relevant issues and methods of social research. Offered fall semester. *Prereq: SOWO 080, 182, 184, 185, 186, SOCI 104.* Must be taken concurrently with SOWO 187 and SOWO 188; SOWOmajor.

### **SOWO 190. Advanced Field Instruction** 4 sem. hrs.

Continuation of the field instruction experience. Sixteen hours per week (216 hours for the semester) of supervised instruction at the same agency of placement as SOWO 187. Because of the relationship between competent professional practice (as demonstrated in field instruction) and the public trust, field instruction, if not completed at a satisfactory level of performance, may not normally be repeated, and the student will not normally be permitted to continue in the Social Work Program. Offered spring semester. S/U grade assessment. *Prereq: SOWO 187, 188, 189; SOWOmajor.* Must be taken concurrently with SOWO 191.

### **SOWO 191. Advanced Field Instruction Seminar** 2 sem. hrs.

On campus discussion seminar for two hours per week to integrate theory with practice and to discuss ethical and value dilemmas as they arise in the field setting. Continued growth of knowledge of community network. Offered spring semester, majors only. *Prereq: SOWO 187, 188, 189.* Must be taken concurrently with SOWO 190; SOWOmajor.

**SOWO 195. Independent Study** 1-3 sem. hrs. Supervised study in a specific area of Social Work, such as in-depth library or field research, or a focused community project. *Prereq: Nine hours with a quality point average of 2.500 in social work courses plus cons. of prog. dir.*

### **SOWO 196. Seminar in Social Work** 2 sem. hrs.

An in depth consideration of social work ethics and values; their relationship to social work as a profession and social welfare policy.

Exploration of value dilemmas and other frustrations which may confront the professional social worker working in organizations, and how they may relate to the development of professional identity. The role of professional social work organizations. Offered spring semester. *Prereq: Majors only, SOWO 187, 188, 189.*

### **SOWO 198. Selected Topics in Social Work** 3 sem. hrs.

A lecture course on special areas and themes. The specific topics of 198 will be designated in the *Timetable of Classes*. Offered occasionally. *Prereq: SOWO 080 or cons. of prog. dir.*

**SOWO 199. Senior Thesis** 1-3 sem. hrs. Social Work majors with a quality point average of 3.000 or higher may write a thesis under the direction of an adviser. Offered every semester. *Prereq: SOWO majors, sr. stndg. and cons. of prog. dir.*

## **Sociology (SOCI)**

### **MAJOR:**

Thirty hours, including SOCI 001, 060, 100, 104, 196. Twenty-one hours must be taken from classes numbered 100 or above. SOCI 196 will ordinarily be taken in the final year of the major or after 21 Sociology credit hours have been earned. An elementary course in statistics from another department may substitute for SOCI 060 with the approval of the Department Chair, but 30 hours in Sociology will still be required. SOCI 060 may be used simultaneously to satisfy the Sociology requirement and to contribute toward the six hour Arts and Sciences core requirement for mathematics-logic-computer.

### **MINOR:**

Eighteen credit hours, including SOCI 001 and either 100 or 104 (preferably both).

### **TEACHING MAJOR:**

Thirty-four hours, including ANTH 001, SOCI 001, 060, 100, 104, 196. Twenty-one hours must be taken from classes numbered 100 or above. SOCI 196 will ordinarily be taken in the final year of the major or after 21 Sociology credit hours have been earned. An elementary course in statistics from another department may substitute for SOCI 060 with the approval of the Department Chair, but 30 hours in Sociology will still be required. SOCI 060 may be used simultaneously to satisfy the Sociology requirement and to contribute toward the six hour Arts and Sciences core requirement for mathematics-logic-computer.

Students should see the department adviser for secondary teaching majors and minors to consult about the appropriate sequence of courses. It is also important that prospective teachers study carefully the School of Education section of this bulletin regarding university and state requirements (in addition to department requirements) for teacher certification.

Please refer to "Core Curriculum Requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

**TEACHING MINOR:**

Twenty-two hours, including ANTH 001, SOCI 001, 100, 104, and 10 additional hours in sociology and anthropology, of which not more than three may be in anthropology.

**PREREQUISITES:**

The department recommends SOCI 001—Principles of Sociology—as the beginning course in Sociology. Most upper-division courses have a recommended prerequisite of SOCI 001. This means that the instructor will teach the course as if all students enrolled have completed satisfactory work in the prerequisite. Students who have not taken SOCI 001 may enroll in most upper-division courses, but they should be prepared to take full responsibility for independently obtaining an adequate background should they or the instructor feel that it is necessary.

**SOCI 001. Principles of Sociology**

3 sem. hrs.

An introductory survey of the discipline including social structures, social institutions, social differentiation and stratification, social power, the processes of human interactions, and methods of sociological investigation. Offered every semester.

**SOCI 021. The Family**

3 sem. hrs.

The structure and function of family types including analysis of marital and parent-child relationships. The relation of the family to other social institutions. Changing patterns of relationships and structure in the family. Offered every semester.

**SOCI 060. Social Statistics**

3 sem. hrs.

Logic and application of statistical reasoning in sociological research. Descriptive statistics, elements of probability theory, estimation, hypothesis testing, contingency tables, correlation, regression, sampling, questionnaire construction, and measurement. Introduction to the use of the computer in statistical analysis. Not open to students who have taken another elementary statistics course. Offered annually. *Prereq:* *Three years of high school preparatory mathematics or MATH 010 or equivalent. Sociology, Social Work, or Criminology and Law Studies major or cons. of instr.*

**SOCI 100. Sociological Theory**

3 sem. hrs.

Currents of thought about society, social structures and processes. Background and development of key concepts and theories in sociology. Techniques of theory construction and unification. May be taken concurrently or sequentially with SOCI 104. Offered annually. *Prereq:* SOCI 001 or cons. of instr.

**SOCI 104. Methods of Social Research**

3 sem. hrs.

Comparison and critique of the predominant methods of social research. Theoretical foundations, logic and language of science, ethical problems of collecting and reporting research data. Application of methods in research project. Contribution of alternative methods of theory building, program evaluation, policy formulation, and direction of subsequent research. Offered annually. *Prereq:* SOCI 001, and 060; or cons. of instr.

**SOCI 121. Social Problems in Urban Society**

3 sem. hrs.

Analysis of selected social problems within the framework of modern American society from the viewpoint of their nature, extent, contributing factors, and programs of prevention and treatment. Concepts and theories related to the analysis of social problems and deviant behavior. Offered occasionally.

**SOCI 122. Sociology of the Life Course**

3 sem. hrs.

The study of socialization, the influence of family, peers, schooling, mass media, occupational groups and community on human development. Reciprocity between the concept of self and institutional influences throughout the course of life from infancy through old age. Various sociological perspectives, developmental theories and critiques. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 123. Self, Language, and Social Interaction**

3 sem. hrs.

Exploration of the everyday relations and worlds of people in social interaction. The working languages of self and society are discussed as practical features of circumstance. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 124. Behavior Patterns of Youth**

3 sem. hrs.

The position of youth in modern society. Origin and implications of the generation gap, status ambiguity and its consequences, dependency and independence, prolonged aspiration and the pursuit of identity, youth in rebellion, the youth culture. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 125. Sociology of Aging**

3 sem. hrs.

The place of the aged in contemporary society. Disengagement and the social integration of older persons. Roles linking older persons to society and roles in hospitals, nursing homes and homes for the aged. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 126. Urban Life**

3 sem. hrs.

Social psychological aspects of urban life and experience. Implications of urbanization for individuals and groups. Ecological, cultural, and institutional influences. Interpersonal and inter-group relations in urban settings. Topics may include conflict, alienation, diversity. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 127. Sociology of Community**

3 sem. hrs.

Discussion of contemporary problems of rural, urban and suburban communities including ecological and communication patterns, problems of identity, organization and motivation. May not be taken for credit by students who have received credit for SOCI 132. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 128. Sociology of Human Values**

3 sem. hrs.

Definitions of values in economics, linguistics, communication and sociology. The value system of selected sociologists. Values and socio-cultural pluralism. May not be taken for credit by students who have received credit for SOCI 143. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 129. Topics on the Individual, Culture, and Society**

3 sem. hrs.

Course on a special topic and theme involving the individual, culture, and society. May be taken twice, provided the topics differ. The specific topic of each offering will be designated in the *Timetable of Classes*. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 131. Urban Sociology**

3 sem. hrs.

Urban society with special consideration of the problems of dealing with the structures, institutions, agencies and decision-making units in a metropolitan area. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 132. Health Care Systems**

3 sem. hrs.

Comparison of social and cultural arrangements for handling health care. Variations in definitions of health. Systems of care at different levels of complexity—interpersonal networks, organizations, communities, and nation states. Policy making and ethical aspects of health care decisions. Offered annually. *Recommended prereq:* SOCI 001.

**SOCI 133. Medical Sociology**

3 sem. hrs.

Social and cultural factors in the disease process, the distribution of disease, the meaning of health, the response to illness, and approaches to healing. Structure and operation of health-related professions and facilities. Current trends in medicine. Value conflicts. May not be taken for credit by students who have received credit for SOCI 179. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 134. Sociology of Religion**

3 sem. hrs.

The sociological study of religious groups, institutions and behavior, including relationships between religion and other areas of social life. May not be taken for credit by students who have received credit for SOCI 144. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 135. Sociology of Work and Occupations**

3 sem. hrs.

The diverse ways in which human beings make their livings in both industrialized and nonindustrialized societies. Career patterns and work problems. Theories about work and workers. Proposals for improving the quality of modern work. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 136. Sociology of Education**

3 sem. hrs.

Sociological analysis of educational institutions with primary emphasis on contemporary U.S. urban education, student subcultures, school-community relations and innovations. May not be taken for credit by students who have received credit for SOCI 176. Offered annually. *Recommended prereq:* SOCI 001.

**SOCI 137. Complex Organizations**

3 sem. hrs.

Theories and research on the sociology of organization. The social functions, structures and processes of formal and informal organizational systems in modern society and their relationships to social behavior. The nature and place of bureaucracies in complex societies. Offered occasionally. *Recommended prereq:* SOCI 001.

**SOCI 139. Topics on Institutions and Organizations** 3 sem. hrs.

Course on a special topic and theme involving institutions and organizations. May be taken twice, provided the topics differ. The specific topic of each offering will be designated in the *Timetable of Classes*. Offered occasionally. *Recommended prereq: SOCI001*.

**SOCI 151. Sociology of Mental Illness** 3 sem. hrs.

Review of major sociological and social psychological models of madness. Analysis of definitions and responses to mental illness. Study of the social processing involved in the production, recognition and treatment of mental illness. May not be taken for credit by students who have received credit for SOCI 181. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 153. Deviance and Social Control** 3 sem. hrs.

Sociological analysis of deviance and society's response to it. Issues in defining and identifying deviance, the emergence of deviant behavior and identity, informal and formal reactions to deviance, and organizational and institutional efforts to remedy and control it. Topics may include crime, delinquency, and mental illness. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 154. Sociology of Law** 3 sem. hrs.

The social components of legal organizations and procedural systems. The role of law as an instrument of social control and social change. May not be taken for credit by students who have received credit for SOCI 178. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 159. Topics on Crime, Deviance, and Social Control** 3 sem. hrs.

Course on a special topic and theme involving crime, deviance, and social control. May be taken twice, provided the topics differ. The specific topic of each offering will be designated in the *Timetable of Classes*. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 162. Sociology of Sex and Gender** 3 sem. hrs.

Biological and cultural bases of sex and gender patterns. Impact of major social institutions and processes on maintenance of gender patterns, with questions of power and dominance central to discussion. Benefits and costs of stereotypic gender patterns. Mechanisms and alternative directions for change. Historical and cross-cultural research included. May not be taken for credit by students who have received credit for SOCI 126. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 163. Race and Ethnic Relations** 3 sem. hrs.

Social, economic, political, and legal aspects of minority relations. Consideration of several minorities and minority issues such as racial, cultural, ethnic, age and gender. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 164. African-American Social Thought** 3 sem. hrs.

Examination of historical and contemporary writings of Black social theorists. The impact of historical, social, economic, and cultural factors on Blacks in the United States and alternative

strategies for change. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 165. Social Inequality** 3 sem. hrs.

Theories and systems of social class in modern society. Societal structures and processes resulting from stratification phenomena. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 166. Topics on Gender, Race, and Inequality** 3 sem. hrs.

Course on a special topic and theme involving gender, race, and inequality. May be taken twice, provided the topics differ. The specific topic of each offering will be designated in the *Timetable of Classes*. Offered occasionally. *Recommended prereq: SOCI001*.

**SOCI 168. Political Sociology** 3 sem. hrs.

The interrelationship of politics and society. Special consideration of leadership analysis, party systems, public opinion, electoral behavior and conflict situations. May not be taken for credit by students who have received credit for SOCI 177. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 182. Comparative Sociology** 3 sem. hrs.

Similarities and differences among major social institutions. Emphasis on organizational, demographic, and ecological features. Comparisons of political, economic, educational, familial and other institutions. Contents vary; subtitles indicate precise contents. May not be taken for credit by students who have received credit for SOCI 161. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 183. Population** 3 sem. hrs.

Demographic analysis including characteristics of the U.S. and world population, social and cultural factors related to population changes and the role played by demographic forces in society. May not be taken for credit by students who have received credit for SOCI 130. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 186. Social Change** 3 sem. hrs.

Selected topics dealing with models and theories of innovation, diffusion, resistance to change and associated conflict in and between social systems. Contents vary; subtitles indicate precise contents. Offered occasionally. May not be taken for credit by students who have received credit for SOCI 166. *Recommended prereq: SOCI 001*.

**SOCI 188. Topics in Sociological Theory** 3 sem. hrs.

Late 20th century intellectual issues, efforts and achievements which have contributed substantially to current sociological theory. May be taken twice, provided the topics differ. The specific topic of each offering will be designated in the *Timetable of Classes*. Offered occasionally. *Recommended prereq: SOCI 001*.

**SOCI 189. Sociological Practice** 3 sem. hrs.

Selected topics dealing with the application of sociology to social and personal issues and problems. Primary topics include program evaluation, clinical sociology, policy analysis, and social forecasting. Contents vary: see *Timetable of Classes* for precise contents. May be taken more than once if subtitles differ. Offered occasionally.

**SOCI 193. Internship in Sociology** 3 sem. hrs.

Supervised field experience in relating sociological theory, concepts, and research methodology to real life or applied settings. Approximately 8–10 field hours per week are expected. Additional readings and reports integrating experiences and observations with sociological ideas will be required. Students may continue work begun in SOCI 193 by enrolling in SOCI 195 or 199 in subsequent semester. Offered every semester. *Prereq: SOCI 100 and 104, Jr. strndg., quality point average of 2.500 in SOCI courses, arrangements made during previous semester with an instructor, cons. of dept. ch. and majors only.*

**SOCI 195. Independent Study** 1-3 sem. hrs.

Supervised study in a specific area of Sociology. Offered every semester. *Prereq: 12hrs. and a quality point average of 2.500 in SOCI courses plus cons. of dept. ch. and instr.*

**SOCI 196. Seminar in Sociology** 3 sem. hrs.

An in-depth consideration of sociological perspectives and concepts and how they may be used to analyze contemporary society and social relationships. Basic sociological theories, methods, and concepts are discussed and used to evaluate contemporary sociological concerns and issues. Supervised and individualized research-writing projects involving a sociological area of each student's choice. Offered every year. *Prereq: 21 hrs. of Sociology and Sociology major or cons. of dept. ch.*

**SOCI 198. Topics in Sociology** 3 sem. hrs.

Lecture course on special areas and themes. May be taken a maximum of two times as long as topics differ. The specific topic of 198 will be designated in the *Timetable of Classes*. Offered occasionally.

**SOCI 199. Senior Thesis** 1-3 sem. hrs.

Sociology majors with a quality point average of 3.000 or higher may write a thesis under direction of an adviser. Offered every semester. *Prereq: SOCI 100 and 104, sr. strndg., cons. of dept. ch. and an instr.*

## THEOLOGY (THEO)

*Chairperson and Professor:* Carey  
*Assistant Chairperson and Assistant Professor:* M. Johnson

*Distinguished Professors:* D. Coffey (*William J. Kelly, S.J. Chair*), Fahey (*Doerr Chair*)  
*Professors:* Hagen, Kurz, Maguire, Misner, Rossi

*Associate Professors:* Barnes, Copeland, Duffey, Edwards, Goltzin, Hills, B. Hinze, Firer-Hinze, Hughson, Kelly, Laurance, Masson, Pace, Schmitt, C. Stockhausen, P. Stockhausen (*Emeritus*), Zemler-Cizewski  
*Assistant Professors:* Caldwell, Dabney, Deahl, Del Colle, Dempsey, Gawronski, M. Johnson, Lambeck  
*Lecturers:* Bonjean, Crowe, Geis, Kolasny, Massingale, Miller, Riggs, Russell, Schaefer, Seemuth, Silberg, Slocum

### MAJOR:

Thirty-three hours, Theology 001 plus 30 upper division hours:

Either two-course sequence, THEO 100/103 or THEO 101/102; THEO 106; THEO 135; one course from THEO 137, 140, 142, 146; two courses from THEO 155, 157, 158; one course from THEO 165, 166, 167, 168; one course from THEO 182, 184, 185, 186; and THEO 197. Depending on a student's preparation and educational needs, other courses may be substituted by approval of the departmental adviser who may also suggest cognate courses in other departments. Students preparing for graduate studies in theology are encouraged to begin courses in a necessary classical (Greek/Hebrew/Latin) or modern language (French/German).

### MINOR:

At least 18 hours, of which 15 must be upper division courses.

Note: See Theology Requirements as stated in the College, School and Programs section of this bulletin.

### TEACHING MAJOR IN RELIGIOUS STUDIES:

Thirty-six hours, THEO 001 plus 33 upper division credits, including the Wisconsin Department of Public Instruction requirements:

- A. Study of Major Religious Traditions, one course from THEO 182–186.
  - B. Role of Religion in Contemporary Society, two courses: THEO 146 or 148 or HIST 115 or 116; and THEO 116 or 150 or 165 or 166 or 168 or 180.
  - C. Religion and Other Institutions, one course: ANTH 112 or SOCI 134 or THEO167.
- Additional requirements are: Either two-course sequence, THEO 100/103 or THEO 101/102; THEO 106; THEO 135; THEO 155; THEO 157; and THEO 158.

Students wishing state certification also need the regular teacher education sequence: 36 hours, including a special methods course and student teaching. See the School of Education section of this bulletin for the university and state requirements for teacher education.

Please refer to "Core Curriculum Requirements for Education Majors" under "Graduation Requirements" in the College of Arts and Sciences section of this bulletin.

### TEACHING MINOR IN RELIGIOUS STUDIES:

A total of 22 upper division hours is required. This must include the Wisconsin Department of Public Instruction requirements (see "Teaching Major in Religious Studies," above).

### THEOLOGY CORE CURRICULUM:

The theology requirement for graduation is 9 hours. This must include THEO 001, one second-level course and one third-level course, in that sequence.

The comprehensive educational goal of the theology core curriculum is theological literacy, that is, an intellectual formation—to a level legitimately expected of graduates of a Catholic university—that habituates students, on the basis of key sources and figures, to approaches, responses, and critiques appropriate to "faith seeking understanding."

Three specific objectives guide the theology core curriculum. Every core course is designed, first, to increase students'awareness of the

mystery and religious dimensions of human life, particularly as conveyed in the basic narrative outline, from creation to fulfillment, that characterizes Christian world views. This objective takes precedence in the first course, "Introduction to Theology."

While cultivating a growing base of factual knowledge, core courses go on to provide training in theological understanding, primarily through the reading and interpreting of significant texts. Second-level courses in particular are designed to develop the skills required for such understanding.

All knowledge implies responsibility. Hence the core curriculum also addresses the need for critical evaluation and judgment concerning religious and justice issues that students will face in their later lives. The challenge of forming intellectually well-founded personal positions in dialogue with others is especially emphasized in third-level courses.

In all courses, theological issues are introduced and discussed with respect for others, inkeeping with the Declaration on Religious Liberty of the Second Vatican Council.

### FIRST LEVEL: INTRODUCTORY COURSE

#### THEO 001. Introduction to Theology

3 sem. hrs.

Key sources and questions of theology as reflection upon the worldview and core narrative found in Christian tradition and scriptures. Includes orientation to the academic study of religion. Background in theology is not presupposed. Prerequisite to all other courses in theology. Offered every semester

### SECOND LEVEL: THEOLOGICAL TEXTS AND FOCAL TOPICS (GOD, HUMAN PERSON, PEOPLE OF GOD)

#### THEO 100. Hebrew Scriptures/Old Testament Overview

3 sem. hrs.

Survey of the contents of the Hebrew Bible, its historical contexts and religious ideas. Includes analysis of selected texts from representative sections of the Old Testament and discussion of their various theological visions of God, the human person and the people of God in interrelationship. Course formerly offered as THEO 102\*. Offered annually. *Prereq: Soph. stndg. and THEO 001*

#### THEO 101. New Testament Overview

3 sem. hrs.

Survey of the contents of the New Testament, its historical contexts and religious ideas. Includes analysis of selected texts from representative sections of the New Testament and discussion of their various theological visions of God, the human person and the people of God in interrelationship. Course formerly offered as THEO 110\*. Offered annually. *Prereq: Soph. stndg. and THEO 001.*

#### THEO 102. Hebrew Scriptures/Old

Testament: Selected Books 3 sem. hrs.

Study of a portion of the Old Testament in depth and with a focus on critical reading skills, as well as central theological questions (God, individual, community). Specific textual content varies by semester, with possible focus on the Pentateuch, Prophets, and the other Writings. Offered annually. *Prereq: Soph. stndg. and THEO 001.*

#### THEO 103. New Testament: Selected Books

3 sem. hrs.

Study of a portion of the New Testament in depth and with a focus on critical reading skills, as well as central theological questions (God, individual, church). Specific textual content varies by semester, with possible focus on the synoptic gospels, the Johannine literature, or the Pauline letters. Offered annually. *Prereq: Soph. stndg. and THEO001.*

#### THEO 104. The Bible Through the Ages

3 sem. hrs.

Understandings and uses of the Bible in the history of Christianity. Revelation, Faith, Tradition, Scripture. Offered annually. *Prereq: Soph. stndg. and THEO 001.*

#### THEO 106. Theology Through the Centuries

3 sem hrs.

Trinity, Incarnation and Salvation in the history of Christian thought over a substantial portion of its range. Offered annually. *Prereq: Soph. stndg. and THEO001.*

#### THEO 108. Church and World in the History of Religious Thought

3 sem. hrs.

The consequences in Christian life and thought of the coexistence of faith community and society in its political, economic, and/or cultural dimensions. Attention to more than one period (Early Church, Byzantine, Middle Ages, Reformation, Recent). Offered occasionally. *Prereq: Soph. stndg. and THEO 001.*

#### THEO 109. Good and Evil, Past and Present

3 sem. hrs.

Human beings'religious and moral relationship with God and fellow creatures as illuminated by past Christian experience, in comparison with the present. Major emphasis on one or two historical eras (Early Church, Middle Ages, Byzantine, Reformation, Recent). Offered occasionally. *Prereq: Soph. stndg. and THEO001.*

#### THEO 110. Quests for God, Paths andRevelation

3 sem hrs.

The quest for God in human and specifically religious experiences with a focus on Christian belief in God. Grounds for belief; revelation; the nature of God's relationship to the world including issues relevant to modern culture and science. The historical precedents and context for these issues. The dialogue with other religious and atheistic conceptions of ultimate reality. Implications of a community's understanding of God for its way of life. Offered every semester. *Prereq: Soph. stndg. and THEO001.*

#### THEO 111. Explorations in Christian Theology

3 sem hrs.

Examination of the meaning and interconnections of some of the central themes in Christian theology (e.g. Jesus Christ, Trinity, Church, Sacraments, Sin and Grace, Revelation). The historical and communal context for understanding these. Implications of these for understanding what it means to be human. Offered every semester. *Prereq: Soph. stndg. and THEO 001.*

#### THEO 115. Christian Discipleship

3 sem. hrs.

The Christian identity of God as a God of Love and Justice. The divine and personal call to the human person to a life of holiness, faith, the virtues, especially justice; the preferential option for the poor; the role of community in

themoral and spiritual life of individuals and Christian communities as agents for social change. Offered every semester. *Prereq: Soph.stndg. and THEO001.*

**THEO 116. Christian Faith in Cultural Contexts** 3 sem. hrs.

Religious experience and beliefs concerning God, human beings, and faith community as apprehended within a particular historically and culturally situated community or communities (e.g. African-American, Hispanic, Asian, or European). Offered annually. *Prereq: Soph.stndg. and THEO001.*

**THIRD LEVEL: FAITH, RESPONSIBILITY, AND THE INTELLECTUAL LIFE**

**THEO 120. Digging the Bible: Archeology and Biblical Studies** 3 sem. hrs.

An exploration of the uses and abuses of archeology relative to the field of biblical studies. Case studies in a historical approach to the intersection of archeology and biblical theology. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 121. Truth, Falsehood, and Authority in the Bible** 3 sem. hrs.

Interdisciplinary survey and analysis of the various claims to "truth" found in the Bible, e.g. divine commands, true and false prophecy, wisdom, the example of Jesus. Special attention to the historical and social situations to which these claims were originally addressed. Offered occasionally. *Prereq: Jr.stndg., THEO001 and one second-level course.*

**THEO 122. The Bible in Its Interpretative Communities** 3 sem. hrs.

The ways in which the Bible was produced, and the ways in which it has been understood and used in the course of time and in the context of different religious and scholarly communities. Intertextuality, canon, history of interpretation, modern critical methods, postmodern literary perspectives, liberationist hermeneutics. Offered occasionally. *Prereq: Jr.stndg., THEO001 and one second-level course.*

**THEO 123. From Scripture to Living Beliefs** 3 sem. hrs.

Interdisciplinary interpretations, application, and actualizations of Biblical texts in contemporary Christian or Catholic creeds, life, worship, moral issues, beliefs, and practices. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 124. The Bible in the Liturgy and Lectionary** 3 sem. hrs.

Reading of Scripture in public worship. Historical and contemporary views on the selection and combinations of passages from the Bible for the liturgical year. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 126. Bible in the Jewish Community** 3 sem. hrs.

The uses of the Bible in Jewish life and practice, in synagogue and in private use. Haggadah and Halakah. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 127. The Bible in Black Religious Experience** 3 sem. hrs.

The use and meaning, in the religious and cultural lives of the enslaved African peoples and their descendants in the United States, of some of the most significant texts of the Hebrew Bible and Christian scriptures. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 129. Women in the Bible** 3 sem. hrs.

Status and roles of women in selected biblical texts. Social and historical background with emphasis on narrative technique and theological themes. Course formerly offered as THEO 108\*. Offered biennially. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 132. New Testament Narratives** 3 sem. hrs.

The Gospels as stories. Literary analysis, comparing the Gospels with each other and examining their similarity and distinctiveness with other narratives. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 134. Special Topics in Biblical Theology** 3 sem. hrs.

Significant topics in Old Testament, Intertestamental, or New Testament literature. Course formerly offered as THEO 109\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 135. Theology in the Early Church** 3 sem. hrs.

Basic theological questions and developments during the era of the Church Fathers. Course formerly offered as THEO 120\*. Offered annually. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 137. History and Theology of the Christian East** 3 sem. hrs.

The Christian East from its origins, through the conversion of Constantine, to the present-day Eastern Orthodox and Oriental Orthodox Churches. Particular attention to the distinctive theological emphases of the East, as well as to the developments leading to the break in communion between Catholic (and Protestant) West and Orthodox East. Course formerly offered as THEO 171\*. Offered annually. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 138. St. Augustine: The Man and the Theologian** 3 sem. hrs.

A study of Augustine's life, writings and thought, with special attention to the Confessions, to his theology of the church and the sacraments, and to his teaching on grace and predestination, against the background of his early philosophical writings. Course formerly offered as THEO 121\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 140. Theology in the Middle Ages** 3 sem. hrs.

Basic theological questions and developments during the Middle Ages, from the Carolingians to the fourteenth century. Course formerly offered as THEO 122\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 141. Theology in the Thirteenth Century** 3 sem. hrs.

Survey of Dominican and Franciscan theology at the universities of Paris and Oxford, with special attention to the work of Albert the Great, Thomas Aquinas, Bonaventure, and Robert Grosseteste. Course formerly offered as THEO 123\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 142. Theology in the Reformation Era** 3 sem. hrs.

Basic theological questions and developments during the late Middle Ages and early Reformation. Current ecumenical issues also addressed. Course formerly offered as THEO 124\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 143. Martin Luther** 3 sem. hrs.

The thought and world of Luther, with emphasis on Luther in his Catholic context; Luther and the Bible, Augustine, the Radicals, the Pope; Luther's theology of faith and freedom; contextual, theological and ethical. Course formerly offered as THEO 125\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 146. Theology in America** 3 sem. hrs.

Basic theological questions and developments from Puritanism to the present. Course formerly offered as THEO 127\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 148. American Catholic Life and Thought** 3 sem. hrs.

Analyzes the development of American Catholic life and thought from the colonial establishment to the present. Investigates in particular how clergymen, theologians, and laypersons came to terms with the difficulties and benefits of being Catholic in the United States. Course formerly offered as THEO 128\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 149. Special Topics in Historical Theology** 3 sem. hrs.

Significant figures and themes in the history of religious thought, examined in their historical context and contemporary significance. Topics and periods vary. Course formerly offered as THEO 129\*. Offered occasionally. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 150. Contemporary Atheism and Theism** 3 sem. hrs.

Origins and varieties of contemporary atheism. The existence of God and Christian theistic interpretations. Course formerly offered as THEO 130\*. Offered annually. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 154. Theology of the Holy Spirit** 3 sem. hrs.

Study of the distinct mission and person of the Holy Spirit in the Trinitarian work of human salvation. Analysis of biblical, patristic, and conciliar sources; attention to modern theology and the role of experience. Offered annually. *Prereq: Jr.stndg., THEO 001 and one second-level course.*

**THEO 155. Jesus the Christ** 3 sem. hrs.

The identity of Jesus Christ and the nature of Christian salvation as attested to in the New Testament and Christian tradition. Historical Jesus and diversity of christologies in the New Testament. Humanity and divinity of Christ. Thesaving significance of Christ's life, death, and resurrection. Course formerly offered as THEO 140\*. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 157. Theology of the Church**

3 sem. hrs.

The Church in light of the documents, event, and charism of Vatican II. Contemporary understandings of the Church and its mission in the modern world. Special attention to post-conciliar "communion ecclesiology" and the relation of the local to the universal Church. Course formerly offered as THEO 133\*. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 158. Sacraments and Christian Life**

3 sem. hrs.

Theological overview of the church's eucharistic, sacramental liturgy as summit and source of its life in Christ. The witness of Scripture and Tradition, including the liturgy itself. Ethical and ecumenical dimensions. Course formerly offered as THEO 136\*. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 161. Christian Prayer and Mysticism**

3 sem. hrs.

Introduction to some of the main currents in the Christian tradition of prayer and mysticism. Origins in Scripture and the early church. Main lines of development in both Eastern and Western traditions, with a focus on the Catholic tradition. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 163. Protestant Thought and Practice**

3 sem. hrs.

Major perspectives within the broad spectrum of Protestantism. Examination of the thought of several Protestant theologians. A survey of the unity and diversity of several Protestant denominations and their respective forms of worship. Course formerly offered as THEO 170\*. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 164. Special Topics in Systematic Theology** 3 sem. hrs.

Significant movements and/or major figures in contemporary systematic theology. Their historical antecedents and cultural context. Specific topics to be specified in the *Timetable of Classes*. Course formerly offered as THEO 139\*. Offered occasionally. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 165. Christian Faith and Justice**

3 sem. hrs.

Classic and recent Christian understandings of justice as interpersonal and societal right-relations. Justice as constitutive aspect of the Gospel; love and justice; Christian responsibility in the face of injustice. Further issues, e.g. sexual and gender ethics, political and economic issues. Course formerly offered as THEO 141\*. Offered annually. *Prereq: Jr.*

*stndg., THEO 001 and one second-level course.*

**THEO 166. Christian Theology in Global Contexts** 3 sem. hrs.

The reception of the Christian gospel in diverse cultures throughout the world. The challenge of inculturation and the requirements of the unity of Christian faith. The meaning of mission and evangelization outside the West. The encounter with indigenous religions. Course formerly offered as THEO 146\*. Offered occasionally. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 167. Family, Church, and Society**

3 sem. hrs.

The interaction of family, church, and society. Contemporary family patterns, their strengths and stresses; the teachings, reflection, and pastoral responses of the Church concerning marriage and family. Ecclesial and societal implications of family as "domestic church." Course formerly offered as THEO 156\*. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 168. Theology, Violence and Non-Violence** 3 sem. hrs.

Non-violence as a creative solution to human oppression and violence. The relationship between non-violence and the life style of such figures as Jesus, Gandhi, King. The implications of non-violence for social, political and cultural life. Course formerly offered as THEO 144\*. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 170. Theology and the Natural Sciences** 3 sem. hrs.

Theological analysis of the historical relationship between religion and the natural sciences; exploration of models for relating the two disciplines today; reflection on the theological implications of contemporary scientific discoveries and theories. Course formerly offered as THEO 145\*. Offered occasionally. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 175. Medical Ethics** 3 sem. hrs.

Health care practices under moral assessment from within the Christian tradition. Controversial topics facing medicine (issues of the beginning and end of life, assisted reproduction, etc.) as related to Christian moral principles. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 179. Special Topics in Moral Theology** 3 sem. hrs.

Selected issues in contemporary moral life; selected themes from classical and contemporary writings in moral theology and Christian ethics. Topics vary, as specified in the *Timetable of Classes*. Offered occasionally. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 180. Theology of Religious Pluralism** 3 sem. hrs.

Global pluralism of religions considered from perspectives of Christian faith. Methods and case studies of theological dialogue with particular religious traditions, e.g. Judaism, Islam, Hinduism, Buddhism. Offered occasionally. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 182. Survey of World Religions**

3 sem. hrs.

An overview of the major religious traditions of the world: Hinduism, Buddhism, religions of China and Japan, Judaism, Christianity, and Islam. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 184. Jewish Thought and Practice**

3 sem. hrs.

Meaning of Jewish history. Philosophical and social understanding of the Jewish experience. Ruling ideas, myths, symbols, and rites. Course formerly offered as THEO 163\*. Offered every semester. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 185. Islam** 3 sem. hrs.

Major trends of Islamic religious thought, practice, and worship. Readings from the Qur'an and other Islamic writings. Historical approach. Current issues and developments. Course formerly offered as THEO 162\*. Offered occasionally. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 186. Hinduism, Yoga and Buddhism** 3 sem. hrs.

Religious experience, cultic act, religious organization, theological formulation, as illustrated by two religions of India, Hinduism and Buddhism. Yoga as spiritual discipline. Historical approach. Readings from sacred writings. Course formerly offered as THEO 161\*. Offered annually. *Prereq: Jr. stndg., THEO 001 and one second-level course.*

**THEO 190. Introductory Biblical Hebrew**

3 sem. hrs.

Grammar and exercises. Course formerly offered as THEO 100\*. Offered occasionally. *(Not applicable toward Theology core requirement.)*

**THEO 191. Readings in Biblical Hebrew**

3 sem. hrs.

Selections from Old Testament prose. Course formerly offered as THEO 101\*. Offered occasionally. *(Not applicable toward Theology core requirement.) Prereq: THEO 190 or equivalent.*

**THEO 195. Independent Study** 1-3 sem. hrs.

Offered every semester. *Prereq: Jr. or Sr. stndg. and cons. of dept. ch., THEO 001 and one second-level course.*

**THEO 197. Capstone Seminar** 3 sem. hrs.

Exploration of a theological topic involving issues of theological method and interrelatedness of the subdisciplines of biblical, historical, systematic and moral theology. Colloquium paper demonstrating critical analysis in a specific field. Offered annually. *Prereq: Sr. stndg. and cons. of dept. ch., THEO 001 and one second-level course.*

*\*May not be taken for credit by students who have received credit for the same course under the former course number. Credit will not be given twice for the same course.*

## SPECIAL PROGRAMS

### ARTS AND SCIENCES (ARSC)

#### **ARSC 007. Introduction to Inquiry** 1 sem. hr.

An academic seminar that enhances critical thinking, reading, and communication skills. Weekly small group exploration of ideas, evidence, and argument, and investigation of college transitional issues. The faculty leader of each section is the student's academic adviser. Twelve weeks; S/U grade assessment; limited to first-year students. Offered fall semester only. *Prereq: Fr. stndg. and enrolled in the College of Arts and Sciences.*

#### **ARSC010-011. Major Concepts in Modern Science** 1, 2

3 lec. hrs., 2 hrs. lab., 4 sem. hrs. each  
An interdisciplinary, integrated study of processes and principles of modern biology, chemistry, and physics. Scientific inquiry as a means of knowledge; major technological contributions to modern societies; stability, information transfer, and evolution of biological systems, emphasizing relevant chemical and physical processes in specific environments. May be counted as natural science toward the Arts and Sciences and Communication core curriculum requirements, and for Elementary and Secondary Teacher certification. Does not count toward major requirements for Biology, Chemistry, Physics, and Broad Field Science. ARSC 010 offered fall semester, ARSC 011 offered spring semester.

#### **ARSC 050. Career Planning and Decision-Making** 1 sem. hr.

Assessment of values, personality characteristics, interests, goals and decision-making skills related to career planning. Also includes job search and labor market information. Offered every semester and first summer session. S/U grade assessment. *Prereq: 2nd sem. Fr. stndg.*

#### **ARSC 060. Introduction to Trial Advocacy** 1 0 sem. hr.

#### **ARSC 061. Introduction to Trial Advocacy** 2 1 sem. hr.

A practicum that introduces students to analytical legal thinking, the skills required for trial advocacy, the legal system, problem solving, basic concepts of evidence, and public speak-

ing by using the National Mock Trial Competition. Students learn by preparing to compete in the Competition. Seminar format. To receive credit, students must complete both semesters. ARSC 060 offered fall semester; ARSC 061 offered spring semester. S/U grade assessment for second semester only. *Prereq: ARSC 060 is a prerequisite for ARSC 061. Both courses must be completed during the same academic year.*

#### **ARSC 100. Arts and Sciences Colloquium** 1-3 sem. hrs.

An interdisciplinary course dealing with a central theme, subject or problem. Offered according to availability of faculty, student interest and resources.

#### **ARSC 101. International Study** 0 sem. hrs.

Structured pre-approval and continuous enrollment for students studying abroad in non-Marquette programs. Offered every semester. *Prereq: Cons. of College Office; Approved for full-time study at another college/university abroad, but will NOT be certified as full-time by Marquette University.*

#### **ARSC 120. The Environment and the City** 3 sem. hrs.

Interdisciplinary lectures and discussion focusing on the science, ethics, and economics of environmental issues that affect cities. Issues covered include cities and a sustainable environment, the limits to urban growth, social justice and environmental preservation, air and water pollution, solid waste disposal, and recycling. Previous urban/environment courses desirable. *Prereq: Jr. stndg.*

#### **ARSC 130. Medieval Models (Medieval Studies Colloquium)** 1-3 sem. hrs.

Interdisciplinary treatment of medieval topics featuring presentations by faculty of several departments. Specific topics and faculty vary. May be counted towards Medieval Studies Minor and as Fine Arts Core Curriculum requirement. Offered occasionally. *Prereq: Second sem. Fr. status.*

#### **ARSC 140. Perspectives on Women in Society** 3 sem. hrs.

Interdisciplinary lectures and discussions focusing on gender as a dynamic component in human institutions and experience. Includes analysis of myths and realities of women's

experiences from a social science, science and humanities perspective. Taps the expertise of faculty across campus who research in women's issues. May count toward Social Science requirement in Communication and Clinical Laboratory Science. Service Learning is a requirement for this course.

#### **ARSC 150. Interdisciplinary Seminar in Family Studies** 3 sem. hrs.

Intensive interdisciplinary seminar on the family. Readings, discussion, and research centering on factors that affect family life or impinge on family stability. Interaction with faculty family specialists. Offered spring semester. *Prereq: SOCI 021 plus 12 additional hours from the minor in Family Studies.*

#### **ARSC 160. Senior Capstone Seminar in International Affairs** 3 sem. hrs.

Senior seminar for INIAmajors designed to bring political, economic, and historical approaches to bear on specific issues in international affairs. Topics vary. The course combines readings, class discussions, and foreign language application, with lectures and panel discussions by faculty specialists in international affairs. Offered spring semester. *Prereq: INIAMajor and Sr. stndg.*

#### **ARSC 190. Arts and Sciences Undergraduate International Exchange** 0 sem. hrs.

Study abroad as part of an international student exchange program. Upon approval, students are enrolled in a college or university abroad as a full-time student for a semester or a year. Course credits transfer to Marquette. *Prereq: Approval by College of Arts and Sciences.*

#### **ARSC 192. Arts and Sciences Affiliated Study Abroad Programs** 0 sem. hrs.

This is a zero-credit, full-time status course designed to keep students' files active while they participate in an affiliated study abroad program. *Prereq: Acceptance by College of Arts and Sciences and by the program.*

#### **ARSC 193. Internship** 1-4 sem. hrs.

Practical learning experiences. For example: An internship at the Center for the Study of Bioethics at the Medical College of Wisconsin. Interns are assigned projects in any of the several areas of the Bioethics Center. Areas may be in educational programs, research and investigation, medical ethics committees, publications and resources, and governmental relations.

All internships require a commitment of 8–12 hours per week during the semester. Selection is based on academic credentials, extra-curricular experience, and a written essay. May be taken only once, S/U grades. Grade is determined by evaluation of work performance and a final written assignment. *Prereq: Jr. stndg., minimum of 3.00 Q.P.A. Consent of Associate Dean and Director of the internship. Additional prerequisites may be found as stated in the Timetable of Classes.*

#### **ARSC 194. Seminar on Service Learning** 0.5 sem. hr.

Theoretical aspects of leadership, service, and social analysis, approached through required readings and written reflection on the integration of service with theory. Social problems discussed from the perspective of process and

# *College of Business Administration*

The major goal of the professional undergraduate business education in the College of Business Administration is to prepare students with an educational foundation for effective and responsible administrative and managerial leadership in both private and public organizations or for related professional activities. This goal implies educating persons to be responsible adults in all aspects of their lives in an era of dynamic change. It implies that we aim to educate persons as highly competent professionals who strive for the achievement of the highest values.

The basic orientation of the college is professional, and this dictates a three-part curriculum. The first, and most important, part of the curriculum is the liberating core. An effective leader and professional in this era of change and challenge must be a liberally educated person. It is necessary that our students learn to communicate and that they develop an understanding of the religious, cultural, social, political, economic, international, scientific and technical environments in which individuals and organizations will exist in the future. Further, it is our objective to help students develop their own internalized value systems and be prepared to apply these values to tomorrow's society. We believe that a liberal education is a necessary part of a professional education, and we have structured a curriculum based on liberal education. This is preparation for life.

The second part of the curriculum, counting for about 35 percent of the total, is the common-body-of-knowledge core business courses required of all College of Business Administration graduates. This core provides the foundation for a career as a manager or as business-related professional. It provides the student with an understanding of the dynamics of the firm and economy, introduction to the various functions generic to any organization, understanding of the basic managerial and organizational concepts necessary to function in an organization, understanding of the interaction between the firm and its environment, and overall view of policy making in an organization. This core, combined with the quantitative and philosophy courses, is designed to help our students to become professionals with highly analytical minds.

The third section of the curriculum provides the student an opportunity to specialize and prepare for an entry-level job and the first years of a career. The goal of this portion of the curriculum is to provide the student with the understanding necessary for the development of personal potential early in one's career.

Our goal is to graduate persons who will be able to absorb and use an ever growing body of knowledge and changing technology and to serve mankind in an ethical manner. The college, therefore, stresses values and the process of learning.

---

## DEGREES OFFERED

Marquette University confers the degree bachelor of science in business administration on those students who have satisfactorily completed one of the regularly prescribed curricula of the College of Business Administration.

The master of business administration, master of science in accounting, master of science in applied economics and master of science in human resources are offered through the Marquette University Graduate School. Details on these master's programs are contained in the *Graduate School Bulletin*.

---

## MAJORS OFFERED

Majors in the College of Business Administration are offered in accounting, business economics, finance, human resource management, marketing, information technology, international business, and quality and performance management; students also may earn a major in general business. The college also offers minors to non-business students in business administration, human resources and marketing.

All undergraduate majors and minors in the college are open to part-time degree students taking day classes. Day and evening courses also are available for credit or audit to non-degree students with the proper prerequisites. Part-time students are assigned to academic advisers in Part-time Studies, 1212 Building, 103.

---

## ADMISSION REQUIREMENTS

For admission requirements for the College of Business Administration see the Admissions Procedures on page 19 of this bulletin.

## GRADUATION REQUIREMENTS

### AMOUNT AND QUALITY OF WORK

A candidate for a baccalaureate degree in business administration must earn 129 semester hours of credit. In addition to the overall requirement of a 2.000 quality point average, students enrolled in the College of Business Administration must achieve a 2.000 quality point average in all courses offered by the college. Candidates in the accounting curriculum must earn a 2.500 quality point average in all courses offered by the college.

### BUSINESS DEGREE REQUIREMENTS

1. NON-BUSINESS CORE COURSES	HOURS
a. ENGL 001 (Expository Writing 1) .....	3
ENGL 002 (Expository Writing 2) .....	3
b. LITERATURE Electives .....	6
(students choose English or foreign language literature courses)	
c. HIST 001 (Growth of Western Civilization 1) .....	3
HIST 002 (Growth of Western Civilization 2) .....	3
(students who have completed one year of world history in high school with at least a B <sup>+</sup> average may substitute HIST 004 and HIST 005 or select two courses from POSC 020, 040, or 060)	
d. MATH 070 (Finite Mathematics) .....	3
MATH 071 (Elements of Calculus 1) .....	3
(if student's MATH ACT score is greater than 28 or MATH SAT score is greater than 625, then the student may complete MATH 80 (4 credits) in lieu of MATH 070 and MATH 071. The student would still be required to complete an additional 2 elective credits.)	
e. PHIL 050 (Philosophy of Human Nature) .....	3
PHIL 104 (Theory of Ethics) .....	3
PHIL 108 (Business Ethics) .....	3

f. CMST 012 (Public Speaking) . . . . .	2
(CMST 010 may be substituted)	
g. THEO 001 (Introduction to Theology) . . . . .	3
THEOLOGY Electives . . . . .	6
<i>All students must complete nine hours of theology: THEO 001, one second-level course (THEO 100-119), and one third-level course (THEO 120-199), in that sequence.</i>	
h. Non-College of Business Administration Electives . . . . .	9 or 18
<i>(Accounting majors must complete 9 elective credits; all other majors, 18 elective credits. All students must include 6 hours in social science, natural science, mathematics or foreign language.)</i>	
<b>TOTAL NON-COLLEGE OF</b> (Accounting majors) . . . . .	<b>53</b>
<b>BUSINESS ADMINISTRATION COURSES</b> (All other majors) . . . . .	<b>or 62</b>

## 2. BUSINESS CORE COURSES HOURS

a. BUEX 001 (Orientation to Business Administration) . . . . .	1
<i>NOTE: Students transferring into the college are required to enroll in BUEX 002 (Computer Literacy in Business) instead of BUEX 001.</i>	
b. ACCO 030 (Principles of Financial Accounting), and ACCO 031 (Principles of Managerial Accounting) . . . . .	6
c. ECON 043 (Principles of Microeconomics) and ECON 044 (Principles of Macroeconomics) . . . . .	6
d. MANA 025 (Introductory Business Statistics), and MANA 026 (Intermediate Business Statistics) . . . . .	6
e. ECON 110 (Applied Microeconomic Analysis) . . . . .	3
f. FINA 180 (Introduction to Financial Management) . . . . .	3
g. MANA 156 (Behavior and Organization) . . . . .	3
h. MANA 170 (Operations Management) . . . . .	3
i. MARK 140 (Introduction to Marketing) . . . . .	3
j. MANA 120 (Introduction to Information Technology) ( <i>non-ACCO Majors</i> ) <b>or</b> ACCO 144 (Accounting Information Systems) ( <i>ACCO Majors</i> ) . . . . .	3
k. MANA 181 (Business and Its Environment) . . . . .	3
l. MANA 182 (Business Policies) . . . . .	3
<b>TOTAL BUSINESS CORE COURSES</b> . . . . .	<b>43</b>

## 3. MAJOR COURSES

Business degree students also must complete the requirements for one of the following majors: accounting, business economics, finance, human resources, information technology, marketing, international business, quality and performance management, or general business.

### ACCOUNTING MAJOR (33 CREDITS)

- ACCO 120 (Intermediate Accounting)
- ACCO 121 (Advanced Accounting 1)
- BULA 127 (Legal Environment of Business)
- BULA 128 (Business Law)
- ACCO 132 (Cost Accounting)
- ACCO 133 (Auditing)
- ACCO 135 (Taxation of Corporations, Partnerships and Trusts)
- Three ACCO electives from:  
ACCO 105, ACCO 134, ACCO 140, ACCO 141, ACCO 145, ACCO 146, ACCO 147
- One Business elective

*Effective January 1, 2001, in Wisconsin, Illinois, and most, if not all states, students will need to complete 150 semester hours, including a bachelor's degree in accounting to qualify for the CPA exam. Many students may prefer to meet this requirement by earning a graduate degree in addition to their undergraduate degree. Marquette's accounting program offers a master of science in accounting degree which meets the 150-hour requirement. For information, consult the Graduate Bulletin or contact the Department of Accounting at (414) 288-7340.*

### BUSINESS ECONOMICS MAJOR (24 CREDITS)

- ECON 120 (Intermediate Macroeconomic Analysis)
- Four upper division ECON electives
- Three business and/or economics electives

In addition to the bachelor's degree program outlined above, the Department of Economics offers a special five-year program enabling students to earn an undergraduate degree and a master of science in applied economics (MSAE) degree. For information, consult the Graduate Bulletin or contact the Department of Economics at (414) 288-7377.

GENERAL BUSINESS MAJOR (24 CREDITS)

- Eight upper division business electives.

FINANCE MAJOR (24 CREDITS)

Specific Finance Course Requirements:

- FINA 181 (Investment Analysis)
- FINA 183 (Advanced Financial Management)
- Three FINA electives from:
  - FINA 105 (Internship in Finance)
  - FINA 182 (Investment Management)
  - FINA 185 (International Finance)
  - FINA 186 (Bank Management)
  - FINA 187 (Cases in Financial Management)
  - FINA 188 (Introduction to Financial Derivatives)
  - FINA 189 (Issues in Finance)
- Three business electives

HUMAN RESOURCES MAJOR (24 CREDITS)

Specific Human Resource Course Requirements:

- MANA 160 (Management of Human Resources)
- Three electives from:
  - MANA 163 (Compensation of Human Resources)
  - MANA 164 (Negotiations and Collective Bargaining)
  - MANA 166 (Employment of Human Resources)
  - MANA 167 (Training and Development)
- One elective from those listed above, or
  - MANA 105 (Internship in Human Resources)
  - MANA 155 (An Introduction to Diversity in Organizations)
  - MANA 157 (Organizational and Management Processes)
  - MANA 158 (Motivation and Leadership)
  - MANA 161 (Human Resource Information Systems)
  - MANA 162 (Employee Benefit Systems)
  - MANA 168 (Issues in Human Resources)
- Three business electives

In addition to the human resources major described above, a special five-year program is offered which enables students to earn an undergraduate degree with a major in human resources and a master of science degree in human resources (MSHR). For information, consult the *Graduate Bulletin* or the director of the MS in Human Resources program at (414) 288-3643.

INFORMATION TECHNOLOGY MAJOR(24 CREDITS)

Specific Information Technology Course Requirements:

- MANA 121 (Business Applications Program Development)
- MANA 122 (Data Base Management Systems)
- MANA 126 (Information Systems Analysis)
- MANA 127 (Information Systems Design and Implementation)
- One elective from:
  - MANA 106 (Internship in Information Technology)
  - MANA 124 (Telecommunications)
  - MANA 128 (Advanced Business Applications Program Development)
  - MANA 129 (Issues in Information Technology)
  - COSC 051 (Structured Programming)
- Three business electives

MARKETING MAJOR (24 CREDITS)

Specific Marketing Course Requirements:

- MARK 142 (Marketing Research)
- MARK 150 (Marketing Management)

- Three MARK electives from:
  - MARK 105 (Internship in Marketing)
  - MARK 143 (Promotional Strategy)
  - MARK 144 (Marketing Logistics and Distribution Strategy)
  - MARK 145 (Product and Pricing Strategy)
  - MARK 146 (Consumer Behavior)
  - MARK 148 (Sales Management)
  - MARK 152 (Retailing Management)
  - MARK 153 (International Marketing)
  - MARK 155 (Industrial Marketing)
  - MARK 156 (Direct Marketing)
  - MARK 157 (Marketing and Society)
  - MARK 159 (Issues in Marketing)
- Three business electives

#### QUALITY AND PERFORMANCE MANAGEMENT MAJOR (24 CREDITS)

Specific Quality and Performance Management Course Requirements:

- MANA 158 (Motivation and Leadership)
- MANA 173 (Total Quality Management)
- Two electives from the following group *with at least one of MANA 171, MANA 172, or MANA 176*:
  - MANA 155 (An Introduction to Diversity in Organizations)
  - MANA 157 (Organizational and Management Processes)
  - MANA 171 (Operations Planning and Control)
  - MANA 172 (Service Operations Management)
  - MANA 176 (Management Science)
- One elective from the following group:
  - MANA 150 (Understanding Entrepreneurship)
  - MANA 151 (New Venture Creation)
  - MANA 160 (Management of Human Resources)
  - MANA 183 (International Management)

*Note: MANA 108 (Internship in Quality and Performance Management) may be used as an elective above.*
- Three business electives

#### INTERNATIONAL BUSINESS MAJOR

(12 CREDITS PLUS AN ADDITIONAL MAJOR IN THE COLLEGE)

Students completing the international business major must also complete another a major in business. Double counting of courses for two majors is not permitted.

- Required Courses (12 credits)
  - Select four electives from:
    - ECON 154 (International Financial Economics)
    - ECON 155 (Comparative Economic Development)
    - ECON 156 (International Trade)
    - BULA 132 (Legal and Regulatory Environment of International Business)
    - ACCO 141 (International Accounting)
    - FINA 185 (International Finance)
    - MANA 183 (International Management)
    - MARK 153 (International Marketing)
    - BUEX 105 (Internship in International Business)

One of the four electives above must be either ECON 154 or ECON 156.

A maximum of two international business electives can be economics.

- Foreign Language
  - Working competency in a least one approved foreign language is required, satisfied by either (1) completing foreign language courses 001, 002, 003, 004, 82, 182 or equivalent in French, German, Japanese, Italian, or Spanish; or (2) passing a reading, writing, speaking, and listening working competency test in a foreign language taught at Marquette University administered by the Department of Foreign Languages and Literatures.
  - Note: Foreign students whose native language is not English may have the language competency requirement waived subject to the approval of the director of International Business Studies.*

- **STUDY OR WORK ABROAD**

Completion of a work or study abroad summer or semester program is required. (NOTE: A term or academic year abroad may result in more than eight terms needed to complete the business degree.) Approval of the study/work abroad experience is subject to prior, written approval by the director of International Business Studies.

**5. GRADUATION REQUIREMENTS**

- A minimum total hours of 129.
- A minimum Q.P.A. of 2.000 must be earned in all courses taken at Marquette University.
- A minimum Q.P.A. of 2.000 must be earned in all College of Business Administration courses taken at Marquette University. (2.500 for accounting majors). A grade of C or higher must be earned in each of a student's major courses including the core courses introducing the major.
- At least 50 percent of the business credit hours required for the business degree must be taken at Marquette University.
- On occasion, seniors will be required to take a comprehensive examination testing their grasp of the concepts, principles, and relations covered in the core business courses. A similar test might be given in any one of the majors.
- It is the candidate's responsibility to meet all university academic, financial, and administrative requirements and procedures as outlined elsewhere in this bulletin.

## MINOR IN BUSINESS ADMINISTRATION

The College of Business Administration offers a minor in business administration open to all other undergraduate students at Marquette University. *The minor is not available to students in the College of Business Administration.*

**Completion of the minor will be noted on a student's transcript if the following requirements are met:**

1. Required Courses	Credits
BUEX 002 Computer Literacy in Business. . . . .	0
ECON 043 Principles of Microeconomics . . . . .	3
ECON 044 Principles of Macroeconomics. . . . .	3
ACCO 030 Financial Accounting . . . . .	3
ACCO 031 Managerial Accounting . . . . .	3
FINA 180 Financial Management . . . . .	3
MANA 025 Introductory Business Statistics <sup>a</sup> . . . . .	3
MANA 026 Intermediate Business Statistics . . . . .	3
MANA 156 Organizational Behavior . . . . .	3
MARK 140 Introduction to Marketing. . . . .	3
	<hr/>
	Total 27

<sup>a</sup> MATH 164, MATH 060 or PSYC 060 will fulfill requirements for both MANA 025 and MANA 026; students completing MATH 164, MATH 060 or PSYC 060 must also complete an upper division business elective to total 27 credits.

- A C or better must be earned in each course except BUEX 002; students must earn a passing grade (CR) in BUEX 002.
- Certification of completion of the minor by the dean of the student's college.

Undergraduate students outside the College of Business Administration should limit their enrollment in business courses (excluding ECON 043 and 044) to no more than 25 percent of the total credit hours applied to their degree programs.

## MINOR IN HUMAN RESOURCES

The College of Business Administration offers a minor in human resources that is open to all other undergraduates at Marquette University. *The minor is not available to students in the College of Business Administration.*

A minor in human resources requires ACCO 030, ECON 043, MANA 160 and three courses from the following: MANA 156, MANA 163, MANA 164, MANA 166, MANA 167, and ECON 160. In addition, a course in basic statistics is required (MANA 025 or equivalent). A grade of C or better must be earned in each of these courses.

MATH 060, MATH 164, PSYC 060, or SOCI 060 may be substituted for MANA 025.

The College of Business Administration offers a special five-year program which enables students to earn a minor in human resources as part of their undergraduate degree and a master of science in human resources (MSHR) degree. For information, consult the *Graduate Bulletin* or director of the M.S. in the Human Resources program at (414) 288-3643.

## MINOR IN MARKETING

A minor in marketing includes MATH 060, ECON 043 and 044, MARK 140, 142 and two other upper division marketing courses. *MARK 143 (Promotional Strategy), MARK 145 (Product and Pricing Strategy), and MARK 146 (Consumer Behavior) are recommended.*

MATH 060, PSYC 060 or MATH 164 may substitute for MANA 026 as a prerequisite for MARK 142. The economics courses should be completed in the sophomore year. Students must earn a C or better in each course in their minor. *The minor in marketing is not available to students in the College of Business Administration.*

---

## ACADEMIC REGULATIONS

Students in the College of Business Administration are expected to comply with the academic requirements and regulations listed in the university section of this bulletin. Amplifications and additions to the university requirements are detailed herein and govern only those students enrolled in the College of Business Administration. Procedures developed to enforce university and college regulations are available for review in the college office.

## DECLARATION OF MAJOR

Each business student is required to declare a major prior to registration for the junior year. All students must declare their majors prior to advising and registration for the senior year. All students must file applications for graduation in the main office one term prior to the term of intended graduation.

## ABSENCES FROM FINAL EXAMINATIONS

A business administration student who misses a final examination in any course must file a written excuse with the assistant dean in the College of Business Administration office within 48 hours. All students enrolled in business administration courses (regardless of their college) with valid and verifiable non-academic excuses may take make-up examinations during a period scheduled by the college the following semester. Clearance of X and I grades in all business administration courses is administered by the College of Business Administration. (See also the University section of this bulletin under "Examinations.")

## S/U OPTION

For enrichment purposes, junior and senior students are given an option to elect one course per semester (to a maximum of four courses) for which only an S or U grade is assigned. Quality of C or higher achievement must be maintained if a grade of S is to be assigned.

Eligible courses include only non-business electives which are not used to satisfy non-business core requirements. Courses for a minor or major cannot be taken under the S/U option. No business course may be taken under the S/U Option by a business administration student if the student wishes that course to fulfill a graduation requirement for either number of hours or as a required course for the core or major. Most BUEX courses are graded using the S and U grades and do not fall within the S/U Option.

## CD AND D GRADES

Courses completed with a grade CD or D are not counted toward the total hour requirement for the major but do fulfill the subject matter requirement and do count toward the total hours required for graduation.

Credit is *never* given twice for the same course. Students who received the grade of CD or D in a course specific to their major or minor may need to repeat the course.

Accounting students must earn a C or better in ACCO 030 and ACCO 031 prior to enrolling in ACCO 120.

## GRADE APPEALS AND POLICY PROCEDURES

The college adheres to university policy on grade appeals. Any appeal *must* begin with the teacher who assigned the grade. If a resolution cannot be reached, the department chairperson must be contacted with a written appeal. Information concerning subsequent steps can be obtained from the assistant dean of undergraduate programs or the associate dean.

## ATTENDANCE

A student is expected to attend every exercise of the courses in which he or she is registered. Any absence, regardless of the reason, will prevent the student from getting the full benefit of the course and renders a student liable to university censure. Since it is assumed that no college student will be absent from class without reason, this college will not differentiate officially between excused and unexcused absences.

When a student has absences in hours equal to two weeks of class periods, he or she may be dropped without warning, earning a grade of WA, at the request of the instructor or the dean of the college. After the WA grade has been issued, the student may not apply for a grade of W.

All students enrolled in courses taught by the College of Business Administration must conform to the attendance policy in effect in the College of Business Administration even though they are registered through another college or division of the university.

## ACADEMIC PROBATION AND DISMISSAL

Students in academic difficulty are automatically warned on the grade reports and typically are placed on academic probation by the College of Business Administration. Students in the college are expected to maintain a C (2.000) academic average overall and in all College of Business Administration courses. Students who fail to maintain progress necessary to meet university and college graduation requirements are subject to academic dismissal. A student on academic probation is directed as to what the student will be expected to attain the next term in order to continue enrollment. Note that students can also be placed on probation and dismissed for accumulating 15 percent of hours attempted with a grade of F.

## ADVANCED STANDING STUDENTS

The College of Business Administration accepts credit from both two- and four-year educational institutions based on the university transfer policy and an individual evaluation of credits earned using the following criteria:

- a. Educational objectives and nature of the institution from which the student transfers credit.
- b. Comparability of the nature, content, and level of credit earned to that offered by the college. Courses offered on the lower division at other institutions, but at the upper division at Marquette University, are normally not acceptable. Occasionally, such courses may be validated.
- c. Appropriateness and applicability of the credit earned to the programs offered by the college, in the light of the student's goals and the nature of Marquette's education. The college will normally not accept highly technical, career oriented courses, physical education courses, or courses earned in fulfillment of requirements for a professional license or certification.

The College of Business Administration has established validation procedures for some courses taken at the lower division level which the college offers at the upper division level.

Such validation is usually based on the successful completion of advanced courses in a given area and may include written examinations and/or CLEP tests. Please discuss validation with the assistant dean of undergraduate programs.

## APPROVAL FOR SUMMER SESSIONS STUDY

Students who plan to study in summer school at another institution must obtain written approval for each course before the summer session actually begins. If prior approval is not obtained, there is no guarantee that credits earned will be accepted by Marquette University. Course approval forms may be obtained from the College of Business Administration main office. Students must earn a C grade or better in the course in order to be eligible for transfer credit.

## ACADEMIC LOAD

The academic load of a student is measured by credit hours assigned to each course. The normal business administration program varies from 15 to 18 credit hours per term.

Request for permission to exceed 19 credit hours must be submitted in writing to the assistant dean prior to registration.

## GRADUATION

All graduates are expected to complete the Senior Exit Survey in the month prior to their graduation. All May graduates are required to attend the university and college commencement ceremonies.

---

## SPECIAL ACADEMIC PROGRAM

### BUSINESS EXPERIENCE INTERNSHIP PROGRAM

The College of Business Administration offers qualified students the opportunity to participate in an experiential program which combines practical experience with the core curriculum. The program, offered in cooperation with public, private and professional organizations includes actual experience in a carefully supervised program of productive work with a clearly defined educational objective.

Full-time degree students in the college, who have achieved junior standing and a quality point average of 2.500 overall, are eligible to participate in the program. Credit is granted based on hours worked and the educational content of a particular offering. Offerings include intern positions, a Junior Achievement program, international study in business, community service, career planning, and a Small Business Institute. Offerings depend on availability and are announced in the *Timetable of Classes*.

Interns are full-time students whether at school or at work. When at work the intern is subject to the rules of the company and is under its direct supervision. Wages are paid directly to the student. The university does not employ the student but cooperates with business and industry in arranging such employment. Registration for each work period is required of all full-time interns, and credit is established and graded through enrollment in the appropriate course during the following school period. Six credit hours earned via internship may be applied to the bachelor of science degree requirements. Contact the college director of career development/placement for information.

---

## STUDENT FINANCIAL AID

While most financial aid is awarded by the Office of Student Financial Aid, a few scholarships are available through the College of Business Administration. Interested students should contact the associate dean of the college. Scholarships are typically available only to prospective juniors and seniors with a cumulative Q.P.A. of 3.0 or better. Applications must be filed in the main office by mid-May for scholarship funds for the coming academic year.

---

## STUDENT ORGANIZATIONS

The College of Business Administration supports student organizations intended to cultivate academic, professional, career and social interests of business students and related majors. This includes the Business Administration Student Council (BASC). The presidents of each business student organization serve as an advisory council to the dean, meeting several times each term. To inquire about business student organizations activities and membership, ask your adviser or the dean's office.

## HONOR GROUP

### BETA GAMMA SIGMA

The Beta of Wisconsin Chapter of Beta Gamma Sigma, the national honorary business society, was founded at Marquette in 1929 "to encourage and reward scholarship and accomplish-

ment among students of business and administration, to promote the advancement of education in the art and science of business, and to foster integrity in the conduct of business operations." Beta Gamma Sigma is the highest honor that may be conferred by the College of Business Administration.

## PROFESSIONAL FRATERNITIES

Students in the College of Business Administration are eligible to join the following professional fraternities on campus: Psi Chapter of Beta Alpha Psi, national accounting fraternity; Alpha Epsilon, Chapter of Pi Sigma Epsilon, national professional fraternity in marketing, sales management and selling, and Delta Sigma Pi, international professional commerce fraternity.

## PROFESSIONAL SOCIETIES

### AMERICAN MARKETING ASSOCIATION (AMA)

The American Marketing Association is a national marketing organization of business professionals, educators and students. The chapter provides opportunities to students to interact with their fellow students, academicians, and the business community and to develop a career-oriented objective.

### AMERICAN SOCIETY FOR QUALITY CONTROL (ASQC)

The American Society for Quality Control provides quality and performance management students with opportunities to learn, train, and practice managerial skills and techniques. Chapter members interact with fellow students, faculty, and the business community to further enhance achievement of their career objectives.

### COLLEGIATE ENTREPRENEURS OF MARQUETTE (CEM)

Collegiate Entrepreneurs of Marquette is an organization of college students who promote entrepreneurship among the students, faculty, alumni and within the local community. CEM is an affiliate of Collegiate Entrepreneurs of America.

### ECONOMICS ASSOCIATION

The Economics Association student group was established to assist and encourage students interested in the professional application of economics.

### FINANCIAL MANAGEMENT ASSOCIATION (FMA)

The Financial Management Association is a national association of finance specialists dedicated to developing interactions between students, the faculty, and the business community. Through a series of guest speakers, field trips, and simulation games, the organization exposes the students to as many career opportunities in finance as possible.

### HUMAN RESOURCES MANAGEMENT ORGANIZATION (HRMO)

The Human Resources Management Organization's primary aim is to assist students in improving their personal and professional managerial skills and understanding of the realities of the business environment.

### INTERNATIONAL ASSOCIATION OF STUDENTS IN ECONOMICS AND BUSINESS MANAGEMENT (AIESEC)

AIESEC is an international student-run educational association with the purpose of contributing to the development of member countries and their people with an overriding commitment to international understanding and cooperation. The primary objective is to develop internship opportunities for Marquette students to work abroad.

### MARQUETTE INFORMATION TECHNOLOGY ASSOCIATION (MITA)

Marquette Information Technology Association has a mission to heighten the awareness of information systems business applications and careers available for business systems analysts. MITA is a student chapter of Information Technology Professionals Association (ITPA—formerly DPMA).

---

## BACKGROUND CHECKS, DRUG TESTING

Some degrees, majors and/or courses may require a student to submit to a criminal background check and/or drug testing. The results of those checks and/or tests may affect the student's eligibility to continue in that degree, major and/or course.

## CURRICULA INFORMATION

### FRESHMAN-SOPHOMORE CURRICULUM

The following are the required courses and alternatives for freshmen and sophomores.

#### *Freshman Year*

	SEM. HRS.
BUEX 001 .....	1
ENGL 001 and 002 .....	6
History requirement† .....	6
MATH 070 and 071 .....	6
CMST 012 or CMST 010 .....	2-3
PHIL 050 .....	3
THEO 001 .....	3
Non-business electives* .....	6-9

---

33-36

#### *Sophomore Year*

	SEM. HRS.
ACCO 030 and 031 .....	6
ECON 043 and 044 .....	6
Literature electives .....	6
MANA 025 and 026 .....	6
Theology or other electives .....	6-12

---

30-36

\*An elective selected from foreign languages, mathematics, biology, chemistry, physics, anthropology, political science, psychology, or sociology.

†See Graduation Requirements for specific course selection(s).

### BUSINESS ADMINISTRATION AND ROTC

Students in the Army Military Science program (AROTC) and the Naval Science program (NROTC) may enroll in any of the curricula offered by the College of Business Administration; more than the 129 credit hours normally required for graduation are necessary.

The heritage requirement for NROTC students can be fulfilled with (a) HIST 118 or POSC 129 and (b) NASC 022; AROTC students can fulfill the heritage requirements with (a) MISC 146 and (b) HIST 118 or MISC 195. Also, military and naval science courses will fulfill the 9–18 credit requirement of non-business electives.

# COURSE DESCRIPTIONS

## ACCOUNTING (ACCO)

*Chairperson and Professor:* Giacomino  
*Professors:* Doney, Probst  
*Professor Emeritus:* H. Loeb  
*Associate Professors:* Akers, Mielke, Naples, Trebby, Yahr  
*Assistant Professor:* Eaton  
*Adjunct Assistant Professor:* Dole  
*Lecturer:* Rausch

The curriculum in accounting is designed to accomplish many specific objectives, the most important of which are: critical thinking, oral communication, business writing ability, technical knowledge and skills needed for an entry level accounting position, and technical knowledge needed for the Certified Public Accounting Examination.

The individual course descriptions below focus primarily on content, as opposed to process. The accounting curriculum reflects the faculty's commitment to excellence and breadth. The faculty use a wide variety of methods to enhance the learning process. Accounting courses include computer assignments, team projects, oral reports and term papers, and they cover ethical and international accounting issues. The department offers a group of electives in tax research, international accounting, financial statement analysis, accounting theory, and government accounting. Some of the electives are seminars in which students are regularly involved in class discussions and report writing and presentation. Several courses also call for class presentations by the students.

### **ACCO 030. Principles of Financial Accounting** 3 sem. hrs.

Accounting concepts and principles applied in the preparation of financial statements, asset valuation, and the accounting for debt and equity issues of business corporations. *Prereq:* Computer literacy; *Soph. stndg.*

### **ACCO 031. Principles of Managerial Accounting** 3 sem. hrs.

Structuring data to aid management decisions. Internal control, budgeting, break-even analysis, standard costing, variable costing, ratio analysis, inventory control, capital budgeting, and transfer pricing. *Prereq:* ACCO 030 and computer literacy.

### **ACCO 101. Federal Income Taxes for Non-Accountants** 3 sem. hrs.

Study of gross income deductions, losses and credits. Also included is an examination of property transactions and selected material relating to corporations and partnerships. Course material is structured for the non-accounting student. *Prereq:* Jr. stndg.

### **ACCO 105. Co-op/Intern Grading Period in Accounting** 1-3 sem. hrs.

Co-op or intern experience in accounting features educational activity and productive work related directly to the accounting curriculum. Credit granted for previous work period. *Prereq:* BUEX 110 and consent of BUEX director. S/U grade assessment.

### **ACCO 120. Intermediate Accounting** 3 sem. hrs.

Discussion of the development of accounting standards and the conceptual framework underlying financial accounting. An in-depth review of the income statement and the balance sheet. Recognition, measurement and reporting of cash, receivables, inventories, property, plant and equipment, intangible assets, liabilities and investments. *Prereq:* ACCO 031 and computer literacy.

### **ACCO 121. Advanced Accounting 1** 3 sem. hrs.

Recognition, measurement and reporting of stockholders' equity, retained earnings and dilutive securities. An examination of financial reporting issues; earnings per share, income taxes, pensions, leases, accounting changes and errors. A further elaboration of financial statement preparation: statement of cash flows, interim reporting, segment reporting and reporting for inflation. Also, accounting for partnerships. *Prereq:* ACCO 120.

### **ACCO 122. Advanced Accounting 2** 3 sem. hrs.

Business combinations through acquisitions of net assets or common stock. Construction of consolidated financial statements, including analysis of intercompany transactions. International accounting issues. Accounting for state and local governments and not-for-profit organizations. *Prereq:* ACCO 121.

**ACCO 132. Cost Accounting** 3 sem. hrs.  
Industrial cost accounting systems, job order and process costing, standard costs, and variance analysis. Procedures for measuring managerial performance and enforcing budgets. Problems conveying the importance of accounting information in planning and controlling a business. *Prereq:* ACCO 120.

### **ACCO 133. Auditing Principles and Procedures** 3 sem. hrs.

Philosophy, concepts and techniques used by independent auditors. Professional ethics and legal relationships. Study and evaluation of internal control. Audit program applications. Statistical sampling and ED auditing. Reporting obligations and options. *Prereq:* ACCO 121.

### **ACCO 134. Individual Income Taxation** 3 sem. hrs.

History of federal income taxation. Taxation of personal income. Determination of gross income, adjusted gross income, deductions, credits, exemptions, normal tax, and surtax. *Prereq:* ACCO 120 and Jr. stndg.

### **ACCO 135. Taxation of Corporations, Partnerships, and Trusts** 3 sem. hrs.

Partnership, fiduciary, and corporation income tax laws studied for proper treatment of various types of income, deductions, the consequences of ownership interests, and the application of various tax rates to taxable situations. Survey of administrative procedure for protests, refunds and of gift and estate taxes. *Prereq:* ACCO 121 and 134.

### **ACCO 139. Special Problems in Accounting** 1-4 sem. hrs.

In-depth study of current topics in accounting. Possible topics: accounting theory, fund accounting, international accounting, contemporary problems and information systems. Specific topics announced in the *Timetable of Classes*.

### **ACCO 140. Analysis of Financial Statements** 3 sem. hrs.

The primary objective of the course is to provide experience in reading, interpreting, and analyzing corporate financial statements. The course also integrates finance theory relative to the importance and value of accounting information. Specific attention is given to the evaluation methods necessary to assess a firm's short-term liquidity, long-term solvency funds flows, capital structure, return on investment, operating performance, and asset utilization. The effects of alternative accounting methods and footnote disclosures are important ingredients in these analyses. Course requirements stress the ability to write both cases and reports that summarize the various analyses and conclusions. *Prereq:* Srs. majoring in accounting or finance.

### **ACCO 141. International Accounting** 3 sem. hrs.

The primary objective of the course is to provide an overview of managerial and financial accounting issues faced by multinational corporations or firms involved in international business. These issues include the diversity of worldwide accounting principles and the prospects for uniform international accounting standards, foreign currency transactions and translation, inflation, various technical accounting methods and the implications of their application, financial disclosures, analysis of financial statements, auditing, investment analysis, risk management, management information systems, performance evaluation, methods of financing transfer pricing, and taxation. These topics are viewed from the perspective of companies based in the United States that operate in diverse business environments throughout the world. Some specific countries are analyzed to provide contrasts and comparisons in these areas. Course requirements stress the ability to write both cases and reports some of which require use and analysis of foreign company financial statements. *Prereq:* ACCO 031.

### **ACCO 142. Tax Research Seminar** 3 sem. hrs.

The objective of this course is to assist in the development of essential tax research skills and their application in the prevailing federal tax environment. The student will learn how to find tax authority, evaluate the efficacy of that authority, and apply the results of the research to a specific situation. *Prereq:* ACCO 134 and Sr. stndg.

### **ACCO 143. Accounting Theory** 3 sem. hrs.

Analysis of theoretical structure underlying financial accounting. Emphasis directed toward its development from both nominative and descriptive approaches. Coverage includes relation of accounting theory to basic financial statements and to selected topical areas. *Prereq:* Sr. stndg. and accounting major.

**ACCO 144. Accounting Information Systems**  
3 sem. hrs.

Examines most of the information systems knowledge components, required of entry-level accountants, by the AICPA, IIA and IMA. Hands-on projects, using data base management software, and accounting systems software, reinforce understanding of the knowledge components. Coverage includes: systems theory, analysis and design of computer-based accounting systems, various approaches to computerizing accounting data, data modeling, data base management systems, internal control, computer crime, management fraud, end-user computing, networks and role of the information technology function in organizations. *Prereq: ACCO 120.*

**ACCO 145. Advanced Cost Accounting**  
3 sem. hrs.

This course is designed to develop an understanding of accounting as a financial information system. Cost accounting is designed to structure financial information so as to assist management in decision-making. As a result, this course has a decision-orientation which is important for students who seek careers in either profit-motivated or not-for-profit organizations. *Prereq: ACCO 132.*

**ACCO 146. Governmental and Not-for-Profit Accounting** 3 sem. hrs.

Study of accounting principles for governmental and not-for-profit sector and the related financial reporting and disclosure requirements. Examination of objectives of financial reporting for these entities and the theoretical structure underlying these principles. Coverage of current and pending GASB and FASB pronouncements. *Prereq: Sr. stndg. and ACCO 121.*

**ACCO 147. International Taxation** 3 sem. hrs.  
Study of taxation issues facing American companies carrying on business outside the country, as well as those issues for foreign companies conducting business in the United States. *Prereq: ACCO 135.*

**ACCO 148. Accounting for the Financial Services Sector** 3 sem. hrs.

Introduction to accounting for such financial institutions as banks, thrift institutions, and insurance companies. Coverage also includes examination of various operating areas of these institutions and analysis of contemporary accounting issues facing these entities. *Prereq: ACCO 121 and Sr. stndg.*

**ACCO 195. Independent Study** 1-4 sem. hrs.  
*Prereq: Cons. of dept. ch.*

## BUSINESS LAW COURSES (BULA)

**BULA127. Legal Environment of Business**  
3 sem. hrs.

A review of basic business law principles in the regulatory environment of government and society. Coverage includes the administrative environment, jurisdiction, litigation and arbitration remedies, torts, contracts, both commercial instruments and secured transaction under the UCC, and international law. *Prereq: Jr. stndg.*

**BULA128. Business Law** 3 sem. hrs.

A review of the principles of law related to business organizations with emphasis upon agency, partnership and corporation law principles; UCC contract concepts related to the sale of goods, and property law related to personal and real property (land use regulation), bailments, wills, trusts and estates, insurance environment and employment law. *Prereq: BULA127.*

**BULA132. The Legal and Regulatory Environment of International Business**  
3 sem. hrs.

A review of the legal environment of international business and of the structure and organization of foreign legal systems, international trade agreements, associations and regulatory agencies. The course will include a comparative analysis of the legal principles, issues, conventions, and competitive influences affecting international business activities as conducted by U.S. multinational enterprises when operating outside of the United States; and, by foreign multinational enterprises when operating within the United States. In addition, the course will review international dispute resolution mechanisms as applied by the international Court of Justice, the European Union, and various arbitral organizations. *Prereq: Jr. stndg.*

## BUSINESS EXPERIENCE PROGRAM (BUEx)

*Program Director:* Terrian  
*Course Coordinators:* A'Hearn, Brennan, Brush, Hosseini, Hoy, Keaveny, Lysonski, Mielke, Probst, Seifert, Stankowski, Terrian  
Performance in all BUEx courses is assessed using S and U grades.

**BUEx 001. Orientation to Business Administration** 1 sem. hr.

Introduction to the profession of Business Administration. Orientation to college programs, resources and administrative staff. Computer literacy for business. Information on business student organizations, library skills, career awareness, academic regulations, academic honesty, counseling center and the Wall Street Journal. *Prereq: First semester Fr. enrolled in the College Bus. Ad.; S/U grade assessment.*

**BUEx 002. Computer Literacy in Business**  
0 sem. hrs.

Introduction to university computer system and resources. On-line information, e-mail, Internet and World Wide Web. Word processing and spreadsheet analysis, with hands-on lab exercises and assignments. *Prereq: Enrollment in the College of Bus. Admin. only*

**BUEx 100. International Study in Business**  
0-3 sem. hrs.

Structured travel and study programs in International Business with other colleges/universities. *Prereq: Consent of Program Director. Approved for full-time study at another college/university abroad, but will NOT be certified as full-time by Marquette University.*

**BUEx 101. Career Planning** 1 sem. hr.

Personal and business, short-term and long-term, and practical and theoretical aspects of personal career planning. Lectures, readings, written assignments and guest speakers will

make up the class. Preparation for seeking employment will include resume preparation and interviewing skills. Exploration of career alternatives and expectations will also be included. S/U grade assessment. *Prereq: Open to juniors and seniors enrolled in the College of Business ONLY.*

**BUEx 105. Co-op/Intern Grading Period in International Business** 1-3 sem. hrs.

Co-Op or intern experience in international business features educational activity and productive work overseas related to the international business curriculum. S/U grade assessment. *Prereq: BUEx 110 and cons. of BUEx dir.*

**BUEx 110. Co-op/Intern Work Period**  
0 sem. hrs.

*Prereq: Jr. stndg., cons. of BUEx dir., days and hours to be arranged and must have a 2.500 Q.P.A. Students register for zero-credit during the semester they are working. Fee.*

**BUEx 111. Junior Achievement Applied Management** 3 sem. hrs.

Student serves as a member of the Board of Directors along with business professionals, advising a Junior Achievement firm consisting of high school students as they organize, incorporate, capitalize, choose and market a product, and eventually liquidate the firm. The Junior Achievement experience will also be supplemented with the Business Basics Program: teaching an Introduction to Business course to elementary students. S/U grade assessment. *Prereq: Jr. stndg. and enrolled in the College of Bus. Ad.*

**BUEx 115. Small Business Institute**  
1-3 sem. hrs.

Supervised development of a management consulting project with a small business firm. Projects include analysis of marketing, production, finance, accounting, or economics problems and submission of a written project report. S/U grade assessment. *Prereq: Jr. stndg., cons. of BUEx dir. S/U grade assessment.*

**BUEx 189. Business and the Non-profit Sector** 1-3 sem. hrs.

This course involves business service to a community non-profit organization and benefits the student by supplying direct sustained involvement with non-profit and social service organizations. Students will be expected to apply their business education, especially in their majors, to community and social issues. S/U grade assessment. *Prereq: Jr. stndg. and enrolled in College of Bus. Ad. and cons. of instr.*

**BUEx 190. Business Administration Undergraduate International Exchange**  
No credit

Study abroad as part of an international student exchange program. Upon approval, students are enrolled in a college or university abroad as a full-time student for a semester or a year. Course credits transfer to Marquette. *Prereq: Cons. of BUEx dir.*

**BUEx 191. Study at St. Clare's College**  
0 sem. hrs.

Study abroad at St. Clare's College in Oxford, England. This full semester program offers a

variety of lecture and tutorial courses taught by Oxford faculty. Course credits transfer to Marquette. *Prereq: Consent of BUEX dir, student's college adviser and student's collegeoffice.*

**BUEX 192. Business Administration  
Affiliated Study Abroad Programs**  
0 sem. hrs

Structured full-time study program in international business with other affiliated colleges/universities. *Prereq: Consent of director of International Business Studies.*

**BUEX 196. International Business Elective**  
1-4 sem.hrs.

Enrollment in this course indicates that a course, completed at another university, will transfer as an international business elective. *Prereq: Consent of the dean.*

## ECONOMICS (ECON)

*Chairperson and Professor:* Brush

*Professor:* Smiley

*Professor Emeritus:* Danner

*Associate Professors:* Booth, Breeden,

Chowdhury, Clark, Crane, Daniels, Davis,

Hunter, McGibany, Nourzad, Tumanoff

*Associate Professor Emeritus:* Trestrail

*Lecturer:* Smith

**ECON 020. Introduction to Economics**  
3 sem. hrs.

An introductory survey of economic issues for non-majors with an emphasis on using economic concepts as elements of critical reasoning. Microeconomic topics include markets and the role of government in a market economy. Macroeconomic topics include the banking system, inflation and unemployment. International issues include the balance of trade and foreign exchange. Will not be counted towards the Economics major. *Not available for students enrolled in the College of Business Administration.*

**ECON 043. Principles of Microeconomics**  
3 sem. hrs.

Institutions and processes of market specialization and exchange. Supply and demand and their determinants. Pricing and production decisions of the firm under varying competitive conditions. The role of government in a modern mixed economy. Microeconomic analysis applied to selected economic problems.

**ECON 044. Principles of Macroeconomics**  
3 sem. hrs.

Processes and determinants of overall economic activity and growth. National income accounting, determination of aggregate income, employment, and the price level. Money and banking, government monetary and fiscal policy, and international economics. *Prereq: ECON 043.*

**ECON 105. Co-op/Intern Grading Period in Economics** 1-3 sem. hrs.

Co-op or intern experience in economics features educational activity and productive work related directly to the economics curriculum. *Prereq: BUEX 110 and consent of BUEX director. S/U grade assessment.*

**ECON 110. Applied Microeconomic Analysis**  
3 sem. hrs.

A review of the tools of supply and demand analysis. A study of the market behavior of consumers and business firms and the way they interact with each other and with public policy. The application of market theory to questions of resource allocation efficiency, changing market conditions, optimal pricing and output strategies and to important social issues of the day. *Prereq: ECON 043 and 044; and MATH 071 or equivalent.*

**ECON 120. Intermediate Macroeconomic Analysis** 3 sem. hrs.

Determination of the levels of aggregate output, employment, and prices. Inflation and unemployment. A description of available policy variables and their impacts upon the money, bond, goods, and labor markets. International macroeconomic interrelationships. Fundamentals of the economic growth process. Offered annually. *Prereq: ECON 043 and ECON 044; and MATH 071 or equivalent.*

**ECON 125. American Business History**  
3 sem. hrs.

Survey of the development of American business from the Colonial era to the present. Industries and individual firms will be examined as well as entrepreneurs and their role in the development of American business, and the role of governments in the development of American businesses. *Prereq: ECON 043 and ECON 044.*

**ECON 126. American Economic History**  
3 sem. hrs.

Briefly surveys the pre-1900 development of the American economy and then examines 20th Century changes in the agricultural, manufacturing, transportation, finance, and trade and communications sectors. Prosperity and depression in the 1920 to 1940 period will be examined in depth. Concludes with an examination of the distribution of income and wealth and the changing role of government in the 20th century American economy. *Prereq: ECON 043 and ECON 044.*

**ECON 134. Public Policies Toward American Industry** 3 sem. hrs.

Role of competition as an economic regulator. Bases and consequences of monopoly power. Development of statutory and administrative law affecting market processes in the U.S. Antitrust policies applied to monopoly, oligopoly, mergers and restrictive trade policies. Alternatives to antitrust, including utility regulation and social regulation. *Prereq: ECON 043 and 044.*

**ECON 145. Public Finance** 3 sem. hrs.  
Examination of such current topics as the growth of government spending, taxes, and deficits. Proper role of the state, centralization and decentralization, the impact of government decisions on the distribution of income and the efficient allocation of resources. *Prereq: ECON 043 and ECON 044.*

**ECON 146. Urban Economics** 3 sem. hrs.  
Economic role of cities. Forces behind urban growth. Problems of central city economic decline and urban poverty. Urban land and housing markets. Suburbanization of employment and population. The urban fiscal crisis. *Prereq: ECON 043 and 044.*

**ECON 150. Money, Banking and Monetary Policy** 3 sem. hrs.

Origins, nature and importance of money. Money demand and supply. Types of financial markets and their role in the economy. Banking institutions and the Federal Reserve. Role of monetary policy in business cycles and its impact on financial institutions and markets. *Prereq: ECON 043 and 044.*

**ECON 151. International Economic Issues**  
3 sem. hrs.

Survey of international economics. Basis for and welfare effects of international trade, commercial policies, and economic growth. International organizations, trading regions, and trade accords. Balance of payments concepts and exchange rate theories. History and theory of international monetary systems including fixed versus flexible exchange rates. Credit not given if ECON 154 or ECON 156 already completed for credit. *Prereq: ECON 043 and 044.*

**ECON 154. International Financial Economics** 3 sem. hrs.

Balance of payments concepts and international indebtedness. Organization and characteristics of foreign exchange markets. International monetary history. Operation and structure of international banking and international securities markets. Theories of payments adjustment and exchange rate determination. Interdependency of macroeconomic policy, policy coordination and exchange rate target zones. *Prereq: ECON 043 and 044.*

**ECON 155. Comparative Economic Development** 3 sem. hrs.

An analysis and description of institutional differences among national economies. A theoretical framework for analyzing the effects of alternative systems on social and economic behavior is developed. Theoretical models are applied to specific cases, with special emphasis on issues of growth and development in advanced variants of capitalist, post-communist and less developed economies. *Prereq: ECON 043 and 044.*

**ECON 156. International Trade** 3 sem. hrs.  
Sources, patterns, and welfare implications of international trade. Empirical investigations of traditional trade theories. Arguments for and impact of commercial policies. Trade effects of economic growth. Imperfect competition and intra-industry trade as alternatives to traditional theories and views. *Prereq: ECON 043, 044 and 110.*

**ECON 160. Economics of Labor Markets**  
3 sem. hrs.

Supply and demand conditions unique to markets for services of human beings. The economics of investment and disinvestment of human capital. Topics include: determination of labor force size, geographic distribution and qualitative aspects; economic effects of institutional arrangements and labor laws; current issues. *Prereq: ECON 043 and 044.*

**ECON 163. Environmental and Natural Resource Economics** 3 sem. hrs.

Economic analysis of environmental and natural resources including land, air, and water. Special emphasis on the role of human values and economic institutions in resource exploitation. Topics covered include air and water

pollution, energy, ocean resources, forestry practices, mineral resources, the population problem, and agriculture. *Prereq: ECON 043 and 044.*

**ECON 174. Introduction to Mathematical Economics** 3 sem. hrs.

Designed to give students the quantitative background required to appreciate the use of mathematics in economic analysis. Emphasis is on developing important techniques. However, many economic applications are incorporated in order to demonstrate how standard economic models can be developed in mathematical terms. Topics include matrix algebra, differential calculus, both constrained and unconstrained optimization and comparative statistics. *Prereq: ECON 043 and 044; MATH 070 and 071 or their equivalents.*

**ECON 175. Introduction to Econometrics** 3 sem. hrs.

Designed to teach how to build an econometric model and to make forecasts using it. Models are constructed to explain phenomena that are observed frequently in business, economics and the social sciences. Linear regression analysis is employed and both single-equation and multi-equation models are investigated. Of practical value to economists, businessmen, engineers, statisticians, and other professionals for whom applied quantitative techniques are important. *Prereq: ECON 043 and 044; MATH060 or MANA026 or their equivalents.*

**ECON 181. Economics and Ethics**

3 sem. hrs.  
Interaction of economic principles and understanding with ethical principles and understanding in contemporary society. Analysis of affluence's impacts on character development, the practice of moderation and justice, and the meaning of spiritual poverty. Applications of this ethic to critical features of modern industrial society. *Prereq: ECON 043 and ECON 044 and PHIL 104.*

**ECON 182. Economics and Law** 3 sem. hrs.  
Relationship between the rights and obligations which the legal system confers on individuals and the allocation of resources which results from alternative assignments of legal rights. Uses and limitations of economic analysis in explaining the process by which legal rights are conferred. *Prereq: ECON 043 and 044.*

**ECON 195. Independent Study** 1-4 sem. hrs.  
*Prereq: Cons. of dept. ch.*

**ECON 196. Undergraduate Seminar**

3 sem. hrs.  
Specific titles to be announced in the *Timetable of Classes*. Offered occasionally. *Prereq: consent of department ch. and Jr. stndg.*

**ECON 199. Senior Thesis** 2 sem. hrs.  
With department approval. Seniors may write a thesis under direction of an adviser. *Prereq: Cons. of dept. ch.*

## FINANCE (FINA)

*Chairperson and Associate Professor:* Seifert  
*Associate Professor:* Kutner  
*Assistant Professors:* Nofsinger, Peck, Prucyk  
*Lecturer:* Broome

**FINA081. Personal and Professional Finance** 3 sem. hrs.

Course considers the financial planning and management needs men and women regularly have in the conduct of their personal and professional lives. Topics covered relate to management of personal and household finances, such as budgeting, credit buying, banking and borrowing, taxation, home ownership. Also focuses on financial issues relating individuals to an employer, a personal business, or a professional practice: selection and evaluation of fringe benefits, accounting and taxation of professional income. Personal and professional insurance decisions. Savings, investment and tax planning for estate accumulation and retirement. Support capabilities in microcomputer technology are illustrated and discussed. Available for elective credit to non-business majors in the health sciences, arts and sciences or other areas. *Note: Available only to students not enrolled in Business Administration.*

**FINA105. Co-op/Intern Grading Period in Finance** 1-3 sem. hrs.

Co-op or intern experience in finance features educational activity and productive work related directly to the finance curriculum. *Prereq: BUEX 110 and consent of BUEX director. S/Ugrade assessment.*

**FINA 110. Real Estate Fundamentals** 3 sem. hrs.

Fundamentals and significance of real property, particularly the growth of communities. Analysis of principal legal concepts pertaining to location, financing, and environmental factors. Causes of growth factors. *Prereq: Jr. stndg.*

**FINA 112. Real Estate Valuation and Financing** 3 sem. hrs.

Basic techniques of evaluation and appraisal of residential, commercial, and industrial real estate. Urban renewal, exercise of eminent domain, appraisal for taxation, and the basic principles for successful investment in real estate. *Prereq: FINA 110 and Jr. stndg.*

**FINA180. Introduction to Financial Management** 3 sem. hrs.

Principles and methods of corporate finance, valuation, analysis and management. Planning and controlling funds for liquidity and profitability. Introduction to the financial markets and instruments available to corporations and individuals. Emphasis placed on the framework and methodology involved in financial decision making. *Prereq: MANA026 and ACCO 031 and Jr. stndg.*

**FINA181. Investment Analysis** 3 sem. hrs.  
Study of financial instruments such as stocks, bonds, convertibles, and options, and the markets in which they are traded. The primary concern of the course is with the decision process that evaluates the various investment opportunities. *Prereq: FINA180.*

**FINA182. Investment Management** 3 sem. hrs.

Extends the concepts introduced in FINA181. Topical coverage includes modern portfolio theory, options, futures and hedging techniques. Emphasis of course is on application of the concepts to investment strategies. *Prereq: FINA181 and FINA183.*

**FINA183. Advanced Financial Management** 3 sem. hrs.

Extension of the development of the theory of financial management, including an examination of the relevant literature. Concentration will be on applications of financial management theory. Topics include working capital, capital budgeting, dividend policy issues, cost of capital, and principles of valuation. Required for finance specialization. *Prereq: FINA180.*

**FINA185. International Finance** 3 sem. hrs.

This course looks at financial decision making in an international context. Global financial markets and foreign currency issues will be studied along with the international financing and capital investments. *Prereq: FINA180.*

**FINA186. Bank Management** 3 sem. hrs.

Study of banking on both an institutional and operating unit level. History, regulation and competitive environment of banking covered at institutional level. Development and application of specific tools and techniques dealing with the management of banks' deposit base and loan and securities portfolios, international banking and trust operations. *Prereq: FINA 180.*

**FINA187. Cases in Financial Management** 3 sem. hrs.

The application of the principles and models of financial management through case analysis and discussion; forecasting of financing needs for future operations and growth; financial policy and fund sources. Support of financial decision making through computerized planning and modeling. *Prereq: FINA183 and Sr. stndg.*

**FINA188. Introduction to Financial Derivatives** 3 sem. hrs.

This course will focus on the mechanics, pricing and use of financial derivatives, including futures contracts, options, swaps, collateralized securities, Treasury Bond, Eurodollar, and S&P 500 Index futures contracts will be discussed in detail. Stock options and index options also will be discussed. Important pricing models including Black-Scholes and the Binomial Option Pricing Model also will be discussed. Risk management using these instruments will be emphasized. *Prereq: FINA180.*

**FINA189. Issues in Finance** 2-3 sem. hrs.  
Specific titles announced in the *Timetable of Classes*. *Prereq: FINA180.*

**FINA190. Principles of Risk and Insurance** 3 sem. hrs.

Insurance and the method of handling risk, including risk retention, prevention, transfer, and the economic significance in regulation of property, liability, marine, life, health, and social insurance. *Prereq: FINA180.*

**FINA195. Independent Study** 1-4 sem. hrs.  
*Prereq: Cons. of dept. ch.*

**FINA197. Colloquium in Finance** 1-3 sem. hrs.

Readings and research in restricted fields to learn and to apply techniques and disciplines of research in the finance area. *Prereq: Cons. of finance faculty.*

# MANAGEMENT (MANA)

*Chairperson and Associate Professor:* Hosseini  
*Professors:* Bausch, Cotton, Keaveny, Reynolds

*Professors Emeriti:* Kaye, Martin, Miller  
*Associate Professors:* Inderrieden, Kaiser, Maranto, McFarlin, Ragins, Rehbein, Rotondi, Sweeney

*Associate Professor Emeritus:* McElroy  
*Assistant Professors:* Cule, Hasbrouck, Kim, Srivastava, Sutcliffe, Syam

*Instructor:* Shirk  
*Visiting Instructor:* Mansur

*Adjunct Assistant Professor:* Collins  
*Lecturers:* Haefner, Hayes, Kelly, Malaty, Ottman, Pearson, Rollins, Shirk

## **MANA025. Introductory Business Statistics** 3 sem. hrs.

Introduction to statistical methods used in the analysis of business decisions. Covers descriptive statistics, including index numbers, and use of probability and probability distributions in business decisions. Introduction to sampling and sampling distributions, development of statistical estimation and statistical inference, including hypothesis testing of means and variances. Use of chi-square distribution in testing goodness-of-fit and contingency tables. *Prereq:* MATH 070 and 071 or their equiv. and computer literacy.

## **MANA026. Intermediate Business Statistics** 3 sem. hrs.

Continued development of statistical methods used in the analysis of business decisions. Covers analysis of variance, including factorial experiments. Develops bivariate linear regression and correlation, with tests of significance. Covers multiple regression, including an introduction to qualitative variables. Includes time series analysis and general forecasting approaches. May include introductory treatment of nonparametric statistics, decision theory, or Bayesian statistics. *Prereq:* MANA025 or equiv.

## **MANA105. Co-op/Intern Grading Period in Human Resources** 1-3 sem. hrs.

Co-op or intern experience in human resources features educational activity and productive work related directly to the human resource curriculum. *Prereq:* BUEX 110 and consent of BUEX director. S/U grade assessment.

## **MANA106. Co-op/Intern Grading Period in Information Technology** 1-3 sem. hrs.

Co-op or intern experience in operations management features educational activity and productive work related directly to the information systems curriculum. *Prereq:* BUEX 110 and consent of BUEX director. S/U grade assessment.

## **MANA107. Co-op/Intern Grading Period in Entrepreneurship** 1-3 sem. hrs.

Co-op or intern experience in management features educational activity and productive work related directly to the management curriculum. *Prereq:* Jr. stndg. and consent of BUEX director. S/U grade assessment.

## **MANA108. Co-op/Intern Grading Period in Quality and Performance Management** 1-3 sem. hrs.

Co-op or intern experience in organizational management features educational activity and productive work related directly to the management curriculum. *Prereq:* Jr. stndg. and consent of BUEX director. S/U grade assessment.

## **MANA120. Introduction to Information Technology** 3 sem. hrs.

This course provides future information systems users a broad overview of information systems theory, research and applications used in organizations. Topics include the impact of technology on business, groupware, systems development life cycle, database, hardware, software, telecommunications and applications in function areas. MAY NOTBE TAKEN FOR CREDITBYSTUDENTS WHO HAVE RECEIVED CREDITFOR MANA130. *Prereq:* Enrollment in the College of Bus. Admin. only; Jr. stndg. and either BUEX 001 or 002.

## **MANA121. Business Applications Program Development** 3 sem. hrs.

Fundamentals of software program design and techniques for object, file and data manipulation. Topics include file processing concepts, structured programming, data structures, interface design, exposure to object-oriented tools and operation system design differences and efficient resources allocation. Choice of tools may include Visual BASIC and Delphi. *Prereq:* Enrollment in the College of Bus. Admin. only and Jr. stndg.

## **MANA122. Database Management Systems** 3 sem. hrs.

Applications of database management software to the design and implementation of business databases. File storage devices, data structures, logical data models, physical data storage schemes, and normalized design of databases. Management and administration of databases including procedures for data security, backup and recovery. Architecture of distributed data systems. Students from database design teams may serve as a business client. Use of tools such as SQL, Access, Oracle, Delphi, etc. MAY NOT BE TAKEN FOR CREDIT BYSTUDENTS WHO HAVE RECEIVED CREDITFOR MANA134. *Prereq:* Enrollment in the College of Bus. Admin. only and Jr. stndg.

## **MANA124. Telecommunications** 3 sem. hrs.

An overview of the essential elements of connectivity and client/server designs. Topics include: media, network configuration, efficient resource allocation, communication carrier industry, video conferencing and applications in groupware, electronic data interchange (EDI), Internet applications, electronic commerce opportunities and limitations, preliminary CNE qualifications, and World Wide Web page development. Methodology may consist of case analyses, expert speakers, field trips and projects. MAY NOTBE TAKEN FOR CREDIT BY STUDENTS WHO HAVE RECEIVED CREDIT FOR MANA139. *Prereq:* Enrollment in the College of Bus. Admin. only and Jr. stndg.

## **MANA126. Information Systems Analysis** 3 sem. hrs.

Covers the early stages of the systems development life cycle. Focus is on derivation of logi-

cal system specifications from information needs. Topics include: problem formulation, requirements definition, JADS, RADS, data flow diagrams, the role of the systems analyst, data and process modeling, techniques for investigation, logical system design, tools for system representation, business process reengineering (BPR), and cost/benefit analysis. Students will begin on a project that will continue in Information Systems Design and Implementation. MAY NOT BE TAKEN FOR CREDITBYSTUDENTS WHO HAVE RECEIVED CREDITFOR MANA131. *Prereq:* MANA120.

## **MANA127. Information Systems Design and Implementation** 3 sem. hrs.

Covers the principles, techniques and problems involved in the design of information technology. Focus is on the transformation of logical systems specifications to a working prototype. Detailed study of information systems outputs, files, inputs, controls, terminal dialogues, procedures, documentation, program specifications, hardware and software selection, testing, system implementation and system maintenance. Students will continue the project begun in Information Systems Analysis: systems development tools will be used. MAY NOT BE TAKEN FOR CREDITBYSTUDENTS WHO RECEIVED CREDITFOR MANA135. *Prereq:* MANA126.

## **MANA128. Advanced Business Application Program Development** 3 sem. hrs.

Programming minicomputer and PC environment; traditional file processing and object-oriented techniques; emphasis on techniques of resource allocation; appropriate methodologies for systems design. Course will be taught using different development environments from COBOL, Visual BASIC, Java, C++, Delphi, etc. MAY NOTBE TAKEN FOR CREDIT BYSTUDENTS WHO HAVE RECEIVED CREDIT FOR MANA133 or MANA139. *Prereq:* MANA121.

## **MANA129. Issues in Information Technology** 1-4 sem. hrs.

Varied subject matter each time offered. In-depth exposure to relevant selected topics. *Prereq:* Jr. stndg.

## **MANA150. Understanding Entrepreneurship** 3 sem. hrs.

An overview of current theory and research on entrepreneurial phenomena. Material from economics, organizational science, psychology, political science, sociology, and public policy will be used to explore conceptions of entrepreneurship, entrepreneurial career choices, new firm foundations, new firm survival and success, effects of social context on entrepreneurship, and the impact of public policy. *Prereq:* Jr. stndg.

## **MANA151. New Venture Creation** 3 sem. hrs.

This course focuses on starting and developing a new business. Topics include evaluating opportunities and testing the feasibility of creative ideas, selecting and dealing with partners; alternative methods of financing, developing the initial competitive strategy, structuring and managing the business through the early survival months, and sources of outside help. Students will prepare a business plan that can be used to launch a new initiative. *Prereq:* Jr. stndg.

**MANA155. An Introduction to Diversity in Organizations** 3 sem. hrs.

Addresses the personal and managerial implications of diversity in organizations. The course will incorporate both a cognitive and experiential understanding of diversity and group differences. We examine demographic trends in the workforce, differentiate cultural practices and values among diverse groups, explore the concepts of social identity and privilege, and discuss strategies for dealing with discrimination and stereotyping. *Prereq: Jr. stndg.*

**MANA156. Behavior and Organization** 3 sem. hrs.

Behavior of people individually and in groups. Emphasizes organization environment, communication, motivation, supervision and productivity. Develops fundamentals of organization theory, structure and administration. *Prereq: Jr. stndg.*

**MANA157. Organizational and Management Processes** 3 sem. hrs.

Analysis of major organizational processes and the role managers play in changing those processes to increase organization effectiveness. Course material assesses the impact of the environment, goals, strategies, life cycles, technologies, structures, and control systems on organization performance. In addition, implications of organization politics, culture, and decision making are examined. *Prereq: MANA156.*

**MANA158. Motivation and Leadership** 3 sem. hrs.

Central issues in motivation and leadership at work, and applying theories and concepts of organizational behavior will be addressed. Specific issues may include theories of motivation, the impact of various reward structures, employee participation programs, the management of poor performers, and approaches to leadership. These topics are addressed from both theoretical and applied perspectives. *Prereq: MANA156.*

**MANA159. Issues in Organizational Management** 1-4 sem. hrs.

Varied subject matter each time offered. In-depth exposure to relevant selected topics. Offered occasionally. *Prereq: Jr. stndg.*

**MANA160. Management of Human Resources** 3 sem. hrs.

Issues concerning the effective use and equitable treatment of employees. How human resource management activities are influenced by the economy, laws, unions, organizational strategies, and human behavior. The analysis of management activities such as recruitment and selection, training and development, pay and benefits, labor relations, performance assessment, discipline and due process. How these activities affect the attraction, retention, performance, and satisfaction of employees. *Prereq: Jr. stndg.*

**MANA161. Human Resource Information Systems** 3 sem. hrs.

The course addresses the use of human resource information systems (HRIS), to improve decisions pertaining to human resource issues. Topics include identification of HRIS to such areas of HR as: equal opportunity, affirmative action, staffing, training and

development, compensation, and benefits administration. *Prereq: MANA160.*

**MANA162. Employee Benefit Systems** 3 sem. hrs.

The course addresses the design and administration of employee benefit systems. Among the programs studied are: health and wellness programs, pension and retirement programs, and cafeteria plans. Legally mandated benefit systems are also studied. *Prereq: MANA160.*

**MANA163. Compensation of Human Resources** 3 sem. hrs.

The development of pay programs that are internally consistent, externally competitive, and individually rewarding. The application of these concepts via job descriptions and job evaluation, market surveys and pay structures, and performance or seniority based pay. Administering employee benefits such as insurance and pensions. The government's impact on pay and benefits. *Prereq: MANA025, MANA160.*

**MANA164. Negotiations and Collective Bargaining** 3 sem. hrs.

Examines the development, structure and process of collective bargaining, as well as negotiation processes and strategies in a variety of settings. Central topics include labor law, union organization, general principles of negotiation, and labor contract negotiation in particular. The course is taught from a neutral perspective, emphasizing the rights and responsibilities of labor, management and government. Makes extensive use of bargaining exercises.

**MANA166. Employment of Human Resources** 3 sem. hrs.

Issues relevant to staffing work organizations are addressed. Topics include: validation of selection procedures; criterion development; forecasting employee requirements and supply; alternative selection procedures; and equal employment opportunity regulations. *Prereq: MANA160 and MANA026.*

**MANA167. Training and Development** 3 sem. hrs.

Principles and factors that contribute to the personal growth and development of employees and the welfare of the company. Focus on training and employee development within organizations. Topics include training development and evaluation, employee development, career management, and career pathing within organizations. *Prereq: MANA160.*

**MANA 168. Issues in Human Resources** 1-4 sem. hrs.

Varied subject matter each time offered. In depth exposure to relevant selected topics. Offered occasionally. *Prereq: Jr. stndg.*

**MANA170. Operations Management** 3 sem. hrs.

Production/operations management involves solving the problems encountered in designing, operating, and controlling the conversion of inputs into the desired outputs typically found in manufacturing and service organizations. *Prereq: MANA025 or equivalent and Jr. stndg.*

**MANA171. Operations Planning and Control** 3 sem. hrs.

A focus on operations planning and control decisions in both manufacturing and service firms. Addresses advance topics such as JIT management, adaption of global technologies to domestic organizations, dynamic decision rules, and applications of manufacturing productivity techniques in the service sector. Uses case analysis and, when appropriate, operations simulation game. Offered fall semester. *Prereq: MANA170.*

**MANA172. Service Operations Management** 3 sem. hrs.

This course is devoted to the particular problems and issues of designing, managing and delivering services, as opposed to manufactured goods. The main issues include service challenge and breakthrough design, productivity, quality, innovation and flexibility, demand and capacity management, manpower planning and scheduling, queue management, strategy and integration. Various cases from different service environments are used to illustrate subject matters and enhance learning concepts. *Prereq: MANA170.*

**MANA173. Total Quality Management** 3 sem. hrs.

This course will provide an in-depth knowledge of the use of total quality management (TQM) techniques in services and manufacturing. The main issues addressed include operations strategy, philosophies of contemporary quality thinkers such as Deming, Juran and Crosby, problem solving with Ishikawa techniques, improving quality of design, improving quality of process, implementation of total quality management, relationship of quality to Japanese just-in-time systems and quality planning techniques. Cases and films will be used to illustrate the subject matter. *Prereq: MANA170.*

**MANA176. Management Science** 3 sem. hrs.

Introduction to the methods of management science and operations research with applications to problems in business decision-making. Topics include linear programming, transportation and assignment models, integer programming, queuing models, simulation decision theory, and CPM/PERT. Emphasis is on computer applications of the methodologies using both microcomputers and mainframe computers. Offered occasionally. *Prereq: MANA025.*

**MANA179. Issues in Operations Management** 1-4 sem. hrs.

Varied subject matter each time offered. In depth exposure to relevant selected topics. Offered occasionally. *Prereq: Jr. stndg.*

**MANA181. Business and Its Environment** 3 sem. hrs.

Overview of social, political and legal opportunities and constraints influencing business decision-making; social trends and underlying causes, including changes in population and income distribution and their business significance; patterns of change in political strength of identifiable groups on social, geographic and economic interest bases; antitrust, trade regulation and the legal system. *Prereq: Sr. stndg.*

**MANA182. Business Policies** 3 sem. hrs.  
Requires a knowledge of all functional areas. Broad involvement in management decision-

making process. Integrates functional areas through analysis of actual business case histories and related readings. Class discussion and written reports. Management game used when appropriate. *Prereq: FINA180, ECON 110, MANA156, MANA170, MARK 140, Sr. stndg.*

**MANA183. International Management**  
3 sem. hrs.

Present and future trends in the international commercial arena. The course examines international trading trends for major sectors of the U.S. economy. This course differentiates international from domestic management. *Prereq: Sr. stndg.*

**MANA195. Independent Study** 1-4 sem. hrs.  
*Prereq: Cons. of dept. ch.*

## MARKETING (MARK)

*Chairperson and Associate Professor:* Akhter  
*Professors:* Andrews, Lacznia  
*Professor Emeritus:* Brownlee  
*Associate Professors:* Bauer, Durvasula, Garrett, Lysonski, Robinson  
*Assistant Professor:* Simmons  
*Instructor:* Terrian  
*Visiting Instructor:* Crockett  
*Lecturer:* McDonald

**MARK 105. Co-op/Intern Grading Period in Marketing** 1-3 sem. hrs.

Co-op or intern experience in marketing features educational activity and productive work related directly to the marketing curriculum. *Prereq: BUEX 110 and consent of BUEX director. S/U grade assessment.*

**MARK 140. Introduction to Marketing**  
3 sem. hrs.

The marketing process as it relates to management of marketing in the profitable operation of the firm. Environmental constraints, including consumers' needs, governmental regulation, and the social environment. Price determination, promotional strategy, channels of distribution, and product development. *Prereq: Jr. stndg., ECON 043 and 044.*

**MARK 142. Marketing Research** 3 sem. hrs.  
Methods and techniques of securing, analyzing, and interpreting data essential to the scientific solutions of marketing problems. Research planning, research design, data collection methods, sampling analysis, report writing and the integration of research and marketing management. *Prereq: MANA025 and MANA 026, MARK 140.*

**MARK 143. Promotional Strategy** 3 sem. hrs.  
Marketing aspects of communication between the firm and its customers. Brief introduction to behavioral sciences as they apply to promotion. Advertising, personal selling, publicity, and sales promotion as components of the promotional mix. Treatment of the social and legal constraints of promotion. *Prereq: MARK 140.*

**MARK 144. Marketing Logistics and Distribution Strategy** 3 sem. hrs.

Use of time and place utilities as variables in marketing strategy. Principles for the efficient design of wholesale and retail distribution systems. Logistics base, problems of distribution channel design and strategy considered in terms of their effectiveness in satisfying the demand of consumers. Offered occasionally. *Prereq: MARK 140.*

**MARK 145. Product and Pricing Strategy**  
3 sem. hrs.

New Product development, competitive strategies and product life cycles as components of effective product management. The environment of pricing strategy and recent developments in pricing decision making as well as the psychological aspects of pricing. *Prereq: MARK 140.*

**MARK 146. Consumer Behavior** 3 sem. hrs.  
Behavioral science concepts, including motivation, perception, learning, personality, attitudes, culture, social class, reference groups, and the family unit. Application of behavioral concepts to marketing management and research problems, including diffusion of innovation, cognitive dissonance, brand loyalty, attitude change, and comprehensive consumer decision models. *Prereq: MARK 140.*

**MARK 148. Sales Management** 3 sem. hrs.  
Sales management is a complex and specialized business and organizational function including the oversight of the direct and personal marketing of consumer and industrial goods and services. The unique nature of sales management requires a separate examination of recruiting, selection, training, compensation, retention, and motivation of management tasks. *Prereq: MARK 140.*

**MARK 150. Marketing Management**  
3 sem. hrs.

Planning, implementation and control of the marketing activity of firm or division. Formulation of marketing objectives, policies, programs, and strategy. Managerial aspects of product, price, promotion, and distribution decisions. *Prereq: MARK 140, 142 and one other MARK course; Sr. stndg.*

**MARK 152. Retailing Management**  
3 sem. hrs.

Readings and cases in retail management. Types of retail organizations. Problems of location, buying, merchandise control, and retail promotion. The present state of retailing and a look into the future. Offered occasionally. *Prereq: MARK 140.*

**MARK 153. International Marketing**  
3 sem. hrs.

Adapting business efforts to differing economic, social, and cultural milieus and the development and application of marketing strategies and mixes in foreign markets. Differing methods of international trade, marketing, and business organization are covered. *Prereq: MARK 140.*

**MARK 155. Industrial Marketing** 3 sem. hrs.  
Focus on applying marketing in the industrial product and services environment. Emphasis is placed on application of strategic planning models to industrial markets and development of marketing mixes especially oriented to industrial products/services. *Prereq: MARK 140.*

**MARK 156. Direct Marketing** 3 sem. hrs.  
Focuses on the direct marketing process of prospecting, conversion, and customer maintenance; and the four Ms of direct marketing (merchandising, media, message, and measurement). Emphasis is placed on database management, customer segmentation, customer profitability analysis, forecasting, market testing and analysis, and direct response advertising via direct mail. *Prereq: MARK 142 and one of the following: MANA026, PSYC 060, MATH 060.*

**MARK 157. Marketing and Society**  
3 sem. hrs.

Focuses on environments external to the firm which have significant consequences on marketing and demonstrates how the marketing system contributes to or impedes the objectives of society. Topics discussed: Consumerism, Law, Marketing Ethics, Ecology, Marketing in Non-Profit Organizations. Offered occasionally. *Prereq: MARK 140.*

**MARK 159. Issues in Marketing** 1-4 sem. hrs.  
Enrollment limited to superior students. Offered occasionally with various topics. *Prereq: MARK 140.*

**MARK 195. Independent Study** 1-4 sem. hrs.  
*Prereq: Cons. of dept. ch.*

# College of Communication

Students in the College of Communication pursue academic programs centered on a liberal arts core with majors leading to careers in the many areas of communication and the performing arts. Arts and sciences courses comprise more than half of the curriculum, providing students with an appreciation of the interrelation of human knowledge. As a foundation for the professions and for continued life-long growth and learning, this broad-based curriculum leads students to develop intellectually as mature, educated and responsible citizens of the world.

The college places great value on the integration of theory and practice and on developing the habits of ethical and responsible performance. Opportunities exist throughout the four years of undergraduate study for such integration and development, in the classroom and beyond the campus.

---

## DEGREES OFFERED

Marquette University confers the degree of bachelor of arts on those students who have satisfactorily completed the following majors: advertising, broadcast and electronic communication, communication studies, journalism, public relations, theatre arts, and the teaching majors in communication studies, journalism and theatre arts. Students enrolled in the Honors Program who successfully complete that program may receive an honors bachelor of arts.

The College of Communication offers programs leading to the master of arts degree. Students may choose to focus their program in advertising, broadcast and electronic communication, communication education (journalism or speech), communication studies, journalism, mass communication, public relations or religious communication.

For information regarding the master's degrees, please see the *Graduate School Bulletin*.

---

## MAJORS/MINORS OFFERED

These majors are offered by the College of Communication: advertising, broadcast and electronic communication, communication studies, journalism, public relations, theatre arts, plus majors leading to secondary teaching certification in communication studies, journalism, and theatre arts. The available minors are: advertising, broadcast and electronic communication, communication studies, film, public relations, theatre arts, and teaching minors in communication studies, journalism and theatre arts.

---

## ACCREDITATION

The college's Departments of Advertising and Public Relations, Broadcast and Electronic Communication and Journalism have been accredited by the Accrediting Council on Education in Journalism and Mass Communication.

---

## ADMISSION REQUIREMENTS

*Freshman Admission:* Freshmen applicants to the College of Communication are expected to fulfill the admission requirements listed in the University section of this bulletin.

*Admission with Advanced Standing:* Applicants who have been enrolled or registered in an institution of higher learning since high school graduation, need a minimum average of a 2.000 (based on a four-point system) in previous college work for consideration. An applicant's entire academic performance will be evaluated in making an admission decision.

Students planning to major in an education sequence must contact the School of Education for separate admission requirements.

---

## GRADUATION REQUIREMENTS

### AMOUNT AND QUALITY OF WORK

Candidates for a degree must earn a minimum of 128 credit hours and a minimum number of quality points equal to twice the number of credit hours attempted at Marquette (2.000 grade point average). Students may present credits but not quality points from another institution. All students must earn at least a C average in their Marquette work. Normally 48 hours of credit in upper-division courses must be presented by candidates for a degree. Credit is not normally allowed for more than 40 credit hours in any one major. Students majoring in advertising, broadcast and electronic communication, journalism and public relations may not exceed 38 credits in any combination of those courses excluding certain exempt courses. A student taking more than 38 credits in these areas will have to add a similar number of credits beyond the 128 needed to graduate.

### GENERAL DEGREE REQUIREMENTS

Candidates for the baccalaureate degree must complete a minimum of 128 credit hours including the following requirements:

Area	Credit Hours
Major . . . . .	32-38
Communication . . . . .	3
English Composition . . . . .	6
Literature . . . . .	6
Fine Arts . . . . .	2-3
Foreign Language . . . . .	0-8
History/Social Sciences . . . . .	12
Science/Mathematics . . . . .	6-8
Philosophy . . . . .	12
Theology . . . . .	9
Minor . . . . .	18-33

### COMMUNICATION REQUIREMENT

All students must complete CMST 010, Introduction to Communication, for a total of three credit hours.

### ENGLISH COMPOSITION REQUIREMENT

All students must complete ENGL 001 and 002 for a total of six credit hours in English Composition. Non-native speakers of English should consult the director of the English as a Second Language Program concerning concurrent registration in ESLP 010 and the section of the ENGL 001 designated for non-native speakers.

### LITERATURE REQUIREMENT

All students must complete six hours in either English literature or foreign language literature (original or translation).

**FINE ARTS REQUIREMENT**

All students must complete a fine arts (dance, film, music, theatre, etc.) course for a total of two or three credit hours. Four terms of non-credit music courses (MUSI 010, 015, 016, 020, 030 and/or 031) will satisfy the fine arts requirement. EDUC 100 will satisfy requirement for elementary education majors.

**FOREIGN LANGUAGE REQUIREMENT**

All students must demonstrate one-year college competency in a foreign language. This may be accomplished by placement or course work.

Students who have never studied a foreign language or who wish to pursue a new language must take levels 001 and 002 to complete this requirement. Students who wish to continue studying the same language begun in high school *must* fill out and return the Foreign Language Placement Questionnaire. On the basis of the achieved score, students will be placed in the appropriate language course. Students who are placed in 003 or higher are exempt from the foreign language requirement. For further details, see the University section on “Placement Credit in Foreign Languages.”

**HISTORY/SOCIAL SCIENCE REQUIREMENT**

All students are required to complete History 001 and 002 plus six additional hours in social science offered through the Departments of Social and Cultural Sciences, History, Political Science, or Economics, for a total of 12 hours. ARSC 140, Perspectives on Women in Society, may also be taken to partially fulfill the social science requirement. Some majors require additional or specific course work from this area. Please refer to the individual major listing for details. Elementary education students must complete POSC 020 and HIST 006. Secondary education students must complete POSC 020 and EDUC 078.

**MATHEMATICS OR SCIENCE REQUIREMENT**

All students must complete two courses in the same area of psychology, science or mathematics for a total of six or eight credit hours. Some majors require additional or specific course work from this area. Please refer to the individual major listing for details. Elementary education students must complete MATH 030, MATH 031 and MATH 032; ARSC 010 and ARSC 011. Secondary education students must take two courses in MATH and either ARSC 010 and 011 or BIOL 002 and PHYS 009.

**PHILOSOPHY REQUIREMENT**

Twelve hours in philosophy must be completed, including Philosophy 001, 050, and 104, plus a three-hour elective.

Philosophical Foundations of Education, EDUC 158, may be taken for philosophy credit by students completing an education sequence.

**THEOLOGY REQUIREMENT**

All students must complete nine hours of theology. Of the nine credit hours required, three must be in Theology 001, three in a second-level course (THEO 100–119) and three in a third level course (THEO 120–199), in that sequence.

**CORE CURRICULUM REQUIREMENTS FOR EDUCATION MAJORS**

Besides completing at least one academic major, students intending to complete a teacher-preparation program, elementary or secondary, though the School of Education must also meet the core requirements of the College of Communication, adjusted to meet graduation and licensure requirements. These core curriculum requirements are very specific and require that students seeking to complete the program in four years plan their course work very carefully under the supervision of an academic adviser in the School of Education. Students who intend to complete a teacher-preparation program through the Marquette School of Education should contact the Office of Teacher Education as early as possible, and should carefully study the School of Education section of this bulletin.

Students interested in *elementary education* are required to complete a *regular academic major* — either communication studies or theatre arts. Students interested in *secondary education* must complete at least one *teaching major* (communication studies, theatre arts or journalism) to be eligible for Wisconsin licensure. A teaching minor alone is not sufficient for license eligibility, but as a supplement to a teaching major could lead to licensure in additional areas. Students at either the elementary or secondary level must also complete the appropriate professional education sequence to be eligible for a Wisconsin teacher's license. Further information can be found under Curricula Information in the School of Education section of this bulletin.

---

## ACADEMIC REGULATIONS

Students in the College of Communication are expected to comply with the academic requirements and regulations listed in the University section of this bulletin.

### ACADEMIC DISHONESTY

The college adheres to university policy on academic dishonesty found in the University section of this bulletin. Ethical behavior is essential to any communication professional and it is expected of students in the College of Communication. Cheating, plagiarism, unapproved collaboration, or falsifying work in whole or in part are infractions that can result in failure in the assignment or course or even dismissal from the college.

### ADVISERS

Each student in the college is assigned a faculty adviser with whom the student should confer at least twice each term. Among other duties, the faculty advisers assist students in planning and accomplishing their programs of studies. However, it is wholly each student's responsibility to know and fulfill the requirements for graduation specified for his or her selected program.

### ATTENDANCE

Courses in this college often include performance under the guidelines and supervision of faculty and staff in classroom, theatre, studio, laboratory as well as on- and off-campus professional situations. Students are expected to attend all meetings of the courses in which they are registered. Any absence, regardless of the reason, will prevent the student from getting the full benefit of the course and can result in university censure. When a student is reported to have been excessively absent from class, the penalty of being withdrawn from the class with a grade of WA—withdrawal due to excessive absences—may be imposed. Majors in this college are bound by these expectations in each course they take, in each college in which they take courses.

Attendance policies will be announced by individual teachers in their syllabi and in their first class meetings. Each student is responsible for understanding the absence regulations in effect in each course and is bound by the regulations and policies for that course and/or college. As a general norm, a student may, for serious reasons, be excused from four 75-minute periods or from six 50-minute periods in a three-credit course or from four 50-minute periods in a two-credit course or from eight 50-minute periods in a four-credit course.

### APPROVAL FOR SUMMER SESSION STUDY AT OTHER INSTITUTIONS

Students who plan to take course work during the summer at other institutions are strongly urged to obtain the college's approval of such courses before enrolling. Approval will be based on course descriptions in the current bulletin of the college or university at which the courses will be attempted. The student is expected to present a bulletin with such information at the time approval is sought. If prior approval is not obtained, there is no guarantee that credits earned will be accepted by Marquette University. Approval forms may be obtained at the college records office.

### CD AND D GRADES

Courses passed at CD or D grade are not normally counted toward fulfillment of the credit hour requirements for a major or minor field of specialization. Students who receive grades of CD or D in their major or minor should contact the department in which the grade was received. The departmental chair will make a recommendation whether the course can be accepted in the major/minor, if the course should be repeated or if a substitute course should be taken. Credit will be given only once for courses that are repeated. See the University section of this bulletin for additional information regarding repeated courses.

### PROFESSIONALS STANDARDS

All papers produced by students in all classes under the jurisdiction of the College of Communication are expected to conform to professional standards of lucidity, coherence, gram-

mar, spelling, and punctuation. All oral presentations produced by students in all classes under the jurisdiction of the college are expected to conform to professional standards of lucidity, coherence, and grammar. All instructors in all classes under the jurisdiction of the college will consider the factors listed above, as well as substance, in grading written and oral presentations.

---

## SPECIAL ACADEMIC PROGRAM

### EDUCATION PROGRAM

Marquette University offers majors in elementary and secondary education. Students pursuing elementary education can pursue a second major in communication studies or theatre arts. Communication students pursuing a secondary education major must complete a teaching major in journalism or communication studies or theatre arts. **Separate and special application to the School of Education is required to pursue an education major.** The state of Wisconsin mandates a 2.500 grade point average for admission into the School of Education. A 2.750 grade point average in areas of licensure and in the professional education sequence is required for licensure. See the School of Education section of this bulletin for details. See the School of Education adviser whose office is Schroeder Complex, 152, (414) 288-7177 as soon as possible.

---

## STUDENT MEDIA

### BROADCAST OPERATIONS

MUTV is a student-run, cable television station which serves the campus community. Some programs are also distributed to homes in the metropolitan Milwaukee area by the Higher Education Cable Consortium. The station is a co-curricular activity in the College of Communication. Student volunteers from all fields of study find experience in production, sales, promotion, management, news, sports, entertainment, and virtually every aspect of television. MUTV uses excellent facilities including two color studios and a computerized newsroom.

WMUR, Marquette's student radio station, is broadcast on Warner Cable and carrier current into residence halls, the Alumni Memorial Union and other campus buildings. WMUR is a co-curricular activity in the College of Communication but it is staffed and managed by students representing many academic fields.

Students who participate in WMUR gain experience in news production, announcing, public relations, advertising sales, management, record company relations and virtually every aspect of radio. The station broadcasts seven days a week during the academic year from its studios on the fourth floor of Johnston Hall. The studios include a main broadcast studio, a news/production studio, and a computerized newsroom.

### PRINT OPERATIONS

The three student publications are run by students with advice and assistance from the business manager and publication adviser. The publications provide opportunities for students to participate in the advertising, circulation, and production functions.

The *Marquette Tribune*, published Tuesdays and Thursdays, is the student newspaper of the university. Its purpose is to publish the news of the university, to aid in the formation of opinion and to afford the students an opportunity for extended practice in newspaper editorial responsibility.

The *Marquette Journal* aims to: (1) serve as a publication for the expression of the undergraduates intellectual concerns, both artistic and scientific; (2) foster effective expression and encourage initiative and responsibility among undergraduate students; and (3) afford students the opportunity for practice in magazine editing, writing, and production.

The *Hilltop* is the university on-line yearbook. The *Hilltop* staff produces a CD-ROM yearbook.

---

## FACILITIES/LABORATORIES

### COLLEGE READING ROOM

The College Reading Room is located in Johnston Hall, 122. Available for student and faculty use are selected magazines, books and reference materials serving specialized or scholarly needs in the study of communication and journalism.

### LABORATORIES

A variety of laboratories is available to students in the College of Communication. These facilities include:

#### ADVERTISING/MAGAZINE LABORATORY

Drawing tables, display bulletins, reference materials and storage cabinets are provided for course work in advertising and magazine classes.

#### BROADCAST LABORATORIES

In-studio work employs two fully-equipped color studios (one of which is broadcast quality), nine video editing suites, three audio studios, extensive computer graphics platforms (including facilities for animation), digital video effects, advanced interactive digital equipment, both audio and video field equipment, a radio station (WMUR) and a TV station (MUTV) on campus. Television mobile equipment is used to broadcast sporting events.

#### DESKTOP PUBLISHING LABORATORY

Apple MacIntosh workstations with negative and flatbed scanners, professional production software and laser printers are used by students taking desktop publishing, publications editing and design and related courses.

#### EDITING LABORATORIES

Separate laboratories are provided for print and broadcast news editing. The college subscribes to the AP wire service. The print editing lab and the student publication offices are equipped with on-line and Internet capabilities.

#### GRAPHICS LABORATORY

Desktop publishing and production equipment are located in this facility for the use of the various student publications.

#### PHOTOGRAPHIC LABORATORIES

Photographic equipment and laboratories including an electronic darkroom are provided for course work and for the various student publications.

#### REPORTING LABORATORIES

Reporting laboratories are equipped with personal computers and standard newsroom reference materials, and Internet capabilities.

#### THEATRE AND DANCE LABORATORIES

The Evan P. and Marion Helfaer Theatre provides an excellent theatre/teaching facility on campus. The structure includes a 226-seat theatre, with additional audience seating for the disabled; a proscenium stage; a scenery shop on stage level; multipurpose room for acting, directing and dance instruction; and production rooms: costume, light lab, make-up and dressing rooms.

### CENTERS FOR COMMUNICATION RESEARCH

Marquette University Centers for Communication Research is an umbrella organization that coordinates and fosters the growth of interdisciplinary communication research and research-related teaching and outreach activities among the associated faculty and centers throughout the university. The mission of CCR is:

- To enhance the development of collaborative and interdisciplinary communication research programs at Marquette University;

- To advance the development of theoretically based communication research and its integration with the important teaching and service activities of the university;

- To maintain an environment that encourages, respects and rewards faculty and student communication research efforts;

To enhance the potential to identify and develop present and future research opportunities that blend theoretical, social and professional applications;

To provide broad, centralized support for the centers and faculty associated with the CCR.

## INSTITUTE OF THE CATHOLIC MEDIA

The Institute of the Catholic Media, which was established in 1949, is housed in Johnston Hall and directed by a journalism faculty member. The purpose of the institute is to study the Catholic media at the national and international levels, and by publications, lectures, and conferences, to make its findings accessible to Catholic journalists, publishers, and others in religious communication.

## CENTER FOR MASS MEDIA RESEARCH

As part of the graduate program, the college operates the Center for Mass Media Research. Limited opportunities exist for juniors and seniors to participate in the work of the center as research clerks. Assistantships are reserved for students in the graduate programs.

## CENTER FOR URBAN AND MULTICULTURAL COMMUNICATION

The Center for Urban and Multicultural Communication brings together university specialists in journalism and other fields, as well as key members of urban communities to identify the communication problems in cities and propose solutions to those problems.

## NEWMEDIA CENTER

The Marquette NewMedia Center is a high-end production, research and training facility for adapting new multimedia information technologies for educational, social and business uses. The center is equipped with 16 Macintosh 8600 Power PCs and one 9600 Power PC.

---

# STUDENT ORGANIZATIONS

## ADVERTISING CLUB

The purpose of the Marquette University Advertising Club is to promote better understanding of the functions of advertising, sales promotion and marketing communication; to stimulate and encourage advertising professionalism among the Marquette community through advertising education; to promote career possibilities in advertising; to apply the skills, creativity and energy of advertising in helping to solve social problems; and to promote fellowship and the free exchange of ideas. The club is affiliated with the American Advertising Federation and the Business Marketing Association. Membership is open to all students interested in advertising, communication and marketing.

## COLLEGE STUDENT COUNCIL

The College Student Council is a group of student leaders which integrates social and academic student activities across the college. Two students are selected by each department chair to represent their fellow students on the council.

## COMMUNICATION CLUB

The Communication Club seeks to enhance the awareness of resources and opportunities available to students. The organization serves to connect its multicultural membership to professionals and national organizations in the various fields of communication.

## DEBATE TEAM

The Debate Team competes in tournaments on college and university campuses across the country. The team is open to all interested undergraduate students and attempts to accommodate students with little or no academic debate experience, as well as those with sufficient ability and experience to step immediately into national caliber competition. The debate team is designed as an outlet for students who are interested in developing research and argumentation skills in a competitive environment.

## LAMBDA PI ETA

Lambda Pi Eta is an honorary society, sponsored by the National Communication Association, for outstanding full-time undergraduate students in communication studies. Requirements for the society demand students achieve a 3.250 Q.P.A. in the communication studies major, a 3.000 overall Q.P.A. and have completed nine hours in the major. Benefits include the possibility of participating in a yearly national undergraduate conference and/or in the yearly national Speech Communication Association conference, as well as the privilege of being a member of the society.

## KAPPA TAU ALPHA

A Marquette chapter of Kappa Tau Alpha, the national honor society for journalism and mass communication, was established at Marquette in 1929. Undergraduate students majoring in journalism and mass communication who are in the upper ten percent scholastically in their junior or senior year are eligible for membership. Graduate students in the upper ten percent scholastically in their group who have completed twelve hours in journalism or mass communication are also eligible for membership. Appointments are made annually.

## MARQUETTE UNIVERSITY PLAYERS

The Marquette University Players invites participation by students from across the campus. Student members participate in the department's five major and numerous studio productions each academic year.

## NETWORK: THE COMMUNICATION STUDIES CLUB

Members of Network establish and nurture communication between communication and rhetorical studies, public relations students and alumni of Marquette University and establish associations with profit and non-profit organizations employing communications personnel.

## PUBLIC RELATIONS STUDENT SOCIETY OF AMERICA

The Marquette University Public Relations Student Society of America student chapter is intended to provide students with the professional guidance offered by the Wisconsin Chapter of PRSA. As members of the PRSSA, students are able to actively participate within the professional ranks through field trips and attendance at PRSA functions.

## SOCIETY OF PROFESSIONAL JOURNALISTS

The Marquette Chapter of the Society of Professional Journalists is affiliated with the national organization of SPJ, and assists members in establishing professional journalism contacts, participating in professional meetings and activities, and maintaining awareness of crucial issues in professional journalism.

## SPEAKERS UNLIMITED

Speakers Unlimited, an extension of Network, is open to Marquette students experienced in public speaking and able to discuss a variety of contemporary topics. Members deliver speeches to campus and community organizations upon request at no charge.

## WOMEN IN COMMUNICATION, INC.

Women in Communication, Inc., Marquette University Chapter, is open to all students, male and female, considering a communications career. Through WICI, students are invited to the annual College Career Conference which features workshops and panel discussions on interviewing skills, resume writing and portfolio assessment.

---

## BACKGROUND CHECKS, DRUG TESTING

Some degrees, majors and/or courses may require a student to submit to a criminal background check and/or drug testing. The results of those checks and/or tests may affect the student's eligibility to continue in that degree, major and/or course.

---

## CURRICULA INFORMATION

### MAJOR AND MINOR REQUIREMENTS

#### MAJORS

The College of Communication offers majors in advertising, broadcast and electronic communication, communication studies, journalism, public relations, and theatre arts. Teaching majors are available in communication studies, journalism and theatre arts. Students majoring in advertising, broadcast and electronic communications, journalism, and public relations cannot take more than 38 credits in these areas. Specific major requirements and typical four-year programs are listed on the next several pages.

Students for whom particular interests may be better served by a flexible grouping of courses from several areas can pursue an **interdisciplinary major**. Such students should consult the college office where they will be referred to a faculty adviser in their area. With this adviser, the student will write a proposal explaining the relationship between educational objectives and the choice of an **interdisciplinary major**, a listing of courses to be included, and the sequence in which they will be taken. The proposal, as well as any subsequent modifications, is subject to the approval of the college office.

Students with interdisciplinary interest in electronic communication may pursue a flexible program of study through an interdisciplinary major in electronic communication studies. Such students should consult the chairperson of the Department of Broadcast and Electronic Communication who will refer them to a faculty adviser in their area of interest.

Students who have not chosen their major at the time of admission to the college should do so no later than the second term of the sophomore year. Advisers are assigned to students based on the major. Students can declare their majors in the college records office.

#### MINORS

Students in the College of Communication (with the exception of interdisciplinary or double majors) are required to complete a minor. Minors are offered by most disciplines in the College of Arts and Sciences and the requirements are listed in the Course Description sections of this bulletin. The College of Business Administration offers minors in marketing, human resources and business administration. See the College of Business Administration section of this bulletin for these requirements. Minors offered by the College of Communication are listed after the majors in this section of the bulletin, in front of the Course Description section.

In lieu of a minor, students can complete a second major. However, students majoring in advertising, broadcast and electronic communication, journalism or public relations cannot second major or minor in another of these four areas.

Students can elect one of the following to fulfill the minor requirement:

*An interdisciplinary minor* composed of a minimum of 18 hours of course work complementary to the major. Courses which comprise the interdisciplinary minor are selected by the student and approved by the adviser and associate dean.

*Social science supporting program minor* requires completion of the following courses: POSC 020, ECON 043, and two courses chosen from among ANTH 001, PSYC 001 and SOCI 001. An additional 12 hours in these areas are required, with at least nine hours beyond the introductory course in a single area (anthropology, economics, political science, psychology or sociology).

### ADVERTISING MAJOR REQUIREMENTS

#### ADVERTISING CORE REQUIREMENTS

A total of 32 to 38 hours of course work must be completed for the major in advertising. Majors in advertising cannot take more than 38 credits in the mass communication area (BREC, JOUR and ADPR). The following basic courses must be completed toward the 32-38 hours:

<i>Course</i>		<i>Credit</i>
ADPR 008	Media Writing . . . . .	3
ADPR 140	Principles of Advertising . . . . .	3
ADPR 142	Strategic Research for Advertising and Public Relations . . . . .	3
ADPR 144	Advertising Copywriting . . . . .	3
ADPR 145	Advertising Media . . . . .	3
ADPR 146	Advertising Campaigns . . . . .	3
ADPR 180	Public Relations Principles . . . . .	3
COMM 161*	Ethical Problems of Mass Communication . . . . .	3
COMM 165	Media Law . . . . .	3
ADPR/BREC/JOUR Electives . . . . .		5-11
		<hr/> 32-38

\* must be taken in residence at Marquette University

The following courses are also required but do not count as hours in the major: ECON 043, 044, MARK 140, PSYC 001, and either MATH 060, PSYC 060 or MANA 025. Advertising majors must take, in addition to HIST 001 and 002 and PSYC 001, two other courses chosen from the Departments of History, Political Science, Psychology and Social and Cultural Sciences. They must complete the college science or mathematics requirement by taking either two natural science courses or two mathematics courses.

## BROADCAST AND ELECTRONIC COMMUNICATION MAJOR REQUIREMENTS

**General Information:** The major in broadcast and electronic communication is designed to provide students with the knowledge and skills necessary for effective communication through the electronic media. Such opportunities exist in commercial radio and television, public broadcasting, corporate media, cable communication and associated industries. Courses emphasize the creative extension and application of mass communication theory in the development of news and entertainment programs for the electronic media. Programs of study appropriate for careers in broadcast journalism, production, writing, programming, management, audience research, sales, promotion, or alternative media can be selected.

**Requirements for a Major:** The broadcast and electronic communication major requires 36 (maximum 38) hours including BREC 001, 005, 010, and 160\*; minimum of three courses from one of the following three sequences (Sequence I, II, or III), plus a minimum of two courses from each of the remaining sequences; and five to seven semester hours taken from the courses listed among any of the sequences and/or from among the non-sequence BREC offerings (BREC 168, 193, 194, 195 and 199). A student may also fill the remaining five to seven term hours from JOUR and/or ADPR with the consent of their adviser and the BREC department chair. Majors in broadcast and electronic communication cannot take more than 38 credits in the mass communication area (BREC, JOUR, ADPR). However, if a student wishes s/he may count BREC 164, 183 and 184 as university electives; these courses are not counted as mass communication credits.

### *Required Courses*

BREC 001	Practicum in Student Broadcasting
BREC 005	Production Techniques
BREC 010	Broadcasting in America
BREC 160*	Broadcast Media in Society

*Sequence I:* BREC 035, 045, 050, 120, 121, 135, 140, 145, 146, 150, 157, and 187.

*Sequence II:* BREC 130, 147, 149, 155, 156, 170, 171, 172, 177, and 185.

*Sequence III:* BREC 164, 181, 183, 184, 188, 189, 196, and 197; COMM 161, 165.

\*must be taken at Marquette University

Note: BREC majors are allowed a maximum of three credits in BREC 193 and three credits in BREC 168. They are allowed no more than six credits in one or a combination of BREC 194 and BREC 196.

BREC majors must complete at least 65 hours in liberal arts courses including CMST 012, PSYC 001 and MATH 060. (Note that completion of two courses from the same department is necessary to fulfill the math/science requirement.)

Students should consult their advisers for information regarding courses appropriate to various career goals. For example, students interested in broadcast journalism are advised to select courses such as BREC 045, 050, 145, 146, and 147; COMM 161, and 165. These choices emphasize writing and reporting while providing sufficient background in areas such as communication law, programming and ethics. In contrast, students wishing to emphasize production might select BREC 035, 050 or 120, 121, 130, 150, 155, 164, 170 or 171, 185 and/or 187. Other combinations and/or emphases are possible.

Each BREC student is required to complete a departmental minor or an interdisciplinary minor. Students are advised to consider minors in one of the following areas: business, marketing, political science, history, psychology, sociology or theatre arts.

	<hr/> 12-18		<hr/> 12-18

NOTE: Students should consult their advisers for appropriate electives and specific constraints on the above schedule.

## **BROADCAST JOURNALISM**

Students should pursue their major in the Department of Broadcast and Electronic Communication. Related coursework should emphasize broadcast newswriting and reporting, history, law and ethics, and it should begin no later than the sophomore year. Broadcast journalism students are encouraged to be actively involved with Marquette's student radio and television newscasts and complete one or more broadcast news internships before graduating. Students interested in studying broadcast journalism should inform the BREC department chair so that they can be assigned to a broadcast journalism adviser.

## **ELECTRONIC COMMUNICATION STUDIES**

Students with specialized interests in working for corporations and institutions which need graduates with skills in multimedia and electronic communication may pursue one of the programs suggested below. Completion of an interdisciplinary program in electronic communication studies fulfills the *major* and *minor* requirements of the college. Students with such interests should consult with the chair of broadcast and electronic communication who will refer them to an appropriate faculty adviser.

*Business Studies:* Introduction to the development, use and evaluation of electronic communication in business settings. Requires 52 hours of course work, 31 hours from communication and 21 hours from business.

*Economics and Policy Studies:* Introduction of electronic communication theories, techniques and practices as well as the political processes and economic systems that shape the practice of mediated communication in public and private organizations. Requires 58 hours of course work, 31 hours from communication and 27 hours from economics and policy.

*Education Studies:* Theories and practices of developing, using and evaluating electronic communication in educational and business settings. Does not count toward teacher certification. Requires 52 hours of course work, 31 hours from communication and 21 hours from education.

*Health Studies:* Introduction to the development, use and evaluation of electronic communication in health care settings. Requires 58 hours of course work, 31 hours from communication and 27 hours from health sciences.

## COMMUNICATION STUDIES MAJOR REQUIREMENTS

*General Information:* The major in communication studies examines the theories, principles, and practices of human communication. It is understood that communication is important to personal, social, academic, and professional development.

The programs objectives include: (1) to understand the central position communication occupies in human life and relationships; (2) to develop logical thinking in its relation to situations, audiences, and arguments; (3) to experience and examine the relationship between human interaction and decision making; (4) to explore the principles and theories of effective expression; (5) to develop the following listening skills: appreciative, empathic, comprehensive, and analytical; and (6) to analyze the role of communication in conflict negotiation and resolution.

*Requirements for Major:* The communication studies major requires 32 credit hours including CMST 010, 012, 052, 053, 131, and 154, plus 15 credit hours of CMST courses. Majors may select classes in one or more of the following areas: organizational and interpersonal communication; intercultural communication and rhetoric; and communication and conflict studies. Each area provides students with knowledge and skills vital in future careers such as: sales and personnel; conflict mediation; and law and international relations. Students will consult with their adviser as to the selection of appropriate courses.

## TEACHING MAJOR IN COMMUNICATION STUDIES REQUIREMENTS

*General Information:* The major is designed to educate teachers for the secondary schools. It provides a broad background of academic experience in speech communication including public speaking, interpretation, interpersonal communication, discussion, and debate. Although a broad background is required, a student is permitted to elect credits in his/her area of interest.

*Requirements for Teaching Major for Certification:* The teaching major in communication studies requires 34 term hours including: COMM 100; CMST 010, 012, 014, 052, 053, 124, 131, 154 and 156. In addition to the required courses, each student takes additional courses in his/her area of interest to complete the 34 hours.

Students in this major must complete the math/science core by taking BIOL 002 and PHYS 009 or ARSC 010 and 011 and 2 courses in MATH and the Social Science Requirement by taking POSC 020 and EDUC 078. (See the School of Education section of this bulletin for complete details. A quality point average of 2.750 is required before student teaching can be scheduled.)

### FOUR-YEAR SUGGESTED TERM SCHEDULE FOR SECONDARY TEACHER PREPARATION, GRADES 9-12, COMMUNICATION STUDIES TEACHING MAJOR

Year One			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
ENGL 001 .....	3	ENGL 002.....	3
HIST 001 .....	3	HIST 002.....	3

		EDUC 048.....	3
	16		18
Year Two			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
PHYS 009 or ARSC 010.....	3-4	BIOL 002 or ARSC 011 .....	3-4
PHIL 001 .....	3	PHIL 050.....	3
Literature course .....	3	Literature course.....	3
CMST 052 .....	3	CMST 053.....	3
EDUC 078 .....	3	POSC 020 .....	3
EDUC 088 .....	3	EDUC 095.....	3
	18-19		18-19
Year Three			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
PHIL 104 .....	3	Theology elective .....	3
Math elective .....	3	CMST 014.....	3
Communication Studies elective.....	3	Math elective or Computer Science.....	3
CMST 124 .....	3	CMST 131.....	3
EDUC 125 .....	3	CMST 156.....	3
	15	EDUC 135.....	3
			18
Year Four			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
Theology elective .....	3	EDUC 175 .....	8-9
Fine Arts.....	2-3	EDUC 158.....	3
COMM 100 .....	3		
CMST 154 .....	3		
CMST 121 .....	3		
Communication Studies elective.....	3		
	17-18		11-12

This accounts for only 44-45 of the 48 upper division hours required for graduation. Choose electives wisely and carefully.

Choosing electives from among CMST 134, 137, 140, 141, 145, and/or 162 is suggested for future teachers and those courses are upper division.

For the 6-12 licensure extension also include EDUC 128.

## NINE-TERM SUGGESTED TERM SCHEDULE FOR ELEMENTARY TEACHER PREPARATION, GRADES 1-6, COMMUNICATION STUDIES MAJOR

<i>Year One</i>			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
ENGL 001 .....	3	ENGL 002.....	3
HIST 001 .....	3	HIST 002.....	3
Foreign Language 001 .....	4	Foreign Language 002.....	4
CMST 010 .....	3	THEO 001.....	3
EDUC 008 .....	3	EDUC 048.....	3
	<hr/> 16		<hr/> 16

<i>Year Two</i>			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
ARSC 010.....	4	ARSC 011 .....	4
MATH 030.....	3	MATH 031 .....	3
PHIL 001 .....	3	PHIL 050.....	3
CMST 012 .....	2	Communication Studies elective .....	3
EDUC 030 .....	3	EDUC 078 .....	3
EDUC 040 .....	3	EDUC 088.....	3
	<hr/> 18		<hr/> 19

<i>Year Three</i>			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
Theology elective.....	3	PHIL 104.....	3
POSC 020 .....	3	HIST 006.....	3
CMST 052 .....	3	CMST 131.....	3
CMST 053 .....	3	CMST 154.....	3
EDUC 110 .....	4	EDUC 120.....	4
EDUC 130 .....	3	EDUC 140.....	3
	<hr/> 19		<hr/> 19

<i>Year Four</i>			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
Communication Studies elective.....	3	Theology elective .....	3
Communication Studies elective.....	3	Communication Studies elective .....	3
EDUC 150 .....	3	Communication Studies elective .....	3
EDUC 160 .....	4	EDUC 100.....	3
Literature course .....	3	EDUC 170.....	3
	<hr/> 16	MATH 032.....	3
			<hr/> 18

<i>Year Five, Term Nine</i>	
FIRST TERM	SEM. HRS.
EDUC 180 .....	8-9
EDUC 158 .....	3
	<hr/> 11-12

Choosing electives from among CMST 014, 061, 134, 137, 140, 141, 145, and/or 162 is suggested as possibly helpful for future teachers.

1-9 licensure include CMST 121 7th term and EDUC 128 8th term.

## JOURNALISM MAJOR CORE REQUIREMENTS

A total of 36 to 38 maximum hours of journalism, as specified by the sequence, must be completed for graduation from the college, including the following basic courses:

<i>Course</i>	<i>Credit</i>
JOUR 001* Practicum in Student Publications.....	1
JOUR 008 Information Gathering and Media Writing .....	3
JOUR 010 Reporting for Media.....	3
JOUR 100 Publications Editing.....	3
COMM 161** Ethical Problems of Mass Communication .....	3
JOUR 163 History of American News Media .....	3
COMM 165 Media Law.....	3

One of the following:		
JOUR 160	Mass Media and American Family . . . . .	3
JOUR 162	International Mass Communication. . . . .	3
JOUR 166	Communication in Society . . . . .	3
JOUR 167	Race and Gender Issues in Mass Media . . . . .	3

---

21-22

\*This course is recommended but not required.

\*\*All students are required to take COMM 161, Ethical Problems of Mass Communications, in residence at Marquette to earn a Marquette degree in journalism; senior standing recommended.

The following courses also are required but do not count as hours in the major: ECON 020, POSC 020, plus one of the following: MATH 060 or PSYC 060 or SOCI 060. One course in U.S. history. Two courses chosen from: PSYC 001, SOCI 001 or ANTH 001, plus one upper division course in the same subject. Recommended are PSYC 111, PSYC 122 or SOCI 104. Majors must also take two terms of natural science. These courses can also be used to meet college core requirement.

## JOURNALISM SEQUENCE REQUIREMENTS

In addition to the core courses, each student in the Department of Journalism is required to select a sequence and complete the courses required in that sequence for a degree. The selection must be made no later than the sophomore year from one of the following sequences: newspaper journalism, magazine-publications and visual communication. A candidate who changes from one sequence to another must complete all the specific requirements of the sequence in which he or she wishes to earn the degree.

Specific requirements in the sequences are as follows:

### *Newspaper Journalism Sequence*

The following courses are required:

JOUR 150	Newspaper Design and Production . . . . .	3
JOUR 175*	Public Affairs Reporting . . . . .	3
JOUR 177	Computer-assisted Reporting . . . . .	3
Journalism Writing Elective . . . . .		3
JOUR 193	Internship (optional) . . . . .	0-3

\*Must be taken in residence at Marquette to earn a Marquette degree in journalism.

### *Magazine-Publications Sequence*

The following courses are required:

JOUR 151	Magazine Design and Production . . . . .	3
Journalism Visual Elective . . . . .		3
Journalism Writing Elective. . . . .		3
Journalism Visual/Writing Elective . . . . .		3
JOUR 193	Internship (optional) . . . . .	2
One of the following:		
JOUR 111	Article Writing . . . . .	3
JOUR 175	Public Affairs Reporting . . . . .	3

### *Visual Communication Sequence*

JOUR 120	Photojournalism . . . . .	3
JOUR 125	Principles of Visual Communication. . . . .	3
Journalism Writing Elective. . . . .		3
JOUR 193	Internship (optional) . . . . .	2

Two of the following:

JOUR 150	Newspaper Design and Production. . . . .	3
or		
JOUR 151	Magazine Design and Production . . . . .	3
JOUR 121	Advanced Photojournalism. . . . .	3
JOUR 155	News and Information Design . . . . .	3

Visual communication majors are encouraged to minor in fine arts, using courses offered in several Marquette programs.

## COMPUTER WORKSHOPS

Computer workshops are offered at the beginning of each term for students who wish to take a journalism lab course. Students will be excused from the workshop if they can demonstrate proficiency on PC and Macintosh platforms with: WordPerfect, Adobe, Photoshop, Excel, Paradox, Quark XPress, Freehand, Netscape and HTML.

## JOURNALISM WRITING ELECTIVES

The journalism writing elective courses consist of JOUR 110, 111, 112, 113, 114, 170, 171, 172, 173, 174, 175 and 177.

## JOURNALISM VISUAL ELECTIVES

The journalism visual elective courses consist of JOUR 020, 120, 121, 125, 150, 151 and 155. ADPR or BREC electives must be approved in advance by a journalism adviser. Some cannot be taken by journalism majors because they duplicate or are similar to journalism courses.

## JOURNALISM GENERAL ELECTIVES

Majors in journalism cannot take more than 38 credits in the mass communication area (ADPR, BREC, JOUR). The following journalism courses do not count as mass communication credits but may be taken as a general elective by journalism and other students:

- JOUR 160, Mass Media and the American Family
- JOUR 162, International Mass Communication
- JOUR 166, Communication in Society
- JOUR 167, Race and Gender Issues in Mass Media
- JOUR 181, Political Communication and the Mass Media

## TEACHING MAJOR IN JOURNALISM

The teaching major in journalism has the same requirements as the journalism newspaper major plus JOUR 185. Students in this major must complete the math/science core by taking BIOL 002 and PHYS 009 or ARSC 010 and 011. In addition, two courses in MATH are required.

*Please Note:* Students completing a teaching major must also complete a secondary education major to receive teacher certification. See the School of Education section of this bulletin for complete details. A quality point average of 2.750 is required before student teaching is scheduled.

Three suggested summer school courses: POSC 020; two from PSYC 001, SOCI 001, ANTH 001.

## PUBLIC RELATIONS MAJOR REQUIREMENTS

### PUBLIC RELATIONS CORE REQUIREMENTS

A total of 32 to 38 maximum hours of course work must be completed for the major in public relations. Majors in public relations cannot take more than 38 credits in the mass communication area (BREC, JOUR, and ADPR). The following basic courses must be completed toward the 32-38 hours:

<i>Course</i>	<i>Credit</i>
JOUR 008 Information Gathering and Media Writing . . . . .	3
ADPR 140 Advertising Principles . . . . .	3
ADPR 142 Strategic Research for Advertising and Public Relations. . . . .	3
ADPR 143 Marketing Communications Design and Production . . . . .	3
COMM 161* Ethical Problems of Mass Communication . . . . .	3
COMM 165 Media Law. . . . .	3
ADPR 180 Public Relations Principles . . . . .	3
ADPR 181 Writing for the Marketplace: Public Relations and Business . . . . .	3
ADPR 183 Public Relations Campaigns. . . . .	3
ADPR 193 Internship in ADPR . . . . .	3
ADPR/BREC/JOUR electives . . . . .	2-8

\*must be taken in residence at Marquette University

The following courses are also required but do not count as hours in the major: ECON 043, 044, MARK 140, PSYC 001 and either MATH 060, PSYC 060, or MANA 025. Public Relations majors must take, in addition to HIST 001 and 002 and PSYC 001, two other courses chosen from the Departments of History, Political Science, Psychology, and Social and Cultural Sciences. They must complete the college science or mathematics requirement by taking either two natural science or two mathematics courses. They must also choose one course from the following: CMST 132, CMST 135, CMST 136, or CMST 154.

## THEATRE ARTS MAJOR REQUIREMENTS

*General Information:* The Marquette theatre arts major has its focus upon those theatre students who wish to realize and develop their talent while at the same time relating it to broader knowledge.

At Marquette, the program in theatre arts offers intensive training in performance and/or production within a liberal arts foundation. Theatre Arts students may select a minor from within the College of Communication such as advertising, broadcasting, public relations, or communication studies. Or they may select a minor from the College of Business Administration (i.e. marketing) or the College of Arts and Sciences where they often elect a minor such as English, foreign language, psychology or political science.

Theatre Arts majors have also found it beneficial to double major in any of the areas listed above, thereby obtaining a broad range of connections between the performing arts and other disciplines.

*Theatre Arts Major:* The theatre arts major requires 35 credits including:

Required Courses:

THAR 001 Orientation to Theatre Studies

THAR 010 Acting I—Fundamental Technique

THAR 016 Stagecraft

THAR 023 Basic Costume Technology

THAR 150 History of Theatre

In addition to the above required courses, one course from each of the following three sequences are required:

*Sequence I (Performance):* THAR 010\*, 011, 026, 027, 030, 031, 126, 128, 132, 133, and DANC classes.

*Sequence II (Design/Technical/Management):* THAR 012, 016\*, 023\*, 118, 120, 121, 122, 124, 127, and 160.

*Sequence III (History):* THAR 052, 123, 125, 140, 150\*, 152, 153.

\*core required courses

The following courses will be assigned a sequence at the time of registration: THAR 168, 193, 195, 196, and 199.

*All-university Avocational Electives:* Non-theatre arts majors are invited to use THAR 050 or 051 as a fine arts elective. Some courses require prior approval of the instructor; be sure to consult the bulletin description. Lab requirements apply where appropriate.

*Participation in Theatre Productions:* All university students with a minimum 2.000 Q.P.A. are invited to participate in theatre productions either on stage or in a technical capacity.

## TEACHING MAJOR IN THEATRE ARTS

The teaching major in theatre arts requirements are identical to those listed under the theatre arts major, plus THAR 160. In addition, education majors must take BIOL 002 and PHYS 009 or ARSC 010 and 011 plus two courses in math to complete the math/science requirement. The social science requirement must be completed by taking POSC 020 and EDUC 078.

*Please Note:* Students completing a teaching major must also complete a secondary education major to receive teacher certification. See the School of Education section of this bulletin for complete details. A quality point average of 2.750 is required before student teaching is scheduled.

## MINORS OFFERED IN THE COLLEGE OF COMMUNICATION

The following minors are available to any Marquette University student. Students in the College of Communication are required to complete a minor or another major. Students majoring in advertising, broadcast and electronic communication, journalism or public relations cannot second major or minor in another of these four areas.

*Advertising Minor:* 18 hours including ADPR 008, ADPR 140 and four courses chosen from the following: ADPR 142, 143, 144, 145, 146, 147, 148, 149, 180, 193 or BREC 005.

*Broadcast and Electronic Communication Minor:* 20 hours including BREC 001, 005, 010 and 160. The remainder consists of courses selected in consultation with a BREC adviser.

*Communication Studies:* CMST 010, 012, 052, 053, and 131 or 154, plus electives to total 20 credits.

*Film Minor:* 18 hours selected from any FILM courses, and any other related courses offered (i.e. ENGL 194) in other departments.

*Public Relations Minor:* 18 hours including JOUR 008; ADPR 142, 143, 180, 181; and one of the following: ADPR 140, 183, 193 or BREC 005.

*Theatre Arts Minor:* 18 hours including THAR 001, 010, 016, 023, and 150.

*\*Teaching Minor in Communication Studies:* 26 hours including COMM 100, CMST 010, 012, 052, 053, 124, 131 or 154, and 156.

*\*Teaching Minor in Journalism:* 22 hours including COMM 165, JOUR 008, 185; one course from JOUR 100, 151 or BREC 045; plus at least 8-10 hours of upper division electives.

*\*Teaching Minor in Theatre Arts:* 26 hours including THAR 001, 010, 016, 023, 150, and 160.

*\*Appropriate only for students completing an academic area teaching major.*

# COURSE DESCRIPTIONS

## ADVERTISING AND PUBLIC RELATIONS (ADPR)

*Associate Professors:* Badaracco, Baxter (Emeritus), Crowley, Pokrywczynski  
*Assistant Professors:* Frederick, Wolburg  
*Professional in Residence:* Schrank  
*Lecturers:* Cary, Lopez, Maciejewski

**ADPR008. Media Writing** 3 sem. hrs.  
Factual writing for the mass media. Introduction to and practice in news writing for the print and broadcast media, public relations writing and advertising copywriting. Basic information gathering. In-class exercises require writing on microcomputers. Offered every semester. *Prereq: ENGL001 and 002 or equivalent and minimum typing speed of 25 words per minute.*

**ADPR 140. Advertising Principles** 3 sem. hrs.  
Advertising as it relates to mass media and marketing. The advertising industry, including advertisers, advertising media, and ad agencies. Special emphasis on advertising history, its social and economic effects, advertising law and ethical standards. Overview of advertising process: product, market, and consumer research; creative and media strategy, copywriting, layout and production of messages, and evaluation of advertising effectiveness. Offered every semester.

**ADPR 142. Strategic Research for Advertising and Public Relations** 3 sem. hrs.  
Introduction to fundamental standards and practices of advertising and public relations research, focusing on audiences, messages, media, public opinion and issues management. Students learn to use research and to evaluate the quality of information for strategic planning based on validity, consistency, and reliability. Provides an opportunity for critique and practice of professional communication research. Offered every semester. *Prereq: ADPR 140 or 180.*

**ADPR 143. Marketing Communications Design and Production** 3 sem. hrs.  
Fundamentals of marketing communications design focusing on advertisements, newsletters, brochures and posters. Students learn basic concepts and develop basic skills through planning, executing and evaluating effective designs. *Prereq: ADPR 008 or JOUR 008; ADPR 140 or 180; or cons. of unit coord. Computer workshop or demonstrated proficiency on the Macintosh computer using QuarkXPress.*

**ADPR 144. Advertising Copywriting** 3 sem. hrs.  
Rigorous study and practice in planning and preparation of advertising messages. Emphasis on writing for all media. Artistic and scientific aspects of advertising creativity. Principles of creative strategy including: product/service research, target audience analysis, and selection of persuasive appeals and creative approaches. Evaluation of advertising effective-

ness. Lecture and laboratory. Offered every semester. *Prereq: ADPR 008 and ADPR 140; or cons. of instr.*

**ADPR 145. Advertising Media** 3 sem. hrs.  
Study of the evaluation and selection of advertising media to meet specific advertising objectives. Theory and practice of media planning, including: audience measurement; reach, frequency, and continuity strategy; inter- and intra-media comparisons; budgeting. Principles of media scheduling and buying, computer media models. Testing media effectiveness. Offered every fall. *Prereq: ADPR 140, MARK 140, and MATH or PSYC 060.*

**ADPR 146. Advertising Campaigns** 3 sem. hrs.  
Intensive study of multi-media advertising campaigns. Students, working in groups, plan and develop advertising programs for actual advertisers. Campaigns include research, objective setting, strategy, media selection, message preparation, and proposals for evaluation of effectiveness. Project culminates in formal, competitive presentations. Offered every semester. *Prereq: ADPR 144 and 145; or cons. of unit coord.*

**ADPR 147. Advanced Advertising Copywriting** 3 sem. hrs.  
A continuation of ADPR 144. Emphasis on formulating strategy and producing executions for coordinated, multi-media campaigns. Each student will create a portfolio which will showcase his or her talent and ability to work as a professional copywriter. Offered occasionally. *Prereq: ADPR 144 or cons. of instr.*

**ADPR 148. Advertising and Public Relations Account Management** 3 sem. hrs.  
The fundamentals of management in both the client and agency environments. Analyzes client and agency structures and functions. Explores project estimating, budgeting and time management. Examines account profitability maintenance and account team productivity. Reviews techniques for agency and supplier selection. Special emphasis on the ethical aspects of account work. Offered occasionally. *Prereq: ADPR 140 or ADPR 180.*

**ADPR 149. Business to Business Marketing Communications** 3 sem. hrs.  
Study of how businesses promote their goods and services to other businesses. Examines products, markets, objectives, strategies, media techniques and evaluation. Covers advertising, public relations, direct marketing and sales promotion. Includes case studies, outside speakers and field trips. Offered occasionally. *Prereq: ADPR 140 or 180, or cons. of instr.*

**ADPR 180. Public Relations Principles** 3 sem. hrs.  
Principles, history, theory and practice of public relations in business, organizations and agencies. Analyses of public relations programs; the responsibility of the public relations practitioner to management and to relevant publics; ethics of public relations practice; the future of the field and career opportunities. Offered every semester.

**ADPR 181. Writing for the Marketplace: Public Relations and Business** 3 sem. hrs.  
Covers principles of writing for business, including opinion and editorial pieces, reports, press releases, business journalism, speeches, cover letters and resumes, as well as an introduction to fundamentals of broadcast writing and crisis communication. All classes held in a computerized writing laboratory or a broadcast studio. Offered every semester. *Prereq: JOUR or ADPR 008, ADPR 180.*

**ADPR 183. Public Relations Campaigns** 3 sem. hrs.  
Case-method and campaign-planning approaches to strategic planning and implementation as they pertain to public relations administration in companies and organizations. Introduction to the techniques of goal/objective-setting and strategy-selection in a PR/communication context. Students are placed in a managerial, decision-making role in which the primary requirement is to think in PR planning and program-execution terms. Offered every semester. *Prereq: ADPR 142 and 181.*

**ADPR 193. Internship in Advertising and Public Relations** 0-3 sem. hrs.  
Work experience in advertising or public relations in specific organizational settings, supervised by an approved professional coupled with related academic work assigned. Approval of departmental internship director required in advance of internship. Maybe taken more than once to a maximum of three total credits. S/U grades. Offered every semester. *Prereq: ADPR or JOUR 008, ADPR 140 or 180 and cons. of dept. intern director.*

**ADPR 194. Special Institute/Workshop/Project** 1-3 sem. hrs.  
Offered occasionally.

**ADPR 195. Independent Study** 1-3 sem. hrs.  
Offered every semester. S/U grades. *Prereq: ADVE or PURE major or minor and cons. of unit coord.*

**ADPR 196. Seminar in Advertising and Public Relations** 1-3 sem. hrs.  
Specific subjects of seminars to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally.

**ADPR 199. Senior Thesis** 1-3 sem. hrs.  
The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of unit coord.*

# BROADCAST AND ELECTRONIC COMMUNICATION (BREC)

*Associate Professors:* Grams, Havice, Ksobiech, Mayerle, Porter, Slattery  
*Assistant Professors:* O'Neill,  
*Lecturers:* Majewski, McGilligan, Nenno, Schragar

## **BREC 001. Practicum in Student Broadcasting** 1 sem. hr.

Under faculty direction, students work in two or more departments of student radio (WMUR) or television station (MUTV). Experiences might include work in news, programming, traffic, production, promotion, etc. Offered every semester. S/U grade assessment.

## **BREC 005. Production Techniques** 3 sem. hrs.

Basic audio and video production techniques as utilized in radio, television, cable, education, and corporate communications. Lecture/lab format. Offered every semester.

## **BREC 010. Broadcasting in America** 3 sem. hrs.

Surveys the structure and role of broadcast and allied electronic communication. Emphasis on the principles and organizations which influence the broadcast industries. Offered annually.

**BREC 035. Script and Continuity** 3 sem. hrs.  
Survey of writing styles for electronic communication. Theory and extensive practice. Emphasis on both form and content. Offered every semester. *Prereq:* ENGL 001 and 002.

## **BREC 045. Broadcast Newswriting and Editing** 3 sem. hrs.

Theory and practice in writing and editing news for the electronic media. Includes gathering and writing local news, editing and rewrite of wire copy, interviews, and on-the-air coverage of news events. Offered every semester. *Prereq:* ENGL001 and 002; or equivalent.

**BREC 050. Television Production** 3 sem. hrs.  
Practical application of the theories of television production. Emphasis on studio and field productions, development of basic directing skills, single camera video techniques, video editing. Production of short programs. Offered annually. *Fee. Prereq:* BREC 005 and either 035 or 045.

**BREC 120. Radio Production** 3 sem. hrs.  
Preparation and production of a wide range of radio fare, designed for specific audiences and station formats. Emphasis on quality, content, and technical excellence. Offered annually. *Prereq:* BREC 005 and either 035 or 045.

**BREC 121. Sound Design** 3 sem. hrs.  
Aesthetics of audio mixing in various program genres (drama, commercial, documentary, interviewing, feature, etc.) utilizing stereo and multi-track consoles and digital effects devices and workstations. Offered occasionally. *Prereq:* BREC 050 or cons. of instr.

## **BREC 130. Program Development** 3 sem. hrs.

Planning and development of programs for specialized audience and objectives. Preparation

of program layouts for television, cable, and corporate systems. Offered annually.

## **BREC 135. Advanced Scriptwriting** 3 sem. hrs.

Development and writing of full-length scripts for entertainment television or feature film. Includes development of concepts for new television series, miniseries, and movies-for-television, and study of their specific writing requirements, as well as writing for current television series. Writing workshop approach. Offered occasionally. *Prereq:* cons. of instr.

## **BREC 140. Television Performance** 3 sem. hrs.

Application of performance techniques to the television medium. Extensive in-studio practice. Concentration on performance in television commercials, news anchoring, interviewing, and possible role-playing in comedy and dramatic scripts. Offered odd-numbered years.

## **BREC 145. Radio Reporting/Performance** 3 sem. hrs.

Extensive practice in gathering, writing, and reporting radio news. Emphasis on performance techniques appropriate to news, interviews, and special features. Offered occasionally. *Prereq:* BREC 005 and 045.

**BREC 146. Television Reporting** 3 sem. hrs.  
Extensive practice in gathering, writing, and presenting television news. Emphasis on field production, performance, and editing of news actualities. Topics include narration, interviews, and problem stories. Offered occasionally. *Prereq:* BREC 005 and 045.

## **BREC 147. News and Information Gathering** 3 sem. hrs.

Analysis of the community with a view to the problems and opportunities for the broadcast media on the political, public, administrative, financial and commercial, labor, social welfare, and educational affairs of the community. Offered annually.

## **BREC 149. Advanced Television News Reporting** 3 sem. hrs.

Extensive practice in the application of visual story telling techniques in gathering and presenting television news. Emphasis is on developing the visual narrative. Offered occasionally. *Prereq:* BREC 045 and 146.

## **BREC 150. Advanced Television Production and Direction** 3 sem. hrs.

Development of program-length dramatic and non-dramatic productions for television, cable, educational, and corporate distribution. Particular attention to the integration of the various media used in television production and to legal and financial considerations. Offered even-numbered years. *Prereq:* BREC 050 or 051.

**BREC 155. Corporate Media** 3 sem. hrs.  
Analysis and practice in the development, acquisition and utilization of electronic media in the corporate world. Emphasis on problems of budget, audience, objectives, evaluation and production as encountered in corporate media communication. Offered occasionally.

## **BREC 156. Technology and Learning** 3 sem. hrs.

Learning theories applied to design, use and evaluation of electronic communication technologies in instructional settings. Offered in alternate years. *Prereq:* BREC005, 035 or 045; and Jr. stndg. or cons. of instr.

## **BREC 157. Multi-Media Authoring** 3 sem. hrs.

Study of electronic media within the context of training/learning systems. Multi-media authoring software used to design, produce and evaluate instructional lessons. Offered in alternate years. *Prereq:* BREC156 and Jr. stndg.; or cons. of instr.

## **BREC 160. Broadcast Media in Society** 3 sem. hrs.

Process and effects of mass communication via the broadcast media. Critical analysis of the role of the mass media within society. Ethical concerns with respect to decision-making by broadcast and cable executives. Emphasis on broadcasting as a social institution as opposed to a business. Offered annually. *Prereq:* BREC 010 and Jr. stndg.

## **BREC 164. Television Criticism** 3 sem. hrs.

Examination of the major critical approaches which have historically been applied to television programming. Study of major television critics whose work appears in academic publications and the mass media. Offered annually.

## **BREC 168. Independent Projects in Broadcast and Electronic Communication** 1-3 sem. hrs.

Student projects in designated areas of special interest. *Prereq:* Cons. of unit coord.

**BREC 170. Radio Programming** 3 sem. hrs.  
Examination and case study analysis of the contemporary radio industry. Emphasis on music formats, news, talk, sports, syndication, and other sources of program material. Audience demographics, profiles, ratings, and promotions. Practical experience in applying for FCC license. Offered occasionally.

## **BREC 171. Television Programming** 3 sem. hrs.

Analysis of television programming theories. Includes data-based criticisms of different programming strategies. Primary emphasis on prime-time network entertainment programming; includes consideration of effective programming for other "day parts" and news. Students will program their own network on the basis of theories and data provided. Offered alternate years.

## **BREC 172. Broadcast Sales and Promotion** 3 sem. hrs.

Methods, organization, compensation, and administration of sales and promotion activities. Motivational and organizational techniques; methods of selling and alternative approaches to market, product, and media analysis. Case study approach. Offered occasionally.

## **BREC 177. Broadcast Management** 3 sem. hrs.

Staffing, organization, cost-price information, salaries, law, labor negotiations and community relations as involved in the radio, television and cable enterprise. Theoretical and practical

approaches to the managerial problem. Casestudy method. Offered occasionally.

**BREC 181. Telecommunication and the Urban Environment** 3 sem. hrs.

Telecommunication practices within the context of a variety of urban structures. Includes investigation of such topics as changes in learning and work patterns, distance learning, and telecommuting. Offered occasionally. *Prereq: BREC 005, 010 and Jr. stndg.; or cons. of instr.*

**BREC 183. Early History of Broadcasting** 3 sem. hrs.

History of the American system of broadcasting from its inception to approximately 1950. Examination of the technological, social, cultural, economic and political forces which shaped the industry. Emphasis on the roles of the broadcasters as agencies of information and entertainment by an analysis of trends in radio and early television programming. Offered annually.

**BREC 184. American Television: 1946–Present** 3 sem. hrs.

Historical, cultural and commercial growth of American television, with special emphasis on programming, from pre-commercial beginnings to the present. Key genres, persons, issues and trends in the development of American prime-time television. Offered annually. Fulfills Fine Arts requirements for Arts and Sciences students.

**BREC 185. Communication and the Information Age** 3 sem. hrs.

Examination of current directions in communication systems and information services. Analysis of social, economic, and political implications of technological development. Offered occasionally.

**BREC 187. Interactive Technologies** 3 sem. hrs.

Creation of a variety of applications for interactive technology, including business, instruction and information products. Emphasis on learning theories in the design, utilization and evaluation of these products. Offered occasionally. *Prereq: BREC 157 and Jr. stndg. or cons. of instr.*

**BREC 188. Comparative Media Systems** 3 sem. hrs.

Analysis of major issues facing international communications as well as exploration of concepts such as nationalism, regionalism, globalism, and cultural identity. Case studies of the structure and performance of European media systems. Comparative analysis of issues such as sovereignty, program imports/exports, new technology, privatization, and communication rights. Offered occasionally. *Prereq: BREC 010.*

**BREC 189. Public Policy in Telecommunications** 3 sem. hrs.

Analysis of the public policy process and its impact on the development of media and telecommunications systems. Emphasis on current policy issues relating to content, economics, technological change, and social effects. Offered occasionally.

**BREC 193. Internship in Broadcast and Electronic Communication** 0–1 sem. hrs.

Observation, participation, and experience in a radio, television, cable, or corporate setting. Augmented with selected readings, papers or conferences with adviser. Performance is assessed using S/U grades. Offered every semester. *Prereq: Cons. of unit coord.*

**BREC 194. Special Institute/Workshop/Project** 1–3 sem. hrs.

**BREC 195. Independent Study in Broadcast and Electronic Communication** 1–3 sem. hrs. Offered every semester. *Prereq: Cons. of unit coord.*

**BREC 196. Seminar in Broadcast and Electronic Communication** 1–3 sem. hrs.

Special subjects of seminar to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally.

**BREC 197. Topics in Broadcast and Electronic Communication** 1–3 sem. hrs.

Special topics in broadcast and electronic communication to be announced in the *Timetable of Classes*. Includes extensive screening and/or other activities. Lecture/lab format. Offered occasionally.

**BREC 199. Senior Thesis** 1–3 sem. hrs.

The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of unit coord.*

## COMMUNICATION (COMM)

**COMM 100. Coping with the Mass Media** 3 sem. hrs.

Designed for non-majors. Examines the structure, function, content, and effects of mass media in society. Aimed at developing intelligent consumers of mass communications. Offered occasionally.

**COMM 101. International Study in Communication** 0–3 sem. hrs.

Structured travel and study programs in International Communication. Program includes special advising, reading, and a required paper. S/U grade assessment. Offered every semester. *Prereq: Cons. of assoc. dean; study abroad students only.*

**COMM 161. Ethical Problems of Mass Communication** 3 sem. hrs.

The practice of journalism and mass communications as ordered by moral principles. Offered every semester. *Prereq: PHIL 104 and Jr. stndg.*

**COMM 165. Media Law** 3 sem. hrs.

Legal standards/doctrines governing libel, privacy and other areas of law directly affecting the media. Special consideration of legal problems in advertising, broadcast and electronic communication, journalism and public relations. Emphasis on the constitutional protection of freedom of expression and the media. Analysis of how these standards, doctrines and constitutional procedures affect the work of media

professionals. Offered every semester. *Prereq: Jr. stndg.*

**COMM 190. Communication Undergraduate International Exchange** 0 sem. hrs.

Study abroad as part of an international student exchange program. Upon approval, students are enrolled in a college or university abroad as a full-time student for a semester or a year. Course credits transfer to Marquette.

**COMM 193. Internship in Communication** 1–3 sem. hrs.

Provides students with the opportunity to apply theories, skills, and techniques in communication. Performance in this course is assessed using S/U grades. *Prereq: Cons. of assoc. dean.*

**COMM 195. Independent Study in Communication** 1–3 sem. hrs.

Offered every semester. *Prereq: Cons. of assoc. dean.*

**COMM 199. Senior Thesis** 1–3 sem. hrs.

The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of assoc. dean.*

## COMMUNICATION STUDIES (CMST)

*Professor: Shuter*

*Associate Professors: Goldzwig, Turner*

*Assistant Professors: Egdorf, Meyer*

*Lecturers: Cary, Carlsson, Hubbard, Inman, Masluk, Nelson, Schoenfeld, Trimborn-Kaye*

**CMST 010. Introduction to Communication** 3 sem. hrs.

A survey of communication principles and processes as they relate to interpersonal communication, small group communication, culture and communication, persuasion, communication in organizations, and mediated communication. Offered every semester.

**CMST 012. Public Speaking** 2 sem. hrs.

Examines theory and practice of effective public speaking. The course includes informative, persuasive, and occasional speaking. Criticism and critical listening skills will also be emphasized. Offered every semester.

**CMST 014. Oral Interpretation of Literature** 3 sem. hrs.

Fundamentals and practice of interpretation by using representative literary forms. Offered occasionally.

**CMST 050. Debate/Forensic Practicum** 1–2 sem. hrs.

Students participate in intercollegiate debate and/or individual events and travel to various tournaments. A maximum of 4 credits can apply toward graduation. Offered every semester.

**CMST 052. Introduction to Small Group Communication** 3 sem. hrs.

Examines theories, principles and methods of small group communication. The course will focus on such topics as: leadership, problem solving, roles, norms, and climate. The class takes a systems approach to groups and students will have hands-on experience in a decision making group. Offered every semester.

**CMST 053. Argumentation** 3 sem. hrs.

Explores the role of argument in contemporary society. Includes analysis and application of various theories of public argumentation. Areas include identification of fallacies, refutation, forms of argument, and formal and informal logic. Offered every semester.

**CMST 061. Nonverbal Communication** 3 sem. hrs.

Examines the varied approaches, channels, and functions of nonverbal behavior in human interaction. Sensitizes students to the pervasiveness of controversial issues in and origins of nonverbal communication. Explores theoretical and popular issues as well as relationships between verbal and nonverbal systems. Offered occasionally.

**CMST 078. Communication Approaches to Interviewing** 3 sem. hrs.

Stresses communication theory and current research related to interviewing. Provides in-class practice with interchanging roles as interviewer/interviewee in several types of interviews. Current research in interviewing techniques, assistance in resume preparation and legal guidelines for questions are among the topics for discussion. Offered annually.

**CMST 081. Listening** 3 sem. hrs.

Explores current and past approaches to listening, readability/listenability issues, recall tests, training and development techniques, silence, human information processing issues, and perceptual biases. Listening techniques for comprehension, evaluation, and empathy are explored. The role of listening in various contexts is explored. Offered occasionally. *Prereq: CMST 010.*

**CMST 110. Introduction to Communication Theory and Research** 3 sem. hrs.

Surveys major theoretical approaches to communication studies and will introduce students to basic research methods in the field. Emphasis will be on reading research reports analytically. Offered occasionally.

**CMST 121. Principles and Methods of Teaching Speech Communication** 3 sem. hrs.

Examines the theory and practice of teaching speech communication in secondary schools. Areas include public speaking, interpersonal communication, small group communication, and mass communication. Course substitutes for EDUC 122. Minimum 30-hour clinical experience required. Offered occasionally. *Prereq: Enrolled in the School of Education and EDUC 095.*

**CMST 124. Directing Speech Activities** 3 sem. hrs.

Theory and practice in the organization and management of co-curricular speech activities in high school and college. Offered occasionally.

**CMST 131. Interpersonal Communication** 3 sem. hrs.

Examines person-to-person communication with a focus on such topics as social roles, conflict management, relationship development, perception, communication effectiveness, and relevant theories. Offered every semester. *Prereq: CMST 010.*

**CMST 132. Organizational Communication** 3 sem. hrs.

Presents historical and current perspectives on the origins and usefulness of organizational theories as they relate to communication issues. Emphasizes the relationship between organizational life and communication principles. Ultimate goals, assumptions, and cases relating to organizational communication theories are developed and discussed. Offered annually.

**CMST 133. Group Dynamics** 3 sem. hrs.

Explores small group theory and techniques. Case studies, task groups, network analysis, and simulations are discussed and used. Offered occasionally. *Prereq: CMST 052.*

**CMST 134. Communication and Conflict** 3 sem. hrs.

Communication and conflict explores theoretical and experiential avenues to conflict management, resolution, and regulation through communication styles and methods. The communicative contexts for investigation are interpersonal and organizational (profit and non-profit). Exercises and case studies provide an opportunity to implement theoretical learnings from the course. Offered every other year.

**CMST 135 Communication Approaches to Training and Development** 3 sem. hrs.

Emphasizes development of training sessions within organizations. Diagnostic methods for assessing needs and determining the utility of specific training are explored. Roles of consultant, in-house human resource trainer, and liaison with subject matter experts are differentiated. Students develop training modules for communication skills training. Offered annually.

**CMST 136 Managerial Communication** 3 sem. hrs.

The communication relationship between managers and employees involves a set of circumstances not often found in everyday communication with friends and colleagues. The differences in power, knowledge, job description, and life experiences create many unique and challenging interactions. This course looks in-depth at the circumstances which affect communication between managers and their employees as well as at a number of theories and strategies for improving communication in the workplace. Offered annually.

**CMST 137. Gender and Communication** 3 sem. hrs.

Examines the relationship between gender and communication. Includes discussion of verbal and nonverbal communication patterns of males and females, various explanations for these patterns, perceptions of gender differences and the implications these perceptions have for people in several contexts (public, interpersonal, and organizational). Offered annually.

**CMST 140. Intercultural Communication** 3 sem. hrs.

Examines the influence of culture on communication within Europe, Asia, Latin America, and Africa. International in scope, the course also analyzes communication between people from different national cultures and provides an analytical framework for dissecting intercultural exchanges. Offered annually.

**CMST 141. Cross-Cultural Communication in the United States** 3 sem. hrs.

Explores the dynamics of cross-cultural communication in the U.S. and obstacles to effective interaction across American co-cultures. Examines the interpersonal patterns of selected ethnic groups, races, religions, and social classes in the U.S. with the aim of improving cross-cultural understanding and communication. Offered annually.

**CMST 142. Communicating in Multinational Organizations** 3 sem. hrs.

Examines the influence of culture on communication in organizations. Global comparisons in organizational communication are offered including analysis of European, Asian, and Latin American corporate cultures. Intercultural communication in U.S. organizations is also explored. Offered occasionally.

**CMST 144. Leadership and Communication** 3 sem. hrs.

Explores communication variables involved when leaders attempt to influence members to achieve a goal. Topics include power, credibility, motivation, research on leader traits, styles and situations, and current models of leadership such as transactional, transformational, charismatic, and functional approaches. The different leadership challenges posed by community and institutional settings will also be explored. Offered occasionally.

**CMST 145. Family Communication** 3 sem. hrs.

Introduces communication phenomena in the family setting. Examines how communication affects the development, maintenance, and enhancement of family relations. Offered annually.

**CMST 146. Health Communication** 3 sem. hrs.

Provides an introduction to the field of health communication. This course examines the role of communication in health care with a focus on provider training and the provider-patient relationship. Theoretical models for developing effective health communication programs are discussed and applied within a variety of health care settings. Offered annually.

**CMST 150. Philosophy of Communication** 3 sem. hrs.

This course outlines foundational theories and concepts regarding rhetoric's contribution to our understanding of reality, knowledge, truth, and certainty. Topics include the role of rhetoric in the construction of our knowledge of science, politics, ethics, religion, law, gender, and culture. Offered occasionally.

**CMST 154. Persuasion** 3 sem. hrs.

Surveys theories, principles, and practices of persuasion. Special emphasis on the social, psychological and cultural study of influence. Offered every semester. *Prereq: CMST 010.*

**CMST 155. Business and Professional Speaking** 3 sem. hrs.

Explores and offers practice in the types of oral communication faced in organizational settings. The emphasis is on professional presentations. Offered occasionally.

**CMST 156. Classical Rhetorical Theory**

3 sem. hrs.

Analyzes Greek and Roman rhetorical theory from the rise of the early sophists in Greece to rhetoric's decline in the early Christian era. Special emphasis on Plato, Aristotle, Cicero, and Quintilian. Offered occasionally. *Prereq:* CMST 010 and 154; or cons. of instr.

**CMST 157. Modern Rhetorical Theory and Criticism** 3 sem. hrs.

Discusses contemporary theoretical and critical approaches to the description, analysis, interpretation, and evaluation of public discourse. Examines and applies principles established by such theorists as Kenneth Burke, Ernest G. Bormann, Chaim Perelman, and Stephen Toulmin, among others. Offered occasionally. *Prereq:* CMST 010 and 154; or cons. of instr.

**CMST 160. Rhetoric of Social Movements** 3 sem. hrs.

Examines the rhetoric of social change and methodologies for analysis and appraisal of social movement discourse. Rhetorical strategies will be traced through contemporary movements including: civil rights, feminism, Native American, anti-nuclear, abortion, gun control, Ku Klux Klan, and others. Offered occasionally. *Prereq:* CMST 010, 154; or cons. of instr.

**CMST 165. Ethics in Human Communication** 3 sem. hrs.

Explores theoretical and practical ethical questions of importance to responsible communicators in personal and public contexts. Discussion of ethical theories in communication studies will provide an opportunity to explore case studies and contemporary communication dilemmas critically, while heightening personal sensitivity to the underlying ethical implications of human communication. Offered occasionally.

**CMST 166. Freedom of Speech** 3 sem. hrs.

Examines definitions, issues, problems, and requirements for protecting or curbing free expression of speech in areas such as defamation and invasion of privacy; religious-moral heresy; provocation to anger; commercial speech; time, place, manner and institutional constraints; and prior restraint. Analysis of landmark cases and contemporary public arguments. Offered occasionally.

**CMST 167. Communication and the Legal Process** 3 sem. hrs.

This course focuses on the role of communication in the American legal system. The course is designed to acquaint students with the various dimensions of communication in the practice of law with a particular emphasis on the trial process. Offered occasionally.

**CMST 168. Independent Project in Communication Studies** 1-3 sem. hrs.*Prereq:* Cons. of unit coord.**CMST 170 Communication and Urban Families** 3 sem. hrs.

This course investigates communication about urban families, the communication links between urban families and institutions, and communication practices within urban families. The course emphasizes the diversity among urban families as well as the stressors and strengths found in the urban context. Offered occasionally.

**CMST 193. Internship in Communication****Studies** 1-3 sem. hrs.

Internship in Communication and Rhetorical Studies provides students with the opportunity to apply theories, skills, and techniques in communication as believed appropriate within specific organizational settings. Performance in this course is assessed using S/U grades. *Prereq:* CMST 010, 012, 052, 053, and three upper division CMST credits and cons. of unit coord.

**CMST 194. Special Institute/Workshop/Project** 1-3 sem. hrs.**CMST 195. Independent Study in****Communication Studies** 1-3 sem. hrs.Offered every semester. *Prereq:* Cons. of unit coord.**CMST 196. Seminar in Communication Studies** 1-3 sem. hrs.

Special subjects of seminar to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally.

**CMST 199. Senior Thesis** 1-3 sem. hrs.

The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq:* Cons. of unit coord.

## JOURNALISM (JOUR)

*Professor:* Griffin*Professors Emeritus:* Bovee, Helbert,

Staudacher

*Lucius W. Nieman Professor:* Klug*Lucius W. Nieman Professor Emeritus:* Leonard*Associate Professors:* Scotton, Thorn*Assistant Professor:* Garner*Lecturers:* Dineen, Feyrer, Gill, Gillespie,

Harvey, Jones, Kane, McNeal, Mueller, Perlick,

Richard, Salsini, Whitehead

**JOUR001. Practicum in Student****Publications** 1 sem. hr.

Under faculty direction, students work in Student Publications. Assignments in writing, editing, and production. Guest speakers from mass communication fields. Offered every semester. S/U grade assessment.

**JOUR 008. Information Gathering and Media Writing** 3 sem. hrs.

Factual writing in types and forms of news and news features for print and broadcast. Principles of news selection, newsroom organization, newsgathering, and reportorial responsibilities. Reporting techniques and fact verification. Readings in outstanding reportage. Offered every semester. *Prereq:* ENGL001 and 002; or equivalent.

**JOUR 010. Reporting for Media** 3 sem. hrs.

Extensive practice in gathering, evaluating, and writing news from beats, interviews, meetings, speeches and other sources. Emphasis on interviewing, both face to face and by telephone. Verification, multiple sources, and backgrounding. Responsibilities of the journalist. Offered every semester. *Prereq:* ADPR 008 or JOUR 008.

**JOUR 020. Basic Photography** 3 sem. hrs.

Introduction to basic black-and-white photography, including different camera formats, lenses, films, photographic papers, natural

and artificial lighting. Instruction and practice in developing and printing. Emphasis on principle of composition. Lecture and laboratory. Offered every semester. Camera rental optional.

**JOUR 100. Publications Editing** 3 sem. hrs.

Editing principles and practices for newspapers, magazines, brochures and on-line publication. Students work on stories and articles suitable to each medium, write headlines, crop photographs, etc. News judgment and wire services. Offered every semester. *Prereq:* JOUR 010 or ADPR 180 or ENGL 104 or Jr. stndg.

**JOUR 110. Persuasive Writing** 3 sem. hrs.

An advanced writing course giving the student directed practice in the work of moving readers to assents and to acts according to the principles of Aristotle's rhetoric as they apply to the instruments and techniques of Journalism. Offered every semester. *Prereq:* JOUR 010 or equivalent and Jr. stndg.

**JOUR 111. Article Writing** 3 sem. hrs.

Writing features for news media. Human interest factors, literary devices, and news media feature markets. Offered every semester. *Prereq:* JOUR 010 or equivalent; and Jr. stndg.

**JOUR 112. Critical Writing** 3 sem. hrs.

An advanced writing course giving the students understanding and directed practice in the arts criticism function in the mass media. Reviewing books, plays, films, television, music, restaurants primarily for print media. Development of critical theories for evaluation of the arts. Offered annually. *Prereq:* JOUR 010 or equivalent; and Jr. stndg.

**JOUR 113, 114. Writing Workshop 1 and 2** 2 or 3 sem. hrs.

Practice in literary production worthy of publication; close personal direction with group discussion of choice, treatment, and organization of subject matter and group criticism of manuscripts. Field projects in specialized reporting under the supervision of practicing specialists. Restricted to students with experience in writing for publications. Offered occasionally. *Prereq:* Jr. stndg.

**JOUR 115. Journalism as Literature**

3 sem. hrs.

Study of major British and American literary works which have been produced by journalists. Contribution of journalists to literary developments in U.S. and Britain. Offered occasionally. *Prereq:* Jr. stndg.

**JOUR 120. Photojournalism** 3 sem. hrs.

Intermediate black-and-white photography course, emphasizing the special demands of shooting for publications. Photo assignments on technical principles and wide range of journalistic applications. Caption writing and picture editing included. Also requires shooting and editing short and extended photo essays. History of photojournalism discussed, along with legal and ethical questions photojournalists must face. Offered every semester. Camera rental optional. *Prereq:* JOUR 020 or consent of unit coord.; and Jr. stndg.

**JOUR 121. Advanced Photojournalism**

3 sem. hrs.

An advanced black-and-white photography course concentrating on building a portfolio. Studio work and street shooting included. Legal

and ethical issues discussed. 35mm camera/ lenses required. Offered annually. *Prereq: JOUR 120 or consent of unit coord.; and Jr. stndg.*

**JOUR 125. Principles of Visual Communication** 3 sem. hrs.

The bases of perception and visual literacy and the historical development and impact of the visual media. Intended to enhance critical sensitivity toward the use of visuals for informative, interpretive, and persuasive communication. Twentieth-century visual communication emphasizing photography, graphic design and typography. Satisfies college fine arts requirement. Offered annually. *Prereq: Jr. stndg.*

**JOUR 150. Newspaper Design and Production** 3 sem. hrs.

Fundamentals of newspaper design and production. Students develop design skills and familiarity with design elements through study and execution of various newspaper design problems. Offered annually. *Prereq: JOUR 100. Computer Workshop or demonstrated proficiency on the Macintosh computer with QuarkXPress.*

**JOUR 151. Magazine Design and Production** 3 sem. hrs.

Fundamentals of magazine design and production. Students develop understanding of basic elements of publication design and critical skills through analysis of various design problems. Offered annually. *Prereq: JOUR 100. Computer Workshop or demonstrated proficiency on the Macintosh computer with QuarkXPress.*

**JOUR 155. News and Information Design** 3 sem. hrs.

Fundamentals of designing news and information content in visual forms for publications and web pages. Visual components of newspaper "packages;" charts, graphs, cartoons for statistical data; web page and online information design. Principles of digital imaging. Students work on design problems related to visual presentation of information in newspaper, magazine, and web page formats. Offered annually. *Prereq: JOUR 100 or ADPR 143; and Jr. stndg. Computer Workshop or demonstrated proficiency on the Macintosh computer with QuarkXPress.*

**JOUR 160. Mass Media and the American Family** 3 sem. hrs.

The impact of the mass media on family communication patterns, familial value structures, development of children, and orientation to news and news media. Examination of news, advertising, and entertainment content from educational, cultural, and economic perspectives. Emphasis on empirical social science research which examines relationships between media and families. Offered annually. *Prereq: Jr. stndg.*

**JOUR 162. International Mass Communication** 3 sem. hrs.

History of and comparison among present structures of national media systems and the role of journalism within them. Principles of international news flow, gatekeeping, impact of technology, and relationship between developed and developing countries. Exploration of various models of press-government relationships. Offered fall semester. *Prereq: Jr. stndg.*

**JOUR 163. History of American News Media** 3 sem. hrs.

The origin and development of Journalism in the United States considered in relation to American political, social and economic history. Consideration of newspapers, magazines, the electronic media, and important figures within each field. Offered annually. *Prereq: Jr. stndg.*

**JOUR 164. Introduction to Survey Research Methods** 3 sem. hrs.

Study of the principles, techniques, and problems in designing, conducting, and analyzing scientific research which employs a questionnaire or interview schedule. Major topics: study design, conceptualization, item construction, sampling, data collection, reliability and validity of measurement, analysis and interpretation of data. Knowledge of statistics helpful. Offered occasionally. *Prereq: Jr. stndg., MATH 060 or SOCI 060, or PSYC 060 recommended but not required.*

**JOUR 166. Mass Communication in Society** 3 sem. hrs.

Exploration of the major social research perspectives on the roles, performance, uses and effects of mass communication. Background in the theoretical and policy issues which give rise to the research. Introduction to social science research methods used to study mass communication, and how to judge the value of those methods. Offered annually. *Prereq: Jr. stndg.*

**JOUR 167. Race and Gender Issues in MassMedia** 3 sem. hrs.

Surveys the past and present relationship between women and racial and ethnic minorities in the United States and the mass media. Specifically, the issues of how women and people of color are portrayed in the news and entertainment media, the role of ownership, employment and access to the media institutions will be studied. Women's studies elective. Offered annually. *Prereq: Jr. stndg.*

**JOUR 168. Independent Project in Journalism** 1-3 sem. hrs.

*Prereq: Cons. of unit coord. and Jr. stndg.*

**JOUR 171. Urban Journalism** 3 sem. hrs.

Study of, and practice in, mass media coverage of the urban environment. Scope and types of publications in the modern metropolis. Demographics, education, political structures, real estate, transportation, economics, legal systems, lifestyles, and other aspects of the urban experience as reported in the mass media. Offered alternate years. *Prereq: JOUR 175 or BREC 147; and Jr. stndg.*

**JOUR 172. Religious Journalism** 3 sem. hrs.  
Study of, and practice in, mass media coverage of contemporary religion with an emphasis on the Catholic Church. Purposes and practices of religious publications; religion coverage in the secular press. Offered alternate years. *Prereq: JOUR 175 or BREC 147; and Jr. stndg.*

**JOUR 173. Health, Science and Environmental Journalism** 3 sem. hrs.

Study of and practice in communication of health, science, environmental, and risk information with the public and other non-experts, especially through mass, specialized and new media. Includes overview of some current issues. Available for graduate credit. Usually

offered spring semester of odd-numbered calendar years. *Prereq: JOUR 175 or BREC 147; and Jr. stndg.*

**JOUR 174. Business and Economic Journalism** 3 sem. hrs.

Study of, and practice in, mass media coverage of business and economic issues. Survey of business publications and business reporting; economic publications and economic reporting. Corporate reports, forecasting, market information, and other publicized data. Management, labor, and other corporate problem areas. Offered alternate years. *Prereq: JOUR 175 or BREC 147; and Jr. stndg.*

**JOUR 175. Public Affairs Reporting** 3 sem. hrs.

Analysis of the community with a view to the problems and opportunities for the public affairs reporter. Practice in reporting the political, public, administrative, financial and commercial, labor, social, welfare, and educational affairs of the community. Offered every semester. *Prereq: JOUR 010, POSC 020, Jr. stndg; or cons. of instr.*

**JOUR 177. Computer-assisted Reporting** 3 sem. hrs.

Advanced reporting strategies focusing on interpretation and analysis of trends, issues, events, and special problems. Emphasis on use of computers to investigate and research public records and to analyze data for depth reports. Offered annually. *Prereq: JOUR 175 or BREC 147; and Jr. stndg.*

**JOUR 178. Media Management** 3 sem. hrs.

Survey of major functional units of media corporations. Concentration on advertising, audience, promotion and research functions, but also a review of the news-editorial operations. Offered occasionally. *Prereq: Jr. stndg.*

**JOUR 181. Political Communication and the Mass Media** 3 sem. hrs.

Modern political communications techniques, including the proper relationship of communicators to mass media; planning effective electronic, print and direct communications in election and citizen legislative campaigns; uses and limitations of polling and conventional public relations; and the role of communications specialists in the political and governmental processes. Offered occasionally. *Prereq: POSC 020, Jr. stndg.*

**JOUR 185. School Publications** 3 sem. hrs.

The special nature and functions of school publications. Their educational value. Projects in planning publications to fit their nature and functions. The role of the publication adviser. Lecture and laboratory. Offered occasionally. *Prereq: JOUR 010 or BREC 045 or equiv., Jr. stndg.*

**JOUR 193. Internship in Journalism** 0-3 sem. hrs.

Work experience in an area related to major supervised by an approved professional coupled with related academic work assigned. Approval of adviser and Internship Program Director required in advance of internship. May not substitute for a Journalism writing requirement. May be taken more than once to a maximum of three total credits only by majors within the dept. S/U grades. *Prereq: Cons. of unit coord., Jr. stndg.*

**JOUR 194. Special Institute/Workshop/  
Project** 1-3 sem. hrs.

*Prereq: Jr. stndg.*

**JOUR 195. Independent Study in Journalism**  
1-3 sem. hrs.

Offered every semester. *Prereq: Cons. of unit coord., Jr. stndg.*

**JOUR 196. Seminar in Journalism**  
1-3 sem. hrs.

Specific subjects of seminars to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally. *Prereq: Jr. stndg.*

**JOUR 197. Special Topics in Journalism**  
3 sem. hrs.

Study of, and practice in, various areas of specialized work such as regional, small community, union, organization journalism, and the special interest press. Offered occasionally. *Prereq: JOUR 175 or BREC 147; and Jr. stndg.*

**JOUR 199. Senior Thesis** 1-3 sem. hrs.  
The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of unit coord., Jr. stndg.*

## PERFORMING ARTS (PEAR)

*Artistic Director:* Ravel

*Associate Professor:* Price

*Assistant Professor:* Bruno

*Adjunct Associate Professor:* Krajec

*Adjunct Assistant Professors:* Campbell, Devlin

*Adjunct Lecturer:* Hunt-Frank, Kilmurry, Purse-Wiedenhoeft

*Lecturers:* Contorno (Director of Bands/Orchestra), Ross, Wutz

## Dance (DANC)

**DANC 038. Disciplines of Movement**  
2 sem. hrs.

Introduction to movement disciplines like Alexander, Feldenkrais, and Tai Chi for performers. Training geared toward relaxation, loss of inhibition, and ease of flexibility

**DANC039. Theatre Dance** 2 sem. hrs.  
Basic musical theatre dance techniques for actors and dancers. Movement and dance training geared toward developing an individual's movement potential to its fullest ideal. A study of various techniques of musical comedy dance and traditional dance forms. Offered every other year.

**DANC 040. Tap Dance 1** 2 sem. hrs.  
Emphasis will be placed on fundamental tap dance techniques. No previous tap dance needed. Offered every fall.

**DANC 041. Tap Dance 2** 2 sem. hrs.  
Continuation of DANC 040. Offered occasionally. *Prereq: DANC 040; or equivalent.*

**DANC 042. Beginning Dance Technique 1**  
2 sem. hrs.

Emphasis will be placed on fundamental modern and jazz techniques. No previous dance needed. Offered every fall.

**DANC 043. Beginning Dance Technique 2**  
2 sem. hrs.

Continuation of DANC 042. Offered every spring. *Prereq: DANC 042; or equivalent.*

**DANC 050. Composition: Improvisational Sources** 3 sem. hrs.

The examination of improvisational techniques and structures from a dance/movement perspective. The course is a combination of practical and analytical perspectives of improvisational movement. *Prereq: Cons. of instructor.*

**DANC 111. Staging Musical Productions**  
2 sem. hrs.

Advanced staging techniques for theatre and dance. *Prereq: DANC 039 and 041; or equivalent.*

**DANC 194. Special Institute/Workshop/  
Project** 1-3 sem. hrs.

**DANC 195. Independent Study in Dance**  
1-3 sem. hrs.  
Offered every semester. *Prereq: Cons. of artistic dir.*

**DANC 196. Seminar in Dance** 1-3 sem. hrs.  
Specific subjects of seminars to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally.

**DANC 199. Senior Thesis** 1-3 sem. hrs.  
The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of artistic dir.*

## Film (FILM)

**FILM 110. History of Film** 3 sem. hrs.  
Traces the development of film as a distinctive mode of communication and an important art form within societal and theoretical contexts. Particular emphasis on films and the film industries of the United States and Europe. Offered annually.

**FILM 111. Issues in Film Studies** 3 sem. hrs.  
Intensive examination of a topical issue in film. Specialized focus changes but may include issues such as women in film, minorities in film, regional or national films, auteur studies, genre studies, etc. Topics announced in *Timetable of Classes*. Offered occasionally.

**FILM 115. Film as Communication**  
3 sem. hrs.  
Nature and characteristics of the film medium as a means of conveying information, ideas and attitudes. The interpretation of film messages. Offered alternate spring semesters.

**FILM 116. Film as Art** 3 sem. hrs.  
Study and evaluation of film as an art-form. The various theories of cinematic excellence and aesthetics. A critical approach to film in all its contemporary forms and genres. Offered alternate spring semesters.

**FILM 117. Film and Popular Culture**  
3 sem. hrs.  
Study of popular culture and its varied categories (myths, stereotypes, icons, heroes, etc.) applied to contemporary American movies and to some other popular entertainment, including television, radio, music and print. Impact of

popular media on society, culture and values. Offered occasionally.

**FILM 118 Economic and Social Aspects of Film** 3 sem. hrs.

Examines the economic structure of the film industry, the effect that this structure has on themaking and content of motion pictures, and the affect of motion picture content on viewers, particularly children and young adults. Offered occasionally.

**FILM 166. The Documentary Film Tradition**  
3 sem. hrs.

Study of the documentary film in America and Europe, covering most of the significant films and styles, including Lumiere, Flaherty, Grierson, the propaganda films of the Thirties and Forties, the compilation film, Wiseman, Ophuls and contemporary direct cinema. The "reality films" viewed and discussed touch on most of the personal and social problems of the 20th century. Course subtitle to be announced in the *Timetable of Classes*. Offered occasionally.

**FILM 194. Special Institute/Workshop/  
Project** 1-3 sem. hrs.

**FILM 195. Independent Study in Film**  
1-3 sem. hrs.  
Offered every semester. *Prereq: Cons. of unit coord.*

**FILM 196. Seminar in Film** 1-3 sem. hrs.  
Specific subjects of seminars to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally.

**FILM 199. Senior Thesis** 1-3 sem. hrs.  
The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of unit coord.*

## Music (MUSI)

**MUSI 010. University Chorus** No credit  
Open to all students who qualify through auditions held during fall registration week. At least one concert per semester. Offered annually. *Prereq: Audition.*

**MUSI 015. Chamber Choir** No credit  
A 16-voice ensemble performing madrigals and jazz selections. Performs in concert with other MU ensembles at special functions. Singers skilled in sight-singing and in foreign languages encouraged to audition. *Prereq: Audition.*

**MUSI 016. Gospel Choir** No credit  
Open to all students who qualify through audition held during fall registration week. Offered annually. *Prereq: Audition.*

**MUSI 020. Symphony Orchestra—Theatre Orchestra** No credit  
Open to all students, faculty, and alumni interested in continuing their music pursuits. All orchestra instrumentation and skill levels are welcome. Literature will be selected from all periods of music history. Performance will include at least one formal concert per semester. Some university owned instruments are available. Offered every semester.

**MUSI 030. Symphonic Band** No credit  
Open to all students interested in continuing their musical pursuits. All symphonic band instrumentation and skill levels are welcome. Annual fall audition is held for chair placement only. No one is denied admission. Pep band members will be recruited from the symphonic band. Performances will include all home basketball games (for pep band) and at least one formal concert each semester (for symphonic band). Literature for symphonic band will be selected from all periods of music history while pep band literature will include appropriate high energy arrangements representing all areas of pop, rock and jazz. There are also possibilities of organizing ensembles for more playing experience, depending on interest and time. Some university owned instruments are available. Offered every semester.

**MUSI 031. Jazz Ensemble** No credit  
Open to all interested members of the symphonic band and orchestra. Literature to include hits from the big band swing era through current jazz standards. Currently there are two complete jazz ensembles on campus rehearsing at 4 p.m. and 7 p.m. on Tuesdays. Performances include at least one formal concert per semester. Offered every semester.  
*Prereq: Concurrent enrollment in either MUSI020 or MUSI 030.*

**MUSI 050. Introductory Music Theory**  
2 sem. hrs.  
An introductory course designed for the non-music major who wishes to learn the fundamentals of musical notation, scale construction, intervals, chords, the writing of elementary harmonic progression, and basic techniques of traditional harmony. Offered every semester.

**MUSI 051. Appreciation of Music**  
2 sem. hrs.  
An introductory course designed for the nonmusic major who wishes to develop musical perception through the development of more acute listening techniques, and structured to emphasize elements of musical style and their development in an historical context. Offered every semester.

**MUSI 052. Wind Band History and Analysis**  
2 sem. hrs.  
History of the wind band in America from the American Revolution to modern times. Deals with early influences on the band as well as with those individuals who popularize this medium of performance. Included will be structural analysis of pieces written specifically for the wind band. Offered every semester. *Prereq: Membership in Symphonic Band (MUSI 030), or cons. of instr.*

**MUSI 060. Vocal Music Practicum** 0 sem. hr.  
Private vocal techniques includes sight reading, correct phrasing and good tone, the rudiments of music, vocal scales. Advanced vocal techniques will include repertoire from European arts songs, operatic arias, and musical theatre. May be taken more than once. A maximum of 4 credits can apply toward graduation. Offered every semester. *Prereq: Theatre majors only.*

**MUSI 115. The Phonograph Record and Popular Culture** 3 sem. hrs.  
An examination of the history of the record industry from Edison to stereo. Technology,

distribution systems and the development of a mass "popular" market. A study of the record as a medium of in-group and mass communications, socialization, and culture transmission. Elements of basic discography. Offered occasionally.

**MUSI 152. History of the Musical in America**  
3 sem. hrs.  
Origins and development of the musical theatre in America from its early beginnings before The Black Crook (1866) to the production of the current Broadway season. Offered occasionally.

**MUSI 154. History of Jazz** 3 sem. hrs.  
Traces the colorful history of Americas unique contribution to music, jazz, from its roots in African and European music of the nineteenth century to the fully-developed and many-faceted art form it is today. Many recorded musical examples and first-hand interviews highlight the lectures. Offered annually.

**MUSI 194. Special Institute/Workshop/Project** 1-3 sem. hrs.

**MUSI 195. Independent Study in Music**  
1-3 sem. hrs.  
Offered every semester. *Prereq: Cons. of unit coord.*

**MUSI 196. Seminar in Music** 1-3 sem. hrs.  
Specific subjects of seminars to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally.

**MUSI 199. Senior Thesis** 1-3 sem. hrs.  
The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of unit coord.*

## Theatre Arts (THAR)

**THAR 001. Orientation to Theatre Studies**  
1 sem. hr.  
Emphasis will be on dissemination of information which will prepare the student for success as a theatre major/minor, and will enable the student to receive the most beneficial educational experience possible. Topics include: department expectations regarding classes, laboratories, auditions, rehearsals and performances as well as research strategies and library services for theatrical courses and productions. Other areas covered include: internship and summer theatre opportunities, career planning including graduate school, resume and self promotion, as well as professional unions, equity contracts and organizations. S/U grading assessment. Offered fall semesters.

**THAR 010. Acting 1—Fundamental Technique** 3 sem. hrs.  
Basic stage technique for the beginning actor, including blocking, use of the setting, and analysis and illustration of units. Introduction to the terminology of the modern actor and the concepts of Constantin Stanislavsky. Offered every fall. *Prereq: Theatre major or cons. of artistic dir.*

**THAR 011. Acting 2—Characterization**  
3 sem. hrs.  
A continuation of the work begun in THAR010; refinement of the script analysis and research for the actor as well as exploration of the physical self in creating and developing a character

for the stage through scene and monologues. Offered spring semester of even numbered years. *Prereq: THAR 010.*

**THAR 012. Make-Up** 2 sem. hrs.  
The fundamental techniques of stage makeup through using a variety of materials and exercises. Usually offered in fall.

**THAR 016. Stagecraft** 3 sem. hrs.  
The basic techniques of stagecrafts including construction of scenery and props, painting and rigging, lighting and running of shows. Labrequired. Offered every fall.

**THAR 023. Basic Costume Technology**  
3 sem. hrs.  
Primary costuming techniques. Emphasis on obtaining a working knowledge of skills necessary to construct theatrical costumes. Includes hand and machine sewing as well as some costume crafts. Students apply skills to mainstage productions. Offered every fall. Lab required.

**THAR 026 Voice and Movement for Stage**  
3 sem. hrs.  
Study of the foundational aspects of voice production through movement; linking of the actor's vocal, physical and emotional resources through text and sound. Movement exercises to free, develop and strengthen the voice; study and practice of relaxation, projection and resonance, breath control, variety and vibration. Offered fall semester.

**THAR 028 Voice and Speech** 1 3 sem. hrs.  
Continued work on vocal relaxation and production with an added concentration on removing regionalism and substandard sounds and acquiring clear, unaffected vibrant speech for the stage. Offered spring semester. *Prereq: THAR 026.*

**THAR 030. Acting 3—Contemporary Drama**  
3 sem. hrs.  
Acting techniques for realistic drama, generally written since 1870. Emphasis on ensemble work, motivation, character traits, observation of real life models, illustration of contemporary social issues. Offered every fall semester. *Prereq: THAR 011.*

**THAR 031. Acting 4—Period Plays**  
3 sem. hrs.  
Acting for period plays written prior to 1870. Exploration of our major periods of drama: Ancient Greece, Elizabethan England, Continental comedy and Restoration (comedy of wit); research methods to combine character exploration, decorum of upper classes and *comedia dell'arte* stock characters. Offered every spring semester. *Prereq: THAR 011.*

**THAR 050. Theatre Appreciation** 3 sem. hrs.  
Introduces the student to the experience of theatre and seeks to give an understanding of theatrical history and practices, and a deepening appreciation of theatre as an art. Offered every semester.

**THAR 051. Acting for Non-Theatre Majors**  
3 sem. hrs.  
Developing individual skills through the use of theatre games, improvisation, and scene study. Development of critical knowledge of and appreciation for the theatrical performer. Offered every semester.

**THAR 052. Play Analysis 1** 3 sem. hrs.

Analyzes tragedy and comedy. Emphasis on performance, drama theory, and historical context of plays. Offered fall semester.

**THAR 118. Basic Design** 3 sem. hrs.

Design fundamentals for the stage. Script analysis, research, the development and testing of design ideas. Basic rendering techniques. Lab work required. Offered every spring. *Prereq: THAR 016 or cons. of instr.*

**THAR 120. Lighting Design** 3 sem. hrs.

Study and practice of theatrical lighting. Script analysis, research, planning techniques. Summary of basic electricity, standard stage/studio equipment. Offered fall semester of odd numbered years. *Prereq: THAR 016 or cons. of instr.*

**THAR 121. Crafts for the Theatre** 3 sem. hrs.

A techniques course that encompasses traditional and new materials which may be used in special projects often encountered in the creation of props and costumes. Includes casting and molding, thermoplastics, mask making, foam carving, jewelry, armor, etc. Offered spring semester, even numbered years.

**THAR 122. Costume Design** 3 sem. hrs.

Study of both the aesthetic and practical application of costume design and how it relates to the theatrical production process. Usually offered every spring of odd numbered years.

**THAR 123. History of Clothing and Costumes 1** 3 sem. hrs.

The study of clothing from the historical perspectives. Clothing examined within sociological, artistic, and economic contexts. Clothing regarded as essential to every culture, studied for a better understanding of peoples in different cultures and epochs. Offered every spring.

**THAR 124. Advanced Costume Techniques** 3 sem. hrs.

Course covers advanced methods of costuming such as beginning pattern drafting, basic tailoring techniques, fabric modification through dyeing and painting, millinery, and costume crafts construction. Offered spring of even numbered years. *Prereq: THAR 023 or cons. of instr.*

**THAR 125. History of Clothing and Costumes 2** 3 sem. hrs.

History of 19th and 20th century dress. Offered occasionally.

**THAR 126. Play Direction** 3 sem. hrs.

The principles of play direction as a creative and interpretative art on the stage. Offered every fall. *Prereq: THAR 010 or 051.*

**THAR 127. Scenery Design** 3 sem. hrs.

Study of the principles and practices of designing scenery for the stage. Offered fall semester of even numbered years. *Prereq: THAR 118 or cons. of instr.*

**THAR 128. Advanced Play Direction** 3 sem. hrs.

Study of interpretative styles of play direction, rehearsal techniques, audience analysis, and contemporary trends. Opportunity to test principles in assigned laboratory productions. Offered occasionally. *Prereq: THAR 126 or cons. of instr.*

**THAR 129. Period Styles** 3 sem. hrs.

Period movements as they relate to period clothing, decorative arts, architecture, music, etc., as they relate to different styles of theatrical performance and apply to actors, directors and designers. Offered occasionally

**THAR 130 Voice and Speech 2** 3 sem. hrs.

Continued voice and speech work which builds upon the previous two classes and includes strengthening contact with the emotional impulse of linking the actor's voice and speech to both contemporary and classical texts. Elements of interpretation which combine voice and speech work including: scansion, phrasing, emphasis, pauses, pitch, range, quality, concentration and rhythm. Note: This class is structured to meet as a class for the first half of the semester and as individual tutorials for the second half. Offered fall semester. *Prereq: THAR 028.*

**THAR 132. Acting 5—Professional Auditions and Career Preparation** 3 sem. hrs.

Designed to prepare students for professional auditions. Emphasis is placed on appropriate material selection, analysis and arrangement of material and developing a repertoire of audition pieces. Also lectures on the business end of the profession. Offered fall semester. *Prereq: THAR 030 or THAR031.*

**THAR 134 Musical Theatre Practicum** 3 sem. hrs.

The Musical Theatre Practicum is the continued development of the students' singer/actor skills. The course centers on the creation of a musical revue for public performance. The performance will integrate acting, vocal and movement skills developed in beginning and intermediate courses. Offered spring semester. *Prereq: Consent of the Artistic Director.*

**THAR 136 Voice—Dialects** 3 sem. hrs.

Study and practice of phonetics and commonly used stage dialects including: Standard English, Cockney, Irish, American, Southern, Brooklynese and French. Offered spring semester. *Prereq: THAR 130.*

**THAR 140. Playwriting** 3 sem. hrs.

Study of the structure and execution of dramatic scripts for theatre. Assignments to write and analyze scenes and one act plays. Offered occasionally

**THAR 150. History of Theatre** 3 sem. hrs.

A chronological survey of theatre history from its origins to the present. Particular emphasis paid to major periods of theatrical achievement, studying conjectural and documented styles in acting, design and production methods. Offered spring semester.

**THAR 152. Play Analysis 2** 3 sem. hrs.

Analyzes melodrama, farce, reactions against realism, social comedy, and theatre of the absurd. Similar content emphases as THAR 052. Offered spring semester.

**THAR 153. Contemporary Theatre** 3 sem. hrs.

A survey of 20th century theatre practice from modern European theories of the late 19th century through Postmodernism. Special attention given to innovative aspects, such as surrealism and expressionism, epic theatre, the absurd movement, multi-media presentations, environmental theatre and the like. Offered occasionally

**THAR 160. Theatre Publicity and Management** 3 sem. hrs.

Study and practice of Theatre Management and Publicity. Offered occasionally.

**THAR 168. Independent Project in Theatre Arts** 0-3 sem. hrs.

Offered every semester. *Prereq: Cons. of artis - tic dir.*

**THAR 170. Principles and Methods of Teaching Theatre Arts** 3 sem. hrs.

Investigation of methods used in teaching Theatre Arts. Offered occasionally. Equivalent to EDUC 122 for THAR Education majors and minors. *Prereq: Admission to the School of Education and EDUC 121.*

**THAR 193. Internship in Theatre Arts** 0-3 sem. hrs.

Performance in this course is assessed using S/U grades. *Prereq: Cons. of artistic dir.*

**THAR 194. Special Institute/Workshop/Project** 1-3 sem. hrs.**THAR 195. Independent Study in Theatre Arts** 1-3 sem. hrs.

Offered every semester. *Prereq: Cons. of artis - tic dir.*

**THAR 196. Seminar in Theatre Arts** 1-3 sem. hrs.

Specific subjects of seminars to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally.

**THAR 199. Senior Thesis** 1-3 sem. hrs.

The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of artistic dir.*

# School of Education

Professional sequences in the School of Education emphasize both the theoretical and practical dimensions of the teaching profession. Study about teaching is combined with actual observation, tutoring, teaching and other clinical-laboratory experiences. Undergraduate courses in elementary and secondary education meet the Wisconsin requirements for certification as teachers. Beyond this, each student's academic program must include a major besides education to meet the degree requirements in their college.

Educational programs in the Graduate School are designed for both researchers and practitioners who wish to meet Wisconsin certification requirements for administrators, school psychologists, school counselors, reading teachers and specialists, and curriculum and supervisory personnel. All graduate concentrations blend theoretical study with practicum and field experiences where such experiences are appropriate.

In keeping with the objectives of Marquette University itself, a major purpose of the School of Education is to prepare teachers and other educational specialists who typify the high ethical and intellectual qualities of the university. Programs are based on the Jesuit ethos of *cura personalis*, care for the whole person. This characteristic of Jesuit education has been expanded to include three components of care: care for person, care for knowledge and care for profession. A major mission of the School of Education, therefore, is to train and educate individuals for school settings who care for themselves and others, who care to develop the necessary knowledge to be effective educators, and who care for their own professional formation in order to become competent educators.

---

## DEGREES OFFERED

Undergraduate degrees are earned through the academic college in which the student's major department is located. Thus the major and core requirements of that college must be met and the academic standards of that college maintained. The School of Education provides the professional course sequences, recommends for certification, and administers admission and retention in its programs and clinical experiences.

The degrees of master of education, doctor of education, and master of arts and doctor of philosophy with concentrations in education are offered by the School of Education through the Marquette University Graduate School. It also offers the master of arts in teaching degree for students of Spanish and the specialist certificate in four areas. Details for these programs are contained in the *Graduate School Bulletin*.

---

## ADMISSION REQUIREMENTS

Students interested in the Teacher Education Program must apply for admission into the School of Education through the Office of Teacher Education. The admission and retention requirements at Marquette University meet the requirements established by Wisconsin's Department of Public Instruction. While students do not meet the requirements until their sophomore year, they are advised to apply as early as their freshman year.

### ADMISSION

Students must meet the following requirements to be admitted into the Teacher Education Program:

- achieve a cumulative quality grade point average (Q.P.A.) of 2.500,
- complete a minimum of 40 credits of undergraduate course work,
- obtain passing scores on the Praxis I Academic Skills Test,
- complete Education 008, Introduction to Schooling, with a grade of C or better,
- place on file a long-range program plan in the Office of Teacher Education,
- a minimum grade of C in the following core or general education requirements:
  - 1) the six credits of English composition—ENGL 001 and 002 or their equivalents,
  - 2) six credits of math and/or computer science, and 3) the two- or three-credit oral communication requirement. (No appeal will be allowed; retakes will be required for courses with less than a C grade.).

Applications for admission to program are reviewed once each term and once during the summer. Students who do not meet the state mandated 2.500 Q.P.A. requirement can apply and appeal for admission under the 10 percent rule provided the remaining three requirements have been met. Further, students who do not achieve passing scores on all three components of the Praxis I assessment (after a minimum of two attempts) can appeal admission under the 10 percent rule providing the remaining three requirements have been met. The state allows each institution to admit up to 10 percent of its students who have not achieved the required quality point average or passed the Praxis I assessment.

### RETENTION

Students must retain a cumulative quality point average of 2.500 after they are admitted to the program. The Wisconsin Department of Public Instruction requires that students achieve a 2.750 Q.P.A. in their major, minor, and professional education sequence to be licensed. The School of Education does not count courses with a grade of CD or lower to meet the course requirement in the professional education sequence. Courses with these grades must be repeated. Anyone with questions related to admissions or retention should contact the Office of Teacher Education. While the admission requirements apply to all students, the School of Education reserves the right to deny admission or retention to students who demonstrate non-professional behavior.

---

## ACCREDITATION

The School of Education is a member of the American Association of Colleges for Teacher Education. All programs are accredited by the North Central Association and by the state of Wisconsin. Undergraduate programs are accredited by the National Council for Accreditation of Teacher Education.

### CERTIFICATION

The Wisconsin Department of Public Instruction approves the teacher preparation curricula offered by Marquette University. This approval includes the elementary education sequence, the secondary education sequence, and the 20 majors and 19 minors and certifications named in the following pages. A student who satisfactorily completes a teacher preparation curriculum at Marquette can be recommended for certification in Wisconsin. Completion of course work is a necessary but not sufficient condition for certification. The professional judgment of faculty, supervisors, and the director of Teacher Education enter into the final decision. A student must complete an application for certification and pay the required fee. Applications are available in the Office of Teacher Education, Schroeder Complex, 153.

*Changes required by the Wisconsin Department of Public Instruction and state law are ongoing. These changes may require revision of the programs of study and the certification procedures described on the pages which follow.*

A student who plans to teach in a state other than Wisconsin should recognize that reciprocal certification agreements with other states change from time to time. The student should write directly to the department of education of the state involved, requesting a copy of the certification requirements of the state and application procedures for licensure. If specific certification courses other than those required for Wisconsin are noted, such courses should be elected by the student during the junior and senior years. Students are also encouraged to discuss other state certification requirements with the coordinator of Advisement and Field Placements.

Certification levels available to Marquette students are: elementary (1-6), elementary/middle (1-9), middle/secondary (6-12) and secondary (9-12). Students should check with the Office of Teacher Education as to the requirements and availability of each level for the different majors/minors at Marquette University.

---

## CLINICAL EXPERIENCES

Education students participate in clinical experiences with public and private schools in the Milwaukee area. The Department of Public Instruction requires a minimum of 100 hours to be completed prior to student teaching. Of these, 50 hours must be in settings with students or adults with different backgrounds, including various ethnic groups. Marquette's program exceeds the minimum requirements of the state with specific hours being assigned to various courses. Students must meet Marquette's requirement.

---

## FACILITIES

### THE CENTER FOR TEACHING EXCELLENCE

The Center for Teaching Excellence is dedicated to serving the educational needs of the broader professional community by offering expertise and assistance to the community's educators. The purpose of the center is to provide for the career-long learning for educators. The center offers high-quality professional development to prepare and support educators to help all students achieve high standards of learning and development.

### EDUCATION RESOURCES CENTER

The School of Education maintains an Education Resources Center in Schroeder Complex, 199. Collections of the ERC include sample curriculum guides from many cities and states; sample copies of elementary and secondary school textbooks; pamphlet material related to problems in teaching; audio-visual material and equipment; sample educational computer software which includes word processing programs; and other items related to teaching and learning. Adjoining the ERC is the Education computer room (198) which houses Apple microcomputers, an IBM/PC computer with access to the Internet, VAX terminals, and printers. Material in the ERC may be used by any student in the university with priority for the needs of students enrolled in the School of Education. Throughout the year the ERC sponsors exhibits and programs open to students and others.

The ERC provides instructional programs in the use of media for all elementary/secondary students.

### THE INSTITUTE FOR THE TRANSFORMATION OF LEARNING

Dr. Howard Fuller, distinguished professor of education, created the Institute for the Transformation of Learning to foster a fundamental change in the way Americans acquire skills and participate in a democratic society. The institute began programming in January 1996 and is rapidly becoming a national forum for research, discussion and advocacy. While national in focus, the institute's activities will have an immediate and lasting impact in Milwaukee. The institute's three primary objectives and activities are to support educational transformation, to undertake quality research and to increase neighborhood-based support for children's education in Milwaukee.

## PARENTING CENTER

The Parenting Center offers outreach training and services to the community on parenting young children. The center is supported by the School of Education. The center sponsors classes for parents, conducts workshops/training for agency personnel who work with parents, and provides other parent/child services. The center also conducts research on parenting and offers a course on parenting to undergraduate and graduate students. The Parenting Center is located in the William and Evelyn Krueger Parent and Child Care Center at 749 N. 17th Street.

## THE RALPH C. HARTMAN LITERACY AND LEARNING CENTER

The Hartman Literacy and Learning Center is a facility within the School of Education which supports undergraduate and graduate related literacy-related programs. The center library houses a children's literature collection which is used by School of Education students as well as children and families participating in the Marquette University Family Literacy Project, a collaboration between the university and three neighborhood elementary schools. Students enrolled in EDUC 160 (Practicum in Reading) participate in the Family Literacy Project by tutoring small groups of children in reading and writing after school. The Hartman Literacy and Learning Center provides faculty and staff to support and conduct research regarding the project.

---

## STUDENT ORGANIZATIONS

In 1982, the School of Education organized the Marquette University Student Education Association. In 1996 the organization became affiliated with the Wisconsin Education Association and is now the Marquette University Student Wisconsin Education Association. This association is for students in elementary and secondary teacher preparation programs. It sponsors a variety of programs designed to enhance the professional preparation of prospective educators.

A chapter of Phi Delta Kappa, national professional association for men and women in education, was established at Marquette in 1970.

---

## BACKGROUND CHECKS, DRUG TESTING

Some degrees, majors and/or courses may require a student to submit to a criminal background check and/or drug testing. The results of those checks and/or tests may affect the student's eligibility to continue in that degree, major and/or course.

---

## CURRICULA INFORMATION

### ELEMENTARY TEACHER PREPARATION (Grades 1–6)

The elementary education program leads to a teaching license for grades 1 through 6. Students who wish to expand the 1–6 license to grades 1–9 must complete the elementary education requirements discussed in this section as well as the middle-level education requirements discussed in the following section. Students selecting the elementary education program complete the following components: (1) the core requirements for the college of their major with the inclusion/addition of specific State mandated general education requirements, (2) an academic major, and (3) the professional education course sequence. Students must also meet the School of Education's admission and retention requirements.

STUDENTS WHO INTEND TO COMPLETE A TEACHER-PREPARATION PROGRAM THROUGH THE MARQUETTE SCHOOL OF EDUCATION ARE STRONGLY ADVISED TO CONTACT THE OFFICE OF TEACHER EDUCATION AS EARLY AS POSSIBLE TO AVOID DELAYS IN THEIR PROGRAM.

#### (1) CORE REQUIREMENTS AND

##### STATE MANDATED GENERAL EDUCATION REQUIREMENTS

Students intending to complete an elementary teacher-preparation program through the Marquette School of Education must meet the core curriculum requirements of their college and also Wisconsin state teacher-certification general education requirements. By completing the

following, students will meet core curriculum and teacher-certification general education requirements.

#### COMMUNICATION REQUIREMENT

Elementary education majors in the College of Arts and Sciences must complete either COMM 012 or CMST 010. Elementary education majors in the College of Communication must complete CMST 010.

#### ENGLISH REQUIREMENT

Elementary education majors must complete ENGL 001 and 002 for a minimum of six credit hours, unless placed directly into ENGL 002 or beyond by recommendation of the Department of English.

#### FOREIGN LANGUAGE (FOLA) REQUIREMENT

Elementary education majors in the College of Arts and Sciences must demonstrate competency in a foreign language through the intermediate college level—FOLA 004 or 010 (0-14 credits). Elementary education majors in the College of Communication must demonstrate competency in a foreign language through the elementary level—FOLA 002 (0-8 credits).

#### HISTORY/SOCIAL-BEHAVIORAL SCIENCE REQUIREMENT

Elementary education majors must complete HIST 001, 002, 006, and POSC 020.

#### LITERATURE AND FINE ARTS REQUIREMENT

Elementary education majors must complete one three-credit course in literature, either English or foreign language (original or translation). EDUC 110 and 120 are accepted for the other course in literature. EDUC 100 is accepted for the Fine Arts requirement.

#### MATHEMATICS-LOGIC-COMPUTER REQUIREMENT

Elementary education majors must complete MATH 030, 031 and 032. A logic course cannot fulfill a math requirement for teacher certification.

#### NATURAL SCIENCE REQUIREMENT

Elementary education majors must complete: (1) both ARSC 010 and ARSC 011 or (2) both PHYS 009 and BIOL 002 and a third science course of at least two credits.

#### PHILOSOPHY REQUIREMENT

Elementary education majors must complete PHIL 050, 104, EDUC 158 and one three-credit elective PHIL course. Students in the College of Communication must also complete PHIL 001. Some Arts and Sciences majors require a specific philosophy course which would complete the four-course philosophy requirement.

#### THEOLOGY REQUIREMENT

Elementary education majors must complete THEO 001 and one second-level course (THEO 100–119) and one-third level theology course (THEO 120–199) in this sequence.

### **(2) AN ACADEMIC MAJOR**

The School of Education has identified the following academic majors from which students may choose to meet Marquette graduation requirements and state certification minor requirements:

- Broad-field science
- Communication studies (speech)
- English
- French
- German
- History
- Interdisciplinary major in social sciences
- Mathematics
- Spanish
- Theatre arts

#### INTERDISCIPLINARY MAJOR IN SOCIAL SCIENCES (INSS)

Students pursuing the INSS must complete all the following courses: ANTH 101, 110, ECON 020 or 043, EDUC 048, SOCI 001, HIST 006, POSC 020. Students must also complete nine credit hours of course work from a list of recommended electives. Six of the nine hours must be upper division credit.

### (3) PROFESSIONAL EDUCATION SEQUENCE

To be eligible for an elementary (1-6) teaching license, students must complete the following courses in Education: EDUC 008, 030, 040, 048, 078, 088, 100, 110, 120, 130, 140, 158, 160, 170 and 180. Students must check with their advisers in the School of Education as to sequence and admission requirements. Normally, student teaching (EDUC 180) is the last course to be completed in a student's program. Students must apply to take EDUC 180 by Friday of the third week of the term prior to the term they plan to student teach.

Students who complete the professional education sequence earn an education major.

### ELEMENTARY TEACHER PREPARATION CURRICULUM, GRADES 1-6 AND SUGGESTED TERM SCHEDULE

This schedule is set up for four-year completion WITH SUMMER SCHOOL INCLUDED. A variety of summer courses are usually available; however, attention must be given to majors and course sequence needs. Without summer school, a NINTH term will be needed for student teaching.

<i>Year One</i>			
FIRST TERM	SEM. HRS.	SECOND TERM	SEM. HRS.
ENGL 001 .....	3	ENGL 002. ....	3
ARSC 010. ....	4	ARSC 011 .....	4

EDUC 180 (student teaching). ....	8-12		
	8-12		

NOTES: (1) Elementary ACADEMIC MAJORS normally require a total of 10 courses. Most include at least one course that is also a core requirement. (2) The 1-9 licensure extension also requires EDUC 128 and possibly a special methods course if not already taken.

## MIDDLE LEVEL TEACHER PREPARATION

Students working toward the Elementary Teacher Preparation program (grades 1-6) or the Secondary Teacher Preparation program (grades 9-12) have the option of extending their licenses to the middle school level. Elementary level students can extend their licenses to grades 1-9 and secondary level students can extend their licenses to grades 6-12. To be eligible for the middle school extension, students must meet the admission and program requirements for the elementary or secondary teacher preparation programs as well as the following:

- complete EDUC 128,
- student teach at the middle school level as well as the elementary or secondary level (EDUC 176 or 181) in the same term as the elementary or secondary student teaching experience,
- complete advanced methods course in each certification major and minor area.

Students interested in the middle school extension program should contact the Office of Teacher Education.

## SECONDARY TEACHER PREPARATION (9-12)

The secondary education program leads to a teaching license for grades 9 through 12. Students who wish to expand the 9-12 license to grades 6-12 must complete the secondary education requirements discussed in this section as well as the middle-level education requirements discussed in the previous section. Students selecting the secondary education program complete the following components: (1) the core requirements for the college of their major with the inclusion/addition of specific State mandated general education requirements, (2) at least one teaching major (a second teaching major or teaching minor(s) are possible and encouraged), and (3) the professional education course sequence. Students must also meet the School of Education's admission and retention requirements.

STUDENTS WHO INTEND TO COMPLETE A TEACHER-PREPARATION PROGRAM THROUGH THE MARQUETTE SCHOOL OF EDUCATION ARE STRONGLY ADVISED TO CONTACT THE OFFICE OF TEACHER EDUCATION AS EARLY AS POSSIBLE TO AVOID DELAYS IN THEIR PROGRAM.

### (1) CORE REQUIREMENTS AND

#### STATE MANDATED GENERAL EDUCATION REQUIREMENTS

Students intending to complete a secondary teacher-preparation program through the Marquette School of Education must meet the core curriculum requirements of their college and also Wisconsin state teacher-certification general education requirements. By completing the following, students will meet both core curriculum and teacher-certification general education requirements.

#### COMMUNICATION REQUIREMENT

Secondary education majors in the College of Arts and Sciences must complete either CMST 010 or 012. Secondary education majors in the College of Communication must complete CORS 010.

#### ENGLISH REQUIREMENT

Secondary education majors must complete ENGL 001 and 002 for a minimum of six credit hours, unless placed directly into ENGL 002 or beyond by recommendation of the Department of English.

#### FOREIGN LANGUAGE (FOLA) REQUIREMENT

Secondary education majors in the College of Arts and Sciences must demonstrate competency in a foreign language through the intermediate college level FOLA 004 or 010 (0-14 credits). Secondary education majors in the College of Communication must demonstrate competency in a foreign language through the elementary level FOLA 002 (0-8 credits).

#### HISTORY/SOCIAL-BEHAVIORAL SCIENCE REQUIREMENT

Secondary education majors must complete HIST 001, 002, and POSC 020. EDUC 078 is accepted as a social-behavioral science course.

#### LITERATURE AND FINE ARTS REQUIREMENT

Secondary education majors must complete two three-credit courses in literature, either English or foreign language (original or translation). Secondary education majors must complete one fine arts course for a minimum of two credits. Four terms of non-credit music courses (MUSI 010, 016, 020, 030, and/or 031) will waive the two credit fine arts requirement.

#### MATHEMATICS-LOGIC-COMPUTER REQUIREMENT

Secondary education majors must complete two math courses or a math course and a computer science course. Math courses must be at the appropriate level for their college to fulfill core curriculum requirements. A logic course cannot fulfill a math requirement for teacher certification.

#### NATURAL SCIENCE REQUIREMENT

The state requires applicants for certification in broad field science with any minor and broad field social science with any social sciences teaching major to complete environmental science as well as life science and physical science. Applicants for certification in other majors need both life science and physical science, but not necessarily environmental science. Secondary education majors meet all three requirements by completing (1) both PHYS 009 and BIOL 002 or (2) both ARSC 010 and ARSC 011.

## PHILOSOPHY REQUIREMENT

Secondary education majors must complete PHIL 050, PHIL 104, EDUC 158 and one three-credit PHIL elective in the College of Arts and Sciences. Students in the College of Communication must also complete PHIL 001. Some Arts and Sciences majors require a specific philosophy course which would complete the four-course philosophy requirement.

## THEOLOGY REQUIREMENT

Secondary education majors must complete THEO 001 and one second-level course (THEO 100–119) and one-third level theology course (THEO 120–199) in this sequence.

### (2) AT LEAST ONE TEACHING MAJOR

The state approved teaching majors and minors at Marquette have been cooperatively developed by the School of Education and other colleges and departments of the university. All students working toward secondary teacher certification must complete at least one teaching major. The current available teaching majors are:

- |                |                                  |
|----------------|----------------------------------|
| • Anthropology | • Broad field science            |
| • Chemistry    | • Communication studies (speech) |
| • English      | • French                         |
| • German       | • History                        |
| • Journalism   | • Latin                          |
| • Mathematics  | • Philosophy                     |
| • Physics      | • Political science              |
| • Psychology   | • Religious studies              |
| • Spanish      | • Sociology                      |
| • Theatre arts |                                  |

Students can earn and are encouraged to earn certification in a second teaching major area and in one or more minor areas. A secondary teaching minor requires a minimum of 22 credit hours. Teaching minors are available in all the major areas listed with the exception of French, German, Spanish, broad field science and broad field social science. Teaching minors are also available in bilingual/ bicultural education (Spanish), biology, computer science and economics. A minor in a science subject must be accompanied by a major in another science subject with one exception. A teaching minor in physics may be accompanied by a teaching major in mathematics.

### (3) PROFESSIONAL EDUCATION SEQUENCE

To be eligible for a secondary (9-12) teaching license, students must complete the following courses in education: EDUC 008, 048, 078, 088, 095, 125, 135, 158, and 175, and the advanced methods course in their teaching major(s) and minor(s) areas (CMST 121, EDUC 145, 155, 165, ENGL 190, FOLA 162, MATH 137, PHIL 180, THAR 170). Students must check with their advisers in the School of Education as to sequence and admission requirements. Normally, student teaching (EDUC 175) is the last course to be completed in the student's program. Students must apply to take EDUC 175 by Friday of the third week of the term prior to the term they plan to student teach.

Students who complete the professional education sequence earn an education major.

## SECONDARY TEACHER PREPARATION CURRICULUM, GRADES 9-12 AND SUGGESTED TERM SCHEDULE

Students are strongly advised to contact the Office of Teacher Education very early in their program.

Advanced Methods (clinical) .....	3		
	18		11-15

ONE TEACHING MAJOR normally requires a total of 12 courses plus the appropriate advanced methods course. broad field science and math are exceptions to that. The broad field social science teaching license extension is strongly recommended with a teaching major in the social sciences. Many majors include two courses that are also core requirements.

For the 6-12 licensure extension, students must also include EDUC 128.

#### **BROAD FIELD SCIENCE TEACHING MAJOR WITH TEACHING MINORS IN BIOLOGY, CHEMISTRY OR PHYSICS**

Students who complete the program may be employed to teach:

- 1) general science courses through grade nine with the exception of biology, chemistry, earth, physical or space science in grades 10 through 12.
- 2) biology, chemistry, or physics (their minor area)

Interested students should see the chairs of biology, chemistry or physics and the director of Teacher Education or designee.

A student completing all of the course work earns a broad field science teaching major and a teaching minor in his or her science area of study. Also, those who complete the broad field science program may earn licensure in any of the three science areas with a minimum of 15 credits through Wisconsin's Department of Public Instruction.

Courses common to all the broad field science majors are: BIOL 001, 002 or 004, and BIOL 090; CHEM 001, 002, 023, and 024; PHYS 008 and 009; and PHIL 130.

In addition:

*biology minors take:* BIOL 100, 125, 135, 170 and PHYS 001 and 002, and COSC 050 and MATH 073 or 080.

*chemistry minors take:* CHEM 110 and an upper division chemistry elective of at least 2 credits, BIOL 100 and 125, PHYS 001 and 002, and COSC 050, and MATH 073 OR 080.

*physics minors take:* PHYS 001 and 002, or 003 and 004, 104, 114, 124, 155, and 107 or any upper division elective for at least 3 credits, and MATH 080 and 081.

#### **SPECIAL NOTE ON BROAD FIELD SOCIAL SCIENCE TEACHING LICENSE EXTENSION**

To broaden career opportunities, students are encouraged to examine the broad field social science teaching license extension. It includes courses in economics, history, political science, psychology, anthropology, and sociology. The student completes a 34-36 credit teaching major in an approved social science area and completes seven courses in the other social science disciplines. Students must check with the Office of Teacher Education regarding specific course

options. Those who complete this program earn a Wisconsin certification in their teaching area and in broad field social sciences, and this enables one to teach “fusion” courses such as civics, vital issues, contemporary problems and social problems. Also, those who complete the broad field social sciences program may earn licensure in any other social science area with a minimum of 9 credits in that area beyond their major through Wisconsin’s Department of Public Instruction.

## BILINGUAL/BICULTURAL MINOR ELEMENTARY/SECONDARY

### ELEMENTARY SCHOOL TEACHER—SECONDARY SCHOOL TEACHER

An increasing number of school districts are establishing bilingual programs for Spanish-speaking students who will study in both Spanish and in English. These students will need teachers who are certified as bilingual elementary/secondary teachers.

In addition to regular elementary and secondary teacher certification those who choose this program will complete a *minor* in bilingual/bicultural curriculum and demonstrate aptitude for and proficiency in Spanish to the satisfaction of the Marquette Spanish faculty.

Students may explore the opportunity to meet some of the requirement through attending the Xalapa Summer Program (see the Department of Foreign Languages and Literatures).

The special program adviser for this bilingual/bicultural minor is the director of teacher education or designee.

## HEALTH PROFESSIONS INSTRUCTOR: POST-SECONDARY CERTIFICATE: DENTAL HYGIENE/CLINICAL LABORATORY SCIENCE

Students who are enrolled in dental hygiene or clinical laboratory science programs or who are graduates of such programs may apply for admission to the program leading to the certificate for post-secondary instructor in these programs. The certificate program is directed toward assisting those who seek teaching positions as instructors in those professions. Toward that end, a professional education background and initial practicum experiences are offered to assist the development of pre-service instructors in dental hygiene and clinical laboratory science at the post-secondary level.

With the recommendation of the director of the health profession, those who wish to join this program must enroll in the School of Education. Information on that procedure can be obtained from the chair of dental hygiene, the chair of clinical laboratory science or in the Office of Teacher Education, Schroeder Complex, 153. Earning this certificate depends upon the successful completion of the following courses: EDUC 078, 109, 125 (or PSYC 103, 121, or 122), 126, 158 and DEHY 189 or METE 189.

## COACHING CERTIFICATION

Students enrolled in a teaching program in the School of Education may seek to enhance their job opportunities by enrolling for a teaching certificate in coaching. The Marquette teaching certificate in coaching is approved by the Department of Public Instruction of Wisconsin.

Some students, whether or not enrolled in the School of Education, may find enrolling in several courses attractive to their personal or professional development. The following courses are required for the coaching certificate: EDUC 063, 064, 066, 067, 068, 072, 073, 077.

For Wisconsin licensing in athletic coaching (Grades K-12), 16 hours of coursework are required as well as an elementary or secondary teaching license. Those interested in licensing in coaching in states other than Wisconsin are urged to seek information concerning specific requirements from those states.

# COURSE DESCRIPTIONS

(Coaching Certification courses are listed separately at the end.)

Dean and Professor: Hoy

Professors: Collins, Fox, Leslie, Tagatz

Distinguished Professor: Fuller

Distinguished Scholar: Elleman

Professor Emeriti: Dupuis, Ivanoff, Nordberg, Thompson

Associate Professors: Augenstein, Bardwell, Taft

Assistant Professors: Allen, Behnke, Campbell,

Cepelka, Fisher, Kurimay, Schweizer

Director of Teacher Education: Platz

Coordinator of Advisement and Field

Placements: Seitz

Visiting Lecturers: Brenner, Hill, Hinchcliffe,

Leigh, Mattek, Matthews, Merten, Miller,

Peterburs, Riordan, Schmidt, Thomas, Whipp

\*For those courses marked with an asterisk, a two- to three-hour time block between 8 a.m. and 3 p.m. one day each week must be kept free for the required clinical experience if there is no lab section in the *Schedule of Classes*. Mornings are preferred.

## EDUC 008. Introduction to Schooling\*

3 sem. hrs.

A team-taught experience providing an overview of the professional sequence emphasizing the school as an institution, family-culture, school community, curriculum, learners, learning, human relationships, and teaching as a profession. Clinic lab experiences required. Offered every semester.

## EDUC 030. Elementary Level Methods

3 sem. hrs.

General methods of teaching elementary/middle school students; management, planning, evaluation, materials and media; and parent/community relations. Instructional practice will take place in clinical settings and through simulations. Offered every semester. *Prereq: Application to the School of Education required; EDUC008; must be taken concurrently with EDUC 040.*

## EDUC 040. Teaching Elementary Level Health and Physical Education

3 sem. hrs.

Curriculum, strategies, and techniques for teaching health and physical education at the elementary and middle level grades. Offered every semester. *Prereq: Application to the School of Education required; EDUC008; must be taken concurrently with EDUC 030.*

## EDUC 048. Introspectives in Diversity: Knowledge and Teaching in a Multicultural Society

3 sem. hrs.

Overview and study of human relations and the historical, psychological, social and academic implications of racism and sexism in a culturally pluralistic society. Offered every semester.

## EDUC 078. Psychology of Human Development and Learning\*

3 sem. hrs.

Application of psychological principles of human growth, development, and learning. Cognitive, psycho-motor, and affective characteristics of learners. Methods of child study, patterns, and sequences of development and

interpersonal and group relationships. Offered every semester. *Prereq: Recommended to be taken concurrently with EDUC 088; required clinical lab experience.*

## EDUC 088. Exceptional Children and Youth\*

3 sem. hrs.

Major areas of disability including mental retardation, learning disability and emotional disturbance; topics include characteristics, assessment, intervention/teaching strategies, and research; clinical/laboratory experience in various learning settings available. Open to all students in the university. Offered every semester. *Prereq: Recommended to be taken concurrently with EDUC 078; required clinical lab experience.*

## EDUC 095. Secondary Level Methods\*

3 sem. hrs.

General principles of secondary teaching methods; relationships of philosophy, curriculum and objectives to the selection of appropriate methods. Techniques of planning, evaluation and self-appraisal of classroom activities. Analysis of traditional methods and current trends and innovations such as lecture, discussions, Socratic questioning recitation, inquiry, discovery and media usage. Clinical experience required. Offered every semester. *Prereq: Application to the School of Education required; EDUC 008; and EDUC 078 or equivalent; required clinical lab experience.*

## EDUC 100. Teaching Elementary Level Fine Arts

3 sem. hrs.

Curriculum, strategies, and techniques for teaching elementary school art and music content and appreciation are covered. Simulations activities will be included. Offered every semester. *Prereq: Application to the School of Education required; EDUC 030.*

## 102. Principles of Peer Facilitation Among College Students

3 sem. hrs.

Theoretical, research, and applied principles of peer facilitation among college students. Includes theories of student development and leadership development; values clarification; principles of effective communication and methods to encourage an appreciation for individual differences within a diverse student population, as applied in a Catholic, Jesuit, urban university. *Prereq: Cons. of instr.*

## EDUC 104. Parenting and Family Issues

3 sem. hrs.

Theoretical, research, and applied topics in parenting. Parenting infants through adolescents. Includes family communication systems, child and adolescent development, cultural childrearing practices, intergenerational parenting, legal issues, parenting exceptional children, and current topics.

## EDUC 106. Mental Health in the Classroom

2 sem. hrs.

Relationship of mental hygiene to teaching and learning in the classroom. Offered occasionally. *Prereq: EDUC 078 and Jr. stndg.*

## EDUC 109. Measurement in Education

3 sem. hrs.

An orientation to history and development of the testing movement, selection and administration of tests, principles of classroom test construction, and interpretation of test results. Offered occasionally.

## EDUC 110. Teaching Elementary Reading, Language Arts and Literature 1\*

4 sem. hrs.

Teaching reading, language arts, and literature from a developmental perspective for the lower elementary levels. Emphasis on developing the relationship among the three areas. Offered fall semester. *Prereq: Admission to the School of Education required; EDUC 030; required clinical lab experience.*

## EDUC 120. Teaching Elementary Reading, Language Arts and Literature 2\*

4 sem. hrs.

Teaching reading, language arts, and literature from a developmental perspective for the upper elementary levels. Emphasis on developing the relationship among the three areas. Offered spring semester. *Prereq: Admission to the School of Education required; EDUC 030, EDUC 110; required clinical lab experience.*

## EDUC 125. Secondary Reading in the Context Areas\*

3 sem. hrs.

Nature and development of reading skills necessary for effective learning at all levels. Methods and materials the teacher can use in the classroom setting to improve reading skills in all content areas. Offered fall semester. *Prereq: Application to the School of Education required; EDUC 095; required clinical lab experience.*

## EDUC 128. Teaching at the Middle School Level\*

3 sem. hrs.

General history, foundations and strategies for teaching at the middle school level. Offered every semester. *Prereq: Admission to the School of Education required; EDUC 030 or 095; required clinical lab experience.*

## EDUC 130. Teaching Elementary Level Social Sciences

3 sem. hrs.

Curriculum development, instructional strategies and techniques for teaching elementary social studies with emphasis on world human relationships. Includes preparation of materials, evaluation techniques, micro-teaching. Offered fall semester. *Prereq: Application to the School of Education required; EDUC 030.*

## EDUC 135. Teaching Communication Skills in the Secondary Schools\*

3 sem. hrs.

An examination of the interrelationship of writing, speaking, and listening as learning strategies in the content areas, and techniques for integrating literature across the curriculum. Offered spring semester. *Prereq: Admission to the School of Education required; EDUC 095, 125; required clinical lab experience.*

## EDUC 140. Teaching Elementary Level Science

3 sem. hrs.

Curriculum development and instructional strategies and techniques for teaching

elementary science. Includes preparation of materials, evaluation techniques, micro-teaching. Offered spring semester. *Prereq: Application to the School of Education required; EDUC 030.*

**EDUC 145. Teaching Secondary Level Social Sciences\*** 3 sem. hrs.

Application of teaching methods to social studies. Laboratory-clinical experiences in a secondary school setting are required. Students will study conservation and cooperatives. *Prereq: Admission to the School of Education required; offered fall only; EDUC 095.*

**EDUC 155. Teaching Secondary Level Sciences\*** 3 sem. hrs.

Application of teaching methods to physical science and the study of conservation of natural resources. Laboratory-clinical experiences in a secondary school setting are required. *Prereq: Admission to the School of Education required; offered alternate fall semesters only; EDUC 095.*

**EDUC 158. Philosophy of Education** 3 sem. hrs.

Exposition and discussion of important principles, methods and conclusions of various philosophies and their implications for education. Attention to professional ethics and emphasis upon students' development of their own philosophies of education. (This course satisfies 3 of the 12-credit core requirements in philosophy for students enrolled in and completing a teacher education program.) One section reserved for students in teacher education. Other sections open to all upper division students in the university. Offered every semester. *Prereq: PHIL 050.*

**EDUC 160. Practicum: Teaching Elementary Level Reading\*** 4 sem. hrs.

Supervised practical experience in the teaching of reading in small group settings. Seminars and class sessions included. Experience in administering reading tests, diagnosing, and remediating reading problems. Clinical experience required. Offered every semester. *Prereq: Admission to the School of Education required; EDUC 110, 120; required clinical lab experience; cons. of Office of Teacher Education.*

**EDUC 165. Strategies in Religious Education\*** 3 sem. hrs.

Application of current catechetical theory and educational strategies to present religious needs and practices. Curriculum objectives and evaluation. Analysis of instructional materials and other resources for teaching religion. Laboratory-clinical experiences in a school or other educational setting. Open to all upper division students in the university. Offered occasionally.

**EDUC 170. Practicum: Elementary Level Mathematics\*** 3 sem. hrs.

Supervised clinical experience in the teaching of mathematics. Seminar and class sessions also required. Experience in diagnosing and remediation of learning problems of children in mathematics. Clinical experience required. Offered every semester. *Prereq: Admission to the School of Education required; required clinical laboratory experience; cons. of Office of Teacher Education.*

**EDUC 175. Student Teaching: Secondary** 8-12 sem. hrs.

Full-day secondary school supervised student teaching Monday through Friday. Only EDUC 158 may be taken during the semester of this practicum. Regular on-site visitation by university faculty. Student must make application for student teaching during the first three weeks of the semester preceding the practicum. Students registering for 9 credits will write a research paper or conduct a project approved by their university supervisor. Each individual plan for 9 credits must be approved by the Director of Teacher Education. Offered every semester. S/U grade assessment. *Fee. Prereq: Admission to the School of Education required; advanced methods course(s); cons. of Office of Teacher Education.*

**EDUC 176. Student Teaching:**

**Middle/Secondary** 8-12 sem. hrs.

Full day, full semester of the public or private school student teaching Monday through Friday. EDUC 158 may be taken during the semester of this practicum experience. Regular on-site visits by university faculty. Student teaching is split: half of the semester at the middle school level and half of the semester at the secondary level. Students completing student teaching for 9 credits must complete an additional project approved by their university supervisor. Students must apply for student teaching three weeks into the semester prior to the semester they plan to student teach. Offered every semester. *Fee. S/U grade assessment. Prereq: Admission to the School of Education required; EDUC 128; advanced methods course(s); cons. of Office of Teacher Education.*

**EDUC 177. Student Teaching: Secondary Bilingual** 8-12 sem. hrs.

Full-day, full semester of the public or private school student teaching Monday through Friday. EDUC 158 may be taken during the semester of this practicum experience. Regular on-site visits by university faculty. Student teaching is split: half of the semester in an elementary level bilingual classroom and half of the semester in a regular elementary level classroom. Students completing student teaching for 9 credits must complete an additional project approved by their university supervisor. Students must apply for student teaching three weeks into the semester prior to the semester they plan to student teach. *Fee. S/U grade assessment. Prereq: Admission to the School of Education required; Advanced methods course(s); cons. of the Office of Teacher Education.*

**EDUC 180. Student Teaching: Elementary** 8-12 sem. hrs.

Full-day elementary school supervised student teaching Monday through Friday. Only EDUC 158 may be taken during the semester of this practicum. Regular on-site visitation by university faculty. Student must make application for student teaching during the first three weeks of the semester preceding the practicum. Students registering for 9 credits will write a research paper or conduct a project approved by their university supervisor. Each individual plan for 9 credits must be approved by the Director of Teacher Education. S/U grade assessment. Offered every semester. *Fee.*

*Prereq: Admission to the School of Education required; EDUC 160 and 170; cons. of Office of Teacher Education.*

**EDUC 181. Student Teaching:**

**Elementary/Middle** 8-12 sem. hrs.

Full day, full semester of the public or private school student teaching Monday through Friday. EDUC 158 may be taken during the semester of this practicum experience. Regular on-site visitation by university faculty. Student teaching is split: half of the semester at the elementary level and half of the semester at the middle school level. Students completing student teaching for 9 credits must complete an additional project while student teaching which must be approved by their university supervisor. Students must apply for student teaching three weeks into the semester prior to the semester they plan to student teach. Offered every semester. *Fee. S/U grade assessment. Prereq: Admission to the School of Education required; EDUC 128, 160, and 170; applicable advanced methods course(s); cons. of Office of Teacher Education.*

**EDUC 182. Student Teaching: Elementary Bilingual** 8-12 sem. hrs.

Full-day, full semester of the public or private school student teaching Monday through Friday. EDUC 158 may be taken during the semester of this practicum experience. Regular on-site visits by university faculty. Student teaching is split: half of the semester in an elementary level bilingual classroom and half of the semester in a regular elementary level classroom. Students completing student teaching for 9 credits must complete an additional project approved by their university supervisor. Students must apply for student teaching three weeks into the semester prior to the semester they plan to student teach. *Fee. S/U grade assessment. Prereq: Admission to the School of Education required; Advanced methods course(s); cons. of the Office of Teacher Education.*

**EDUC 185. Introduction to College Teaching in Health Sciences** 3 sem. hrs.

Curriculum planning, strategies; problems of teaching; evaluating clinical settings; examining critical incidents; task analysis; learning styles; other elements of effective college teaching in the health sciences. For students in the health professions. Offered occasionally.

**EDUC 187. Theory and Methods of Teaching Bilingual Learners in the Content Areas\*** 3 sem. hrs.

Emphasis on testing and evaluating abilities and needs of bilingual/bicultural learners and developing instructional strategies. Course component includes intensive clinical experience in bilingual elementary or secondary school. Secondary students to be placed in major subject area. *Admission to the School of Education required.*

**EDUC 188. Foundations of Bilingual/Bicultural Education** 3 sem. hrs.

Includes rationale, history, and survey of existing models. Emphasis on special problems of testing as it impacts on bilingual/bicultural education.

**EDUC 192. Reading Instruction for School Service Personnel** 3 sem. hrs.

Theories underlying the reading process are examined. Psychological, sociological and linguistic factors that influence the development of readers will be studied. Interrelationships of reading with writing and the other language arts and across all content areas will be investigated. In addition, study of the school-wide comprehensive reading and language arts curriculum will be included. *Prereq: Only for students in certification programs endorsed by the School of Education.*

**EDUC 195. Independent Study** 1-4 sem. hrs.  
Readings on a particular problem or subject of interest to the student. A paper must be completed for each problem studied. Offered every semester. *Prereq: Approval, Office of Teacher Education.*

**EDUC 198. Special Topic in Education**  
1-4 sem. hrs.

Special topics in education as identified in the *Timetable of Classes*. Offered occasionally.

## **COACHING CERTIFICATION COURSES**

**EDUC 063. Principles, Problems, and Psychology of Coaching** 2 sem. hrs.

Educational implications of sports. Rules, organization, equipment and ethics. Individual/social psychological attributes of athletes/coaches/programs. Use of psychology by coaches. Open to all students in the university.

**EDUC 064. Physiology of Exercise and Kinesiology** 2 sem. hrs.

Basic understanding of the reaction of the human body to exercise stress. The physiological basis of sports and recreational activities. Basic biologic concepts and the scientific basis of conditioning. Open to all students in the university.

**EDUC 066. Field Work in Coaching and Officiating**  
2 sem. hrs.

Experiences in assisting and coaching current sports activities. Principles, problems, and philosophy of coaching. Introduction to correct officiating skills and mechanics with a special emphasis on the knowledge of rules. Open to all students in the university. *Approval of Director of Teacher Education required. Grading on S/U basis.*

**EDUC 067. First Aid and Injury Prevention in Athletics** 2 sem. hrs.

Prevention and care of athletic injuries, taping, therapeutic treatments, and safe equipment. Open to all students in the university.

**EDUC 068. Medical Aspects of Athletic Coaching, Advanced First Aid/ CPR**  
2 sem. hrs.

A study of equipment, training, injury prevention, medical and safety problems, medical research. Emergency service for the injured and suddenly ill, advanced first aid and cardiopulmonary resuscitation. Open to all students in the university. *Prereq: EDUC 067.*

**EDUC 072. Theory and Practice in Coaching Individual and Dual Sports** 2 sem. hrs.

Principles and problems of coaching individual and dual sports. Major sports in these areas are reviewed. Open to all students in the university.

**EDUC 073. Theory and Practice in Coaching Team Sports** 2 sem. hrs.

Principles and problems of coaching team sports. All major team sports are reviewed. Open to all students in the university.

**EDUC 077. Scientific Basis for Conditioning and Skills Performance in Coaching**  
2 sem. hrs.

An overview of basic scientific concepts in anatomy, physiology, and kinesiology for assessing physical fitness status. The basic knowledge, understanding, and values of conditioning and training programs as they relate to physical fitness. Course requires selected physical activity. Open to all students.

# College of Engineering

The mission of the Marquette University College of Engineering is to prepare undergraduate and graduate students for successful careers based on a strong ethical and moral foundation, to advance the state of the art in engineering, to serve the professional and technical communities and to contribute to our global society.

These statements reflect the essential nature of the college. The motivation of the college centers about its desire to emphasize to the engineering community the intrinsic value of humankind and of the individuals who comprise it. This motivation flows directly from the fact that the college is an integral part of a Catholic, Jesuit university.

---

## DEGREES OFFERED

Marquette University confers the degree of bachelor of science in biomedical, civil, computer, electrical, industrial or mechanical engineering on those students who have satisfactorily completed one of the prescribed curricula in the majors within the biomedical, civil, electrical, industrial or mechanical engineering departments. Engineering students have the opportunity to earn a minor in another engineering field. Also, non-engineering students may earn a minor in a field of engineering.

The master of science degree is conferred upon recommendation by the Graduate School for candidates in biomedical, civil, electrical and mechanical engineering, and the doctoral degree is conferred on a college-wide basis. Details on the master's and doctoral programs are contained in the *Graduate School Bulletin*.

---

## MAJORS OFFERED

The College of Engineering is made up of four departments which offer the following majors: the Department of Biomedical Engineering with majors in bioelectronics and biomechanics; the Department of Civil and Environmental Engineering with a major in civil engineering; the Department of Electrical and Computer Engineering with majors in computer engineering, electrical and electronic engineering, and electrical and computer engineering; the Department of Mechanical and Industrial Engineering with majors in mechanical, manufacturing engineering, and engineering management.

---

## ACCREDITATION

The College of Engineering is a member of the American Society for Engineering Education. Accreditation by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology is held for biomedical, civil, electrical, industrial, and mechanical engineering curricula, including the cooperative education and evening programs.

---

## ADMISSION REQUIREMENTS

Applicants to the College of Engineering are expected to fulfill the admission requirements listed in the university section of this bulletin.

Engineering is mainly a mental occupation. High school preparation should include a thorough grounding in mathematics, including algebra, plane and solid geometry, and trigonometry. A thorough background in the physical sciences is essential. Since an engineer's success depends to a considerable extent on an ability to express him or herself, knowledge of English is necessary. Further, an engineer must have a desire to know the basic truths behind natural phenomena, a genuine interest in mathematical analysis, design, research, and development.

In addition to those units included in the general admission requirements, the following items should be noted for admission to the College of Engineering.

High schools title courses in various ways. The elements of algebra, geometry, and trigonometry, if included in a course of another title, will be acceptable. Furthermore, a year of advanced mathematics may be substituted for one-half unit of algebra and one-half of trigonometry. Four units of high school mathematics are expected for admission to the College of Engineering.

---

## GRADUATION REQUIREMENTS

The degree bachelor of science in biomedical, civil, electrical, industrial or mechanical engineering may be conferred on students who successfully complete a curriculum as prescribed for the degree, and who have satisfied the following requirements:

- A minimum of 32 hours of upper division course work must be completed at Marquette University. At least 15 hours must be either within the major or the required department courses shown in the senior year of the catalog showcase curriculum, whichever is greater.
- A cumulative C average or better in Marquette work.
- A cumulative grade average of C or better in all engineering courses.
- A minimum of 133 semester hours and 266 quality points.
- The completion of all required courses.
- Formal application for a degree filed in the dean's office no later than two weeks after the beginning of the candidate's last term.

## GENERAL DEGREE REQUIREMENTS

All candidates for a baccalaureate degree in engineering must complete requirements for one of the majors on the following pages:

- Department of Biomedical Engineering
  - Bioelectronics
  - Biomechanics
- Department of Civil and Environmental Engineering
  - Civil Engineering
- Department of Electrical and Computer Engineering
  - Computer Engineering
  - Electrical and Computer Engineering
  - Electrical and Electronic Engineering
- Department of Mechanical and Industrial Engineering
  - Mechanical Engineering
  - Engineering Management
  - Manufacturing Engineering

## THEOLOGY AND PHILOSOPHY REQUIREMENTS

All students must complete nine semester hours of theology/philosophy, taking at least one course in each category. PHIL 050 must be taken as the first philosophy course and THEO 001 as a first theology course. **Students are also required to have an ethics course included within their theology, philosophy, humanity/social science requirements.** Normally students will take an ethics course such as GEEN 120, PHIL 104, PHIL 190, PHIL 191 to complete their theology/philosophy requirements. However, theology and philosophy also can be used to fill the humanity/social science requirement as well. Please see your adviser or the engineering office if further clarification is needed.

## HUMANITIES/SOCIAL SCIENCES REQUIREMENTS

All students must complete nine semester hours of humanities/social sciences electives. Students are highly encouraged to select courses which will have intrinsic meaning to their program rather than a selection of unrelated introductory courses.

The following list of courses are known and allowed toward fulfilling the humanities-social science requirements for engineering curricula. New courses are listed in the *Timetable of Classes* on a regular basis, therefore, this list may not include every course that can satisfy this requirement at any given time. Note that some courses are offered with special permission only. This should be approved by the students adviser, department chair, and the dean's office.

### COLLEGE OF BUSINESS ADMINISTRATION

#### ECONOMICS (ECON)

- 043 Principles of Microeconomics
- 044 Principles of Macroeconomics
- 110 Intermediate Economic Analysis
- 126 American Economic History
- 133 Organization of American Industry
- 134 Public Policies toward American Industry
- 181 Economics and Ethics

### SCHOOL OF EDUCATION

#### EDUCATION (EDUC)

- 048 Introspectives in Diversity: Knowledge and Teaching in a Multicultural Society
- 102 Principles of Peer Facilitation Among College Students
- 078 Psychology of Human Development and Learning
- 158 Philosophy of Education

### COLLEGE OF ENGINEERING

- CEEN 190 Professionalism, Ethics and Management in  
Engineering Organizations (excluding BIOE, BIOM and ELCE majors)

### COLLEGE OF ARTS & SCIENCES

#### ENGLISH (ENGL)

- All courses except 102, 103, 104, 105 and 190

#### FOREIGN LANGUAGES

- 055, 056, 100 or higher courses may be taken (by qualified students) in literature, culture and civilization excluding 142, 162, 182 and 185

#### HISTORY (HIST)

- All courses

#### CRIMINOLOGY AND LAW STUDIES (CRLS)

- 051, 083, 151, 152, 157, 162, 163, 164, 167

#### MUSIC (MUSI)

- 051, 115, 152, 154

#### THEATRE ARTS (THAR)

- 050, 150

#### BROADCAST AND ELECTRONIC COMMUNICATIONS (BREC)

- by special permission only

#### COMMUNICATION STUDIES (CMST)

- by special permission only

#### FILM (FILM)

- by special permission only

#### JOURNALISM (JOUR)

- by special permission only

#### PHILOSOPHY (PHIL)

- All courses except PHIL 001 and 002

#### POLITICAL SCIENCE (POSC)

- All courses

#### PSYCHOLOGY (PSYC)

- All courses except 060, 161

#### SOCIOLOGY AND ANTHROPOLOGY (SOCI) (ANTH)

- All courses except SOCI 060, SOCI 104 and social work

#### THEOLOGY (THEO)

- All courses

---

## ACADEMIC REGULATIONS

Students in the College of Engineering are expected to comply with the academic requirements and regulations listed in the University section of this bulletin, along with all official dean's office regulations.

### ATTENDANCE

A.) Because absence from class will prevent a student from getting the full benefit of a course, and because in many courses each student's involvement contributes to the learning process for all other students in the class, attendance is mandatory for every exercise of a course in which a student is registered. Excessive absences may result in lower grades.

B.) Students registered in any course offered by the College of Engineering are bound by this attendance policy even if they are enrolled in another college, program, or division of the university. It is the responsibility of each student to know and follow the college's class attendance policy and any specific attendance regulations of his/her instructors.

C.) In the case of an emergency absence (prolonged absence from class due to illness or other personal emergency), a student must inform the engineering office, which will keep a written record of such cases and inform the relevant instructors. Normally, the college office will not keep a record nor take any action unless such absences extend for one week or longer.

### ACADEMIC LOAD

The academic load of a student is measured by credit hours assigned to each course. The normal engineering program varies from 15 to 18 credit hours per term.

Request for permission to exceed 20 credit hours must be submitted for approval prior to registration to the respective departmental chair on forms provided by the dean's office.

---

## SPECIAL ACADEMIC PROGRAMS

### THE COOPERATIVE EDUCATION PROGRAM

The Cooperative Education Program is an organized program integrating classroom work and practical work experience. Students in this program alternate periods of attendance at college with periods of employment in industry. The employment constitutes a regular, continuing, and desirable element in the educational process. It is related to some phase of the field of study in which the student is engaged and should be diversified in order to afford a range of experience. The objective is balanced training; the combination of theory and practical work experience during the early years of professional development.

The Cooperative Education Program (Co-op program) has been employed successfully at Marquette since 1919. For many years, the program was mandatory for all engineering students. Since 1946, however, participation in the program has been optional with at least 40 percent of the qualified students participating. Nationwide, there are over 200 colleges of engineering which conduct co-op programs in one variation or another and more than 900 schools, including all disciplines, which conduct recognized co-op programs.

At Marquette, all students spend the first two years in the conventional academic program. Those not electing to participate in the Co-op Program continue through their last two years on the same conventional program. Admission to the Co-op Program is conditioned by (1) the applicant's academic standing; (2) his/her general employability, possibly including United States citizenship; and (3) the number of openings made available by industry. It should therefore be regarded as a privilege to be sought after, one usually gained only by those best qualified.

Early in the sophomore year, interested students attend a sophomore orientation class, GEEN 003, to learn about the Co-op Program's policies and procedures and the placement process. They then apply to the Co-op Program and pursue co-op placement by submitting resumes and interviewing with prospective employers. Students who are hired by the co-op employers begin working during the summer or fall following completion of their sophomore year, or soon thereafter. The students participating in the Co-op Program are divided into three groups which alternate between school and work on a planned basis. Typically, more than 250 students are in the Co-op Program at any given time and they are employed with about 100 cooperating employers located in the Midwest and throughout the country.

## NORMAL CO-OP SCHEDULE

Freshman			Sophomore			Co-op Section	Junior			Pre-Senior			Senior			Approx. Total Work
	Fa	Sp	Su	Fa	Sp		Su	Fa	Sp	Su	Fa	Sp	Su	Fa	Sp	
	S	S	V	S	S	A	S	W	S	W	S	W	S	W	S	16 mos.
	S	S	V	S	S	B	W	S	W	S	W	S	W	S	S	15 mos.
	S	S	V	S	S	C	V	S	W	S	W	S	W	S	S	12 mos.

S=School V=Vacation W=Work Period

The approved training programs provide for rapid progress of the co-op student through the various phases of the firm's engineering processes, according to a planned schedule. The Co-op Program therefore gives the students an opportunity to combine their classroom learning with practical experience, it provides financial assistance to pay their education expenses, and it provides an orientation to both the world of work and career opportunities available. For the employers, the Co-op Program provides a ready-made training and recruitment program, it provides a good source of technical labor supply, and it promotes college relations.

Since the cooperative education program is considered an integral part of a student's education, the Co-op student is a full-time student at Marquette University; whether he/she is in school or at work. When the Co-op student is at work, he/she is subject to the rules of the company and under their direct supervision. Wages are paid directly to the student. The university does not employ the student but cooperates with industry in arranging such employment. The Co-op Program provides one credit hour for each work period successfully completed. The Co-op student is required to follow an especially arranged *Timetable of Classes* while in school so as to accommodate his/her alternating status (in school, at work, etc.) and assure that sequential courses are scheduled in proper order. This includes summer sessions as noted on the Normal Co-op Schedule. Registration for each work period is required of *all* Co-ops, and credit is established and graded through enrollment in the appropriate Co-op Grading Period during the following school period. Three credit hours earned via co-op work experience may be applied to Bachelor of Science degree requirements as a substitute for one technical elective course.

## PART-TIME STUDIES

Since 1949, the College of Engineering has offered its complete bachelor's degree programs, with the exception of the biomedical engineering majors, in the evening for part-time students. Except for one or two practical exceptions, the degree requirements for part-time students are identical to those for the full-time student. The part-time evening program is fully accredited by ABET and is the only such program in the state of Wisconsin wherein a student can complete his or her entire degree program by evening attendance.

Since many part-time students cannot, because of employment (and often family) responsibilities, carry more than two or three courses in any given semester, course offerings in the evenings are scheduled on a planned two- or three-year rotation basis, i.e., all required engineering courses are offered at least once every two years along with a general selection of technical electives. Day and evening engineering courses are open to non-degree students with the proper prerequisites who are interested in professional development. Non-engineering required courses, e.g. mathematics, physics, chemistry, et al, are offered regularly in the evening as are humanities/social sciences electives and other technical electives. See the section on the Part-time Studies Program in the front part of this bulletin for information.

## FIVE-YEAR COMBINED BS/MS PROGRAMS

Each of the departments in the College of Engineering at Marquette University offers programs which allow highly qualified students to complete a bachelor of science and master of science degree in five calendar years (six years for students enrolled in the Cooperative Education Program). By increasing course loads slightly in the junior year and/or by taking courses in the summer of the junior and/or senior years, qualified students may be able to complete the BS degree on schedule in four years and the MS degree at the end of five calendar years.

Students intending to pursue one of these programs should begin planning at the end of the sophomore year. Formal application to the program takes place during the second term of the junior year. See individual departments for details.

Students admitted to the Five-Year Combined BS/MS Program are eligible for graduate student financial aid (teaching and research assistantships and fellowships) beginning with the

second term of their senior year. Students interested in information should contact the appropriate department chair.

## THREE-YEAR BACHELOR OF SCIENCE DEGREE PLAN

A three-year plan for completion of the bachelor of science degree in engineering is available for all major areas. This plan incorporates an accelerated study plan that includes advanced standing credit and summer course offerings. Contact your department office to receive details.

---

## STUDENT ORGANIZATIONS

### COLLEGE ORGANIZATIONS

Engineering students are eligible for membership in the Engineering Association Council, composed of the elected officers of the Engineering Association and one member of the governing board of each activity, fraternal, honorary, and professional organization within the College of Engineering.

### PROFESSIONAL SOCIETIES

Student chapters have been established by the American Society of Civil Engineers, the Institute of Electrical and Electronics Engineers, the American Society of Mechanical Engineers, the SAE International, American Ceramic Society, ASM International, National Society of Black Engineers, the Society of Hispanic Professional Engineers, the Society of Women Engineers, the Institute of Transportation Engineers, the Institute of Industrial Engineers, the Society of Manufacturing Engineers, American Society for Quality Control, the Society of Photo-Optical Engineers and the Biomedical Engineering Society.

### PROFESSIONAL FRATERNITIES/SORORITIES

Students in the College of Engineering are eligible to join the following professional fraternities on campus: Sigma Phi Delta, international professional engineering fraternity; Triangle, national fraternity for engineers, architects, and scientists; and Alpha Omega Epsilon, professional engineering sorority.

### HONOR SOCIETIES

Engineering students are eligible for membership in the following engineering honor societies: Tau Beta Pi, all-engineering; Chi Epsilon, civil engineering; Eta Kappa Nu, electrical engineering; Pi Tau Sigma, mechanical engineering; and Alpha Eta Mu Beta, biomedical engineering. Each year, these societies award membership keys to men and women exhibiting high promise of success.

---

## BACKGROUND CHECKS, DRUG TESTING

Some degrees, majors and/or courses may require a student to submit to a criminal background check and/or drug testing. The results of those checks and/or tests may affect the student's eligibility to continue in that degree, major and/or course.

---

## CURRICULA INFORMATION

### DEPARTMENT OF BIOMEDICAL ENGINEERING

The Department of Biomedical Engineering offers curricula that leads to a bachelor of science degree in biomedical engineering.

#### MISSION

The mission of the Department of Biomedical Engineering is to provide its students with knowledge, leadership and communication skills, while fostering ethical and moral character, and compassion for the human condition. This knowledge, character, compassion and skills will

allow the students, as biomedical engineers, to respond to the scientific and technical needs of the medical and health care community and society at large.

Studies in biomedical engineering incorporate courses in biology, chemistry, mathematics, computers and engineering. These courses, in combination, emphasize the interdisciplinary elements of biomedical engineering not presently offered in the more traditional departments of engineering. A solid foundation in the mathematical, physical, and life sciences is necessary for the engineer to function effectively in a medically or biologically oriented problem solving environment. In this environment, the engineer needs to be able to communicate with physicians, to describe and model complex biological systems, to collect and analyze experimental or clinical data, to understand the capabilities and limitations of sophisticated instrumentation, and to understand the principles of design.

There are two majors in the biomedical engineering curriculum: bioelectronics and biomechanics. The bioelectronics major includes rigorous training in electrical engineering within the interdisciplinary framework of the curriculum. Such training, which includes courses in electric circuits and analog and digital electronics, supports interests focused on the measurement of bioelectric signals and biomedical instrumentation design. In the senior year, the culmination of the training features intensive biomedical instrument design and computer laboratories emphasizing modern bioelectric applications. In addition, a senior year capstone design course sequence places the student in a multidisciplinary design team situation to solve an actual industrial bioelectronic design problem.

The biomechanics major includes rigorous training in mechanical engineering within the interdisciplinary framework of the curriculum. Such training, which includes courses in materials and solid mechanics, supports interests focused on the application of biomechanics and biomaterials. In the senior year, the culmination of the training features intensive biomedical instrument design and computer laboratories emphasizing modern biomechanical applications. In addition, a senior-year capstone design course sequence places the student in a multidisciplinary design team situation to solve an actual industrial biomechanical or biomaterial design problem.

Both majors in biomedical engineering have been designed to be compatible with other programs offered by the College of Engineering. Each major contains the requisite humanities and theology/philosophy courses, and requires the standard 133 credit hours for graduation. Students can earn an optional minor in either electrical or mechanical engineering as well as biology, chemistry, business administration, and others. In addition, both majors retain many of the core courses of the initial two years, and allow the student to elect the co-op/internship program. Since both majors satisfy the entrance requirements of many professional schools, the student can, usually without additional preparation, pursue studies in medical school, dental school, schools of veterinary medicine, graduate schools in biomedical engineering or traditional areas of engineering.

The Department of Biomedical Engineering operates biomedical image and signal processing laboratories, bioelectronic and biomechanical design laboratories, and students have access to electrical and mechanical engineering laboratories as well as the college and university computer facilities. In addition, collaborative programs exist between Marquette University, the Medical College of Wisconsin, the Milwaukee County Medical Complex, Froedtert Memorial Lutheran Hospital, and the Zablocki Veterans Administration Medical Center. These proximate collaborative research programs, some active for three decades, provide a uniquely enhanced laboratory experience that has significantly contributed to the success of biomedical engineering at Marquette.

#### **THE LES ASPIN BIOMEDICAL INTERNSHIPS**

The Department of Biomedical Engineering in conjunction with the Les Aspin Center for Government at Marquette University offer internships in medical regulatory and public policy issues. The Les Aspin Biomedical Engineering Internships began in Spring 1997 with eight qualified biomedical engineering undergraduates traveling to Washington, D.C. The venue for the engineering internships is Capitol Hill, the Food and Drug Administration or private industry located in the Washington, D.C., area. In addition to participating in the internship experience, the students take Marquette University classes at the Les Aspin Center for Government, located a few blocks from Capitol Hill, and reside nearby in Marquette-owned, furnished apartments. This program is unique in providing undergraduate experience in research and regulatory issues.

## BIOMEDICAL ENGINEERING COOPERATIVE EDUCATION AND INTERNSHIP PROGRAM

The Biomedical Engineering Co-op/Internship program offers students the opportunity to gain meaningful practical and professional experiences in the health care industrial environment, in addition to their on-campus educational experiences. The undergraduate biomedical program also provides real-world biomedical engineering experiences in the freshman biomedical engineering methods course and Career Development Workshops during the sophomore year. The Biomedical Engineering Co-op/Internship Program is supported by funding from the Whitaker Foundation. Currently more than 70 percent of the biomedical engineering students participate in co-op or internship opportunities.

Marquette University began its Engineering Co-op Program in 1919. Students usually enter the Co-op program at the end of their sophomore year and complete three to four terms of off-campus employment. The employment experience is alternated with terms of on-campus study, only extending graduation by one year. The College of Engineering is a member of the American Society for Engineering Education and all of its undergraduate degree programs are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). In addition to the formal Co-op program, undergraduates may also gain experience through summer internships.

## FIVE YEAR B.S./M.S. PROGRAM

This program allows students to receive a bachelor of science degree and a master of science degree in biomedical engineering in just five years. Students with quality point averages (3.500 or above) apply to the program during their junior year. They begin their thesis research the summer between their junior and senior years. Their research laboratory experience continues the summer between their senior and fifth years and throughout their fifth year, culminating in the preparation of a written thesis and defense.

## EDUCATIONAL OBJECTIVES

- To provide a quality foundation in the fundamental concepts (mathematics, physical science, life science and engineering) and background needed to pursue a successful career in biomedical engineering.
- To offer the student an educational program in areas which provide a broad and interdisciplinary background in appropriate theory, design and practice.
- To prepare graduates who are able to communicate effectively in written, graphical and oral forms.
- To provide opportunities to foster effective student-team interaction.
- To interact with industrial partners to maintain a current educational curriculum.
- To prepare graduates for employment or post-graduate training in biomedical engineering.
- To earn national recognition for excellence in biomedical engineering training and medical research.
- To provide an appreciation for religious, moral, ethical and human values.

\* R refers to hours of recitation, L to hours of laboratory, and C to credit hours.

**\*\* Biomedical Engineering Electives**

The following is a list of electives typically taken by Biomedical Engineering students. This list is not inclusive. Other possible electives include 100-level courses in MATH, BIOL, PHYS, CHEM, EECE, MEEN, COEN, and related subject areas. These courses can be taken if approved by the adviser, department chair and assistant dean through a course substitution form. Students bound for medical school are strongly encouraged to take CHEM 024 and BIOL 100 as electives.

BIEN 151 Topics in Biomedical Engineering; BIEN 152 Analysis of Physiological Models; BIEN 153 Applied Finite Element Analysis in Biomechanics; BIEN 168 Rehabilitation Engineering: Prosthetics Orthotics, Seating and Positioning; BIEN 170 Introduction to Biomaterials Science in Engineering; BIEN 172 Biotechnology Instrumentation; BIEN 180 Systems Physiology; BIEN 182 Medical Imaging Physics; BIEN 183 Cardiopulmonary Mechanics; BIEN 184 Image Processing for the Biomedical Sciences; BIEN 195 Independent Study and Research (Q.P.A.>3.0); COEN 030 Intro. to Computer Hardware and Software; EECE 121 Electromagnetic Fields 1; EECE 122 Electromagnetic Fields 2; EECE 142 Analog Electronics Laboratory (2 cr.); ENME 130 Mechanics of Materials (BIOE only) ; MEEN 108 Mechanics of Heat Transfer; MEEN 142 Design of Machine Elements; MEEN 154 Intro. to Polymers and Polymer Composites in Design; MEEN 161 Failure Analysis; BIOL 100 The Molecular Basis of Biology; BIOL 170 Comparative Vertebrate Physiology; CHEM 024 Organic Chemistry (4 cr.); MATH 147 Computational Models; MATH 164 Statistical Methods; MATH 166 Biomathematics; PSYC 114 Human Factors Engineering

\*\*\* All students are required to take an ethics course, either as a theology/philosophy elective or humanities/social science elective.

\*\*\* All students are required to take an ethics course, either as a theology/philosophy elective or humanities/social science elective.

#### **BIOMEDICAL ENGINEERING MINOR**

The Department of Biomedical Engineering offers a minor in biomedical engineering to all undergraduate students in the university. The minor is not available to students in biomedical engineering. Completion of the minor will be noted on the student's transcript if the following requirements are met: Twenty-four hours consisting of BIEN 100, 155, 180, 185, 187; BIOL 001; CHEM 023; (or equivalent). At least half of these credit hours **must** be taken at Marquette University.

### **ELECTRICAL ENGINEERING MINOR**

Twenty-eight hours including: EECE 010, 011, 012, 111, 112, 113, 141, and either 121 or COEN 030, or both 142 and 143. At least half of these credit hours must be taken at Marquette. Bioelectronics students can obtain this minor by taking either EECE 121, COEN 030 or EECE 142. Note EECE 142 is a 2 credit course and must be taken with EECE 042 (1 credit) to count as a single BIEN elective.

### **MECHANICAL ENGINEERING MINOR**

Thirty hours including the following courses or their equivalents: ENME 022 (or ENME 010/020, 4 cr. only), ENME 130, MEEN 060, 104, 106 or 108 (or BIEN 186), 120 (or BIEN 191/92 3 cr. only), 128, 142 and two MEEN electives (MEEN 160 and MEEN 141). The program as a whole must have MEIE Departmental approval. Biomechanics students can obtain this minor by taking MEEN 142.

### **BIOLOGY MINOR**

Six courses including BIOL 001 and 002 (or 004) plus two other BIOL courses and two additional courses from **BIOL, CHEM and/or ANTH 106, PSYC 165, MATH 060**. Biomedical Engineering students can obtain this minor by taking one additional course from the above list.

### **CHEMISTRY MINOR**

Five classes including CHEM 001 and 002, 023 or 123, 024 or 124 and one additional upper division CHEM class. Biomedical Engineering students can obtain this minor by taking CHEM 024 and one additional upper division CHEM class.

### **OTHER MINORS**

Other minors are available; please follow the minor requirements in the Bulletin listed under the appropriate department.

## **DEPARTMENT OF CIVIL AND ENVIRONMENTAL ENGINEERING**

The Department of Civil and Environmental Engineering offers a curriculum that leads to a bachelor of science degree in civil engineering.

### **MISSION**

The mission of the Department of Civil and Environmental Engineering is to educate students in the Catholic, Jesuit tradition. These students will be competent in their technical fields, appreciate the moral and ethical impact of their professional work, and continue their professional development throughout their careers. The students and faculty of the department will advance the state of technical and scientific knowledge through research and provide service to civic and professional communities.

Civil engineering is the art and science used in the construction of facilities which people need in their environment — land, water and air. Airports, buildings, bridges, dams, harbors, highways, irrigation systems, transportation systems, sewerage and water supply systems are examples of the types of facilities which are the responsibility of the civil engineer.

Since the beginning of civilization, people have been building with the use of engineering principles. Modern society depends on this contribution from the civil engineer, whose education is systematically developed from a strong background in mathematics, physical and engineering sciences. The civil engineer must relate to society and fellow men and women, and be aware of how the engineering principles can be applied for the benefit of others.

The civil engineering major develops the analysis and design capabilities of the student in the study of structures and systems. The application of computers and pertinent software is used throughout the major. A broad educational program can be selected or some specialization is possible through advised elective course selection.

The curriculum provides the graduate with the necessary training to begin a professional career without further formal education, while also affording those students who enter graduate studies the opportunity to prepare more adequately in their field of specialization.

Civil engineering majors have the option to concentrate their studies in the following areas:

### **GENERAL CIVIL ENGINEERING**

The diverse needs of people and society for many types of constructed facilities give a broad range to civil engineering. This breadth is well-suited to allow specialization in one of the major

divisions of this branch of engineering. However, it is not necessary to make a commitment to only one area of concentration while in the undergraduate college. The curriculum at Marquette is arranged to permit students to prepare themselves generally in civil engineering by completing the core courses which provide all the necessary fundamentals and selecting electives to acquire additional depth in one or more of the areas of specialization. All the electives which the department offers are open to students with the required prerequisites. Selection of the courses for a general program requires careful planning between the student and an academic adviser.

**CONSTRUCTION AND PUBLIC WORKS MANAGEMENT**

Construction and public works projects of all types require management as well as the traditional engineering skills. This program is arranged so that a student may vary the usual undergraduate program to obtain the knowledge needed to enter a graduate program in construction and public works management while still maintaining the essentials of a general civil engineering program.

**ENVIRONMENTAL AND WATER RESOURCES**

The environmental area is concerned with the control and improvement of human surroundings using principles developed in civil engineering. The environmental/water resources engineer is responsible for conceiving and designing systems for water supply, wastewater treatment and disposal, air pollution control, solid and hazardous waste management and design of water resources systems.

**STRUCTURAL**

The structural area deals with the planning, analysis, design and construction of various types of structures such as buildings, bridges and foundations. Students will learn to analyze and design structures in concrete, steel and timber. They will also learn to analyze and design foundations for structures.

**TRANSPORTATION**

The transportation area provides the student with an overall understanding of the problems of transportation and urban planning, and how to solve them. Students may elect to concentrate in the area of highway engineering (design, pavements and materials) or traffic engineering (design, operations and traffic management).

**URBAN**

Many graduate civil engineers will find employment with governmental agencies and engineering design firms which are primarily concerned with metropolitan type problems. Courses within this area are designed to acquaint the student with urban related concepts and problems, most of which are large scale and people oriented.

**EDUCATIONAL OBJECTIVES**

- Develop an appreciation for religious, moral, ethical and human values.
- Provide a foundation for the application of the fundamentals of science and mathematics for solving engineering problems.
- Give students an opportunity to experience the civil engineering profession through the Cooperative Education program, summer internships or hands-on experience in laboratory courses.
- Prepare graduates to communicate effectively in written, graphical and oral form.
- Provide opportunities to exhibit leadership and develop team-building skills.
- Instill a commitment to lifelong learning.

\*R refers to hours of recitation, L to laboratory, and C to credit hours.

\*\* All students are required to take an ethics course, either as a theology/philosophy elective or humanities/social science elective.

**TECHNICAL ELECTIVE REQUIREMENTS**

All civil engineering students must complete 12 credits of technical electives from the courses listed below. A minimum of 6 credits of civil engineering design is required and must be selected from those courses designated as design (D).

CEEN 111	CEEN 148 (D)	CEEN 172 (D)
CEEN 114 (D)	CEEN 149 (D)	CEEN 176 (D)
CEEN 123 (D)	CEEN 154	CEEN 181
CEEN 127 (D)	CEEN 155	CEEN 182
CEEN 128	CEEN 156 (D)	CEEN 184
CEEN 145	CEEN 157	CEEN 185
CEEN 146 (D)	CEEN 158 (D)	
CEEN 147 (D)	CEEN 163 (D)	

(D) designates a Civil Engineering design course.

Exceptions to requirements: Students enrolled in NROTC or AROTC may substitute approved naval science or military science courses.

**CIVIL ENGINEERING ELECTIVES**

The civil engineering major provides for elective courses which enable a student to study in depth or breadth those areas which best meet individual interests and needs. In this way, any student, after consultation with an adviser and approval by the department chairperson, can follow a special program which fulfills the technical elective credit requirement. The electives listed are those which would normally be used for this purpose. These are meant to be only suggestions and it is the responsibility of the student and an adviser to develop a well planned elective program.

TABLE OF ELECTIVE COURSES

**CIVIL ENGINEERING MINOR**

The Department of Civil Engineering offers a minor in civil engineering to all undergraduate students in the university. The minor is not available to students in civil engineering. Completion of the minor will be noted on the student's transcript if the following requirements are met: Twenty-five hours including required courses ENME 022, or 010/020, 130, 151 and at least 12 additional hours, from the following CEEN courses: CEEN 032, 110, 150, 162, 170, or 180. At least half of these credit hours **must** be taken at Marquette University.

## DEPARTMENT OF ELECTRICAL AND COMPUTER ENGINEERING

The Department of Electrical and Computer Engineering offers curricula that lead to a bachelor of science degree in electrical engineering or a bachelor of science degree in computer engineering.

**MISSION**

The Department of Electrical and Computer Engineering embraces the missions of Marquette University and its College of Engineering. The mission of the Department of Electrical and Computer Engineering is to offer its students high-quality, up-to-date, nationally-recognized programs in electrical and computer engineering that prepare them for successful careers. This success is marked by a commitment to lifelong learning and a deep concern for the impact of their work on others; research that advances the frontiers of technical and scientific knowledge; and service to professional and civic communities.

Engineering is the professional art of applying science and mathematics to the efficient conversion of natural resources and the manipulation of information for human benefit. The basic concepts in this definition can be expanded, particularly for the electrical or computer engineer, by considering his or her activities. These usually involve (1) the processing and control of *energy*, (2) the processing and control of *information*, (3) the processing and control of *materials*. Certainly any educational experience in electrical engineering should be evaluated for the student in terms of its contribution in one or more of these areas.

However, this is not the only consideration. Equally important is the concept of engineering as a *dynamic* profession. In terms of the educational process, this means that attention must be directed to preparing the student for types of processing and control which have not yet been developed or perhaps even discovered. The young electrical engineer must be prepared to cope with devices and systems which will appear years into the future, from the viewpoint of the scientific principles on which the design of these future devices and systems will be based.

There is another important consideration in the practice of electrical and computer engineering. An engineer is called on for many and varied activities but as diversified as these may be, when carefully examined, they lead to this conclusion: *Problem-solving is the engineer's most important activity*. From the educator's viewpoint, this naturally should lead to a planned, conscious effort to develop the young engineer's problem-solving ability to the limits of his or her God-given talents. In this regard, it is important to note that since engineers' problems are sometimes *creative*, sometimes *analytic*, and sometimes *experimental*, their educational experience must give practice in each of these areas and in all types of problems. Significant design experience is an essential part of the engineer's education.

Finally, the engineer is an *individual*, a citizen who needs to develop a sense of moral and ethical values on a plane consistent with his or her education in other areas. In the educational process, this requires that a good balance be developed between the technical and social-humanistic content.

The electrical engineering and computer engineering curricula at Marquette University are carefully designed to meet the requirements of each student. Opportunities are provided for each student to develop in the direction of personal interests and at a rate corresponding to individual ability. Coherent elective programs are planned with each student consistent with his or her ability and professional goals. Moreover, superior students have the opportunity for independent study and for participation in research activity.

#### EDUCATIONAL OBJECTIVES

- **Value-based Education.** Electrical Engineering graduates will have an informed concern for religious, moral, ethical and human values, especially as these values impact their professional decisions.
- **Fundamental Skills.** Electrical Engineering students will develop the ability to formulate and analyze significant electrical engineering problems by applying college-level mathematics, basic science, and engineering science. When solving these engineering problems, students will apply up-to-date tools and techniques with particular emphasis on the use of computers.
- **Practical Training.** Electrical Engineering students will experience the practical side of their profession through a number of avenues including laboratory courses, summer internships, and the co-op program.
- **Communications Skills.** Electrical Engineering students will develop the oral and written communications skills necessary to function effectively in today's business world through formal courses and required oral and written presentations in their engineering classes.
- **Design Skills.** Electrical Engineering students will learn the design process including the personal skills of group interaction through a variety of experiences culminating in the comprehensive senior-year design program.
- **Team Skills.** Electrical Engineering students will develop the ability to work effectively in teams through a variety of experiences in course and laboratory assignments as well as in the senior-year design program.
- **Lifelong Learning.** Electrical Engineering graduates will be fully cognizant of the need for, and will be prepared to participate in, lifelong learning.

## Electrical and Electronic Engineering Major

The *electrical and electronic engineering major* provides students with a comprehensive electrical engineering background with course specialties in three broad categories: *materials and devices*, *devices and circuits*, and *circuits and systems*. *Materials and devices* involves the development of methods for characterizing materials and devices constructed from these materials, the

development of new manufacturing and processing technologies, and the design and fabrication of electronic components. *Devices and circuits* work ranges from the design of electronic components to the development of complete circuits employing these devices. *Circuits and systems* involves the application of devices and circuits to full-scale consumer and industrial products which employ various solid state devices and transducers, electromechanical and otherwise.

\*R refers to hours of recitation, L to hours of laboratory, C to credit hours.

<sup>1</sup> EECE students are required to declare a humanities/social science concentration by the middle of the first term of the sophomore year. A concentration consists of at least three courses with a coordinated focus and must include at least one upper division course.

<sup>2</sup> A C or better grade is required in these courses to meet the prerequisites for the following electrical or computer engineering core courses

<sup>3</sup> All students are required to take an ethics course as their ethics elective.

<sup>4</sup> These electives will normally be upper division electives. At most one may carry lower division credit in an approved planned program.

<sup>5</sup> This elective must be chosen from EECE 132, 150, 153, 162, 164, 165, 170, 171, 172, 173, 174, 175, 176, 181, 182, 185, 186, 187, COEN 151, 152, 170, 171, 172, 181 and (EECE 145, 151, 168, 195 and COEN 168, 195 with departmental approval).

<sup>6</sup> This elective must be chosen from MATH 164 or INEN 140, or other statistics courses with departmental approval.

## Electrical and Computer Engineering Major

The electrical and computer engineering major provides students with a comprehensive electrical engineering background that contains a greater exposure and more in-depth study of computer principles and applications. The *electrical and computer engineering major* offers a carefully integrated course of instruction in electrical engineering, computer engineering and mathematics, to provide a student with a broader computer background than does the *electrical and electronic engineering major*. The *electrical and computer engineering major* includes a required integrated two-term sequence in computer software and hardware. The emphasis in these courses is on small computers, particularly microcomputer concepts and applications, as well as a required course in data structures. Students completing the electrical and computer engineering major may satisfy the requirements for a minor in computer science (COSC) from the College of Arts and Sciences by an appropriate selection of their technical electives.

### Freshman, Sophomore Years

The freshman and sophomore years are the same as those described for the electrical and electronic engineering major with the exception that COEN 030 requires footnote 2.

#### Junior

	15		15

\*R refers to hours of recitation, L to hours of laboratory, C to credit hours.

<sup>1</sup> EECE students are required to declare a humanities/social science concentration by the middle of the first term of the sophomore year. A concentration consists of at least three courses with a coordinated focus and must include at least one upper division course.

<sup>2</sup> A C or better grade is required in these courses to meet the prerequisites for subsequent electrical engineering core courses and/or computer engineering core courses.

<sup>3</sup> All students are required to take an ethics course as their ethics elective.

<sup>4</sup> These electives normally will be upper division electives. At most one may carry lower division credit in an approved planned program.

<sup>5</sup> This elective must be chosen from the following courses with a computer design emphasis: EECE 150, 153, COEN 151, 152, 170, 172, 181, and (EECE 145, 151, 168, 195 and COEN 168, 195 with departmental approval).

<sup>6</sup> This elective must be chosen from the following list: EECE 150, 153, 157, COEN 151, 152, 170, 172, 181, (EECE 145, 151, 168, and 195 and COEN 168, 195 with departmental approval), and COSC 149, 152, 153, 157, 158, 159, and 170

## AREAS OF CONCENTRATION WITHIN ELECTRICAL ENGINEERING

**ELECTRICAL AND ELECTRONIC MAJOR:** various areas of concentration are available with the appropriate choice of the design elective and the EECE/technical electives. While there is no requirement to concentrate in one area, it is essential that the student select an appropriate and well-planned elective program. The various areas of concentration are described below.

### COMPUTERS

Computer courses provide a general background in computer software, hardware, systems, and applications. An understanding of both practical and theoretical concepts is encouraged in the courses below which are available for pursuing software and hardware areas of concentration.

A. Recommended courses in the computer software area of concentration include: COEN 120, COEN 122, COEN 150, COEN 151†, COEN 158.

B. Recommended courses in the computer hardware area of concentration include: COEN 152†, COEN 170†, COEN 171†, COEN 172†.

## SYSTEMS

### A. Control Systems

Control system engineering develops a general background in automatic controls and systems engineering with a fundamental emphasis on linear feedback systems and applications of computers. Course work in advanced controls, digital systems, and large-scale design is included. Recommended courses in the control systems area of concentration include: EECE 150†, EECE 151, EECE 152, EECE 153†, EECE 157.

### B. System Safety

A system is the composite of equipment, personnel, facilities and software used to perform a required function. System safety engineering applies engineering and management techniques to identify and then to prevent or control hazards within a system. Recommended courses in the system safety area of concentration include: EECE 131, EECE 132†, INEN 151, MEEN 145, MEEN 148, MEEN 161, MATH 164.

## ELECTRONICS

The electronics area offers courses in microelectronics, high frequency and optical electronics, solid state materials and devices, and electronic circuit analysis and design.

### A. Solid State Electronics and Materials

Solid state electronics courses include solid state physics and the construction, measurement and utilization of solid state electronic devices such as p-n junctions, MOSFETs, Gunn diodes, silicon controlled rectifiers and the diverse area of integrated circuits. Solid state materials courses study the electrical, physical and mechanical properties of materials as they relate to the present and future requirements of the electrical manufacturing industry.

Recommended courses in the solid state electronics and materials area of concentration include: EECE 160, EECE 161, EECE 162†, EECE 164†

### B. Applied Electromagnetics

Microwave engineering involves high frequency electromagnetic waves as applied to communications, navigation and industrial processing. Principles and applications of masers and lasers are included. Resonators, antennas and waveguides in microwave frequencies as well as solid state electronic devices and thermionic devices are investigated.

Recommended courses in the applied electromagnetics area of concentration include: EECE 152, EECE 170†, EECE 171†, EECE 172†, EECE 173†, EECE 174†.

### C. Electronic Circuit Analysis and Design

Electronic circuit analysis and design involve utilization of feedback and switching theory along with linear and digital, discrete and integrated circuits to construct modern electronic circuits.

Recommended courses in the electronic circuit analysis and design area of concentration include: EECE 165†, EECE 181†, EECE 145†, COEN 170†.

## POWER

Power engineering emphasizes the control and conversion of electrical energy. Motors, generators, and power distribution and control systems are examined. Modern computer-aided analysis is brought to bear on the design and analysis of power devices and power systems.

Recommended courses in the power area of concentration include: EECE 161, EECE 162†, EECE 165, EECE 181†, EECE 182†, EECE 183, EECE 185†, EECE 186†, EECE 187†.

**ELECTRICAL AND COMPUTER MAJOR**, software and hardware areas of concentration are available through the appropriate choice of the design elective, the program electives, and the EECE/technical electives.

## COMPUTER SOFTWARE

Recommended courses in the computer software area of concentration include: COEN 122, COEN 150, COEN 151†, COEN 172†, COEN 183, COSC 158.

## COMPUTER HARDWARE

Recommended courses in the computer hardware area of concentration include: EECE 122, COEN 130, COEN 152†, COEN 170†, COEN 172†, BIEN 185.

†Design Elective

## CHOOSING ELECTIVES

In choosing electives, the faculty adviser and student confer to determine what the student's individual interests and objectives are and then what upper division courses best meet his or her needs. By careful choice of an elective program the student can obtain in-depth knowledge in one

area of concentration in addition to the broad fundamental background developed in the required courses. Or by equally careful choice of an elective program, the student may continue development of a broad fundamental background. It is the responsibility of the student and his or her faculty adviser to select an appropriate, well-planned elective program. It may be possible for students completing the requirements for the bachelor's degree in electrical engineering to also earn a minor in mathematics or computer science by carefully choosing their elective program.

#### **COMPUTER SCIENCE MINOR**

Students in engineering may obtain a minor in computer science by completing the following course requirements with a grade of C or better in each: GEEN 051, COEN 030, COSC 149, 152, and 154, plus three additional hours from the following list of courses: COSC 153, 157, 158, 159, 170. Overload hours can be minimized or eliminated in consultation with an academic adviser.

#### **BIOMEDICAL ENGINEERING MINOR**

Students in either the electrical and electronic major or the electrical and computer major may obtain a minor in biomedical engineering without carrying more than the standard 133 semester hours. Students interested in the biomedical engineering minor should consult their advisers before beginning their sophomore year in order to accommodate this minor without overload credits.

#### **OTHER MINORS**

Students in the electrical engineering curriculum who are interested in obtaining a minor (or major) in any other area should consult with their advisers during their freshman or sophomore year in order to plan their schedules to meet their particular objectives with a minimum amount of overload credits.

#### **ELECTRICAL ENGINEERING MINOR**

The Department of Electrical Engineering offers a minor in electrical engineering to undergraduate students in the university. The minor is not available to students in electrical engineering. Completion of the minor will be noted on the student's transcript if the following requirements are met:

Twenty-eight hours including: EECE 010, 011, 012, 111, 112, 113, 141, and either 121 or COEN 030, or both 142 and 143. At least half of these credit hours must be taken at Marquette University.

### **Computer Engineering Major**

In addition to the two electrical engineering majors outlined above, the Department of Electrical and Computer Engineering offers a curriculum leading to a bachelor of science in computer engineering. The computer engineering curriculum provides a solid foundation in electrical engineering fundamentals, as well as a comprehensive study of computer software and hardware systems. Through an ample elective program, students can customize their studies to their individual interests, emphasizing software engineering, computer system design, knowledge-based systems, or other areas of concentration. Students completing the computer engineering program satisfy the requirements for a minor in mathematics and may also satisfy the requirements for a minor in computer science (COSC) by an appropriate selection of their electives.

#### **EDUCATIONAL OBJECTIVES**

- **Value-based Education.** Computer Engineering graduates will have an informed concern for religious, moral, ethical and human values especially as these values impact their professional decisions.
- **Fundamental Skills.** Computer Engineering students will develop the ability to formulate and analyze significant computer engineering problems involving both hardware and software considerations, by applying college-level mathematics, basic science, and programming skills as appropriate. When solving these computer engineering problems, students will apply up-to-date tools and techniques.
- **Practical Training.** Computer Engineering students will experience the practical side of their profession through a number of avenues including laboratory courses, summer internships, and the co-op program.
- **Communications Skills.** Computer Engineering students will develop the oral and written communications skills necessary to function effectively in today's business world through formal courses and required oral and written presentations in their engineering classes.

- **Design Skills.** Computer Engineering students will learn the design process including the personal skills of group interaction through a variety of experiences culminating in the comprehensive senior-year design program.
- **Team Skills.** Computer Engineering students will develop the ability to work effectively in teams through a variety of experiences in course and laboratory assignments as well as in the senior-year design program.
- **Lifelong Learning.** Computer Engineering graduates will be fully cognizant of the need for, and will be prepared to participate in, lifelong learning.

\*R refers to hours of recitation, L to hours of laboratory, C to credit hours.

<sup>1</sup> COEN students are required to declare a humanities/social science concentration by the middle of the first term of the sophomore year. A concentration consists of at least three courses with a coordinated focus and must include at least one upper division course.

<sup>2</sup> A C or better grade is required in these courses to meet the prerequisites for subsequent engineering core courses and/or computer engineering core courses.

<sup>3</sup> All students are required to take an ethics course as their ethics elective.

<sup>4</sup> These electives will normally be upper division electives. At most one may carry lower division credit in an approved planned program.

<sup>5</sup> This elective must be chosen from the following courses with a computer design emphasis: COEN 151, 152, 170, 172, and (168 and 195 with departmental approval).

<sup>6</sup> This elective must be chosen from the following list of computer engineering electives: COEN 121, 122, 123, 130, 131, 132, 150, 151, 152, 161, 168, 170, 172, 173, 174, 175, 182, 183, and 195.

#### **AREAS OF CONCENTRATION WITHIN COMPUTER ENGINEERING**

Software and hardware areas of concentration are available through the appropriate choice of the design elective, the program electives, and the COEN/technical electives. The elective program, determined by the student in conjunction with his or her faculty adviser, should be designed to provide depth of knowledge in at least one computer engineering area.

## **Software Engineering**

Software engineering emphasizes the design of software systems including such concerns as the user interface, expansibility and maintainability, efficiency in time and computing resources, etc. Recommended courses in the software engineering area of concentration include: COEN 122, COEN 123, COEN 150, and COEN 182.

## **Computer System Design**

A concentration in computer system design incorporates knowledge of electronics, communications, operating systems, and the theory of computing. Recommended courses in the computer system design area of concentration include: COEN 152†, EECE 164†, COEN 172†, COEN 174.

## **Knowledge-Based Systems**

The area of knowledge-based systems include database systems, computer graphics, artificial intelligence, parallel computing, neural networks, etc. Recommended courses in the knowledge-based systems area of concentration include: COEN 130, COEN 131, COEN 150, COEN 151†, and COEN 175.

†Design Elective

## **Choosing Electives**

In choosing electives, the faculty adviser and student confer to determine what the student's individual interests and objectives are and then what upper division courses best meet his or her needs. By careful choice of an elective program, the student can obtain in-depth knowledge in one area of concentration in addition to the broad fundamental background developed in the required courses. Alternatively, by an equally careful choice of an elective program, the student may continue development of a broad fundamental background. It is the responsibility of the student and his or her faculty adviser to select an appropriate, well-planned elective program. It may be possible for students completing the requirements for the bachelor's degree in computer engineering to also earn a minor in computer science by carefully choosing their elective program.

## **COMPUTER SCIENCE MINOR**

Students in engineering may obtain a minor in computer science by completing the following course requirements with a grade of C or better in each: GEEN 051, COEN 030, COSC 149, 152, and 154, plus three additional hours from the following list of courses: COSC 153, 157, 158, 159, 170. Overload hours can be minimized or eliminated in consultation with an academic adviser.

## **BIOMEDICAL ENGINEERING MINOR**

Students in computer engineering may obtain a minor in biomedical engineering without carrying more than the standard 133 semester hours. Students interested in the biomedical engineering minor should consult their advisers before beginning their sophomore year in order to accommodate this minor without overload credits.

## **OTHER MINORS**

Students in the computer engineering curriculum who are interested in obtaining a minor (or major) in any other area should consult with their advisers during their freshman or sophomore year in order to plan their schedules to meet their particular objectives with a minimum amount of overload credits.

## **COMPUTER ENGINEERING MINOR FOR NON-ENGINEERING STUDENTS**

The Department of Electrical and Computer Engineering offers a minor in computer engineering to undergraduate students in the university. The minor is not available to students in computer engineering. Completion of the minor will be noted on the student's transcript if the following requirements are met: Thirty-two hours including: EECE 010, 011, 012, 112, COEN 020, 030, 140, 171, 180, and 181. At least half of these credit hours must be taken at Marquette University.

## DEPARTMENT OF MECHANICAL AND INDUSTRIAL ENGINEERING

The Department of Mechanical and Industrial Engineering offers curricula that lead to a bachelor of science in mechanical engineering or a bachelor of science in industrial engineering.

### MISSION

In embracing the missions of the university and the College of Engineering, it is the mission of the Department of Mechanical and Industrial Engineering to offer high quality, up-to-date, nationally-recognized engineering programs which prepare students for successful careers. This success is marked by the graduates' commitment to lifelong learning; a deep concern for the impact of their work on others; research that advances technical and scientific knowledge; and service to professional and civic communities. The department also strives to develop students and faculty who will be recognized as exceptional in their pursuit of excellence, sense of community, spirit of collaboration, and ability to define problems and accomplish goals.

### Mechanical Engineering Major

Mechanical engineering is that branch of engineering which is concerned with mechanical and energy systems, along with the intelligent use of modern materials. Mechanical engineers conceive, plan, design, and direct the manufacture, distribution, and operation of a wide variety of devices, machines, and systems for energy conversion, environmental control, materials processing, transportation, materials handling, and other purposes. The field of mechanical engineering is very broad, and the profession thus provides an ideal base for interdisciplinary activities.

Engineers are constantly challenged to advance and implement modern technologies. This challenge can be met provided that one obtains a sound knowledge of the fundamental principles of the engineering sciences. The mechanical engineering curriculum is designed to provide not only a thorough understanding of the engineering sciences but also of the principles of manufacturing and organization that are used to implement these fundamentals in practical engineering applications.

Integrated with the technical and scientific content of the program is a series of required and elective courses in the humanities, social sciences, theology, philosophy, and communication arts. These courses provide the student with an understanding of society and an awareness of his or her social responsibilities.

In order to accommodate the students' professional interests, the department offers electives in a number of areas of concentration within mechanical engineering. In choosing electives, the student and faculty adviser confer to determine those courses which best meet the needs and interests of the individual student. By carefully selecting technical elective coursework, the student can obtain in-depth knowledge in one or possibly two areas of concentration to complement the broad, fundamental, required courses.

The mechanical engineering curriculum is outlined below and then followed by a description of the areas of concentration and the corresponding technical elective courses for each.

### EDUCATIONAL OBJECTIVES

- Develop the creative and critical thinking skills essential in identifying, structuring, and solving complex problems.
- Foster an appreciation for religious, moral and ethical values.
- Firmly ground students in the fundamentals of mathematics, the basic sciences, and the engineering sciences necessary to pursue a successful career in mechanical engineering.
- Develop graduates who can communicate effectively in written, graphical and oral forms.
- Provide open-ended challenges for the design of mechanical and thermal systems.
- Instill the necessary personal skills and attitudes in students for them to work effectively in teams.
- Give students an opportunity to experience the practical side of their profession through hands-on experience in laboratory courses, the Cooperative Education Program, and summer internships.
- Instill an attitude that learning is a lifelong process.

\*\*\* All students are required to take an ethics course, either as a theology/philosophy elective or humanities/social science elective.

## AREAS OF CONCENTRATION

### ENERGY SYSTEMS

Economic growth and development is strongly dependent upon the development and conversion of energy resources. Assurance that supplies can meet demands without excessive monetary and environmental costs will depend upon political, economic, and technological decisions. But, in any case, the key to solving the problem is engineering the technological development of new and better energy conversion processes and systems. The courses offered in the

energy area provide a most up-to-date background for the design of traditional energy systems and for design, research, and development of new systems.

#### MANUFACTURING

According to the Society of Manufacturing Engineers, manufacturing engineering is that specialty which requires such education and experience to understand, apply, and control engineering procedures and methods of production of industrial commodities and products. It requires the ability to plan the practices of manufacturing, to research and develop the tools, processes, machines, and equipment and to integrate the facilities and systems for producing quality products with optimal expenditures. The courses offered in this area have the aim of preparing the student to face the challenges of rapidly changing technologies present in the modern manufacturing environment.

#### MATERIALS SCIENCE AND ENGINEERING

This area provides the tools, both experimental and theoretical, for selecting appropriate materials for use in specific engineering applications. Courses stress the study of the effect of process parameters on the microstructure of materials and their mechanical and physical properties.

#### MECHANICAL SYSTEMS

This area provides the students with the theoretical, computational, and experimental tools that are necessary for the detailed analysis and design of mechanical systems including machine elements such as linkages, gears, and other power transmission components, precision tools, and machinery, etc. The courses offered in this area enable the student to understand the rationale and methodology of the overall design process of mechanical systems, proceeding from the conceptualization stage through the detailed design and implementation phases.

#### SPECIAL PROGRAMS OF STUDY

The Department of Mechanical and Industrial Engineering recognizes that some students will not find their goals served via any of the listed areas of concentration. Therefore, any student, following consultation with, and accompanied by, the approval of the department chairperson, can propose a special program of study to fulfill the equivalent required technical credits in any of the listed areas of concentration. Normally, it is expected that these credits would be taken in engineering. An example of an exception would be the area of **Engineering Management** for which the following courses would be eligible: MANA 156, MANA 173, MANA 181 and MANA 183. The required form used to initiate this action is available in the mechanical and industrial engineering department office.

#### MECHANICAL ENGINEERING MINOR

The Department of Mechanical and Industrial Engineering offers a minor in mechanical engineering to all undergraduate students in the university. The minor is not available to students in mechanical engineering. Completion of the minor will be noted on the student's transcript if the following requirements are met:

Thirty hours including the following courses or their equivalents: ENME 022, ENME 130, MEEN 060, MEEN 104, MEEN 106 or MEEN 108, MEEN 120, MEEN 128, MEEN 142, and two (2) MEEN electives. The program as a whole must have departmental approval and be completed with a C average. Interested students should consult with the department in order to develop an acceptable program. At least 15 credit hours **must** be taken at Marquette University.

#### FIVE YEAR B.S./M.S. PROGRAM

This newly created program allows students to receive a bachelor of science degree and a master of science degree in mechanical engineering in just five years. Students with qualifying grade point averages enroll in the program during their junior year. They will begin their thesis research the summer between their junior and senior years. Their research laboratory experience will continue the summer between their senior and fifth years and throughout their fifth year, culminating in the preparation of a written thesis and defense.

## Industrial Engineering

### (Engineering Management and Manufacturing Engineering Majors)

The industrial engineering curricula at Marquette University are designed to prepare students for a rapidly changing, technology-driven global economy that has two key components: high-technology manufacturing and the service sector. In order to compete effectively in global markets, one must provide a high quality product and service. This level of quality requires the optimal integration of human and engineering aspects into a competitive system. Industrial engi-

neers integrate human capabilities with the design of suitable equipment and work environments to achieve optimal system performance.

Globally, industrial engineers work in many different areas, such as manufacturing industries, transportation industries, utility companies, banks, hospitals, government and military institutions, and agriculture. Industrial engineers also have a variety of titles, such as manufacturing engineers, quality engineers, systems engineers, ergonomists, human factors engineers, operation researchers and management engineers.

Marquette University prepares students for this global challenge by providing a curricula that stress the integration of various engineering disciplines with mathematics and the humanities. Students may choose to major in either manufacturing engineering or engineering management at the end of their sophomore year. The manufacturing engineering major enables students to develop broad-based engineering skills from both the mechanical and industrial engineering areas with an emphasis on materials processing and manufacturing systems. The engineering management major is designed for students who seek to specialize in managing engineering and technical enterprises. Students will develop pertinent management skills from selected courses in business management and necessary engineering skills from selected courses in industrial engineering.

**ENGINEERING MANAGEMENT MAJOR**

Engineering management involves the management of technical enterprises and is designed to accommodate the students who career interests span both engineering and management aspects. This area of concentration provides students with considerable latitude to tailor their course of study to fulfill the requirements of the major. Typical elective courses to be taken in this area involve a range of courses from business management which include operations management, information systems, organizational behavior and quantitative business analysis. Elective courses from industrial engineering include: reliability, quality control, mathematical programming and product liability.

**EDUCATIONAL OBJECTIVES**

- Develop and challenge the critical thinking, planning, and problem solving skills associated with leaders within the engineering community.
- Instill an appreciation for religious, moral and ethical values.
- Prepare students with the fundamental, scientific and mathematical skills needed to organize and manage an engineering enterprise.
- Develop the written and oral communication skills needed for leading large- and small-scale engineering departments and programs.
- Provide open-ended challenges in the design of physical and humanistic systems.
- Create team atmospheres and group interactions which highlight the power of collective thought.
- Encourage practical engineering experiences through industrial participation, inside and outside the classroom.
- Develop an appreciation and desire for continuous improvement through lifelong learning and participation.

\*\* All students are required to take an ethics course, either as a theology/philosophy elective or humanities/social science elective.

**MANUFACTURING ENGINEERING MAJOR**

Manufacturing engineering involves the science of transforming raw materials into value added economics goods and end products. Manufacturing engineers are responsible for designing, selecting, supervising and managing specific processes and equipment which are used in producing and assembling products. This area of concentration provides students with a strong background in fundamental and advanced topics pertaining to manufacturing processes, materials and systems. Elective courses are from mechanical and industrial engineering courses and include automation, robotics, metal forming, materials joining and tool design.

**EDUCATIONAL OBJECTIVES**

- Develop and challenge critical thinking and problem solving skills associated with leaders within the engineering community.
- Instill an appreciation for religious, moral and ethical values.
- Prepare students with the scientific and mathematical means for engaging the multi-disciplinary physical and humanistic problems associated with turning raw materials into finished products.
- Develop in each student the written and oral communication skills relevant to industrial and academic success.
- Provide open-ended challenges for the design and improvement of processes and products.
- Create team atmospheres and group interactions which highlight the power of collective thought.
- Encourage practical engineering experiences through laboratory experiments which include industrial participation, inside and outside of the classroom.
- Develop an appreciation and desire for continuous improvement through lifelong learning and participation.

\*R refers to hours of recitation, L to hours of laboratory, C to credit hours.

\*\* As part of tee requirements for this course, students must take the State of Wisconsin Fundamentals of Engineering Exam or teat of another state.

\*\*\* All students are required to take an ethics course, either as a theology/philosophy elective or humanities/social science elective.

## AREAS OF CONCENTRATION

### QUALITY/RELIABILITY

Quality may be defined as a measurement of fitness for use and reliability is defined as the measure of the probability of a system performing its mission. These two areas have become increasingly important in today's world. This area of concentration provides the student with additional knowledge in the determination and improvement of quality and reliability. Typical elective courses to be taken in this area of concentration would be INEN 145, Reliability Engineering; MEEN 131, Products Liability and Engineering Safety; EECE 132, Product Safety Engineering; and INEN 159, Topics in Industrial Engineering.

## MODELING AND SIMULATION

The availability of the computer has enabled companies to model systems in advance, in order to determine how they will respond to various stimuli. Because of the large cost of facilities and the need for rapid results, this use of computer simulation is becoming more important in business strategies. This area of concentration provides additional knowledge in the types of models, simulation languages, and techniques to be used. Typical elective courses to be taken in this area of concentration would be MATH 146, Numerical Analysis; MATH 147, Computational Models; INEN 165, Stochastic Models in Operations Research; and INEN 159, Topics in Industrial Engineering.

## ERGONOMICS/HUMAN FACTORS ENGINEERING

Ergonomics/Human Factors Engineering is the study of human characteristics for the appropriate design of living and work environments (ergonomics and human factors engineering are interchangeable terms.) The principle of ergonomics is to design the workplace around the person in order to maximize safety and comfort and maximize productivity. Effective ergonomic intervention in the workplace takes into account the capabilities of workers. Topics covered in ergonomics courses include anthropometry, cumulative trauma disorders (including carpal tunnel syndrome), and lower back pain disorders. Ergonomics is currently taught in INEN 164. Typical elective courses in this area of concentration are BIEN 185, Computer Applications in Biomedical Engineering; BIEN 191, Biomechanics Instrumentation Design Laboratory I; BIEN 192, Biomechanics Design Laboratory 2; MATH 162, Regression Analysis; and INEN 159, Topics in Industrial Engineering.

## SPECIAL PROGRAMS OF STUDY

The Department of Mechanical and Industrial Engineering recognizes that some students will not find their goals served via any of the listed areas of concentration. Therefore, any student, following consultation with, and accompanied by, the approval of the department chair, can propose a special program of study to fulfill the equivalent required technical credits in any of the listed areas of concentration. Normally, it is expected that these credits would be taken in engineering. The required form used to initiate this action is available in the mechanical and industrial engineering department office.

## INDUSTRIAL ENGINEERING MINOR

The Department of Mechanical and Industrial Engineering offers a minor in industrial engineering to all undergraduate students in the university. The minor is not available to students in industrial engineering. Completion of the minor will be noted on the student's transcript if the following requirements are met: Twenty hours including: INEN 120, 130, 140, 143, 148, 151, and an INEN upper division elective. At least half of these credit hours **must** be taken at Marquette University.

## FIVE YEAR B.S./M.S. PROGRAM

This newly created program allows students to receive a bachelor of science degree and a master of science degree in industrial engineering in just five years. Students with qualifying grade point averages enroll in the program during their junior year. They will begin their thesis research the summer between their junior and senior years. Their research laboratory experience will continue the summer between their senior and fifth years and throughout their fifth year, culminating in the preparation of a written thesis and defense.

---

# NON-ENGINEERING MINORS

Students wishing to achieve a minor in business administration, mathematics or computer science should follow the guidelines below. In general, if any other major or minor program is desired, students should consult the appropriate area in the undergraduate bulletin for guidelines and requirements.

## BUSINESS ADMINISTRATION

Completion of the business administration minor allows students to be eligible for a waiver of the foundation requirements in the MBA program. Completion of the minor will be noted on a student's transcript if the following requirements are met:

1. Required Courses		Hours
ECON 043	Principles of Microeconomics <sup>a</sup>	3
ECON 044	Principles of Macroeconomics <sup>a</sup>	3
ACCO 030	Financial Accounting	3
ACCO 031	Managerial Accounting	3
BUEX 002	Computer Literacy in Business <sup>b</sup>	0
MATH 164	Statistical Methods	3
FINA 180	Financial Management	3
MANA 156	Organizational Behavior <sup>c</sup>	3
MARK 140	Introduction to Marketing <sup>c</sup>	3
BUAD Elec.	Upper Div. Business Administration Elective <sup>a</sup>	3
		Total 27

NOTES:

- a. If an upper division economics course is selected to accompany ECON 043, ECON 044, it can be used to satisfy the upper division Business Administration elective, and the three course set can also satisfy the humanities/social sciences requirement.
- b. GEEN 023, 051 or BIEN 001 will substitute for this requirement.
- c. Electrical engineering students may utilize either MANA 156 or MARK 140 as an EECE/Technical elective.

2. A C or better grade must be earned in each course.

**Careful planning with an academic adviser can minimize the number of additional hours beyond the normal graduation requirements to 15-21 hours depending on degree program.**

**MATHEMATICS**

Students in engineering may obtain a minor in mathematics by completing the following course requirements with a grade of C or better in each: **MATH 080, MATH 081, MATH 082, MATH 083, plus nine additional hours of upper division MATH courses.** Overload hours can be minimized or eliminated by consultation with an academic adviser.

**COMPUTER SCIENCE**

Students in engineering may obtain a minor in computer science by completing the following course requirements with a grade of C or better in each: GEEN 023 or 051, COEN 030, COSC 149, COSC 152, and COSC 154 plus three additional hours from the following list of courses: COSC 153, COSC 157, COSC 158, COSC 159, COSC 170. Overload hours can be minimized or eliminated by consultation with an academic adviser.

**PHYSICS**

Students in engineering may obtain a minor in physics by completing the following course requirements with a grade of C or better in each: PHYS 003 and PHYS 004, plus nine additional hours of upper division PHYS courses. Students who take EECE 121 or EECE 122 may not take PHYS 131 or PHYS 132 to satisfy the physics minor requirements.

# COURSE DESCRIPTIONS

## GENERAL ENGINEERING (GEEN)

Director of Freshman Programs: Rockhill

### GEEN 001. Studies for Young Scholars

1 sem. hr.

Exploration of various fields of engineering and study of new and advanced technology. Course topics may differ each year. Courses will include "hands-on" laboratory experience to show students basic engineering applications. Restricted to Young Scholars Program students. S/U grade assessment.

### GEEN 002. Introduction to Digital Computers

1 lec., 1 hr. lab., 2 sem. hrs.

Basic concepts of computer programming in the FORTRAN language. Assigned problems to demonstrate programming techniques. Use of digital computer facilities via remote terminals.

### GEEN 003. Sophomore Orientation

No credit

A one-hour a week series of lectures, discussions etc. to assist beginning sophomores to define more clearly their professional goals by better acquainting them with the many options available as they progress through their remaining years of formal education. Topics include: The cooperative (co-op) plan, graduate school, departmental option areas and the concept of engineering planning of an individual, goal-oriented program. All sophomores required to attend.

### GEEN 010. Introduction to Engineering 1

2 sem. hrs.

Students will be introduced to the tools necessary for their future in school and the design process. The following topics will be presented: study skills, problem solving, and the design process (creativity, solution selection, speaking and writing, and wrap up). Offered fall semester.

### GEEN 011. Introduction to Engineering 2

2 sem. hrs.

Individual departments will give lectures and prepare laboratories to acquaint students with their department to allow students to select the engineering discipline they wish to pursue. Engineering history (all majors) and engineering careers will be the presented topics. Offered fall semester.

### GEEN 022. Introduction to Graphics for Engineers

2 sem. hrs.

Students will learn to visualize and graphically communicate ideas in three-dimensional space. An introduction to utilizing a CAD package also will be presented. Offered spring semester.

### GEEN 023. Introduction to Engineering Computing

2 sem. hrs.

Students will be instructed in basic computer skills for use in future engineering courses. A high-level computer language will be presented. Offered spring semester.

### GEEN 050. Graphic Techniques for Electrical Engineers

1 sem. hr.

Students will learn to make isometric and orthogonal projection sketches as well as ortho-

normal drawings using straight edges and templates. Legos™ and wood block models will be used as visual aids. A brief introduction to a CAD package will be included.

### GEEN 051 Introduction to Computer Programming

3 sem. hrs.

Students will be introduced to modern computer programming languages with an emphasis on object orientated programming. Different programming languages are reviewed and contrasted. An open laboratory with significant programming experiences form an integral part of this course.

### GEEN 120. Ethical Dimensions of Engineering

3 sem. hrs.

Foundations of ethical values and their application to issues in engineering practice. Technology's impact on society. Codes of ethics of engineering societies. Analysis and discussion of conflict cases. Offered spring semester. *Prereq: Preregistration, Jr. stdng.*

### GEEN 130. Appropriate Technology for Non-engineers

3 sem. hrs.

Study of energy-efficient, environmentally-sound, labor-intensive technologies that are controlled by the local community. Basic engineering methods will be learned and applied to biomass, small-scale hydro, agriculture, solar space heating, solar water heating and solar electricity. Emphasis will be on rural, inner-city and third-world country application.

## BIOMEDICAL ENGINEERING (BIEN)

*Acting Chairperson and Professor:* Jeutter  
*Professors:* Brower, Dawson, Harris, Hendee, Horgan(Emeritus), Sances(Emeritus), Seitz  
*Adjunct Professors:* Battocletti, Cowley, Hyde, Larson, Madden, Sarna, J.Smith, Wartier, Wertsch, Yoganandan

*Associate Professors:* Brown, Cariapa, Clough, Marklin, Myklebust, Ropella  
*Adjunct Associate Professors:* Abler, Greene, Hudetz, Nelin, Pintar, Schlager, Soto  
*Assistant Professors:* Goldberg, Johnson, Nagurka, Olson, Silver-Thorn  
*Research Assistant Professor:* Audi  
*Adjunct Assistant Professors:* Bandettini, DeYoe, Donahue, Donnell, Hause, Hettrick, Hubbard, Merker, Myers, Prieto, Rickaby, Toth, Voo

### BIEN 001. Introduction to Biomedical Engineering Methods 1

2 sem. hrs.

Introduction to biomedical engineering design and problem solving using computers. Key elements include flow-charting, statistics, graphics, measurement and error, teamwork and decision-making. Problem-solving elements will be applied to real-world biomedical problems introduced by practicing biomedical engineers as well as faculty. Programming assignments will use existing software packages as well as a high level programming language.

### BIEN 002. Introduction to Biomedical Engineering Methods 2

2 sem. hrs.

Continuation of BIEN 001's professional Biomedical Engineer presentations and more advanced software applications and programming methods. *Prereq: BIEN 001.*

### BIEN 091, 093, 095 and 097. Co-op Work Periods #1, 2, 3, 4

No credit

Registration for approved cooperative education program work assignments is required of all co-op students. Grading and credits are accomplished in the accompanying following term when registered for courses numbered 092S, 094S, etc. Fee.

### BIEN 092, 094, 096 and 098. Co-op Grading Periods #1, 2, 3, 4

1 sem. hr.

Grading for preceding co-op work assignments is accomplished by review of Employer Evaluation Forms, Work Exit Reports, and other materials as required during each term inschool following a work period. S/U grade assessment. A nominal fee is charged for registration for Work Periods. No tuition is charged for Grading Periods.

### BIEN 100. Biomedical Circuits and Electronics

4 sem. hrs.

An experience in electrical circuits (AC and DC), electronic devices (Junction, Transistor, Operational, Amplifier) bridges, digital circuits and Boolean implementation, combinational and sequential logic, memories. Use of P-Spice software. Analysis and design. *Prereq: MATH 083, PHYS 004.*

### BIEN 146. Principles of Design

2 hrs. lec., 2 hrs. lab, 3 sem. hrs.

Methodology of the design process with emphasis on the feasibility and preliminary design phases. Also emphasized is proposal and report writing, and creativity. Group projects from industry with inter-disciplinary topics result in a final written proposal. Offered fall semester. *Prereq: Sr. stdng. or cons. of instr.*

### BIEN 147. Senior Design Project

2 hrs. lec., 2 hrs. lab, 3 sem. hrs.

Senior design project involving student interaction with all phases of the design process. This project will include the definition of requirements; development of specifications; consideration of alternative approaches; economic considerations; and modeling, simulation detailed design, implementation, and verification of operation as appropriate for the particular project. Students will be expected to apply the principles and techniques learned throughout the curriculum. Preparation of a final design report covering all phases of the development effort and all results will be required. Offered spring semester. *Prereq: BIEN 146.*

### #BIEN 151. Topics in Biomedical Engineering

1-3 sem. hrs.

Course content announced prior to each semester. Students may enroll in the course more than once because subject matter changes. Possible topics include biomechanics, experimental methods, neuroanatomy, telemetry, etc. Offered occasionally. *Prereq: Jr. stdng.*

**#BIEN 152. Analysis of Physiological Models** 3 sem. hrs.

Development of continuous (compartmental), and distributed-in-space-and-time mathematical models of physiological systems and molecular events. Analytical and numerical methods for solving differential equations of the initial and boundary value types. Simulation of model response, and estimation of model parameters using linear and nonlinear regression analysis. *Prereq: MATH 083; Jr. stndg.*

**#BIEN 153. Applied Finite Element Analysis in Biomechanics** 3 sem. hrs.

This course will introduce the finite element solution method for linear, static problems. The course will include calculation of element stiffness matrices, assembly of global stiffness matrices, exposure to various finite element solution methods, and numerical integration. Although the course will emphasize structural mechanics, heat transfer and fluid mechanics applications in finite element analysis also will be discussed. Computer assignments will include development of finite element code (FORTRAN or C) and also use of commercial finite element software (ANSYS and/or MARC). *Prereq: ENME 130, and either BIEN 002 or GEEN 040; Sr. stndg.*

**BIEN 155. Signals and Systems for Biomedical Engineering** 4 sem. hrs.

Mathematical models of continuous-time signals and systems are studied in this course. The time domain viewpoint is developed for linear time invariant systems using the impulse response and convolution integral. The frequency domain viewpoint is also explored through the Fourier Series and Fourier Transform. Basic filtering concepts including simple design problems are covered. Application of the Laplace transform to block diagrams, linear feedback, and stability including Bode plots are discussed. The sampling theorem, the Z-Transform, and the Discrete Fourier Transform are introduced. Examples of electrical, mechanical, and biomedical signals and systems are used extensively throughout the course. Offered both semesters. *Prerequisites: MATH 083 and either EECE 012 with a minimum grade of C, EECE/BIEN 100 with a minimum grade of C, or EECE 109 with a minimum grade of C.*

**#BIEN 168. Rehabilitation Engineering: Prosthetics, Orthotics, Seating and Positioning** 3 sem. hrs.

This course will present an overview of biomedical engineering as it applies to Rehabilitation Engineering, specifically, the design and prescription of prosthetic limbs, orthotic devices, and seating and positioning systems. Topics to be covered include: medical terminology, musculoskeletal anatomy, muscle mechanics, soft tissue mechanics, gait/locomotion, amputation surgery, lower extremity prosthetics, lower extremity orthotics, hand function, electromyography, upper extremity prosthetics, upper extremity orthotics, seating and positioning, and assistive devices. *Prereq: ENME 020 or ENME 022.*

**#BIEN 170. Introduction to Biomaterials Science and Engineering** 3 sem. hrs.

This course is designed to introduce the uses of materials in the human body for the purposes of healing, correcting deformities, and restoring lost function. The science aspect of

the course encompasses topics including characterization of material properties, biocompatibility, and past and current uses of materials for novel devices that are both biocompatible and functional for the life of the implanted device. Projects will allow students to focus and gain knowledge in an area of biomaterials engineering that they are interested in. *Prereq: MEEN 060 or cons. of instr.*

**#BIEN 172. Biotechnology Instrumentation** 3 sem. hrs.

The presentation of biotechnology instrumentation will be based on the application of the following topics: boundary value problems (modeling of one and two dimensional distributions of temperature and electric fields); optics (sources, filters, cells, and sensors); control of electric fields; heat transfer and temperature control; motor control for mechanical and fluid movements. The molecular biology and engineering principles will be presented for each type of instrument or process. Students will be expected to analyze and evaluate commercially available systems, and propose design improvements.

**#BIEN 175. Structure-Property Relationship of Biological Materials** 3 sem. hrs.

This course is designed to critically review the structure-property relationships of biological materials. Structure-property relationships for skin, bone, ligaments, tendons, muscle, and organs will be discussed. The effect of pathology, state of the tissue, and age on material properties of tissues and organs will be discussed. This course also critically reviews the testing methods used to obtain mechanical behavior of the biological tissues and organs.

**#BIEN 180. Systems Physiology** 3 sem. hrs. Analyses of the underlying physiologic and bioengineering aspects of the major cell and organ systems of the human from an engineer's point of view. Classic physiologic approaches used to introduce topics including cell functions, nervous system, nerve, muscle, heart, circulation, respiratory system, kidney, reproduction and biomechanics. Design problems including models of cell-organ-system function and problems in biomechanics illuminate topics covered. Computer techniques and relevant instrumentation are incorporated. Experts on related topics are invited to speak as they are available. *Prereq: Jr. stndg.*

**#BIEN 182. Medical Imaging Physics** 3 sem. hrs.

Students learn how light, x-rays, radio-pharmaceuticals, ultrasound, magnetic fields, and other energy probes are generated and how they interact with tissues and detectors to produce useful image contrast. Practical issues such as beam generation, dose limitations, patient motion, spatial resolution and dynamic range limitations, and cost-effectiveness will be addressed. Emphasis is placed upon diagnostic radiological imaging physics, including the planar x-ray, digital subtraction angiography mammography, computed tomography, nuclear medicine, ultrasound, and magnetic resonance imaging modalities. *Prereq: PHYS 004 or cons. of instr.; and Jr. stndg.*

**#BIEN 183. Cardiopulmonary Mechanics** 3 sem. hrs.

Examination of the physiological behavior of the cardiovascular and pulmonary systems from an engineering perspective. Emphasis is on understanding the mechanical basis of physiologic phenomena via experimental models. *Co-prereq: BIEN 180 and BIEN 186 or equivalents or cons. of instr.*

**#BIEN 184. Image Processing for the Biomedical Sciences** 3 sem. hrs.

This course serves as an introduction to biomedical image processing. Topics explored included the human visual system, spatial sampling and digitization, image transforms, spatial filtering, Fourier analysis, image enhancement and restoration, nonlinear and adaptive filters, color image processing, geometrical operations and morphological filtering, image coding and compression image segmentation, feature extraction and object classification. Applications in diagnostic medicine, biology and biomedical research are emphasized and presented as illustrative examples. *Prereq: MATH 081, knowledge of C programming or cons. of instr.*

**BIEN 185. Computer Applications in Biomedical Engineering** 3 sem. hrs.

Design and implementation of personal computer (PC) techniques for data acquisition and analysis in the Biomedical laboratory and clinical environments. Emphasis on data acquisition and algorithm design using the C language. Real time processing of analog signals accomplished during assigned projects on PC workstations. *Prereq: BIEN 002 or GEEN 021 or GEEN 040.*

**BIEN 186. Transport Phenomena for Biomedical Engineers** 3 sem. hrs.

Applications of mass, momentum, and mechanical energy balances to biomedical fluid systems. Study of physiological phenomena with an emphasis on cardiovascular systems and blood rheology. *Prereqs: MEEN 104 and either ENME 020 or 022; or cons. of instr.*

**#BIEN 187. Biomedical Instrumentation Design** 3 sem. hrs.

Problems in instrumentation relating to physiological measurements in the laboratory and clinic. Electronic devices for stimulus as well as measurement of physiological quantities. Design of actual instruments. Features include mechanical design, accessory design and safety requirements. *Prereq: EECE 109 and BIEN 155 or BIEN 100 and BIEN 155 or EECE 111 and EECE 113.*

**BIEN 188. Biomedical Engineering Design Laboratory 1**

2 hrs. lec., 3 hrs. lab., 3 sem. hrs. The use of medical instruments in the hospital environment. Understanding the principles of operation, safe operating procedures and methods of instrument selection. Design of experiments to measure physiological parameters. Actual medical instruments used under approximate clinical conditions. Report writing. *Prereq: EECE 141 and EECE 111.*

**BIEN 189. Biomedical Engineering Design Laboratory 2**

2 hrs. lec., 3 hrs. lab., 3 sem. hrs. Design of circuits used in research and clinical instrumentation. Experiments include the design, fabrication and evaluation of specific

circuits. Typical projects include circuits used for: patient isolation from electrical hazard, measurement of heart rate, multiplexing and demultiplexing and analog to digital conversion. Design projects incorporating microprocessors are also included. Students required to submit reports. *Prereq: BIEN 188 and EECE 143.*

#### **BIEN 191. Biomechanics Instrumentation Design Laboratory 1**

2 hrs. lec., 3 hrs. lab., 3 sem. hrs.  
Intended for those students pursuing the Biomedical Engineering Biomechanics option. The application of principles of engineering mechanics, data acquisition and basic electronics in the design and utilization of biomechanical instrumentation. Principles of transduction, mechanics, sampling theory, strain, temperature and flow measurement as applied to biomechanical systems. A background in data acquisition, electrical safety, operational amplifier and bridge circuits, and measurements is provided. Experiments investigate Biomechanics of the musculoskeletal and cardiovascular systems and include design content. Report writing. *Prereq: ENME 020, ENME 130; and either EECE 109 or BIEN 100.*

#### **BIEN 192. Biomechanics Design Laboratory 2**

2 hrs. lec., 3 hrs. lab., 3 sem. hrs.  
The Biomechanics Design Laboratory provides students with experience in the design and implementation of appropriate experimental procedures to analyze biomechanical problems. Students will become familiar with various types of advanced transducers which will be used in conjunction with data acquisition workstations to obtain thermal, flow, strain and related physiological data from biomechanical systems. Topics include mechanical properties of active muscle; analysis of human motion; postural stability; thermal regulation; cardiovascular mechanics; stress distribution in skeletal system; and comparison of static and dynamic biomechanical responses to load. *Prereq: BIEN 191.*

#### **BIEN 195. Independent Study and Research**

1-4 sem. hrs.  
Undergraduate independent study project of either a theoretical or experimental nature. Offered every semester. *Prereq: Jr. or Sr. stndg.; cons. of instr. and dept. ch. 3.000 Q.P.A. required.*

**# Also carries graduate credit.**

## **CIVIL AND ENVIRONMENTAL ENGINEERING (CEEN)**

*Chairperson, Associate Professor, and Curriculum Coordinator: Wenzel*

*Professors Emeriti: Faherty, Kipp, Murphy, Zanoni*

*Professors: Heinrich, Novotny, Vinnakota*

*Adjunct Professors: Bauer, Goetsch, Kuemmel, Katz,*

*Associate Professors: Crandall, Karshenas*

*Adjunct Associate Professor: Sonntag*

*Assistant Professors: Croveti, Drakopoulos, Foley, Zitomer*

*Adjunct Assistant Professor: Capodaglio, Hajda, Jones, Meus*

#### **CEEN 032. Elementary Surveying**

2 lecs., 3 hrs. lab., 3 sem. hrs.  
Fundamental concepts and theory of engineering measurements; adjustment and use of instruments; computations; errors; measurement of distance, difference in elevation, angles and directions; route surveying, construction surveys. Probability concepts and statistical analysis of field data. Offered fall semester.

#### **CEEN 043. Behavior and Properties of Engineering Materials**

2 lecs., 3 hrs. lab., 3 sem. hrs.  
Introduction to the characteristic properties and the fundamental phenomenological behavior of the materials used by engineers with emphasis on steel, concrete, wood, and asphalt. Laboratory experiment and testing is used to give knowledgeable perception of the behavior when materials are subjected to various loads. Probability concepts and statistical analysis of experimental data. Offered fall semester. *Prereq: ENME 130 which may be taken concurrently.*

#### **CEEN 091, 093, 095 and 097. Co-op Work Period #1, 2, 3, 4 † No credit**

Registration for approved cooperative education program work assignments is required of all co-op students. Grading and credits are accomplished in the accompanying following term when registered for courses numbered 091S, 092S, etc. Offered every semester. *Fee.*

#### **CEEN 092, 094, 096 and 098. Co-op Grading Period #1, 2, 3, 4 † 1 sem. hr.**

Grading for preceding co-op work assignments is accomplished by review of Employer Evaluation Forms, Work Exit Reports, and other materials as required during each term in school following a work period. Offered every semester. S/U grade assessment.

† A nominal fee is charged for registration for Work Periods. No tuition is charged for Grading Periods.

#### **CEEN 110. Structural Analysis 1**

3 sem. hrs.  
Loads on structures, reactions, shears, axial forces and moments in statically determinate structures. Application of arithmetical and computer methods of analysis. Use of influence lines for moving loads. Study of methods for determining deflections in statically determinate structures. Offered spring semester and summer. *Prereq: ENME130.*

#### **#CEEN 111. Structural Analysis 2**

3 sem. hrs.  
Deflections of statically determinate structures by virtual work. Approximate analysis of indeterminate structures, slope deflection, moment distribution. Influence lines for continuous beams. Analysis of non-prismatic beams. Computer implementation of matrix stiffness method for continuous beams, trusses and frames. Introduction to commercial software with modeling issues and applications. Offered fall semester. *Prereq: CEEN 110.*

#### **CEEN 113. Steel Design 1**

3 sem. hrs.  
Interpretation of current codes as related to the physical behavior of steel structures. Design of structural steel members: tension, compression, flexural and beam-columns. Introduction to design of connections. Offered fall semester. *Prereq: CEEN 110.*

**#CEEN 114. Steel Design 2** 3 lecs., 3 sem. hrs.  
Continuation of CEEN 113. Design of beam-columns, plate girders, continuous beams, and composite beams. Design of connections and assemblages. Introduction to the plastic design method. Offered spring semester of alternate years. *Prereq: CEEN 113.*

#### **#CEEN 123. Urban Hydrology and Stormwater Management**

3 sem. hrs.  
Distribution and properties of waters on the earth. Concept of the hydrologic cycle, and basic principles of meteorology, precipitation, streamflow, evapotranspiration, and groundwater flow. Erosion and urban stormwater pollution. Design of urban flood protection and stormwater pollution abatement systems. Offered fall semester. *Prereq: ENME 151.*

#### **CEEN 126. Hydraulic Engineering**

2 lecs., 2 hrs. lab., 3 sem. hrs.  
Fundamentals and applications of hydrostatics and hydrodynamics including pipe flow and pipeline network design, open channel flow, gradually varied flow, hydraulic jump, and spillway design. Pumps and pumping station design. Groundwater flow and seepage. Laboratory assignments and demonstrations. Offered spring and summer semesters. *Prereq: ENME 151.*

#### **#CEEN 127. Water Resources Engineering**

3 sem. hrs.  
Surface waters, groundwater yields, probability concept in water resources design, water laws, reservoirs and dams, open channels and flow regulation, irrigation and drainage, flood damage mitigation, hydroelectric power, water resources economy and planning. Offered spring semester alternate years. *Prereq: CEEN126.*

#### **#CEEN 128. Groundwater Engineering**

3 sem. hrs.  
Physical and chemical properties and principles of groundwater. Groundwater geology and interaction with the hydrologic cycle. Groundwater movement and flow nets. Groundwater contamination. Offered spring semester alternate years. *Prereq: CEEN 126 and CEEN 150.*

#### **CEEN 139. Engineering Fundamentals Review**

1 sem. hr.  
Review of basic science, mathematics, engineering science and economics. Offered every semester. S/U grade assessment. *Prereq: Sr. stndg.*

#### **CEEN 144. Reinforced Concrete Design**

3 sem. hrs.  
Fundamental concepts of reinforced concrete theory and design. Use of current design code for the analysis and design of basic structural members; strength design for flexure, shear and development of reinforcement. Offered fall semester. *Prereq: CEEN 110.*

#### **#CEEN 145. Advanced Strength and Applied Stress Analysis**

3 sem. hrs.  
Basic concepts of mechanics of deformable bodies. Two- and three-dimensional stress-strain relationships and theories of failure. Unsymmetrical bending analyses. Shear flow and shear center. Torsion of thin-walled sections (tubular and non-tubular). Composite beams. Stress concentration. Energy principles: strain and complementary energy. Castigliano's theorem. Offered fall semester. *Prereq: ENME 130.*

**#CEEN 146. Advanced Concrete and Masonry Design** 3 lecs., 3 sem. hrs.

Continuation of CEEN 144, presenting advanced concrete theory and design: introduction to masonry design. Emphasis on code requirements and use of various design aids including computer-aided design. Design of two-way slabs and reinforced concrete structural systems. Design and layout of reinforced concrete and concrete masonry walls. Offered spring semester alternate years. *Prereq: CEEN144.*

**#CEEN 147. Prestressed Concrete Design** 3 sem. hrs.

Introduction to the philosophy and concepts of prestressed concrete design. Study of the historical background, materials and methods of prestressing. Use of current code and basic principles and procedures for the design and analysis of pretensioned and post-tensioned members including calculation of loss of prestress, flexural analysis and design, shear, bond and anchorage requirements, member deflections and cable layouts. Offered spring semester, alternate years. *Prereq: CEEN 144.*

**#CEEN 148. Timber Structures**

2 lecs., 3 hrs. lab., 3 sem. hrs.  
Study of basic wood properties and design considerations. Design and behavior of wood joints, beams, columns and beam columns. Introduction to plywood and glue laminated members. Analysis and design of structural diaphragms and shear walls. Offered fall semester. *Prereq: CEEN 110.*

**#CEEN 149. Bridge Design** 3 sem. hrs.

Overview of the design and analysis of bridges in steel, concrete and timber. Determination of loads acting on bridges and the study of methods for their analysis. Review of different bridge types. Application of design codes for the design of bridge components in steel, concrete and timber. Offered every spring semester, alternate years. *Prereq: CEEN 113 and 144.*

**CEEN 150. Environmental Engineering**

3 sem. hrs.  
Introduction to current environmental problems, community public health and risk assessment. Water resources, the hydrologic cycle, public water supplies, storage and community water usage. Wastewater quantities and characteristics. Review of systems for the treatment of waters and wastewaters. An overview of community air pollution, solid waste, noise pollution and other environmental concerns. Offered fall semester. *Prereq: Jr. stndg.*

**#CEEN 154. Environmental Chemistry**

3 sem. hrs.  
Chemical stoichiometry, equilibrium, and kinetics relating to natural and engineered environmental systems. Basic concepts from organic and inorganic chemistry including oxidation-reduction reactions, acid-base chemistry, the carbonate system, alkalinity, and acidity. Equilibrium and kinetic theories of chemical partitioning among gas, liquid and solid phases governing chemical fate and transport in the environment. Coordination chemistry describing metal-ligand interactions, precipitation, and bioavailability of materials. Offered fall semester. *Prereq: Sr. stndg. and CHEM002.*

**#CEEN 155. Industrial Wastewater Management** 3 sem. hrs.

Review of federal legislation and state regulations with regard to industrial wastewater management practices. Consideration of industrial process modifications and wastewater treatment options with respect to their effect on industrial user fees. Pretreatment standards and discharge permit requirements. Case studies of specific industrial applications. Offered spring semester of alternate years. *Prereq: CEEN 150.*

**#CEEN 156. Treatment Plant Design and Operation** 3 sem. hrs.

Review of water and wastewater characteristics, drinking water, receiving water and effluent standards. Basic design methodology and operational features of common physical, chemical and biological processes for the treatment of waters and wastewaters. Introduction to the processing and disposal of sludges and other treatment plant residuals. Offered fall semester. *Prereq: CEEN 150.*

**#CEEN 157. Hazardous and Industrial Waste Management** 3 sem. hrs.

Overview of hazardous waste management, disposal and soil and ground water remediation. Review of RCRA, CERCLA-SARA, TSCA and Wisconsin's NR 700 and other regulations. Definition of hazardous wastes and characterization of industrial waste stream. Chemical, physical and biological properties of hazardous wastes. Introduction to hazardous waste remediation/ treatment methods and technologies. Landfills and the RCRA Land Ban regulations. Site assessments, field investigations and laboratory analytical techniques. Environmental risk assessments, cleanup objectives and waste minimization. Offered spring semester alternate years. *Prereq: Sr. stndg. or consent of instr.*

**#CEEN 158. Design and Operation of Process Residue Systems** 3 sem. hrs.

The chemical, physical and biological characteristics of residues and sludges generated from water and wastewater treatment operations. Sludge processing methods such as gravity thickening, flotation, aerobic and anaerobic digestion, chemical conditioning, vacuum filtration, centrifugation, and pressure filtration among others considered. Disposal methods such as incineration, wet oxidation, soil spreading and fertilization, lagooning and landfilling are evaluated and compared. Offered spring semester. *Prereq: CEEN156.*

**CEEN 162. Geotechnical Engineering**

2 lecs., 2 hrs. lab., 3 sem. hrs.  
Fundamental properties and the engineering characteristics of soil as a particulate mass aggregate. Origin, the formation and the development of soil deposits, the physical and hydraulic properties and the methods of predicting the behavior of soils for engineering applications are studied. Properties are investigated in the laboratory and reports are required. Offered spring semester. *Prereq: ENME 130.*

**#CEEN 163. Foundation Engineering**

3 sem. hrs.  
Design of foundation members subjected to vertical and eccentric loads. The effects of soil origin and deposition and the current codes

and conventions are analyzed in relation to bearing capacity and settlement of structures. Offered fall semester. *Prereq: CEEN 162.*

**CEEN 170. Introduction to Transportation Engineering** 3 sem. hrs.

Forecasting methodologies—applications in transportation. Airport airside systems, airport ground access systems, the terminal building. Vehicle characteristics, geometric design of roadways-horizontal and vertical alignment. Introduction to transportation planning. Environmental impacts of transportation. Offered spring semester. *Prereq: Jr. stndg.*

**#CEEN 172. Highway Planning and Design** 2 lec., 2 hrs. lab., 3 sem. hrs.

Highway location, classification, and administration. Geometric design of roadways, interchanges, and intersections, including cross-sections and drainage. Structural design of rigid and flexible pavements, pavement construction and maintenance. Offered spring semester. *Prereq: CEEN 170.*

**#CEEN 176. Traffic Characteristics and Design** 3 sem. hrs.

Analysis of basic characteristics of driver, vehicle, and roadway. Accident analysis, traffic flow theory, highway capacity, and traffic control devices. Techniques of traffic engineering measurement, data analysis and methods to improve traffic operation. Offered fall semester every year. *Prereq: CEEN 170.*

**CEEN 180. Introduction to Construction Management** 3 sem. hrs.

Construction contracts, contract bonds, construction funding, cash flow analysis, labor productivity and cost, equipment productivity and cost. Analytical techniques for project planning and scheduling. Construction safety. Offered fall semester. *Prereq: Sr. stndg. or cons. of instr.*

**#CEEN 181. Construction Cost Estimating** 3 sem. hrs.

A review of various cost estimating methods and their applications. Study of quantity take-off techniques used in construction cost estimating. Analysis of labor, material, equipment and indirect costs. Special attention will be given to the preparation of detailed estimates based on quantity take-off and construction productivity. Offered spring semester. *Prereq: CEEN 180 or cons. of instr.; Sr. stndg.*

**#CEEN 182. Computer Applications in Construction** 3 sem. hrs.

Study of information technologies that can be used in supporting the managerial decision making. Computer applications in project scheduling and control. Computer applications in cost estimating. The application of digitizers, spreadsheets and database management systems in construction. Offered spring semester. *Prereq: CEEN 180 and Sr. stndg.; or cons. of instr.*

**#CEEN 184. Construction Seminars** 3 sem. hrs.

Nature of the construction industry. Management and business principles. Risk management. Contractual and legal requirements. Types of construction projects. Labor relations. Innovation and technology application. Offered occasionally. *Prereq: Sr. stndg. or cons. of instr.*

**#CEEN 185. Urban Planning for Civil Engineers** 3 sem. hrs.

Concepts and principles underlying urban planning and development. Land use, transportation, utility, community facility planning problems, procedures, and techniques. The master plan and implementation devices such as zoning, subdivision control, official mapping, capital budgeting, and urban renewal. Offered occasionally. *Prereq: Cons. of instr.*

**#CEEN 188. Topics in Civil Engineering** Variable sem. hrs. (1-3)

Course content announced each semester. Topics may include optimal structural design; computer-aided design and analysis of structural, transportation and wastewater systems; soil structure interaction; structural design for random loadings. Offered occasionally. *Prereq: Cons. of instr.*

**CEEN 189. Civil Engineering Design** 3 lec., 3 hrs. lab., 4 sem. hrs.

Design of selected civil engineering project including planning, preliminary analysis and final design. Different projects are selected each year. Students are assigned to project teams with specific tasks under the direction of a faculty course coordinator. Professional engineer from local firm acts as client and consultant to design team. Emphasis is placed on student initiative, responsibility and resourcefulness in an open-ended project. A final group design report is required. Emphasis on technical communications, professional ethics and engineering practices. Offered spring semester. *Prereq: CEEN 113 and 144; or cons. of instr.*

**CEEN 190. Professionalism, Ethics and Management in Engineering Organizations** 3 sem. hrs.

Fundamentals of engineering professional practice. Emphasis on ethics, codes, safety, consulting benefits and risks. Professional registration and licensing. Responsibilities in a technological society.

**CEEN 195. Independent Study** 1-3 sem. hrs.

Undergraduate independent study project of either a theoretical or experimental nature. Offered every semester. *Prereq: Jr. or Sr. stndg. Cons. of instr. and dept. ch.; 3.00Q.P.A. required.*

**# Also carries graduate credit.**

## ENGINEERING MECHANICS (ENME)

*Curriculum Coordinator and Professor: Widera*  
*Professor: Heinrich, Nigro*  
*Associate Professors: Nagurka, Schimmels, Stango, Weber*  
*Assistant Professors: Drakopoulos, Foley, Majdalani*  
*Adjunct Assistant Professor: Meus*

**ENME 010. Statics** 3 sem. hrs.

Fundamentals of forces and force systems. Application to particles and bodies in equilibrium. Emphasizing vector methods in two and three dimensions. Free body diagrams with and without friction. Centroids and moment of inertia. Offered each semester. *Prereq: MATH 081.*

**ENME 020. Dynamics** 3 sem. hrs.

Fundamentals of motion of particles and rigid bodies. Application of Newton's laws. Principles of position, velocity, and acceleration. Use of work-energy and impulse-momentum methods. Introduction to vibrations. Offered each semester. *Prereq: ENME 010.*

**ENME 022. Statics and Dynamics** 4 sem. hrs.

Fundamentals of forces, force systems and their application to static and dynamic bodies and systems of particles emphasizing vector methods in two and three dimensions. Equations of equilibrium. Friction, applications of Newton's laws, energy and momentum methods. Offered each semester. *Prereq: MATH 081.*

**ENME 130. Mechanics of Materials** 3 sem. hrs.

Fundamentals of stress, strain, axial loading, torsion, bending, transverse loading, stress and strain transformations, beam deflections, energy methods, columns. Offered each semester. *Prereq: ENME 010.*

**ENME 151. Mechanics of Fluids** 3 sem. hrs.

Fundamental conservation laws of mass, momentum, and energy. Properties of fluids, hydrostatics, flow of real fluids in closed and open systems, dynamic similarity, dimensional analysis, compressible flow, and potential fluid flow. Offered each semester. *Prereq: ENME 022 or ENME 020; and MATH 082.*

## ELECTRICAL AND COMPUTER ENGINEERING (EECE) and (COEN)

*Chair and Professor: Hock*  
*Associate Chair, Associate Professor, and Curriculum Coordinator: Schneider*  
*Professor Emeritus and Director of Undergraduate Studies: Moeller*  
*Adjunct Associate Professor and Director of Undergraduate Electrical Engineering Laboratories: Jacoby*  
*Adjunct Assistant Professor and Director of Undergraduate Computer Engineering Laboratories: Povinelli*  
*Associate Professor and Director of Graduate Studies: Richie*  
*Professors Emeriti: Horgan, Ishii*  
*Professors: Arkadan, Demerdash, Harris, Heinen, Joshi, Jeutter, Josse, Matthys, Seitz*  
*Associate Professors: Brown, Feng, Myklebust, Richie, Riedel, Schneider*  
*Adjunct Professor: Lade*  
*Adjunct Associate Professors: Davis, Jodat, Mendez, Schlager*  
*Adjunct Assistant Professors: Doerr, Glusick, Hoepfner, Kennedy, Sarhan, Shana, Schmidt*

## Computer Engineering (COEN)

*Curriculum Coordinator: Riedel*

**COEN 020 Software Methodologies** 3 sem. hrs.

The first course in software engineering, covering the software life cycle, proper selection of

data structures and algorithms, and the availability and choice of programming paradigms for appropriate design and implementation of well-engineered software. An open laboratory and significant programming experiences form an integral part of this course. Offered spring semester. *Prereq: GEEN 051 or COSC 051.*

**COEN 030 Introduction to Computer Hardware and Software** 3 sem. hrs.

Overview of computer hardware: information representation, the control unit, implementation of instruction sets, memories and storage devices, internal bus organization, the arithmetic/logic unit, the input/output unit, interfacing peripherals. Overview of computer software, operating system components: memory management, input/output, file management, scheduling, resource management, layered operating system design, programming languages and language translators, application layer design, software tools, and system design and design process. Programming exercises in 80x86 assembly language and in the JAVA programming language. Offered fall semester. *Prereq: Prereq: GEEN 051 or COSC 051.*

**COEN 091, 093, 095, and 097. Co-op Work Period #1, 2, 3, 4** No credit.

Registration for approved cooperative education program work assignments is required of all co-op students. Grading and credits are accomplished in the accompanying following term when registered for courses numbered 092, 094, etc. Fee.\*

**COEN 092, 094, 096, 098. Co-op Grading Period #1, 2, 3, 4** 1 sem. hr.

Grading for preceding co-op work assignments is accomplished by review of employer evaluation forms, work exit reports, and other materials as required during each term in school following a work period. S/U grade assessment.\*

\*Anominal fee is charged for registration for work periods. No tuition is charged for grading periods.

**COEN 120 Data Structures for Engineers** 3 sem. hrs.

Data structures and their applications. Includes the study of such data structures as lists, stacks, queues, and trees and their related algorithms. Knowledge of the JAVA programming language is a prerequisite. Same as COSC 154. *Prereq: COEN 030 or EECE 190.*

**COEN 121. Analysis of Algorithms** 3 sem. hrs.

Computational complexity and types of algorithms such as divide-and-conquer, greedy, probabilistic, graph transversal, heuristic, and parallel algorithms. Same as COSC 151. *Prereq: COSC 055 or COEN 120 or COSC 154; and either MATH 090 or MATH 145.*

**COEN 122. Formal Languages and Computability** 3 sem. hrs.

The hierarchy of formal languages, automata, and grammars with application to parsing. Limitations of computational processes and the implications of the Church-Turing thesis. Same as COSC 157. *Prereq: Either COSC 055 and MATH 090, or COEN 120, or COSC 154.*

**COEN 123. Compiler Construction**

3 sem. hrs.

Techniques of lexical analysis, parsing, and code generation, including theoretical foundations and the practical concerns of implementations. Same as COSC 170. *Prereq: Either COSC 148 and COSC 157, or COEN 120 or COSC 154, and COEN 122 or COSC 157.*

**COEN 130. Fundamentals of Artificial Intelligence** 3 sem. hrs.

Survey of topics in the field of artificial intelligence with emphasis on the underlying concepts on which intelligent systems are developed (such as production systems, heuristics, the predicate calculus and theorem proving techniques). Same as COSC 159. *Prereq: COSC 152.*

**#COEN 131. Neural Networks and Neural Computing** 3 sem. hrs.

Introduction to artificial neural networks and neural computing. Multi-layer perception models and back propagation. Recurrent and feed-forward associative neural networks. Kohonen models and counter-propagation networks. Adaptive resonance theory and Boltzmann machines. Simulated annealing. Applications include: optimization, pattern recognition in signal processing and control algorithms. *Prereq: COEN 030 or EECE 190 or COSC 148, and Sr. stndg. with a 3.000 Q.P.A. or better; or cons. of instr.*

**#COEN 132. Expert Systems** 3 sem. hrs.

Introduction to artificial intelligence and expert systems. Knowledge presentation and the knowledge base. Knowledge acquisition. Inference engines. Forward and backward chaining. Case-based reasoning and hybrid expert systems. Applications for expert systems. *Prereq: COEN 030 or EECE 190 or COSC 148, and Sr. stndg. with a 3.000 Q.P.A. or better; or cons. of instr.*

**COEN 140. Computer Engineering Laboratory** 3 sem. hrs.

This is a three-credit hour laboratory course which reinforces concepts in computer architecture and systems software courses. Laboratory exercises include: designing, building, and testing circuits using SSI and MSI components, as well as design and implementation of a variety of operating system utility software. Topics include machine level representation of data, interfacing, communication, process synchronization, device management, and file systems. *Prereq: COEN 171, COEN 180 and EECE 143.*

**COEN 146. Principles of Design** 3 sem. hrs.

Methodology of the design process with emphasis on the feasibility and preliminary design phases. Also emphasized is proposal and report writing, and creativity. Group projects from industry with interdisciplinary topics result in final written proposal. Offered fall semester only. *Prereq: Sr. stndg. or Co-ops with Jr. stndg.*

**COEN 147. Senior Design Project**

3 sem. hrs.

Senior design project involving student interaction with all phases of the design process. This project will include: the definition of requirements; development of specifications; consideration of alternative approaches; economic considerations; and modeling, simulation, detailed design, implementation, and verification of

operation as appropriate for the particular project. Students will be expected to apply the principles and techniques learned throughout the curriculum. Preparation of a final design report covering all phases of the development effort and all results will be required. Offered spring semester only. *Prereq: Sr. stndg.*

**COEN 150. Principles of Database Systems** 3 sem. hrs.

The internal, conceptual, and external levels of database systems as reflected in the relational, network, and hierarchical database models. Query languages. File organizations appropriate for database systems. Principles and methods for database designs. Offered fall semester. *Prereq: COEN 120 or COSC 055 or COSC 154.*

**#COEN 151. Introduction to Computer Graphics** 3 sem. hrs.

Introduction to computer graphics algorithm design and implementation involving considerable actual computer graphics experience. Topics include: point-plotting and line-drawing techniques, two-dimensional curve fitting, two- and three-dimensional graphics, clipping, windowing, hidden line removal, modeling, input-output devices, and other topics as future trends dictate. DESIGN ELECTIVE. *Prereq: Proficiency in at least one high level computing language.*

**#COEN 152. Microcomputer Interfacing** 3 sem. hrs.

The study of microprocessors, memory, peripherals and integrated circuits used in the design of microcomputer systems. Examples, homework and design projects using specific devices from a variety of manufacturers. Design validation with computer-aided circuit simulation software. DESIGN ELECTIVE. Offered fall semester. *Prereq: COEN 171 or EECE 191.*

**COEN 160 Numerical Analysis** 3 sem. hrs.

Numerical solution of algebraic and transcendental equations, linear systems and the algebraic equations, numerical solution of differential equations and finite difference methods. Offered fall semester. Same as COSC 146. *Prereq: MATH 081 and either COSC 051 or GEEN 051.*

**#COEN 161. Information and Coding Theory** 3 sem. hrs.

Introduction to information measure, mutual information, self-information, entropy, encoding of information, discrete and continuous channels, channel capacity, error detection, error correcting codes, group codes, cyclic codes, BCH codes, convolution codes, and advanced codes. Offered alternate years. *Prereq: Sr. stndg. with a 3.000 Q.P.A. or better or cons. of instr.*

**#COEN 168. Topics In Computer Engineering** 3 sem. hrs.

Course content is announced prior to each semester. Students may enroll in the course more than once because subject matter changes. *Prereq: Cons. of instr.*

**#COEN 170 Advanced Switching Theory and Design** 3 sem. hrs.

Advanced topics applicable to the design of large-scale digital systems. Theory of synchronous and asynchronous functions. Algorithmic State Machine design methods. Concepts of

state assignment. Implementation with MSI, LSI and programmable logic. Design of Linked Machines. Register Transfer Language description of processor control algorithms as a design tool. Reed-Muller algebraic descriptions. Linear sequential circuit design of digital filters. DESIGN ELECTIVE. *Prereq: EECE 143 which may be taken concurrently, and EECE 112.*

**#COEN 171 Computer Hardware** 3 sem. hrs.

Overview of computer system design. Cost and performance specification. Design of arithmetic and logic units. Fundamentals of central processor architecture and a comparative study of computer instruction set architectures. Detailed study of microprocessors, including instruction, execution timing and other timing considerations. Discussions of memory and I/O devices, including the interfaces to the CPU and I/O transfer techniques. Study of common bus standards. Offered spring semester. *Prereq: EECE 112 and either COEN 030 or EECE 190 or COSC 148. (All but COSC 148 with a minimum grade of C.)*

**#COEN 172. Microprocessor System Design** 3 sem. hrs.

The study of microprocessors, memory, peripherals and integrated circuits used in the design of microcomputer systems. Examples, homework, and design projects using specific devices from a variety of manufacturers. Design validation with computer-aided circuit simulation software. DESIGN ELECTIVE. *Prereq: COEN 171 or EECE 191.*

**#COEN 173. Computer Architecture** 3 sem. hrs.

Review of basic computer architecture. Evaluation of architecture performance. Design and evaluation of instruction sets. Pipeline processors and instruction scheduling. Vector processors. Memory hierarchy and design including cache, main and virtual memories. Memory protection schemes. Input/output and its relation to system performance. Offered fall semester. *Prereq: COEN 171 or EECE 191, and Sr. stndg. with a 3.000 Q.P.A. or better or cons. of instr.*

**#COEN 174. Fault-tolerant Computing** 3 sem. hrs.

Goals and applications of fault-tolerant computing. Conventions in fault-tolerant computing. Design techniques using hardware, information, time and software redundancy. Evaluation of systems using quantitative and qualitative methods. Design of fault-tolerant systems. Testing and test pattern generation. Design for testability and testability analysis. Offered spring semester alternate years. *Prereq: COEN 173 or EECE 217, and Sr. stndg. with a 3.000 Q.P.A. or better or cons. of instr.*

**#COEN 175. Parallel Computing** 3 sem. hrs.

Basic approaches for parallel computing. Hypercubes, meshes, systolic arrays and general approaches. Algorithms for parallel computing systems. Advanced topics from recent research literature including memory and I/O design, proposed architectures and their implementation and other areas of current interest. Offered spring semester alternate years. *Prereq: COEN 173 or EECE 217, and Sr. stndg. with a 3.000 Q.P.A. or better or cons. of instr.*

**#COEN 180. Software Systems** 3 sem. hrs.  
This is a three-credit hour course providing an overview of the major issues in the design and implementation of operating systems and language translators. Operating systems topics include: tasking and processing, process coordination and synchronization, scheduling and dispatch, physical and virtual memory organization, device management, file systems, security, communications and networking. Language translation topics include storage management, finite state automata and regular expressions, context-free grammars and push-down automata, code translation and optimization techniques, and programming language semantics. *Prereq: COEN 020; and either COEN 120 or COSC 154.*

**#COEN 181. Software Engineering**  
3 sem. hrs.  
Fundamental software engineering methodologies are emphasized. Structure program design and Warner/Orr diagrams, logical input/output definition and design, logical process design, coding and test, software life-cycle, software requirements and configurations, function-oriented and object-oriented approaches, user interface and real-time system designs, and Computer-Aided Software Engineering (CASE) tools. DESIGN ELECTIVE. *Prereq: COEN 030.*

**#COEN 182. Algorithm Analysis and Applications** 3 sem. hrs.  
Concepts of software design and problem solving methodologies. Review of data structures. Algorithm efficiency and correctness analysis. Stages in program design. Problem solving strategies using artificial intelligence concepts and non-algorithm approaches. Heuristic search and expert systems. Parallel algorithms. NP-completeness. Software life-cycle, requirements and configurations, function-oriented design and human interface design. Computer-Aided Software Engineering (CASE) tools. *Prereq: COEN 030 or EECE 190 and COEN 120 or COSC 154, and Sr. Stndg. with a 3.000 Q.P.A. or better or cons. of instr.*

**COEN 183. Operating Systems** 3 sem. hrs.  
Fundamental concepts of operating systems including: memory management, scheduling, concurrent processing, device management, file systems, networking, security, and system performance. Examples are drawn from legacy and modern operating systems. Same as COSC 149. *Prereq: Either COSC 055 and 148, or COEN 120, or COSC 154.*

**COEN 195. Independent Study**  
1-4 sem. hrs.  
Undergraduate independent study project of either a theoretical or experimental nature. *Prereq: Jr. or Sr. stndg., cons. of instr. and dept. chr., and 3.000 Q.P.A.*

**# Also carries graduate credit.**

## Electrical Engineering (EECE)

**EECE 010. Electronic Devices and Applications** 3 sem. hrs.  
Electronic components are discussed including semiconducting diodes, bipolar junction transistors, field effect transistors, etc. These devices will be analyzed from their terminal characteris-

tics and their behavior in representative electronic circuits. Applications for devices include simple power supply analysis and design, class A amplifier analysis including transistor biasing and stability analysis, simple digital logic gates, etc. Offered spring semester. *Prereq: EECE 011 with a minimum grade of C.*

**EECE 011. Electric Circuits 1** 3 sem. hrs.  
Kirchhoff's laws. Mesh, nodal, general nodal and loop analysis of resistive circuits. Linearity and superposition. Source transformations. Thevenin's and Norton's theorems. Natural and forced response of transient circuits of first and second order. Computer analysis and design of linear circuits. Offered fall semester. *Prereq: MATH 081 which may be taken concurrently.*

**EECE 012. Electric Circuits 2** 3 sem. hrs.  
Sinusoidal steady-state response. Frequency response. Average power and rms values. Complex power. Polyphase circuits. Complex frequency and frequency response. Magnetically coupled circuits. Two-port networks. Laplace transform theory and applications. Computer analysis and design of linear circuits. Offered spring semester. *Prereq: EECE 011 with a minimum grade of C.*

**EECE 041. Circuits Laboratory 1**  
1 lec., 2 hrs. lab., 1 sem. hrs.  
Introduction to circuit design, construction, and test. The basics of circuit construction techniques and electronic test measurement skills are covered. Circuit components such as resistors, inductors, capacitors and op-amps are used. Emphasis placed on DC and transient response of circuits. *Coreq: EECE 011.*

**EECE 042. Circuits Laboratory 2**  
1 lec., 2 hrs. lab., 1 sem. hrs.  
Circuit design, construction, and test skills are expanded to include diode circuits and transistor amplifiers as well as passive and active filters. Emphasis placed on DC, AC and transient response of circuits containing passive and active devices. *Prereq: EECE 011 with a minimum grade of C and EECE 041 with a minimum grade of C. Coreq: EECE 010 and EECE012.*

**EECE 091, 093, 095, and 097. Co-op Work Period #1, 2, 3, 4** No credit  
Registration for approved cooperative education program work assignments is required of all co-op students. Grading and credits are accomplished in the accompanying following term when registered for courses numbered 092, 094, etc. *Fee:†*

**EECE 092, 094, 096, 098. Co-op Grading Period #1, 2, 3, 4†** 1 sem. hr.  
Grading for preceding co-op work assignments is accomplished by review of Employer Evaluation Forms, Work Exit Reports, and other materials as required during each term in school following a work period. S/U grade assessment. †  
† A nominal fee is charged for registration for Work Periods. No tuition is charged for Grading Periods.

**EECE 100. Electric Circuits and Electronics**  
4 sem. hrs.  
An experience in electrical circuits (AC and DC), electronic devices (junction, transistor, operational amplifier), bridges, digital circuits

and Boolean implementation, combinational and sequential logic, memories. Use of P-Spice software and Laplace transform. Analysis and design. This course may not be taken for credit by students in the Electrical Engineering program. *Prereq: MATH083 and PHYS 004.*

**EECE 109. Electric Circuits and Machinery**  
3 sem. hrs.  
Circuit modeling; basic solution methods for d-c and a-c circuits; d-c and a-c machines. This course may not be taken for credit by students in the electrical engineering curriculum. *Prereq: PHYS 004.*

**EECE 111. Analog Electronics** 4 sem. hrs.  
Analysis and design of analog electronic circuits. Low and high frequency models for both bipolar and field effect transistors. Design features and operating characteristics of integrated linear circuits with emphasis on operational amplifiers and op-amp circuits. Offered spring semester. *Prereq: EECE 010 with a minimum grade of C, and EECE 012 with a minimum grade of C.*

**EECE 112. Digital Electronics** 4 sem. hrs.  
Introduces students to the basic principles of digital circuit analysis and design. Topics covered include: Boolean Algebra, number systems, basic logic gates, standard combinational circuits, combinational design, timing diagrams, flip-flops, sequential design, standard sequential circuits and programmable logic devices. Offered fall semester. *Prereq: Jr. stndg.*

**EECE 113. Linear Systems Analysis**  
4 sem. hrs.  
Mathematical models of continuous-time and discrete-time signals and systems are studied in this course. The time domain viewpoint is developed for linear time invariant systems using the impulse response and convolution integral. The frequency domain viewpoint is also explored through the Fourier Series and Fourier Transform. Basic filtering concepts including simple design problems are covered. Application of the Laplace transform to block diagrams, linear feedback, and stability including Bode plots are discussed. The sampling theorem, the Z-Transform, and the Discrete Fourier Transform are introduced. Examples of electrical, mechanical, and biomedical signals and systems are used extensively throughout the course. Offered both semesters. *Prereq: EECE 012 with a minimum grade of C, or EECE 100 with a minimum grade of C, or BIEN 100 with a minimum grade of C, and EECE 109 with a minimum grade of C, and MATH 083.*

**EECE 114. Physical Principles of Solid State Devices** 3 sem. hrs.  
Fundamental physical principles of solid state devices are presented. The operation of modern semiconductor devices is explained from first principles and these principles are used to extend the students' knowledge of devices used in electronic circuits. Offered fall semester. *Prereq: PHYS 004, EECE 010 with a minimum grade of C, and EECE 121 with a minimum grade of C.*

**EECE 121. Electromagnetic Fields 1**  
4 sem. hrs.  
Development and use of the point and integral forms of Maxwell's equations for static and quasi-static electric and magnetic fields with

emphasis placed on the vector nature of these fields. Includes analytic and computational solutions to field's problems. The wave equation for E.M. fields is derived and discussed. Offered fall semester. *Prereq: MATH 082, PHYS 004, EECE 012, with a minimum grade of C, and knowledge of a higher level computer language.*

**EECE 122. Electromagnetic Fields 2**  
3 sem. hrs.

Development and use of Wave Equations as derived from Maxwell's equations to explain the propagation of electromagnetic waves. Includes treatment of physical optics, antennas, waveguides and transmission lines. Offered spring semester. *Prereq: EECE 121 with a minimum grade of C.*

**EECE 123. Electromechanical Energy Conversion** 3 sem. hrs.

Application of electromagnetic field and circuit theory to electromechanical energy conversion systems. Solutions for the magnetic fields, electromagnetic and electrostatic induced forces, and equivalent circuits using conservation of energy principles applied to electromagnetic, electrostatic-type electromechanical energy conversion devices. Offered spring semester. *Prereq: EECE 121 with a minimum grade of C.*

**#EECE 131. Products Liability and Engineering Safety** 3 sem. hrs.

A study of the constraints society places on engineers and engineering managers to promote the safety of products, systems, processes and workplaces. Brief introduction to Products Liability Law and its impact on technical personnel and programs. Presentation of the design and promulgation of voluntary and mandatory safety standards, codes and laws having local, state and federal origins. Selected regulatory bodies will be studied in depth. Experts on topics invited to speak as they are available. Analysis and design projects. *Prereq: Sr. stdng. and/or industrial experience.*

**#EECE 132. Product Safety Engineering**  
3 sem. hrs.

A study of hazard analysis techniques and human factors principles used to minimize defects of design and manufacturing, thereby reducing the probability of producing products, systems and processes containing unacceptable hazards and their accompanying risk of injury. Case studies of product, system and process development, including conception, design, manufacture, packaging, etc., with reference to legal precedents as well as the state of technology. Projects will include safety program design, design review, fault-free design and the design of other hazard discovery techniques. DESIGN ELECTIVE. *Prereq: Sr. stdng. and/or industrial experience.*

**EECE 141. Electrical Instrumentation**

**Laboratory** 1 lec., 3 hrs. lab., 2 sem. hrs. Develops familiarity with typical electronic instruments and terminology. Combines theory with experience to analyze and design electrical networks. Learning experimental technique and documentation. Offered fall semester. *Prereq: EECE 010 with a minimum grade of C; EECE 012 with a minimum grade of C, and EECE 041 with a minimum grade of C.*

**EECE 142. Analog Electronics Laboratory**

1 lec., 3 hrs. lab., 2 sem. hrs. Gaining experience in the design, assembly, testing, and trouble-shooting of analog electronic circuits. Experiments encompass a wide range of topics such as: amplifiers, filters, power supplies, power control, oscillators, and communication circuits. Transistors, op-amps, general purpose, and specific purpose devices are used. Offered fall semester. *Prereq: EECE 111 with a minimum grade of C; EECE 141 with a minimum grade of C.*

**EECE 143. Digital Electronics Laboratory**

1 lec., 3 hrs. lab., 2 sem. hrs. Gaining experience in the design, assembly, testing, and trouble-shooting of digital electronic circuits. Experiments encompass a wide range of topics such as: basic logic gates, integrated circuit specifications, Boolean algebra implementations, standard combinational circuits, sequential circuit design, standard sequential circuits, programmable logic devices, digital interfacing, and microprocessors. 7400 series ICs, PALs, PROMs, and microprocessor devices are used. Offered both semesters. *Prereq: EECE 112 with a minimum grade of C; EECE 041 with a minimum grade of C; and either EECE 190, COEN 030, or BIEN185 which may be taken concurrently.*

**EECE 145. Advanced Electrical Engineering Laboratory**

2 lec., 2 hrs. lab., 3 sem. hrs. Project-based laboratory experience in the design, assembly and testing of advanced electronic and electrical systems. Course content announced prior to each semester. Students may enroll in the course more than once as the content of the course changes. Possible topics for the advanced laboratory experience include (but are not limited to) advanced electromagnetic system design, optical and high frequency electronics, nonlinear control systems, motor control circuits and systems, power electronics, communications circuits, integrated microelectronic circuit design and fabrication (VLSI), advanced analog system design, advanced digital system design, microprocessor system-level design. Instruction and use of the appropriate test and measurement tools for design, assembly and testing of systems. Offered spring semester. *Prereq: As appropriate to course content with cons. of instr.*

**EECE 146. Principles of Design**

2 hrs. lec., 2 hrs. lab., 3 sem. hrs. Methodology of the design process with emphasis on the feasibility and preliminary design phases. Also emphasized is proposal and report writing, and creativity. Group projects from industry with interdisciplinary topics result in a final written proposal. Offered fall semester only. *Prereq: Sr. stdng. or co-ops with Jr. stdng.*

**EECE 147. Senior Design Project**

2 hrs. lec., 2 hrs. lab., 3 sem. hrs. Senior design project involving student interaction with all phases of the design process. This project will include: the definition of requirements; development of specifications; consideration of alternative approaches; economic considerations; and modeling, simulation, detailed design, implementation, and verification of operation as appropriate for the particular

project. Students will be expected to apply the principles and techniques learned throughout the curriculum. Preparation of a final design report covering all phases of the development effort and all results will be required. Offered spring semester only. *Prereq: Sr. stdng.*

**#EECE 150. Control Systems** 3 sem. hrs.

Review of continuous-time linear systems. Time-domain system analysis. Time-domain design of lead/lag and PID controllers. Root-Locus technique. Frequency-domain system analysis including Nyquist, Bode, and Nichols analysis and relative stability. Frequency-domain design/lag and PID controllers. DESIGN ELECTIVE. *Prereq: EECE 113.*

**#EECE 151. Topics in Computers and Control** 3 sem. hrs.

Course content announced prior to each semester. Student may enroll in the course more than once because subject matter changes. Possible topics include microprogramming, microcomputer topics, computer architecture, optimization techniques, random processes, nonlinear control systems, motor control circuits, and large scale systems design. *Prereq: Cons. of instr.*

**#EECE 152. Introduction to Communication Systems** 3 sem. hrs.

Orthogonality and signal representation. The Fourier transform and applications, power spectral density, amplitude modulation, angle modulation, pulse modulation, frequency modulation and digital transmission. *Prereq: EECE 113.*

**#EECE 153. Digital Control Systems**  
3 sem. hrs.

Review of sampling processes, discrete time linear systems analysis and z-transforms. Discrete time and sampled data state-variable analysis. Stability analysis, time domain and frequency-domain analysis and design. Analysis, design and computer implementation of digital algorithms and control systems. DESIGN ELECTIVE. *Prereq: EECE 113 with a minimum grade of C.*

**#EECE 157. Digital Signal Processing**  
3 sem. hrs.

Mathematical descriptions of discrete-time signals and systems are presented using block diagrams, signal flow graphs, and difference equations. The sampling and reconstruction of continuous-time signals is presented. Frequency analysis techniques are covered, including the z-transform, the Discrete Fourier Transform, and the Fast Fourier Transform. Simple digital filter design examples are presented. *Prereq: EECE 113.*

**#EECE 160. Electrical Properties of Solids**  
3 sem. hrs.

Electrical properties of solids are explained in terms of various physical models. The role of crystallinity, defects (point, line, surface and volume), and microstructure are explored. *Prereq: EECE 114.*

**#EECE 161. Dielectric Properties of Material**  
3 sem. hrs.

The principles governing dielectric breakdown and dielectric polarization in materials are explored. These are related to the microscopic and macroscopic nature of materials. *Prereq: EECE 012, EECE 121.*

**#EECE 162. Device Electronics** 3 sem. hrs.  
Analysis and design of solid state devices for use in integrated circuits. Topics covered include: physics of semiconductor materials, metal-semiconductor contacts, p-n junctions, bipolar transistors, properties of metal-oxide-silicon system, and MOS field effect transistors. Emphasis is placed on the design of solid state devices, and on their applications in integrated circuits. DESIGN ELECTIVE. *Prereq: EECE 111, EECE 121.*

**#EECE 164. Integrated Microelectronic Circuits** 3 sem. hrs.  
Basic processing technology of integrated circuits, passive components and their parasitic effects, MOS transistors, bipolar transistors and diodes, design of silicon integrated circuits. Emphasis is placed on the design of circuits to meet given requirements. DESIGN ELECTIVE. *Prereq: EECE 112.*

**#EECE 165. Design with Analog Integrated Circuits** 3 sem. hrs.  
This course focuses on the design of analog circuits using "standard" analog integrated circuits as building blocks. Since this course deals mostly with the design aspects, "rules of thumb" pertinent to the design process are described and discussed. The following topics are covered in this course: power supply design, op-amp circuit design, active filter design, analog and digital display circuits, passive component selection and miscellaneous analog integrated circuits and their applications. Students design a series of circuits during the course of the semester which form the individual building blocks of a more complicated analog circuit package. DESIGN ELECTIVE. *Prereq: EECE 111, EECE 142.*

**#EECE 168. Topics in Electrical Engineering** 3 sem. hrs.  
Course content is announced prior to each semester. Students may enroll in the course more than once because subject matter changes. *Prereq: Cons. of instr.*

**#EECE 170. Microwave Principles** 3 sem. hrs.  
Microwave transmission line theory and design. Microwave impedance matching techniques and designs. Theory, design and application of waveguide components, non-reciprocal devices, resonators, and antennas. Microwave measurement system design. Theory, design and application of microwave thermionic devices, solid state devices and quantum electronic devices, in microwave communication, navigation and application. DESIGN ELECTIVE. *Prereq: EECE 111, EECE 122.*

**#EECE 171. Masers and Lasers** 3 sem. hrs.  
Quantum mechanics for electronic engineering. Basic principles of masers and lasers. Theory and design of gas and solid masers. Theory and design of gas, crystal, semiconductor and liquid lasers. Basic principles and design of nonlinear optics, optical harmonic generators, parametric devices and modulators. Theory and design of holograms and optical demodulation techniques. DESIGN ELECTIVE. *Prereq: EECE 111 and 121; or cons. of instr.*

**#EECE 172. Analysis, Design and Application of High Frequency and Optical Electronics** 3 sem. hrs.  
Design of high frequency and optical oscillators, modulators, amplifiers, multipliers, transmission lines and impedance matching circuits, detectors, and mixers. Design and applications in domestic electronics, navigational, industrial, biological, medical and scientific technology are reviewed. Design in radio frequency, microwave and optical communication, navigation and applied systems. DESIGN ELECTIVE. *Prereq: EECE 111, EECE 122.*

**#EECE 173. Optical Fiber Communications** 3 sem. hrs.  
Fundamental principles and theories of optical fiber systems are introduced and developed. Review of electromagnetic principles of waveguides. Step-Index and Graded-Index, single and multimode fibers. Signal analysis in optical fibers: mode interaction, attenuation, dispersion and pulse spreading. Operating characteristics of optical sources and photo-receivers with impact on system performance. Coupling to a fiber and distribution system. Optical fiber communication system design. DESIGN ELECTIVE. *Prereq: EECE 121, Sr. stdg.*

**#EECE 174. Antenna Theory and Design** 3 sem. hrs.  
Design and use of antennas of varying types, including wire, broadbands, horn, and reflector antennas in transmitting and receiving applications. The application and design of antenna arrays, and an introduction to diffraction theory. Offered occasionally. DESIGN ELECTIVE. *Prereq: EECE 122.*

**#EECE 175. Wireless Communications** 3 sem. hrs.  
Fundamentals, analysis and design of cell systems, including trunking theory and grade of service. Large scale and small scale path loss analysis and modeling. Overview of modulation techniques, including amplitude and frequency modulating, and digital modulation techniques. DESIGN ELECTIVE. *Prereq: EECE 113 and EECE 121.*

**#EECE 176. Sensor Devices: Theory, Design and Applications** 3 sem. hrs.  
Sensor classification and transduction principles. Fundamental principles and theory of operation of various types of sensors, based on various technologies which include optical, electrical, acoustical, thermal, magnetic, mechanical and chemical. Analysis of sensor signals. Study of sensor characteristics which include hysteresis, non-linearity, saturation, repeatability, sensitivity, selectivity and resolution. Design and practical implementations of various sensors for scientific, industrial and consumer applications. DESIGN ELECTIVE. *Prereq: Sr. stdg.*

**#EECE 181. Power Electronics** 3 sem. hrs.  
Fundamental concepts, techniques, and methods for design and analysis of power electronic systems. Modeling of semiconductor switching devices for use in power electronic systems. Practical aspects and power electronic conversion techniques for rectifiers, DC-to-DC converters, DC-to-AC inverters and their applications in power electronic systems. DESIGN ELECTIVE. *Prereq: EECE 111, EECE 113.*

**#EECE 182. Power Systems** 3 sem. hrs.  
Elements of electric power systems; fundamental concepts and techniques for design and analysis; per unit system; load flow; economic dispatch; symmetrical components; balanced and unbalanced fault calculations, system instrumentation and power system protection. DESIGN ELECTIVE. *Prereq: EECE 012, EECE 113.*

**#EECE 183. Special Topics in Power Systems and Devices** 3 sem. hrs.  
Course content announced prior to each semester. Students may enroll in the course more than once because subject matter changes. Possible course subjects are power electronics for machine and drive systems, electrical transients, faults and protection in power systems, and advanced topics in the electric power engineering area. *Prereq: Cons. of instr.*

**#EECE 184 Applied Finite Elements in Electromagnetics** 3 sem. hrs.  
Introduction to finite element (FE) analysis as applied to linear and static electromagnetic field problems. Review of basic field formulations using Maxwell's electromagnetic field equations, solution of boundary value problems using the finite difference methods, FE formulations, assembly of elemental and global matrices, pre-processing, post-processing. Application of the FE method using one-dimensional and two-dimensional elements, magnetostatic and electrostatic analysis, and the use of commercially available software packages. *Prereq: EECE 121 or equivalent.*

**#EECE 185 Design and Analysis of Electric Motors in Adjustable Speed Drives** 3 sem. hrs.  
Principles of design of ac and dc electric machines, in particular design of electric motors in power electronically controlled adjustable speed drives, torque and power to volume analysis under constant volts per hertz torque-speed control. Design of ac induction, synchronous, universal and dc conventional as well as brushless dc motors, and low horsepower motors in adjustable speed drives is covered. Effects of space and time harmonics on motor design and performance are covered including harmonic abatement for control of torque pulsation. Modern modeling techniques are studied and used throughout. DESIGN ELECTIVE. *Prereq: EECE 012, EECE 121, and EECE 123; or their equivalents.*

**#EECE 186 Principles of Design of Power Systems Protection and Monitoring** 3 sem. hrs.  
Principles of design of relay and sensor systems for detection of faulty operating conditions in electric generators, transformers, power transmission lines, motors and other loads in power systems. Balanced and unbalanced faults include single and multiple unbalances. Design and hierarchical coordination of protection systems for interconnected generation, transmission and distribution facilities in power systems. This includes integrated generator-transformer-busbar-transmission line-load protection and analysis of operation under fault conditions. DESIGN ELECTIVE. *Prereq: EECE 012, EECE 121, and EECE 123; or their equivalents.*

### #EECE 187 Electrical Transients and Surges in Power Systems and Devices

3 sem. hrs.

The study of microsecond fast transients in power systems and devices resulting from lightning strokes, switching surges in power systems and devices, as well as impulse surges resulting from pulse width modulation in modern adjustable speed drives, using distributed parameter models and analysis of transmission lines and windings of transformers, generators and motors. Successive reflections, transition points, wavefront flattening techniques and surge arrestor design applications for voltage buildup reduction and control are studied. Polyphase multi-velocity multi-conductor system transients are included. DESIGN ELECTIVE. *Prereq: EECE 012 and EECE 121; or their equivalents.*

### EECE 195. Independent Study

1-4 sem. hrs.

Undergraduate independent study project of either a theoretical or experimental nature. *Prereq: Jr. or Sr. stdng.; cons. of instr. and dept. ch.; 3.000 Q.P.A. required.*

# Also carries graduate credit.

## INDUSTRIAL ENGINEERING (INEN)

*Interim Chairperson and Professor: Fournelle  
Curriculum Coordinator and Associate  
Professor: Cariapa*

*Professor Emeritus: Matar*

*Associate Professor: Marklin*

*Assistant Professors: Domblesky, Rice*

*Adjunct Professor: Stilp*

### INEN 091, 093, 095 and 097. Co-op Work Period #1, 2, 3, 4 No credit

Registration for approved cooperative education program work assignments is required of all co-op students. Grading and credits are accomplished in the accompanying following term when registered for courses numbered 092, 094, etc. Offered every semester. *Fee.*

### INEN 092, 094, 096 and 098. Co-op Grading Period† 1 sem. hr.

Grading for preceding co-op work assignments is accomplished by review of Employer Evaluation Forms, Work Exit Reports, and other materials as required during each term in school following a work period. Offered every semester. S/U grade assessment.

†A nominal fee is charged for registration for Work Periods. No tuition is charged for Grading Periods.

### INEN 120. Engineering Economy

2 sem. hrs.

Economic analysis for engineering and managerial decisions in the firm, value analysis, equipment replacement, evaluation of competing projects, inflation, cash flows, tax problems, depreciation, time value of money and various techniques of analyzing and reducing costs. Offered every semester.

### INEN 130. Optimization of Industrial Systems 3 sem. hrs.

Introduction to deterministic mathematical programming. Topics will include linear programming, duality, transportation problems, assign-

ment problems, integer programming formulation, and goal programming. Offered spring semester. *Prereq: GEEN 020, MATH 083, and INEN 140; or equivalent.*

**#INEN 131. Industrial Simulation** 3 sem. hrs.  
General principles of stochastic simulation. Use of FORTRAN and general purpose simulation languages to simulate integrated systems in manufacturing and service industry such as material handling, production and inventory control, facility layout, and quality control. Offered fall semester. *Prereq: GEEN 020 and INEN 140; or equivalent.*

**INEN 140. Engineering Statistics** 3 sem. hrs.  
This course covers the solution of non-deterministic problems in engineering along with the application of statistics to engineering effort in areas such as design, tolerancing, material selection, process selection, and reliability and quality controls. The course will also cover the application and limitations of inferential statistics in engineering. Offered spring semester. *Prereq: MATH 081.*

### INEN 143. Manufacturing Engineering 1

2 lecs., 2 hrs. lab., 3 sem. hrs.

The types of processes available to manufacture various products. The characteristics of these processes and how they interact with design requirements, tolerances, safety and the environment. Integration of basic concepts into complete processes. Determination of the process to manufacture various assigned products. Offered fall semester. *Prereq: MEEN 060.*

### INEN 144. Manufacturing Engineering 2

2 lecs., 2 hrs. lab, 3 sem. hrs.

The types of systems and procedures which are relevant to the manufacture of products. Manufacturing and assembly systems; robotics; flexible manufacturing cells; system design and control (CAD/CAM); quality control and assurance; design of products for manufacturability. Offered spring semester. *Prereq: INEN 143 and INEN 151.*

**#INEN 145. Reliability Engineering** 3 sem. hrs.  
Introduction to probabilistic models and reliability mathematics. Analyzing failure data. Load-strength interference models and reliability prediction and modeling. Reliability principles applied to mechanical and electrical systems. Reliability in design. Measuring and improving reliability. Reliability management. Offered occasionally. *Prereq: INEN 140 or MATH 164; and Sr. stdng.*

### INEN 146. Principles of Design

2 lecs., 2 hrs. lab., 3 sem. hrs.

Methodology of design process with emphasis on the feasibility and preliminary design phases. Also emphasized are proposal and report writing. Group projects from industry result in final written proposal. Offered every fall semester. *Prereq: Sr. stdng.*

### INEN 147. Senior Design Project

2 lecs., 2 hrs. lab., 3 sem. hrs.

Senior design project involving student interaction with all phases of the design process. This project will include the definition of requirements; development of specifications; consideration of alternative approaches; economic considerations; and modeling, simulation detailed design, implementation, and verification of oper-

ation as appropriate for the particular project. Students will be expected to apply the principles and techniques learned throughout the curriculum. Preparation of a final design report, including engineering drawings and specifications, covering all phases of the development effort and results will be required. Lectures will complete the design process that was begun in INEN 146. Preliminary and detailed design phases will be covered in this course. Offered every spring semester. *Prereq: INEN 146.*

### #INEN 148. Design of Engineering Experiments 3 sem. hrs.

Application of statistical concepts to design engineering experiments to improve quality, production techniques, and reliability. Use and advantages of various models; factorial, fractional factorial, orthogonal arrays and fractional factorial designs. Offered fall semester. *Prereq: MATH 164 or INEN 140 or cons. of instr.*

### INEN 151. Work Measurement and Workplace Design

2 lecs., 2 hrs. lab., 3 sem. hrs.

The major part of this course concentrates on how to quantify work and how to design workplaces, based on measurement and methods engineering, to achieve optimum efficiency. A minor part of this course will discuss methods used to analyze environmental stressors, such as noise and illumination, and the application of these methods in workplace design to reduce operator fatigue and to achieve optimum performance. Offered spring semester. *Prereq: MATH 080.*

### INEN 155. Facilities Design 3 sem. hrs.

Types of production systems, analysis and evaluation of existing operations and facilities. Evaluation and selection of industrial sites. Materials handling and plant layout. Design of industrial and non-industrial facilities. An industrial project is assigned. Offered fall semester. *Prereq: GEEN 021, INEN 151, and INEN 143.*

### INEN 156. Production and Inventory Systems 3 sem. hrs.

Principles, analysis, and design of production and inventory control. Demand forecasting, economic order quantity models, aggregate planning, material requirements planning, capacity requirements planning, sequencing and scheduling, personnel scheduling, line balancing, just in time systems, and group technology. Offered spring semester. *Prereq: INEN 140 or equivalent.*

### #INEN 157. Process Quality Control 3 sem. hrs.

The theory and application of control charts, and acceptance sampling plans for the design and control of process quality. Establishing tolerances and specifications, process capability studies. Basic reliability and life testing. Offered spring semester. *Prereq: MATH 164 or INEN 140; or equivalent.*

### #INEN 159. Topics in Industrial Engineering 3 sem. hrs.

Topics include: quality assurance, artificial intelligence, advanced production control methods, ergonomics and non-traditional manufacturing processes. Course content announced each semester. Offered occasionally. *Prereq: Sr. stdng.*

### #INEN 160. Flexible Manufacturing Systems

2 lecs., 2 hrs. lab., 3 sem. hrs.

Introduces students to the foundations of flexible Manufacturing Systems (FMS). Class lectures present the concepts of Flexible Manufacturing Systems and introduces various components which are used to create these systems. Typical components include CNC machine tools, Robots, Programmable Controllers, Conveyors, Sensors, and Computers. Students will be expected to work in the lab with such equipment in order to understand and augment the concepts explained in class. Offered spring semester. *Prereq: INEN 143.*

### #INEN 163. Applied Robotics

2 lecs., 3 hrs. lab, 3 sem. hrs.

Robots are expected to gradually dominate the more mundane jobs in industry, but they have serious limitations. This course introduces students to the fundamentals of robotic principles, the driving systems, and the controllers used. In addition, students will be expected to work with the laboratory robots and execute experiments which have been designed around industrial applications. This will ensure that students will have a solid grasp of both the theory and application of robots and, hence, will make proper choices when selecting their robots. Offered occasionally. *Prereq: INEN 160, or cons. of instr.*

### #INEN 164. Ergonomics

2 lecs., 2 hrs. lab, 3 sem. hrs.

Ergonomics maximizes the health and safety of workers, while maintaining productivity and quality. This course will cover biomechanical and physiologic aspects of workplace design, such as engineering anthropometry, cumulative trauma disorders, (including carpal tunnel syndrome), low back injuries, handtool design and evaluation, methods of surveillance in industrial environments, modeling, and ergonomics guidelines. Laboratory sessions are offered to demonstrate ergonomic principles and also provide students with hands-on experience in collecting data and conducting experiments. Offered fall semester. *Prereq: ENME 022 and INEN 140; or equivalents.*

### #INEN 165. Stochastic Models in Operations Research

3 sem. hrs.

Introduction to stochastic models in operations research; review of probability theory and statistical inference; introduction to Markov chains; queuing theory and its applications; dynamic programming; inventory theory and its applications; game theory decision analysis. Offered occasionally. *Prereq: INEN 130.*

### #INEN 180. Metal Forming 1

3 sem. hrs.

Bulk and sheet forming processes. Elementary plasticity theory, yield criteria, effective stress, strain, instability, and necking. Solutions to metal forming problems using upper and lower bound methods. Anisotropy and formability in metal forming. *Prereq: ENME 130 and INEN/MEEN 143.*

### #INEN 185 Welding Engineering

3 sem. hrs.

Arc welding physics, fundamentals of power supplies and welding circuits, fusion and solid-state welding processes, weld testing, analysis of welded joints. Laboratory demonstrations

using various processes. *Prereq: INEN/MEEN 143, ENME 130.*

### INEN 190. Engineering Fundamentals

Review 1 sem. hr.

Review of basic science, mathematics, engineering science, and economics. Offered every semester. S/U grade assessment. *Prereq: Sr. stndg.*

### INEN 191. Senior Seminar

1 sem. hr.

Course will consist of lectures on state-of-the-art concepts in engineering management practice presented by industry personnel. Students will prepare critiques of lectures. S/U grade assessment. *Prereq: Sr. stndg.*

### INEN 195. Independent Study

1-3 sem. hrs.

Undergraduate independent study project of either a theoretical or experimental nature. Offered every semester. *Prereq: Jr. or Sr. stndg, cons. of instr. and dept. ch.; 3.000 Q.P.A. required.*

# Also carries graduate credit.

## MECHANICAL ENGINEERING (MEEN)

*Interim Chairperson and Professor: Fournelle*

*Director of Graduate Studies and Professor: Brower*

*Curriculum Coordinator and Professor: Nigro*

*Professors: Gaggioli Linehan, Reid, Widera*

*Professors Emeriti: Brebrick, Blumenthal, Cartz, Elkouh, Matar*

*Associate Professors: Jensen, Nagurka, Schimmels, Stango, Weber*

*Associate Professors Emeriti: Bradish, Panlener*

*Assistant Professors: Dunbar, Duncan, Madjalani*

*Adjunct Professors: Bishop, Hubbard, Stilp*

*Adjunct Associate Professor: Hoffmann*

*Research Assistant Professor: Park*

*Adjunct Assistant Professors: Braun, Schaefer, Toth*

### MEEN 010. Engineering Design Graphics

3 sem. hrs.

Introduction to design methodology. Fundamentals of graphics for communication and design purposes. Offered fall semester. *Prereq: Fr. stndg.*

### MEEN 060. Materials Science

3 sem. hrs.

Atomic structure of matter, types of bonding, crystallography, role of imperfections, and ionic diffusion. Electric, magnetic, dielectric, and semiconducting properties. Mechanical properties, corrosion, and phase diagrams. Offered every semester. *Prereq: CHEM 001.*

### MEEN 091, 093, 095 and 097. Co-op Work

Period #1, 2, 3, 4 No credit

Registration for approved cooperative education program work assignments is required of all co-op students. Grading and credits are accomplished in the accompanying following term when registered for courses numbered 091S, 092S, etc. Offered every semester. *Fee.*

### MEEN 092, 094, 096 and 098. Co-op Grading

Period #1, 2, 3, 4† 1 sem. hr.

Grading for preceding co-op work assignments is accomplished by review of Employer Evaluation Forms, Work Exit Reports, and other materials as required during each term in

school following a work period. Offered every semester. S/U grade assessment.

† A nominal fee is charged for registration for Work Periods. No tuition is charged for Grading Periods.

### MEEN 104. Thermodynamics

3 sem. hrs.

A survey of thermodynamics, fluid flow, and heat transfer principles emphasizing methods of application. Energy and entropy balances; property relations; performance of energy transport and conversion processes and systems. Offered every semester. *Prereq: MATH 081 and PHYS 003.*

### MEEN 105. Energy Engineering

Thermodynamics 3 sem. hrs.

Elements of thermodynamics: basic principles employed for analysis of energy processes, devices and systems; surveys of basic power processes and cycles. Offered every semester. *Prereq: MATH 081 and PHYS 003.*

### MEEN 106. Energy Conversion Processes

3 lecs., 2 hrs. lab., 4 sem. hrs

Content includes property calculations for inert and reactive mixtures, psychometrics, combustion, equilibrium, and an introduction to device performance. Laboratory considers the behavior of energy-conversion materials and processes. Performance and testing of energy devices and systems. Offered spring semester. *Prereq: MEEN 105.*

### MEEN 108. Fundamentals of Heat Transfer

3 sem. hrs.

Overview of principal mechanisms of heat transfer: conduction, convection, and thermal radiation. Application of conduction and forced convection to heat exchangers. Discussion of theory and applications of conduction, forced and natural convection, boiling and condensation and thermal radiation. Offered fall semester. *Prereq: MEEN 105, MATH 083.*

### #MEEN 110. Two-Phase Flow and Heat

Transfer 3 sem. hrs.

Principles of compressible two-phase flow. Flow patterns. Friction and acceleration effects. Choking phenomena. Heat transfer. Applications in engineering design and industrial processes. Offered occasionally. *Prereq: ENME 151 and MEEN 108; or cons. of instr.*

### #MEEN 111. Applied Energy Conversion 1 - Equipment

3 sem. hrs.

Compressors, pumps, turbines, nozzles. Heat transfer equipment; mass transfer equipment. Heat generation equipment. Gas turbines; engines. Fuel cells; photoelectric cells and other modern converters. Energy storage. Offered occasionally. *Prereq: MEEN 105, ENME 151; Coreq: MEEN 108 or cons. of instr.*

### #MEEN 112. Applied Energy Conversion 2 - Systems

3 sem. hrs.

Principles of modeling the processes, devices, and systems of energy-conversion, as well as chemical and metallurgical processing plants. Analysis of the processes, devices, and systems to quantitatively evaluate the sources of inefficiency and their monetary cost. The end objective is more effective design and operation of such plants, for economy of operation. Offered occasionally. *Prereq: MEEN 105, MEEN 111.*

**#MEEN 117. Heating and Air-Conditioning Systems** 3 sem. hrs.

Focus on components of heating, ventilating and air conditioning systems, their integration and control. Includes discussion of vapor compression refrigeration cycles, applied psychometrics, heating and cooling loads, pump and fan systems and duct sizing. Student projects involve computerized building energy analysis procedures. Offered occasionally. *Prereq: MEEN 105.*

**#MEEN 118. Power Plants** 3 sem. hrs.

Exposition of how fossil and nuclear energy resources are converted to produce electric power in steam turbine and gas turbine power plants. Included are: cycle analysis, turbine blading, causes of non-ideal compression and expansion, exhaust-end turbine losses, turbine governing. Offered occasionally. *Prereq: MEEN 105 and ENME 151. Coreq: MEEN 108 or cons. of instr.*

**#MEEN 119. Topics in Energy Conversion** 1–3 sem. hrs.

Contents announced each semester. For example, course could be devoted to one of the following subjects: internal combustion engines, direct energy conversion, principles of nuclear engineering, principles of solar engineering, heat exchange equipment, energy storage, cogenerations systems. Offered occasionally. *Prereq: Vary with topic offered.*

**MEEN 120. Mechanical Measurements and Instrumentation** 2 lecs., 2 hrs. lab., 3 sem. hrs.

Instrumentation systems including transducers, signal conditioners and readout devices. Oscilloscopes, recorders, bridges. Measurement of force, displacement, flow, temperature, pressure and other engineering parameters. Offered fall semester. *Prereq: MATH 081; and either PHYS 004 or EECE 109.*

**MEEN 128. Dynamics of Mechanical Systems** 3 sem. hrs.

Kinematics of mechanisms, force analysis of four bar linkages, dynamic balancing, vibrations of single and multiple degrees-of-freedom, vibration isolation in design, and introduction to control of machinery. Offered spring semester. *Prereq: ENME 020 and MATH 083.*

**#MEEN 131. Products Liability and Engineering Safety** 3 sem. hrs.

A study of the constraints society places on engineers and engineering managers to promote the safety of products, systems, processes and workplaces. Brief introduction to Products Liability Law and its impact on technical personnel and programs. Presentation of the design and promulgation of voluntary and mandatory safety standards codes and laws having local, state and federal origins. Selected regulatory bodies will be studied in depth. Experts on topics invited to speak as they are available. Analysis and design projects. Offered occasionally. *Prereq: Sr. stdg. and/or industrial experience.*

**#MEEN 134. Intermediate Fluid Dynamics** 3 sem. hrs.

Ideal fluid flows, one-dimensional compressible flow, including nozzles and propulsive thrust, simple viscous flows, the boundary layer,

turbulence. Offered occasionally. *Prereq: MEEN 105 and ENME 151; or equivalents.*

**MEEN 141. Computer-Aided Engineering** 3 lecs., 1 hr. lab., 3 sem. hrs.

Study of numerical algorithms for Computer-Aided Engineering(i.e., math analysis, optimization, data approximation). Development of computer programs (FORTRAN 90 and C) and use of special software (e.g., MATLAB) for implementation of these algorithms. Use of current industrial software (e.g., EUCLID, ANSYS, ADAMS) for solid modeling, finite element analysis, and computational multi-body dynamics. Offered fall semester. *Prereq: MATH083, MEEN 128.*

**MEEN 142. Design of Machine Elements** 3 lecs., 2 hrs. lab., 4 sem. hrs.

Detailed design of mechanisms, structural elements, shafts, gears, bearings and other machine elements. Final design of the element as an essential part of a mechanical system. Laboratories cover the theoretical and experimental analyses of machine elements including springs, shafts, gears, clutches, etc. Offered spring semester. *Prereq: ENME 130.*

**MEEN 143. Manufacturing Engineering 1** 2 lecs., 2 hrs. lab., 3 sem. hrs.

The types of processes available to manufacture various products. The characteristics of these processes and how they interact with design requirements, tolerances, safety and the environment. Integration of basic concepts into complete processes. Determination of the process to manufacture various assigned products. Offered fall semester. *Prereq: MEEN 060.*

**MEEN 144. Manufacturing Engineering 2** 2 lecs., 2 hrs. lab., 3 sem. hrs.

The types of systems and procedures which are relevant to the manufacture of products. Manufacturing and assembly systems; robotics; flexible manufacturing cells; system design and control (CAD/CAM); quality control and assurance; design of products for manufacturability. Offered spring semester. *Prereq: MEEN 143.*

**#MEEN 145. Reliability Engineering** 3 sem. hrs.

Introduction to probabilistic models and reliability mathematics. Analyzing failure data. Load-strength interference models and reliability prediction and modeling. Reliability principles applied to mechanical and electrical systems. Reliability in design. Measuring and improving reliability. Reliability management. Offered occasionally. *Prereq: INEN 140 or MATH 164; and Sr. stdg.*

**MEEN 146. Principles of Design** 2 hrs. lec., 2 hrs. lab, 3 sem. hrs.

Methodology of the design process with emphasis on the feasibility and preliminary design phases. Also emphasized is proposal and report writing. Group projects from industry result in a final written proposal. Offered fall semester. *Prereq: Sr. stdg., Co-op students - Jr. stdg.*

**MEEN 147. Senior Design Project** 2 hrs. lec., 2 hrs. lab, 3 sem. hrs.

Senior design project involving student interaction with all phases of the design process. This project will include the definition of requirements; development of specifications; considera-

tion of alternative approaches; economic considerations; and modeling, simulation detailed design, implementation, and verification of operation as appropriate for the particular project. Students will be expected to apply the principles and techniques learned throughout the curriculum. Preparation of a final design report, including engineering drawings and specifications, covering all phases of the development effort and results will be required. Lectures will complete the design process that was begun in MEEN 146. Preliminary and detailed design phases will be covered in this course. Offered spring semester. *Prereq: MEEN 146.*

**#MEEN 148. Design of Engineering Experiments** 3 sem. hrs.

Application of statistical concepts to design engineering experiments to improve quality, production techniques and reliability. Use and advantages of various models; factorial, fractional factorial, orthogonal arrays and fractional designs. Offered fall semester. *Prereq: MATH 164 or INEN 140, or cons. of instr.*

**#MEEN 150. Applied Stress Analysis 1** 3 sem. hrs.

Review of beam theory; asymmetric bending, shear center, thin-walled sections; torsion of non-circular sections, open and closed thin-walled sections; energy methods, Castigliano's second theorem, statically indeterminate structures, internal static indeterminacy; curved beams. Offered occasionally. *Prereq: ENME130.*

**#MEEN 151. Advanced Design of Machine Elements** 3 sem. hrs.

Detailed design of gears and cams. Integration of dynamics into design of machinery is emphasized. Topics include balancing of machinery, selection of motors and critical frequency analysis, and miscellaneous power transmission components. Use of spreadsheets and computer programs to assist in the design of various components. Offered occasionally. *Prereq: MEEN 142 or equivalent.*

**#MEEN 152. Experimental Stress Analysis** 3 sem. hrs.

Analytical and experimental approaches to accurate stress determination. Photoelasticity, brittle lacquers, strain gage techniques and instrumentation, analogies and applied problems. Offered occasionally. *Prereq: ENME 130.*

**#MEEN 153. Finite Element Method** 3 sem. hrs.

Application of finite element method (FEM) to static and dynamic mechanical systems. Introduction to commercially available FEM programs. Offered occasionally. *Prereq: MEEN141.*

**#MEEN 154. Introduction to Polymers and Polymer Composites in Design** 3 sem. hrs.

Introduction to physical/chemical structure of polymers, polymer characterization, polymer material properties and mechanical testing methods, elastic and viscoelastic polymer response, processing methods, composite materials, and the selection of polymers in design applications. Offered occasionally. *Prereq: ENME 130.*

**#MEEN 155. Fatigue and Fracture in Mechanical Design** 3 sem. hrs.

Application of fatigue and fracture models to engineering design. Stress-life (high-cycle), strain-life (low cycle), and fatigue crack growth models for fatigue. Introduction to linear elastic fracture mechanics. Statistical considerations in failure. Fail safe design practices. Course includes illustrative case studies. Offered occasionally. *Prereq: MEEN 130.*

**#MEEN 156. Optimal Design of Engineering Systems** 3 sem. hrs.

Development of math models for optimal design of engineered systems. Development and use of algorithms for optimization. Linear and non-linear programming. Offered occasionally. *Prereq: MEEN 141 or equivalent.*

**#MEEN 157. Perturbation Methods in Engineering** 3 sem. hrs.

Solution of nonlinear problems in solid and fluid mechanics and dynamics by use of asymptotic perturbation techniques. Asymptotic expansions, regular and singular perturbations and applications in dynamics, celestial mechanics, potential, viscous and compressible flows. Uniformly valid approximations in various physical problems. Generalized boundary-layer techniques. Coordinate straining techniques; Poincare's method. Matched asymptotic expansions and multiple scales. Problems with several time or length scales. Examples taken from various fields of science. Offered occasionally. *Prereq: MEEN 134 or consent of instructor.*

**#MEEN 158. Mechatronics** 3 sem. hrs.  
Mechatronics, as an engineering discipline, is the synergistic combination of mechanical engineering, electronics, control engineering, and computer science, all integrated through the design process. This course covers mechatronic system design, modeling and analysis of dynamic systems, control sensors and actuators, analog and digital control electronics, interfacing sensors and actuators to a microcomputer/microcontroller, discrete and continuous controller design, and real-time programming for control. Offered occasionally. *Prereq: MEEN 120 and MEEN 128.*

**#MEEN 159. Topics in Mechanical Systems Analysis and Design** 3 sem. hrs.

Topics may include: vibrations, multi-body dynamics, composite materials, polymers, physical systems modeling, and mechanical analysis of manufacturing processes. Offered occasionally. *Prereq: Vary with topic offered.*

**MEEN 160. Materials Selection in Mechanical Design**

3 lecs., 3 hr. lab, 4 sem. hrs.  
Design methodology and the criteria for the selection of materials from the four classes of materials (metals, plastics, ceramics and composites) are discussed. Criteria include processing requirements, mechanical properties, and environmental resistance. A rationale for selecting materials based on materials selection charts is presented. The process-structure-property relationship for ferrous and non-ferrous alloys, plastics, ceramics and composites is presented from the point of view of understanding selection criteria. Considerations of cost and availability are also taken into consideration. Offered fall semester. *Prereq: MEEN 060.*

**#MEEN 161. Failure Analysis** 3 sem. hrs.  
Methodology of failure analysis. Studies of brittle fracture, ductile fracture, fatigue, stress corrosion and electro-chemical corrosion as applied to the failure of metals. Involves some laboratory work and analyses of a variety of metallurgical failures. Offered occasionally. *Prereq: ENME 130 and MEEN 160.*

**#MEEN 162. Introduction to X-Rays and Crystallography** 3 sem. hrs.

Production and properties of X-rays. Scattering, introduction to crystal structure, and its determination by means of X-rays and X-ray spectroscopy. Offered occasionally. *Prereq: MEEN060 or cons. of instr.*

**#MEEN 163. Powder Metallurgy 1** 3 sem. hrs.

The course introduces a modern technology with growing importance. It covers the basics of powder metallurgy with main emphasis on sintered steel. The primary topics covered are powder production, die compacting, sintering theory and practice, full density processing, properties under static and dynamic loading conditions. Offered occasionally. *Prereq: MEEN060.*

**#MEEN 164. Powder Metallurgy 2** 3 sem. hrs.  
This course introduces advanced powder metallurgy processes and products with emphasis on materials like ceramics, cermets, and special alloys. The main topics are special powder production techniques, cold and hot isostatic compaction, full density processing, mechanical properties under special loading conditions. Offered occasionally. *Prereq: MEEN 060 and MEEN 163.*

**#MEEN 165. Surface Engineering** 3 sem. hrs.  
Structure, composition, and thermodynamics of the top several atom layers of solid interfaces and surfaces. Surface analytical techniques in ultra high vacuum. Curved and fractal surfaces, small particle effects in sintering and catalysis. Structure of absorbed mono layers. Catalyzed surface reactions. Epitaxy in forming semiconductor layer structure. Offered occasionally. *Prereq: MEEN 060.*

**#MEEN 166. Principles of Heat Treatment** 3 sem. hrs.

Fundamental characteristics of carbon and low alloy steels. Effect of alloy elements on the heat treatment characteristics and mechanical properties of low alloy steels. Heat treatment, microstructure and properties of cast irons, stainless steels, tool steels and heat-resisting alloys. Offered occasionally. *Prereq: MEEN 160 or cons. of instr.*

**#MEEN 167. Mechanical Behavior of Materials** 3 sem. hrs.

Stress and strain relationships for elastic behavior. Theory of plasticity. Plastic deformation of single crystals and polycrystalline aggregates. Dislocation theory, fracture, internal friction, creep and stress rupture and brittle failure. Offered occasionally. *Prereq: ENME 130 and MEEN 160; or cons. of instr.*

**#MEEN 168. Processing and Forming of Materials** 3 sem. hrs.

Heat and mass transfer, thermodynamics, and stress analyses involved in materials forming process. Solidification and castings, vapor

deposition of thin films and coatings. Sintering of powders and aggregates. Mechanical forming and drawing, forging, swaging, rolling. Absolute reaction rate theory for polymerization and chemical processes. Fabrication techniques for composite materials. Offered occasionally. *Prereq: MEEN 060.*

**#MEEN 170. Introduction to Biomaterials Science and Engineering** 3 sem. hrs.

Introduction to the principal areas in Materials Science. Structure and bonding, crystallography and mechanical properties of materials. Techniques to study structure and properties of materials, structure and mechanical properties of bone and various implant materials and their mode of failures. Offered occasionally. Same as BIEN 170. *Prereq: MEEN 060.*

**#MEEN 171. Topics in Materials Engineering** 3 sem. hrs.

Different course content each semester. Topics include: electron microscopy, biomaterials, surface treatment of metals and physical ceramics. Offered occasionally. *Prereq: Vary with topic offered.*

**#MEEN 172. Electrical Properties of Solids** 3 sem. hrs.

Electrical properties of solids are explained in terms of various physical models. The role of crystallinity, defects (point, line, surface and volume) and microstructure are explored. Offered occasionally. Same as EECE 160. *Prereq: EECE 010.*

**#MEEN 173. Dielectric Properties of Materials** 3 sem. hrs.

The principles governing dielectric breakdown and dielectric polarization in materials are explored. These are related to the microscopic and macroscopic nature of materials. Offered occasionally. Same as EECE 161. *Prereq: EECE 012 and EECE 121.*

**#MEEN 175. Structure-Property Relationship of Biological Materials** 3 sem. hrs.

This course is designed to critically review the structure-property relationships of biological materials. Structure-property relationships for skin, bone, pigments, tendons, muscle and organs will be discussed. The effect of pathology, state of the tissue, and age on material properties of tissues and organs will be discussed. This course would also critically review the testing methods used to obtain mechanical behavior of the biological tissues and organs. Offered occasionally. Same as BIEN 175. *Prereq: Consent of instructor.*

**#MEEN 180. Metal Forming 1** 3 sem. hrs.

Bulk and sheet forming processes. Elementary plasticity theory, yield criteria, effective stress, strain, instability and necking. Solutions to metal forming problems using upper and lower bound methods. Anisotropy and formability in metal forming. *Prereq: ENME 130 and INEN/MEEN143.*

**MEEN 190. Engineering Fundamentals Review** 2 lec. hrs., 1 sem. hr.

Review of basic science, mathematics, engineering science, and economics. Offered every semester. S/U grade assessment. *Prereq: Sr. stndg.*

**MEEN 195. Independent Study** 1-3 sem. hrs.

Undergraduate independent study project of either theoretical or experimental nature.

Offered every semester. *Prereq: Cons. of instr. and dept. ch., Jr. stndg.; 3.000 Q.P.A. required.*

**# Also carries graduate credit.**

# College of Health Sciences

The College of Health Sciences has the mission of preparing students for careers in the health sciences and as health care providers. It is dedicated to improving health care by educating excellent, ethical health care professionals through a program of teaching, research and service. Students are instilled with the Jesuit ideals of concern for the spiritual, emotional and physical development of the individual as well as a lifelong commitment to leadership in the advancement of their personal skills and profession.

---

## DEGREES OFFERED

Marquette University confers the degree of bachelor of science on students who have satisfactorily completed the following majors: biomedical sciences, clinical laboratory science\*, dental hygiene, exercise science, and speech pathology and audiology. Students who successfully complete the honors program may receive an honors bachelor of science in these majors.

The College of Health Sciences confers through the graduate school a master of science in speech-language pathology.

The college also offers professional masters programs in physical therapy and physician assistant studies. Upon successful completion of these programs the degree of master of physical therapy or master of physician assistant is conferred.

---

## MAJORS/MINORS OFFERED

The College of Health Sciences offers majors in biomedical sciences, clinical laboratory science\*, dental hygiene, exercise science, and speech pathology and audiology. Specific requirements and typical four-year programs are listed on the next several pages.

The College of Health Sciences offers two minors, biomedical sciences and speech pathology and audiology.

Students interested in minoring in **speech pathology and audiology** must complete 21 hours of speech pathology and audiology course work including SPPA 010, 031, and 036.

Requirements for a **biomedical sciences** minor are 18 credits selected from the following BISC 006, 007, 012, 020, 110, 115, 120, 125, 130, 135, 145, 150, 180, 195, 198 and CLLS 010.

## PRE-PROFESSIONAL HEALTH STUDIES

Pre-professional studies at Marquette means pursuing a bachelor's degree with the intent to enroll in a professional school following graduation. Choosing a major in the College of Health Sciences is one way to prepare for a career in medicine, dentistry, forensics, chiropractic medicine, physical therapy, athletic training, physician assistant, occupational therapy, podiatry and optometry. The College of Health Sciences provides advising, career counseling, a resource

\* formerly medical laboratory technology

library, seminars and recommendations to help you with the professional school application process.

Course requirements may vary among institutions and across disciplines. Students should consult graduate schools of interest to identify specific course requirements.

---

## GRADUATION REQUIREMENTS

### AMOUNT AND QUALITY OF WORK

Candidates for a degree must earn the required number of credits for their major and a minimum number of quality points equal to twice the number of credit hours attempted at Marquette (C average). Students may earn credits but not quality points from another institution. All students must earn at least a C average in their Marquette work. A student must also earn a C or better in all their courses in their major.

Students must consult the area of the bulletin of their chosen major and minor for specific graduation requirements.

Although students may fulfill the core curriculum and major requirements and take elective courses within the number of credits required for graduation, certain combinations of major and minor fields may require more than the minimum number of credits. Students should consult an adviser before selecting a major and an optional minor.

*Applicants for graduation must submit an application to the college dean's office one term prior to the term of graduation.*

*It is the responsibility of the student to know and fulfill all university, College of Health Sciences and major requirements.*

### ACADEMIC REGULATIONS

Students in the College of Health Sciences are expected to comply with the academic requirements and regulations listed in the University section of this bulletin.

### ADVISERS

Upon enrollment in the College of Health Sciences each student is assigned an adviser. The advisor will assist the student with course selection, sequencing of courses and academic matters related to their curriculum. It is the student's responsibility to monitor his/her own progress toward degree requirements.

### ACADEMIC DISHONESTY

The college adheres to university policy on academic dishonesty found in the University section of this bulletin. Cheating, plagiarism, unapproved collaboration or falsifying work in whole or in part are infractions that can result in failure in the assignment, failure in the course or even dismissal from the college or university.

### CD AND D GRADES

Students must maintain a cumulative quality point average of at least 2.000. A term quality point falling below 2.000 for two consecutive terms will result in scholastic censure.

Courses completed with a grade of CD or D do not count toward the total hour requirement for a major or minor but do fulfill the subject matter requirement and do count toward the total number of credits hours for graduation.

Credit is never given twice for the same course. Students who received a grade of CD or D in a course in their major or minor may choose to repeat the course. Please see the repeated courses in the University section of the bulletin.

### ABSENCE FROM FINAL EXAMINATIONS

A health science student who misses a final examination in any course must file a written excuse with the college office within 48 hours of the examination. Students with validated excuses may take make-up examinations during the following term at the time designated by the university. Clearance of temporary grades (I, X and IX) in all health science courses is administered through the College of Health Sciences office.

### S/U OPTION

For enrichment purposes, junior and senior students are given an option to elect one course per term (to a maximum of four courses) for which only an S or U grade is assigned.

Eligible courses include only true electives in the individual's program selected from offerings by other divisions of the university. Courses excluded are all those taken in fulfillment of the requirements of the core curriculum and all offerings in their specific major.

#### **ATTENDANCE**

Courses in this college often include performance under the guidelines and supervision of faculty and staff in classroom, laboratory, clinic as well as on- and off-campus professional situations.

Students are expected to attend all meetings of the courses in which they are registered. Any absence, regardless of the reason will prevent the student from getting the full benefit of the course and can result in university censure. When a student is reported to have been excessively absent from class, the penalty of being withdrawn from the class with a grade of "WA" (withdrawal due to excessive absences) may be issued. Individual class offerings in the college may have more stringent policies which are clearly indicated in the syllabus and announced during the first week of class.

#### **APPROVAL FOR SUMMER SESSIONS STUDY**

Students who plan to take courses in summer school at another institution are required to obtain the approval from the deans office for such courses before the summer session begins. Approval will be based on course descriptions in the current bulletin of the college or university at which the courses will be attempted. The student is expected to present such information. If prior approval is not obtained, there is no guarantee that credits earned or course(s) will be accepted or transferred by Marquette University.

#### **ACADEMIC LOAD**

The academic load of a student is measured by credit hours assigned to each course. The normal College of Health Science program varies from 15 to 18 credit hours per term.

Request for permission to exceed 19 credit hours must have prior approval from the dean's office.

#### **APPEALS PROCEDURE**

If the student feels that the scoring and/or grading of an individual quiz, examination or assignment is in error, she/he should call it to the attention of the instructor of the course immediately upon receipt of the grade.

Undergraduate students may appeal a final grade received in a course if the student believes the grade to be in error. (See Appeals Procedure in the University section of this bulletin.)

Students who have been required to withdraw from the university for academic and/or professional reasons may submit an appeal if they feel that there are some extenuating circumstances unknown to the Academic Standards Committee. This appeal must be in writing the dean. If the appeal is denied, the student will not be permitted to register in the college for subsequent terms.

---

## **ACADEMIC REGULATIONS**

### **ACADEMIC DISHONESTY**

The College of Health Sciences follows the university guidelines for cases of academic dishonesty that are defined in the University section of the Bulletin. If evidence of academic/clinical dishonesty arises in the college, the student will be notified in writing by the departmental chairperson of the allegations and reasons for possible penalties or dismissal from the program. The chairperson will also notify the Professional Affairs Committee of these allegations and of proposed actions involving the student.

The committee will investigate and evaluate the case and provide the student with an opportunity for a hearing before the committee. The departmental chairperson will be present at the hearing. The student may present information to the investigating committee and may bring one person to the hearing to provide support or advice. If this person is an attorney, the student must so notify the departmental chairperson no later than three business days prior to the hearing so that university counsel may attend the hearing. If university counsel is unable to attend the hearing as scheduled, the hearing may be rescheduled to permit such attendance.

The committee may pose questions to the student, review documentation presented by the student and/or the departmental chairperson and allow third parties to present relevant evidence, all at the sole discretion of the committee.

The committee will make its recommendation directly to the dean of the college. The dean shall determine whether academic dishonesty occurred and set the appropriate action or penalty.

and notify the student in writing. The student may appeal this decision, in writing, to the dean within ten business days of the date of this decision. Upon receipt of such a request, and review of any new information, the dean at his/her discretion may refer the issue back to the Professional Affairs Committee for reevaluation, or the dean may decide the appeal on his/her own.

The dean's decision regarding the appeal shall be transmitted to the student in writing. Any appeal made beyond the college should be directed to the Office of Academic Affairs.

## TRANSFER CREDIT POLICY

The College of Health Sciences will grant credit for courses taken for a grade and completed with a C or better. Only credit will transfer, not grades. Courses completed on a quarter-hour system will be converted to semester credits, therefore reducing the total credits accepted. A Marquette equivalent will be specified for each transferable course. Courses awarded as 069 (lower division) or 169 (upper division) indicate courses that will transfer for which there is no discernable Marquette equivalent. These credits will count toward the degree however, they will not fulfill any requirement where a specific course number (i.e. ENGL 001 or BISC 015) has been indicated. Please contact the college office with any questions or concerns regarding the transfer of credits.

---

## STUDENT ORGANIZATIONS

### COLLEGE STUDENT COUNCIL

All health science students are eligible for membership in the College of Health Sciences Student Council. The council functions as a liaison between the college and the Marquette University Student Government. The council serves as the coordinating instrument for all College of Health Sciences professional and social activities. Its purpose is to stimulate a professional attitude among health science students; to promote cooperation and understanding among health science students as well as with the faculty and administration; and an awareness and promotion of health education in the community.

### CLINICAL LABORATORY SCIENCE

In addition to the university student organizations, clinical laboratory science students are eligible for membership in the Clinical Laboratory Science Student Council and the American Society for Clinical Laboratory Science.

### DENTAL HYGIENE

The Department of Dental Hygiene encourages students to participate in professional association activities. Dental hygiene students are encouraged to join and actively participate in the Student American Dental Hygienists' Association. Through participation in this association, students have the opportunities to become familiar with functions and activities of the American Dental Hygienists' Association.

### EXERCISE SCIENCE

Students enrolled in exercise science are eligible for membership in the Exercise Science Student Council, and Health Sciences Student Council. Students may also be eligible for student membership in the American College of Sports Medicine, National Strength and Conditioning Association, American Society of Exercise Physiology, National Athletic Trainers Association, and other fitness related organizations.

### PHYSICAL THERAPY

Students enrolled in the Department of Physical Therapy are eligible for membership in the Physical Therapy Student Council and are eligible for student membership in the American Physical Therapy Association during the professional phase of the program.

### PHYSICIAN ASSISTANTS STUDIES

The Student Association of the American Academy of Physician Assistants has awarded a charter membership to the Department of Physician Assistants Studies at Marquette University.

All students in the program participate. The organization coordinates fund raising activities, hosts guest lecturers and interacts with other student groups as well as the Wisconsin Academy of Physician Assistants. A major goal of the group is to facilitate student involvement in the political process of their national organization.

## SPEECH PATHOLOGY AND AUDIOLOGY

The Marquette University chapter of the National Student Speech-Language-Hearing Association is comprised of undergraduate and graduate students interested in the study of the normal communication process and the diagnosis and treatment of communication disorders.

---

## BACKGROUND CHECKS, DRUG TESTING

Some degrees, majors and/or courses may require a student to submit to a criminal background check and/or drug testing. The results of those checks and/or tests may affect the student's eligibility to continue in that degree, major and/or course.

---

## CURRICULA INFORMATION

### DEPARTMENT OF BIOMEDICAL SCIENCES

The Marquette University Department of Biomedical Sciences offers a biomedical sciences major and minor area of study for undergraduate students interested in pursuing careers in or related to health care professions. The primary purpose of the major and minor are to provide human-oriented courses in anatomical sciences, biochemistry, nutrition, microbiology, pathology, pharmacology and physiology. The coursework will provide students with the opportunity to acquire the concepts, principles, facts, and terminology fundamental to all health care professions or to areas which require health related knowledge.

#### GRADUATION REQUIREMENTS

Candidates for the baccalaureate degree must complete a minimum of 128 credit hours including the following requirements:

Area . . . . .	Credit Hours
Major . . . . .	30
English Composition . . . . .	6
Literature/Fine Arts . . . . .	6
History . . . . .	6
Social Sciences . . . . .	6
Theology/Philosophy . . . . .	15
Required Cognates . . . . .	22-26

#### ENGLISH REQUIREMENT

All students must complete ENGL 001 and 002 for a total of six credit hours in English Composition.

#### LITERATURE REQUIREMENT

All students must complete six hours in literature or fine arts.

#### HISTORY REQUIREMENT

All students are required to complete HIST 001 and 002.

#### SOCIAL SCIENCES REQUIREMENT

All students are required to take PSYC 001 and one of the following: SOCI 122, SOCI 125, SOCI 132, or SOCI 133 for a total of 6 credit hours.

#### THEOLOGY/PHILOSOPHY REQUIREMENT

All students are required to complete THEO 001, PHIL 050, PHIL 104, and PHIL 191 or THEO 175, and one theology or philosophy elective for a total of 15 credit hours.

#### REQUIRED COGNATES

All students are required to take BIOL 001, BIOL 004, CHEM 001, CHEM 002, CHEM 023 and CHEM 024 or BISC 005, one of the following laboratory science courses: BIOL 090,

CLLS 010 or PHAS 440. Students are also required to take one of the following statistics courses: MATH 060, SOCI 060, or PSYC 060. Students who are interested in pursuing a professional or graduate education should also take the following courses: CHEM 023 and 024, PHYS 001 and 002, and MATH 073.

#### MAJOR AND MINOR REQUIREMENTS

Requirements for a biomedical sciences major: The following six courses are required: BISC 135, BISC 145, BISC 115, BISC 120, BISC 150, and BIOL 100 or BISC 007. Additional courses must be selected from the following list to reach a total of 30 credits: BISC 110, BISC 125, BISC 012, BISC 020, BISC 180, BISC 195, BIOL 155, BIOL 125, BIOL 135, BIOL 185, COCO 512, COCO 513, HEAL 025, HEAL 140, PHTH 458, PHTH 455.

Requirements for a biomedical sciences minor: 18 credits selected from the following list are required for a minor in biomedical sciences: BISC 006, BISC 007, BISC 135, BISC 145, BISC 012, BISC 020, BISC 110, BISC 115, BISC 120, BISC 125, BISC 130, BISC 195, BISC 198, BISC 150, BISC 180, CLLS 010. A maximum of nine transfer credit hours can be applied toward the requirements for a minor.

\*\*Requirement for biomedical sciences major

## DEPARTMENT OF CLINICAL LABORATORY SCIENCE\*

The Department of Clinical Laboratory Science educates persons who will be highly skilled in laboratory medicine and who will possess those professional qualities necessary for the practice of clinical laboratory science. It qualifies them to be employed as clinical laboratory scientists (medical technologists) in hospital laboratories, clinics, physicians' offices, research and teaching laboratories, as well as in biological and pharmaceutical companies, industry, and public health bureaus. The course work provides the foundations necessary for individuals to develop administrative and teaching skills, as well as qualify for medical and graduate schools.

### DEGREE OFFERED

The Clinical Laboratory Science major is an integrated four-year curriculum with the first three years spent on campus. The first eight weeks of the fourth year are spent on campus while the remainder of the senior year is spent at a clinical site. Marquette University admits no more students in the major than can be accommodated during the senior year. Students are assigned to the clinical affiliation by a matching process using student preference, hospital preference and a ranking by lottery.

### ACCREDITATION

The curriculum meets all of the requirements of the National Accrediting Agency for Clinical Laboratory Sciences. Upon successful completion of the course work, students are eligible for the appropriate certification and/or licensure examinations. The university assumes no responsibility for the success of its students in obtaining professional certification or other types of professional licensure.

### ADMISSION REQUIREMENTS

Applicants to the Department of Clinical Laboratory Science are expected to fulfill the university admission requirements. In addition to these, they must have had two laboratory sciences, one of which must be chemistry. Three years of advanced high school mathematics and high school physics are recommended. Marquette University accepts freshman students for August and January enrollment, but students enrolling in clinical laboratory science are urged to begin college in the fall because of scheduling difficulties inherent in mid-year admission.

### ADMISSION WITH ADVANCED STANDING AND TRANSFER WITHIN THE UNIVERSITY

For students applying for admission with advanced standing from another institution or as transfers from within the university, the general university regulations apply.

Ordinarily, the following courses are not accepted from other institutions: CLLS 010, CLLS 127, CLLS 140, CLLS 173 and CLLS 174.

Due to the nature of the content of BIOL 100, BIOL 185 and CLLS 127, a student who has already completed these courses must repeat them if five or more years will have lapsed between the time the course was completed and the date of enrollment in the senior year. Ordinarily, BIOL 185, CLLS 124, CLLS 127, CLLS 140, CLLS 173 and CLLS 174 must be taken during the year immediately preceding the senior year.

Applicants who are Certified Laboratory Assistants or Medical Laboratory Technicians are expected to complete all pre-senior course requirements or their equivalent. Credits can be transferred only if the institution from which the student received her/his training is accredited by appropriate accrediting agencies. Credits from junior colleges may not exceed one-half the number of credit hours required for graduation from the four-year curriculum at Marquette. Each individual applicant with previous laboratory training will be evaluated to determine whether or not any credit will be granted for clinical work completed in their previous training program.

The classification of advanced standing or transfer student does not depend upon the total number of credit hours the student has earned but rather upon the number of courses that a student must complete prior to the senior year. Only those courses that directly apply to the bachelor of science degree are used in determining the student's classification. However, the student record in the computer data base will reflect all course work transferred.

The number of students admitted with advanced standing or as transfers with any classification depends upon available openings in the class for which the applicant qualifies.

Advanced standing or transfer students are never accepted for admission to the senior year only.

### ADMISSION AS A SPECIAL STUDENT IN CLINICAL LABORATORY SCIENCE

Students who are not in the Department of Clinical Laboratory Science may be permitted to take clinical laboratory science courses. Clinical laboratory scientists who are certified and/or licensed by an appropriate agency may enroll in certain components of the senior year.

\* Formerly Medical Laboratory Technology

Requests for permission to take these courses must be made to the Department of Clinical Laboratory Science chair. If permission is granted, the student must then make application to the university as a special student in the Department of Clinical Laboratory Science. The regular tuition is charged for these courses.

### **GRADUATION REQUIREMENTS**

A candidate for a baccalaureate degree must earn at least 128 hours of credit and twice as many quality points as credit hours for those courses earning quality points, (see *S/U Grades*), ordinarily covering a four-year course. If credit hours in excess of 128 have been attempted, an excess of quality points equal to twice the excess of credit hours likewise must have been earned. Students in the Department of Clinical Laboratory Science must fulfill the non-science requirements which are stated in the bulletin issued for the year they entered the university. They must fulfill the current science, mathematics and pre-senior clinical laboratory science course requirements in effect as prerequisites for their senior year.

### **GENERAL DEGREE REQUIREMENTS**

#### **ACADEMIC REGULATIONS**

Students in the Department of Clinical Laboratory Science are expected to comply with the academic requirements and regulations listed in the University section of this bulletin. Amplifications and additions to these requirements are detailed herein and govern only those students enrolled in the Department of Clinical Laboratory Science. Course requirements and regulations are subject to change on an annual basis and depend upon the demands of the profession. Students are subject to these changes regardless of the date of their matriculation in the major.

#### **RESIDENCY REQUIREMENT**

Clinical Laboratory Science students must spend the term immediately preceding the senior year in residency (attend as a full-time student). Ordinarily this is the second term of the junior year during which the student must take CLLS 127, CLLS 140, and CLLS 174.

#### **PROFESSIONAL REGULATIONS**

In addition to being evaluated through the use of written examinations and assignments, class participation and practical examinations, clinical laboratory science students are also evaluated with respect to their professional qualities. The instructors in most clinical laboratory science courses complete a written evaluation of each student.

During the senior year students are subject to the rules and regulations of the affiliating unit to which they are assigned.

#### **SCHOLASTIC REGULATIONS**

##### **Quality of Work Requirements—F and D Grades**

The university does not include grades of F in the calculation of the cumulative quality point average, but F grades are included in the calculation of averages to determine eligibility to continue in the clinical laboratory science major. For the regulations regarding repeated courses, see the University—Academic Regulations section of this bulletin.

##### **Essential Courses**

There are certain cognate courses, the subject matter of which is deemed essential to the understanding of clinical laboratory science course work. Successful completion of subsequent courses is dependent upon the information learned in the prerequisite course(s). Therefore, grades of less than C in these “essential” courses are considered unacceptable to the fulfillment of the requirement. The following courses are included in this regulation: CHEM 002, BIOL 100, BIOL 185, and BISC 145.

To fulfill the degree requirements, major and essential courses (or their equivalent) in which unacceptable grades have been earned must be repeated or the student must demonstrate proficiency in the discipline by some other method as assigned by the promotions committee. Students who complete guided study (CLLS 101) to establish proficiency are issued a grade of CR. A student will not normally be permitted to repeat more than two of these courses.

#### **JUNIOR AND SENIOR CRITERIA**

To be classified as a junior in clinical laboratory science, students must meet the following criteria:

1. Completion of all lower division science, mathematics, and clinical laboratory science courses in addition to BIOL 100, BISC 135 and at least 27 credit hours of humanities.
2. Attainment of a cumulative quality point average of 2.200 as well as a 2.000 in science, mathematics, and clinical laboratory science courses.

To be classified as a senior in clinical laboratory science, the following criteria must be met:

1. Completion of all requirements through junior year which are in effect for the particular class beginning the senior year regardless of when the student matriculated in the major.
2. Attainment of a cumulative quality point average of 2.200 as well as a quality point average of 2.000 in the required science, mathematics, and clinical laboratory science courses.

Students who fail to meet the criteria for junior and/or senior classification due to serious reasons but whose deficiencies are minimal and who have shown potential for success may appeal. If the promotions committee upon review of the written appeal grant admission with PROBATION status, the student must make up his/her deficiencies. These students do not necessarily participate in the matching process but are accepted by an affiliation through individual negotiation between the university department chair and the affiliation's program director.

#### ACADEMIC ACTIONS

Students who fail to maintain a C or 2.000 cumulative quality point average are automatically warned on their grade reports. Their quality point average deficiency is calculated along with the grade point required in all future work to achieve the 2.000 required for graduation. For clinical laboratory science students, this action refers only to eligibility to continue at the university, rather than their eligibility to continue in the clinical laboratory science major. For requirements specific to students in clinical laboratory science, refer to the section on Scholastic Regulations.

Students who fail to comply with the rules and regulations of the department with respect to immunizations, health insurance, safety, honesty or whose conduct or health is unsatisfactory may be *required to withdraw*.

Students in the senior year who are in violation of the rules and regulations of the clinical facility are subject to dismissal from that facility. This action is under the jurisdiction of the authorities of that institution in consultation with the university department chair.

Students who fail to maintain progress necessary to meet the minimum requirements because of quality point average or excessive failure (F or U) grades are subject to review by the Academic Standards Committee, and they may be *required to withdraw from the college*.

During the senior year the academic actions taken are varied in severity dependent upon the scholastic and/or professional deficiency. These *actions* are the following: *clinical censure, clinical warning and required to withdraw*. The method of making up unacceptable grades during the senior year which have resulted in the issuing of an *action of clinical censure or clinical warning* will be determined by mutual agreement between the university department chair and the affiliation clinical program director. The Academic Standards Committee will prescribe, in writing, conditions under which these students will be allowed to continue. Students who do not meet the conditions thus stipulated will be *required to withdraw*.

#### ATTENDANCE

The attendance policy for senior year is stipulated by the rules and regulations of each of the the affiliations.

#### RULES AND REGULATIONS

##### **Employment During the Senior Year**

The rigors of the program are such that it is highly recommended that senior students not be employed except on weekends. Eight hours of employment on the weekends are considered to be the maximum that a senior student can be employed.

##### **Immunizations and Health Insurance**

Prior to enrollment in the courses in medical microbiology, students are required to have appropriate immunizations and/or have tests to determine immune status. Students are not permitted to register for the senior year until they have presented evidence of adequate health insurance coverage.

##### **Study Abroad**

Refer to the University—Academic Programs section of the bulletin.

Clinical laboratory science students qualify for these programs. Usually science courses may not be taken during their studies abroad. Generally, study abroad will require additional time spent at the university beyond the usual four-year sequence.

##### **Special Regulations**

Students who withdraw during the senior year, must, if readmitted, repeat the entire senior year. Due to the nature of clinical laboratory work, students may be required to attend sessions scheduled outside of the regularly scheduled class times. These sessions are scheduled with advance notice to the students.

In clinical laboratory science courses, a student who in any way acts dishonestly in class assignments or examinations shall be liable to dismissal from the department and being issued a grade of F

For the safety of patients, peers and themselves, students are required to dress appropriately while attending clinical laboratory science sessions for all courses.

Senior students who wish to be excused from class for participation in athletics, band or chorus must have a quality point average of 2.600 to qualify for this privilege.

### **FACILITIES AND LABORATORIES**

The teaching laboratories on the university campus are structured to simulate a clinical setting and students have opportunities to experiment with modern technologies and diagnostic instrumentation.

The affiliating clinical laboratory sites have been approved by the National Accrediting Agency for Clinical Laboratory Sciences. Affiliating sites are: Aurora, Sinai-Samaritan-St. Luke's Hospitals; and Clement J. Zablocki VA Medical Center. All affiliations are located in the Milwaukee area.

### **GENERAL DEGREE REQUIREMENTS**

Candidates for a baccalaureate degree in Clinical Laboratory Science must complete the following requirements:

<i>Area of Study</i>	<i>Credit Hours</i>
Clinical Laboratory Science*	54
Chemistry	16
Biology	12
Biomedical Sciences	8
English	6
Social/Behavioral Sciences	6
Philosophy	6
Theology	6
Philosophy/Theology elective	3
Literature/Fine Arts	3
Mathematics 060	3
Electives	5-6
Minor (Candidates for the degree of bachelor of science are not required to fulfill a minor requirement. However, students wishing to do so may by completing the minor requirements in effect in the appropriate department at the time the student matriculates at the university).	

\* A grade of C or better must be earned in these courses to qualify for graduation.

### **CLINICAL LABORATORY SCIENCE REQUIREMENTS**

A student in clinical laboratory science is required to complete all of the following courses: CLLS 010, 124, 127, 140, 173, 174, 180, 181, 183, 184, 185, 186, 187, 188, and 189.

### **CHEMISTRY REQUIREMENTS**

Sixteen credit hours of chemistry are required, including CHEM 001, 002, 023 and 024.

### **BIOLOGY REQUIREMENTS**

Twelve credit hours of biology are required, including BIOL 001, 004, 100 and 185.

### **BIOMEDICAL SCIENCES REQUIREMENTS**

Eight credit hours of biomedical sciences courses are required, including BISC 135 and 145.

### **ENGLISH REQUIREMENTS**

All clinical laboratory science students must complete ENGL 001 and 002.

### **SOCIAL/BEHAVIORAL SCIENCES REQUIREMENTS**

Six credit hours are to be selected from the following: anthropology, criminology and law studies, economics, history, political science, psychology and sociology.

## PHILOSOPHY/THEOLOGY REQUIREMENTS

All students must take a total of fifteen credits. PHIL 050, 104, THEO 001 plus a second- or third-level theology course are required. In addition, a philosophy or theology elective must be completed for graduation.

## LITERATURE/FINE ARTS REQUIREMENT

Three credit hours of literature/fine arts are required. The course may be selected from the following choices: English literature, foreign language literature, fine arts, and theatre arts; literature, art, music, dance, drama as fine art cultural forms are included here. (Applied or technical level courses are not acceptable as fulfillment of this requirement).

## MATHEMATICS REQUIREMENT

MATH 060 is required.

## ELECTIVES

Students may choose from any university offerings to earn a total of 5-6 credits. The outline listed below indicates the usual sequence in which the required courses are taken. However, upon arrival at Marquette University the student's adviser will work out a program that is best suited to the needs of the student. The science requirements are subject to revision.

<i>Freshman</i>

<sup>1</sup> Offered only in the Fall term of each academic year.

<sup>2</sup> Offered only in the Spring term of each academic year.

<sup>3</sup> Must be taken in the term immediately preceding the senior year.

<sup>4</sup> The senior year consists of 38 consecutive weeks usually beginning in July.

## DEPARTMENT OF DENTAL HYGIENE

The Department of Dental Hygiene educates dental hygienists to a high degree of clinical competence and knowledge in the practice of dental hygiene. The professionally sequenced curriculum seeks to develop a professional who has the skills and academic background to continually broaden his/her interests through full and open inquiry into all facets of health, disease and education. In addition, the Department of Dental Hygiene prepares the dental hygienist for responsibilities and leadership in related career roles beyond the scope of the traditional dental hygiene practice. The Department of Dental Hygiene supports the educational philosophy of Marquette University and strives to uphold the tradition of Jesuit higher education by providing constant encouragement toward and examples of the highest moral and ethical standards.

### DEGREE OFFERED

The Department of Dental Hygiene is the only dental hygiene program in Wisconsin that grants a bachelor of science degree and is affiliated with a school of dentistry.

### ACCREDITATION

The Department of Dental Hygiene is on the approved list of schools accredited by the Commission on Dental Accreditation of the American Dental Association and holds membership in the American Association of Dental Schools.

### ADMISSION REQUIREMENTS

Applicants to the Department of Dental Hygiene are expected to fulfill the admission requirements listed in the University section of this bulletin. Entering freshmen are accepted for the fall term.

Admission to dental hygiene is determined by the Office of Undergraduate Admissions and the dean of the College of Health Sciences. Candidates are selected on their professional promise with emphasis upon academic preparation and performance on standardized tests such as the SAT or ACT.

Applicants to the Baccalaureate Degree Completion Program must be graduates of accredited dental hygiene programs and have grade point averages of 2.000 or better. They may apply for fall or spring admission.

### GRADUATION REQUIREMENTS

#### AMOUNT AND QUALITY OF WORK

A candidate for the degree bachelor of science in dental hygiene must earn a minimum of 126 hours of credit and 252 quality points, ordinarily covering a four-year course. If credit hours in excess of 126 have been attempted, quality points earned must equal twice the number of credit hours. Normally a minimum of 45 credit hours in upper division courses is required.

#### EXAMINATIONS

Final examinations are held in all subjects. A student's grade of scholarship in each subject is determined by the combined results of his or her class work, course assignments and examinations.

#### STUDENT EVALUATION

A student may be dismissed from Department of Dental Hygiene who shows marked deficiency in certain courses of the curriculum which would indicate lack of ability to become a successful dental hygienist. The criteria by which the decision is guided cover the student's general fitness for the field of dental hygiene and include aptitude, character, general education, ethical standards, stability, diligence and cooperativeness.

The Dental Hygiene chair and dean of the College of Health Sciences will review written appeals of students. Refer to university regulations for procedures.

#### HEALTH PROFESSIONS INSTRUCTOR CERTIFICATE: DENTAL HYGIENE

Students who are enrolled in dental hygiene or who are graduates of the Department of Dental Hygiene, College of Health Sciences may apply for admission to an interdisciplinary course of study leading to the certificate for post-secondary instructor.

#### INTERRUPTION OF RESIDENCE

Students who interrupt their residence for one or more terms must meet the graduation requirements which prevail at the time of their readmission.

## GENERAL DEGREE REQUIREMENTS

Candidates for a baccalaureate degree with a major in dental hygiene must complete the following requirements:

<i>Area of Study</i>	<i>Credit Hours</i>
Dental Hygiene	53
Biomedical Sciences	29
English	9
Sociology 001	3
Psychology 001	3
Communication 012	2
Philosophy 050 and Philosophy (upper division)	6
Theology 001 and Theology (second or third level)	6
History 001 or Anthropology 004 or Political Science 020	3
Electives	12

Acceptable electives (to fulfill hours of credit required for the degree bachelor of science with a major in dental hygiene).

Baccalaureate Degree Completion Program requirements are the same as those for the four-year degree program. Each student's transcript is evaluated on an individual basis and credit is given for all dental hygiene and arts and sciences courses with college level transferability and a grade of C or better. The program is individually designed to meet graduation requirements. It may be completed on a full-time or part-time basis.

### **Dental Hygiene Requirements**

A student in the degree program in dental hygiene is required to complete all the prescribed courses in the program as indicated in this bulletin.

### **English Requirements**

All dental hygiene majors must complete English 001 and 002 and three credits selected from courses 010 to 025, 030 to 044, offered through the College of Arts and Sciences for a total of nine credit hours.

### **Philosophy Requirements**

Six credit hours of philosophy are required, including Philosophy 050 and one additional upper division course.

### **Theology Requirements**

Six credit hours of theology are required, Theology 001 and Theology (second or third level).

### **Requirements for a Minor**

An appropriate minor is encouraged or credits in the humanities, sciences and/or a foreign language may be taken in order to fulfill the hours of credit required for a bachelor of science with a major in dental hygiene.

## **STUDENT FINANCIAL AID**

There are specific Marquette University Scholarship Funds which are designated solely for dental hygiene applicants and students on the basis of achievement. Interested applicants or students should contact the dental hygiene office.

## **LICENSURE EXAMINATIONS**

In order to practice dental hygiene legally, the student must take and successfully pass a written examination known as the National Board Examination. This examination is prepared and evaluated by the American Dental Association and is administered to all dental hygiene students in the country approximately six weeks prior to graduation. The results of this national examination are sent to the Board of Dental Examiners of the state in which the student wishes to practice. The student must also successfully complete a clinical examination and an examination over the dental laws of the desired state of licensure. A license to practice dental hygiene will be issued by the State Board of Dental Examiners after all examinations have been successfully completed. Additional information regarding these examinations is provided to the students during the senior year.

Dental hygienists are eligible to be licensed after graduation from an accredited dental hygiene program and after successful completion of both a written National Board Dental Hygiene Examination and a clinical examination.

## **FACILITIES AND LABORATORIES**

The Marquette University School of Dentistry and Department of Dental Hygiene provide a modern clinic. Facilities also are provided in the specialty areas of endodontics, oral surgery,

orthodontics, pedodontics, periodontics, prosthodontics and radiography. A 46-bench, fully-equipped laboratory is utilized for teaching dental hygiene laboratory courses.

## SPECIAL AND HEALTH REQUIREMENTS

All sophomore dental hygiene students must submit evidence of a negative tuberculin skin test (or negative chest x-ray as approved by their physician if the tine test was positive) within two years prior to beginning clinical courses and annually thereafter. A student exposed to a person with communicable tuberculosis must inform the clinical supervisor and will be referred to the university's Student Health Service for follow-up.

Within one year prior to beginning the clinical courses, students must meet the following requirements:

### A. Health assessment and physical examination

A health history including a history of communicable disease and full immunizations and/or physical examination. (Per university guidelines, all full-time students must complete a Health Assessment Questionnaire or a physical examination form. It is a policy of Marquette University that every Marquette student provide one of these health history forms.)

### B. Rubella (German Measles)

Each student must have documentation of immunity to rubella. A student not having immunity should be immunized upon the advice of his/her physician.

### C. Rubeola (Measles)

A student born after 1956 must have either documentation of a positive rubeola (measles) antibody titer or documentation of rubeola immunization since Jan. 1, 1980.

### D. Hepatitis B Virus (HBV)

Each student must complete the vaccination series for HBV. A student wishing an exemption from this requirement can complete a waiver form which will be retained in his/her student file. Sophomore dental students must show proof of completion of the series on the first day of class for DEHY 070, Oral Anatomy.

For information concerning health insurance and health services, see the University Resources section of this bulletin.

## CPR Certification

Students must provide evidence of current CPR certification, including infant, child, adult (two-person and obstructed-airway resuscitation), prior to registration for DEHY 040 through DEHY 142. This certification must be maintained throughout the remainder of the program through recertification.

<b>TOTAL NUMBER OF CREDITS = 126</b>			

\* Pre-dental dental hygiene candidates: In addition to the above listed courses, pre-dental dental hygiene students must complete Biology 001, Biology 002 or 004, Chemistry 001, 002, 023, and 024, and Physics 001 and 002. These courses may be taken as electives. Chemistry 001 can be substituted for BISC 006, Chemistry for the Health Professions.

## DEPARTMENT OF PHYSICAL THERAPY

The field of physical therapy has expanded from evaluation and treatment of disease to encompass health promotion with anticipatory treatment and prevention of disease and injury. Physical therapy extends beyond direct teaching and supervision of patients and families, to consultation with other services and community agencies. The team concept of rehabilitation is paramount to the total welfare of the client and the client's family.

Marquette's Department of Physical Therapy provides the student with a post-baccalaureate curriculum for the practice of physical therapy, along with a variety of courses in liberal arts. All students are encouraged to continue their education through formal graduate studies and beyond to enhance their skills and knowledge in the practice of physical therapy.

### DEGREE OFFERED

Students admitted to the Department of Physical Therapy are enrolled in a curriculum that culminates in a master of physical therapy degree. This is a six-year curriculum for a student admitted at the freshmen level. The student first will earn a baccalaureate degree of his or her choice and then be awarded the Master of Physical Therapy degree at the end of the professional course work.

### ADMISSION REQUIREMENTS

Students are admitted to the program as freshman with a guaranteed admission to the professional phase beginning fall of 2002 if the student successfully meets all requirements for advancement. Guaranteed admission cannot be extended if requirements are not successfully completed.

High school applicants to the Department of Physical Therapy are expected to fulfill the general admissions requirements listed in the University section of this bulletin. In addition, the following specific items should be noted for admission to the Department of Physical Therapy:

1. One year of high school chemistry and biology is required. Applicants should include trigonometry among the three required units in mathematics because trigonometry is a prerequisite for Physics 001 and 002 at Marquette.
2. Freshman class enrollment is limited. College entrance exam results, transcripts and the application must be received at Marquette by Dec. 15 of the preceding academic year for which the student is applying.
3. The sequence of courses in the professional phase begins in August of each academic year.

Marquette students who were not admitted as freshmen may apply to transfer into the program. A minimum of 10 spaces will be offered to Marquette pre-physical therapy students

(PREP) wishing to transfer into Year Four. To apply for this window of admission, students need to complete at least 23 of the physical therapy prerequisite credits at Marquette University and meet or exceed all requirements for the undergraduate phase. Further details of entrance requirements are available from Marquette's Office of Undergraduate Admissions.

## ACADEMIC REGULATIONS

### UNDERGRADUATE PHASE

Students admitted to the MPT Program as freshmen must have achieved a 2.700 or greater cumulative quality point average in the specified prerequisite professional coursework (47 credits) and have a demonstrated plan to complete their bachelor's degree before the end of the 5th term of the professional phase (years 4, 5, and 6) of the program. Students who complete prerequisite science credits (biology, chemistry, physics) in summer school need to do so at a four-year institution. Other requirements are further outlined in the document detailing the MPT program, available from Marquette's Office of Undergraduate Admissions.

### PROFESSIONAL PHASE

During the professional phase, students must achieve a 2.000 Q.P.A. or greater each term, have each course grade of a CD or above, and receive a satisfactory grade in all practicum experiences. Students are required to pass a comprehensive examination in the spring semester of their sixth year. Failure to meet any of these standards will result in dismissal from the program. Academic standards are printed in the *Physical Therapy Student Handbook* distributed to students at the beginning of the professional phase.

In addition to the above academic standards the department expects students to adhere to standards of conduct and professionalism. Professional behavior is vital to the success of every physical therapist. To assist each student in developing and refining their professional behaviors the department will utilize assessment of ten behaviors called generic abilities, the American Physical Therapy Association Code of Ethics and the APTA Guide for Professional conduct throughout the curriculum in evaluating students. Violations of these standards may be grounds for dismissal or other penalties. Violations may prevent students from receiving clinical assignments. Students demonstrating behaviors inconsistent with the criteria will receive feedback and are subject to the academic standards process listed in the student handbook.

### ACADEMIC APPEALS PROCESS

Students who are cited for not meeting the academic standards and/or professional behaviors will be notified by registered mail of their dismissal as soon as the term's final grades are obtained by the program director. Within seven working days of the receipt of the dismissal notification, students may appeal the dismissal. The appeal process is as follows:

1. Within seven working days, a letter describing the extenuating circumstances underlying the academic deficiency and requesting an appeal hearing must be received by the chairperson of the Academic Standards Committee or the department.
2. When the written request is received, the student will be notified in writing and/or orally of the time, date and location of the hearing.
3. The student may be accompanied at the hearing by an adviser. Other individuals who are knowledgeable of the specific circumstances underlying his/her academic deficiency(ies) may speak to the issue. The student must notify the department 72 hours in advance of all individuals who will attend on their behalf.
4. Voting members of the committee include the chair, academic and clinical faculty members. This committee is advisory to the dean of the College of Health Sciences.
5. The student will be notified of the decision by the dean's office. The possibilities are as follows:
  - Appeal denied; reinstatement not recommended
  - Appeal accepted; conditional reinstatement recommended
  - Appeal accepted; reinstatement recommended
6. The student may accept the decision or he/she may begin the appeal process to the next higher level which is the vice president of academic affairs.

The Department of Physical Therapy will allow only those students who have satisfactorily completed all academic and professional behavior requirements to attend a clinical affiliation. The department reserves the right to deny clinical placement to any student who has not satisfactorily met the requirements printed in the *Physical Therapy Student Handbook*. Cancellation or delay of a clinical experience may result in delayed graduation.

## EXAMINATIONS

Final examinations are held in all subjects. Mid-term examinations may be given as supplementary evidence of student achievement. A student's grade for each subject is determined by the combined result of class work, course assignments, and examinations.

A student who misses a final examination risks the loss of credit and the possibility of not being able to enroll in subsequent PHTH courses. All such cases will be judged by the departmental chairperson.

## CERTIFICATION IN BASIC LIFE SUPPORT

Certification in basic life support as a "first-person hands-on rescuer" will be required of all students prior to beginning the fourth year of the MPT program. Students should contact their local Heart Association office or their local Red Cross office. American Heart Association certification is preferred.

## HEALTH INSURANCE/HEALTH CERTIFICATION

All fifth-year students must present evidence of health insurance coverage to the academic coordinator of clinical education before full-time clinical assignment can be made. A chest X-ray and a TB test will be required of all fifth-year students before clinical assignment. Hepatitis B vaccination is recommended.

## LIABILITY INSURANCE

Even though the university has liability insurance on students while they are in clinical practice situations, some facilities require the student to have an additional liability policy. This type of insurance can be obtained through the insurance company used by the American Physical Therapy Association by student members of the association.

## ABSENCES

Students who are ill or anticipate absence for a family emergency must contact the physical therapy office immediately. All students must consult with the instructor of the course(s) missed for makeup if necessary. Absences of two or more weeks during the fifth or sixth years of the program may be considered as grounds for repeating the entire term.

Anticipated absences from full-time clinic must be approved in advance by the academic coordinator of clinical education, the university, and the center coordinator of clinical education at the clinical site. Unapproved absences are not acceptable and may lead to dismissal from the clinical site. Emergency absences, illness, etc., are circumstances usually considered to be acceptable absences if they are substantiated by the coordinators.

\* MPT students may take the two-credit BISC 013.

\*\* Biomedical Sciences majors and Human Biology majors are required to take BISC 125 to complete requirements of the undergraduate degree.

\*\*\* BIOL 172 is required for Human Biology majors. BISC 145 may be taken in the spring of the MPT-third year by physical therapy students in other majors in lieu of BIOL 172.

Credits — Physical Therapy: 71–72

Credits — External Components: 16–18

Total Credits: 87–90

## Exercise Science

The Marquette University Program in Exercise Science provides an academic curriculum of liberal arts and basic sciences for the student interested in exercise, fitness and athletic training. The sequenced curriculum seeks to develop a professional with the skills and academic background to pursue a career in the rapidly growing health and fitness industry. The demand for qualified fitness professionals is expanding as total health and fitness awareness increases. Students may pursue careers in community health, corporate wellness, strength and conditioning, sports management, or fitness. Employment opportunities may include positions with fitness/sports centers, private fitness consulting firms, hospital-based programs, health maintenance organizations, corporate or private fitness programs and YM/YWCAs. Students may pursue graduate work and professional education in such fields as physical therapy, sports medicine, physician assistant studies, occupational therapy, anatomy, kinesiology, exercise physiology, biomechanics, or related areas. Select students may combine the major with a recommended sequence of courses to prepare for the master's in physical therapy. An athletic training curriculum is available to a limited number of direct admit physical therapy students by application freshman year.

### DEGREE OFFERED

Marquette University confers the degree Bachelor of Science with a major in Exercise Science on those students who have satisfactorily completed the prescribed curricula.

### ADMISSION REQUIREMENTS

Applicants to the College of Health Sciences with a major in Exercise Science are expected to fulfill the admission requirements listed in the University section of the Undergraduate Bulletin. The recommended high school preparation parallels that of physical therapy. Entering freshman are accepted for the fall term.

### GRADUATION REQUIREMENTS

#### AMOUNT AND QUALITY OF WORK

Candidates for a degree must earn a minimum of 126 credit hours and a minimum of 252 quality points. (2.00 Q.P.A.) All students must comply with the College of Health Sciences graduation requirements.

#### GRADUATION HONORS

Exercise Science students qualify for graduation honors according to the University regulations.

### ACADEMIC REGULATIONS

Students in the Exercise Science major are expected to comply with the academic requirements and regulations listed in the University and College of Health Sciences sections of this Bulletin.

In addition students are expected to meet a certain standard of professional behaviors listed in the student handbook. The program reserves the right to deny clinical placement to any student who has not satisfactorily met the academic and/or professional behavior requirements. Cancellation or delay of a clinical experience may result in delayed graduation.

#### ADVISERS

Upon enrollment in the program, each student is assigned an adviser. This adviser will assist the student in course selection and other related matters.

#### EXAMINATIONS

Final examinations are held in all subjects. A student's grade of scholarship in each subject is determined by the combined results of his or her class work, course assignments, and examinations.

A student who misses a final examination risks the loss of credit and the possibility of not being able to enroll in subsequent EXSC courses. All such cases will be judged by the director who has jurisdiction over the student. Should the director judge that the absence was warranted, permission may be given for a delayed examination.

#### CERTIFICATION IN BASIC LIFE SUPPORT.

Certification in basic life support as a "first-person hands on rescuer" will be required of all students. Certification may be obtained following successful completion of EXSC 010. Continued certification is required to be maintained by the student. Failure to maintain current certification may jeopardize enrollment in subsequent EXSC courses.

#### HEALTH INSURANCE/HEALTH CERTIFICATION

All students prior to practical experiences must present evidence of health insurance coverage to the academic coordinator of clinical education before a clinical assignment can be made. A chest X-ray or vaccinations may be required prior to clinical assignment.

\* Fitness Track — Do not require Physics for Fitness track

\*\* Pre-Physical Therapy track. — Pre-Physical Therapy students need to take Physics 001 and 002 and not electives in Marketing or Communication. Pre-Physical Therapy senior year would be identical to MUPT 4th year, if accepted to MUPT.

\*\*\* Direct Admit Physical Therapy Track — For Direct Admit Physical Therapy students majoring in exercise science, Years 1-3 would be identical to Pre-Physical Therapy track. The MPT-4 curriculum would be taken in the senior year.

† For Direct Admit PT only.

## Athletic Training

Athletic training is an allied health profession within the American Medical Association. Its mission is to enhance the quality of health care for the physically active through prevention, evaluation, management, and rehabilitation of athletic injuries. Students who are direct admit students to the Masters in Physical Therapy program may compete for a limited number of spots to prepare to meet the qualifications to become athletic trainers. Enrollment is limited to ensure a wide variety of practical experience with expert supervision.

Students wishing to become athletic trainers will receive an educational foundation in exercise science as well as completing physical therapy and athletic training requirements. Graduates are eligible to seek NATA certification as well as licensure in Physical Therapy and will be prepared to work in a variety of clinical settings. Entrance into the AT curriculum is limited and applicants must meet selection and retention criteria available in the Department of Exercise Science.

## DEPARTMENT OF PHYSICIAN ASSISTANT STUDIES

The College of Health Sciences and the Department of Physician Assistant Studies are dedicated to preparing students for careers as physician assistants by educating them in the Jesuit tradition of *cura personalis*, where academic preparation is coupled to the spiritual, emotional and physical development of the students as they dedicate themselves to service to others. Academic experiences include the humanities, sciences and clinical medicine which prepare the students for the supervised practice of primary medicine within dynamic health care systems.

### EDUCATIONAL GOALS

The department realizes its mission through a synergistic strategy of educational goals. These goals prepare each student intellectually, socially, effectively, and spiritually to:

- Thoroughly interview and examine patients, order appropriate tests, assess their findings, and collaborate with the supervising physician, and whenever possible the patient, in determining the appropriate treatment plan.
- Be effective communicators, listeners, observers and diagnosticians.
- Instill the importance of counseling, educating, and motivating patients and their consequential others to take responsibility for their own physical, mental and spiritual health.
- Instill the importance of furthering physician assistant and supervising physician relationship.
- Instill the significance of identifying true emergencies and responding appropriately.
- Instill the awareness of being responsive and committed members of the health care team and promote the team concept of health care delivery.
- Develop a commitment to life long learning.
- Acquire an allegiance to the physician assistant career by participation in professional organizations.
- Impart the importance of contributing to the education of future P.A. students by participation in physician assistant training.

### ADMISSION REQUIREMENT

Students apply for admittance into the Physician Assistant Studies program at the completion of the fall term of their sophomore year. They are required to follow the two-year Preprofessional Phase of the Physician Assistant Studies program and be enrolled in the College of Health Sciences to ensure that they have completed the appropriate prerequisite courses that will make them eligible for a degree in biomedical sciences at the end of the fourth year. Following acceptance into the program, students follow the curriculum as outlined for the three-year Professional phase.

The intensity of the program and the skills necessary for practice as a physician assistant require the program to seek applicants with an excellent academic background, along with strong interpersonal skills and maturity. Prior healthcare experience is also an indicator of a career commitment to clinical practice. The program's admission process will consider each applicant's strengths and select for admission applicants best qualified to meet the program's mission.

Selection factors considered in the admission process include the following:

1. academic preparation and G.P.A.
2. motivation, maturity, ability to work with people, and suitability for clinical practice
3. 500 contact hours healthcare and other work experience
4. knowledge of the PA profession and the profession's role in the healthcare system
5. Graduate Record Exam or Allied Health Professions Admission Test Scores
6. Three letters of recommendation

7. personal interviews
8. Critical Thinking Exam (administered at interview)

### RETENTION POLICY

Students in the pre-professional years in the Physician Assistant Program are subject to the general probation-drop policies at Marquette University.

Students enrolled in the professional program must earn a minimum overall Q.P.A. of 3.00 and earn no single course grade below C. Professional students unable to meet this requirement will be placed on a **one term academic probation** and require to obtain a 3.00 cumulative Q.P.A. the following term. If at the end of the following term the overall quality point is above or equal to 3.00 the academic probation is dropped. If the student is unsuccessful at obtaining a minimum cumulative Q.P.A. of 3.00 and no single grade below C the following term the student will be dropped from the program at the close of that term.

Students earning a final grade of D or F in a **professional phase course** will be dismissed from the program.

Students may not participate in Physician Assistant Preceptorships until they have completed all the required courses in the didactic professional curriculum.

After four years a bachelor's degree with a major in biomedical sciences will be awarded.

#### *Fifth Year*

A master's degree in physician assistant studies will require a senior project plus completion of four eight-week clerkships and two four-week clerkships. Required eight-week clerkships include: family practice, internal medicine, emergency medicine and surgery. Required four-week clerkships are pediatrics and geriatrics. The student completes the final year with two four-week electives offered in various medical specialties. Finally, all students complete PHAS 490, the research project and presentation.

## DEPARTMENT OF SPEECH PATHOLOGY AND AUDIOLOGY

The Marquette University Department of Speech Pathology and Audiology offers a major area of study for undergraduate students interested in pursuing graduate education in speech-language pathology or audiology. The undergraduate major program is preprofessional, meaning that a master's degree is necessary before a student is considered qualified for professional employment.

The primary purpose of the undergraduate program is to provide introductory level knowledge in the field of speech pathology and audiology, within the context of a traditional liberal arts and sciences education, which prepares an individual for study in a professional graduate degree program. This liberal education is based on the philosophy that the individual with an educational foundation in the arts and sciences will have a broad appreciation for society and its values. Such a traditional undergraduate emphasis provides the needed foundation for more narrowly focused professional education at the graduate level and is suitable for careers in other communication, education, and health-related professions besides speech-language pathology and audiology.

The undergraduate major in speech pathology and audiology includes courses in the areas of normal speech production and development, disorders of speech, language and hearing, and methods of evaluation and therapy. Clinical practicum involves actual work with children and adults under the supervision of certified speech-language pathologists and audiologists. This work is accomplished at the Marquette University Speech and Hearing Clinic.

### DEGREE OFFERED

The undergraduate curriculum in speech pathology and audiology is a four-year program leading to a bachelor of science degree. This program entails eight terms of course work, and includes approximately 50 clock hours of clinical practicum associated with various professional courses. Marquette University requires 128 credits of course work for the bachelor's degree, and a student generally carries between 15 and 18 credits per term. Since a B average or better is required for acceptance into most graduate programs, it is important that students majoring in speech pathology and audiology work toward maintaining high academic achievement throughout their undergraduate program.

### ADMISSION REQUIREMENTS

Applicants to the Department of Speech Pathology and Audiology are expected to fulfill the admission requirements listed in the University section of this bulletin. Entering freshmen are accepted for the fall term.

An applicant for advanced standing in the curriculum may be admitted if he/she has a quality point average of at least 2.400 as a freshman, 2.600 as a sophomore, or 2.800 as a junior, based on a 4.000 system. A student should understand that a minimum quality point average of 3.000 is required for acceptance into most graduate programs.

Admission into the undergraduate major in speech pathology and audiology qualifies a student for the bachelor of science program; it does not extend to the graduate (master's degree) level. Separate application to the graduate school must be made, usually during a student's senior year.

Since admission requirements for master's degree programs may vary from one university to another, the applicant is responsible for meeting those requirements of the institution he or she desires to enter.

#### PROFESSIONAL STANDARDS

All papers produced by students in all classes under department jurisdiction are expected to conform to professional standards of lucidity, coherence, grammar, spelling, and punctuation. All oral presentations produced by students in all classes under department jurisdiction are expected to conform to professional standards of lucidity, coherence, and grammar. All instructors in all classes under department jurisdiction consider the factors listed above, as well as substance, in grading written and oral presentations.

#### GENERAL DEGREE REQUIREMENTS

Candidates for the baccalaureate degree must complete a minimum of 128 hours. Students are required to have a Q.P.A. of 2.800 at the conclusion of their sophomore year to continue in the program. Credits include the following requirements:

<i>Area . . . . .</i>	<i>Credit Hours</i>
Major . . . . .	38
English Composition . . . . .	6
Literature . . . . .	6
Fine Arts . . . . .	2-3
Foreign Language . . . . .	0-8
History/Social Sciences . . . . .	12
Science/Mathematics . . . . .	6-8
Philosophy . . . . .	12
Theology . . . . .	9

#### **English Requirement**

All students must complete ENGL 001 and 002 for a total of six credit hours in English Composition. Non-native speakers of English should consult the director of the English as a Second Language Program concerning concurrent registration in ESLP 010 and the section of the ENGL 001 designated for non-native speakers.

#### **Literature Requirement**

All students must complete six hours in either English literature or foreign language literature (original or translation).

#### **Fine Arts Requirement**

All students must complete a fine arts (dance, film, music, theatre, etc.) course for a total of two or three credit hours. Four terms of non-credit music courses (MUSI 010,015,016,020, 030 and/or 031) will satisfy the fine arts requirement.

#### **Foreign Language Requirement**

All students must demonstrate one-year college competency in a foreign language. This may be accomplished by placement or course work.

Students who have never studied a foreign language or who wish to pursue a new language must take levels 001 and 002 to complete this requirement. Students who wish to continue studying the same language begun in high school must fill out and return the Foreign Language Placement Questionnaire. On the basis of the achieved score, students will be placed in the appropriate language course. Students who are placed in 003 or higher are exempt from the foreign language requirement. For further details, see the University section on Placement Credit in Foreign Languages.

#### **History/Social Science Requirement**

All students are required to complete HIST 001 and 002 and PSYC 001 and 101.

#### **Science and Mathematics Requirement**

Completion of one course in the biological/physical sciences and one course in college-level mathematics. Remedial courses (skill improvement courses), historical courses and methodology courses (such as methods of teaching science or math) may not be used to satisfy this requirement.

#### **Theology Requirement**

All students must complete nine hours of theology: THEO 001, one second-level course (THEO 100-119), and one third-level course (THEO 120-199), in that sequence.

### **Philosophy Requirement**

Twelve hours in philosophy must be completed, including PHIL 001, 050, and 104, plus a three-hour elective.

Philosophical Foundations of Education (EDUC 158) may be taken for philosophy credit.

### **GRADUATION REQUIREMENTS**

*Requirements for a Major:* The following courses typically constitute the speech pathology and audiology major: SPPA 010, 031, 036, 134, 139, 140, 142, 143, 151, 153, 158, 172 plus a minimum of four elective credits. The selection of further elective courses in speech pathology and audiology will be influenced by the professional goals of the students. Consultation with an academic adviser is suggested in making these selections.

*Requirements for a Minor:* A minor is not required of students majoring in speech pathology and audiology. If the student chooses to select a minor, an interdisciplinary minor of his or her choice may be formulated, or a minor may be selected in any department of the university. In the latter instance, the minor requirements are subject to the regulations of the department involved.

*Information Regarding Professional Certification and Licensure:* Individuals completing training in speech-language pathology or audiology are eligible for certification by the American Speech-Language-Hearing Association (ASHA). This association awards the Certificate of Clinical Competence to educationally and professionally qualified applicants. The minimum academic requirement for this certification is completion of a master's degree. Most employers of speech-language pathologists require applicants to have this certification.

Students wishing to become licensed as a school speech-language or audiology clinician must qualify for licensure in the state of Wisconsin, as well as meet the additional requirements of any other state in which they wish to practice. In most states, the master's degree is the minimum requirement for licensure as a speech-language pathology or audiology clinician. State licensure broadens the scope of professional employment opportunities upon completion of training.

The speech pathology and audiology curriculum is specifically structured to allow eventual fulfillment of both ASHA and state licensure requirements. In anticipation of meeting these requirements, specific course work in speech-language pathology and audiology as well as course work in related areas such as psychology, education, social science, natural science and math are included.

### **SUPPLEMENTAL COURSEWORK**

The selection of elective courses will be determined by the professional goals of the student. An academic adviser should be consulted for recommendations concerning the appropriate program to follow.

The following suggestions are made for specific professional interests:

#### **WISCONSIN DPI LICENSE:**

The student planning to continue graduate work in speech language pathology is advised to prepare for meeting requirements for licensure as a public school speech-language clinician. This significantly broadens the scope of professional employment opportunities upon completion of training. Undergraduate courses required for DPI License include:

EDUC 078	Psychology of Human Development and Learning (3)
EDUC 048	Introspection in Diversity: Knowledge and Teaching in a Multicultural Society (3)
EDUC 158	Philosophy of Education (3)
PSYC 001	General Psychology (3)
PSYC 101	Developmental Psychology 1: Conception Through Childhood (3)
SPPA 152	Methods and Procedures in School Speech and Hearing Programs (3)
One course from each of the following three categories:	
a. PSYC 107	Psychology of the Exceptional Child (3)
EDUC 088	Exceptional Children and Youth (3)
b. EDUC 192	Teaching Reading in Content Areas (3)
c. PSYC 108	Behavior Problems in Children (3)
PSYC 131	The Psychology of Individual Differences (3)
PSYC 137	Abnormal Psychology (3)
COUN 216	Introduction to Counseling (3) (graduate)
COUN 217	Individual Counseling (3) (graduate)
COUN 218	Group Counseling (3) (graduate)
COUN 222	Theories of Personality in Counseling (3) (graduate)

The following courses are also required for state licensure. (While students are urged to enroll in these courses on the undergraduate level, they may be taken at the graduate level.)

- a. Six (6) additional hours of audiology (i.e., 173, 174)
- b. Two (2) additional hours of clinical practicum (i.e., 154, 155, 179, 253, 254, 259).

#### RELATED FIELDS

Students wishing to pursue graduate studies in deaf education, learning disabilities, special education, and other related areas may need to supplement their program of studies with additional course work. Students interested in these areas should consult institutions conferring such degrees for prerequisites, requirements, etc.

#### LABORATORIES

Housed in Monitor Hall, the Marquette University Speech and Hearing Clinic serves as a working laboratory for speech pathology and audiology students. The clinic has therapy rooms, a diagnostic suite, pre-school language room, parent information center, child language laboratory, Clinical Aerodynamic Laboratory, voice laboratory, neurolinguistics laboratory, and an audiology suite. Other speech pathology and audiology laboratories include a speech science laboratory, student computer room and materials center.

# COURSE DESCRIPTIONS

## HEALTH SCIENCES (HESC)

### HESC 001. Orientation to Health Sciences 1 sem. hr.

Introduction to the health care fields. Orientation to college programs and resources. Information on Graduate and Professional schools and career awareness. Offered every semester. *Prereq: Frosh. stdg.; S/U grade assessment.*

### HESC 100. International Study in Health Sciences 0-3 sem. hrs.

Structured travel, work and study programs in International Health Sciences with other colleges/universities. Program includes special advising. *Prereq: Cons. of assistant to the dean. Approved full-time study abroad students only; S/U grade assessment.*

### HESC 198. Topics in Health Sciences 0-3 sem. hrs.

Selected topics in health sciences. Specific topics will be designated in the *Timetable of Classes*. Offered occasionally.

## BIOMEDICAL SCIENCES (BISC)

Chair and Associate Professor: Vaughn  
Professor: Brooks

Associate Professors: W. Bell, Burke, Iorio, Kos, Rajala, Sadeghi  
Assistant Professors: Cullinan, Lobner, Siebenlist

Clinical Assistant Professor: Carroll  
Laboratory Supervisor: Franklin

Adjunct Professors: Farmer, Klitgaard  
Adjunct Associate Professors: Biel, Curtis  
Adjunct Assistant Professors: Brophy, Cimrmanic, Feldman, Jurken, LeFaivre, Levene, Roznik, Shinnars, Seeds, Troy  
Adjunct Clinical Instructor: Wenninger

The department offers human-oriented courses in anatomy, biochemistry, microbiology, nutrition, pathology, pharmacology and physiology at the undergraduate and professional level. Courses available to undergraduates and professional students are described in this section.

## BIOMEDICAL SCIENCES (BISC)

### BISC 005. Organic Chemistry for the Health Sciences 2 sem. hrs.

An introduction to organic chemistry, stressing the physical properties and representative reactions of the common organic functional groups. Offered fall semester. *Prereq: CHEM001 and CHEM 002*

### BISC006. Chemistry for the Health Professions 3 sem. hrs.

General and organic chemistry enrolled in the Dental Hygiene Program or the College of Nursing. Offered fall semester. *Prereq: Enrollment in dental hygiene or College of Nursing.*

### BISC 007. Biochemistry for the Health Professions 3 sem. hrs.

Carbohydrates, lipids, proteins, enzymes, bioenergetics, metabolism of carbohydrates, lipids, proteins, and nucleotides. Emphasis placed on health and disease. Offered spring semester. *Prereq: BISC006 or courses in general and organic chemistry; or cons. of instr.*

### BISC 010. Contemporary Issues in Nutrition 2 sem. hrs.

Personalized nutrition applications for health promotion designed for non-science majors. Topics include nutrients, life cycle nutrition, weight management, disordered eating, and nutrition and fitness. Offered spring semester.

### BISC 012. Head and Neck Anatomy 1 sem. hr.

Lecture course which includes systemic study of the muscular, vascular, neural, and lymphatic systems of the head and neck region. Additional topics covered include the skull, paranasal sinuses, oral cavity, temporomandibular joint, and brachial arch development. Emphasis on clinically relevant structures is provided. Offered spring semester. *Prereq: BISC 135 or BISC 015.*

### BISC 013. Fundamentals of Microanatomy 2 sem. hrs.

Microscopic anatomy of special topics. Does not count toward biomedical sciences major requirements. *Prereq: Physical therapy major.*

### BISC 015. Principles of Human Anatomy and Physiology 4 lec. hrs., 3 hrs. lab, 5sem. hrs.

Principles of Human Anatomy and Physiology is an introduction to the structures and functions of the human body. Laboratory included. Offered spring semester.

### BISC 020. Oral Histology 3 sem. hrs.

Description of the microscopic anatomy of cells and the basic tissues of the human body. A complete description of the tissues comprising the oral cavity constitutes the majority of the course. Offered fall semester.

### BISC 110 Nutritional Aspects of Health 3 sem. hrs.

Basic principles and fundamentals of human nutrition. Nutrients are discussed in terms of sources, absorption, metabolism and utilization, deficiency, requirements, and assessment of status. Life cycle nutrition and nutrition in disease states. Offered fall semester. *Prereq: BISC 007 or BIOL100.*

### BISC 115. Human Microbiology 3 sem. hrs.

Cytology, physiology, genetics and ecology of bacteria, viruses, fungi and animal parasites of medical and dental importance. Basic identification procedures. Control of microorganisms; sterilization/disinfection, chemotherapy, immunization, epidemiology. Host-parasite interactions. The nature and the responses of the immune system. Study of the major infectious diseases. No laboratory exercises. Offered fall semester. *Prereq: BISC 007 or BIOL 100 or cons. of instr.*

### BISC 120. Pharmacology 2 sem. hrs.

Basic principles and fundamentals of human pharmacology, including a knowledge of the chemical and physical properties, biochemical and physiological effects, mechanism of action, absorption, distribution, biotransformation and excretion, therapeutic use and adverse reactions of drugs commonly used in therapeutics. *Prereq: BISC 007 or BIOL100 and BISC 145 or BISC 015.*

### BISC 125. Human Microanatomy 4 sem. hrs.

A study of the microscopic structure of cells, tissues and organs of the human body. Emphasis is placed on structure-function relationships and on the interaction of various cell types, tissues and organ systems. Includes laboratory. Offered fall semester.

### BISC 130. Human Gross Anatomy 5 sem. hrs.

A human gross anatomy course including lecture and a cadaver dissection laboratory. Anatomy of the limbs, back, thorax, abdomen, pelvis, and head and neck is approached on a regional basis. Functional aspects of musculoskeletal structures are emphasized. Offered fall semester. *Prereq: Enrolled in PHTH or PA major. Fee.*

### BISC 135. Human Anatomy 4 sem. hrs.

A regional approach to human anatomy where all body systems are integrated. Correlations between structure and function are emphasized. Laboratory included. Offered fall semester.

### BISC 136. Advanced Human Anatomy 2 sem. hrs.

This laboratory course takes a regional approach to the dissection of human cadaveric material and includes all body structures/systems. Enrollment is limited based upon specimen availability. Offered spring semester. *Prereq: BISC 135 or cons. of instr.*

### BISC 145. Human Physiology 4 sem. hrs.

Human physiology including blood and circulation, muscular, neuronal and sensory systems, renal and respiratory systems, digestion, metabolism, reproduction, and their control by the endocrine and central nervous systems. Offered spring semester. *Prereq: BISC135, CHEM 001 and CHEM 002, and biochemistry.*

### BISC 150. General Pathology 3 sem. hrs.

The course begins with an overview of cellular degenerations, inflammation and neoplasia. Various organ systems and their primary disease states will then be presented. These systems include musculoskeletal, nervous, cardiovascular, pulmonary, reproductive, digestive, endocrine, and integument. This course is taught using lecture note handouts, video tapes, slides and examination objectives. Offered spring semester. *Prereq: BISC 135 and BISC 145; or BISC 015; or cons. of instr.*

### BISC 160. Techniques in Medical Molecular Biology 4 sem. hrs.

Medical and forensic molecular biology, including a review of DNA/RNA structure and function, will be covered. Relevant laboratory techniques such as isolation of genomic DNA from

various tissue samples, PCR, RFLP, SSCP analysis, molecular diagnosis of cancer, detection of virus infections and mapping/identification of inherited diseases will be examined. *Prereq: BISC 007 or BIOL100.*

**BISC 165. Microbiology Laboratory**  
1 sem. hr.

Introduction to various topics of microbiology laboratory including the isolation, cultivation, enumeration and characterization of bacteria of human medical importance. Brightfield, dark-field, and phase contrast microscopy are utilized. Specialized techniques include antibiotic susceptibility testing, anaerobic cultivation and immunological assays. Offered spring semester. *Prereq: BISC 410, which may be taken concurrently or BISC 115.*

**BISC 180. Oral Pathology** 3 sem. hrs.  
Lesions, tissue changes, clinical symptoms, signs and manifestations occurring in diseases which affect the oral cavity. Offered fall semester. *Prereq: BISC 020 and BISC 150.*

**BISC 195. Independent Study** 1-6 sem. hrs.  
A reading and/or research program under the direct supervision of a faculty member of the Department of Biomedical Sciences. *Prereq: Cons. of dept. ch.*

**BISC 198. Topics in Biomedical Sciences**  
0-2 sem. hrs.  
Selected topics in biomedical sciences. Specific topics will be designated in the *Timetable of Classes*. Offered occasionally.

**BISC 410. Microbiology** 4 sem. hrs.  
This course focuses on infectious agents of human medical importance and on the host pathogen interaction. Topic areas include the general characteristics of bacteria, viruses, fungi and parasites as well as the etiology, pathogenesis, laboratory identification, and epidemiology of selected diseases. Control of microorganisms is discussed in terms of sterilization, disinfection, chemotherapy and immunization. The immune system and the immune response are discussed. Offered spring semester. *Prereq: BISC 413.*

**BISC 413. Biochemistry** 4 sem. hrs.  
Biochemistry of microbial cells and human cells are compared and contrasted. The chemistry of proteins, carbohydrates, lipids and nucleic acids, metabolic regulation of human cells as well as changes in diseases are discussed. Offered fall semester.

**BISC 414. General Histology** 4 sem. hrs.  
This course is a study of the normal microscopic structure and function of human cells, tissues and organs. The structural basis for various physiological and pathological processes such as inflammation and endocrine cycles is presented. The student is also introduced to tissues of the oral region that are studied in detail in COCO 512. Laboratory exercises promote visual identification of structure. Offered fall semester.

**BISC 418. Gross Anatomy** 6 sem. hrs.  
This course is a comprehensive lecture and laboratory survey of human structure with special emphasis in head and neck regions. It is designed to give the student a structural basis upon which to build clinical studies and gives a thorough background in terminology. Offered

spring semester. *Fee.Prereq: Enrolled in dental school.*

**BISC 421. Advanced General Pathology**  
4 sem. hrs.  
The etiology, development, gross and microscopic alterations, pathological changes and laboratory diagnosis of disease. Basic medical concepts, facts, theories and vocabulary. Offered fall semester.

**BISC 423. Physiology** 4 sem. hrs.  
The course first considers the principles of cellular physiology and progresses to human physiological systems, including blood and circulation, renal and respiratory systems, digestion, metabolism, reproduction and their control by the endocrine and central nervous systems. Normal function of these systems is presented along with selected dysfunctions which illustrate physiological principles. Offered fall semester.

**BISC 435. Pharmacology** 4 sem. hrs.  
Pharmacological and toxicological actions and therapeutic effects of drugs used in medical practice. *Prereq: BISC 423 or BISC 145 and BISC 413.*

**BISC 450. Remediation**  
Variable credits. Variable titles.

**BISC 495. Independent Study (elective)**  
1 to 6 sem. hrs.  
*Prereq: Cons. of dept. ch.*

## CONJOINT COURSES (COCO)

*The following courses are presented jointly by faculty from the Department of Biomedical Sciences and the School of Dentistry.*

**COCO 513 Craniofacial Development and Genetics** 2 sem. hrs.  
Embryological development from fertilization to birth with emphasis on development of the stomatognathic system to provide the student with a basis for understanding the etiology and treatment of developmental abnormalities of the oral tissue. The theoretical and pragmatic concepts of growth changes provide an understanding of how the head, face and occlusion form and develop from conception to adulthood. A summary of genetic/hereditary principles is designed to provide the background necessary to understand the underlying causes of inherited disorders related to dentistry. Offered fall semester.

**COCO 515. Oral Biology** 4 sem. hrs.  
This course covers oral histology and oral microbiology/immunology, correlating this information with clinical situations and focusing on the immunopathology of periodontal disease. An overview of current and accepted treatment modalities will be covered, including oral immunity and caries immunization. Offered spring semester. *Prereq: BISC 125 or BISC 414, BISC 410 which may be taken concurrently, and cons. of instr.*

## CLINICAL LABORATORY SCIENCE (CLLS)

*Chairperson and Associate Professor: Milson*  
*Associate Professor: Laatsch*  
*Assistant Professor: Cook*  
*Adjunct (clinical) Assistant Professors: Maticek, Schmus*  
*Laboratory Supervisor: Kirchner*

These courses are open to students enrolled in the Department of Clinical Laboratory Science, and to others by special permission of the department chairperson. Successful completion of individual courses does not qualify persons to work in a medical laboratory. For a description of courses in the major which are offered in the College of Arts and Sciences, see the College of Arts and Sciences section of this bulletin.

Courses listed as "coreq" must be taken concurrently.

**CLLS 001. Introduction to Clinical Laboratory Methods** 1 sem. hr.

Fundamental concepts in laboratory analysis and data correlation. Topics limited to specific disease entities. Laboratory exercises include certain aspects of clinical chemistry, clinical hematology and clinical microbiology. Offered occasionally (Saturdays). *Prereq: High school biology; Upper 25% of high school class (not open to college students).*

**CLLS 010. Concepts in Clinical Laboratory Medicine** 2 hrs. lec.; one 2 1/2-hr. lab.; 1 hr. disc.; 3 sem. hrs.

Introduction to pathophysiology and the basic laboratory techniques of clinical pathology. Lecture and laboratory sessions limited to selected topics in hematology, immunohematology and clinical chemistry. Offered every fall. *Prereq: CLLS major; high school chemistry and biology with laboratory, BIOL001 and CHEM 001, both which may be taken concurrently.*

**CLLS 050. Introduction to Forensic Science** 3 sem. hrs.

An introduction to the principles of forensic science. An overview of criminal law, the crime scene, evidence collection and processing. forensic medicine (pathology) drugs and toxins, firearms, questioned documents, trace evidence, fingerprints and DNA as evidence. Emphasis on the investigatory role of the forensic scientist. Laboratory sessions reinforce information from lectures and provide hands-on experiences, including homicide scene investigation techniques, molecular biology procedures. Offered annually.

**CLLS 101. Guided Study** 0-4 sem. hrs.  
Analysis of selected topics under faculty supervision. Primarily for undergraduate students who wish to enhance their knowledge in selected disciplines through guided study. For sections of 0 credit, the grade CR will be used. *Prereq: CLLS major or cons. of dept. ch.*

**CLLS 124. Medical Bacteriology** 3 hr. lec.; two 2-hr. labs.; 1 hr. disc.; 4 sem. hrs.  
Emphasis on the theoretical foundations and methodologies needed in a medical bacteriology laboratory. Topics include cultivation, isolation, microscopy, and antibiotic susceptibility testing. Morphological, cultural, biochemical, and immunological characteristics of bacteria

examined as a basis for their differentiation and identification. Epidemiology, pathogenicity, and treatment of aerobic bacteria examined. Offered every fall. *Prereq: CLLS major; BIOL 100; and BIOL 185, which may be taken concurrently.*

**CLLS 127. Medical Microbiology** 3 hr. lec.; two 2-hr. labs.; 1 hr. disc.; 4 sem. hrs.  
Study of the identification and differentiation of pathogens and normal flora of humans based upon correlation of morphological, biochemical, immunological, and molecular characteristics. Epidemiology, pathogenicity, and treatment modalities are also investigated. Fungi, parasites, viruses, and bacteria are included. Laboratory involves isolation and identification of medically important microorganisms, including proper patient specimen processing. Offered every spring. *Prereq: CLLS major; BISC 145 which may be taken concurrently; CLLS 124.*

**CLLS 140. Laboratory Instrumentation** 3 hrs. lec.; one 4-hr. lab.; 4 sem. hrs.  
The application of the principles of basic electronics, spectrophotometry, nephelometry, reflectance photometry, fluorometry, electrochemistry, flame emission and atomic absorption to medical laboratory instruments used in diagnostic and research laboratories. Experiments investigate these applications as related to clinical chemistry and hematology. Experience with state-of-the-art automated instruments and background in quality assurance is provided. Course focuses on team problem-solving and instrument trouble-shooting. Offered every spring. *Prereq: CLLS 173; CLLS major; must be taken concurrently with CLLS 174.*

**CLLS 173. Analytical and Clinical Chemistry** 4 sem. hrs.  
Concepts of analytical chemistry including mathematical treatment of data, chemical and acid-base equilibria, buffers and electrochemistry. Application of theoretical aspects to measurement and evaluation of acid-base and electrolyte balance in the human body. Principles and application of electrophoretic and chromatographic analysis of clinical specimens. The components of blood and body fluids and their chemical analysis in disease states. Selected laboratory exercises emphasize quality assurance and integration of automated and manual clinical methods. Offered annually. *Prereq: CLLS major; Jr. stndg.*

**CLLS 174. Clinical Hematology 1** 3 hrs. lec.; two 2-hr. lab.; 1 hr. disc.; 4 sem. hrs.  
Study of identification and differentiation of blood and bone marrow cells with emphasis on morphology, function and pathology of these cells. Included is the study of blood parasites. Principles of methodologies used and their relationship to diagnosis and treatment of disease. Laboratory provides experience in identification of cellular elements in normal and disease states. Offered every spring. *Prereq: CLLS major; CLLS 010; coreq: CLLS 127, CLLS 140, BISC 145.*

**CLLS 180. Basic Concepts in Clinical Education Methods—Practicum** 1 sem. hr.  
Educational concepts especially appropriate to instruction in a clinical setting using clinical

materials. The concepts discussed include: writing learning objectives, learning styles, testing and evaluation methods and use of audio-visuals. Offered annually. Individual assignments at clinical laboratory affiliations. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 181. Modern Management Concepts for the Clinical Laboratory Practicum** 1 sem. hr.  
Comparison of management theories and styles for effective leadership. Principles and methods of communication essential to the delivery of quality health care. Strategic financial planning ensuring cost effectiveness in the diagnostic laboratory. Statistical analysis comparing alternative methodologies for selection of reliable laboratory procedures. Selected projects relating managerial practices to clinical laboratory organization and use of laboratory data systems for health care delivery. Offered annually. Individual assignments at clinical laboratory affiliations. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 183. Clinical Chemistry—Practicum** 6 sem. hrs.  
The chemical constituents of blood and other body fluids in health and disease. Principles of the methods used in qualitative and quantitative determination of these constituents. Treatment of the theoretical aspects of instrumentation used in these determinations. Offered annually. Individual assignments at clinical laboratory affiliations. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 184. Clinical Hematology 2—Practicum** 4 sem. hrs.  
Quantitative and qualitative study of blood, bone marrow and body fluid cells and alterations present in disease. Principles of procedures used. Methods of obtaining and preserving blood specimens with consideration of the theory and practice of aseptic technique. Offered annually. Individual assignments at clinical laboratory affiliations. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 185. Clinical Hemostasis—Practicum** 3 sem. hrs.  
The components in the blood related to the hemostatic mechanisms, the principles of the procedures involved and their relationship to the diagnosis and treatment of disease. Offered annually. Individual assignments at clinical laboratory affiliations. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 186. Clinical Immunohematology—Practicum** 6 sem. hrs.  
Therapeutic and diagnostic aspects of immunohematology. Aspects of blood transfusion and of methods used in preservation and selection of properly matched blood for transfusion. Offered annually. Individual assignments at clinical laboratory affiliations. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 187. Clinical Immunology and Serology—Practicum** 2 sem. hrs.  
The mechanisms of resistance to disease, especially the antigen-antibody reactions and the diagnostic procedures used in determining this resistance. Individual assignments at clinical laboratory affiliations. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 188. Clinical Microbiology—Practicum** 6 sem. hrs.  
Advanced study of pathogenic and normal flora microorganisms having medical importance. Includes methods for obtaining and handling specimens for culture as well as principles of current instrumentation. Identification protocol include cultural, morphological, biochemical, immunological, and molecular characteristics. Pathophysiology of infectious diseases caused by bacteria, fungi, parasites and viruses is examined. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 189. Clinical Urinology Practicum** 2 sem. hrs.  
Physical, chemical and microscopic study of urine with emphasis on the changes exhibited in disease with related physiology. Individual assignments at clinical laboratory affiliations. *Prereq: Sr. stndg. and CLLS major.*

**CLLS 195. Independent Study in Clinical Laboratory Science** 1-4 sem. hrs.  
Offered annually. *Prereq: Cons. of dept. ch.*

**CLLS 198. Topics in Clinical Laboratory Science** 1-4 sem. hrs.  
Selected topics in clinical laboratory science. Specific topics determined each semester. Offered annually.

## DENTAL HYGIENE (DEHY)

*Chairperson and Associate Clinical Professor:* Halula  
*Associate Professor:* Beck  
*Assistant Professor:* Bell  
*Professor Emerita:* Ginsberg  
Faculty from the Department of Biomedical Sciences and School of Dentistry.

**DEHY040. Dental Hygiene 1** 5 sem. hrs.  
Introduction to the dental hygiene profession. Role of the dental hygienist in oral health maintenance. Lecture, laboratory and clinical experience in the preclinical aspects of preventive periodontics. *Prereq: DEHYMajor and DEHY 070.*

**DEHY041. Dental Hygiene 2** 5 sem. hrs.  
Clinical application of skills and knowledge in preventive periodontics. Students complete a designated number of oral services for clinical patients. Selected assisting assignments in Oral Surgery, Pedodontics and Periodontics. Experience in radiography. *Prereq: DEHY040.*

**DEHY050. Foundations of Dental Hygiene** 1 sem. hr.  
Introduction to dental hygiene as a health profession, with emphasis on basic dental terminology, personal oral hygiene, and career opportunities. *Prereq: DEHYMajor.*

**DEHY051. Dental Health Education** 1 sem. hr.  
Goals, concepts and techniques of the presentation and evaluation of health education. Major emphasis of dental health education of groups and individuals of all ages, backgrounds and interests. *Prereq: DEHY050.*

**DEHY 070. Oral Anatomy** 4 sem. hrs.  
Functions and characteristics of the primary, mixed and permanent dentitions. Form and

position of individual teeth and oral tissues and their relationship. Seminars and laboratory/clinical exercises in the recognition and description of teeth and oral tissues in a functioning dentition. Laboratory projects in restoring tooth contour for a representative number of teeth. *Prereq: DEHY Major.*

**DEHY085. Periodontics 1** 1 sem. hr.  
A thorough study of the supporting structures of the teeth in health and disease will be covered. The etiology of periodontal diseases, to include local factors, occlusion, immunology and systemic diseases, will be presented. The role the dental hygienist plays in disease management will be alluded to throughout the discussion. *Prereq: DEHYMajor.*

**DEHY086. Oral Radiology 1** 2 sem. hrs.  
Fundamental course in dental radiology that describes the physical aspects of ionizing radiation. Includes a historical review, physics of electricity, generation and characteristics of x-rays, radiation hazards and hygiene, x-ray film and processing, radiographic exposure factors, imaging systems and techniques, and an introduction to normal anatomical landmarks and film mounting. *Prereq: DEHYMajor.*

**DEHY130. Dental Therapy** 3 sem. hrs.  
Principles of expanded functions with emphasis on technical accomplishment of procedures utilizing basic material systems learned in Dental Materials. The current legal and ethical status of therapists. Laboratory instruction consists of completing selected expanded procedures on manikin-mounted typodonts. *Prereq: DEHY 040 and DEHY070. Must be taken concurrently with DEHY160.*

**DEHY131, 132. Adjunct Clinical Procedures 1, 2** 1 sem. hr. each  
Clinical application of theory and skills acquired in DEHY130. Students complete assignments in various clinical departments, performing as therapists in each assigned area. S/U grade assessment for DEHY132 only. *Prereq: DEHY 130.*

**DEHY140. Dental Hygiene 3** 5 sem. hrs.  
A continuation of DEHY041 with emphasis on increasingly more difficult assignments. Includes a weekly seminar in which clinical situations are discussed. *Prereq: DEHY040, 041.*

**DEHY141. Dental Hygiene 4** 6 sem. hrs.  
Advanced clinical practice, including a weekly seminar. *Prereq: DEHY 140.*

**DEHY 142. Dental Hygiene 5** 6 sem. hrs.  
Continued advanced clinical practice, including a weekly seminar. A culmination in preparation for graduation and assuming roles in health professions. *Prereq: DEHY 141.*

**DEHY145. Comprehensive Clinical Skills** 2 sem. hrs.  
Comprehensive clinical skills for the returning dental hygienist. Current clinical concepts and procedures in health assessment, patient education, prevention and periodontic procedures. *Prereq: DEHY142 or enrollment in Baccalaureate Degree Completion Program.*

**DEHY150. Public Health** 2 sem. hrs.  
Known methods of preventive dentistry. Current public health concepts and practices and their

relation and significance to the dental hygienist. The role of the dental health team as related to the concept of community dental health. Public health administration, organizations and their functions and services. *Prereq: Jr. stndg. and DEHYMajor.*

**DEHY151. Research Methods in the Health Professions** 2 sem. hrs.  
Introduction to the scientific methods, documentation, problem formulation, legal and ethical concerns, variables, data collection, introduction to statistical analysis and interpretation. Student will develop a research protocol, complete the project and prepare a final report.

**DEHY153. Geriatric Dentistry** 1 sem. hr.  
Social, physical and psychological aspects of aging. Special emphasis on dental conditions of aging, problems in providing services to the elderly and the dental hygienist's involvement in programs for the aged. *Prereq: DEHY 150.*

**DEHY160. Dental Biomaterials** 1 sem. hr.  
The physical and chemical properties of some of the most important materials used in dentistry. Emphasis on proper manipulation of these materials for optimum mechanical properties. *Prereq: Must be taken concurrently with DEHY130.*

**DEHY171. Practice Administration** 2 sem. hrs.  
Administration of a dental office. Practice building patient relations and management, and office records. The dental health team, employer-employee relationships and responsibilities. Interviewing and accepting positions. The meaning of professionalism, dental ethics, and jurisprudence, including the laws regulating the practice of Dental Hygiene. *Prereq: Sr. stndg. and DEHYMajor.*

**DEHY 179. Practicum in Teaching** 3 sem. hrs.  
A one semester (eight hours each week) teaching experience in dental hygiene education in lecture, laboratory and clinical areas. Weekly seminar include a discussion of the application of teaching concerns to practical teaching experience. S/U grade assessment. *Prereq: Sr. stndg., education minor.*

**DEHY181. Behavioral Sciences for the Dental Hygienist** 2 sem. hrs.  
Didactic study, small group discussions and clinical application of topics relating to human relations and behavior. Communication skills, treatment of anxious patients, behavior change techniques, child development, and sociological information related to the dental hygiene profession are included. *Prereq: DEHY050, 051.*

**DEHY 185. Periodontics 2** 2 sem. hrs.  
The clinical management of the periodontal diseases will be covered in detail, discussing all accepted surgical modalities thoroughly. The role that other specialties of dentistry play in the overall management of a case will be included, with the important contribution that the dental hygienist makes in prevention and treatment being woven throughout the lecture series. Students will be given the opportunity to observe and assist periodontic faculty and dental students in the surgical treatment of periodontal disease. *Prereq: DEHY085.*

**DEHY 195. Independent Study** 1-3 sem. hrs.  
Independent study and research in areas of interest to Dental Hygiene. Arrangements for faculty direction must be made prior to registration. Offered every semester. *Prereq: Sr. stndg.; cons. of dept. ch.*

## PHYSICAL THERAPY (PTH) / EXERCISE SCIENCE (EXSC)

*Chairperson, Department of Physical Therapy and Program in Exercise Science and Associate Professor: L. Pan*  
*Director of Exercise Science and Assistant Professor: Papanek*  
*Professor: Kloth*  
*Associate Professors: Neumann, Nosse, Rajala, Simoneau, Sobush*  
*Adjunct Associate Professor: Aubert*  
*Clinical Assistant Professors: Kontney, Schuh, Stoeckmann*  
*Clinical Instructors: Bielefeld, Brown, Collopy, M.Diamond, T. Diamond, Falkner, Fantazzi, Leigh, Marshall, Millington, Myklebust, Olsen, J.Pan, Pollard, Seeds, Thorman, Wenninger, Wilk*

NOTE: PHTH courses numbered below 430 may count toward completion of the undergraduate degree.

## PHYSICAL THERAPY

**PHTH 001. Introduction to Physical Therapy** 1 sem. hr.  
Lecture course with two components. The first will focus on medical terminology pertinent to the health care professions. The second will provide career exposure to physical therapy and include current topics of interest in the field. *Prereq: PHTH stndg. or pre-physical therapy stndg. by cons. of instr.*

**PHTH050. Athletic Training 1** 2 sem. hrs.  
This course is designed to provide an overview of athletic training. Included will be instruction in the principles of prevention and care of athletic injuries, taping, general anatomy and common injuries that occur in sports-related activities. Pre-season screening and conditioning programs will be discussed. *Prereq: Anatomy.*

**PHTH 060. Athletic Training 2** 2 sem. hrs.  
This course is designed to go beyond the scope of Athletic Training I. Instruction will involve more depth in anatomy, evaluation and treatment of common sports related injuries. Reconditioning of athletes post injury and specialized taping, bracing, padding, and management of training facilities are also covered. *Prereq: Anatomy.*

**PHTH 402. Professional Interactions** 2 sem. hrs.  
General survey of the profession with emphasis on the history and development of physical therapy. Professional interactions are explored with emphasis on the student as a learner and teacher. *Prereq: PHTH major or cons. of instr.*

**PHTH 405. Patient Management/Mobility** 2 sem. hrs.  
Lecture/lab. Basic patient management skills are presented and practiced including transfers, gait training, activities of daily living, range of

motion and muscle reeducation. Direct access in physical therapy, interpreting referrals, written communication and time management will be integrated with the overall functional analysis of providing basic care. *Prereq: PHTH major or cons. of instr.*

**PHTH 408. Physical Agents/ Wound Healing**  
3 sem. hrs.

Lecture/lab. Principles and methods underlying the physical and physiological basis for therapeutic application of soft tissue mobilization, massage, hydrotherapy, cryotherapy, ultraviolet radiation, pneumatic intermittent compression, spinal traction, pulsed electromagnetic fields and many thermal agents. Evaluation and treatment of chronic wounds will be presented along with infection control and aseptic techniques. *Prereq: PHTH major or enrolled in Health Sciences—Professional, or cons. of instr.*

**PHTH 412. Psychosocial Aspects of Disability** 2-3 sem. hrs.

Discussion of the psychosocial influences affecting clients and care providers. *Prereq: PHTH major or enrolled in Health Sciences—Professional.*

**PHTH 415. Aging** 2 sem. hrs.

Course details background information on the aging process. Combines lecture, interactions with aged clients and clinical visits. Age-related and pathological changes which occur in the major physiological systems over time are compared and contrasted. Modes of providing service to aged clients is explored. *Prereq: PHTH major or enrolled in Health Sciences—Professional.*

**PHTH 418. Physiology of Activity**  
3 sem. hrs.

This lecture/laboratory course will concentrate on the assessment of activity tolerance in, and basic principles of, exercise prescriptions for normal healthy individuals who are either trained or untrained. A functional approach will be emphasized and factors that enhance or impede performance will be examined. Various training strategies will be introduced. *Prereq: PHTH major or enrolled in Health Sciences—Professional, and current certification in CPR for the health care provider.*

**PHTH 422. Research** 1 sem. hr.

Lecture course focusing on the elements of research. Students apply the concepts of validity, reliability and objectivity to research articles to critically analyze literature, and design a research study for an identified problem. *Prereq: 4th year PHTH major or cons. of instr.*

**PHTH 425. Kinesiology 1** 3 sem. hrs.

Lecture/laboratory experiences. Anatomy of the muscular and joint systems in normal and abnormal conditions in the upper extremities. Course includes the biomechanics of normal and abnormal muscle and joint action. *Prereq: PHTH major.*

**PHTH 428. Physical Therapy**

**Measurement/Assessment** 2 sem. hrs.

Lecture and clinical laboratory course. The students will learn the general concepts and specific techniques of measurement of motion, flexibility and strength using diverse instrumentation. *Prereq: PHTH major.*

**PHTH 432. Orthopedics 1** 2 sem. hrs.

Lecture, demonstration and laboratory experiences. General concepts of evaluation and treatment of musculoskeletal conditions are taught. Includes joint mobilization techniques, therapeutic exercise prescription and concepts of tissue healing. *Prereq: PHTH major.*

**PHTH 435. Practicum 1 Seminar** 2 sem. hrs.

Lecture and clinical laboratory course with emphasis on communication in a professional manner with patients, family and staff. Student will have an opportunity to perform skills from patient management/mobility and physical agents/wound healing. *Prereq: PHTH major. Must be taken concurrently with PHTH 436.*

**PHTH 436. Practicum 1 Clinical** 0 sem. hrs.

Four weeks of clinical experience after 12 weeks of classroom PHTH 435 (see PHTH 435 description). *Prereq: PHTH major. Must be taken concurrently with PHTH 435.*

**PHTH 442. Medical/Surgical**

**Pathophysiology** 2 sem. hrs.

Lecture/clinical observations course will present the pathophysiology of cardiovascular, respiratory, renal, endocrine and immune system disorders. Medical and surgical perspectives of treatment intervention in an acute environment will be presented. Guest presenters will be utilized. *Prereq: PHTH major.*

**PHTH 445 Kinesiology 2** 3 sem. hrs.

Continuation of PHTH 425 with emphasis on head, trunk and lower extremities, including gait and posture. Lecture, demonstration and laboratory practice. *Prereq: PHTH 425.*

**PHTH 452. Orthopedics 2** 4 sem. hrs.

Continuation of PHTH 432 with an emphasis on the evaluation and treatment of specific musculoskeletal injuries/dysfunctions. Includes surgical, non-surgical, traumatic, chronic and sports-related conditions. *Prereq: PHTH 432.*

**PHTH 455. Human Growth/Development**

2 sem. hrs.

Selected aspects of normal human growth and motor development focusing on prenatal, infancy and childhood years. Lecture and interactions with infants and toddlers. *Prereq: PHTH major.*

**PHTH 458. Human Neuroanatomy** 3 sem. hrs.

Structure and function of the central nervous system (CNS). Lecture, clinical problem solving sessions to predict symptoms given a certain lesion within the CNS. *Prereq: PHTH major or PHAS major. Must be taken concurrently with PHTH 459.*

**PHTH 459. Neuroanatomy Clinical**

**Correlations and Laboratory** 1 sem. hrs.

Labs provide a 3-dimensional view of the brain using models and cadaver specimens. Clinical correlation sessions show students to visualize the signs and symptoms resulting from neurological lesions via live patient demonstrations or by videotape case presentations. *Prereq: PHTH or PHAS major. Must be taken concurrently with PHTH 458.*

**PHTH 462. Medical/Surgical: Rehabilitation**

2 sem. hrs.

Lecture/laboratory course concentrates on chronic diseases and conditions that will necessitate long-term therapeutic intervention.

Special attention will be paid to pain management techniques, orthotic fabrication for specific disease conditions, (arthritis and rheumatic diseases), prosthetics, and prosthetic training. *Prereq: PHTH major.*

**PHTH 464. Clinical Seminar 1** 1 sem. hr.

A clinical seminar course to discuss issues related to Practicum 435 and to prepare for Practicum 465. Topics to include communication in a professional manner with patients, family and staff, evaluation tools, documentation, treatment planning skills, chart review, site selection and evaluation of ability based assessment. S/U grade assessment. *Prereq: PHTH 435.*

**PHTH 465 Practicum 2** 0 sem. hrs.

Clinical laboratory course. Student has opportunity to apply course work with supervision and assistance including but not limited to: orthopedic evaluations, note writing, goal setting, treatment modification, measurement, history taking, chart reading, manual therapy, and assessment of the development sequence. S/U grade assessment. *Prereq: PHTH major.*

**PHTH 468 Neurological Rehab** 4 sem. hrs.

Physiology of neurological disorders including mechanisms of disease and treatment. Lecture, lab and clinic visits. *Prereq: 6th year PHTH major.*

**PHTH 472. Contemporary Issues and Management Principles** 3 sem. hrs.

Discussions of recent historical and current external environmental factors affecting the delivery of health care services are interwoven with discussions of business, management, and supervisor/leadership principles applicable to the health care service industry. Particular attention is focused on the delivery of physical therapy services under changing environmental conditions. *Prereq: 6th year PHTH major or cons. of instr.; open to practicing physical therapists.*

**PHTH 475. Pediatric Disorders and Intervention Strategies** 3 sem. hrs.

Lecture/discussion of developmental disabilities and other selected pediatric disorders. Concepts of physical therapy assessment, goal setting and treatment of the pediatric patient; common treatment theories and techniques and their application to children. *Prereq: 6th year PHTH major.*

**PHTH 478. Electrotherapy/ Electrophysiological Testing** 3 sem. hrs.

Lecture/lab. Principles and methods related to the physical and physiological basis for electrotherapeutic interventions for clinical treatment of individuals with musculoskeletal dysfunction, chronic wounds, motor control deficits, acute and chronic pain, and other selected conditions. Electrophysiological testing will include electromyography and nerve conduction velocity evaluation. *Prereq: 6th year PHTH major.*

**PHTH 482. Cardiopulmonary Rehabilitation**  
3 sem. hrs.

Lecture/laboratory course will focus on recuperative/restorative management of clients having primary or secondary involvement of the cardiovascular and/or pulmonary systems. A total gas delivery approach will be emphasized through

case presentations. *Prereq: 6th year PPTH major. Certification in Basic Life Support (CPR).*

**PPTH484. Clinical Seminar 2** 1 sem. hr.  
A clinical seminar course to discuss issues related to Practicum 465 and to prepare for Practicum 485. Topics to include evaluation tools, documentation, treatment planning skills, site selection, expectations of entry-level ability to practice the profession of physical therapy in various health care settings, and evaluation of ability based assessment. S/U grade assessment. *Prereq: PPTH 465.*

**PPTH 485. Practicum 3** 12 sem. hrs.  
Supervised physical therapy clinical experience on a regular workday basis. Student will demonstrate entry-level ability to practice the profession of physical therapy in various health care settings. Performance in this course is assessed using S/U grades. *Prereq: 6th year PPTH major.*

**PPTH 495. Independent Study**  
1-3 sem. hrs.

Independent study and research in special areas of interest to physical therapy under faculty supervision. Offered every semester. Nomid-term assessment assigned. *Prereq: Cons. of instr. and dept. ch.*

## EXERCISE SCIENCE

**EXSC 010. First Aid, CPR and Emergency Care 2** 2 sem. hrs.

This course is designed to give an overview of principles and techniques of first aid, emergency care and cardiopulmonary resuscitation. Competency in skills leads to American Heart Association Health Care Provider CPR and First Aid Certification. Lecture/lab. *Prereq: EXSC major or cons. of instr.*

**EXSC 020. Prevention and Care of Athletic Injuries 2** 2 sem. hrs.

Common athletic injuries and illnesses will be presented with emphasis on prevention and care. Principles and techniques of athletic taping and bracing as well as equipment fitting, blister and wound care will be discussed. *Prereq: Cons. of instr.*

**EXSC 090. Introduction to Exercise Science** 2 sem. hrs.

Exposure to the fields of exercise science. Current topics of interest including certification requirements and professional development.

**EXSC 100. Exercise Leadership** 3 sem. hrs.  
A study of the necessary leadership qualities and skills expected for leading exercise activities. Will develop expertise in the instruction of a wide variety of fitness related programs. *Prereq: EXSC 115.*

**EXSC 105. Exercise Science Practicum I** 1 sem. hr.

Work experience in approved fitness-related agencies. Experience may include fitness testing, evaluation, exercise prescription, instruction, leadership or management in different settings. S/U grade assessment. *Prereq: EXSC major, may be dependent on space.*

**EXSC 106. Cognitive and Motor Learning** 3 sem. hrs.

A study of the principles of human motor learning development from infancy through adulthood. Instructional emphasis is given to those factors which have implications for exercise and training.

**EXSC 107. Athletic Training Practicum 1** 1 sem. hr.

Clinical Skills will be assessed via practical experiences. Taping, bracing and Evaluation will be emphasized. Includes observation, field work and hands on experience in University and high school training rooms and sports medicine clinics under the direct supervision of a certified athletic trainer. S/U grade assessment. *Prereq: EXSC 130 and current CPR and First Aid certifications*

**EXSC 110. Kinesiology/Biomechanics** 4 sem. hrs.

Study of human motion emphasizing skeletal structure. Mechanical principles which influence human exercise are examined. Identification of the origin, insertion and function of major muscles is included along with surface anatomy. Lecture/lab. *Prereq: anatomy and physiology.*

**EXSC 115. Exercise Physiology** 3 sem. hrs.  
A study of the effects of exercise on the major systems of the human body including the cardiorespiratory, and neuromuscular systems. Lecture/lab. *Prereq: anatomy and physiology.*

**EXSC 130. Athletic Training Evaluation 1** 3 sem. hrs.

Pre-season screening and evaluation procedures will be discussed. Concepts of evaluation will be emphasized. Common medical diagnostic procedures will be reviewed and evaluation of the lower extremity will be introduced. Includes screening of internal injuries in athletic participation. *Prereq: Cons. of instr.*

**EXSC 140. Athletic Training Evaluation 2** 3 sem. hrs.

This course is a continuation of Evaluation I and includes assessment of the trunk, back, neck, head and upper extremity. *Prereq: EXSC 130.*

**EXSC 150. Therapeutic Exercise and Modalities** 4 sem. hrs.

A comprehensive study of rehabilitation of athletic injuries and illnesses, and the use of therapeutic agents for the treatment of athletic injuries. Emphasis on the indication, contraindication, precautions, and physiological effects of modality and exercise application. *Prereq: EXSC 140.*

**EXSC 160. Athletic Training Management** 2 sem. hrs.

Administration of Athletic training programs with emphasis on supplies, budget, liability, NATA regulations and professional issues. *Prereq: Cons. of instr.*

**EXSC 170. Exercise Program Management** 3 sem. hrs.

Study of the strategies and considerations involved in the successful management of a fitness facility. Areas include program planning, budgeting, facility design and organization. *Prereq: EXSC 115.*

**EXSC 180. Exercise Testing, Prescription and ECG** 4 sem. hrs.

Practical experience in fitness testing/assessment, program design and instruction in a wide variety of fitness related programs. Emphasis on test protocols for evaluating health related components of physical fitness. Lecture/lab. *Prereq: EXSC 115.*

**EXSC 186. Exercise Science Practicum 2** 12 sem. hrs.

Work experience in approved fitness-related agencies. Experience may include fitness testing, evaluation, exercise prescription, instruction, leadership or management in different settings. S/U grade assessment. *Prereq: EXSC major with Sr. stndg; or cons. of prog. dir.; may be dependent on space.*

**EXSC 187. Exercise for Special Populations** 3 sem. hrs.

A study of program modifications and techniques for various populations. May include the use of aquatics, and exercise prescription throughout the lifespan. *Prereq: EXSC 115.*

**EXSC 188. Athletic Training Practicum 2** 2 sem. hrs.

Clinical Skills will be assessed via practical experiences. Basic Injury assessment techniques and competency testing of modalities, advanced evaluation and rehabilitation will be emphasized. Includes observation, field work and hands-on experience in university and high school training rooms and sports medicine clinics under the direct supervision of a certified athletic trainer. S/U grade assessment. *Prereq: EXSC 107 and current CPR and First Aid certifications.*

**EXSC 189. Nutrition and Exercise Performance** 3 sem. hrs.

A study of the basic nutritional concepts, principles and current issues. Emphasis on nutrition for training and conditioning related to health and wellness, including ergogenic aids. *Prereq: BISC 110 or EXSC 115.*

**EXSC 190. Principles of Strength Training and Conditioning** 3 sem. hrs.

A study of muscle physiology and strength training principles. Popular training programs and techniques will be discussed. *Prereq: EXSC 115.*

**EXSC 195. Independent Study** 1-4 sem. hrs.

Independent study under the direction of faculty. *Prereq: Cons of instr.*

**EXSC 196. Topics in Athletic Training** 1-4 sem. hrs.

Selected topics, not a part of the regular course work taught because of a special need, interest or opportunity. *Prereq: Cons. of instr.*

**EXSC 198. Topics in Exercise Science** 1-4 sem. hrs.

Selected topics, not a part of the regular course work taught because of a special need, interest, or opportunity. *Prereq: Cons. of instr.*

# PHYSICIAN ASSISTANT STUDIES (PHAS)

*Chairperson and Assistant Professor:*

Gengembre

*Assistant Professors:* Handley, Nohl, Schabla, Smith

*Medical Director:* Coogan

NOTE: PHAS courses may only be taken by PHAS majors admitted to the professional phase of Physician Assistant Studies.

## **PHAS 405 Clinical Skills 1** 4 sem. hrs.

This course consists of two phases. The first portion of the course develops the student's interviewing skills eliciting a complete medical history. The second portion of the course instructs the student in the methods and modalities to complete an entire adult, wellness exam. At the conclusion of the course, the student is expected to be competent in eliciting a complete medical history and physical exam, appropriately documenting the exam including all positive and negative findings. Medical terminology is reviewed throughout the course. The student will acquire basic life support certification (CPR).

## **PHAS 408 Medical Study and Investigation** 2 sem. hrs.

This course instructs the student in strategies for interpretation of the medical literature and research. This is accomplished through reviewing the foundations of research methodology as they relate to the study of disease distribution, and issues of study design, data collection and methods of analysis. This course draws heavily on Internet access and requires the student to be familiar with Netscape and electronic mail technologies. Completing the course requires an on-line medical topic search, a review of these findings, and a classroom presentation. The student is encouraged to select an area of interest that may be utilized for PHAS 490.

## **PHAS 410 Primary Medicine 1** 5 sem. hrs.

This course provides a comprehensive presentation of the various disease processes commonly encountered in primary care across the spectrum of clinical medicine. The course employs a system-oriented, problem based approach and clinical information is presented in conjunction with appropriate, correlative lectures or labs in anatomy, physiology, pharmacology, pathology, radiology, laboratory diagnostics, and nutrition.

## **PHAS 411 Primary Medicine 2** 5 sem. hrs.

This course is a continuation of PHAS 410. It provides a comprehensive presentation of the various disease processes commonly encountered in primary care across the spectrum of clinical medicine. The course employs a system-oriented, problem based approach and clinical information is presented in conjunction with appropriated, correlative lectures or labs in anatomy, physiology, pharmacology, pathology, radiology, laboratory diagnostics, nutrition, and preventative approaches.

## **PHAS 415 Clinical Decision Making 1** 2 sem. hrs.

This course is designed to expand the student's medical knowledge base and facilitate critical thinking and clinical diagnostic skills.

Patient case histories are presented in correlation with topics from PHAS 410. The student will develop and demonstrate problem-solving skills. The Student will develop differential diagnoses and order and interpret appropriate laboratory and imaging studies. Finally, students will demonstrate the ability to succinctly present a working diagnosis, treatment plan, and prognosis.

## **PHAS 416 Clinical Decision Making 2** 2 sem. hrs.

This course is designed to expand the student's medical knowledge base and facilitate the student's critical thinking and clinical diagnostic skills. Patient case histories are presented in correlation with topics from PHAS 411. The student will develop and demonstrate problem-solving skills. The Student will develop differential diagnoses and order and interpret appropriate laboratory and imaging studies. Finally, students will demonstrate the ability to succinctly present a working diagnosis, treatment plan, and prognosis.

## **PHAS 420 Clinical Skills 2** 2 sem. hrs.

This course is an advanced continuation of Clinical Skills I, PHAS 405. The interviewing portion of this class will prepare students to negotiate the behavioral aspects of medicine. It is intended to introduce the skills, knowledge, and sensitivity needed to communicate and intervene effectively in a wide variety of psycho-social situations. The physical examination portion is intended to familiarize and then test the student in advanced examination techniques including muscular-skeletal, neurological, obstetrical, pediatric, and geriatric examination. Appropriate interpretation and documentation are stressed. It is at this time during their academic training that students will be assigned patients in a variety of settings and be asked to complete a history and physical exam.

## **PHAS 421 Clinical Skills 3** 2 sem. hrs.

This is a semester-long, in-depth course culminating in ACLS certification. Weekly, students review each section of the American Heart Association ACLS certification manual. The lecture sections are complemented by a laboratory which teaches and then tests students in all corresponding procedures. Where appropriate, the lecture material is extended past the topics discussed in ACLS to include the pathophysiology, pharmacokinetics, and diagnostic results paralleling different phases of cardiac arrest and death.

## **PHAS 430 Geriatric Medicine** 2 sem. hrs.

An introduction into the biological aspects of aging, latency of disease, organic brain syndromes, cardiac disease, drug prescribing and home health care of the elderly issues necessary for PAs to provide optimal care to elderly patients.

## **PHAS 435 Emergency Medicine 1** 3 sem. hrs.

Describes a variety of neonatal, pediatric, and adult emergencies including emergency assessment, diagnoses, and treatment. This course is intended to introduce the student to the basic principles of emergency medicine, specifically, the PA's role in triage, assessment, and emergency management.

## **PHAS 440 Diagnostics Technology**

3 sem. hrs.

This course consists of three distinct class sections: a 12-Lead ECG interpretation section, a radiology section, and a laboratory section. The course provides a broad introduction to these topics that are expanded upon in PHAS 410, 411, 415, and 416.

The ECG interpretation section will provide students with a systematic methods of interpreting a 12-Lead ECG with respect to rate, rhythm and blocks, electrical axis determination, hypertrophy (atria and ventricles), ischemia/injury/infarction, and miscellaneous drug, electrolyte, disease, and pacemaker effects.

The radiology section will provide students with a systematic method of interpreting common radiographic studies seen in primary care.

The laboratory section emphasizes the utilization of laboratory methods for the diagnosis and treatment of disease. The content focuses on those aspects pertinent to the provision of ambulatory, primary care.

## **PHAS 441 Behavioral Medicine** 2 sem. hrs.

An introduction to the skills, knowledge and sensitivity needed to communicate and intervene in a wide variety of psychosocial situations. Topics to be covered: clinical presentation, diagnosis, and management of mental disorders commonly encountered in primary care, personal growth and development, normal growth and development of children and adolescents, human sexuality, psychiatric reactions to disease, counseling skills, and death and dying. Teaching methods to include lectures, discussion, small group discussions, handouts and reading assignments.

## **PHAS 445 Health Care Dynamics and**

**The PA Profession** 2 sem. hrs.

A professional issues review. This course emphasizes current issues facing the profession, including legal and ethical problems, and the unique place of PAs within the health care system. It familiarizes students with the history and traditions of the PA profession. This is complemented by information about certification and registration, employment, economics, professional organizations and political/ legislative topics. A significant portion of the course confronts ethical issues facing today's non-physician providers.

## **PHAS 446 Practice Management and Health Care Systems** 2 sem. hrs.

This course familiarizes the student with the ever changing health care marketplace. The course begins with the formation of health insurance companies and rapidly moves to the current health care arena where the student becomes familiar with large health care networks, prepaid options, and cost effective health care theory.

## **PHAS 450 Surgical Principles and Procedures** 3 sem. hrs.

An introduction to the role of the physician assistant in surgery and surgical procedures commonly performed in post-operative care. The course employs a system-oriented, problem based approach and clinical information is presented in conjunction with appropriate, correlative lectures or labs in anatomy, physiology, pharmacology, pathology, radiology, laboratory diagnostics, and nutrition.

### PHAS 455 Obstetrics and Gynecology

3 sem. hrs.

The course explores various gynecological diseases, and the need for preventive medicine in obstetrics and gynecology. It employs a system-oriented, problem based approach and clinical information is presented in conjunction with appropriate, correlative lectures or labs in anatomy, physiology, pharmacology, pathology, radiology, laboratory diagnostics, and nutrition.

### PHAS 460 Pediatrics 1

3 sem. hrs.

An introductory pediatrics course which covers problems encountered in the general pediatric population and reinforces basic primary care clinical principles. The course employs a system-oriented, problem based approach and clinical information is presented in conjunction with appropriate, correlative lectures or labs in anatomy, physiology, pharmacology, pathology, radiology, laboratory diagnostics, and nutrition.

### PHAS 470 Family Practice

6 sem. hrs.

The eight-week family practice rotation provides students with experience refining their skills in performing the history and physical exam, ordering and interpreting diagnostic tests, and developing treatment plans for the diversity of patients in a typical family practice. The student begins to appreciate the long term impact of health care on patients' lives, and becomes more skilled in preventive health care and the long term management of chronic medical problems. Where possible, students participate in grand rounds, noon conferences and other clinically relevant didactic presentations. A set of cognitive objectives guides student reading in preparation for a written examination at the middle and end of the preceptorship.

### PHAS 471 Internal Medicine

6 sem. hrs.

During the eight-week internal medicine rotation, physician assistant students become a part of an internal medicine practice caring for adult and geriatric patients. Students perform patient history and physical examinations, obtain diagnostic testing and present data to their precepting physician with a proposed differential diagnosis and treatment plan. Students function in a role similar to the intended role of a practicing physician assistant, including participation in hospital rounds where diagnostic and therapeutic plans for acutely ill patients are discussed, performing and observing various clinical procedures, and preparing written and oral communication about patients. Where possible, students participate in grand rounds, noon conferences and other clinically relevant didactic presentations. A set of cognitive objectives guides student reading in preparation for a written examination at the end of the rotation.

### PHAS 472 Surgery

6 sem. hrs.

The eight-week surgical rotation is designed to prepare the student to function as an assistant to the surgeon in the primary or secondary care setting. Students assist in surgical procedures in the operating room, the diagnostic evaluation of surgical patients, with post operative care and with the ambulatory care of surgical patients. Proficiency is to be developed in suturing, incision and drainage, excision and the biopsy of simple wounds and lesions. Where possible, students participate in grand rounds, noon conferences and other clinically relevant

didactic presentations. A set of cognitive objectives guides student reading in preparation for a written examination at the end of the rotation.

### PHAS 473 Emergency Medicine 2

6 sem. hrs.

This eight-week rotation allows the student to develop skills in managing patients in the emergency room setting. These skills include those necessary for appropriate triage, stabilization, and initial management of patients with traumatic injuries and illnesses, the management of the less life threatening problems which present to the emergency room, working with the pre-hospital emergency medical service team, and making appropriate secondary referrals. Where possible, students participate in grand rounds, noon conferences and other clinically relevant didactic presentations. A set of cognitive objectives guides student reading in preparation for a written examination at the end of the rotation.

### PHAS 474 Pediatrics 2

3 sem. hrs.

During the four-week pediatric rotation the PA student has an intense exposure to primary care of common pediatric illnesses. These experiences are obtained primarily in the outpatient setting, although students are also exposed to the acute care of hospitalized pediatric patients. The student also develops appreciation for working with many professionals, such as teachers, psychologists, speech and hearing pathologists, nurses and social workers, involved in the care and evaluation of children. Where possible, students participate in grand rounds, noon conferences and other clinically relevant didactic presentations. A set of cognitive objectives guides student reading in preparation for a written examination at the end of the rotation.

### PHAS 475 Geriatrics

3 sem. hrs.

This four-week geriatric rotation is designed to prepare the student to manage primary medical illnesses found in the geriatric population. Students will perform history and physical examinations, obtain diagnostic testing, and present information to precepting physicians with proposed differential diagnosis and treatment plans. Students will evaluate patients both in the outpatient setting as well as inpatient and nursing home facilities. Whenever possible, the student will be exposed to the multidisciplinary team of providers who deliver care in the geriatric environment. When possible, students participate in grand rounds, noon conferences, and other clinically relevant didactic presentations. A set of cognitive objectives guides the student's reading in preparation for written exams at the end of the rotation.

### PHAS 480 Elective 1

3 sem. hrs.

This four-week elective may be obtained at the student's choice in a variety of medical specialty environments. These include, but are not limited to, psychiatric/AODA, orthopedics, oncology, endocrinology, dermatology, OB/GYN, and advanced surgical subspecialties.

This elective is intended to offer the student a greater exposure and understanding in specific subspecialties of medicine of the student's interest. The student is encouraged to utilize this elective for sub-specialty exposure.

### PHAS 481 Elective 2

3 sem. hrs.

This four-week elective may be obtained at the student's choice in a variety of medical specialty environments. These include, but are not limited to,

psychiatric/AODA, orthopedics, oncology, endocrinology, dermatology, OB/GYN, and advanced surgical subspecialties.

This elective is intended to offer the student a greater exposure and understanding in specific subspecialties of medicine of the student's interest. The student is encouraged to utilize this elective for sub-specialty exposure.

### PHAS 490 Research Project

6 sem. hrs.

This course is a program-long requirement. The project is initially discussed in PHAS 408: Medical Study and Investigation, is interwoven throughout the remainder of the fall and spring curriculum, and it is to be completed during their final clinical year.

The student is to complete a scholarly paper which is a culmination of their entire educational experience. Their work is presented in a poster board forum during the final week of class. Students are encouraged to apply for consideration at the National AAPA annual meeting in May.

## SPEECH PATHOLOGY AND AUDIOLOGY (SPPA)

*Chairperson, Director of M.S. Program and*

*Associate Professor:* Korabic

*Dean/Professor Emeritus:* Sokolnicki

*Professor Emeritus:* Trotter

*Professor:* Silverman

*Associate Professor Emerita:* Moller

*Associate Professors:* Bhatnagar, Guyette,

Kelly, Linville

*Clinical Instructors:* Berman, Dabrowski, Erdman, Hallen, Krueger, Puglisi-Creegan, Wood

### SPPA 010. Introduction to Communicative Disorders

3 sem. hrs.  
An introduction to the disorders of speech, language, and hearing with emphasis on types, etiology, and symptoms. Offered every semester.

### SPPA 031. Phonetics

3 sem. hrs.  
Patterns of normal, dialectal, and defective production of American English speech sounds, with practical experience in phonetic transcription according to the International Phonetic Alphabet. Offered fall semester. *Prereq:* Majors or minors only or cons. of dept. ch.

### SPPA 036. Anatomy and Physiology of Speech and Hearing Mechanisms

3 sem. hrs.  
Anatomy and physiology of the oral and aural mechanisms. Neural bases for phonation, articulation, breathing, and audition. Offered every semester. *Prereq:* Majors or minors only or cons. of dept. ch.

### SPPA 134. Speech Science

3 sem. hrs.  
Study of the speech code. Linguistic, physiological, and acoustical components of the code are considered in relation to both speech production and recognition. Instrumentation useful in the clinical and laboratory analysis of speech is considered. Offered fall semester. *Prereq:* SPPA 036 and majors only; or cons. of dept. ch.

**SPPA 139. Normal Speech and Language Development** 3 sem. hrs.

Overview of general linguistic concepts and their application to the acquisition of language by young children. Theories of language development from infancy to early school age. Offered fall semester. *Prereq: Majors only or cons. of dept. ch.*

**SPPA 140. Language Disorders in Children** 3 sem. hrs.

Language assessment and treatment based on an interactive semantic-pragmatic-syntactic model of language. Individual etiologies discussed in terms of language model. Offered spring semester. *Prereq: SPPA 010, 139 and majors only; or cons. of dept. ch.*

**SPPA 142. Articulation Disorders** 3 sem. hrs.

Detailed study of articulation disorders experienced by children and adults. It includes consideration of the prevalence, classification, and etiology of such disorders with emphasis on evaluations and treatment. Offered spring semester. *Prereq: SPPA 010, 031, 036 and majors only; or cons. of dept. ch.*

**SPPA 143. Stuttering and Other Fluency Disorders** 3 sem. hrs.

Introduction to the symptomatology, phenomenology, etiology, assessment and management of stuttering and other fluency disorders in children and adults. Offered spring semester. *Prereq: SPPA 010 and majors only; or cons. of dept. ch.*

**SPPA 147. Introduction to Neurological Disorders of Communication** 3 sem. hrs.

The basics of neurology and an overview of common neurogenic disorders of communication including aphasia, apraxia, dysarthria, dementia and linguistic sequela of traumatic brain injuries will be presented. Offered spring semester. *Prereq: SPPA 036 and majors only; or cons. of dept. ch.*

**SPPA 151. Clinical Procedures and Management** 3 sem. hrs.

Clinical procedures and management techniques for diagnosis and remediation of clients in a variety of clinical settings are taught. Topic areas include issues and ethics in serving birth to three, multicultural and developmentally disabled populations. Other topics include report writing/documentation, quality assurance, private practice and professional organizations. Offered every other semester. *Prereq: SPPA 142 and 25 supervised observation hours (diagnostic or therapy.) Taken concurrently with SPPA 153; Minimum cumulative Q.P.A. of 2.8; majors only and cons. of dept. ch.*

**SPPA 152. Methods and Procedures in School Speech and Hearing Programs** 3 sem. hrs.

Speech therapy principles and theories as they apply to public school therapy are presented. Issues relative to school therapy and the function of speech therapy as an Exceptional Education Needs (EEN) program within the total school program are studied. The student is assigned school settings for observation of active school therapy programs. (Use of private car possibly required for observation assignments which may be inaccessible to public transportation. Student is responsible for transportation costs.) Offered every semester. *Prereq: SPPA 151 and majors only; or cons. of dept. ch Fee.*

**SPPA 153. Clinical Practicum—Speech Pathology 1** 1 sem. hr.

Offered every semester. Performance in this course is assessed using S/U grades. *Prereq: Minimum cumulative Q.P.A. of 2.8. Coreq: Taken concurrently with SPPA 151; majors only or cons. of dept. ch.*

**SPPA 154. Clinical Practicum—Speech Pathology 2** 1 sem. hr.

Offered every semester. Performance in this course is assessed using S/U grades. *Prereq: Minimum cumulative Q.P.A. of 2.8 and SPPA 151 and majors only; or cons. of dept. ch.*

**SPPA 155. Clinical Practicum—Speech Pathology 3** 1 sem. hr.

Offered every semester. Performance in this course is assessed using S/U grades. *Prereq: Minimum cumulative Q.P.A. of 2.8 and SPPA 151 and majors only; or cons. of dept. ch.*

**SPPA 158. Diagnostic Methods in Speech-Language Pathology** 3 sem. hrs.

The purpose of this course is to provide the students with an understanding of the components inherent in the diagnostic process. These include but are not limited to: a) an overview of diagnostic models, b) sources of delays and disorders, c) purposes of assessment, d) interviewing techniques, e) testing and measurement caveats, f) framework for analysis of the data, g) interpretation of results to families or referral sources, and h) report writing. Offered every semester. *Prereq: SPPA 139; majors only or cons. of dept. ch.*

**SPPA 161. Microcomputer Applications in Speech Pathology** 3 sem. hrs.

Acquaints participants with microcomputer systems and their applications in speech pathology through lectures and "hands-on" experience in computer lab. Offered fall semester. *Prereq: Majors only or cons. of dept. ch.*

**SPPA 166. Clinical Instrumentation** 3 sem. hrs.

The purpose of this course is to identify the operation and use of various instruments commonly encountered in the Speech and Hearing Clinic. The course is primarily applied and involves use of tape recorders, video recorders, microphones, the sound spectrograph, biofeedback devices, and other instruments intended to facilitate the activities of the speech and language clinician. Offered occasionally. *Prereq: SPPA 134 and cons. of dept.ch.*

**SPPA 172. Introduction to Audiology** 3 sem. hrs.

Principles and techniques of audiometric testing; study of basic acoustics; review of anatomy and physiology of the hearing mechanism; introduction to pathologic conditions of the hearing mechanism; laboratory work in basic audiometric test procedures. Offered spring. *Prereq: SPPA 036 and 134 and majors only; or cons. of dept. ch.*

**SPPA 173. Hearing Problems** 3 sem. hrs.

Extensive study of hearing disorders and the psychological and social implications of hearing impairment. Habilitation/rehabilitation strategies are discussed. Offered fall semester. *Prereq: SPPA 172; Majors only or cons. of dept. ch.*

**SPPA 174. Aural Rehabilitation** 3 sem. hrs.

An in-depth look at the process of adult aural rehabilitation and how amplification, assistive listening devices, sensory aids, visual communication training, auditory training and counseling contribute to that process. Offered spring semester. *Prereq: SPPA 173 or cons. of instr. Majors only or permission of dept. ch.*

**SPPA 179. Clinical Practicum—Audiology** 1 sem. hr.

Supervised clinical experience with hearing-impaired individuals both on campus and in off-campus affiliated centers. May be repeated up to a maximum of three credits. Performance in this course is assessed using S/U grades. Offered every semester. *Prereq: SPPA 172 and cons. of instr. Majors only or cons. of dept. ch.*

**SPPA 194. Special Institute/Workshop/Project** 1-3 sem. hrs.

Offered occasionally.

**SPPA 195. Independent Study in Speech Pathology and Audiology** 1-3 sem. hrs.

Offered every semester. *Prereq: Cons. of dept. ch.*

**SPPA 196. Seminar in Speech Pathology and Audiology** 1-3 sem. hrs.

Specific subjects of seminars to be announced in the *Timetable of Classes*. Variable topics. Offered occasionally.

**SPPA 199. Senior Thesis** 1-3 sem. hrs.

The application of rigorous methodology in developing and writing a thesis under the direction of an adviser. Offered every semester. *Prereq: Cons. of dept. ch.*

# College of Nursing

The mission of the College of Nursing emerges from the mission of the university to provide a rigorous liberal education grounded in Judeo-Christian ideals and disciplined in the Jesuit tradition. Marquette University nursing students are prepared for lives of faith and service and to promote the worth of all persons, to assure professional competence, to respect the pursuit for truth, and to uphold a high standard of personal integrity. The faculty recognize their central responsibilities as influencing health, health care, and health care policy through quality instructional programs, generation and dissemination of nursing knowledge, active involvement in the community and the profession, and collaborative endeavors. Faculty recognize caring as the driving force for preparation for professional nursing practice. This preparation includes liberal and professional knowledge; clinical, cognitive and leadership skills; and personal and professional values.

---

## DEGREES OFFERED

Marquette University confers the degree bachelor of science in nursing on those students who have satisfactorily completed the prescribed curriculum of the College of Nursing.

The degree master of science in nursing is offered through the Marquette University Graduate School. Details on the master's program in nursing are contained in the *Graduate School Bulletin*.

---

## ADMISSION REQUIREMENTS

Applicants to the College of Nursing are expected to fulfill the admission requirements listed in the University section of this bulletin. Acceptance as a freshman in the College of Nursing assures placement in clinical nursing courses provided the student remains in good standing.

Registered nurse applicants follow general admission procedures. Transcripts from nursing programs and/or colleges must be sent to the Office of Undergraduate Admissions. The applicant must be a graduate of a National League for Nursing accredited program, have a cumulative Q.P.A. of 2.500 or higher and be currently licensed to practice as a registered nurse. Transfer of credit will be based on individual evaluation.

Students who interrupt their academic program for two or more consecutive terms must meet the graduation requirements which prevail at the date of their readmission.

---

# GRADUATION REQUIREMENTS

## AMOUNT AND QUALITY OF WORK

A candidate for a baccalaureate degree in nursing must have completed 129 credits including all the required courses in the curriculum as indicated in this bulletin. The candidate shall have earned quality points which equal at least two times the number of credit hours credited and shall have at least a 2.000 quality point average per term actually taken at Marquette.

## GENERAL DEGREE REQUIREMENTS: NURSING MAJOR

A candidate for a baccalaureate degree in nursing must complete the following requirements:  
*General Education and elective courses*—62 credits.

### Area of Study

1. Physical-biological sciences
  - a. Chemistry for Health Professions
  - b. Biochemistry
  - c. Anatomy
  - d. Physiology
  - e. Microbiology
  - f. Normal and Therapeutic Nutrition
  - g. Pharmacology
2. Social-behavioral sciences
  - a. Introductory Psychology
  - b. Sociology of the Family
  - c. Culture and Health
  - d. Life-span Developmental Psychology
3. Humanities
  - a. English—6 credits
  - b. Philosophy—9 credits (PHIL 050, PHIL 104, PHIL 192 Health Care Ethics)
  - c. Theology—9 credits (All students must complete nine hours of theology: THEO 001, one second-level course [THEO 100-119], and one third-level course [THEO 120-199], in that sequence.)
4. Electives—12 credits (3 credits must be in history or political science, 3 credits must be in nursing)

*Nursing Major*—67 credits.

## MINOR IN HEALTH STUDIES

The College of Nursing offers an 18-credit-hour minor in health studies open to all other undergraduate students at Marquette University. The minor is not available to students in the College of Nursing.

## NURSING AND MASTER'S IN PHYSICAL THERAPY

The college of Nursing offers a program option to meet the needs of students who wish to combine their nursing studies with preparation for the masters in physical therapy. The program plan indicating course requirements and sequencing is available from the College of Nursing, Clark Hall, (414) 288-3810.

## NURSING AND PREMEDICAL STUDIES

The College of Nursing offers a program option to meet the needs of students who wish to combine their nursing studies with preparation for medical school. The program plan indicating course requirements and sequencing is available from the College of Nursing, Clark Hall, (414) 288-3810.

---

# ACADEMIC REGULATIONS

Students in the College of Nursing are expected to comply with the academic requirements and regulations listed in the University section of this bulletin.

## PROGRESSION

### GENERAL REQUIREMENTS

The following general requirements must be met for progression into and through the clinical portion of the nursing major.

- a. A grade of at least a CD is required in the following courses:
  - BISC 006 - Chemistry for Health Professions
  - BISC 007 - Biochemistry
  - BISC 015 - Principles of Human Anatomy and Physiology
  - PSYC 001 - General Psychology
- b. A grade of C or better is required in the following courses:
  - BISC 115 Microbiology
  - PSYC 078 Introduction to Life-span Developmental Psychology
  - PHIL 104 Theory of Ethics
  - SOCI 021 The Family (sociology)
- c. A grade of C or better (or S where applicable) in all required NURS and HEAL courses and the philosophy course, Health Care Ethics.
- d. Students must have a 2.000 cumulative quality point average to enroll in NURS 050 or NURS 055 and to continue to progress in the nursing program.
- e. Any I, X, IX grade which is not removed by the required time (see university calendar) will be viewed as an F.
- f. A student who earns less than the required grades in two required courses as defined above will be required to withdraw from the College of Nursing.
- g. No required cognate or required nursing course may be repeated more than one time.
- h. Permission to repeat a required nursing course must be formally requested from the Undergraduate Admissions and Progressions Committee by the student.
- i. It is required that all senior students complete an external standardized comprehensive nursing examination. The examination is a condition of graduation.
- j. Students must meet health requirements as specified in the *Health Requirements for Undergraduate Students* found in this bulletin.
- k. Health reports and CPR certification must be on file in the office of the associate dean for administration and practice prior to attendance in classes for which these requirements are needed.
- l. Standardized examinations are to be taken as required by the Undergraduate Program and Curriculum Committee.
- m. The college has additional limitations for substitute repeat courses.

### PROGRESSION INTO NURS 050

The following required courses or their equivalents must be completed prior to entering NURS 050: BISC 006 Chemistry for the Health Professions, BISC 007 Biochemistry, BISC 015 Principles of Anatomy and Physiology, PSYC 001 General Psychology, NURS 010 Introduction to the Nursing Profession and NURS 015 Caring: Intra/Interpersonal Dimensions.

### PROGRESSION INTO NURS 055

The following required courses or their equivalents must be completed prior to entering NURS 055: NURS 050 Skills and Technology 1, BISC 115 Microbiology and HEAL 045 Normal and Therapeutic Nutrition.

### PROGRESSION INTO NURS 105 THROUGH NURS 143

The following required courses or their equivalents must be completed prior to entering courses NURS 105 through NURS 143: BISC 120 Pharmacology, NURS 055 Skills and Technology 2, NURS 100 Health Status Deviation 1, HEAL 025 Culture and Health, PSYC 078 Introduction to Life Span Developmental Psychology, SOCI 021 The Family.

### PROGRESSION INTO NURS 160 OR HIGHER NURSING COURSES

The following required cognate and nursing courses or their equivalents must be completed prior to entering NURS 160 or higher nursing courses: HEAL 140 Primary Health Care

Concepts, NURS 105 Health Status Deviation II, NURS 120 Introduction to Nursing Research, NURS 130 Nursing Care of Adults/Theory, NURS 131 Nursing Care of Adults/Practicum, NURS 138 Family Nursing—Childbearing Stage/Theory, NURS 139 Family Nursing—Childbearing Stage/Practicum, NURS 142 Mental Health Nursing/Theory, NURS 143 Mental Health Nursing/Practicum.

The remaining required cognate and nursing courses or their equivalents which must be completed include: PHIL 104 Theory of Ethics, PHIL 192 Health Care Ethics, NURS 160 Nursing Care of Acutely Ill Adults/Theory, NURS 161 Nursing Care of Acutely Ill Adults/Practicum, NURS 171 Family Centered Nursing of Children/Theory, NURS 172 Family Centered Nursing of Children/Practicum, NURS 178 Nursing of Communities/Theory, NURS 179 Nursing of Communities/Practicum, NURS 184 Synthesis Practicum, and NURS 188 Nursing Leadership.

## WITHDRAWAL FROM THE NURSING PROGRAM

The following criteria are used in recommending that a student should withdraw from the nursing program:

- a. If the student has earned less than the required grades in two required courses as defined in the general progression requirements.
- b. If the student has less than a 2.000 cumulative grade point average effective at the end of the freshman year or at any time thereafter.
- c. If the student's performance suggests that the student is unlikely to succeed in the program.

No student in nursing is required to withdraw without a careful review of his or her entire record and total overall performance as well as any extenuating circumstances that might exist.

## ATTENDANCE

Attendance is mandatory in all scheduled classes and practicums. In the event of absence, progress and continuation in the course will be considered individually. The reason for absence, academic performance of the student, past record of absenteeism, and other relevant factors will be considered. The student is required to provide prior notice to faculty of absence. No student will be allowed to accumulate excessive absences before intervention by the faculty. A student may be asked to withdraw from a course with a laboratory or clinical practicum if the following absences are exceeded.

Absence—Two absences from scheduled laboratory or clinical experience regardless of time involved or clinical allocation.

All clinical time is essential and absences will need to be made up. The faculty member will decide what learning assignments or experiences will be required of the student to achieve the course objectives. Make-up experiences will be arranged. Students are responsible for their own transportation to and from all clinical facilities.

A student may be asked to withdraw from a non-clinical nursing course if the following maximums are exceeded:

Absence

In a two-credit course, maximum of three class hours.

In a three-credit course, maximum of four class hours.

In a four-credit course, maximum of five class hours.

For additional information, see the attendance policy located in the University section of this bulletin.

## APPEALS PROCEDURE

### GRADE APPEALS

A student may appeal a final course grade that he or she believes to be in error. The student must exhaust all possibilities of resolving the problem with the pertinent instructor. If this does not lead to resolution, the student may initiate, in writing, the formal procedure for appealing the grade to the dean stating the reason it is believed the grade should be changed. The dean will appoint an ad hoc appeals committee to consider the appeal in order to assure a fair consideration of the student's appeal.

## TERMINATION FROM THE PROGRAM

If a student does not meet criteria for progression, the Committee on Undergraduate Admissions and Progressions will recommend to the dean that the student withdraw or be terminated from the College of Nursing. A student who is asked to terminate from the program may submit a petition, in writing, to the committee requesting exemption from the stated policies or regulations of the program. The student is expected to identify the unique, unusual or uncontrollable circumstances which led to the petition and to formulate a plan to resolve issues. The petition is to be submitted within 30 days of notification of termination and before late registration. A student may petition the committee only once for a specific situation.

Once a decision has been made by the committee regarding the student's petition, a recommendation will be forwarded to the dean. If the student is dissatisfied with this decision, the final recourse within the College of Nursing is a petition to the dean.

## APPROVAL FOR SUMMER SESSION STUDY

Students who plan to take courses in summer school at another institution are required to obtain the approval from the associate dean for academic affairs for such courses before the summer session begins. Approval will be based on course descriptions in the current bulletin of the college or university at which the courses will be attempted. The student is expected to present such information. If prior approval is not obtained, there is no guarantee that credits earned will be accepted by Marquette University. Approval forms may be obtained at the college office.

## SPECIAL AND HEALTH REQUIREMENTS

Prior to the first term of enrollment in the College of Nursing students must meet the following requirements:

A. Health assessment and physical examination.

1. A health history including a history of communicable disease and immunizations,
2. A physical examination by a physician or registered nurse practitioner indicating whether the student's health status is satisfactory to continue in the nursing program, and
3. A statement from the student regarding his/her communicable disease status will be on file.

B. Rubella (German Measles).

Each student must have documentation of immunity to rubella. A student not having immunity should be immunized upon the advice of his/her physician or nurse practitioner.

C. Rubeola (Measles).

A student born after 1956 must have either documentation of a positive rubeola (measles) antibody titer or documentation of rubeola immunization since January 1, 1980.

D. Chickenpox.

Since nursing students may be exposed to chickenpox, each student should be aware whether he/she has had chickenpox and is therefore immune. A student who has no record or recollection of having had chickenpox is advised to be screened for immunity.

E. Tetanus.

Each student must have documentation of tetanus within the last 10 years.

F. Latex Allergy.

Students will provide documentation if a latex allergy exists.

In the term prior to enrolling in nursing courses with clinical practicum (NURS 050 and subsequent nursing courses), the following health requirements must be completed:

A. All students must submit evidence of a negative tuberculin skin test (or negative chest x-ray approved by their physician, if the skin test was positive). A student exposed to a person with communicable tuberculosis must inform the associate dean for administration and practice and will be referred to Student Health Service for follow-up. (Tuberculin testing and evidence of a negative result is required annually.)

B. Hepatitis B Virus (HBV)

Each student must complete the vaccination series for HBV. (A student wishing an exemption from this requirement can complete a waiver form which will be retained in his/her student file.)

Health requirements for RN students must be completed prior to enrollment in NURS 179 or 191.

## CPR CERTIFICATION

Students must provide evidence of current C.P.R. certification, including infant, child, adult (two-person and obstructed-airway resuscitation), prior to registration for NURS 055. This certification must be maintained throughout the remainder of the program through biannual certification.

## ACCREDITING COMMISSION

Verification of accreditation status may be obtained from: National League for Nursing Accrediting Commission; 350 Hudson Street; New York, NY 10014; (212) 989-9393.

---

# STUDENT ORGANIZATIONS

## COLLEGE ORGANIZATION AND PROFESSIONAL ASSOCIATION

The Marquette University College of Nursing Student Nurses Association Council functions as a liaison between the college and the Marquette University Student Government. It coordinates and promotes student activities within the college. The Association Council also is the university chapter of the Wisconsin Student Nurses Association, a constituent organization of the National Student Nurses Association.

## HONOR SOCIETY

Sigma Theta Tau is an international professional honor society with constituent chapters in collegiate schools of nursing. The Delta Gamma Chapter at the College of Nursing is open to students, faculty, and community leaders. Candidates enrolled in the College of Nursing must have junior or senior standing and are selected on the basis of superior scholastic achievement, potential leadership qualities and desirable personal qualifications.

Faculty and registered nurses in the community are selected on the basis of special interest in Sigma Theta Tau and marked achievement in the field of nursing.

---

# BACKGROUND CHECKS, DRUG TESTING

Some degrees, majors and/or courses may require a student to submit to a criminal background check and/or drug testing. The results of those checks and/or tests may affect the student's eligibility to continue in that degree, major and/or course.

# CURRICULA INFORMATION

## BACHELOR OF SCIENCE IN NURSING: PRELICENSURE

An eight-term program leads to the degree of bachelor of science in nursing. The College of Nursing encourages applications from qualified students from all cultural, racial, religious, and ethnic groups of either sex. The curriculum includes courses in general education and nursing courses.

The college reserves the right to amend the program and courses offered from year to year.

### Freshman

## BACHELOR OF SCIENCE IN NURSING: REGISTERED NURSE OPTION

The following courses are required. Equivalent courses may be accepted in transfer if they have been completed at an accredited college or university with a grade of C or better.

### NURSING REQUIREMENTS

#### REQUIRED NURSING COURSES - PHASE I

All RN/BSN students are required to complete Phase I nursing courses

	<b>CREDITS</b>
HEAL 025 Culture and Health	3
NURS 120 Introduction to Nursing Research	3
NURS 162 Health Assessment	3
NURS 173 Professional Issues in Nursing	3
<b>Total</b>	<b>12</b>

#### NURSING CREDITS BY ADVANCED COURSE VALIDATION

Upon completion of Phase I courses, as well as graduation from an NLN accredited diploma or associate degree program and possession of a valid RN license, credits for the following courses will be awarded and placed on the student's transcript.

	<b>CREDITS</b>
NURS 010 Introduction to the Nursing Profession	1
NURS 015 Caring: Intra/Interpersonal Dimensions	3
HEAL 045 Normal and Therapeutic Nutrition	3
NURS 050 Skills and Technologies I	4
NURS 055 Skills and Technologies II	4
NURS 130 Nursing Care of Adults—Theory	3
NURS 131 Nursing Care of Adults—Practicum	3
NURS 138 Childbearing Family Nursing—Theory	2
NURS 139 Childbearing Family Nursing—Practicum	3
NURS 142 Mental Health Nursing—Theory	2
NURS 143 Mental Health Nursing—Practicum	3
NURS 160 Nursing Care of Acutely Ill Adults—Theory	3
NURS 161 Nursing Care of Acutely Ill Adults—Practicum	3
NURS 171 Family-centered Nursing of Children—Theory	2
NURS 172 Family-centered Nursing of Children—Practicum	3
NURS 198 Topics in Nursing	3
<b>Total</b>	<b>45</b>

#### REQUIRED NURSING COURSES - PHASE II

All RN/BSN students begin Phase II courses after completing Phase I and receiving credit for course validation.

	<b>CREDITS</b>
NURS 178 Nursing of Communities—Theory	2
NURS 179 Nursing of Communities—Practicum	3
NURS 188 Nursing Leadership	3
NURS 191 Professional Nursing—Practicum	3
Nursing elective	3
<b>Total</b>	<b>14</b>

### ARTS AND SCIENCES

#### BIOMEDICAL SCIENCES

BISC 015	5
BISC 115	3
BISC 006	3
BISC 00	3
<b>Total</b>	<b>14</b>

PSYCHO-SOCIAL ISSUES		THEOLOGY	
PSYC 001	3	THEO 001	3
PSYC elective	3	Theology electives	6
SOCI 001	3		
<b>Total</b>	<b>9</b>	<b>Total</b>	<b>9</b>
ENGLISH/COMMUNICATION		ELECTIVES	
<b>Total</b>	<b>6</b>	<b>Total</b>	<b>12</b>
PHILOSOPHY		[One elective must be in history or political science]	
PHIL 050	3		
PHIL 104	3	<b>Total Credits</b>	<b>128</b>
PHIL 192	3	<b>Required for Graduation</b>	
<b>Total</b>	<b>9</b>		

This program may be completed on a full-time or part-time schedule. An accelerated RN to BSN to MSN program is available to qualified students.

## MASTER OF SCIENCE IN NURSING

Concentrations are offered in nursing administration and advanced practice nursing: nurse-midwifery, neonatal, children, adults, older adults and acute care nurse practitioner.

Additional information about the master of science in nursing program will be found in the *Graduate School Bulletin*.

## MASTER OF SCIENCE PROGRAM FOR NON-NURSING GRADUATES

The master's program for non-nursing graduates is designed for those individuals who hold baccalaureate degrees in fields other than nursing and who wish to become nurses. The program builds upon the student's broad educational preparation and provides an intense, accelerated, and specialized nursing curriculum to meet the student's career goals. Students complete the nursing requirements and meet the BSN program objectives in an intense 15 month pre-MSN phase and progress to graduate study. Students are then prepared in the MSN program for nursing administration or advanced nursing practice roles in: adult, older adult, pediatrics or nurse-midwifery.

### ADMISSION REQUIREMENTS

1. Baccalaureate degree
2. Undergraduate Q.P.A. of 3.000 or greater
3. Graduate Record Examination
4. Completion of three recommendation forms
5. Completion of the following prerequisite courses with grade of C or better:

Anatomy and Physiology	5-6 credits
Chemistry/Biochemistry/Biology/Microbiology	5-6 credits
Behavioral Sciences (e.g., psychology, sociology)	3 credits
Statistics (including inferential)	3 credits

## MINOR IN HEALTH STUDIES

Completion of the minor will be noted on a student's transcript if the following requirements are met:

The minor requires 18 credit hours. At least six credits must be selected from each of the following groups:

<b>GROUP 1</b>		<b>CREDITS</b>
HEAL 025	Culture and Health	3
HEAL 045	Normal and Therapeutic Nutrition	3
HEAL 120	Personal Health	2
HEAL 122	Women's Health	3
HEAL 130	Substance Abuse	3
HEAL 131	Urban Health	3
HEAL 150	Alternative and Complementary Therapies	3
HEAL 198	Topics in Health Care	2-3
<b>GROUP 2</b>		
HEAL 140	Primary Health Care Concepts	3
HEAL 141	Introduction to Health Care Systems	3
SOCI 133	Medical Sociology	3
PHIL 190	Health Care Ethics	3
CMST 146	Health Communication	3
JOUR 173	Health and Science Journalism	3

Students should indicate their intention to work toward a minor as early as possible in their academic studies. To do so, students must complete the course study card available from the College of Nursing, Clark Hall, (414) 288-3810.

# COURSE DESCRIPTIONS

## NURSING (NURS)

Dean and Associate Professor: Wake

Associate Dean for Academic Affairs

and Professor: Miller

Interim Associate Dean for Administration and Practice: Weiss

Professor: Schank

Associate Professors: Baroni, Fehring, Kovach, Tobin, Weis, Weiss, Wilson

Assistant Professors: Cheever, Coenen, Frenn, Hanson, Krejci, Kunert, Lough, Malin, O'Brien, Ryan, VandeVusse

Adjunct Assistant Professor: Schoneman

Clinical Associate Professor: Huebsher, Shaw

Clinical Assistant Professors: Dressler, Harrod, McShane

Clinical Instructors: Ivantic-Doucette, Jansen, Kowatsch, Kramer, Matheus, McCarthy, Stroupe, Westerman

For a listing of the courses offered by the College of Arts and Sciences, see the College of Arts and Sciences course descriptions section of this bulletin.

Approximately three hours of clinical practice are equivalent to one credit hour.

### **NURS 010. Introduction to the Nursing Profession** 1 sem. hr.

An introduction to nursing as a scholarly holistic practice discipline including the historical, philosophical, and social influences affecting nursing practice and the current health care system. Offered annually.

### **NURS 015. Caring: Intrapersonal/ Interpersonal Dimensions** 3 sem. hrs.

Emphasizes caring as the core of the nurse-client relationship. Focus on nurse as person including self-awareness, values clarification, and therapeutic communication. Recognition of the uniqueness of the human experience and development of relationships with persons of diverse backgrounds. Offered annually.

### **NURS 050. Skills and Technology 1** 4 sem. hrs.

Theoretical knowledge supportive of selected nursing skills, including assessment. Acquisition of corresponding skills in laboratory and varied health care settings. Emphasis is on the integration of cognitive and psychomotor skill development for a holistic approach with the client. Includes classroom and practicum. Offered annually. *Prereq:* BISC 006, 007, 015; NURS 010, 015. *Prereq or concurrent:* BISC 115 and HEAL 045.

### **NURS 055. Skills and Technology 2** 4 sem. hrs.

Builds on concepts and content from Skills and Technology 1. Study and acquisition of complex nursing skills. Includes classroom and practicum. Offered annually. *Prereq:* NURS 050. *Prereq or concurrent:* NURS 100, BISC 120.

### **NURS 100. Health Status Deviations 1: Clinical Concepts of Disease Processes** 3 sem. hrs.

Study of psychologic and physiologic alterations which have implications for human responses across the life span. Basic processes

of pathogenesis. Includes common diagnostic and treatment modalities. Offered annually. *Prereq:* BISC 006, 007, 015; PSYC 001. *Prereq or concurrent:* BISC 120.

### **NURS 101. International Study in Nursing** 0-3 sem. hrs.

Structural travel and study programs in International Nursing. Program includes continuous enrollment for students studying abroad in non-Marquette programs and/or special advising, reading, and required paper(s). Offered every semester. *Prereq:* Consent of associate dean; Approved for full-time study at another college/university abroad, but will NOT be certified as full-time by Marquette University.

### **NURS 105. Health Status Deviations 2: Complex Concepts of Disease Processes** 3 sem. hrs.

Study of psychologic and physiologic alterations which have implications for human responses across the life span. Complex processes of pathogenesis. Include common diagnostic and treatment modalities. Offered annually. *Prereq:* NURS 100; PSYC 078.

### **NURS 108. Individual Study and Practice** 1-3 sem. hrs.

Individual study and practice with a client or a selected group of clients. Arrangements for guidance of a preceptor must be made prior to registration. May be taken twice. *Prereq:* Cons. of instr.

### **NURS 120. Introduction to Nursing Research** 2 sem. hrs.

Overview of research in nursing and its application to nursing practice. Offered each semester. May be taken by nursing graduate students. *Prereq:* Jr. stndg.

### **NURS 124. Special Institutes** 1-3 sem. hrs.

In depth study of concepts and research related to a specialty area in nursing. Offered occasionally.

### **NURS 130. Nursing Care of Adults—Theory** 3 sem. hrs.

Focus on critical thinking and clinical judgment with adults and older adults related to wellness and common chronic illnesses. Emphasis is on health promotion, health maintenance, and health restoration. Offered every semester. *Prereq:* NURS 055, 100, BISC 120. *Prereq. or Coreq:* HEAL025 or 140; and NURS 105. *Must be taken concurrently with NURS 131.*

### **NURS 131. Nursing Care of Adults—Practicum** 3 sem. hrs.

Application of clinical judgment with adults and older adults related to wellness and common chronic illnesses. Emphasis is on health promotion, health maintenance, and health restoration for persons from diverse contexts across health care delivery settings. Offered every semester. *Coreq:* NURS 130.

### **NURS 138. Childbearing Family Nursing—Theory** 2 sem. hrs.

Study of human responses of diverse families during childbearing period. Focus is on nursing process, health promotion, and families in transition and adaptation from pre-conception through post-partum. Offered every semester.

*Prereq:* HEAL140 (which may be taken concurrently), HEAL025, NURS 055, NURS 100; SOCI 021; PSYC 078; BISC 120. *Must be taken concurrently with NURS139.*

### **NURS 139. Childbearing Family Nursing—Practicum** 3 sem. hrs.

Guided experience in the care of diverse families from preconception through the post-partum period. Focus on the application of nursing process in assisting families to meet their unique developmental needs and to foster family health. Offered every semester. *Must be taken concurrently with NURS138.*

### **NURS 142. Mental Health Nursing—Theory** 2 sem. hrs.

An introduction to concepts, principles, and processes of mental health nursing with a focus on human responses across the life span and the health care continuum. Offered every semester. *Prereq:* BISC 120; NURS 055, 100; PSYC 078; SOCI 021; HEAL025. *Prereq or concurrent:* HEAL140. *Must be taken concurrently with NURS143.*

### **NURS 143. Mental Health Nursing—Practicum** 3 sem. hrs.

Clinical practice to promote the development of the professional role and the application of concepts, principles, and processes of mental health nursing. Emphasis on therapeutic nursing interventions in caring for individuals, families, and communities across varying health care delivery settings. Offered every semester. *Must be taken concurrently with NURS142.*

### **NURS 160. Nursing Care of the Acutely Ill Adult—Theory** 3 sem. hrs.

Nursing care of adults and older adults experiencing acute and complex illness with alterations and multiple body systems. Focus is on critical thinking, collaboration with interdisciplinary health care professionals, restoration, and rehabilitation. Offered every semester. *Prereq:* NURS 120, 130, 131, 138, 139, 142, 143; HEAL140. *Must be taken concurrently with NURS161.*

### **NURS 161. Nursing Care of the Acutely Ill Adult—Practicum** 3 sem. hrs.

Application of critical thinking with adults and older adults experiencing acute and complex illness. Emphasis is on restoration, rehabilitation, and coordination of health care in the acute care setting. Offered every semester. *Must be taken concurrently with NURS160.*

### **NURS 162. Health Assessment** 3 sem. hrs.

Learning and using assessment skills in systematically gathering, validating, and labeling health status, developmental status and self-care deficits. Offered occasionally. *Prereq:* R.N. students, graduate students or cons. of instr.

### **NURS 164. Process of Patient/Family Teaching** 3 sem. hrs.

An analysis of the teaching-learning process as it is applied to teaching patients and families in a health care setting. Discussion of the most appropriate media and methods used in various health teaching situations. Offered occasionally. *Prereq:* Second semester Jr. or Sr. stndg.

**NURS 165. Oncology Nursing** 3 sem. hrs.  
In-depth exploration of nursing needs of the patient with cancer, designed for the student with basic understanding of the pathophysiology of cancer and the classical treatment modalities. Offered occasionally. *Prereq: Second semester Jr. stndg., R.N.; or cons. of instr.*

**NURS 166. Critical Care Nursing Practicum** 3 sem. hrs.

Focuses on application of specialized care given to clients with critical health care needs; includes examination of the physical, psychosocial and spiritual needs of clients and families and how various settings impinge on those needs. Offered occasionally. *Prereq: Sr. stndg., consent of instr.; NURS 167 (which may be taken concurrently).*

**NURS 167. Critical Care Nursing** 3 sem. hrs.  
Integration of pathophysiologic concepts and psychosocial variables unique to caring for critically ill adults. Offered occasionally. *Prereq: Sr. stndg., or R.N. students.*

**NURS 168. AIDS Care** 3 sem. hrs.  
Comprehensive analysis of issues relating to HIV infection and AIDS including epidemiology, pathophysiology, prevention strategies and nursing care of the client throughout the infection continuum. *Prereq: NURS 055, NURS 105 or consent of instructor.*

**NURS 170. Trends and Issues in Nursing** 2 sem. hrs.

Forces influencing nursing including: health care systems and technology, legal issues, and professional movements. Offered occasionally. *Prereq: Jr. stndg.*

**NURS 171. Family Centered Nursing of Children—Theory** 2 sem. hrs.

Family centered nursing of children and adolescents in diverse populations. Focus on health promotion, maintenance, acute and chronic health problems. Offered every semester. *Prereq: Sr. stndg. Must be taken concurrently with NURS172.*

**NURS 172. Family Centered Nursing of Children—Practicum** 3 sem. hrs.

Emphasis on application of theory and the planning and provision of care to healthy and ill children. Offered every semester. *Prereq: Sr. stndg. Must be taken concurrently with NURS 171.*

**NURS 173. Professional Issues in Nursing** 3 sem. hrs.

The impact on professional nursing of external and internal forces including law, ethics, education, and nursing process. Offered occasionally. *Prereq: R.N. students only.*

**NURS 178. Nursing of Communities—Theory** 2 sem. hrs.

Nursing and community health concepts are integrated to provide a theory base for aggregate level care. Emphasis is on planning with communities for provision of care which may include healthy, vulnerable and ill persons within the context of dynamic systems. Offered every semester. *Prereq: NURS 130, 131, 138, 139, 142, 143 and HEAL140; Sr. stndg. Must be taken concurrently with NURS179.*

**NURS 179. Nursing of Communities—Practicum** 3 sem. hrs.

Application of the nursing and community health concepts for aggregate level care. Emphasis is on planning with communities for provision of care which may include healthy, vulnerable and ill persons within the context of dynamic systems. Offered every semester. *Prereq: Sr. stndg. Must be taken concurrently with NURS178.*

**NURS 184. Synthesis Practicum** 3 sem. hrs.

Synthesis and application of clinical knowledge through intensive practicum in a selected setting. Development of entry level competence in nursing practice with an emphasis on skill in clinical decision making. *Prereq: NURS 120, 130, 131, 138, 139, 142, 143 and HEAL140 and Sr. stndg.*

**NURS 188. Nursing Leadership—Theory** 3 sem. hrs.

Analysis of organizational, management and leadership theories. Focus on development of leadership roles in diverse environments. Includes political, social, cultural, economic, and technological influences on health care. Offered every semester. *Prereq: Sr. stndg.; NURS120, 130, 131, 138, 139, 142, 143, HEAL140. Must be taken concurrently with either NURS161, 172, or 179.*

**NURS 190. Nursing Undergraduate International Exchange** No Credit.

Study abroad as part of an international student exchange program. Upon approval students are enrolled in a college or university abroad as a full-time student for one semester or one year. Course credits transfer to Marquette. *Prereq: Cons. of Associate Dean.*

**NURS 191. Professional Nursing Practicum** 3 sem. hrs.

Guided experience in caring for clients with complex health problems in a variety of settings. Focus on the professional nurse's role as a provider and manager of client care with emphasis on nursing process. Offered occasionally. *Prereq: R.N. students only; Jr. stndg.*

**NURS 195. Independent Study** 1-3 sem. hrs.

Intensive library search or a research project relative to a specific area of interest. Arrangements for faculty direction must be made prior to registration. May be taken twice. Offered every semester. *Prereq: Consent of instructor.*

**NURS 198. Topics in Nursing** 2-3 sem. hrs.

Special topics in nursing and health care as identified in the *Timetable of Classes*. Offered occasionally.

## HEALTH (HEAL)

The following HEALTH (HEAL) courses are offered by the College of Nursing and open to all students of the university.

**HEAL025. Culture and Health** 3 sem. hrs.  
Cultural perspective of concepts of health and illness, including the relationship of health care behaviors to social structure, the interrelationship between culture and biological variables. Discussion of cultural relativism and ethnocentrism. Offered every semester.

**HEAL045. Normal and Therapeutic Nutrition** 3 sem. hrs.

Nutritional aspects of health promotion. Therapeutic dietary needs of clients with various health status deviations. Offered annually. *Prereq: BISC 006, 007, 015; Soph. stndg.*

**HEAL120. Personal Health** 2 sem. hrs.

An overview of current health issues which impact on the individual. The focus is on self-responsibility and decision-making for one's own health. Offered occasionally.

**HEAL122. Women's Health** 3 sem. hrs.

A self-care approach to health maintenance, the physical and psychosocial changes during the life cycle, and the health care system as these pertain to women in our society. Offered occasionally.

**HEAL130. Substance Abuse** 3 sem. hrs.

A comprehensive overview of substance abuse throughout the life span. Addresses the physiological, psychological, sociological and spiritual perspectives. Offered occasionally.

**HEAL131. Urban Health** 3 sem. hrs.

Exploration of social, organizational, political and environmental factors impacting the health of urban populations. Offered occasionally. *Prereq: Jr. stndg. or consent of instructor.*

**HEAL140. Primary Health Care Concepts** 3 sem. hrs.

Exploration of primary health care principles and models. Focus is on multidisciplinary approaches to the examination of interacting factors contributing to the health of populations. Offered every semester. *Prereq: Jr. stndg.*

**HEAL141. Introduction to Health Care Systems** 3 sem. hrs.

Concepts of health, health care, care delivery systems, and health professional roles. Offered occasionally. May not be taken by students majoring in nursing.

**HEAL150. Alternative and Complementary Therapies** 3 sem. hrs.

Exploration of alternative approaches to health beyond usual therapies of Western medicine. Emphasis on body-mind-spirit interconnections and multicultural perspectives. *Prereq: Jr. stndg.*

**HEAL198. Topics in Health Care** 2-3 sem. hrs.

Special topics in health care as identified in the *Timetable of Classes*. Offered occasionally.

# *College of Professional Studies*

The College of Professional Studies is designed to serve the busy lifestyles of working adults. This premier college for adult learners offers convenient weekend and weeknight classes with a curriculum focused on the changing needs of a changing society. Classes are held at three locations: Kenosha, Milwaukee and Waukesha.

For individuals pursuing or advancing their careers in or aspiring to leadership roles in business, social and professional organizations, this college offers its graduates the credentials needed for career advancement. Adult learners will find the College of Professional Studies an excellent way to ease into today's business world. Becoming a Marquette University student offers you the advantage of a quality education you can put to immediate use. In keeping with Marquette's Jesuit mission, the college educates the whole person in a value-centered and professionally oriented applications-based curriculum.

The mission of the college is to provide accessible, quality education that empowers non-traditional students to become life-long learners.

---

## DEGREES OFFERED

Marquette University confers the degree of bachelor of arts on those students who have satisfactorily completed the following majors: criminology and law studies, psychology and professional communication as well as a bachelor of science on those students who have satisfactorily completed requirements for the organization and leadership major.

---

## ADMISSION REQUIREMENTS

All students, freshman or advanced standing, applying to the College of Professional Studies must submit a completed application, writing sample, official transcripts from a high school or institution granting GED and, if appropriate, official transcripts from all post secondary institutions. An applicant's entire academic performance will be evaluated in making an admissions decision.

If an applicant was enrolled or registered at another institution since graduating from high school, official transcripts from such schools must be sent to the College of Professional Studies. Generally a minimum average of 2.000 (on a 4.000 scale) in college work is needed for consideration.

Non-degree applicants to the College of Professional Studies should refer to the admissions requirements listed in the University section of this bulletin.

---

## ACCELERATION OPPORTUNITIES

Marquette recognizes that adults have knowledge from personal and professional experiences that enrich their college experience significantly. Academic advisers evaluate each student's background to design a personalized plan for completing the degree. Students have a variety of ways to apply credit toward their degree:

### TRANSFER CREDITS

Transfer credits will be accepted on the basis on their relevance to the requirements of the program. Up to 60 credits may be accepted from accredited two-year community and technical colleges and up to 90 credits from accredited four-year colleges and universities.

### CLEP TESTS

Degree credits may be earned for certain college courses through the College Level Examination Program (CLEP). Individuals who have acquired relevant knowledge outside the college classroom are encouraged to take the appropriate CLEP test(s). A maximum of 30 credits earned through CLEP examinations may be applied to a Marquette degree. Credit is granted for approved subject examinations only. Students can ask their academic adviser for a listing of the approved exams. Marquette University is a CLEP testing center for its matriculated students. Please see the College of Professional Studies in Room 103 of the 1212 Building or call (414) 288-3153 for test and schedule information.

### OPTION TO TAKE OTHER COURSES

Should schedules permit, students may enroll in traditional day and evening classes. Please consult the *Timetable of Classes* or see your academic adviser.

---

## GRADUATION REQUIREMENTS

### AMOUNT AND QUALITY OF WORK

In addition to graduation requirements listed in the University section of this bulletin students in the College of Professional Studies must comply with the following graduation requirements:

1. Students must earn a minimum of 126 credit hours, including all core requirements, a minimum 18 credit hours minor, and a minimum of 30 credit hours in a major, as defined by degree requirements offered through the college. *Note: Depending on the major/minor selected, credit hours required for graduation may be greater than 126.*
2. Students must earn a minimum of a 2.000 Q.P.A. in their Marquette work.
3. Students must complete a minimum of 36 credit hours of upper division course work.
4. A minimum 15 credits in the major and at least nine credits in the minor normally must be completed at Marquette University.
5. A grade of C or higher normally must be earned in each of a student's major courses.
6. Students may present credits but not quality points from another institution toward graduation requirements.
7. It is the candidate's responsibility to meet all university academic, financial and administrative requirements and procedures as outlined in this bulletin.
8. A student in the College of Professional Studies who is not enrolled in Marquette courses for a total of one academic year (either two consecutive terms, five consecutive modules or any combination of terms and modules which total one academic year) or longer, must meet the graduation requirements which apply at the time of readmission.

## GENERAL DEGREE REQUIREMENTS

All degree candidates in the College of Professional Studies must complete the following requirements in the core curriculum.

<i>Area</i>	<i>Credit Hours</i>
Liberal Arts Core Classes	
Principles of Liberal Studies	3
Introduction to Information Systems	3
English Composition/Communication	12
History	6
Literature	6
Mathematics	6
Natural Science	3
Philosophy	6
Social/Behavioral Sciences	6
Theology	6
<b>Total Credit Hours—Liberal Arts Core Classes</b>	<b>57</b>
<b>Major</b>	<b>30–34</b>
<b>Minor</b>	<b>18–21</b>
<b>Elective Credits</b>	<b>18–24</b>

### FOUNDATIONS SEMINAR (3 credit hours)

For increased success some new students may be required to complete this course. This course is considered an elective.

### PRINCIPLES OF LIBERAL STUDIES (3 credit hours)

All students are required to complete this course during their first year at Marquette.

### INTRODUCTION TO INFORMATION SYSTEMS (3 credit hours)

All students are required to complete this course.

### ENGLISH COMPOSITION/COMMUNICATION (12 credit hours)

All students must complete six credit hours of English composition as well as six credit hours of communications-based courses for a total of 12 credit hours. The specific courses that all College of Professional Studies students need to complete this requirement are: ENGL 001 and 002, Expository Writing 1 and 2; ENGL 105, Writing for the Professions; and CMST 155, Business and Professional Speaking.

### HISTORY (6 credit hours)

All students must complete six credit hours of history. Generally, students complete their history requirement with HIST 001 and 002, Growth of Western Civilization 1 and 2.

If students are interested in exploring alternative options to complete their history requirement they should contact their adviser. Once a history sequence is selected and started, whether it is HIST 001 and 002 or a preapproved alternative sequence, the student must complete that sequence to fulfill the history requirement.

### LITERATURE (6 credit hours)

All students must complete six credit hours of literature courses. It is strongly suggested that a student enroll in a survey course (generally a course number less than 100) prior to enrolling in an upper division (numbered higher than 100) literature course. Course offerings:

<i>Course</i>	<i>Credits</i>
ENGL 022 Survey of English Literature I	3
ENGL 032 Survey of American Literature I	3

### MATHEMATICS (6 credit hours)

All students must complete six credit hours of mathematics, of which three credit hours must be ORLE 060, Research and Statistical Methods. The remaining credit hours selected depend on the student's individual needs.

<i>Course</i>	<i>Credits</i>
MATH 020 College Algebra	3
MATH 070 Finite Mathematics	3

### NATURAL SCIENCE (3 credit hours)

All students must complete ORLE 018, Aspects of Modern Science for three credit hours. Additional and/or different natural science course may be approved by college.

### **PHILOSOPHY (6 credit hours)**

All students must complete PHIL 050, Philosophy of Human Nature, and one upper division philosophy course for a total of six credit hours. PHIL 104, Theory of Ethics, is suggested.

### **SOCIAL-BEHAVIORAL SCIENCES (6 credit hours)**

All students must complete six credits hours of social-behavioral science, of which three credit hours must be PSYC 001, General Psychology. Students may choose one of the following courses for the remaining three credit hours.

<i>Course</i>	<i>Credits</i>
SOCI 001 Principles of Sociology	3
ANTH 001 Introductory Anthropology	3
CRLS 051 Introductory Criminology	3
POSC 020 American Politics	3
POSC 060 International Politics	3

### **THEOLOGY (6 credit hours)**

All students must complete THEO 001, Introduction to Theology, and one second-level theology course (THEO 100-119) for a total of six credits. THEO 115, Christian Discipleship, is suggested.

## **MAJOR AND MINOR REQUIREMENTS**

All students in the College of Professional Studies must complete a major and minor to fulfill graduation requirements. It is required that students declare a major and minor prior to the end of their sophomore year or the completion of 60 credit hours. Students failing to do so jeopardize completing core requirements in a timely fashion.

The College of Professional Studies offers majors in the following areas: criminology and law studies, organization and leadership, professional communication and psychology as well as minors in criminology and law studies, organization and leadership, professional communication, psychology, interdisciplinary fields, and the professional minor. For interdisciplinary field minors please contact the college for current information.

The following are the courses required for each major and minor. Course descriptions for criminology and law studies, professional communications and psychology are listed in the respective area of this bulletin. Course descriptions for organization and leadership and the professional minor will follow this section.

### **Criminology and Law Studies (CRLS)**

**Major:** Requires 30 credit hours, 10 courses in CRLS including CRLS 051, 152, 156, 157 (or 159), 168, 186, 187 and three of the following five courses: CRLS 151, 167, 181, 193, 198.

**Minor:** Requires 18 credit hours, six courses in CRLS including CRLS 051.

(Course descriptions are found in this bulletin in the criminology and law studies section of the College of Arts and Sciences.)

### **Professional Communication (PRCO)**

**Major:** Requires 30 credit hours, including CMST 010, 052, 053, 131, 154 and five of these six courses, CMST 132, 134, 140, 165, ADPR 008 and JOUR 166.

**Minor:** Requires 21 credit hours, including CMST 010, 052, 131, 134, 154, JOUR 166 and one three-credit course in CMST. This CMST course must be a course other than CMST 155.

(Course descriptions are found in this bulletin in the communication studies section of the College of Communication.)

### **Psychology (PSYC)**

**Major:** Requires 35 credit hours including PSYC 001, 060, 090 and at least one course from at least five the following eight content areas: developmental (101, 102, 103); social (111); learning (121, 122); assessment (127, 131); history and systems (128); personality theories (132); physiological (129, 135); and abnormal (137).

**Minor:** Requires 18 credit hours; six courses in psychology including PSYC 001.

(Course descriptions are found in this bulletin in the psychology section of the College of Arts and Sciences.)

### **Professional Minor (PRMI) (MINOR ONLY)**

**Minor:** Requires 21 credit hours, seven courses in organization and leadership, ORLE 032, 034, 036, 038, 129, 136 and 138.

---

## ACADEMIC REGULATIONS

### Organization and Leadership (ORLE)

**Major:** Requires 30 credit hours, ORLE 090, 091, 120 or 121, 132, 134, 135, 197, CMST 134 and two of the following courses: ORLE 133, 137, 139, and one upper division CMST course. This CMST course must be a course other than CMST 155.

**Minor:** Requires 21 credit hours, seven courses in organization and leadership, ORLE 090, 091, 120 or 121, 132, 134, 135 and CMST 134.

Students in the College of Professional Studies are expected to adhere to the academic requirements and regulations listed in the University section of this bulletin.

### ACADEMIC PERFORMANCE/CENSURE

Students admitted to the College of Professional Studies are expected to meet the college's academic standards. Academic performance of students in the college will be monitored closely. Any student who does not maintain the academic standards of the college, progress steadily toward graduation, or demonstrate adequate achievement will be required to withdraw from the college.

Academic progress of students will be reviewed each eight-week module, or as indicated by the college, by means of special conditions. Special conditions will be given in writing to the student at the time of admission, readmission, or transfer to the college. Anytime during the student's attendance in the college when academic progress is in question, special conditions may be required of the student to continue to enroll. Failure to adhere to the terms of the special conditions will result in academic withdrawal.

### ACADEMIC DISHONESTY

The College of Professional Studies complies with the policy on academic dishonesty found in the University section of this bulletin. Professionalism in the university setting encompasses the ethical responsibility of each student to complete his/her own course work. Any student who plagiarizes, cheats or falsifies work or takes part in such activities may fail the assignment or the course or be dismissed from Marquette University.

### ADVISERS

Each student admitted to the College of Professional Studies is assigned a professional adult student adviser with whom the student should make contact at least once every eight-week module. The adviser is a resource to assist the student in planning his/her specific program of study and to assist the student in clarifying and achieving specific educational goals. Note that it is the responsibility of the student to understand and complete requirements for graduation, specific to the program selected.

### ATTENDANCE POLICY

Student attendance in each class per eight-week module is deemed necessary for the successful completion of the course. The College of Professional Studies acknowledges that individual circumstances may prevent a student from attending a particular class period. Whenever possible, an absence should be arranged, in advance, with a professor. The student is responsible for all materials covered and announcements made during his/her absence. It should be noted that the college does not differentiate between excused and unexcused absences.

Multiple absences may compromise the integrity of the learning experience. Therefore, students with two absences from a class may, at the recommendation of the instructor, be withdrawn from the course. The College of Professional Studies reserves the right to automatically withdraw any student who has three or more absences from a course. In the event of a withdrawal from a course the grade of W will appear on the official transcript.

Tardiness and leaving early from class affect student performance. The student's grade and/or standing in the class may be adjusted accordingly.

In order to administer this policy effectively, each instructor will take attendance at every class. The College of Professional Studies provides sign-in attendance sheets for each class, and it is the student's responsibility to sign in or they will be counted as absent.

The College of Professional Studies advising staff will contact new students during their first term of enrollment if the sign-in attendance sheets reflect an absence. The attendance policy will be explained, as well as ramifications of additional absences. After a student's first term of enrollment, the student will be responsible for full familiarity with the college's attendance policy and ALL ramifications of absences.

All students enrolled in courses offered by the College of Professional Studies are expected to adhere to the college's attendance policy, even though they are registered through another college, department, or program at the university.

## INCOMPLETES

A student who does not complete course assignments, tests, quizzes, presentations, etc., prior to the end of the module must arrange with the instructor, in advance, an incomplete grade. If course work is not completed and submitted prior to the deadline, the grade will automatically be changed to a failing grade. Arrangements to extend the deadline must be made prior to the original deadline date.

## CD AND D GRADES

Courses completed with a grade of CD or D generally do not count toward the total hour requirement for a major but do fulfill the subject matter requirement and do count toward the total hours required for graduation.

Credit is never given twice for the same course. Students who received a grade of CD or D in a course specific to their major may need to repeat the course. Please see Repeated Courses in the University section of this bulletin.

## GRADE APPEALS PROCEDURE

A student in the College of Professional Studies may appeal a grade that he/she feels was assigned in error. The student may initiate the process only after all possibilities of resolution have been explored with the course instructor. If a satisfactory resolution is not agreed upon, or if the student still believes that the course grade is in error, the student must submit in writing—to the assistant dean of the college a formal letter of appeal. The appeal letter should include, but is not limited to, the following:

1. Course name and number.
2. Term the course was taken and completed.
3. Grade received.
4. Rationale for grade dispute.
5. Steps taken to resolve the grade dispute.

Consideration will be given to each appeal received by the assistant dean of the college prior to the end of the following term.

Further appeal may be made to the dean of the college, who will consider the grade appeal based on university and college procedures and has the right to assign the final grade for the course.

## MAILING AND FAXING ASSIGNMENTS TO INSTRUCTORS

Students may use the U.S. Postal Service to submit assignments to their instructors, only if the instructors agree to this arrangement prior to mailing. The student should be aware that, if the assignment is not received, measures taken to rectify the situation are at the discretion of the instructor, which may result in a failing grade or a final grade determined based on the missing assignment.

It is the student's responsibility to retain a copy of his/her assignment for his/her records. This will ensure that, if the copy is not received, an additional copy can be submitted in a timely manner, replacing the original.

The same guidelines apply to faxed assignments. Each student should call the receiver of the faxed assignment to verify it was received.

## MAKE-UP EXAMINATIONS

At various times during the academic year, circumstances may prevent a student from taking an examination at the regularly scheduled examination time. At the discretion of the instructor, the student may take the examination at an alternative pre-arranged time. This rescheduled

test/quiz/exam must be arranged prior to the regularly scheduled test/quiz/exam. In most instances, it is expected that the examination is completed prior to the next class meeting. The instructional assistant is responsible for facilitating and proctoring the examination. This make-up examination can be done during the review session time or at a time both the instructional assistant and the student can meet.

Instances in which a student is absent from a final examination and no prior arrangements were made will be referred to the college office. All students must submit a written request to the dean to reschedule an examination.

## PRE-ASSIGNMENTS

Prior to each eight-week module students receive syllabi and textbook lists for the courses they are taking. Students are expected to complete the assignments for the first class and come prepared to participate.

For information, contact: College of Professional Studies; Marquette University; 1212 Building, Room 103; P.O. Box 1881; Milwaukee, WI 53201-1881; (414) 288-3153; Fax: (414) 288-3298; Internet: (mcps@Marquette.edu).

## REMOVAL OF INCOMPLETE GRADES

The dates to complete and submit all course work for a class that a student originally received an incomplete grade is listed in the front section of this bulletin. Any student that must remove an incomplete has until 5 p.m. of the deadline date to submit all coursework for the class, this includes completing all papers, homework assignments, quizzes and tests. Students should contact the college office for proper procedures for incomplete grades.

---

## BACKGROUND CHECKS, DRUG TESTING

Some degrees, majors and/or courses may require a student to submit to a criminal background check and/or drug testing. The results of those checks and/or tests may affect the student's eligibility to continue in that degree, major and/or course.

---

## FINANCIAL AID INFORMATION AND APPLICATION PROCEDURE

Marquette University's Office of Student Financial Aid and the College of Professional Studies staff encourage you to apply for financial aid. It is in your best interest to apply. In doing so you maybe considered not only for federal money but also for additional resources and private scholarships.

Students wishing to apply for financial aid should make note of the following steps involved:

1. File a Free Application for Student Aid (FAFSA) form.
2. Complete the College of Professional Studies Financial Aid Application.
3. If you are a transfer student, submit a financial aid transcript from each college you have previously attended (whether or not you received aid).
4. Once the form(s) above are submitted, and you have been accepted as a degree seeking student to the university, our office will notify you in writing of the aid for which you qualify. Of the sources listed, you will have the opportunity to decline any type of aid according to your financial needs.

If you have questions about how much you might be eligible to receive or need any of the forms mentioned above, please call Marquette's Office of Student Financial Aid at (414) 288-7390.

## FEDERAL AID SOURCES

**Federal Pell Grant**—Recipients must show financial need, be enrolled at least half-time, and not hold a prior bachelor's degree. Annual amounts range from \$400-\$3,125.

**Wisconsin Tuition Grant**—Recipients must be Wisconsin residents, show financial need, be enrolled at least half-time, not hold a prior bachelor's degree, and be certified as eligible by the

Wisconsin State Higher Education Aids Board. Wisconsin Tuition Grant maybe received for a maximum of 10 terms. Annual amounts range from \$250-\$2,172.

**William D. Ford Federal Direct (Stafford) Loan**—The Stafford Loan Program has two components: The subsidized loan (which accrues no interest while the student is in school) is for those who demonstrate financial need; the unsubsidized loan (on which interest accrues from the time of disbursement) is for those who do not demonstrate need or who do have need but wish to borrow more than the subsidized loan can offer them.

Both loans have a variable interest rate set at T-bill plus 1.7% while in school, grace, or deferments; and T-bill plus 2.3% in repayment (not to exceed 8.25%). Repayment begins six months after the student is no longer enrolled half-time. Annual loan limits vary according to the student's grade level.

Independent undergraduates can borrow up to \$6,625 for the first academic year, \$7,500 for the second academic year and \$10,500 for each of the final two years of study. The exact amount will vary depending upon financial need.

## ADDITIONAL RESOURCES

### PRIVATE SCHOLARSHIPS

If you are interested in pursuing private scholarship options but are not sure where to begin, our office may be of some help. Although there is currently no central database containing information on all of the private scholarship money available, there are resources to get you started.

To obtain private scholarship information log into the Marquette University Web site at ([www.Marquette.edu](http://www.Marquette.edu)) and connect with the Office of Student Financial Aid site, or call or stop by the office for a list of Internet sites.

### STUDY GRANTS

The College of Professional Studies has study grants available for adult learners at Marquette. Grants are available for students who have a cumulative quality point of 2.500 or better.

Students applying for the study grants must have applied for financial aid by filing the FAFSA form, and must demonstrate financial need. Applications, deadline dates and additional eligibility information can be obtained by contacting the college office at (414) 288-3153.

### ALTERNATIVE LOANS

If you have applied for financial aid and find that you still may need additional resources to cover your educational costs, the Office of Student Financial Aid may have some resources to help. There are a number of alternative loans available, through various private banks, that may meet your needs.

These loans may often be borrowed in addition to the Federal Grants and Loans you are already receiving. Typically, these loans require that you be employed, or have an employed, credit-worthy co-signer. Terms vary, and most will allow you to defer repayment until after graduation, although interest will accrue during the in-school period.

For information on alternative loan options, contact the Office of Student Financial Aid, (414) 288-7390, or visit their Web site at ([www.Marquette.edu/Financialaid](http://www.Marquette.edu/Financialaid)).

---

## SPECIAL ACADEMIC PROGRAMS

To further meet the needs of the working adult in Southeastern Wisconsin, the College of Professional Studies has expanded its outreach in three distinct venues, which enhances the existing college and the Part-time Studies Program.

### HARLEY-DAVIDSON MOTOR COMPANY

In 1995, the College of Professional Studies joined with Harley-Davidson Motor Company in developing an on-site undergraduate degree program. Qualified students who are Harley-Davidson employees are eligible to attend Marquette classes held at Harley-Davidson. Further information regarding participating in this program can be obtained by calling the Harley-Davidson academic adviser who is located on Marquette's campus in the 1212 Building, 1212 W. Wisconsin Ave., Room 103 or call (414) 288-3153.

## MARQUETTE UNIVERSITY KENOSHA CENTER

Marquette University, through the College of Professional Studies has established an additional site offering credit and non-credit courses. The center, located near the intersection of Hwy 50 and Interstate 94 in Kenosha County, is approximately 45 miles south of the Marquette campus. This 14,000 sq. ft. center offers a learning environment including four classrooms, two computer labs and a large conference room. Courses in the College of Professional Studies, as well as offerings from various other Marquette colleges are offered on weekends and weeknights. For information regarding the center in Kenosha county contact the program manager at (414) 857-7166.

## WAUKESHA COUNTY

The College of Professional Studies offers courses at the Country Inn Hotel and Conference Center in Pewaukee, Wis. The Country Inn Hotel and Conference Center is located off Interstate 94, exit Hwy T to Golf Road in Waukesha County. For information on this scheduling option, contact the adult student adviser assigned to students interested in the Waukesha site at (414) 288-3153.

## PART-TIME STUDIES PROGRAM

The Part-time Studies Program, in conjunction with the various colleges at Marquette University, offers an array of undergraduate degrees. If a student has the flexibility to enroll in day-time courses, the majority of Marquette University degree programs are available to them. However, many working adults are restricted to evening or weekend programs. If you are interested in the evening degree options, please consult an adviser in the College of Professional Studies.

The College of Professional Studies provides a professionally-trained academic advising staff to assist the student in the Part-time Studies Program. The adult student adviser is a resource to guide the student in planning, clarifying and achieving specific educational goals. For information regarding the Part-time Studies Program, call (414) 288-7499.

# COURSE DESCRIPTIONS

## PROFESSIONAL STUDIES (PRST)

**PRST 001. Foundations Seminar** 3 sem. hrs.  
Orientation to the environment and demands of the college classroom and a Marquette education; readings and discussion in literature and humanities; exploration of the learning skills needed for academic success; critical thinking, writing, studying memory, note and test taking, library and others.

**PRST 010. Principles of Liberal Studies**  
3 sem. hrs.

Considered the cornerstone of the College of Professional Studies curriculum, this course is an introduction to the disciplinary frameworks of the liberal arts core curriculum offered by Marquette University. Its purpose is to promote lifelong learning, and enhance the skills of analysis, problem solving, critical thinking, writing and communication needed for successful academic achievement in a liberal arts education. The course develops a common ground of understanding and values among students through shared knowledge of the liberal arts. The course offers students an opportunity to enhance their critical thinking, oral expression and writing. This course is required for all students in the College of Professional Studies.

**PRST 018. Aspects of Modern Science**  
3 sem. hrs.

An interdisciplinary, integrated study of processes and principles of modern biology, chemistry, and physics. Scientific inquiry as a means of knowledge; major technological contributions to modern societies: stability, information transfer, and evolution of biological systems, emphasizing relevant chemical and physical processes in specific environments. Accepted as natural science requirement for Organization and Leadership Program students ONLY.

**PRST 020. Foundations of Applied Mathematics** 3 sem. hrs.

This course includes the development of computational skills and the application of mathematics in business and other organizational disciplines. Topics will include algebraic operation, formula use and interpretation, equations and inequalities, graphs and functions, probability concepts, mathematics of finance, linear systems and linear programming.

**PRST 029. Introduction to Information Systems** 3 sem. hrs.

Fundamental information technology concepts and processes. An introduction to the major productivity application software packages and computer-based research.

**PRST 060. Research and Statistical Methods**  
3 sem. hrs.

Introduction to research and statistical methods used in business-related decisions; descriptive statistics; probability theory and distributions; sampling and sampling distributions; estimations and inferences; hypothesis testing; chi-squared and testing goodness-of-fit;

contingency tables; correlation and regression.  
*Prereq: MATH020 recommended.*

## ORGANIZATION AND LEADERSHIP (ORLE)

Faculty for the Organization and Leadership Program are drawn from the Colleges of Arts and Sciences, Business Administration and Communication.

**ORLE 032. Accounting Principles and Applications** 3 sem. hrs.

Measurement of income/expenses and the valuation of assets and equities under various kinds of organizations; structuring data to aid management decisions. *Prereq: MATH 020 or equivalent.*

**ORLE 034. Economic Theory and Practice**  
3 sem. hrs.

The Economic way of thinking (principles, analytic concepts and techniques) applied to consumer choice, resource use and the organization's pricing/hiring/production decisions; the operation of markets and the economic role of government; determinants of aggregate production, employment and the pricing level. *Prereq: MATH 020 or equivalent.*

**ORLE 036. Principles of Financial Management** 3 sem. hrs.

Acquisition and utilization of funds to support the production, personnel and marketing functions; theory of finance in relation to planning, control, risk and optimum capital structure. *Prereq: MATH 020 or equivalent.*

**ORLE 037. Personal and Family Financial Planning** 3 sem. hrs.

The course focuses on the financial planning needs of individuals, families and working professionals. Specific emphasis is given to contemporary issues facing individuals and households by providing a general overview across a broad range of topics. These topics include family budgeting, personal investing, consumer purchasing, credit, home purchasing/mortgages, employee benefit selection and estate planning. Students will also develop detailed individual and family financial plans.

**ORLE 038. Marketing Concepts and Applications** 3 sem. hrs.

Market function and its role in the economy; the role of marketing in achieving corporate objectives; market structure and demand characteristics; market research, development and distribution problems; promotion programs; pricing alternatives.

**ORLE 090. History and Theories of Leadership** 3 sem. hrs.

Analysis of the historical concepts and contemporary theories of leadership; emphasis on the application of leadership concepts to actual leadership situations.

**ORLE 091. Leading Teams and Groups**  
3 sem. hrs.

Team building and group theory, concepts, research and principles and applications;

understanding how teams and groups function; development of skills needed to lead and work effectively in teams and groups; exercises, simulations, experiential learning.

**ORLE 120, 121. Issues in Organizational Leadership 1, 2** 3 sem. hrs. each

The study of selected topics and applications including ethics and leadership, leading individuals, decision making and problem solving, leadership in formal organizations, leader as change agent, leadership and motivation, policy and leadership, entrepreneurial leadership and leadership in non-Western cultures. *Prereq: ORLE 090.*

**ORLE 129. Information Systems for Management** 3 sem. hrs.

An overview of the technological, managerial and organizational factors which impact information systems. The critical role of information systems at the operational, tactical and strategic levels of the organization will be examined. Advanced productivity application software projects. *Prereq: PRST 029, and three of the four classes ORLE 032, 034, 036, 038.*

**ORLE 132. Organizational Behavior**  
3 sem. hrs.

The behavior of people as individuals and in groups with emphasis on supervision, productivity and the organizational environment; the fundamentals of organizational theory, structure and administration. *Prereq: ORLE 091.*

**ORLE 133. Organization Development and Change** 3 sem. hrs.

This course reviews the broad background of organizational development (OD) and examine the assumptions, strategies, models, intervention techniques and other aspects of organizational development. The fundamental theories that underlie planned change are examined. The process of planned changes is then studied through a look at how OD practitioners enter and contract with client systems to diagnose organizations, groups and jobs; collect, analyze and feed back diagnostic data; design interventions; manage change; and evaluate and institutionalize change. Major OD methods - human process, techno-structural, human resource management and strategic interventions are deliberated. Students learn through case studies how different OD techniques or interventions are used by actual organizations. *Prereq: ORLE 134.*

**ORLE 134. Organizational Processes**  
3 sem. hrs.

Analyzes the major organizational processes and the role that managers play in changing those processes to increase organizational effectiveness. Course material presents the concepts of leadership, teamwork and communication within an organizational setting and requires students to design an organizational structure that effectively considers the environment, technology, goals, profile and stage of growth of the organization. *Prereq: ORLE 132.*

**ORLE 135. The Culturally Diverse****Organization** 3 sem. hrs.

Examination of interpersonal patterns of selected ethnic groups, races and social classes in the U.S.; gender differences and considerations; exploration of cultural diversity in the workplace: understanding appropriate behaviors; managing diversity in achieving the goal of the organization. *Prereq: ORLE 091.*

**ORLE 136. Principles of Human Resource**

3 sem. hrs.

Examines the principles, methods and practical applications of human resource management. Issues concerning the effective, equitable, ethical and legal treatment of employees will be reviewed related to attracting, selecting, developing, retaining, evaluating and utilizing human resources.

**ORLE 137. Organizational Strategies**

3 sem. hrs.

This course investigates how to craft, implement and execute organization strategies. The importance of identifying and determining the value-creating potential of a firm's resources, capabilities and core competencies is examined. The dynamics of strategic change in the complex global economy and at the corporate level are studied. *Prereq: ORLE 134.*

**ORLE 138. Leading Continuous Quality Improvement** 3 sem. hrs.

In-depth review of Continuous Quality Improvement (CQI) philosophies and guiding principles set the framework for this course. Interactive, hands-on learning of tools and techniques utilized in a CQI environment will occur. Case studies highlight systems and structures employed in multiple organizations. *Prereq: Completion of ORLE 060 or equivalent is suggested.*

**ORLE 139. Communicating Leadership: Issues and Applications** 3 sem. hrs.

This course moves beyond the study of what a leader is to how a leader accomplishes. While examining how leaders use communication students will critically analyze these questions. What is the relationship between leadership and communication styles? What communication competencies are needed by organizational leaders? How do leaders use communication to facilitate change in organizations? How does an individuals' gender, race and/or ethnicity affect leadership and communication behaviors. *Prereq: CMST 010 and ORLE 090.*

**ORLE 195. Independent Study** 1-3 sem. hrs.

Offered every quinmester. *Prereq: Cons. of college dean.*

**ORLE 197. Integrating Seminar** 3 sem. hrs.

Interdisciplinary, capstone experience; concentration on leadership as an integrated theme; shaping individual theories and applications across the curriculum into a holistic approach; using leadership skills to promote the advancement of community and organizational goals. Completion of all previous coursework required.

**THOMAS J. JABLONSKY, Ph.D.**

Director, Institute for Urban Life

**GREGORY J. KLIBZHAN**

Vice President, Planning and Associate Vice President, Administration

**WILLIAM K. LOBB, D.D.S.**

Dean, School of Dentistry

**REV. EUGENE F. MERZ, S.J.**

Rector, Jesuit Community

**G. JON PRAY**

Associate Vice President, Educational Technology

**RONALD L. RIPLEY**

Director, Facilities Services

**ARTHUR F. SCHEUBER**

Director, Information Technology Services

**SR. CAROLANN SMITH, S.H.C.J.**

Director, Center for Ignatian Spirituality

**G.E.O. WIDERA, Ph.D.**

Interim Dean, College of Engineering

## **COMMITTEE ON FACULTY 1998-1999**

**RAQUELAGUILÚ deMURPHY, Ph.D.**

Associate Professor of Spanish  
College of Arts and Sciences

**NANCY S. BELL, M.Ed.**

Clinical Assistant Professor of Dental Hygiene  
College of Health Sciences

**EDWIN F. BLOCK, Ph.D.**

Professor of English  
College of Arts and Sciences

**REBECCABARDWELL, Ph.D.**

Associate Professor of Education  
School of Education

**ERIKAG. BOGENSHILD, Ph.D.**

Associate Professor of Education  
School of Education

**JAMES B. COURTRIGHT, Ph.D. (Chair)**

Professor of Biology  
College of Arts and Sciences

**RICHARD J. FEHRING, Ph.D.**

Associate Professor of Nursing  
College of Nursing

**PETER R. JONES, Ph.D.(Vice Chair)**

Professor of Mathematics, Statistics  
andComputer Science  
College of Arts and Sciences

**JOSEPH D. KEARNEY, J.D.**

Assistant Professor  
Law School

**JANET W. KREJCI, Ph.D.**

Assistant Professor of Nursing  
College of Nursing

**CHERYL L. MARANTO, Ph.D.**

Associate Professor of Management  
College of Business Administration

**MICHAELA. McKINNEY, Ph.D.**

Associate Professor of Chemistry  
College of Arts and Sciences

**GARY S. MEYER, Ph.D.**

Assistant Professor of Communication Studies  
College of Communication

**ANNE PASERO, Ph.D.**

Associate Professor  
Foreign Languages and Literatures  
College of Arts and Sciences

**KATHLEEN A. REHBEIN, Ph.D.**

Associate Professor of Management  
College of Business Administration

**KRISTINAM. ROPELLA, Ph.D.**

Associate Professor of Biomedical Engineering  
College of Engineering

**EZEDIN M. SADEGHI, D.D.S.**

Associate Professor  
Comprehensive Care  
School of Dentistry

**MARTIN SEITZ, Ph.D.**

Professor  
Electrical and Computer Engineering  
College of Engineering

**JOAN M. SOMMER**

Interlibrary Loan Librarian  
Memorial Library  
Libraries

**MARIANNE E. WEISS, D.N.Sc.**

Associate Professor of Nursing  
College of Nursing

## **UNIVERSITY DEANS AND REGISTRAR 1998-1999**

**JACK C. BROOKS, Ph.D.**

Dean, College of Health Sciences

**RAYMOND A. BROWN**

Dean, Undergraduate Admissions

**REV. THADDEUS J. BURCH, S.J.**

Dean, Graduate School

**NICHOLAS C. BURCKEL, Ph.D.**

Dean, Libraries

**ROBERT J. DEAHL, Ph.D.**

Dean, College of Professional Studies

**HOWARD B. EISENBERG, J.D.**

Dean, Law School

**WILLIAM R. ELLIOTT, Ph.D.**

Dean, College of Communication

**DENNIS E. GARRETT, Ph.D.**

Interim Dean, College of Business Administration

**THOMAS E. HACHEY, Ph.D.**

Dean, College of Arts and Sciences

**MARY P. HOY, Ph.D.**

Dean, School of Education

**WILLIAM K. LOBB, D.D.S.**

Dean, School of Dentistry

**MARK D. McCARTHY, Ph.D.**

Dean, Student Development

**JAMES P. McMAHON, Ph.D.**

Dean, Residence Life

**ANTHONYD. TORTORELLA**

University Registrar

**MADELINE M. WAKE, Ph.D.**

Dean, College of Nursing

**G.E.O. WIDERA, Ph.D.**

Interim Dean, College of Engineering

# FACULTY/ ADMINISTRATORS 1998-99

## COLLEGE OF ARTS AND SCIENCES

### ADMINISTRATORS

**THOMAS E. HACHEY**

Dean

**JOHN S. PUSTEJOVSKY**

Associate Dean

**MARY F. DUNN WALD**

Associate Dean

**DARLENE A. LIEGL**

Director of College Administration

**MARY L. MINSON**

Director of College Advising Center

**VICKI M. TRAUTSCHOLD**

Director of Student Records

### FACULTY

**DOUGLAS J. ADAMS, Lt., USN, B.S.**

Auburn University

Assistant Professor of Naval Science

**RAQUELAGUILÚ deMURPHY, Ph.D.**

University of Wisconsin-Madison

Associate Professor of Spanish

**JAMES S. ALBRITTON, Ph.D.**

University of Bordeaux, France

Assistant Professor and Director of Criminology  
and Law Studies

**THOMAS C. ANDERSON, Ph.D.**

Marquette University

Professor of Philosophy

**RALPH I. ANZIVINO, J.D.**

Case-Western Reserve University

Professor of Law/Criminology and Law Studies

**ROBERT B. ASHMORE, Ph.D.**

University of Notre Dame

Professor of Philosophy

**CAROLYN A. ASP, Ph.D.**

University of Chicago

Associate Professor of English

**VAUGHNS. AUSMAN, M.S.**

Harvard University

Laboratory Supervisor and Lecturer of  
Chemistry

**STEVEN M. AVELLA, Ph.D.**

University of Notre Dame

Associate Professor and Chairperson of the  
Department of History

**ALAN M. BALL, Ph.D.**

University of North Carolina-Chapel Hill

Associate Professor of History

**PAUL J. BANKSTON, Ph.D.**

University of Wisconsin-Madison

Professor of Mathematics, Statistics and  
Computer Science

**NAVEEN K. BANSAL, Ph.D.**

University of Pittsburgh

Associate Professor of Mathematics, Statistics  
and Computer Science

**MARK A. BARNARD, Ph.D.**

University of North Carolina-Chapel Hill

Adjunct Assistant Professor of Mathematics,  
Statistics and Computer Science

**MICHEL R. BARNES, Ph.D.**

St. Michael's College, Toronto

Assistant Professor of Theology

**LOWELL W. BARRINGTON, Ph.D.**

University of Michigan

Assistant Professor of Political Science

**MILTON J. BATES, Ph.D.**

University of California-Berkeley

Professor of English

**STEPHEN M. BEALL, Ph.D.**

University of California-Berkeley

Assistant Professor of Classics

**JAMES J. BEIER, Lt., USN, B.S.**

Marquette University

Assistant Professor of Naval Science

**GISELABENDA, Ph.D.**

Northwestern University

Associate Professor of German

**MARVIN W. BERKOWITZ, Ph.D.**

Wayne State University

Professor of Psychology

**KARELD. BICHA, Ph.D.**

University of Minnesota

Professor of History

**EDWIN F. BLOCK, Ph.D.**

Stanford University

Professor of English

**MARY-CATHERINE BODDEN, Ph.D.**

University of Toronto

Associate Professor of English

**JANET K. BOLES, Ph.D.**

University of Texas-Austin

Professor of Political Science

**JOHN R. BOLY, Ph.D.**

Yale University

Associate Professor of English

**DOUGLAS E. BOOTH, Ph.D.**

University of Washington

Associate Professor of Economics

**CHRISTIAN C. BRAUNSCHWEIGER, Ph.D.**

University of Wisconsin-Madison

Professor Emeritus of Mathematics

**CHARLES H. BREEDEN, Ph.D.**

Virginia Polytechnic Institute

Associate Professor of Economics

**J. GLENN BROOKSHEAR, Ph.D.**

New Mexico State University

Associate Professor of Mathematics,  
Statistics and Computer Science

**BRIAN C. BRUSH, Ph.D.**

University of North Carolina-Chapel Hill

Professor and Chairperson of the Department  
of Economics

**JAMES T. BUCHANAN, Ph.D.**

Washington University, St. Louis

Associate Professor of Biology

**DAVID R. BUCKHOLDT, Ph.D.**

Washington University, St. Louis

Professor of Social and Cultural Sciences,  
and Vice President for Academic Affairs

**REV. THADDEUS J. BURCH, S.J., S.T.L.,  
Ph.D.**

Fordham University

Professor of Physics and Dean of the  
Graduate School

**KARLE. BYLEEN, Ph.D.**

University of Nebraska-Lincoln

Associate Professor of Mathematics,  
Statistics and Computer Science

**REV. THOMAS A. CALDWELL, S.J. M.A.,  
S.T.L.**

St. Louis University

S.S.L. Pontifical Institute of Rome

Assistant Professor of Theology

**PATRICK W. CAREY, Ph.D.**

Fordham University

Associate Professor and Chairperson of  
the Department of Theology

**GERMAN D. CARRILLO, Ph.D.**

University of Illinois-Urbana

Associate Professor of Spanish

**CURTIS L. CARTER, Ph.D.**

Boston University

Professor of Philosophy and Director of the  
Haggerty Museum of Art

**BELEN S. CASTAÑEDA, Ph.D.**

University of Wisconsin-Madison

Associate Professor of Spanish

**VIRGINIA A. CHAPPELL, Ph.D.**

University of Washington

Associate Professor of English and  
Director of First-year English

**ABDUR RAHIM CHOWDHURY, Ph.D.**

University of Kentucky

Associate Professor of Economics

**DAVID E. CLARK, Ph.D.**

SUNY-Binghamton

Associate Professor of Economics

**ANNE V. CLOUGH, Ph.D.**

University of Arizona-Tucson

Associate Professor of Mathematics,  
Statistics and Computer Science

**REV. DAVID M. COFFEY, S.T.D.**

Theological Faculty of Sydney

Distinguished Professor and President's  
Chair in Theology

**PATRICK J. COFFEY, Ph.D.**

St. Louis University

Associate Professor Emeritus of Philosophy

**KENT S. COLEMAN, Lt., B.A.**

Northwestern University

Assistant Professor of Naval Science

**ROBERTA L. COLES, Ph.D.**

University of Wisconsin-Madison

Assistant Professor of Sociology

**JOSEPH M. COLLINS, Ph.D.**

Illinois Institute of Technology

Associate Professor of Physics

**M. SHAWN COPELAND, Ph.D.**

Boston College

Associate Professor of Theology

**GEORGE F. CORLISS, Ph.D.**

Michigan State University

Professor of Mathematics,  
Statistics and Computer Science

**BRIGITTE M. COSTE, Ph.D.**

University of Massachusetts-Amherst

Associate Professor of French

**JAMES B. COURTRIGHT, Ph.D.**

Johns Hopkins University

Professor of Biology

**STEVEN E. CRANE, Ph.D.**

University of Colorado

Associate Professor of Economics and  
Director of the Center for Applied  
Economic Analysis

**SHELDON E. CREMER, Ph.D.**

University of Rochester  
Professor of Chemistry

**JOHN E. CURRAN, Ph.D.**

University of Virginia  
Assistant Professor of English

**JOHN D. CUSHMAN, Maj., USAR, B.S.**

Central Missouri State University  
Assistant Professor of Military Science

**DONALD A. CZECH, Ph.D.**

Syracuse University  
Associate Professor of Psychology

**D. LYLE DABNEY, Th.D.**

Eberhard-Karls University–Tübingen  
Assistant Professor of Theology

**JOSEPH P. DANIELS, Ph.D.**

Indiana University  
Associate Professor of Economics

**PETER L. DANNER, Ph.D.**

Syracuse University  
Professor Emeritus of Economics

**SARAH P. DAVIES CORDOVA, Ph.D.**

University of California–Los Angeles  
Assistant Professor of French

**JOHN B. DAVIS, Ph.D.**

Michigan State University  
Associate Professor of Economics

**ANTHONY R. DAY, Ph.D.**

University of Pennsylvania  
Associate Professor of Physics

**ROBERT J. DEAHL, Ph.D.**

Gregorian University, Rome  
Assistant Professor of Theology

**JOSEPH M. DEFALCO, Ph.D.**

University of Florida  
Professor Emeritus of English

**RALPH G. DELCOLLE, Ph.D.**

Union Theological Seminary (New York)  
Assistant Professor of Theology

**DEIRDREA. DEMPSEY, Ph.D.**

Catholic University of America  
Assistant Professor of Theology

**DARRELL D. DOBBS, Ph.D.**

University of Rochester  
Professor of Political Science

**WILLIAM A. DONALDSON, Ph.D.**

Dartmouth College  
Professor of Chemistry

**REV. JOHN P. DONNELLY, S.J., Ph.D.**

University of Wisconsin–Madison  
Professor of History

**REV. WILLIAM E. DOOLEY, S.J., S.T.L., PH.L.**

St. Louis University  
Associate Professor of Philosophy

**STEPHEN M. DOWNS, Ph.D.**

University of Iowa  
Associate Professor of Biology

**MICHAEL K. DUFFEY, Ph.D.**

University of Notre Dame  
Associate Professor of Theology

**EDWARD T. DUFFY, Ph.D.**

Columbia University  
Associate Professor of English

**THOMAS J. EDDINGER, Ph.D.**

University of Wisconsin–Madison  
Associate Professor of Biology

**RICHARD A. EDWARDS, Ph.D.**

University of Chicago  
Associate Professor and Assistant Chairperson  
of the Department of Theology

**REV. MICHAELA. FAHEY, S.J., Dr. Theol.**

Eberhard-Karls University–Tübingen  
Distinguished Professor and Emmett Doerr  
Chair in Catholic Systematic Theology

**MARY ANN FARKAS, Ph.D.**

Michigan State University  
Assistant Professor of Criminology and  
Law Studies

**CHRISTINE FIRER HINZE, Ph.D.**

University of Chicago  
Associate Professor of Theology

**ROBERT H. FITTS, Ph.D.**

University of Wisconsin–Madison  
Wehr Distinguished Professor of Biology

**MICHAEL H. FLEET, Ph.D.**

University of California–Los Angeles  
Associate Professor of Political Science

**MARY E. FOSSIER, M.A.**

University of Wisconsin–Milwaukee  
Lecturer in French

**SUSANNE E. FOSTER, Ph.D.**

University of Notre Dame  
Assistant Professor of Philosophy

**STEPHEN L. FRANZOI, Ph.D.**

University of California–Davis  
Associate Professor of Psychology

**WALTER W. FREDRICKS, Ph.D.**

Johns Hopkins University  
Professor of Biology

**H. RICHARD FRIMAN, Ph.D.**

Cornell University  
Associate Professor and Assistant Chairperson  
of the Department of Political Science

**DAVID E. GARDINIER, Ph.D.**

Yale University  
Professor of History

**REV. RAYMOND GAWRONSKI, S.J., S.T.D.**

Gregorian University, Rome  
Assistant Professor of Theology

**KEVIN W. GIBSON, Ph.D.**

University of Colorado–Boulder  
Assistant Professor of Philosophy

**MICHAEL P. GILLESPIE, Ph.D.**

University of Wisconsin–Madison  
Professor of English and Director of  
Graduate Studies in English

**PAULA F. GILLESPIE, Ph.D.**

University of Wisconsin–Madison  
Adjunct Assistant Professor of English and  
Director of the Ott Writing Center

**OWEN M. GOLDIN, Ph.D.**

University of Texas–Austin  
Associate Professor of Philosophy

**REV. ALEXANDER G. GOLITZIN, D. PHIL.**

Oxford University  
Associate Professor of Theology

**ARMANDO GONZÁLEZ-PÉREZ, Ph.D.**

Michigan State University  
Associate Professor of Spanish

**LANCE R. GRAHN, Ph.D.**

Duke University  
Associate Professor and Assistant Chairperson  
of the Department of History

**STEVEN M. GRAS, Ph.D.**

University of Texas–Austin  
Adjunct Assistant Professor of English and  
Director of the English as a Second  
Language Program

**MARC F. GRIESBACH, Ph.D.**

University of Toronto  
Professor Emeritus of Philosophy

**JOHND. GRYCH, Ph.D.**

University of Illinois–Urbana  
Assistant Professor of Psychology

**STEPHEN J. GUASTELLO, Ph.D.**

Illinois Institute of Technology  
Associate Professor of Psychology

**SUCHISMITA GUHA, Ph.D.**

Arizona State University  
Assistant Professor of Physics

**THOMASE. HACHEY, Ph.D.**

St. John's University  
Professor of History and Dean of the  
College of Arts and Sciences

**KENNETH G. HAGEN, Th.D.**

Harvard University  
Professor of Theology

**GHOLAMHOSSEIN G. HAMEDANI, Ph.D.**

Michigan State University  
Professor of Mathematics,  
Statistics and Computer Science

**CLEMENS B. HANNEKEN, Ph.D.**

University of Illinois  
Professor Emeritus of Mathematics

**J. DOUGLAS HARRIS, Ph.D.**

University of Kansas–Lawrence  
Professor and Chairperson of the  
Department of Mathematics, Statistics  
and Computer Science

**STANLEY M. HARRISON, Ph.D.**

Fordham University  
Associate Professor of Philosophy

**HEATHER A. HATHAWAY, Ph.D.**

Harvard University  
Assistant Professor of English

**DANIEL T. HAWORTH, Ph.D.**

St. Louis University  
Professor of Chemistry

**CARLAH. HAY, Ph.D.**

University of Kentucky  
Associate Professor of History

**ROBERT P. HAY, Ph.D.**

University of Kentucky  
Associate Professor of History

**SALLY HENNEN, Ph.D.**

Indiana University  
Associate Professor of Biology

**JULIAN V. HILLS, Th.D.**

Harvard University  
Associate Professor of Theology

**BRADFORD E. HINZE, Ph.D.**

University of Chicago  
Associate Professor of Theology

**DIANE L. HOEVELER, Ph.D.**

University of Illinois–Urbana  
Associate Professor of English

**NORMAN E. HOFFMAN, Ph.D.**

Northwestern University  
Professor Emeritus of Chemistry

**JAMES A. HOLSTEIN, Ph.D.**

University of Michigan  
Professor of Sociology

**JEANNE M. HOSSENLOPP, Ph.D.**

Syracuse University  
Associate Professor of Chemistry

**ANTHONY D. HOUSTON, Ph.D.**

University of Illinois—Champaign  
Assistant Professor of Spanish

**CLAUDE J. HRIBAL, M.A. (CREATIVE WRITING)**

Syracuse University  
Associate Professor of English

**FRANCIS A. HUBBARD, Ph.D.**

University of California—Berkeley  
Associate Professor of English and  
Assistant Dean of the Graduate School

**REV. D. THOMAS HUGHSON, S.J., Ph.D.**

St. Michael's College, Toronto  
Associate Professor of Theology

**WILLIAM J. HUNTER, Ph.D.**

Virginia Polytechnic Institute  
Associate Professor of Economics and  
Associate Dean of the College of Business  
Administration

**JAVIER A. IBÁÑEZ-NOÉ, Ph.D.**

University of Toronto  
Assistant Professor of Philosophy

**THOMAS J. JABLONSKY, Ph.D.**

University of Southern California  
Associate Professor of History, Director of the  
Institute for Urban Life

**ROBERT L. JAMISON, Ph.D.**

University of Washington  
Associate Professor of German

**VASANTHI JAYARAMAN, Ph.D.**

Princeton University  
Assistant Professor of Chemistry

**THOMAS L. JEFFERS, Ph.D.**

Yale University  
Associate Professor of English

**REV. ROBERT J. JODA, S.J., Ph.D.**

Northwestern University  
Assistant Professor of German

**MARK F. JOHNSON, Ph.D.**

University of Toronto  
Assistant Professor of Theology

**PATRICK C. JOHNSON, Lt. Col., USA, M.B.A.**

Florida Institute of Technology—Melbourne  
Professor and Chairperson of the Department  
of Military Science

**MARY H. JOHNSTONE, O.P., J.D.**

University of Wisconsin—Madison  
Adjunct Assistant Professor of Criminology and  
Law Studies

**JOHN D. JONES, Ph.D.**

Boston College  
Professor and Chairperson of the Department  
of Philosophy

**PETER R. JONES, Ph.D.**

Monash University, Australia  
Professor of Mathematics,  
Statistics and Computer Science

**RICHARD S. JONES, Ph.D.**

Iowa State University  
Associate Professor of Sociology

**TERRI A. JONES, Capt., USAF, M.B.A.**

Chapman University  
Associate Professor of Air Force Aerospace  
Studies

**GEORGE L. JUSTICE, Ph.D.**

University of Pennsylvania  
Assistant Professor of English

**HOWARD P. KAINZ, Ph.D.**

Duquesne University  
Professor of Philosophy

**JOHN P. KARKHECK, Ph.D.**

SUNY—Stony Brook  
Professor and Chairperson of the  
Department of Physics

**KATHLEEN M. KARRER, Ph.D.**

Yale University  
Associate Professor of Biology

**ALICE B. KEHOE, Ph.D.**

Harvard University  
Professor of Anthropology

**REV. WILLIAM J. KELLY, S.J., S.T.D.**

Institut Catholique de Paris  
Associate Professor of Theology

**JAMES R. KINCAID, Ph.D.**

Marquette University  
Professor of Chemistry

**RICHARD D. KNUDTEN, Ph.D.**

Case-Western Reserve University  
Professor of Sociology/Criminology and  
Law Studies

**KRYSTINA B. KORNIOWICZ**

University of Minnesota  
Adjunct Instructor of English

**JEANETTE R. KRAEMER, Ph.D.**

University of Minnesota—Minneapolis  
Associate Professor of French

**WILLIAM M. KRAHLING, Capt., USAF, B.S.**

St. Cloud State University  
Assistant Professor of Military Science

**GARY S. KRENZ, Ph.D.**

Iowa State University  
Associate Professor of Mathematics,  
Statistics and Computer Science

**CHRISTINE L. KRUEGER, Ph.D.**

Princeton University  
Associate Professor of English

**JOHN D. KRUGLER, Ph.D.**

University of Illinois—Urbana  
Associate Professor of History

**ANTHONY M. KUCHAN, Ph.D.**

Purdue University  
Assistant Professor of Psychology

**A. KRISHNAKUMARAN, Ph.D.**

University of Madras, India  
Professor Emeritus of Biology

**REV. WILLIAM S. KURZ, S.J., Ph.D.**

Yale University  
Professor of Theology

**ALAN F. LACY, Ph.D.**

Cornell University  
Associate Professor of German and  
Chairperson of the Department of Foreign  
Languages and Literatures

**JEAN-PIERRE LAFOUGE, Ph.D.**

Indiana University  
Associate Professor of French

**REV. ROBERT W. LAMBECK, S.J., M.A., S.T.L.**

St. Mary's, St. Louis University  
Assistant Professor of Theology

**FRANCISCO J. LAMELAS, Ph.D.**

University of Michigan  
Assistant Professor of Physics

**SUSAN J. LAMON, Ph.D.**

University of Wisconsin—Madison  
Associate Professor of Mathematics,  
Statistics and Computer Science

**LORRAINE Y. LANDRY, Ph.D.**

University of Toronto  
Assistant Professor of Philosophy

**REV. JOHN D. LAURANCE, S.J., Ph.D.**

University of Notre Dame  
Associate Professor of Theology

**LAWRENCE J. LEBLANC, Ph.D.**

University of Iowa  
Associate Professor of Political Science

**KIUCK LEE, Ph.D.**

Florida State University  
Research Professor of Physics

**CHYAN-JYUE LIU, Ph.D.**

University of Wisconsin—Milwaukee  
Associate Professor of Mathematics,  
Statistics and Computer Science

**ROBERT J. LUEGER, Ph.D.**

Loyola University, Chicago  
Associate Professor and Chairperson of the  
Department of Psychology

**TIM W. MACHAN, Ph.D.**

University of Wisconsin—Madison  
Professor and Chairperson of the Department  
of English

**DANIEL C. MAGUIRE, S.T.D.**

Gregorian University, Rome  
Professor of Theology

**JAMES S. MAKI, Ph.D.**

University of Wisconsin—Milwaukee  
Assistant Professor of Biology

**MARIAN L. MANYO, M.S.**

Purdue University  
Adjunct Instructor in Mathematics, Statistics  
and Computer Science

**WILLIAM MARKOWITZ, Ph.D.**

University of Chicago  
Professor Emeritus of Physics

**COURTNEY L. MARLAIRE, Ph.D.**

University of Wisconsin—Madison  
Assistant Professor of Sociology

**PATRICIA A. MARQUARDT, Ph.D.**

University of Wisconsin—Madison  
Associate Professor of Classics

**JAMES A. MARTEN, Ph.D.**

University of Texas—Austin  
Associate Professor of History

**ROBERT L. MASSON, Ph.D.**

Fordham University  
Associate Professor of Theology

**REV. DONALD R. MATTHYS, S.J., Ph.D.**

Washington University, St. Louis  
Professor of Physics

**JOHN C. McADAMS, Ph.D.**

Harvard University  
Associate Professor of Political Science

**JOHN D. McCABE, Ph.D.**

University of Minnesota  
Assistant Professor of English

**MICHAEL F. McCANLES, Ph.D.**

University of Kansas  
Professor of English

**BARRETT L. McCORMICK, Ph.D.**  
University of Wisconsin–Madison  
Associate Professor of Political Science and  
Coordinator of the International Affairs  
Program

**RITAT. McDONALD, Ph.D.**  
Loyola University–Chicago  
Associate Professor Emerita of Psychology

**DANIEL W. McELROY, Capt., USN, M.S.**  
National War College, National Defense  
University  
Professor and Chairperson of the  
Department of Naval Science

**JAMES M. McGIBANY, Ph.D.**  
Michigan State University  
Associate Professor of Economics and Director  
of the Center for Applied Economics

**MICHAELA. McKINNEY, Ph.D.**  
Illinois Institute of Technology  
Associate Professor of Chemistry

**REV. T. MICHAEL McNULTY, S.J., Ph.D.**  
University of Minnesota  
Associate Professor of Philosophy

**KENNETH S. MENDELSON, Ph.D.**  
Purdue University  
Professor of Physics

**STEPHEN J. MERRILL, Ph.D.**  
University of Iowa–Iowa City  
Professor of Mathematics,  
Statistics and Computer Science

**DONALD L. METZ, Ph.D.**  
University of California–Berkeley  
Associate Professor of Sociology

**GALE E. MILLER, Ph.D.**  
University of Kansas  
Professor of Sociology

**WILLIAM F. MILLINGTON, Ph.D.**  
University of Wisconsin  
Professor Emeritus of Biology

**PAUL MISNER, Th.D.**  
University of Munich  
Professor of Theology

**DAVID O. MOBERG, Ph.D.**  
University of Minnesota  
Professor Emeritus of Sociology

**MICHELAMONTANTE, Ph.D.**  
Florida State University  
Associate Professor of Italian

**JOHN C. MOYER, Ph.D.**  
Northwestern University  
Professor of Mathematics,  
Statistics and Computer Science

**ROBERT E. MULLINS, Ph.D.**  
Northwestern University  
Associate Professor of Mathematics,  
Statistics and Computer Science

**STEPHEN H. MUNROE, Ph.D.**  
Indiana University  
Professor of Biology

**MICHELLE MYNLIFF, Ph.D.**  
University of Colorado/Health Science Center  
Assistant Professor of Biology

**KAZUO NAKAMOTO, D.SC.**  
Osaka University, Japan  
Professor Emeritus of Chemistry

**RICHARD F. NASH, Ph.D.**  
Tulane University  
Associate Professor of Psychology

**FRANK M. NAUGHTON, Capt., USAF, M.S.**  
Wright State University  
Associate Professor of Air Force Aerospace  
Studies

**REV. JOHN E. NAUS, S.J., Ph.D.**  
Gregorian University, Rome  
Associate Professor of Philosophy and  
Assistant to the President

**PHILLIP C. NAYLOR, Ph.D.**  
Marquette University  
Associate Professor of History

**KRISTYA. NIELSON, Ph.D.**  
Southern Illinois University–Carbondale  
Assistant Professor of Psychology

**K. DALE NOEL, Ph.D.**  
University of California–Berkeley  
Professor of Biology

**FARROKH NOURZAD, Ph.D.**  
University of Kansas  
Associate Professor of Economics

**REV. TIMOTHY J. O'BRIEN, Ph.D.**  
Catholic University of America  
Adjunct Professor of American Government  
and Director of the Les Aspin Center  
for Government

**JOSEPH J. O'MALLEY, Ph.D.**  
Marquette University  
Professor Emeritus of Philosophy

**SHARON P. PACE, Ph.D.**  
University of Notre Dame  
Associate Professor of Theology

**ANNE M. PASERO, Ph.D.**  
University of Southern California  
Associate Professor of Spanish

**FRANCIS J. PASTIJN, Ph.D.**  
Rijksuniversiteit te Gent, Belgium  
Professor of Mathematics,  
Statistics and Computer Science

**ANTHONY F. PERESSINI, Ph.D.**  
University of Wisconsin–Madison  
Assistant Professor of Philosophy

**JANE D. PETERSON, Ph.D.**  
Arizona State University  
Assistant Professor of Anthropology

**MICHAEL J. PETRO, M.S.**  
Illinois State University  
Laboratory Supervisor of Chemistry

**ANDREW J. PFIESTER, Maj., USMC, M.B.A.**  
National University, San Diego  
Associate Professor of Naval Science

**J. MICHAEL PHAYER, Ph.D.**  
University of Munich  
Professor of History

**BELAE. PIACSEK, Ph.D.**  
Michigan State University  
Professor of Biology

**THOMAS L. PRENDERGAST, Ph.D.**  
St. Louis University  
Associate Professor of Philosophy

**REV. FRANCIS PAUL PRUCHA, S.J., Ph.D.**  
Harvard University  
Professor Emeritus of History

**JOHN S. PUSTEJOVSKY, Ph.D.**  
University of Texas–Austin  
Associate Professor of German and Associate  
Dean in the College of Arts and Sciences

**QUENTIN L. QUADE, Ph.D.**  
University of Notre Dame  
Raynor Professor Emeritus of Political Science

**MOHAMMED Y. QUERESHI, Ph.D.**  
University of Illinois–Urbana  
Professor of Psychology

**KRISTA L. RATCLIFFE, Ph.D.**  
Ohio State University  
Associate Professor of English

**MARGARET REID, Ph.D.**  
Harvard University  
Assistant Professor of English

**SCOTT A. REID, Ph.D.**  
University of Illinois–Urbana  
Assistant Professor of Chemistry

**JAMES M. RHODES, Ph.D.**  
University of Notre Dame  
Professor of Political Science

**LEE C. RICE, Ph.D.**  
St. Louis University  
Professor of Philosophy

**ALBERT J. RIVERO, Ph.D.**  
University of Virginia  
Professor of English and  
Director of the Honors Program

**REV. PHILIP J. ROSSI, S.J., Ph.D.**  
University of Texas–Austin  
Professor of Theology

**MARY F. ROUSSEAU, Ph.D.**  
Marquette University  
Associate Professor Emerita of Philosophy

**JULIUS R. RUFF, Ph.D.**  
University of North Carolina–Chapel Hill  
Associate Professor of History

**WIM B. RUITENBURG, Ph.D.**  
State University–Utrecht, Netherlands  
Associate Professor of Mathematics,  
Statistics and Computer Science

**MICHAEL D. RYAN, Ph.D.**  
University of Wisconsin–Madison  
Professor of Chemistry

**ALEXANDER J. RYBA, Ph.D.**  
Cambridge University  
Associate Professor of Mathematics,  
Statistics and Computer Science

**EUFEMIASÁNCHEZ DE LACALLE, Ph.D.**  
Michigan State University  
Associate Professor of Spanish

**AMELIA Z. SANDY, Ph.D.**  
Princeton University  
Assistant Professor of English

**STEPHEN M. SAUNDERS, Ph.D.**  
Northwestern University  
Assistant Professor of Psychology

**MICHAEL R. SCHLÄPPI, Ph.D.**  
University of Basel, Switzerland  
Assistant Professor of Biology

**JOHN J. SCHMITT, Ph.D.**  
University of Chicago  
Associate Professor of Theology

**DAVID M. SCHRADER, Ph.D.**  
University of Minnesota  
Research Professor of Chemistry

**JOSEPH M. SCHWARTZ, Ph.D.**  
University of Wisconsin–Madison  
Professor Emeritus of English

**ROBERT L. SHAPPELL, Col., USAF, M.A.**  
Central Michigan University  
Professor and Chairperson of the Department  
of Air Force Aerospace Studies

**ANEEA A. SHEIKH, Ph.D.**

Western Ontario, Canada  
Professor of Psychology

**JEFFREY R. SHERMAN, Maj., USMC, B.S.**

University of Utah—Salt Lake City  
Assistant Professor of Naval Science

**MARY ANNE T. SIDERITS, Ph.D.**

University of Michigan  
Assistant Professor of Psychology

**JOHN C. SIMMS, Ph.D.**

Rockefeller University, New York  
Associate Professor of Mathematics,  
Statistics and Computer Science

**MICHAEL C. SLATTERY, Ph.D.**

University of Wisconsin—Madison  
Associate Professor of Mathematics,  
Statistics and Computer Science

**WILLIAM G. SMILEY, Ph.D.**

University of Iowa  
Professor of Economics

**DANNY J. SMITH, CDR. USN, M.S.,  
M.B.A. (Cand.)**

Naval War College, Salve Regina University  
Associate Professor of Naval Science

**NANCY E. SNOW, Ph.D.**

University of Notre Dame  
Associate Professor of Philosophy

**ZBIGNIEW SORBJAN, Ph.D., HABIL. DR.**

Warsaw Polytechnical University  
Research Associate Professor of Physics

**LUIS SOTO-RUIZ, Ph.D.**

University of Michigan  
Professor Emeritus of Spanish

**EDDY M. SOUFFRANT, Ph.D.**

CUNY—City College  
Assistant Professor of Philosophy

**JAMES B. SOUTH, Ph.D.**

Duke University  
Assistant Professor of Philosophy

**R. CLIFTON SPARGO, Ph.D.**

Yale University  
Assistant Professor of English

**JANICE M. STARAL, Ph.D.**

University of Wisconsin—Milwaukee  
Assistant Professor of Social Work

**WILLIAM C. STARR, Ph.D.**

University of Wisconsin—Madison  
Associate Professor of Philosophy

**MARK G. STEINMETZ, Ph.D.**

University of Wisconsin—Madison  
Professor of Chemistry

**JAMES W. STEPHENS, Ph.D.**

University of Wisconsin—Madison  
Associate Professor of English

**AMY J. STICHMAN, M.S., Ph.D. (Cand.)**

University of Cincinnati  
Assistant Professor of Criminology and Law  
Studies

**CAROLL. STOCKHAUSEN, Ph.D.**

Marquette University  
Associate Professor of Theology

**REV. PAUL G. STOCKHAUSEN, S.J., S.T.L.**

Marquette University  
Associate Professor Emeritus of Theology

**REV. WALTER J. STOHRER, S.J., Ph.D.**

Georgetown University  
Adjunct Assistant Professor of Philosophy

**NORMAN C. SULLIVAN, Ph.D.**

University of Toronto  
Associate Professor of Anthropology and  
Chairperson of the Department of Social  
and Cultural Studies

**DUANE H. SWANK, Ph.D.**

Northwestern University  
Associate Professor of Political Science

**ANDREW F. TALLON, Ph.D.**

Universite de Louvain  
Professor of Philosophy

**ATSUKO TANI, M.A.**

Indiana University  
Adjunct Instructor of Japanese

**SMIO TANI, Ph.D.**

University of Tokyo, Japan  
Professor Emeritus of Physics

**RICHARD C. TAYLOR, Ph.D.**

University of Toronto  
Associate Professor of Philosophy

**STEVEN M. TAYLOR, Ph.D.**

Wayne State University  
Associate Professor of French

**REV. ROLAND J. TESKE, S.J., Ph.D.**

University of Toronto  
Professor of Philosophy

**ATHAN G. THEOHARIS, Ph.D.**

University of Chicago  
Professor of History

**RAJU G. C. THOMAS, Ph.D.**

University of California—Los Angeles  
Professor of Political Science

**ROBERT G. THOMSON, Ph.D.**

Marquette University  
Associate Professor Emeritus of Biology

**PETER J. TONELLATO, Ph.D.**

University of Arizona—Tucson  
Associate Professor of Mathematics,  
Statistics and Computer Science

**PETER G. TOUMANOFF, Ph.D.**

University of Washington  
Associate Professor of Economics

**CHIEU D. TRAN, Ph.D.**

Texas A&M University  
Wehr Distinguished Professor of Chemistry

**REV. JOHN L. TRELOAR, S.J., Ph.D.**

Michigan State University  
Associate Professor of Philosophy

**DAVID B. TWETTEN, Ph.D.**

University of Toronto  
Assistant Professor of Philosophy

**CHARLES P. URSENBACH, Ph.D.**

University of British Columbia  
Assistant Professor of Chemistry

**BRIAN R. UNSWORTH, Ph.D.**

University College of London  
Professor and Chairperson of the Department  
of Biology

**MARY P. UTZERATH, M.S.**

Marquette University  
Adjunct Instructor of Mathematics,  
Statistics and Computer Science

**JORGE M. VALADEZ, Ph.D.**

Yale University  
Assistant Professor of Philosophy

**POL G. VANDEVELDE, Ph.D.**

Université de Louvain  
Associate Professor of Philosophy

**MICHAEL G. VATER, Ph.D.**

Yale University  
Associate Professor of Philosophy

**BARRY L. VELLEMAN, Ph.D.**

University of Wisconsin—Madison  
Associate Professor of Spanish

**MELISSA VIGIL, M.A.**

DePaul University  
Laboratory Supervisor in the Department  
of Physics

**DANIEL J. WAGNER Jr., Maj., USAF, M.B.A.**

University of South Dakota  
Associate Professor of Air Force Aerospace  
Studies

**MARY L. WANDREI, Ph.D.**

Loyola University—Chicago  
Assistant Professor of Psychology

**GAILL. WARING, Ph.D.**

University of Oregon  
Professor of Biology

**ELIZABETH R. WATERS, Ph.D.**

Washington University  
Assistant Professor of Biology

**RALPH E. WEBER, Ph.D.**

University of Notre Dame  
Professor of History

**CAROLYN C. WELLS, Ph.D.**

University of Wisconsin—Madison  
Professor of Social Work and Director of  
the Social Work Program

**MICHAEL J. WIERZBICKI, Ph.D.**

Indiana University  
Associate Professor of Psychology

**CHARLES A. WILKIE, Ph.D.**

Wayne State University  
Professor and Chairperson of the Department  
of Chemistry

**CHRISTOPHER WOLFE, Ph.D.**

Boston College  
Professor and Chairperson of the Department  
of Political Science

**MICHAEL J. WREEN, Ph.D.**

Temple University  
Associate Professor of Philosophy

**CHAE S. YI, Ph.D.**

University of Wisconsin—Madison  
Assistant Professor of Chemistry

**BEATRICE H. ZEDLER, Ph.D.**

Fordham University  
Professor Emerita of Philosophy

**WANDAZEMLER-CIZEWSKI, Ph.D.**

Centre for Medieval Studies, Toronto  
Associate Professor of Theology

**REV. MICHAEL J. ZEPS, S.J., Ph.D.**

Stanford University  
Associate Professor of History

**RICHARD G. ZEVITZ, D.CRIM., J.D.**

University of California—Berkeley  
Associate Professor of Criminology and  
Law Studies

**MICHAEL R. ZIEGLER, Ph.D.**

University of Delaware—Newark  
Professor of Mathematics,  
Statistics and Computer Science

**RONALD E. ZUPKO, Ph.D.**

University of Wisconsin—Madison  
Professor of History

## COLLEGE OF BUSINESS ADMINISTRATION

### ADMINISTRATORS

**DENNIS E. GARRETT**  
Interim Dean

**WILLIAM J. HUNTER**  
Associate Dean

**JEANNE M. SIMMONS**  
Assistant Dean of Graduate Programs

**JOSEPH M. TERRIAN**  
Assistant Dean of Undergraduate Programs

**W. MARQ STANKOWSKI**  
Director of Career Development/Placement

**DONALD A. HOY**  
Associate Director of the EMBA Program

**DAVID E. MIELKE**  
Director of International Business Studies

**DEBORAH A. TADYCH**  
Assistant to the Dean

**SANDRAL. SHIRK**  
Director of the Center of Family Business

**REV. THOMAS N. BRENNAN, S.J.**  
Chaplain

### FACULTY

**MICHAEL D. AKERS, Ph.D.**  
University of Mississippi  
Associate Professor of Accounting and Charles  
T. Horngren Professorship in Accounting

**SYED H. AKHTER, Ph.D.**  
University of Oklahoma–Norman  
Associate Professor and Chairperson  
of the Department of Marketing

**J. CRAIG ANDREWS, Ph.D.**  
University of South Carolina  
Professor of Marketing and Charles H. Kellstadt  
Chair in Marketing

**CONNIE L. BAUER, Ph.D.**  
Michigan State University  
Associate Professor of Marketing

**THOMAS A. BAUSCH, D.B.A.**  
Indiana University  
Professor of Management

**DOUGLAS E. BOOTH, Ph.D.**  
University of Washington  
Associate Professor of Economics

**CHARLES H. BREEDEN, Ph.D.**  
Virginia Polytechnic Institute  
Associate Professor of Economics

**RALPH E. BROWNLEE, D.B.A.**  
Indiana University  
Professor Emeritus of Marketing

**BRIAN C. BRUSH, Ph.D.**  
University of North Carolina–Chapel Hill  
Professor and Chairperson of the  
Department of Economics

**ABDUR R. CHOWDHURY, Ph.D.**  
University of Kentucky  
Associate Professor of Economics

**DAVID E. CLARK, Ph.D.**  
SUNY–Binghamton  
Associate Professor of Economics

**ROBERT D. COLLINS, M.S.**  
Marquette University  
Adjunct Assistant Professor of Management

**JOHN L. COTTON, Ph.D.**  
University of Iowa  
Professor of Management

**STEVEN E. CRANE, Ph.D.**  
University of Colorado  
Bradley Associate Professor of Applied  
Economics

**PAULE. CULE, Ph.D.**  
Georgia State University  
Assistant Professor of Management

**JOSEPH P. DANIELS, Ph.D.**  
Indiana University  
Associate Professor of Economics

**PETER L. DANNER, Ph.D.**  
Syracuse University  
Professor Emeritus of Economics

**JOHN B. DAVIS, Ph.D.**  
Michigan State University  
Associate Professor of Economics

University of Illinois  
Professor of Civil and  
Environmental Engineering

**JEFFREY L. HOCK, Ph.D., P.E.**

University of Wisconsin–Milwaukee  
Professor and Chairperson of the Department  
of Electrical and Computer Engineering

**JAMES D. HORGAN, Ph.D., P.E.**

University of Wisconsin  
Professor Emeritus of Electrical and  
Computer Engineering

**THOMAS K. ISHII, Ph.D.**

University of Wisconsin–Madison  
Professor Emeritus of Electrical and  
Computer Engineering

**FRANCIS X. JACOBY, M.S.E.E., P.E.**

Marquette University  
Adjunct Assistant Professor of Electrical  
and Computer Engineering

**JON K. JENSEN, Ph.D.**

Marquette University  
Associate Professor of Mechanical  
Engineering and Associate Dean of the  
College of Engineering

**DEAN C. JEUTTER, Ph.D., P.E.**

Drexel University  
Professor of Biomedical, Electrical and  
Computer Engineering and Interim  
Chairperson of the Department of  
Biomedical Engineering

**ROGER H. JOHNSON, Ph.D.**

University of Washington–Seattle  
Assistant Professor of Biomedical Engineering

**SHRINIVAS G. JOSHI, Ph.D.**

University of California–Berkeley  
Professor of Electrical and Computer  
Engineering

**FABIEN JOSSE, Ph.D.**

University of Maine  
Professor of Electrical and Computer  
Engineering

**SAEED KARSHENAS, Ph.D., P.E.**

University of Illinois  
Associate Professor of Civil and  
Environmental Engineering

**DAVID A. KUEMMEL, M.S.**

University of Wisconsin–Madison  
Adjunct Professor of Civil and  
Environmental Engineering

**JOHN H. LINEHAN, Ph.D., P.E.**

University of Wisconsin–Madison  
Professor of Biomedical and Mechanical  
Engineering, Bagozzi Professor

**JOSEPH C. MAJDALANI, Ph.D.**

University of Utah  
Assistant Professor of Mechanical and  
Industrial Engineering

**RICHARD W. MARKLIN, Ph.D.**

Ohio State University  
Associate Professor of Mechanical and  
Industrial Engineering

**JOSEPH E. MATAR, Ph.D., P.E.**

University of Michigan  
Professor Emeritus of Mechanical and  
Industrial Engineering

**JONATHAN A. MEUS, M.S.**

Marquette University  
Adjunct Instructor of Civil and  
Environmental Engineering

**ARTHUR C. MOELLER, Ph.D.**

University of Wisconsin–Madison  
Professor Emeritus of Electrical and  
Computer Engineering

**WILLIAM G. MURPHY, M.S., P.E.**

University of Illinois  
Professor Emeritus of Civil and  
Environmental Engineering

**JOEL B. MYKLEBUST, Ph.D.**

Marquette University  
Professor of Biomedical, Electrical and  
Computer Engineering

**MARK L. NAGURKA, Ph.D., P.E.**

Massachusetts Institute of Technology  
Associate Professor of Mechanical and  
Industrial Engineering

**NICHOLAS J. NIGRO, Ph.D.**

Iowa State University  
Professor of Mechanical and Industrial  
Engineering

**VLADIMIR NOVOTNY, Ph.D.**

Vanderbilt University  
Professor of Civil and Environmental  
Engineering

**LARSE OLSON, Ph.D.**

Vanderbilt University  
Assistant Professor of Biomedical Engineering

**RICHARD J. PANLENER, M.E., P.E.**

Marquette University  
Associate Professor Emeritus of Mechanical  
Engineering

**ROBERT L. REID, Ph.D.**

Southern Methodist University  
Professor of Mechanical Engineering

**JAMES A. RICE, Ph.D.**

University of Wisconsin–Madison  
Assistant Professor of Mechanical and  
Industrial Engineering

**JAMES E. RICHIE, Ph.D.**

University of Pennsylvania  
Associate Professor of Electrical and  
Computer Engineering and Director of  
Graduate Studies for Department of  
Electrical and Computer Engineering

**SUSAN A. RIEDEL, S.M.**

Massachusetts Institute of Technology  
Associate Professor of Electrical and  
Computer Engineering

**RICHARD A. ROCKHILL, Ph.D.**

Marquette University  
Adjunct Assistant Professor of Electrical and  
Computer Engineering and Director of  
Freshman Engineering Programs

**KRISTINAM. ROPELLA, Ph.D.**

Northwestern University  
Associate Professor of Biomedical Engineering

**JOSEPH M. SCHIMMELS, Ph.D.**

Northwestern University  
Associate Professor of Mechanical and  
Industrial Engineering

**SUSAN C. SCHNEIDER, Ph.D.**

University of Wisconsin–Milwaukee  
Associate Professor of Electrical Engineering  
and Associate Chairperson of the  
Department of Electrical and Computer  
Engineering

**MARTIN A. SEITZ, Ph.D.**

Northwestern University  
Professor of Electrical, Computer, and  
Biomedical Engineering and Guy M. Minard  
Distinguished Professor in Engineering and  
Director, Materials Science and Technology  
Center

**ZACK A. SHANA, Ph.D.**

Marquette University  
Adjunct Assistant Professor of Electrical and  
Computer Engineering

**M. BARBARA SILVER-THORN, Ph.D.**

Northwestern University  
Assistant Professor of Biomedical Engineering

**RONALD C. SONNTAG, M.S.**

Purdue University  
Adjunct Associate Professor and Director of the  
Center for Highway and Traffic Engineering

**ROBERT J. STANGO, Ph.D.**

University of Illinois  
Associate Professor of Mechanical and  
Industrial Engineering

**SRIRAMULU VINNAKOTA, Ph.D.**

Swiss Federal Institute, Lausanne  
Professor of Civil Engineering

**ROBERT C. WEBER, Ph.D.**

University of Missouri, Rolla  
Associate Professor of Mechanical and  
Industrial Engineering

**THOMAS H. WENZEL, Ph.D.**

Northwestern University  
Associate Professor and Chairperson of the  
Department of Civil and Environmental  
Engineering

**G.E.O. WIDERA, Ph.D.**

University of Wisconsin–Madison  
Professor and Interim Dean of the College  
of Engineering

**ALPHONSE E. ZANONI, Ph.D.**

University of Minnesota  
Professor of Civil and Environmental  
Engineering

**DANIEL H. ZITOMER, Ph.D.**

Vanderbilt University  
Assistant Professor of Civil and  
Environmental Engineering

## COLLEGE OF HEALTH SCIENCES

### ADMINISTRATORS

**JACK C. BROOKS, Ph.D.**  
Dean

**JANE A. MUNDT, B.A.**  
Assistant to the Dean

### FACULTY

**GINAALFANO-ORENDORF, B.S., D.H.**  
Marquette University  
Clinical Instructor

**MARILYN M. BECK, B.S.D.H., M.Ed.**  
Marquette University  
Associate Professor of Dental Hygiene,  
Supervisor of Oral Anatomy; Coordinator of  
Baccalaureate Degree Completion and  
Continuing Education

**NANCY S. BELL, B.S., M.Ed.**  
Marquette University  
Assistant Professor of Dental Hygiene,  
Junior Clinic Supervisor, Coordinator of  
Continuing Education and Recruitment

**WILLIAM A. BELL, D.D.S.**  
Washington University, St. Louis  
Associate Professor of Basic Health Sciences

**SANDRABERMAN, M.A., CCC-SLP**  
Northwestern University  
Clinical Supervisor of Speech Pathology  
and Audiology

**SUBHASH C. BHATNAGAR, Ph.D., CCC-SLP**  
University of Rochester  
Associate Professor of Speech Pathology  
and Audiology

**JACK C. BROOKS, Ph.D.**  
University of Texas  
Professor of Basic Health Sciences and  
Dean of the College of Health Sciences

**LYNN A. BRYAN, B.S.D.H., M.Ed.**  
Marquette University  
Adjunct Assistant Professor (Clinical)  
Pre-Clinical Supervisor

**DAVID H. BURKE, Ph.D.**  
Temple University  
Associate Professor of Basic Health Sciences

**EDWARD W. CARROLL, Ph.D.**  
Medical College of Wisconsin  
Laboratory Supervisor of Basic Health Sciences

**PAUL J. COOGAN, M.D.**  
Chicago Medical School  
Adjunct Clinical Professor, Medical Director

**BERNARD C. COOK, MT(ASCP), Ph.D.**  
Medical College of Wisconsin  
Assistant Professor of Clinical Laboratory  
Science

**WILLIAM E. CULLINAN, Ph.D.**  
University of Virginia  
Assistant Professor of Basic Health Sciences

**PATRICIA D. DABROWSKI, M.S., CCC-SLP**  
San Francisco State University  
Clinical Supervisor of Speech Pathology  
and Audiology

**LINDAJ. DIEDRICH, B.S.D.H., M.S.**  
University of Wisconsin-Milwaukee  
Adjunct Assistant Professor (Clinical)

**KATHLEEN ERDMAN, M.S., CCC-SLP**  
University of Wisconsin-Madison

Clinical Supervisor of Speech Pathology  
and Audiology

**JEANNE A. FELDMAN, B.S.**  
Marquette University  
Adjunct Assistant Professor

**LELAD. FRANKLIN, B.A.**  
University of Wisconsin-Milwaukee  
Laboratory Supervisor of Basic Health  
Sciences

**TIMOTHY R. GENGEMBRE, M.B.A.**  
Keller Graduate School  
Clinical Associate Professor, Chairperson of the  
Department of Physician Assistant Studies  
and Director of the M.S. Program in  
Physician Assistant Studies

**TILLIE D. GINSBURG, M.S.**  
Marquette University  
Professor Emerita of Dental Hygiene

**THOMAS W. GUYETTE, Ph.D.**  
University of Kansas  
Associate Professor of Speech Pathology  
and Audiology

**LINDA HALLEN, M.S., CCC-SLP**  
University of Wisconsin-Eau Claire  
Clinical Instructor of Speech Pathology  
and Audiology

**KIM L. HALULA, M.S.**  
Ohio State University  
Assistant Professor and Chairperson,  
Department of Dental Hygiene

**JACK B. HANDLEY, M.A.**  
University of Wisconsin-Madison  
Clinical Assistant Professor

**ELAINE M. HOFFMAN, B.S.D.H.**  
Marquette University  
Adjunct Associate Professor (Clinical)

**ROBERT J. IORIO, Ph.D.**  
SUNY-Syracuse  
Associate Professor

**AMY B. JOHNSON, B.S.D.H.**  
Marquette University  
Adjunct Assistant Professor (Clinical)

**DONNA J. KELLY, Ph.D., CCC-SLP**  
University of Kansas-Lawrence  
Assistant Professor of Speech Pathology  
and Audiology

**PHYLLIS A. KIRCHNER, MT(ASCP) SH, B.S.**  
Michigan State University  
Laboratory Supervisor of Clinical Laboratory  
Science

**NANCY KIZIOR, B.S.D.H.**  
Marquette University  
Clinical Instructor

**LUTHER C. KLOTH, M.S.**  
Marquette University  
Professor of Physical Therapy

**LAURIE B. KONTNEY, M.S.**  
University of Wisconsin-Madison  
Academic Coordinator of Clinical Education  
of Physical Therapy

**EDWARD W. KORABIC, Ph.D., CCC-A**  
Syracuse University  
Associate Professor, Chairperson of Speech  
Pathology and Audiology and Director of  
the M.S. Program in Speech-Language  
Pathology

**WENDY KRUEGER, M.S., CCC-SLP**  
Marquette University

Clinical Instructor of Speech Pathology  
and Audiology

**WILLIAM L. KOS, Ph.D.**  
University of Maryland  
Associate Professor of Basic Health Sciences

**LINDAJ. LAATSCH, MT(ASCP) SM, M.A.**  
Central Michigan University  
Associate Professor of Clinical Laboratory  
Science

**ANN W. LEDBURY, B.S.D.H.**  
Marquette University  
Adjunct Assistant Professor (Clinical)

**MARILYN E. LEFAIVRE, B.S.**  
Marquette University  
Adjunct Assistant Professor

**JOHN A. LEVENE, M.S.**  
University of Wisconsin-Milwaukee  
Adjunct Assistant Professor

**SUE ELLEN LINVILLE, Ph.D., CCC-SLP**  
Northwestern University  
Associate Professor of Speech Pathology  
and Audiology

**DOUGLAS C. LOBNER, Ph.D.**  
University of Wisconsin-Madison  
Assistant Professor

**JENNIFER C. MENDEZ, Ph.D.**  
Marquette University  
Director, Gerontology Specialization and  
Wisconsin Geriatric Education Center

**LINDA M. MILSON, MT(ASCP), M.S.**  
University of Wisconsin-Milwaukee  
Associate Professor and Acting Chairperson  
of Clinical Laboratory Science

**MIRIAM R. MOLLER, M.S., CCC-SLP**  
Marquette University  
Professor Emerita of Speech Pathology  
and Audiology

**ANNE NOHL, B.S., PA-C**  
University of Wisconsin-Madison  
Director of Clinical Education Physician  
Assistant Studies

**DONALD A. NEUMANN, Ph.D.**  
University of Iowa  
Associate Professor of Physical Therapy

**LARRY J. NOSSE, M.A.**  
University of Southern California  
Associate Professor of Physical Therapy

**LAWRENCE G. PAN, Ph.D.**  
Medical College of Wisconsin  
Associate Professor and Chairperson of  
the Department of Physical Therapy and  
Director of the M.S. Program in Physical  
Therapy

**PAULAE. PAPANKE, Ph.D.**  
University of Florida  
Assistant Professor of Physical Therapy

**THERESE A. PREKOP, B.S.D.H.**  
Marquette University  
Adjunct Assistant Professor (Clinical)

**SANTINAPUGLISI-CREEGAN, M.S.,  
CCC-SLP**  
Marquette University  
Clinical Supervisor of Speech Pathology  
and Audiology

**GREGORY M. RAJALA, Ph.D.**  
Medical College of Wisconsin  
Associate Professor of Basic Health Sciences

**JAMES C. SCHABLA, B.A., B.S.N.**

University of Wisconsin-Madison  
Clinical Assistant Professor

**KATHERINE F. SCHRUBBE, B.S.D.H., M.Ed.**

Marquette University  
Adjunct Associate Professor (Clinical)

**MICHELLE SCHUH, M.S.**

University of Wisconsin-La Crosse  
Academic Coordinator of Clinical Education  
of Physical Therapy

**NANCY SCHULTZ, B.S.D.H.**

Marquette University  
Clinical Instructor

**ROBERT H. SEEDS, Ph.D.**

University of Wisconsin-Milwaukee  
Adjunct Assistant Professor

**ELIZABETH N. SHINNERS, Ph.D.**

Medical College of Wisconsin  
Assistant Professor of Basic Health Sciences

**KEVIN R. SIEBENLIST, B.A., Ph.D.**

Medical College of Wisconsin  
Assistant Professor of Basic Health Sciences

**FRANKLIN H. SILVERMAN, Ph.D., CCC-SLP**

University of Iowa  
Professor of Speech Pathology and Audiology

**DAWN SMITH, B.S., PA-C**

University of Wisconsin-Madison  
Clinical Assistant Professor of Physician  
Assistant Studies

**Y. G. SIMONEAU, Ph.D.**

University of Pennsylvania  
Assistant Professor of Physical Therapy

**DENNIS G. SOBUSH, M.A.**

Marquette University  
Associate Professor of Physical Therapy

**ANNAM. STAMAS, B.S.D.H., M.S.**

University of Wisconsin-Milwaukee  
Adjunct Assistant Professor (Clinical)

**TINASTOECKMANN, B.S.P.T.**

University of Wisconsin-Madison  
Clinical Assistant Professor of Physical Therapy

**WILLIAM TROTTER, Ph.D., CCC-SLP**

University of Iowa  
Professor Emeritus of Speech Pathology  
and Audiology

**LINDAK. VAUGHN, Ph.D.**

University of Michigan  
Associate Professor and Chairperson of the  
Department of Basic Health Sciences

**LINDAA. WENNINGER, B.S.D.H.**

Marquette University  
Adjunct Assistant Professor (Clinical)

**CECILIA WILLIAMS-SALOUTOS, B.S.D.H., M.S.**

University of Wisconsin-Milwaukee  
Adjunct Associate Professor (Clinical)

**COLLEEN M. WIRTH, B.S.D.H.**

Marquette University  
Adjunct Associate Professor (Clinical)  
Senior Clinic Supervisor

**DOROTHY H. WOOD, M.S., CCC-SLP**

Marquette University  
Coordinator of Clinical Services of Speech  
Pathology and Audiology

**JOAN ZYMANEK, B.S.D.H.**

Marquette University  
Clinical Instructor

**COLLEGE OF NURSING****ADMINISTRATORS****MADLINE WAKE, Ph.D., F.A.A.N.**

Dean

**JUDITH A. MILLER, Ph.D., F.A.A.N.**

Associate Dean for Academic Affairs

**JUDITH H. LEWIS, Ed.D.**

Associate Dean for Administration and Practice

**FACULTY****MARY BARONI, Ph.D., P.N.P.**

Cornell University  
Associate Professor of Nursing

**KERRY CHEEVER, Ph.D., C.C.R.N., C.E.N.**

University of South Carolina  
Assistant Professor of Nursing

**AMY M. COENEN, Ph.D., C.S.**

University of Wisconsin-Milwaukee  
Assistant Professor of Nursing

**RICHARD J. FEHRING, D.N.Sc.**

Catholic University of America  
Assistant Professor of Nursing

**DIANE DRESSLER, M.S.N., C.C.R.N., C.C.T.C.**

Marquette University  
Clinical Assistant Professor of Nursing

**MARILYN D. FRENNE, Ph.D.**

University of Wisconsin-Milwaukee  
Assistant Professor of Nursing

**LISA HANSON, D.N.Sc., C.N.M.**

Rush University-Chicago  
Assistant Professor of Nursing

**KATHRYN S. HARROD, D.N.Sc., C.N.M.**

Rush University-Chicago  
Clinical Assistant Professor of Nursing

**ROXANA HUEBSCHER, Ph.D., F.N.P.**

University of Colorado-Denver  
Clinical Associate Professor of Nursing

**KAREN IVANTIC-DOUCETTE, M.S.N., R.N.-C.S., A.C.R.N., F.N.P.**

Marquette University  
Clinical Instructor

**KAY R. JANSEN, M.S.N., C.S.**

University of Wisconsin-Madison  
Clinical Instructor of Nursing

**SR. ROSALIE KLEIN, D.Sc.**

Tulane University  
Dean Emerita of Nursing

**CHRISTINE R. KOVACH, Ph.D.**

University of Rochester  
Associate Professor of Nursing

**JUDITH KOWATZSCH, M.S.N., C.S.**

Marquette University  
Clinical Instructor of Nursing

**BARBARA KITZES, M.S., ACNP**

Rush University-Chicago  
Clinical Instructor of Nursing

**JANET KREJCI, Ph.D., C.N.A.A.**

University of Wisconsin-Milwaukee  
Assistant Professor of Nursing

**MARYPAT KUNERT, Ph.D.**

Medical College of Wisconsin  
Assistant Professor of Nursing

**JUDITH H. LEWIS, Ed.D.**

University of Cincinnati  
Assistant Professor of Nursing

**MARY A. LOUGH, Ph.D.**

University of Wisconsin-Milwaukee  
Assistant Professor of Nursing

**MICHELE MALIN, Ph.D.**

University of Wisconsin-Milwaukee  
Assistant Professor of Nursing

**ROSEMARIE MATHEUS, M.S.N.**

Marquette University  
Clinical Instructor of Nursing

**JANE MCCARTHY, M.S., C.C.R.N.**

University of Wisconsin-Madison  
Clinical Instructor of Nursing

**SHARON ROTH McGUIRE, M.S., G.N.P.**

Boston University  
Clinical Instructor of Nursing

**RUTH McSHANE, Ph.D.**

University of Wisconsin-Madison  
Clinical Assistant Professor of Nursing

**JUDITH A. MILLER, Ph.D., F.A.A.N.**

University of Illinois-Chicago  
Professor of Nursing and Associate Dean  
for Academic Affairs

**MAUREEN E. O'BRIEN, Ph.D.**

University of Texas-Austin  
Assistant Professor of Nursing

**POLLY RYAN, Ph.D.**

University of Wisconsin-Milwaukee  
Assistant Professor of Nursing

**MARY JANE SCHANK, Ph.D.**

Marquette University  
Professor of Nursing

**DORIS J. SCHONEMAN, M.S.N., C.S.**

University of Wisconsin-Milwaukee  
Adjunct Assistant Professor of Nursing

**MICHELE SCHROEDER, Ph.D., P.N.P.**

University of Wisconsin-Madison  
Assistant Professor of Nursing

**CHRISTINE R. SHAW, Ph.D., C.S., F.N.P.**

University of Wisconsin-Milwaukee  
Clinical Associate Professor of Nursing

**SUSAN P. STROUPE, M.S.N., P.N.P.**

Marquette University  
Clinical Instructor of Nursing

**TERRY R. TOBIN, M.S.N., M.P.H.**

University of California-Berkeley  
Associate Professor of Nursing

**LEONAG. VANDEVUSSE, Ph.D., C.N.M.**

University of Wisconsin-Milwaukee  
Assistant Professor of Nursing

**MADLINE WAKE, Ph.D., F.A.A.N.**

University of Wisconsin-Milwaukee  
Associate Professor of Nursing and  
Dean of the College of Nursing

**DARLENE WEIS, Ph.D.**

University of Wisconsin-Milwaukee  
Associate Professor of Nursing

**CHRISTINE WHITNEY, D.N.Sc.**

Rush University-Chicago  
Assistant Professor of Nursing

**MARIANNE E. WEISS, D.N.Sc.**

University of San Diego  
Associate Professor of Nursing

**MARY WESTERMAN, M.S.N.**

University of Illinois-Chicago  
Clinical Instructor

**SARAH A. WILSON, Ph.D.**

University of Wisconsin-Milwaukee  
Associate Professor of Nursing

**COLLEGE OF  
PROFESSIONAL STUDIES**

**ADMINISTRATORS**

**ROBERT J. DEAHL, Ph.D.**  
Dean

**SANDRAH. WALDSCHMIDT, M.Ed.**  
Assistant Dean

**PETER B. BECK**

Adult Student Adviser/Adult Learning Outreach  
Coordinator

**CHRISTINE M. ROGERS**

Adult Student Adviser/Waukesha Coordinator

**MARY BETH SANCOMB, M.S.**

Adult Student Adviser

**PHILLIPM. SCHAEFER, M.S.**

Adult Student Adviser/Kenosha Program  
Manager

**LORI A. SCHLICHT**

Adult Student Adviser/Adult Learning Outreach  
Coordinator

**KRIS T. STEINBERGER, M.Ed.**

Adult Student Adviser/Admissions Coordinator

**FACULTY**

Faculty for the College of Professional Studies  
are drawn from the Colleges of Arts and  
Sciences; Business Administration; and  
Communication.
